

SS SB 751 -- DISTRIBUTION OF 340B DRUGS

This bill provides that entities specified in this bill should not restrict acquisition or delivery of 340B drugs to pharmacies that are under contract with a covered entity to receive and dispense 340B drugs on behalf of the covered entity. Violation of this provision constitutes unlawful merchandising practice, with each package of 340B drugs affected, as defined by Federal law, constituting a separate violation. The Board of Pharmacy may investigate and impose discipline for violations of these provisions.

This bill specifies that nothing within its provisions should be construed or applied to be less restrictive than Federal law, or to conflict with Federal or State law. Limited distribution of a drug required under Federal law will not constitute a violation of this bill.
