

HB 1532 -- FIREARMS

SPONSOR: Woods

Currently, a person who commits the crime of unlawful use of weapons is guilty of a Class B misdemeanor, except when a concealed weapon is carried onto any property whose owner has conspicuously posted the premises as being off limits to concealed firearms.

This bill removes the exception of a conspicuously posted sign that indicates the premises as being off limits.

Currently, the process for obtaining a concealed carry permit or lifetime or extended concealed carry permit requires an affidavit attesting certain requirements are met.

This bill instead requires proof that the applicant has satisfied the requirements of Section 571.111, RSMo.

This bill is similar to HB 2680 (2024).
