## FISCAL ANALYSIS

### ASSUMPTION

#### \$292.606 – Fees paid to the Missouri Emergency Response Commission

Officials from the **Department of Public Safety (DPS) – State Emergency Management Agency (SEMA)** state that currently, authorization for the collection of fees for hazardous chemicals in the workplace, which funds the Missouri Emergency Response Commission (MERC), was not reauthorized under HB 1870 (2024) and was allowed to expire on August 28, 2024. HB 1870 (2024) would have extended the authorization for six years to August 28, 2030.

The mission of the MERC is to protect public health and the environment by assisting communities with chemical incident prevention, preparedness, response, and recovery; and by receiving, processing, and reporting on chemical information under the community right-to-know laws. The program has been in existence since the late 1980s and has provided training and assistance to local communities to be compliant with the federal EPCRA laws.

Current law allowed for the collection of data and fees. In fiscal year 2023, the amount collected was approximately \$1,001,410 with \$598,495 of this fund being redistributed to the locals, \$92,076 distributed to the Missouri Division of Fire Safety for hazardous materials training and the remaining \$230,190 was retained by the MERC to operate the program and to provide a match for federal funds that allow additional hazardous materials planning and training for local first responders. The chemical storage facility owners and gas station owners must pay an annual fee based on the type and amount of chemicals they store at their facility.

This proposal would allow a one-time fee to be calculated based on the normal filing due March 1, 2025 and will be paid by November 1, 2025.

**Oversight** has no information to the contrary. Therefore, Oversight will present the fiscal impact of this proposal as revenue coming into the Chemical Emergency Preparedness Fund of \$834,508 in FY 2026 and \$1,001,410 in FY 2027 and subsequent years.

**Oversight** notes the Chemical Emergency Preparedness Fund (0587) had a fund balance of \$698,599 on December 31, 2024.

Officials from the **Department of Commerce and Insurance**, the **Department of Economic Development**, the **Department of Health and Senior Services**, the **Department of Natural Resources**, the **Department of Public Safety (DPS)**, **Divisions of: Fire Safety** and the **Director's Office**, the **Office of the Governor**, the **Phelps County Sheriff**, the **Branson Police Department**, the **Kansas City Police Department** and the **St. Louis County Police Department** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

**Oversight** only reflects the responses received from state agencies and political subdivisions; however, cities, various county officials, and other sheriffs, police and fire protection districts were requested to respond to this proposed legislation but did not. A listing of political subdivisions included in the Missouri Legislative Information System (MOLIS) database is available upon request.
