**FISCAL ANALYSIS**

**ASSUMPTION**

Sections 347.740, 351.127, 355.023, 356.233, 359.653, 400.9-528 and 417.018 – Extends the sunset on various fees the Secretary of State can collect

Officials from the **Office of the Secretary of State (SOS)** state if the provisions aren't extended, there will be loss of approximately \$3.4 million per year in technology fees used to support the SOS IT Department's hardware/software needs.

Officials from the **SOS Rules Division** note many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with its core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

**Oversight** has no information to the contrary. Therefore, Oversight will present the fiscal impact of this proposal as provided by the Office of the Secretary of State. Oversight assumes the collection of fees is extended beginning January 1, 2027.

Officials from the **Office of the State Treasurer** assume the proposal will have no fiscal impact on their respective organization. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for this agency.
