FIRST REGULAR SESSION

HOUSE BILL NO. 789

103RD GENERAL ASSEMBLY

INTRODUCED BY REPRESENTATIVE COLLINS.

1944H.01I JOSEPH ENGLER, Chief Clerk

AN ACT

To repeal sections 197.315 and 198.022, RSMo, and to enact in lieu thereof three new sections relating to long-term care facilities, with penalty provisions.

Be it enacted by the General Assembly of the state of Missouri, as follows:

4

Section A. Sections 197.315 and 198.022, RSMo, are repealed and three new sections enacted in lieu thereof, to be known as sections 197.315, 198.022, and 198.043, to read as follows:

197.315. 1. Any person who proposes to develop or offer a new institutional health service within the state must obtain a certificate of need from the committee prior to the time 3 such services are offered.

- 2. Only those new institutional health services which are found by the committee to 5 be needed shall be granted a certificate of need. Only those new institutional health services which are granted certificates of need shall be offered or developed within the state. No expenditures for new institutional health services in excess of the applicable expenditure minimum shall be made by any person unless a certificate of need has been granted.
- 9 3. After October 1, 1980, no state agency charged by statute to license or certify health care facilities shall issue a license to or certify any such facility, or distinct part of such 10 facility, that is developed without obtaining a certificate of need. 11
- 12 4. If any person proposes to develop any new institutional health care service without 13 a certificate of need as required by sections 197.300 to 197.366, the committee shall notify the attorney general, and he shall apply for an injunction or other appropriate legal action in any court of this state against that person.

EXPLANATION — Matter enclosed in bold-faced brackets [thus] in the above bill is not enacted and is intended to be omitted from the law. Matter in **bold-face** type in the above bill is proposed language.

HB 789

5. After October 1, 1980, no agency of state government may appropriate or grant funds to or make payment of any funds to any person or health care facility which has not first obtained every certificate of need required pursuant to sections 197.300 to 197.366.

- 6. A certificate of need shall be issued only for the premises and persons named in the application and is not transferable except by consent of the committee.
- 7. Project cost increases, due to changes in the project application as approved or due to project change orders, exceeding the initial estimate by more than ten percent shall not be incurred without consent of the committee.
- 8. Periodic reports to the committee shall be required of any applicant who has been granted a certificate of need until the project has been completed. The committee may order the forfeiture of the certificate of need upon failure of the applicant to file any such report.
- 9. A certificate of need shall be subject to forfeiture for failure to incur a capital expenditure on any approved project within six months after the date of the order. The applicant may request an extension from the committee of not more than six additional months based upon substantial expenditure made.
- 10. Each application for a certificate of need must be accompanied by an application fee. The time of filing commences with the receipt of the application and the application fee. The application fee is one thousand dollars, or one-tenth of one percent of the total cost of the proposed project, whichever is greater. All application fees shall be deposited in the state treasury. Because of the loss of federal funds, the general assembly will appropriate funds to the Missouri health facilities review committee.
- 11. In determining whether a certificate of need should be granted, no consideration shall be given to the facilities or equipment of any other health care facility located more than a fifteen-mile radius from the applying facility.
- 12. When a nursing facility shifts from a skilled to an intermediate level of nursing care, it may return to the higher level of care if it meets the licensure requirements, without obtaining a certificate of need.
- 13. In no event shall a certificate of need be denied because the applicant refuses to provide abortion services or information.
 - 14. A certificate of need shall not be required for the transfer of ownership of an existing and operational health facility in its entirety, except for any assisted living facility, intermediate care facility, residential care facility, or skilled nursing facility, as such terms are defined in section 198.006.
- 15. A certificate of need may be granted to a facility for an expansion, an addition of services, a new institutional service, or for a new hospital facility which provides for something less than that which was sought in the application.

16. The provisions of this section shall not apply to facilities operated by the state, and appropriation of funds to such facilities by the general assembly shall be deemed in compliance with this section, and such facilities shall be deemed to have received an appropriate certificate of need without payment of any fee or charge. The provisions of this subsection shall not apply to hospitals operated by the state and licensed under this chapter, except for department of mental health state-operated psychiatric hospitals.

- 17. Notwithstanding other provisions of this section, a certificate of need may be issued after July 1, 1983, for an intermediate care facility operated exclusively for the intellectually disabled.
- 18. To assure the safe, appropriate, and cost-effective transfer of new medical technology throughout the state, a certificate of need shall not be required for the purchase and operation of:
- (1) Research equipment that is to be used in a clinical trial that has received written approval from a duly constituted institutional review board of an accredited school of medicine or osteopathy located in Missouri to establish its safety and efficacy and does not increase the bed complement of the institution in which the equipment is to be located. After the clinical trial has been completed, a certificate of need must be obtained for continued use in such facility; or
- (2) Equipment that is to be used by an academic health center operated by the state in furtherance of its research or teaching missions.
- 198.022. 1. Upon receipt of an application for a license to operate a facility, the department shall review the application, investigate the applicant and the statements sworn to in the application for license and conduct any necessary inspections. A license shall be issued if the following requirements are met:
- (1) The application discloses all facility owners, facility trustees, and companies that provide the facility or operator with administrative, clinical, and financial services, including real estate investment trusts;
 - (2) The statements in the application are true and correct;
- [(2)] (3) The facility and the operator are in substantial compliance with the provisions of sections 198.003 to 198.096 and the standards established thereunder;
 - [(3)] (4) The applicant has the financial capacity to operate the facility;
- [(4)] (5) The administrator of an assisted living facility, a skilled nursing facility, or an intermediate care facility is currently licensed under the provisions of chapter 344;
- [(5)] (6) Neither the operator nor any principals in the operation of the facility have ever been convicted of a felony offense concerning the operation of a long-term health care facility or other health care facility or ever knowingly acted or knowingly failed to perform any duty which materially and adversely affected the health, safety, welfare or property of a

resident, while acting in a management capacity. The operator of the facility or any principal in the operation of the facility shall not be under exclusion from participation in the Title XVIII (Medicare) or Title XIX (Medicaid) program of any state or territory;

- [(6)] (7) Neither the operator nor any principals involved in the operation of the facility have ever been convicted of a felony in any state or federal court arising out of conduct involving either management of a long-term care facility or the provision or receipt of health care; and
- [(7)] **(8)** All fees due to the state have been paid.
- 2. Upon denial of any application for a license, the department shall so notify the applicant in writing, setting forth therein the reasons and grounds for denial.
- 3. The department may inspect any facility and any records and may make copies of records, at the facility, at the department's own expense, required to be maintained by sections 198.003 to 198.096 or by the rules and regulations promulgated thereunder at any time if a license has been issued to or an application for a license has been filed by the operator of such facility. Copies of any records requested by the department shall be prepared by the staff of such facility within two business days or as determined by the department. The department shall not remove or disassemble any medical record during any inspection of the facility, but may observe the photocopying or may make its own copies if the facility does not have the technology to make the copies. In accordance with the provisions of section 198.525, the department shall make at least one inspection per year, which shall be unannounced to the operator. The department may make such other inspections, announced or unannounced, as it deems necessary to carry out the provisions of sections 198.003 to 198.136.
- 4. Whenever the department has reasonable grounds to believe that a facility required to be licensed under sections 198.003 to 198.096 is operating without a license, and the department is not permitted access to inspect the facility, or when a licensed operator refuses to permit access to the department to inspect the facility, the department shall apply to the circuit court of the county in which the premises is located for an order authorizing entry for such inspection, and the court shall issue the order if it finds reasonable grounds for inspection or if it finds that a licensed operator has refused to permit the department access to inspect the facility.
- 5. Whenever the department is inspecting a facility in response to an application from an operator located outside of Missouri not previously licensed by the department, the department may request from the applicant the past five years of compliance history of all facilities owned by the applicant located outside of this state.

198.043. 1. As used in this section, the following terms mean:

2 (1) "Certified nursing assistant", the same meaning given to the term in section 3 198.082;

4 (2) "Charge nurse", a registered professional nurse who oversees the operations of the nurse's specific nursing unit during a set period;

- (3) "CMS", the Centers for Medicare and Medicaid Services;
- (4) "Hours per resident day", the total number of hours worked by each type of staff divided by the total number of residents;
- 9 (5) "Registered professional nurse" or "registered nurse", the same meanings 10 given to the terms in section 335.016.
 - 2. Assisted living facilities shall have sufficient nursing staff with the appropriate competencies and skill sets to provide nursing and related services to ensure resident safety and attain or maintain the highest practicable physical, mental, and psychosocial well-being of each resident by maintaining on a twenty-four-hour basis the following types of personnel:
 - (1) Registered nurses. Each assisted living facility shall comply with the following staffing requirements for registered nurses:
 - (a) Each assisted living facility shall provide care by registered nurses for a minimum of fifty-five hundredths hours per resident day; and
 - (b) At least one registered nurse shall be on site twenty-four hours a day, seven days a week; and
 - (2) Other nursing personnel. Each assisted living facility shall provide care by certified nursing assistants for a minimum of two and forty-four hundredths hours per resident day.
 - 3. Assisted living facilities shall electronically submit to CMS complete and accurate direct care staffing information, including information for agency and contract staff, based on payroll and other verifiable and auditable data in a uniform format according to specifications established by CMS in accordance with 42 CFR 483.70(p).
 - 4. Determinations of compliance with hours per resident day specified in subsection 2 of this section shall be made by the department based on the most recent available quarter of Payroll-Based Journal System data maintained by CMS.
 - 5. The department may impose appropriate sanctions and assess an administrative penalty under this section on an administrator of a facility who fails to meet the minimum staffing standards two quarters in a row as determined by rule.
 - 6. (1) An assisted living facility may be exempted from the minimum staffing requirements of subdivisions (1) and (2) of subsection 2 of this section by the department if a verifiable hardship exists that prohibits the facility from achieving or maintaining compliance as demonstrated by meeting the following criteria:
 - (a) The facility is located in an area where:

- a. The supply of applicable health care staff, either registered professional nurses or certified nursing assistants or both, is not sufficient to meet area needs as evidenced by a provider-population ratio for nursing workforce that is medium, twenty percent below the national average, or low, forty percent below the national average; and
 - b. The facility is at least twenty miles from another assisted living facility;
- (b) The facility demonstrates that it has been unable, despite diligent efforts, including offering at least prevailing wages, to recruit and retain appropriate personnel as verified by:
 - a. Job listings in commonly used recruitment forums found online at American Job Centers, coordinated by the United States Department of Labor's Employment and Training Administration; MoJobs, coordinated by the department of higher education and workforce development; and other forums as appropriate;
 - b. Documented job vacancies, including the number and duration of the vacancies and documentation of offers made, including that they were made at least at prevailing wages;
 - c. Data on the average wages in the metropolitan statistical area in which the facility is located and vacancies by industry as reported by the department of labor and industrial relations; and
 - d. The facility's staffing plan, which shall be developed and maintained to maximize recruitment and retention of direct care staff; and
 - (c) The facility demonstrates through documentation the amount of financial resources that the facility expends on nurse staffing relative to revenue.
 - (2) A facility shall not be eligible for a hardship waiver from the minimum staffing requirements if the facility:
- (a) Has been cited within the twelve months preceding the survey during which the facility's noncompliance is identified:
- a. For having widespread insufficient staffing with resultant resident actual harm;
 - b. For a pattern of insufficient staffing with resultant resident actual harm; or
 - c. As at the immediate jeopardy level of severity with respect to insufficient staffing as determined by CMS; or
 - (b) Has failed to submit data to CMS under subsection 3 of this section.
- 73 7. In order to appropriately manage required nursing staff, an assisted living facility shall:
- 75 (1) Designate a registered professional nurse as the director of nursing on a full-76 time basis; and

77 (2) Designate a registered professional nurse to serve as a charge nurse for each 78 nursing shift. The director of nursing designated in subdivision (1) of this subsection 79 may serve as a charge nurse only if the facility has an average daily occupancy of sixty 80 or fewer residents.
