The Jewish Community Relations Council (JCRC), guided by Jewish values, advocates, educates, collaborates, and mobilizes action on issues important to the Jewish community, 60,000 strong in St. Louis. We are committed to pursuing religious tolerance, civic discourse and social justice in St. Louis and beyond. Jews also believe in the concept of B'tzelem Elohim. We are all created in the image of God. This includes people of all races, genders, and faiths. Discrimination against any group is wrong and must be addressed. Our sages note the repeated emphasis on the stranger in biblical law. According to Rabbi Eliezer in the Talmud (Baba Metsia 59b) the Torah "warns against the wronging of a ger."Today we define ger, the stranger, as those whose liberties and lives are threatened simply because of the color of their skin, their gender identity, their country of origin, or their religious beliefs. The stranger is anyone who must daily confront systemic denial of access to opportunities enjoyed by most other members of society. As a part of the Jewish Community, we have experienced what is it liked to be treated as a ager or "other," and still today, some Jews feel the need to hide their identifies, uncomfortable with the discrimination or comments they might be subject to because they wear a yamulke (protective head covering), or a symbol of their Judaism such as a Jewish star around their neck. These bills ensure no person shall be subjected to discrimination on the basis of race in any program or activity conducted by an educational institution that receives or benefits from state financial assistance or enrolls pupils who receive state student financial aid. This includes discrimination based on hair texture and protective hairstyles, meaning styles or types historically associated with race that includes, but is not limited to braids, locks, afros, curls, and twists. These bills offer protection against racism. We are a country and state that is still struggling with a problematic history including slavery and systemic and institutional racism. These disparities have created a wealth and income gap, which can be closed in part through education. These bills will reduce discrimination in publicly supported education institutions. We urge you to support these bills.

As a black woman, I always have to be mindful of my hair when going on interview or even in the work place. In a previous job, on my first day a Caucasian woman asked me if my hair was real. I haven't even been in the office for 10 minutes before she came up to me and asked. She continued to make the same comments throughout my 2 years of working there every time I would change my hairstyle. Once when I wore it in its natural curly state, my supervisor said, "you look like a little kid, so adorable" and then proceeded to touch my hair unsolicited. That's two super ate individuals who made me uncomfortable and I was told it was no big deal when I took it my concerns to HR. For my current position. I had to take a drug test. T the time I had braids and was unaware of needed to take a sample hair drug test prior to getting them. I had to take one of my freshly done braids out to give the hair sample. This same position, I was worried about showing up to work on my first day with braids. I work for a prestigious university in St. Louis and did not want my hair to be a topic of conversation like the previous job. With it being summer and my hair being natural (not processed to become straight), I decided to keep my braids in. I also was tired of having to assimilate to got the "culture" of the work place. I decided that day, that I would never make a company, job etc make me feel like I have to straighten my hair or not have braids to be "professional". By me taking a stance, I was told by all of my black coworkers that they now feel comfortable wearing braids to work. That made me feel amazing that I could create that safe space for my coworkers. I've given presentation, went to conferences and written a medical publication all with braids or my hair in its natural state. I want to be the representation my community needs. I want to show how our hair IS professional. Our hair and the various styles of our hair in the black community should not be a topic of conversation. How can the way our hair naturally grow be considered "unprofessional". That's absurd and rooted in systemic racism. The fact that we even have to create the Crown Act to stop being targeted in spaces where we are simply existing, wearing what we are born with is disturbing and sad. We are 238 years from the start of the Tignon Laws that made blacks and Creole women cover their hair with fabric simply because our hair was seen as a distraction. How are we still having the same issues centuries later? Which, to bring up another topic in the back culture as well as the Muslim culture, how are headwraps deemed "unprofessional" when a nun covering her head is acceptable? You can't say one thing is ok for one sector of individuals but are selective when it comes to marginalized communities. More specifically the black community, It's blatant racism and prejudice, Period, Anyone who thinks otherwise should check their own biases. The crown act needs to be passed so that we (african Americans) can stop being patronized, targeted and bullied.

Please find below a letter from Mayor Jones outlining her support for HB 1591, HB 1900, and HB 2515; Dear Members of the House Special Committee on Urban Issues, On behalf of the City of St. Louis, I would like to offer testimony in support of the CROWN Act. CROWN means Create a Respectful and Open World for Natural Hair. Respect for natural or traditional hairstyles demonstrates basic respect for those who serve in our armed forces and for people in the workplace. Natural hair style choices should never be grounds for discrimination. In 2014, the U.S. military loosened their restrictions on Black hairstyles, permitting more natural hairstyles within the ranks. A 2023 workplace study that surveyed nearly 3,000 female respondents found that Black women's hair was two-and-ahalf times more likely to be perceived as unprofessional and one-fifth of the Black women surveyed between the ages of 25 and 34 had been sent home from work because of their hair. In educational spaces, scenes such as the galling video of Andrew Johnson's locks being cut on site to be permitted to continue with wrestling was a stark reminder of how far we still have to go. Hair discrimination is a silent barrier that can prevent access to employment, education, and economic prosperity. Black Missourians should be allowed to be their full and authentic selves in any space they occupy, that includes wearing their hair in its natural state. I know, as the first Black woman to be the Mayor of St. Louis, I have the privilege to show children that they are welcome in St. Louis and they should come as they are. I have worked as a customer service representative, as an entrepreneur, as a health administrator, as a state legislator, as Treasurer and now as Mayor. I know that my hairstyle has never impacted my ability to do my job but I can tell you directly that I have always thought about how my hair would impact how my colleagues or employers saw me. I never wore my natural hair if I did not know explicitly that wearing a natural style would be welcomed. I want this to be different for all of us going forward, including my son who wears his hair in a variety of different ways. We can make sure that the law offers protection from this type of discrimination. In 2021, I signed the CROWN Act into law for the City of St. Louis. The time is always right to do the right thing for our community. Sincerely, Mayor Tishaura O. Jones

This shouldn't even be a situation to warrant how people wear their hair in 2024. People of non-ethnic descent choose to color their hair to match holidays, teams, and display comradery whereas a nationality is viewed different to affect schooling choices, employment choices, and stereotypical behavior is preposterous.

I urge you to support HB1900, HB1591, HB2515, and any similar bills, which establishes the "Missouri Creating a Respectful and Open World for Natural Hair (Missouri CROWN) Act." Currently, it is legal to discriminate against a person in the workplace or schools because of their natural or protective hairstyle. Hair discrimination remains a source of racial injustice with serious economic consequences for Black people. The CROWN Act corrects these racial injustices by making hair discrimination illegal. Only Black people in this country are shamed and punished for wearing hairstyles consistent with their natural hair. Every day, Black Missourians are being robbed of employment opportunities, education, and their dignity because employers and institutions can code their racism in dress code policies and concepts like 'professionalism' that were designed to keep Black people out. Please support these bills to end hair discrimination in Missouri.

I am a white woman, with three white children, who are lifelong Missourians. My children and I have never experienced discrimination based on our hair, and the thought of anyone experiencing this in the year 2024 is astonishing. While hair discrimination impacts both men and women, it tends to target Black women more often. There are over 160,294 Black women workers in Missouri alone who are vulnerable to this unethical discrimination. There are also countless examples of children being removed from classrooms and even schools due to their natural hair. No child should have to carry this worry with them when they're walking into the place where we're tasked with making them feel safe and welcome. It's long past time for Missouri to join the 24 other states that have put protections into place against hair-based discrimination. I am extremely grateful for the bill sponsor and all that myself and my children have learned from listening to them advocate for this legislation. Thank you for that, Representative Bland Manlove. I strongly urge the committee to vote in favor of House Bill 2515.

Chair, Vice-Chair, members of the committee; thank you for the opportunity to submit testimony today in support of HBs 1591, 1900, & 2515 which would prohibit certain discriminatory practices on the basis of race, hair texture and protective hairstyles. Abortion Action Missouri, formerly Pro Choice Missouri, works to protect and expand every Missourians' right to bodily autonomy, to access essential reproductive healthcare including abortion care, to access accurate information to make the best decisions for ourselves and our families, and to parent our children in safety and dignity. Our core belief is in expanding agency and choice for all people: ensuring that all Missourians are able to make decisions about their own bodies without fear of discrimination, harassment or retaliation. Currently, hair discrimination precludes Black Missourians from free choice and equal treatment. Reports across the nation indicate continued discrimination against Black students, leading to expulsions, suspensions, and public humiliation. As a result, research has indicated that Black women are 80% more likely to change their natural hair to conform to social norms and expectations. Without laws that bar explicit discrimination against hair textures and protective hairstyles. Black students in Missouri will continue experiencing this form of racial discrimination. Research has also indicated that restrictions on "acceptable" hair also increase disciplinary actions against Black students, ranging from being barred entry to school to being removed from extracurricular activities. These punitive responses harms educational attainment for Black students, increases mistrust between students and teachers, and legitimizes racist discrimination in schools. Abortion Action Missouri, representing more than 60,000 members across the state, supports the advancement of these bills, and urges you to vote YES today. Thank you.

Afro-textured hair is stereotyped and stigmatized around the world. Even in places where there are protections against race-based hair discrimination, Black women bear the brunt of the burden when it comes to hair bias. A bill that protects black men and women against such discriminatory practices is warranted. Children who have afro-centric hairstyles continue to be discriminated against as well. Protections are warranted.

Special Committee on Urban IssuesChairman Mark SharpRe: HB 1900, HB 1591, and HB 2515The American Civil Liberties Union of Missouri is committed to advancing racial justice across the state and ensuring all Missourians can participate in civil life free from discrimination. By ensuring that discrimination based on hair texture or hairstyle is prohibited in educational institutions, HB 2515 will positively contribute to student safety and wellbeing. Discrimination, such as microagressions and school policies, can have lasting effects on student confidence, self-esteem, and academic outcomes. Supporting these measures is an important step in combatting institutional racism and ensuring that all children can learn in safe and respectful school environments. The ACLU of Missouri strongly supports these measures and urges you to vote yes on HB 1900, HB 1591, and HB 2515

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I OPPOSE HB 2515.I think this bill is discriminatory in and of itself.I think this bill should either protect ALL hairstyles, or NO hairstyles. For example, I would need all Viking hairstyles and Viking beard styles to be specifically protected before I could support this bill. Just do a Google image search for Viking hairstyles and Viking beard styles, and you'll see what I'm talking about. Let's be truly inclusive and protect ALL hairstyles and beard styles, not just those of 1 particular race or ethnicity.
