

HB 38 -- USE OF IDENTIFYING PRONOUNS

SPONSOR: Billington

This bill prohibits any school employee or independent contractor from using a pronoun for a student that does not align with the student's biological sex, as indicated on the student's birth certificate, without written permission from the student's parent.

The bill restricts schools from requiring any employee or independent contractor from using a pronoun for a student that is different from that student's biological sex if doing so is contrary to the employee's or contractor's religious or moral convictions.

This bill is the same as HB 1405 (2024) and similar to HB 1258 (2023).
