

HB 1078 -- RECORDING OF LAND SURVEYS

SPONSOR: Mayhew

Currently, a surveyor must file certain land surveys with county recorders of deeds within 60 days after the survey is certified. This bill allows a surveyor to file the survey results with the Department of Agriculture's Land Survey Program instead. However, a survey filed with the Land Survey Program cannot be evidence in any court unless the survey result was also filed with the recorder and properly certified.

This bill is similar to HB 2854 (2024).
