

HB 537 -- VEHICLE DEALERS

SPONSOR: Diehl

This bill specifies that applications for a new motor vehicle franchise dealer license may not be required to include a certification by a law enforcement agency that the dealer has a bona fide place of business, provided that the applicant is a retailer that sells agricultural supplies and is under common ownership and control with at least five other new motor vehicle franchise dealers doing business under the same name.

This bill is the same as SB 1156 (2024).
