

HB 1400 -- HOME HEALTH CARE

SPONSOR: Rush

This bill requires home health agencies, as a condition of licensure, to have a policy in place that requires each in-home health care provider employed by the home health agency to sign a noncompete agreement where the employee agrees to refrain from competition with the home health agency for the six-month time frame that immediately follows the employee's start date upon any termination of the employment that occurs within the six-month period.
