

House _____ Amendment NO. _____

Offered By

1 AMEND House Committee Substitute for Senate Bill No. 2, Page 1, Section A, Line 11, by
2 inserting after all of the said section and line the following:

3
4 "8.690. 1. The office of administration shall have the authority to utilize:

5 (1) The construction manager-at-risk delivery method, as provided for in section 67.5050;
6 and

7 (2) The design-build delivery method, as provided for in section 67.5060, only as follows:

8 (a) For noncivil works projects, as that term is used in section 67.5060, in excess of seven
9 million dollars; and

10 (b) No more than five noncivil works projects, as that term is used in section 67.5060, may
11 be contracted for in any fiscal year that are less than seven million dollars.

12 2. ~~[The office of administration shall not be subject to subsection 15 of section 67.5050 and~~
13 ~~subsection 22 of section 67.5060 in executing contracts pursuant to this section.~~

14 3.] The office of administration shall not be subject to subsection 4 of section 67.5060. The
15 office of administration shall publish its advertisement for proposals in the publications, and on the
16 website of the officer or agency or through an electronic procurement system as set forth in
17 subsection 3 of section 8.250. The selection and award shall follow sections 67.5050 and 67.5060,
18 as applicable."; and

19
20 Further amend said bill, Page 9, Section 67.1754, Line 68, by inserting after all of the said section
21 and line the following:

22
23 "67.5050. 1. As used in this section, the following terms mean:

24 (1) "Construction manager", the legal entity that proposes to enter into a construction
25 ~~[management-at-risk]~~ manager-at-risk contract under this section;

26 (2) "Construction manager-at-risk", a sole proprietorship, partnership, corporation, or other
27 legal entity that assumes the risk for the construction, rehabilitation, alteration, or repair of a project
28 at the contracted price as a general contractor and provides consultation to a political subdivision
29 regarding construction during and after the design of the project.

Action Taken _____ Date _____

1 2. Any political subdivision may use the construction manager-at-risk method for: civil
2 works projects such as roads, streets, bridges, utilities, water supply projects, water plants,
3 wastewater plants, water distribution and wastewater conveyance facilities, airport runways and
4 taxiways, storm drainage and flood control projects, or transit projects commonly designed by
5 professional engineers in excess of two million dollars; and noncivil works projects such as
6 buildings, site improvements, and other structures, habitable or not, commonly designed by
7 architects in excess of three million dollars. In using that method and in entering into a contract for
8 the services of a construction manager-at-risk, the political subdivision shall follow the procedures
9 prescribed by this section.

10 3. The political subdivision shall publicly disclose at a regular meeting its intent to utilize
11 the construction ~~[management-at-risk]~~ manager-at-risk method and its selection criteria at least one
12 week prior to publishing the request for qualifications. Before or concurrently with selecting a
13 construction manager-at-risk, the political subdivision shall select or designate an engineer or
14 architect who shall prepare the construction documents for the project and who shall comply with all
15 state laws, as applicable. If the engineer or architect is not a full-time employee of the political
16 subdivision, the political subdivision shall select the engineer or architect on the basis of
17 demonstrated competence and qualifications as provided by sections 8.285 to 8.291. The political
18 subdivision's engineer or architect for a project may not serve, alone or in combination with another,
19 as the construction manager-at-risk. This subsection does not prohibit a political subdivision's
20 engineer or architect from providing customary construction phase services under the engineer's or
21 architect's original professional service agreement in accordance with applicable licensing laws.

22 4. The political subdivision may provide or contract for, independently of the construction
23 manager-at-risk, inspection services, testing of construction materials, engineering, and verification
24 of testing services necessary for acceptance of the project by the political subdivision.

25 5. The political subdivision shall select the construction manager-at-risk in a two-step
26 process. The political subdivision shall prepare a request for qualifications, for the case of the first
27 step of the two-step process, that includes general information on the project site, project scope,
28 schedule, selection criteria, and the time and place for receipt of proposals or qualifications, as
29 applicable, and other information that may assist the political subdivision in its selection of a
30 construction manager-at-risk. The political subdivision shall state the selection criteria in the
31 request for proposals or qualifications, as applicable. The selection criteria may include the
32 construction manager's experience, past performance, safety record, proposed personnel and
33 methodology, and other appropriate factors that demonstrate the capability of the construction
34 manager-at-risk. The political subdivision shall not request fees or prices in step one. In step two,
35 the political subdivision may request that five or fewer construction managers, selected solely on the
36 basis of qualifications, provide additional information, including the construction manager-at-risk's
37 proposed fee and its price for fulfilling the general conditions. Qualifications shall account for a
38 minimum of forty percent of the evaluation. Cost shall account for a maximum of sixty percent of
39 the evaluation.

1 6. The political subdivision shall publish the request for proposals or qualifications by
2 publication in a newspaper of general circulation published in the county where the political
3 subdivision is located once a week for two consecutive weeks prior to opening the proposals or
4 qualifications submissions or by a virtual notice procedure that notifies interested parties for at least
5 twenty various purchases, design contracts, construction contracts, or other contracts each year for
6 the political subdivision.

7 7. For each step, the political subdivision shall receive, publicly open, and read aloud the
8 names of the construction managers. Within forty-five days after the date of opening the proposals
9 or qualification submissions, the political subdivision or its representative shall evaluate and rank
10 each proposal or qualification submission submitted in relation to the criteria set forth in the request
11 for proposals or request for qualifications. The political subdivision shall interview at least two of
12 the top qualified offerors as part of the final selection.

13 8. The political subdivision or its representative shall select the construction manager that
14 submits the proposal that offers the best value for the political subdivision based on the published
15 selection criteria and on its ranking evaluation. The political subdivision or its representative shall
16 first attempt to negotiate a contract with the selected construction manager. If the political
17 subdivision or its representative is unable to negotiate a satisfactory contract with the selected
18 construction manager, the political subdivision or its representative shall, formally and in writing,
19 end negotiations with that construction manager and proceed to negotiate with the next construction
20 manager in the order of the selection ranking until a contract is reached or negotiations with all
21 ranked construction managers end.

22 9. A construction manager-at-risk shall publicly advertise, in the manner prescribed by
23 chapter 50, and receive bids or proposals from trade contractors or subcontractors for the
24 performance of all major elements of the work other than the minor work that may be included in
25 the general conditions. A construction manager-at-risk may seek to perform portions of the work
26 itself if the construction manager-at-risk submits its sealed bid or sealed proposal for those portions
27 of the work in the same manner as all other trade contractors or subcontractors. All sealed bids or
28 proposals shall be submitted at the time and location as specified in the advertisement for bids or
29 proposals and shall be publicly opened and the identity of each bidder and their bid amount shall be
30 read aloud. The political subdivision shall have the authority to restrict the construction manager-at-
31 risk from submitting bids to perform portions of the work.

32 10. The construction manager-at-risk and the political subdivision or its representative shall
33 review all trade contractor, subcontractor, or construction manager-at-risk bids or proposals in a
34 manner that does not disclose the contents of the bid or proposal during the selection process to a
35 person not employed by the construction manager-at-risk, engineer, architect, or political
36 subdivision involved with the project. If the construction manager-at-risk submitted bids or
37 proposals, the political subdivision shall determine if the construction manager-at-risk's bid or
38 proposal offers the best value for the political subdivision. After all proposals have been evaluated
39 and clarified, the award of all subcontracts shall be made public.

11. If the construction manager-at-risk reviews, evaluates, and recommends to the political subdivision a bid or proposal from a trade contractor or subcontractor but the political subdivision requires another bid or proposal to be accepted, the political subdivision shall compensate the construction manager-at-risk by a change in price, time, or guaranteed maximum cost for any additional cost and risk that the construction manager-at-risk may incur because of the political subdivision's requirement that another bid or proposal be accepted.

12. If a selected trade contractor or subcontractor materially defaults in the performance of its work or fails to execute a subcontract after being selected in accordance with this section, the construction manager-at-risk may itself, without advertising, fulfill the contract requirements or select a replacement trade contractor or subcontractor to fulfill the contract requirements. The penal sums of the performance and payment bonds delivered to the political subdivision shall each be in an amount equal to the fixed contract amount or guaranteed maximum price. The construction manager-at-risk shall deliver the bonds not later than the tenth day after the date the fixed contract amount or guaranteed maximum price is established.

13. Any political subdivision engaged in a project under this section, which impacts a railroad regulated by the Federal Railroad Administration, shall consult with the affected railroad on required specifications relating to clearance, safety, insurance, and indemnification to be included in the construction documents for such project.

14. This section shall not apply to:

(1) Any metropolitan sewer district established under Article VI, Section 30(a) of the Constitution of Missouri;

(2) Any special charter city, or any city or county governed by home rule under Article VI, ~~[Section 18]~~ Sections 18(a) to 18(r) or Section 19 of the Constitution of Missouri that has adopted a construction manager-at-risk method via ordinance, rule or regulation.

~~[15. Notwithstanding the provisions of section 23.253 to the contrary, the provisions of this section shall expire September 1, 2026.]~~

67.5060. 1. As used in this section, the following terms mean:

(1) "Design-build", a project delivery method subject to a three-stage qualifications-based selection for which the design and construction services are furnished under one contract;

(2) "Design-build contract", a contract which is subject to a three-stage qualifications-based selection process similar to that described in sections 8.285 to 8.291 between a political subdivision and a design-builder to furnish the architectural, engineering, and related design services and the labor, materials, supplies, equipment, and other construction services required for a design-build project;

(3) "Design-build project", the design, construction, alteration, addition, remodeling, or improvement of any buildings or facilities under contract with a political subdivision. Such design-build projects include, but are not limited to:

(a) Civil works projects, such as roads, streets, bridges, utilities, airport runways and taxiways, storm drainage and flood control projects, or transit projects; and

1 (b) Noncivil works projects, such as buildings, site improvements, and other structures,
2 habitable or not, commonly designed by architects in excess of seven million dollars;

3 (4) "Design-builder", any individual, partnership, joint venture, or corporation subject to a
4 qualification-based selection that offers to provide or provides design services and general
5 contracting services through a design-build contract in which services within the scope of the
6 practice of professional architecture or engineering are performed respectively by a licensed
7 architect or licensed engineer and in which services within the scope of general contracting are
8 performed by a general contractor or other legal entity that furnishes architecture or engineering
9 services and construction services either directly or through subcontracts or joint ventures;

10 (5) "Design criteria consultant", a person, corporation, partnership, or other legal entity duly
11 licensed and authorized to practice architecture or professional engineering in this state under
12 chapter 327 who is employed by or contracted by the political subdivision to assist the political
13 subdivision in the development of project design criteria, requests for proposals, evaluation of
14 proposals, the evaluation of the construction under a design-build contract to determine adherence to
15 the design criteria, and any additional services requested by the political ~~[subdivisions]~~ subdivision
16 to represent its interests in relation to a project. The design criteria consultant may not submit a
17 proposal or furnish design or construction services for the design-build contract for which its
18 services were sought;

19 (6) "Design criteria package", performance-oriented program, scope, and specifications for
20 the design-build project sufficient to permit a design-builder to prepare a response to a political
21 subdivision's request for proposals for a design-build project, which may include capacity,
22 durability, standards, ingress and egress requirements, performance requirements, description of the
23 site, surveys, soil and environmental information concerning the site, interior space requirements,
24 material quality standards, design and construction schedules, site development requirements,
25 provisions for utilities, storm water retention and disposal, parking requirements, applicable
26 governmental code requirements, preliminary designs for the project or portions thereof, and other
27 criteria for the intended use of the project;

28 (7) "Design professional services", services that are:

29 (a) Within the practice of architecture as defined in section 327.091, or within the practice
30 of professional engineering as defined in section 327.181; or

31 (b) Performed by a licensed or authorized architect or professional engineer in connection
32 with the architect's or professional engineer's employment or practice;

33 (8) "Proposal", an offer in response to a request for proposals by a design-builder to enter
34 into a design-build contract for a design-build project under this section;

35 (9) "Request for proposal", the document by which the political subdivision solicits
36 proposals for a design-build contract;

37 (10) "Stipend", an amount paid to the unsuccessful but responsive, short-listed design-
38 builders to defray the cost of participating in phase II of the selection process described in this
39 section.

1 2. In using a design-build contract, the political subdivision shall determine the scope and
2 level of detail required to permit qualified persons to submit proposals in accordance with the
3 request for proposals given the nature of the project.

4 3. A design criteria consultant shall be employed or retained by the political subdivision to
5 assist in preparation of the design criteria package and request for proposal, perform periodic site
6 visits to observe adherence to the design criteria, prepare progress reports, review and approve
7 progress and final pay applications of the design-builder, review shop drawings and submissions,
8 provide input in disputes, help interpret the construction documents, perform inspections upon
9 substantial and final completion, assist in warranty inspections, and provide any other professional
10 service assisting with the project administration. The design criteria consultant may also evaluate
11 construction as to the adherence of the design criteria. The consultant shall be selected and its
12 contract negotiated in compliance with sections 8.285 to 8.291 unless the consultant is a direct
13 employee of the political subdivision.

14 4. The political subdivision shall publicly disclose at a regular meeting its intent to utilize
15 the design-build method and its project design criteria at least one week prior to publishing the
16 request for proposals. Notice of requests for proposals shall be advertised by publication in a
17 newspaper of general circulation published in the county where the political subdivision is located
18 once a week for two consecutive weeks prior to opening the proposals, or by a virtual notice
19 procedure that notifies interested parties for at least twenty various purchases, design contracts,
20 construction contracts, or other contracts each year for the political subdivision. The political
21 subdivision shall publish a notice of a request for proposal with a description of the project, the
22 procedures for submission, and the selection criteria to be used.

23 5. The political subdivision shall establish in the request for proposal a time, place, and
24 other specific instructions for the receipt of proposals. Proposals not submitted in strict accordance
25 with the instructions shall be subject to rejection.

26 6. A request for proposal shall be prepared for each design-build contract containing at
27 minimum the following elements:

28 (1) The procedures to be followed for submitting proposals, the criteria for evaluating
29 proposals and their relative weight, and the procedures for making awards;

30 (2) The proposed terms and conditions for the design-build contract, if available;

31 (3) The design criteria package;

32 (4) A description of the drawings, specifications, or other information to be submitted with
33 the proposal, with guidance as to the form and level of completeness of the drawings, specifications,
34 or other information that will be acceptable;

35 (5) A schedule for planned commencement and completion of the design-build contract, if
36 any;

37 (6) Budget limits for the design-build contract, if any;

38 (7) Requirements including any available ratings for performance bonds, payment bonds,
39 and insurance, if any;

1 (8) The amount of the stipend which will be available; and

2 (9) Any other information that the political subdivision in its discretion chooses to supply
3 including, but not limited to, surveys, soil reports, drawings of existing structures, environmental
4 studies, photographs, references to public records, or affirmative action and minority business
5 enterprise requirements consistent with state and federal law.

6 7. The political subdivision shall solicit proposals in a three-stage process. Phase I shall be
7 the solicitation of qualifications of the design-build team. Phase II shall be the solicitation of a
8 technical proposal including conceptual design for the project. Phase III shall be the proposal of the
9 construction cost.

10 8. The political subdivision shall review the submissions of the proposals and assign points
11 to each proposal in accordance with this section and as set out in the instructions of the request for
12 proposal.

13 9. Phase I shall require all design-builders to submit a statement of qualification that shall
14 include, but not be limited to:

15 (1) Demonstrated ability to perform projects comparable in design, scope, and complexity;

16 (2) References of owners for whom design-build projects, construction projects, or design
17 projects have been performed;

18 (3) Qualifications of personnel who will manage the design and construction aspects of the
19 project; and

20 (4) The names and qualifications of the primary design consultants and the primary trade
21 contractors with whom the design-builder proposes to subcontract or joint venture. The design-
22 builder ~~may~~ shall not replace an identified contractor, subcontractor, design consultant, or
23 subconsultant without the written approval of the political subdivision.

24 10. The political subdivision shall evaluate the qualifications of all the design-builders who
25 submitted proposals in accordance with the instructions of the request for proposal. Architectural
26 and engineering services on the project shall be evaluated in accordance with the requirements of
27 sections 8.285 and 8.291. Qualified design-builders selected by the evaluation team may proceed to
28 phase II of the selection process. Design-builders lacking the necessary qualifications to perform
29 the work shall be disqualified and shall not proceed to phase II of the process. This process of short
30 listing shall narrow the number of qualified design-builders to not more than five nor fewer than
31 two. Under no circumstances shall price or fees be a part of the prequalification criteria. Design-
32 builders may be interviewed in either phase I or phase II of the process. Points assigned in phase I
33 of the evaluation process shall not carry forward to phase II of the process. All qualified design-
34 builders shall be ranked on points given in phases II and III only.

35 11. The political subdivision shall have discretion to disqualify any design-builder who, in
36 the political subdivision's opinion, lacks the minimum qualifications required to perform the work.

37 12. Once a sufficient number of no more than five and no fewer than two qualified design-
38 builders have been selected, the design-builders shall have a specified amount of time in which to
39 assemble phase II and phase III proposals.

13. Phase II of the process shall be conducted as follows:

(1) The political subdivision shall invite the top qualified design-builders to participate in phase II of the process;

(2) A design-builder shall submit its design for the project to the level of detail required in the request for proposal. The design proposal shall demonstrate compliance with the requirements set out in the request for proposal;

(3) The ability of the design-builder to meet the schedule for completing a project as specified by the political subdivision may be considered as an element of evaluation in phase II;

(4) Up to twenty percent of the points awarded to each design-builder in phase II may be based on each design-builder's qualifications and ability to design, contract, and deliver the project on time and within the budget of the political subdivision;

(5) Under no circumstances shall the design proposal contain any reference to the cost of the proposal; and

(6) The submitted designs shall be evaluated and assigned points in accordance with the requirements of the request for proposal. Phase II shall account for not less than forty percent of the total point score as specified in the request for proposal.

14. Phase III shall be conducted as follows:

(1) The phase III proposal shall provide a firm, fixed cost of design and construction. The proposal shall be accompanied by bid security and any other items, such as statements of minority participation as required by the request for proposal;

(2) Cost proposals shall be submitted in accordance with the instructions of the request for proposal. The political subdivision shall reject any proposal that is not submitted on time. Phase III shall account for not less than forty percent of the total point score as specified in the request for proposal;

(3) Proposals for phase II and phase III shall be submitted concurrently at the time and place specified in the request for proposal, but in separate envelopes or other means of submission. The phase III cost proposals shall be opened only after the phase II design proposals have been evaluated and assigned points, ranked in order, and posted;

(4) Cost proposals shall be opened and read aloud at the time and place specified in the request for proposal. At the same time and place, the evaluation team shall make public its scoring of phase II. Cost proposals shall be evaluated in accordance with the requirements of the request for proposal. In evaluating the cost proposals, the lowest responsive bidder shall be awarded the total number of points assigned to be awarded in phase III. For all other bidders, cost points shall be calculated by reducing the maximum points available in phase III by at least one percent for each percentage point by which the bidder exceeds the lowest bid and the points assigned shall be added to the points assigned for phase II for each design-builder;

(5) If the political subdivision determines that it is not in the best interest of the political subdivision to proceed with the project pursuant to the proposal offered by the design-builder with the highest total number of points, the political subdivision shall reject all proposals. In this event,

1 all qualified and responsive design-builders with lower point totals shall receive a stipend and the
2 responsive design-builder with the highest total number of points shall receive an amount equal to
3 two times the stipend. If the political subdivision decides to award the project, the responsive
4 design-builder with the highest number of points shall be awarded the contract; and

5 (6) If all proposals are rejected, the political subdivision may solicit new proposals using
6 different design criteria, budget constraints, or qualifications.

7 15. As an inducement to qualified design-builders, the political subdivision shall pay a
8 reasonable stipend, the amount of which shall be established in the request for proposal, to each
9 prequalified design-builder whose proposal is responsive but not accepted. Such stipend shall be no
10 less than one-half of one percent of the total project budget. Upon payment of the stipend to any
11 unsuccessful design-builder, the political subdivision shall acquire a nonexclusive right to use the
12 design submitted by the design-builder, and the design-builder shall have no further liability for the
13 use of the design by the political subdivision in any manner. If the design-builder desires to retain
14 all rights and interest in the design proposed, the design-builder shall forfeit the stipend.

15 16. (1) As used in this subsection, "wastewater or water contract" means any design-build
16 contract that involves the provision of engineering and construction services either directly by a
17 party to the contract or through subcontractors retained by a party to the contract for a wastewater or
18 water storage, conveyance, or treatment facility project.

19 (2) Any political subdivision may enter into a wastewater or water contract for design-build
20 of a wastewater or water project.

21 (3) In disbursing community development block grants under 42 U.S.C. Sections 5301 to
22 5321, the department of economic development shall not reject wastewater or water projects solely
23 for utilizing wastewater or water contracts.

24 (4) The department of natural resources shall not preclude wastewater or water contracts
25 from consideration for funding provided by the water and wastewater loan fund under section
26 644.122.

27 (5) A political subdivision planning a wastewater or water design-build project shall retain
28 an engineer duly licensed in this state to assist in preparing any necessary documents and
29 specifications and evaluations of design-build proposals.

30 17. The payment bond requirements of section 107.170 shall apply to the design-build
31 project. All persons furnishing design services shall be deemed to be covered by the payment bond
32 the same as any person furnishing labor and materials. The performance bond for the design-builder
33 shall not cover any damages of the type specified to be covered by the professional liability
34 insurance established by the political subdivision in the request for proposals.

35 18. Any person or firm performing architectural, engineering, landscape architecture, or
36 land-surveying services for the design-builder on the design-build project shall be duly licensed or
37 authorized in this state to provide such services as required by chapter 327.

38 19. Any political subdivision engaged in a project under this section which impacts a
39 railroad regulated by the Federal Railroad Administration shall consult with the affected railroad on

1 required specifications relating to clearance, safety, insurance, and indemnification to be included in
2 the construction documents for such project.

3 20. Under section 327.465, any design-builder that enters into a design-build contract with a
4 political subdivision is exempt from the requirement that such person or entity hold a license or that
5 such corporation hold a certificate of authority if the architectural, engineering, or land-surveying
6 services to be performed under the design-build contract are performed through subcontracts or joint
7 ventures with properly licensed or authorized persons or entities, and not performed by the design-
8 builder or its own employees.

9 21. This section shall not apply to:

10 (1) Any metropolitan sewer district established under Article VI, Section 30(a) of the
11 Constitution of Missouri; or

12 (2) Any special charter city, or any city or county governed by home rule under Article VI,
13 ~~[Section 18]~~ Sections 18(a) to 18(r) or Section 19 of the Constitution of Missouri that has adopted a
14 design-build process via ordinance, rule, or regulation.

15 ~~[22. The authority to use design-build and design-build contracts provided under this section~~
16 ~~shall expire September 1, 2026. -]~~"; and

17
18 Further amend said bill by amending the title, enacting clause, and intersectional references
19 accordingly.
