FISCAL ANALYSIS

ASSUMPTION

§ 188.035 – Born-Alive Abortion Survivors Protection Act

In response to similar legislation from the current session (HB 195), officials from the **Department of Health and Senior Services (DHSS)** stated this proposal creates the Born-Alive Abortion Survivors Protection Act. The proposed legislation gives “a child born alive during or after an abortion the same rights, privileges, and immunities available to other persons, citizens, and residents of this state, including any other liveborn child.” The bill further adds requirements for care of the child and violation reporting, as well as allows for criminal, administrative, and civil liability for any person found in violation.

The Division of Regulation and Licensure’s (DRL) Section for Health Standards and Licensure (HSL) will be responsible for facility licensing, inspection, and complaints.

It is assumed that the Department can absorb the costs of this bill with current resources. However, if the workload significantly increased or other legislation was enacted, additional resources would be requested through the appropriation process.

Oversight does not have any information to the contrary. Therefore, Oversight assumes the DHSS will be able to perform any additional duties required by this proposal with current staff and resources and will reflect no fiscal impact to the DHSS for fiscal note purposes.

Officials from the **Office of Attorney General (AGO)** assume any potential litigation costs arising from this proposal can be absorbed with existing resources. However, the AGO may seek additional appropriations if the proposal results in a significant increase in litigation or investigation costs.

Oversight does not have any information to the contrary. Therefore, Oversight assumes the AGO will be able to perform any additional duties required by this proposal with current staff and resources and will reflect no fiscal impact to the AGO for fiscal note purposes.

Officials from the **Department of Corrections (DOC)** state although the bill repeals the potential to charge someone with murder in the second degree, which is a class A felony, department records do not allow for the identification of individuals whose convictions are based on actions outlined in the proposed legislation. Therefore, the DOC assumes no fiscal impact.

Oversight does not have any information to the contrary. Therefore, Oversight will reflect no fiscal impact for this agency.

Officials from the **Department of Commerce and Insurance**, the **Department of Public Safety**, **Missouri Highway Patrol**, the **Department of Social Services**, the **Department of Health and Senior Services**, the **Office of the State Public Defender** and the **Missouri Office of Prosecution Services** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

In response to similar legislation from the current session (HB 195), officials from the **Office of the State Courts Administrator** assumed the proposal will have no fiscal impact on their organization. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note.
