I am in support of Planned Parenthood and the Women's and girl's right to access health care when it comes to pregnancy, abortion, reproductive health, and any other care they receive from Planned Parenthood. This is ANOTHER attack on the female human race and I'm sick of it. If men had kids, I know FOR SURE they would have access to abortion and this wouldn't be an issue. The WORLD, yes, the world, constantly attacks women and girls, and this is just another way for the United States. For once I would like to see Women and girls being LEFT ALONE. Please do not defund Planned Parenthood as it is desperately needed for the people. Who you work for, right?

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Article I, Section 2, of the Missouri Constitution states that "all constitutional government is intended to promote the general welfare of the people; that all persons have a natural right to life, liberty, the pursuit of happiness and the enjoyment of the gains of their own industry; that all persons are created equal and are entitled to equal rights and opportunity under the law; that to give security to these things is the principal office of government, and that when government does not confer this security, it fails in its chief design." And RSMO 1.205 states, in part, that : Life begins at conception — unborn child, defined — failure to provide prenatal care, no cause of action for. — 1. The general assembly of this state finds that: (1) The life of each human being begins at conception; (2) Unborn children have protectable interests in life, health, and well-being; (3) The natural parents of unborn children have protectable interests in the life, health, and well-being of their unborn child. 2. Effective January 1, 1988, the laws of this state shall be interpreted and construed to acknowledge on behalf of the unborn child at every stage of development, all the rights, privileges, and immunities available to other persons, citizens, and residents of this state, subject only to the Constitution of the United States, and decisional interpretations thereof by the United States Supreme Court and specific provisions to the contrary in the statutes and constitution of this state. 3. As used in this section, the term "unborn children" or "unborn child" shall include all unborn child or children or the offspring of human beings from the moment of conception until birth at every stage of biological development. Therefore, the use of public funds to support any abortion or any facility, as defined in section 188.015, or any affiliate or associate of such abortion facility would be a violation of the Missouri Constitution and State statute . . . Thus it is proper and required to pass this bill – HB 2634 to codify and clarify the use of public funds in keeping with our constitution and statute. Failure to pass this bill could result in the state funding illegal activity.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Aja B. Sullivan, MSN, MBA, RN, CNE, CNRN, PMH-BC, NPD-BC, CHSE Nursing Instructor, Barnes Jewish College Goldfarb School of Nursing BJC Healthcare St. Louis, MO 63110 116 Gibraltar Point Court, Saint Charles, MO, 63304 February 13, 2024 Missouri House of Representatives General Laws Committee House of Representatives Alex Riley, Chair Missouri State Capitol Jefferson City, MO CC: Representative Adam Schnelting, House District 069 Congressman Blaine Luetkemeyer, 3rd Congressional District Senator Bill Eigel, Senatorial District 023 BCC: Governor Michael L. Parson Office of the Governor P.O. Box 720 Jefferson City, MO 65102 The Honorable Josh Hawley United States Senate 115 Russell Senate Office Building Washington DC 20510 The Honorable Eric Schmitt United States Senate 387 Russell Senate Office Building Washington DC 20510 RE: HB 2578, HB 2365, HB 2448, HB 2569, HB 2567, HB 2634 Dear Honorable Members of the Missouri House of Representatives, I am Aja Sullivan, a nursing professor with ten years of experience in the field of nursing education and healthcare. I am writing to express my deep concern over the proposed anti-diversity, Equity, and Inclusion (DEI) legislation and its potential impacts on the state of Missouri—spanning economic repercussions, healthcare outcomes, and the overall well-being of our communities, as a dedicated healthcare professional who has witnessed firsthand the transformative power of Diversity, Equity, and Inclusion (DEI) initiatives in both educational and healthcare settings. My testimony is grounded in my commitment to preparing the next generation of nurses to provide compassionate, competent, and equitable care to all individuals, regardless of their background, race, ethnicity, gender, sexual orientation, or socioeconomic status.

The Critical Role of DEI in Nursing Education and Healthcare: In nursing education, DEI initiatives are not optional extras; they are essential to preparing competent, empathetic healthcare professionals capable of serving Missouri's diverse population. These programs enhance understanding, promote empathy, and ensure our graduates are equipped to provide high-quality care to all patients, irrespective of their backgrounds. In addition, The American Association of Colleges of Nursing (AACN), the National Council of State Boards of Nursing (NCSBN), Commission on Collegiate Nursing Education (CCNE), Accreditation Commission for Education in Nursing (ACEN), the National League for Nursing Commission for Nursing Education Accreditation (NLN CNEA) the Association of the American Medical Colleges (AAMC), and the Accreditation Council for Graduate Medical Education (ACGME) are just a few of the national organizations/regulatory bodies that establish the guidelines for our education frameworks. These organizations have core domains and competencies that must be taught in our programs or risk losing accreditation. This is not up to state legislation to decide.

Cultivating Empathy and Understanding: Nursing is fundamentally about caring for people. DEI initiatives in nursing education are critical in cultivating empathy, understanding, and the ability to provide culturally competent care. These initiatives prepare our students to meet the diverse needs of the communities they will serve, promoting health equity and improving patient outcomes.

Enhancing Team Collaboration: DEI initiatives foster an environment where diverse

perspectives are valued, leading to innovative problem-solving and enhanced team collaboration. In healthcare, where teamwork is paramount, the ability to work effectively in diverse teams can be the difference between life and death.

Addressing Health Disparities: By incorporating DEI principles into our curriculum, we prepare our students to recognize and address health disparities. This is crucial for the advancement of public health and for ensuring that all individuals, regardless of their background, have access to high-quality healthcare.

Reflecting Population Diversity: Our nursing workforce should reflect the diversity of its population. DEI initiatives in nursing education are essential for attracting and retaining students from underrepresented groups in the nursing profession, thereby enriching the profession and enhancing the quality of care provided to diverse populations.

Concerns Regarding Anti-DEI Legislation: The proposed anti-DEI legislation threatens to undermine these crucial efforts by restricting the ability of educational institutions to teach and promote the values of diversity, equity, and inclusion. Such restrictions could have a chilling effect on academic freedom, stifle the development of a culturally competent healthcare workforce, and exacerbate the health disparities that we, as healthcare professionals, have been working tirelessly to eliminate.

Economic Implications of Anti-DEI Legislation: The economic implications of restricting DEI initiatives extend beyond the immediate healthcare sector, potentially affecting Missouri's broader economic landscape. A diverse and inclusive workforce is key to innovation and economic growth. Research has consistently shown that diverse teams are more creative, solve problems more effectively, and are better at identifying and entering new markets. The proposed legislation risks stifling these benefits by undermining DEI initiatives, potentially leading to a less dynamic and competitive economy. Moreover, the healthcare sector, a significant contributor to Missouri's economy, relies on a diverse workforce to address the complex health needs of its population. Limiting DEI efforts could exacerbate workforce shortages, particularly in underserved areas, leading to increased healthcare costs and decreased economic productivity due to poor health outcomes.

Restricting DEI initiatives risks Missouri's economic vitality. Diverse and inclusive workforces drive innovation, with McKinsey & Company (2015) reporting that companies with diverse executive teams outperform their peers in profitability by up to 35%. The proposed legislation threatens to undermine this advantage, potentially leading to a significant brain drain as highly skilled talent opts for more inclusive regions. This could be detrimental to healthcare and across all industries vital to Missouri's economy.

Projected Economic Loss: Quantifying the exact economic loss over the next ten years due to the absence of DEI initiatives is challenging due to the myriad factors influencing economic outcomes. However, we can estimate the potential impact by considering the role of DEI in workforce productivity and innovation. If DEI policies contribute to a 5-10% increase in workforce productivity and innovation—a conservative estimate based on numerous studies—the economic loss to Missouri could be substantial. For illustration, if Missouri's GDP were to grow at an expected rate of 2% annually over the next ten years without DEI initiatives, incorporating the effects of reduced productivity and innovation could lower this growth rate to 1.5% or less. Using Missouri's 2020 GDP of approximately \$300 billion as a baseline, even a 0.5% reduction in growth rate could result in a cumulative loss of over \$15 billion in economic output over the next decade. Again, I want to emphasize this point: The absence of robust DEI initiatives could conservatively lower Missouri's economic growth rate by 0.5% annually over the next decade, translating to a cumulative economic output loss of over \$15 billion. This estimate underscores the importance of DEI in maintaining and enhancing our state's economic competitiveness and prosperity.

The ability of Missouri to attract and retain highly skilled talent is crucial for its economic vitality across all sectors, including healthcare, technology, education, and manufacturing. DEI initiatives are pivotal in creating an inclusive and supportive environment that appeals to a diverse workforce. A 2020 report by McKinsey & Company highlights that companies with ethnic and gender diversity in their executive teams were 36% and 25% more likely to outperform their peers in profitability, respectively. This underscores the link between diversity and superior financial performance.

Failure to foster an inclusive environment due to restrictive DEI policies can significantly impact Missouri's competitiveness. Highly skilled professionals, particularly those from underrepresented groups, may choose to relocate to more inclusive regions, taking their talent, innovation potential, and economic contributions with them. This brain drain can lead to a shortage of skilled workers, stifle innovation, and slow economic growth.

Impact on Healthcare Outcomes: The proposed legislation also stands to worsen healthcare outcomes. DEI initiatives are crucial for addressing health disparities and ensuring equitable healthcare delivery. Research indicates that racial and ethnic minority groups in the U.S. face higher rates of morbidity and mortality compared to their white counterparts. For example, the Centers for Disease Control and Prevention (CDC) reports that Black Americans have a 30% higher death rate from heart disease than white Americans (CDC, 2020). Additionally, a lack of cultural competency among healthcare providers can lead to miscommunication, mistrust, and underutilization of healthcare services, exacerbating these disparities. A study published in the *Journal of Nursing Management* found that DEI training for nursing and healthcare staff significantly improved patient satisfaction scores, particularly among minority patients (*Journal of Nursing Management*, 2019).

the ability to educate future nurses and healthcare professionals on cultural competency, we can avoid perpetuating inequities in health access and outcomes, leading to poorer overall health for Missouri's population. Addressing the Economic and Social Costs of Healthcare Disparities in Missouri: Healthcare disparities present a pressing challenge within Missouri, mirroring national trends that inflict significant economic and social burdens. These disparities, stemming from unequal access to healthcare, variable quality of medical services, and the broader determinants of health, notably impact the well-being of Missourians across various communities.

Economic Implications:• **Heightened Medical Costs:** Health inequities lead to increased utilization of healthcare services, such as emergency visits and hospitalizations, particularly among marginalized groups. Although specific Missouri data is essential for precise analysis, national insights from the Agency for Healthcare Research and Quality (AHRQ) suggest that minimizing health disparities for minority populations could substantially reduce healthcare expenditures. This pattern is echoed in Missouri, emphasizing the critical need for focused efforts to bridge these gaps.

• **Reduced Productivity:** The broader economic impact of health disparities extends beyond direct healthcare spending to include lost productivity due to illness, disability, and premature mortality. As noted by the Economic Policy Institute (EPI), the cumulative economic burden of these disparities nationally is profound, with Missouri undoubtedly experiencing its share of this economic strain. Enhancing health equity is thus a moral obligation and an economic imperative for the state.

Social Considerations:• **Impaired Quality of Life:** Disparities in health outcomes diminish the quality of life for many individuals, manifesting in poorer health statuses and shortened life expectancies among disadvantaged populations. While detailed state-specific statistics would offer a clearer picture, the Centers for Disease Control and Prevention's (CDC) findings on racial and ethnic health disparities reflect similar challenges within Missouri, underscoring the urgency of addressing these issues.

Exacerbated Inequalities: The persistence of healthcare disparities amplifies existing social and economic inequalities, perpetuating a cycle of disadvantage across generations. Proactively tackling these health disparities is vital for fostering social justice and promoting a more equitable society in Missouri.

Illustrative Insight: Reflecting on the broader national context, where racial and ethnic minorities disproportionately suffer from chronic conditions like diabetes and hypertension, Missouri stands to benefit significantly from initiatives aimed at reducing health disparities. By focusing on equitable disease management and prevention, the state can improve health outcomes for its residents and alleviate the associated healthcare costs, marking a stride towards both economic savings and enhanced public health.

Urgent Call for Action: Given these considerations, it is imperative that the Missouri House of Representatives understands the broader implications of anti-DEI legislation. Not only does such legislation threaten the integrity of nursing education and the quality of healthcare delivery, but it also poses significant risks to the economic well-being of our state and the health outcomes of our population. I urge you to consider the long-term economic and social benefits of DEI initiatives and oppose any legislation restricting our ability to foster an inclusive, equitable, and prosperous Missouri. As a nurse and an educator, it is my duty to serve the best interests of my patients and students, as it is your sworn duty to act in the best interest of all Missourians by promoting policies that support diversity, equity, and inclusion- instead of political ideology. Thank you for considering my testimony on this critical issue. I am available for further discussion and to provide additional insights based on my experience in nursing education and healthcare.

Sincerely, Aja B. Sullivan, RNPhD Student, Psychologyajabluesullivan@outlook.com 314-749-7088

I volunteer as the State Policy Advocate for the National Council of Jewish Women St. Louis (NCJWSTL). We are a nonprofit organization based on Jewish values dedicated to improving the lives of women, children, and families. This bill would deny thousands of Missourians of the ability to use their MO HealthNet health insurance to see the doctors and medical providers of their choice. The bill would essentially prevent just one safety net health care provider, Planned Parenthood, from obtaining reimbursement for care provided to Medicaid patients. No abortions are performed in the state of Missouri. No Medicaid funds pay for abortion care. Denying Planned Parenthood from receiving Medicaid reimbursement does nothing more than poke more holes in our state's already thin and under resourced medical safety net. NCJW St. Louis urges you to vote NO on this bill.

Taking away funding from these organizations can be detrimental to the health and wellness of our population, especially women. People rely on these facilities for many other reasons other than pregnancy termination. Annual wellness exams, cancer screenings, prescriptions for necessary medications, and much more are all services needed by the general population that many may not have access to if funding is cut. I have used one of these facilities, Planned Parenthood, for several years for my health needs. They have caught issues and helped provide solutions which prevented the issues from lingering on and possibly getting worse. They have also provided additional education to me during visits to keep me at my healthiest. I use them regularly for my wellness exam needs. Please reconsider cutting funding to these health facilities. They are much needed in our communities across the nation to help provide care to our people.

I'm a retired USAF flight nurse with a one-hundred percent VA disability rating (for combat PTSD and Military Sexual Trauma PTSD, among other disabilities). The VAMC (St. Louis) refused my request for a female OBGYN to give me specialized care and told me that my primary VA MD could perform the care. But with an extensive health history including multiple surgeries, I warrant OBGYN-certified care. The VA has a male OBGYN, but years ago I was raped by an Army OBGYN during an exam, hence the issue. Planned Parenthood in St. Louis treated me in December of 2023 with care, respect, and on a sliding scale. Demographics: BSED, BSN, 61 yrs old, Lives in St. Louis. Planned Parenthood saves lives, encourages safe health practices, and helps reduce unwanted pregnancies by providing birth control for women and men. Check the scientific data--you'll see that I speak the truth. Thank you for this opportunity.

As someone who works in access to cancer screening, I am appalled that the state would even consider taking away access to a convenient and safe place for screenings for cervical cancer. We know the importance of early detection in this disease - diagnosing early is the best way to fight this disease. This bill would be lethal for women in our state and I am very much opposed. This year in MO, 39,120 individuals will be diagnosed with cancer - why would we seek to limit their access to crucial screenings that could save their lives?

As a Missourian whose friends and family have received all kinds of essential healthcare from Planned Parenthood, I write to you to oppose this bill. Planned Parenthood gives care when others won't, and often serves the poorest, most vulnerable, most under-served, and under-insured of us. Please don't impose further limits on this essential health provider.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Blocking patients' access to Planned Parenthood health centers will not improve Missourians' health — it will only make things worse. This bill is about blocking Medicaid patients from getting preventive care at Planned Parenthood. This bill is attacking patients & restricting their access to birth control, cancer screenings, and STI testing and treatment. These measures threaten the livelihoods and safety of every Missourian who relies on Medicaid, and also every Missourian who would be surely harmed by the ramifications of this legislation on the entire safety net.

Blocking health care to people who need it is worsening health care standards in Missouri. This bill is attacking patients and restricting their access to birth control, cancer screenings, and STI testing and treatment. And we are talking about our poorer Missourians who need this care the most. You are making it harder for people, mostly women, to take care of themselves by limiting access. All of these anti-abortion bills give the impression that you do not care about women and you would like to see regression in women's rights. We, both women and men, will not stand for it. I vehemently oppose this bill.

As a RN who has dedicated my career to the care of infants and mothers I have personally observed the lack of resources for those in the lower income community. This Bill will only cutoff much needed resources to these individuals . I have personally witnessed Medicare patients being turned away from a variety of providers so limiting access further for this group is not facilitating and supporting the provision of healthcare services for the most vulnerable in our communities. I strongly oppose the passage of this bill and would suggest we look to increasing funding to these facilities so they can provide optimal healthcare services to all they serve!

I oppose these bills. DEI training is essential in healthcare. Planned Parenthood provides essential healthcare services to those who cannot otherwise afford care. Their early screening and detection saves the public healthcare system money by catching conditions early thus allowing for less expensive treatment options. Voluntary responsible family planning should be encouraged by fiscally responsible legislators, not defunded.

Planned Parenthood provides affordable healthcare that is essential to its patients well being. To take that away would result in dozens more unwanted pregnancies, as access to birth control would become more scarce. More unwanted pregnancies in a state that does not allow for the termination of them, just means more poverty, and more crime. It's an outright IDIOTIC move. Get it together. Hundreds if not thousands of uninsured women will develop detectable/treatable illnesses and cancers that will kill them slowly in hospital visits they can't pay for.

I oppose HB 2634. Planned Parenthood serves women of all economic means in women's health. I am also opposed HB2365, 2448, 2569, 2519. Government has no business in deciding the diversity of any individual. All must be included.

I oppose HB2634-Smith-Health Care for two reasons. As a young student nurse at St Louis University in the 1970's, I was new to St. Louis, and did not know where to go for Women's Health Care. I learned about Planned parenthood for routine wellness care and screenings for cancer, ie., PAP smears. This continued as my primary form of health care until I found an OB-Gyn through work 10 years later. This was a very safe, effective method for me to obtain primary health care as a young nursing student and health care professional. Secondly, I find it disturbing to say the least, that over 50 years later, our legislature is trying to defund this incredible source of health care to women in all walks of life. Why would you want women to go without essential health care in the 21st century?

I strongly oppose HB 2634, which aims to further defund Planned Parenthood in the state of Missouri. This bill threatens to undermine the health and well-being of countless Missourians by restricting access to essential healthcare services provided by Planned Parenthood. These services include, but are not limited to, STI and HIV testing and treatment, comprehensive gynecological healthcare, life-saving cancer screenings, and a range of reproductive health services. Planned Parenthood plays a critical role in serving low-income individuals and families who may have no other affordable options for receiving such crucial healthcare. By targeting these services for defunding, HB 2634 not only jeopardizes the health of Missourians but also widens the gap in healthcare equity across the state. We urge lawmakers to consider the detrimental impact this bill would have on public health and to reject any measures that would deny essential healthcare services to their constituents.

I am totally against "defunding" Planned Parenthood. Doing so, blocks Missourians who rely on Medicaid from accessing high-quality, non-abortion health care at Planned Parenthood, including: Birth control Wellness exams STI testing and treatment Cancer screeningsDefunding this respected, 90 year institution (Planned Parenthood) will put critical healthcare out of reach for Missourians who need it most. Why are lawmakers in this state who are so against abortion that they have created strict and unrealistic laws against it, going "whole hog" to destroy Planned Parenthood? Doing so also destroys all the other good services PP provides that are thankfully STILL legal. That's "throwing the baby our with the bathwater", so to speak.

If passed this bill would limit Medicaid patients abilities to get basic healthcare services like contraception, cancer screening, and testing and treatment for STIs by blocking patient access to Planned Parenthood. Passing such legislation would reduce healthcare access for low income Missourians, worsening healthcare disparities in our state. As an occupational therapy and public health student, I am strongly opposed to this legislation because of the harm that it would cause to Missourians by limiting access to crucial healthcare services. I urge the committee to vote no on HB 2634.

When I was a broke college student, I used Planned Parenthood for access to healthcare. Once a year, I went for a checkup and to get birth control. I know that this access to affordable healthcare and birth control enabled me to finish my college education without becoming a parent. I married the guy I was dating in college, and we were able to plan our family and be high earners contributing to our local economy for years before starting our family. Thanks to the access to birth control planned parenthood provided. I have a sister and several friends who chose not to access affordable healthcare and birth control through planned parenthood, and their path to functioning as a paying member of society are quite different. They had children early in their late teens and 20's and struggled for years. Planned Parenthood provides a vital service to Missouri communities.

Blocking my and other Missourians' access to preventive healthcare provided through Planned Parenthood and other similar organizations will only hurt Missourians' ability to be as healthy as possible so they can go to work and be strong citizens of Missouri. These are people who are not able to receive healthcare through large corporate type physicians because those offices do not take Medicaid. I have been an active patient of Planned Parenthood in my life, and as someone who has family members and friends who need to leverage Medicaid insurance, this bill would deeply restrict their access to quality healthcare at an affordable price. I have known hundreds of people who have received healthcare services and health education through organizations like Planned Parenthood. This would punish those people and potentially restrict their healthy outcomes.

Planned Parenthood serves an important function in our community. Medicaid patients rely on the services Planned Parenthood provides. This bill takes away access for Medicaid patients to access vital services such as birth control, cancer screening and STI testing and treatment. This causes undue hardship on a population already experiencing income stress. I cannot support this kind of legislation in Missouri.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Chair, Vice-Chair, members of the committee; thank you for the opportunity to testify today in opposition to HB 2634 which seeks to bar Missourians' access to critical and trusted sexual reproductive healthcare at their preferred health care providers based on their income level and insurance coverage status. Abortion Action Missouri, formerly Pro Choice Missouri, works to protect and expand every Missourians' right to bodily autonomy, to access essential reproductive healthcare including abortion care, to access accurate information to make the best decisions for ourselves and our families, and to parent our children in safety and dignity. Bans on abortion and restrictions on all forms of sexual and reproductive health care are directly correlated to high rates of maternal and infant mortality; so it is no surprise that Missouri, with some of the highest numbers of medically unnecessary restrictions on access to abortion care (even prior to our total abortion ban) also has some of the highest rates of maternal and birthing parent mortality, nationwide. In 2020, maternal/ birthing parent death rates in states with the most restrictions on access to abortion were 62% higher than states with access to abortion care. In short; restrictions on reproductive health care access lead to poor reproductive health outcomes. For individuals who want to start or grow their families in Missouri, our state remains one of the most dangerous to give birth; Missouri ranks 44th in the country for maternal mortality and Black birthing parents are 3-4 times more likely to die within a year of pregnancy than their white counterparts. For many reasons, including structural racism and implicit bias in medicine, the closure of seven rural hospitals in MO since 2014, a growing number of people falling in the insurance gap, and continued attacks on abortion and reproductive healthcare access, the maternal and infant mortality rates in MO continue to rival that of both peer and less-resourced nations. The Missouri Pregnancy-Associated Mortality Review 2018 Report, published in 2021, found that the pregnancy-related mortality ratio (PRMR) in Missouri is four times greater for Black women than white women at 87.6 per 100,000 live births. The same review board found that 82% of pregnancy-related deaths in Missouri were "determined to be preventable." Recommendations for addressing racial and economic disparities in maternal health in Missouri named in the report include increased access to mental health resources throughout pregnancy, increased coverage of postpartum care for low-income mothers and families, and increased uniformity in trauma-informed and culturally competent practices. Critical care that Planned Parenthood provides to the thousands of Missourians their health centers serve each year, particularly those Missourians who rely on Medicaid for their health coverage. Additionally, the postpartum care period is a critical time for comprehensive care intervention and prevention measures like exploring future family planning options and screening for interpersonal and domestic violence (IPV/DV) at home. Missouri has the third highest national rate of IPV/DV and we know that people experiencing violence at home are most likely to report to a trusted

care provider, if at all. Pregnancy and the postpartum period are especially dangerous for people in abusive relationships and by decreasing the number of opportunities for trusted medical providers to touch base with postpartum patients on Medicaid in Missouri this legislation will end lives. Planned Parenthood provides unique and critical care. They are one of few providers who have made a commitment to providing quality and compassionate care with a trauma-informed lens to survivors of sexual violence, and they are more likely than other providers to offer the full range of contraception methods (versus only about half of federally qualified health centers). They also are a critical provider of often time-sensitive reproductive healthcare; whether trying to get in for a pregnancy test, where timely care can have a significant impact on the pregnancy, or awaiting a cancer screening where every day can count. Targeting Planned Parenthood health centers with this bill discriminates against Medicaid patients and violates their right to access essential health care from the providers they trust. Hundreds of thousands of people across Missouri rely on Medicaid for critical sexual and reproductive healthcare. Approx. 650,000 Missouri women rely on Medicaid for essential healthcare. That's more than half of the states' one million Medicaid recipients. Planned Parenthood is an essential provider of reproductive healthcare in Missouri and is not replaceable. Other safety net providers will not be able to fill the gap if one of the most trusted providers is eliminated. On August 4th 2020, 53.3% of Missouri voters voted to expand Medicaid in Missouri. This was a significant margin of victory, and a clear showing by 672,967 Missourians that they believe in the Medicaid health care safety net. Planned Parenthood is a critical component of this safety net, and one that thousands of Missourians rely on every day. The people who already face the systemic barriers to healthcare, are more likely to have low incomes and rely on Medicaid—including Black people and people of color, LGBTQ+ folks, and people with disabilities. These folks are among those hit hardest by restrictions on reproductive healthcare. Every Missourian should have access to the full range of reproductive health care. This basic right is the foundation of freedom and opportunity for Missourians and their families. MOHealthNet continues to be a critical safety net as unemployment skyrocketed and the need for health insurance increased during the pandemic. Ensuring that Missourians have access to coverage for reproductive health care is an important part of ensuring that they have control over their economic security. At odds with the Medicaid program's free-choice-of-provider provision, this bill jeopardizes our entire MO HealthNet program, as evidenced by the recent Cole County Court ruling on this body's previous attempt at this illegal measure (Missouri judge hands Planned Parenthood a Medicaid win

Essential healthcare must be made more available in Missouri, not less. We will lose more hospitals, more qualified doctors and other practitioners, more nurses, if we become a state that parcels out healthcare only to the chosen few. We elect our representatives to act in the interests of all the people. Please understand what this bill deprives Missouri citizens access to and oppose it. Please.

This bill is truly ANTI-WOMEN! You've made your opinions on abortion loud and clear, stating that even children and rape/incest victims are forced to carry to term. How disgusting! Proving again you are just Pro BIRTH, not Pro LIFE! Taking away Planned Parenthood funding actually takes away affordable birth control, STD testing, PAP smears, and other key services OUTSIDE abortion that are crucial for women's general health. As a college student, I used Planned Parenthood, along with many of my friends, as a way to access birth control and maintain good female health away from home and my usual doctor. Surely you realize that affordable access to birth control for women is the first step to not getting pregnant in the first place. I'm angered and disgusted by this primitive and archaic move on the part of what I'm assuming is predominantly males who have proven time and time again they are out of touch with a woman's body their personal health needs. Please start listening to and acting on behalf of the better interest of all your constituents.

It is unconscionable to even propose measures that would interfere with Missourians' access to healthcare. Especially those in rural areas where delays in Medicaid expansion caused hospital closures and now force residents to travel farther and farther to access the care they and their families need in order to remain healthy, contributing member of society. We deserve better from our elected representatives.

Planned Parenthood is a vital resource in our Missouri communities. They provide low cost reproductive care and health screenings for thousands of Missourians. This is a vital service in communities with low rates of insured patients. This measure threaten the livelihoods and safety of every Missourian who relies on Medicaid, and also every Missourian who would be surely harmed by the ramifications of this legislation on the entire safety net. This bill is attacking patients & restricting their access to birth control, cancer screenings, and STI testing and treatment. A healthy Missouri means access to quality affordable care, the kind that Planned Parenthood provides.

I am a former Planned Parenthood patient and employee. This bill has nothing to do with preventing abortions and everything to do with denying Medicaid patients — primarily women — access to health care. STIs are rampant in the US right now. How does it help anyone when the state denies preventative measures such as condoms and treatment for these sexual health problems? Preventative health care — not abortion — is the cornerstone of Planned Parenthood’s mission. Considering I heard an elected Missouri official blathering on last week about one-year-olds getting pregnant this state is in dire need of the services Planned Parenthood provides. I want my tax dollars spent making life better for the states citizens, not punishing women. For that reason I oppose SB2634.

Having worked for years as a patient advocate in public health, I know the damage these bills could do to an already inadequate health system in Missouri.

Planned Parenthood works to PREVENT pregnancies. Is this why you want to defund Planned Parenthood? At one time my daughter did not have health insurance. Planned Parenthood provided her with annual pap smears and birth control pills at a reasonable cost. My daughter did not need mammograms but if she had been at an age to require one, Planned Parenthood would have made it available, again at a reasonable price. Why do you wish to deprive working poor women of health care? Do you realize you might end up killing women with undiagnosed cancers? Who will look after their children? These attacks upon women need to stop.

The ability to seek care is a fundamental human right. All studies agree the best way to treat an illness is to prevent it from happening in the first place, if we take away the access to testing and screening then we will create even more of a burden on our citizens and healthcare systems and workers.

This is absurd. Planned Parenthood is a beloved provider of services to generations of Missourians who cannot possibly all be accommodated by current healthcare infrastructure. This has been explained again and again for years and years in hearings before various committees. The bill sponsor should find something productive to do to relieve healthcare disparities instead.

Blocking patients' access to Planned Parenthood health centers will not improve Missourians' health — it will only make things worse. This bill is attacking patients & restricting their access to birth control, cancer screenings, and STI testing and treatment. These measures threaten the livelihoods and safety of every Missourian who relies on Medicaid, and also every Missourian who would be surely harmed by the ramifications of this legislation on the entire safety net.

People need to be able to get health care, they need access for cancer screenings & treatment as well as access to birth control which can help prevent pregnancy. My birth control methods worked 100% of the time. Each method has information on what percentage they are successful in preventing pregnancy. Preventing pregnancy can prevent abortions.

I am opposed to any laws that are going to make it harder for any women in Missouri getting the healthcare they need. Just stop with the sanctimonious legislation, dictating health care when you are not a doctor, not a women and are only pushing your RELIGIOUS views.Planned Parenthood has saved lives and been the only health care available for low income women.
