

HB 301 -- VOTER REGISTRATION APPLICATION SOLICITATION

SPONSOR: Smith (46)

Currently, voter registration application solicitors are prohibited from being compensated. Any person who solicits more than 10 voter registration applications must register with the Secretary of State. Information required to be submitted to the Secretary of State is provided in statute. Knowingly failing to register with the Secretary of State is a class three election offense.

This bill repeals all of the requirements described above.
