

JOURNAL OF THE HOUSE

First Regular Session, 103rd General Assembly

TWENTY-FIFTH DAY, WEDNESDAY, FEBRUARY 19, 2025

The House met pursuant to adjournment.

Speaker Patterson in the Chair.

Prayer by Representative Danny Busick.

Our most precious Heavenly Father, hear our prayer today. Humble each one of us today. Give us the heart of a servant. Help us to want to serve those who elect us. Help us to want to serve each other in this place. We are all here in this House today not because of what we have done but because of what You have done. So please, Lord, grant us wisdom as we make choices that will affect those whom we serve. We pray these things in the name of our Lord and Savior, Jesus Christ. And the House said, "Amen!"

The Pledge of Allegiance to the flag was recited.

The Journal of the twenty-fourth day was approved as corrected by the following vote:

"301.190. 1. No certificate of registration of any motor vehicle or trailer, or number plate therefor, shall be issued by the director of revenue unless the applicant therefor shall make application for and be granted a certificate of ownership of such motor vehicle or trailer, or shall present satisfactory evidence that such certificate has been previously issued to the applicant for such motor vehicle or trailer. Application shall be made within thirty days after the applicant acquires the motor vehicle or trailer, unless the motor vehicle was acquired under section 301.213 or subsection 5 of section 301.210 in which case the applicant shall make application within thirty days after receiving title from the dealer, upon a blank form furnished by the director of revenue and shall contain the applicant's identification number, a full description of the motor vehicle or trailer, the vehicle identification number, and the mileage registered on the odometer at the time of transfer of ownership, as required by section 407.536, together with a statement of the applicant's source of title and of any liens or encumbrances on the motor vehicle or trailer, provided that for good cause shown the director of revenue may extend the period of time for making such application. When an owner wants to add or delete a name or names on an application for certificate of ownership of a motor vehicle or trailer that would cause it to be inconsistent with the name or names listed on the notice of lien, the owner shall provide the director with documentation evidencing the lienholder's authorization to add or delete a name or names on an application for certificate of ownership.

2. The director of revenue shall use reasonable diligence in ascertaining whether the facts stated in such application are true and shall, to the extent possible without substantially delaying processing of the application, review any odometer information pertaining to such motor vehicle that is accessible to the director of revenue. If satisfied that the applicant is the lawful owner of such motor vehicle or trailer, or otherwise entitled to have the same registered in his name, the director shall thereupon issue an appropriate certificate over his signature and sealed with the seal of his office, procured and used for such purpose. The certificate shall contain on its face a complete description, vehicle identification number, and other evidence of identification of the motor vehicle or trailer, as the director of revenue may deem necessary, together with the odometer information required to be put on the face of the certificate pursuant to section 407.536, a statement of any liens or encumbrances which the application may show to be thereon, and, if ownership of the vehicle has been transferred, the name of the state issuing the transferor's title and whether the transferor's odometer mileage statement executed pursuant to section 407.536 indicated that the true mileage is materially different from the number of miles shown on the odometer, or is unknown.

3. The director of revenue shall appropriately designate on the current and all subsequent issues of the certificate the words "Reconstructed Motor Vehicle", "Motor Change Vehicle", "Specially Constructed Motor Vehicle", or "Non-USA-Std Motor Vehicle", as defined in section 301.010. Effective July 1, 1990, on all original and all subsequent issues of the certificate for motor vehicles as referenced in subsections 2 and 3 of section 301.020, the director shall print on the face thereof the following designation: "Annual odometer updates may be available from the department of revenue.". On any duplicate certificate, the director of revenue shall reprint on the face thereof the most recent of either:

(1) The mileage information included on the face of the immediately prior certificate and the date of purchase or issuance of the immediately prior certificate; or

(2) Any other mileage information provided to the director of revenue, and the date the director obtained or recorded that information.

4. The certificate of ownership issued by the director of revenue shall be manufactured in a manner to prohibit as nearly as possible the ability to alter, counterfeit, duplicate, or forge such certificate without ready detection. In order to carry out the requirements of this subsection, the director of revenue may contract with a nonprofit scientific or educational institution specializing in the analysis of secure documents to determine the most effective methods of rendering Missouri certificates of ownership nonalterable or noncounterfeitable.

5. The fee for each original certificate so issued shall be eight dollars and fifty cents, in addition to the fee for registration of such motor vehicle or trailer. If application for the certificate is not made within thirty days after the vehicle is acquired by the applicant, or where the motor vehicle was acquired under section 301.213 or subsection 5 of section 301.210 and the applicant fails to make application within thirty days after receiving title from the dealer, a delinquency penalty fee of twenty-five dollars for the first thirty days of delinquency and twenty-five dollars for each thirty days of delinquency thereafter, not to exceed a total of two hundred dollars, but such penalty may be waived by the director for a good cause shown. If the director of revenue learns that any person has failed to obtain a certificate within thirty days after acquiring a motor vehicle or trailer, or where the motor vehicle was acquired under section 301.213 or subsection 5 of section 301.210 and the applicant fails to make application within thirty days after receiving title from the dealer, or has sold a vehicle without obtaining a certificate, he shall cancel the registration of all vehicles registered in the name of the person, either as sole owner or as a co-owner, and shall notify the person that the cancellation will remain in force until the person pays the delinquency penalty fee provided in this section, together with all fees, charges and payments which the person should have paid in connection with the certificate of ownership and registration of the vehicle. The certificate shall be good for the life of the motor vehicle or trailer so long as the same is owned or held by the original holder of the certificate and shall not have to be renewed annually.

6. Any applicant for a certificate of ownership requesting the department of revenue to process an application for a certificate of ownership in an expeditious manner requiring special handling shall pay a fee of five dollars in addition to the regular certificate of ownership fee.

7. It is unlawful for any person to operate in this state a motor vehicle or trailer required to be registered under the provisions of the law unless a certificate of ownership has been applied for as provided in this section.

8. Before an original Missouri certificate of ownership is issued, an inspection of the vehicle and a verification of vehicle identification numbers shall be made by the Missouri state highway patrol on vehicles for which there is a current title issued by another state if a Missouri salvage certificate of title has been issued for the same vehicle but no prior inspection and verification has been made in this state, except that if such vehicle has been inspected in another state by a law enforcement officer in a manner comparable to the inspection process in this state and the vehicle identification numbers have been so verified, the applicant shall not be liable for the twenty-five dollar inspection fee if such applicant submits proof of inspection and vehicle identification number verification to the director of revenue at the time of the application. The applicant, who has such a title for a vehicle on which no prior inspection and verification have been made, shall pay a fee of twenty-five dollars for such verification and inspection, payable to the director of revenue at the time of the request for the application, which shall be deposited in the state treasury to the credit of the state highways and transportation department fund.

9. Each application for an original Missouri certificate of ownership for a vehicle which is classified as a reconstructed motor vehicle, specially constructed motor vehicle, kit vehicle, motor change vehicle, non-USA-std motor vehicle, or other vehicle as required by the director of revenue shall be accompanied by a vehicle examination certificate issued by the Missouri state highway patrol, or other law enforcement agency as authorized by the director of revenue. The vehicle examination shall include a verification of vehicle identification numbers and a determination of the classification of the vehicle. The owner of a vehicle which requires a vehicle examination certificate shall present the vehicle for examination and obtain a completed vehicle examination certificate prior to submitting an application for a certificate of ownership to the director of revenue. Notwithstanding any provision of the law to the contrary, an owner presenting a motor vehicle which has been issued a salvage title and which is ten years of age or older to a vehicle examination described in this subsection in order to obtain a certificate of ownership with the designation prior salvage motor vehicle shall not be required to repair or restore the vehicle to its original appearance in order to pass or complete the vehicle examination. The fee for the vehicle examination application shall be twenty-five dollars and shall be collected by the director of revenue at the time of the request for the application and shall be deposited in the state treasury to the credit of the state highways and transportation department fund. If the vehicle is also to be registered in Missouri, the safety inspection required in chapter 307 and the emissions inspection required under chapter 643 shall be completed and the fees required by section 307.365 and section 643.315 shall be charged to the owner.

10. When an application is made for an original Missouri certificate of ownership for a motor vehicle previously registered or titled in a state other than Missouri or as required by section 301.020, it shall be accompanied by a current inspection form certified by a duly authorized official inspection station as described in chapter 307, **except that such inspection may be completed by an employee of a licensed new or used motor vehicle dealer for a motor vehicle sold to a person who lives outside of this state and intends to register the vehicle outside of this state or for a motor vehicle having less than thirty thousand miles for the three-year period following the model year of manufacture.** The completed form shall certify that the manufacturer's identification number for the vehicle has been inspected, that it is correctly displayed on the vehicle and shall certify the reading shown on the odometer at the time of inspection. The inspection station **or, in the case of a motor vehicle sold to a person who lives outside of this state and intends to register the vehicle outside of this state or a motor vehicle having less than thirty thousand miles for the three-year period following the model year of manufacture, the licensed new or used motor vehicle dealer** shall collect the same fee as authorized in section 307.365 for making the inspection, and the fee shall be deposited in the same manner as provided in section 307.365. If the vehicle is also to be registered in Missouri, the safety inspection required in chapter 307 and the emissions inspection required under chapter 643 shall be completed and only the fees required by section 307.365 and section 643.315 shall be charged to the owner. This section shall not apply to vehicles being transferred on a manufacturer's statement of origin. **A licensed new or used motor vehicle dealer completing the inspection under this section shall be subject to disciplinary action up to and including suspension or revocation of their dealer's license for knowingly completing such inspection with incorrect information. Such disciplinary action shall take place in accordance with department of revenue regular procedures for disciplinary action.**

11. Motor vehicles brought into this state in a wrecked or damaged condition or after being towed as an abandoned vehicle pursuant to another state's abandoned motor vehicle procedures shall, in lieu of the inspection required by subsection 10 of this section, be inspected by the Missouri state highway patrol in accordance with subsection 9 of this section. If the inspection reveals the vehicle to be in a salvage or junk condition, the director shall so indicate on any Missouri certificate of ownership issued for such vehicle. Any salvage designation shall be carried forward on all subsequently issued certificates of title for the motor vehicle.

12. When an application is made for an original Missouri certificate of ownership for a motor vehicle previously registered or titled in a state other than Missouri, and the certificate of ownership has been appropriately designated by the issuing state as a reconstructed motor vehicle, motor change vehicle, specially constructed motor vehicle, or prior salvage vehicle, the director of revenue shall appropriately designate on the current Missouri and all subsequent issues of the certificate of ownership the name of the issuing state and such prior designation. The absence of any prior designation shall not relieve a transferor of the duty to exercise due diligence with regard to such certificate of ownership prior to the transfer of a certificate. If a transferor exercises any due diligence with regard to a certificate of ownership, the legal transfer of a certificate of ownership without any designation that is subsequently discovered to have or should have had a designation shall be a transfer free and clear of any liabilities of the transferor associated with the missing designation.

13. When an application is made for an original Missouri certificate of ownership for a motor vehicle previously registered or titled in a state other than Missouri, and the certificate of ownership has been appropriately designated by the issuing state as non-USA-std motor vehicle, the director of revenue shall appropriately designate on the current Missouri and all subsequent issues of the certificate of ownership the words "Non-USA-Std Motor Vehicle".

14. The director of revenue and the superintendent of the Missouri state highway patrol shall make and enforce rules for the administration of the inspections required by this section.

15. Each application for an original Missouri certificate of ownership for a vehicle which is classified as a reconstructed motor vehicle, manufactured forty or more years prior to the current model year, and which has a value of three thousand dollars or less shall be accompanied by:

- (1) A proper affidavit submitted by the owner explaining how the motor vehicle or trailer was acquired and, if applicable, the reasons a valid certificate of ownership cannot be furnished;
- (2) Photocopies of receipts, bills of sale establishing ownership, or titles, and the source of all major component parts used to rebuild the vehicle;
- (3) A fee of one hundred fifty dollars in addition to the fees described in subsection 5 of this section. Such fee shall be deposited in the state treasury to the credit of the state highways and transportation department fund;
- (4) An inspection certificate, other than a motor vehicle examination certificate required under subsection 9 of this section, completed and issued by the Missouri state highway patrol, or other law enforcement agency as

authorized by the director of revenue. The inspection performed by the highway patrol or other authorized local law enforcement agency shall include a check for stolen vehicles.

The department of revenue shall issue the owner a certificate of ownership designated with the words "Reconstructed Motor Vehicle" and deliver such certificate of ownership in accordance with the provisions of this chapter. Notwithstanding subsection 9 of this section, no owner of a reconstructed motor vehicle described in this subsection shall be required to obtain a vehicle examination certificate issued by the Missouri state highway patrol.

301.448. Any person who has served and was honorably discharged or currently serves in ~~[any branch of the United States Armed Forces]~~ **the United States Army, Marine Corps, Navy, Air Force, Space Force, Coast Guard, or National Guard, or in the reserves for any such branch,** ~~[the United States Coast Guard or reserve,]~~ the United States Merchant Marines or reserve, or the Missouri National Guard, or any subdivision of any of such services or a member of the United States Marine Corps League may apply for special motor vehicle license plates, either solely or jointly, for issuance either to passenger motor vehicles subject to the registration fees provided in section 301.055, or to nonlocal property-carrying commercial motor vehicles licensed for a gross weight of six thousand pounds up through and including twenty-four thousand pounds as provided in section 301.057. Any such person shall make application for the special license plates on a form provided by the director of revenue and furnish such proof that such person is a member or former member of any such branch of service as the director may require. Upon presentation of the proof of eligibility and annual payment of the fee required for personalized license plates in section 301.144, and other fees and documents which may be required by law, the department shall issue personalized license plates which shall bear the seal, logo or emblem, along with a word or words designating the branch or subdivision of such service for which the person applies. All seals, logos, emblems or special symbols shall become an integral part of the license plate; however, no plate shall contain more than one seal, logo, emblem or special symbol and the design of such plates shall be approved by the advisory committee established in section 301.129 and by the branch or subdivision of such service or the Marine Corps League prior to issuing such plates. The plates shall have a white background with a blue and red configuration at the discretion of the advisory committee established in section 301.129. The plates shall be clearly visible at night and shall be aesthetically attractive, as prescribed by section 301.130. The bidding process used to select a vendor for the material to manufacture the license plates authorized by this section shall consider the aesthetic appearance of the plate. The director of revenue shall make necessary rules and regulations for the enforcement of this section, and shall design all necessary forms. All license plates issued under this provision must be renewed in accordance with law. License plates issued under the provisions of this section shall not be transferable to any other person, except that any registered co-owner of the motor vehicle shall be entitled to operate the motor vehicle for the duration of the year licensed, in the event of the death of the qualified applicant.

307.350. 1. The owner of every motor vehicle as defined in section 301.010 which is required to be registered in this state, except:

(1) Motor vehicles having less than one hundred fifty thousand miles ~~[, for the ten-year period following their model year of manufacture]~~ **and of model year 2012 or newer**, excluding prior salvage vehicles immediately following a rebuilding process and vehicles subject to the provisions of section 307.380;

(2) Those motor vehicles which are engaged in interstate commerce and are proportionately registered in this state with the Missouri highway reciprocity commission, although the owner may request that such vehicle be inspected by an official inspection station, and a peace officer may stop and inspect such vehicles to determine whether the mechanical condition is in compliance with the safety regulations established by the United States Department of Transportation; and

(3) Historic motor vehicles registered pursuant to section 301.131;

(4) Vehicles registered in excess of twenty-four thousand pounds for a period of less than twelve months;

shall submit such vehicles to a biennial inspection of their mechanism and equipment in accordance with the provisions of sections 307.350 to 307.390 and obtain a certificate of inspection and approval and a sticker, seal, or other device from a duly authorized official inspection station. The inspection, except the inspection of school buses which shall be made at the time provided in section 307.375, shall be made at the time prescribed in the rules and regulations issued by the superintendent of the Missouri state highway patrol; but the inspection of a vehicle shall not be made more than sixty days prior to the date of application for registration or within sixty days of when a vehicle's registration is transferred; however, if a vehicle was purchased from a motor vehicle dealer and a valid inspection had been made within sixty days of the purchase date, the new owner shall be able to utilize an inspection

performed within ninety days prior to the application for registration or transfer. Any vehicle manufactured as an even-numbered model year vehicle shall be inspected and approved pursuant to the safety inspection program established pursuant to sections 307.350 to 307.390 in each even-numbered calendar year and any such vehicle manufactured as an odd-numbered model year vehicle shall be inspected and approved pursuant to sections 307.350 to 307.390 in each odd-numbered year. The certificate of inspection and approval shall be a sticker, seal, or other device or combination thereof, as the superintendent of the Missouri state highway patrol prescribes by regulation and shall be displayed upon the motor vehicle or trailer as prescribed by the regulations established by him. The replacement of certificates of inspection and approval which are lost or destroyed shall be made by the superintendent of the Missouri state highway patrol under regulations prescribed by him.

2. For the purpose of obtaining an inspection only, it shall be lawful to operate a vehicle over the most direct route between the owner's usual place of residence and an inspection station of such owner's choice, notwithstanding the fact that the vehicle does not have a current state registration license. It shall also be lawful to operate such a vehicle from an inspection station to another place where repairs may be made and to return the vehicle to the inspection station notwithstanding the absence of a current state registration license.

3. No person whose motor vehicle was duly inspected and approved as provided in this section shall be required to have the same motor vehicle again inspected and approved for the sole reason that such person wishes to obtain a set of any special personalized license plates available pursuant to section 301.144 or a set of any license plates available pursuant to section 301.142, prior to the expiration date of such motor vehicle's current registration.

4. Notwithstanding the provisions of section 307.390, violation of this section shall be deemed an infraction.

307.380. 1. Every vehicle of the type required to be inspected upon having been involved in an accident and when so directed by a police officer must be inspected and an official certificate of inspection and approval, sticker, seal or other device be obtained for such vehicle before it is again operated on the highways of this state.

2. At the seller's expense every used motor vehicle of the type required to be inspected by section 307.350 shall immediately prior to sale be fully inspected regardless of any current certificate of inspection and approval, and an appropriate new certificate of inspection and approval, sticker, seal or other device shall be obtained **no more than sixty days prior to the date of sale, except that such inspection shall not be required for a motor vehicle sold to a person who lives outside of this state and intends to register the vehicle outside of this state or for a motor vehicle having less than thirty thousand miles for the three-year period following the model year of manufacture when:**

(1) Sold by a private seller; or

(2) Sold by a licensed new or used motor vehicle dealer, provided that such dealer has sold at least two hundred motor vehicles in the previous calendar year.

The seller of a motor vehicle required to be inspected under this subsection shall present the certificate of inspection and approval to the buyer at the point of sale and the buyer shall be required to submit the certificate of inspection when applying for registration of the vehicle.

~~[2-]~~ 3. Nothing contained in the provisions of this section shall be construed to prohibit a dealer or any other person from selling a vehicle without a certificate of inspection and approval if the vehicle is sold for junk, salvage, or for rebuilding, or for vehicles sold at public auction or from dealer to dealer. The purchaser of any vehicle which is purchased for junk, salvage, or for rebuilding shall give to the seller an affidavit, on a form prescribed by the superintendent of the Missouri state highway patrol, stating that the vehicle is being purchased for one of the reasons stated herein. No vehicle of the type required to be inspected by section 307.350 which is purchased as junk, salvage, or for rebuilding shall again be registered in this state until the owner has submitted the vehicle for inspection and obtained an official certificate of inspection and approval, sticker, seal or other device for such vehicle.

~~[3-]~~ 4. Notwithstanding the provisions of section 307.390, violation of this section shall be deemed an infraction."; and

House Amendment No. 2

AMEND House Committee Substitute for House Bill No. 247, Page 6, Section 301.147, Line 44, by inserting after all of the said section and line the following:

"301.469. 1. Any vehicle owner may receive license plates as prescribed in this section, for any motor vehicle such person owns, either solely or jointly, other than an apportioned motor vehicle or a commercial motor vehicle licensed in excess of twenty-four thousand pounds gross weight, after an annual payment of an emblem-use authorization fee to the Missouri conservation heritage foundation. The foundation hereby authorizes the use of its official emblems to be affixed on multiyear license plates as provided in this section. Any vehicle owner may annually apply for the use of the emblems.

2. Upon annual application and payment of a twenty-five dollar emblem-use authorization fee to the Missouri conservation heritage foundation, the foundation shall issue to the vehicle owner, without further charge, an emblem-use authorization statement, which shall be presented to the director of the department of revenue at the time of registration of a motor vehicle.

3. Upon presentation of the annual statement, payment of a fifteen dollar fee in addition to the regular registration fees and documents which may be required by law, the director of the department of revenue shall issue a license plate, which shall bear an emblem of the Missouri conservation heritage foundation in a form prescribed by the director, to the vehicle owner. Such license plates shall be made with fully reflective material with a common color scheme and design, shall be clearly visible at night, and shall be aesthetically attractive, as prescribed by section 301.130. Notwithstanding the provisions of section 301.144, no additional fee shall be charged for the personalization of license plates pursuant to this section.

4. **Application for the emblem-use authorization and payment of the twenty-five-dollar contribution may also be made at the time of registration to the director of the department of revenue, who shall deposit the contribution to the credit of the Missouri conservation heritage foundation.**

5. A vehicle owner, who was previously issued a plate with a Missouri conservation heritage foundation emblem authorized by this section but who does not provide an emblem-use authorization statement at a subsequent time of registration, shall be issued a new plate which does not bear the foundation emblem, as otherwise provided by law.

[5-] 6. The director of the department of revenue may promulgate rules and regulations for the administration of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is promulgated under the authority delegated in this section shall become effective only if it has been promulgated pursuant to the provisions of chapter 536. All rulemaking authority delegated prior to August 28, 1999, is of no force and effect; however, nothing in this section shall be interpreted to repeal or affect the validity of any rule filed or adopted prior to August 28, 1999, if it fully complied with the provisions of chapter 536. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 1999, shall be invalid and void."; and
