

HB 877 -- INSURANCE COVERAGE OF DRUGS

SPONSOR: Appelbaum

After January 1, 2026, a health carrier or health benefit plan cannot require an enrollee who has received a prescription from his or her doctor for a particular drug covered by the health benefit plan to take a different drug deemed more appropriate for the enrollee's condition by the health carrier or health benefit plan in order to receive coverage.

This bill is similar to HB 1682 (2024).
