FISCAL ANALYSIS

ASSUMPTION

§ 208.152 - MO HealthNet coverage of hearing aids and cochlear implants

Officials from the **Department of Social Services (DSS), MO HealthNet Division (MHD)** identified 193,308 adults who are currently enrolled in MHD Fee-for-Service could be eligible for hearing aid services. Using data from the [CDC](#), MHD estimates that 7.1% (13,725) of those adults may utilize these services. The average cost of hearing aid services is \$210.73.

This legislation would also result in an impact to the Managed Care capitation rates of up to \$10 million. The cost of the actuarial study to evaluate this program change would be no more than \$25,000 in the first year.

Due to the timing of obtaining a State Plan Amendment (SPA) and waiver for this legislation, MHD assumes additional costs for hearing aid services will begin in FY27. MHD estimates 80% of the participants identified will obtain hearing aid services in the first year due to pent-up demand, and 20% in subsequent years. A 6.5% medical inflation rate was used for FY28.

FY26 Total: \$25,000 (GR: \$12,500; Federal: \$12,500)

FY27 Total: Up to \$10,313,793 (GR: \$2,491,096; Federal: \$7,822,697)

FY28 Total: Up to \$2,746,047 (GR: \$663,254; Federal: \$2,082,793)

Oversight does not have information to the contrary and therefore, Oversight will reflect the estimates as provided by the DSS.

Officials from the **Department of Mental Health** assume the proposal will have no fiscal impact on their organization. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note.
