FISCAL ANALYSIS

ASSUMPTION

§537.104 – Civil Liability for Distributing Material Harmful to Minors on the Internet

Officials from the **Office of the State Courts Administrator**, the **Department of Commerce and Insurance**, the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Labor and Industrial Relations**, the **Department of Revenue**, the **Missouri Highway Patrol**, the **Department of Social Services** and the **Office of the Secretary of State** each assume the proposal will have no fiscal impact on their respective organizations.

Officials from the **Office of Attorney General (AGO)** assume any potential litigation costs arising from this proposal can be absorbed with existing resources. However, the AGO may seek additional appropriations if the proposal results in a significant increase in litigation or investigation.

Oversight notes that according to the 2020 US Census for the State of Missouri, there were 1,379,301 minors ages 0 to 17. Assuming if only 0.1% of the parents of those minors are impacted by the proposed legislation, this could potentially result in 1,379 new liability claims. Oversight could not find any information on the number of potential liability claims related to age-verification methods; therefore, Oversight assumes the number of new claims is ultimately unknown.

Oversight notes that the above mentioned agencies have stated the proposal would not have a direct fiscal impact on their organization. Oversight will adopt their assumption and will reflect a zero impact on the fiscal note.

FISCAL DESCRIPTION

This bill requires any commercial entity that knowingly or intentionally publishes or distributes on the Internet material harmful to minors, as defined in the bill, to verify that any person attempting to access the material is at least 18 years old. Any commercial entity that violates these provisions will be subject to civil liability for damages resulting from a minor's access to the material. The bill does not impose an obligation or liability on a provider or user of an interactive computer service on the Internet.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
