Dear Members of the Conservation and Natural Resources Committee, We are writing this letter to express Tnemec Company, Inc.'s support of HB 2852, the Missouri Paint Stewardship Program. Tnemec Company, Inc. was founded in 1921 in Kansas City, Missouri and specializes in protecting surfaces and structures from corrosion with high-performance coatings and linings. We remain one of the largest privately held protective coatings manufacturers in North America with our coatings protecting surfaces from Los Angeles to Philadelphia, Shanghai to San Juan. Throughout our century growth as a company, we have remained headquartered in Kansas City, Missouri and currently employ over 150 Missourians at our North Kansas City manufacturing site and corporate offices. We have grown with the State of Missouri and intend to do so for the foreseeable future. HB 2152 will enable the paint industry to develop and implement a post-consumer paint management system for the reuse, recycling, and proper disposal of paint in Missouri. Tnemec Company, Inc. appreciates your support of this important legislation, and we look forward to working with PaintCare, the Missouri Department of Natural Resources, and local Household Hazardous Waste programs to implement the program upon successful passage of this bill. HB 2152 will provide a convenient network of collection centers for Missouri residents and divert thousands of gallons of leftover paint from landfills at no cost to the State. In addition, the PaintCare program operates in cooperation with existing municipal facilities and saves them money by covering the costs of transporting and processing leftover paint. PaintCare is already operating in at least ten jurisdictions including Connecticut, Rhode Island, Vermont, Maine, California, Oregon, Washington, Colorado, Minnesota, and the District of Columbia. HB 2152 outlines the specific elements for a successful industry-run paint stewardship program in Missouri, including a sustainable funding mechanism and a fair, level playing field for both manufacturers and retailers. Thank you for your support of this bill and we respectfully urge you to move this forward with a favorable report. Sincerely, Tnemec Company Inc. Kyle Frakes, CHMM Director of Technical and Regulatory Affairs

February 11, 2024
 Chairman Bruce Sassmann
 House Conservation and Natural Resources
 Committee
 Missouri House of Representatives
 201 West Capitol Avenue
 Room 305-A
 Jefferson City MO 65101
 Dear Chairman Sassmann and Members of the Committee,
 Missouri Coalition for the Environment is a statewide, advocacy nonprofit organization that works to empower Missourians to protect their environment and health. House Bill 2152 would benefit Missourians by requiring paint recycling programs. For this reason, we respectfully ask that you support HB 2152. This bill would require paint manufacturers to have a paint recycling program, which would reduce waste by better reusing and recycling paint. Waste reduction is good for Missouri's people and environment. Currently, leftover paint is one of the biggest sources of household hazardous waste and the collection programs put a financial burden on shrinking municipal budgets. This program would ensure consistency of paint management statewide and reduce waste by actually recycling unused paint. It would also save governments money by placing the responsibility of handling leftover paint with the manufacturers. Once again, Missouri Coalition for the Environment asks you to vote "yes" on HB 2152 in order to reduce waste for the good of Missouri's people and environment. Thank you for your time.
 Sincerely,
 Melissa Vatterott, JD
 Policy Director
 Missouri Coalition for the Environment

I think a paint recycling program is very much needed and something that just about everyone could support and use.

As District Planner for the Mid-Missouri Solid Waste Management District, I wanted to share that our Executive Board has passed a resolution supporting a paint stewardship in Missouri. Our office regularly receives questions from citizens asking for help disposing of paint. Because of the current cost of processing, very few options are available in mid-Missouri.
