

HB 613 -- CUSTODY OF IN VITRO HUMAN EMBRYOS

SPONSOR: Waller

This bill establishes standards for a court to follow in rendering a decision involving custody of in vitro human embryos. The court must presume that it is in the best interest of the embryo to grant custody to either the ovum donor or the spermatozoon donor who intends to develop the embryo to birth. The court must resolve the dispute between the parties in a manner that provides the best chance for the in vitro human embryo to develop and grow.

This bill is the same as HB 350 (2025).
