

HB 2922 -- INSTRUCTION ON HUMAN SEXUALITY AND DEVELOPMENT IN SCHOOLS

SPONSOR: Billington

This bill modifies the course materials and instruction relating to human sexuality to include, beginning in the 2024-25 school year, a human growth and development discussion. Districts and charter schools must require such instruction beginning in grade three. The bill outlines requirements including requiring a high definition video of fetal development and the "Meet Baby Olivia" video showing the process of fertilization and every stage of human development.

The Attorney General has standing as *parens patriae* to enforce the provisions of the bill and a cause of action for damages and relief is created.

This bill is the same as HB 1576 (2024).
