

HB 1105 -- REQUIREMENTS FOR CERTAIN POLITICAL SUBDIVISIONS

SPONSOR: Mayhew

This bill requires a political subdivision that adopts any uniform or model code or standard to employ or contract with an enforcement inspector who is certified to inspect projects subject to that code.

Currently, a candidate seeking to be a member of the board of directors of a fire protection district must pay a filing fee of \$100. This bill repeals the filing fee.

The bill prohibits a fire protection district from adopting any bylaws, ordinances, orders, rules or regulations that pertain to the subdivision of land for residential purposes or the construction or installation of improvements, infrastructure, or utility facilities related to residential construction.
