

HB 2692 -- CAREER AND TECHNICAL EDUCATION PROGRAMS

SPONSOR: Wilson

This bill requires that beginning in the 2024-25 school year the State Board of Education and the Career and Technical Education Advisory Council evaluate the Federal taxonomic coding scheme of instructional programs known as the Classification of Instructional Programs (CIP) to determine the types of instructional programs that may meet the minimum requirements leading to recognition as part of a CTE program that offers a CTE certificate. Upon evaluation the bill requires the Board and Council to determine if an existing teaching certification can be applied to the CIP code or approve a certification for a program with inappropriate teacher certification until the appropriate certification for such CIP code can be approved.
