As a Missouri resident, I support the equal protection of all human life, including our preborn neighbors from the moment of fertilization. Every person is created in the image of God and deserves the same legal protections, whether born or unborn. I believe the language in HB 1072 should be added to Missouri's statutory law. While Amendment 3 may currently override such protections, that could change in the future. When it does, Missouri should already have the right laws in place to defend the dignity and value of every human life.

**My name is Adam Woodrum and I am a resident of St. Joseph, MO. I am in full support of HB1072 as it acknowledges preborn human beings as being made in the image of God, worthy of life, liberty, and equal protection. To deny this bill is to deny the sanctity of human life. All persons deserve to live no matter the circumstances of their conception.**

Exodus 20:13 cannot be more clear "Thou shall not murder." We as a state have legalized the sacrifice of children on the altar of casual sex. We are no better than the Aztecs and other pagans that sacrificed their children to appease the sun and bring rain. We just sacrifice ours to provide a more lucrative career and make more money. God will judge Missouri if we allow this evil to exist in our state. We must recognize unborn children as people made in the image of God, deserving of life, and we must punish those who murder them. I pray the legislature will move this bill forward ?? ????.

I wholeheartedly endorse HB 1072 and HB 1417, the Missouri Prenatal Equal Protection Acts. These bills recognize the unborn as persons deserving of life and liberty, consistent with the U.S. Constitution's equal protection clause.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

My name is Ben Zeisloft, and I am the Communications Director for the Foundation to Abolish Abortion. We exist to promote public policy that advances equal protection for preborn babies. I am testifying today in firm support for House Bill 1072 and House Bill 1417, because these are the only bills in the state of Missouri that would abolish abortion, by establishing equal protection for our preborn neighbors. Even before the passage of Amendment 3, research shows that there were nearly 1,900 preborn children murdered every year in Missouri, not to mention thousands more murdered by residents of Missouri traveling to other states. Their blood cries out from the ground for justice, and as civil magistrates, you must establish that justice. In past years, the pro-life establishment has worked hard to oppose efforts to abolish abortion, betraying the trust of their supporters who count on them to rescue the innocent from death. The outcome of their leadership, both in Missouri and across the nation, has been complete failure. After more than half a century, our culture is even more hardened in their sin and against their preborn children. If you want proof of this, look no further than the fact that just last year, the majority of voters in your state chose to enshrine child sacrifice into your state constitution. Many decades of pro-life legislation have failed to create a culture of life. As we learned last year, the culture of death has been very much alive and well under pro-life laws, which regulate rather than abolish abortion, and which intentionally refuse to establish justice for the fatherless. The Bible says that a tree is known by its fruit. What has been the fruit of half a century of pro-life cowardice and compromise? Countless thousands of dead babies in Missouri. Countless millions across this country. This is the rotten fruit of regulating abortion rather than obeying God and abolishing abortion: a land drenched in the blood of precious little babies. Today you have the choice to do what is right in the eyes of God, or to do what is right in the eyes of man. What is right in the eyes of man? To keep abortion legal in Missouri by opposing this bill and passing whatever iniquitous decrees the pro-life establishment gives you instead. What is right in the eyes of God? To abolish child sacrifice, without exception or compromise. Please do what is right in the eyes of God by supporting House Bill 1072 and House Bill 1417. I will close with these words from Proverbs 29:25: "The fear of man lays a snare, but whoever trusts in the Lord is safe." Do not fear man, but fear the God who made you, and before whose risen and ascended Son you will one day stand in judgment, to give an account for your works.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

Hello my name is Benjamin Belcher I am a lifelong resident of Joplin, MO I am calling on this committee and the rest of the legislature to vote in favor of the equal protection bills. Behind me sits my beautiful wife and my two beautiful children. My wife is 16 weeks pregnant. We used a doppler and heard our baby's heartbeat just yesterday. That baby in her womb is worthy of the same protection under the law whether we decide we love it or want it or whether it was placed there without either of our consent. The same as all of you were worthy of protection. We've all been through these stages of life that we're debating should be ended. My wife also teaches piano to two of my cousin's adopted sons who are now 6 & 7 years old. They were both adopted from parents who were incapable of taking care of them. Would you be able to look those two boys in the eyes, or others like them, and tell them that their parents should have had the right to kill them before they were born? We should not continue to discriminate against our unborn neighbors by failing to provide them the same protections under the law, solely based on their size, location, or stage of development. God considers the unborn to be equal in worth to that of any other human being. In Exodus 21, God gives us a case law of a man who causes a preborn baby to die and the punishment given is to pay for it with his own life. This is the same punishment given to those who murder any other human being who is already born. This shows us that God values the life in the womb the same as any other life. And we are to do the same. God also says in Deuteronomy 22 that those who commit rape are to be given the death penalty. If you want to stop or lower the amount of rape there should be deterrents in place. Jesus says in Luke 17:2 that those who offend little ones would be better off tied to a millstone and drowned in the sea. In Matthew 25, speaking of the final judgement day, Jesus tells us: 41 "Then he will say to those on his left, 'Depart from me, you cursed, into the eternal fire prepared for the devil and his angels. 42 For I was hungry and you gave me no food, I was thirsty and you gave me no drink, 43 I was a stranger and you did not welcome me, naked and you did not clothe me, sick and in prison and you did not visit me.' 44 Then they also will answer, saying, 'Lord, when did we see you hungry or thirsty or a stranger or naked or sick or in prison, and did not minister to you?' 45 Then he will answer them, saying, 'Truly, I say to you, as you did not do it to one of the least of these, you did not do it to me.' 46 And these will go away into eternal punishment, but the righteous into eternal life." Who could be lesser among us than a helpless child in the womb? God tells us that He will take it personally how we treat those who we stand to gain nothing from. You will personally answer to God for what you allowed to have happen to the most innocent and defenseless among us. Scientifically, logically, and morally the life in the womb is a distinct human being. We are only asking that it be consistently considered one legally, and to protect them under the 14th Amendment of the United States so that we can stop depriving our preborn neighbors of their lives. Truth is not subjective, and morality is not determined through consensus. Proverbs 11:21 Though hand join in hand, the wicked shall not be unpunished: but the seed of the righteous shall be delivered. Here are a few rebuttals to some arguments that were raised in the

committee meeting that I did not have time to respond to. Objection to the claim of OB-GYN shortage in Missouri. I've looked in to those numbers and the decline we've seen in Missouri is only slightly lower per capita than the rest of the country. Even states with the most liberal of abortion laws are facing shortages. Shortages in Missouri could be due to other factors like it just being a less desirable state to live in. Example: My father in law, helps hire engineers. He says he has trouble getting engineers to move to Joplin. It has nothing to do with laws that could prohibit them from doing their job, and everything to do with Joplin not being as exciting or as nice of a town to live in compared to other options. I believe there was around a 25% drop in new OB-GYN licenses in Missouri when the trigger law took effect after Roe v Wade was overturned. On average, only 29% of OB-GYNs perform abortion services, so the drop in licenses was an intended and expected result. Objection to the argument of rape. Studies have shown only 1-5% (depending on which ones you look at) of elective abortions occur are due to rape. Meaning the vast majority of women who kill their children, do so after they have voluntarily chose to partake in the act of creating children. This is not to say that women who are assaulted do not matter. (I believe women should be protected. A part of doing that is to do what God says to do with rapists and swiftly excute them. There would be no repeat offenders and those who even think about doing so will be detered.) What I am saying is that the exception should not allow the majority of women who were consensually impregnated to murder their unborn children. Objection to the will of the people of Missouri being subverted by passing HB 1072/1417 Amendment 3 only passed by a margin of 1.5%. While the pro amendment 3 side spent roughly 3,000% more getting it through than the opposition could trying to stop it. The people of Missouri were subjected to roughly \$30,000,000 of pro amendment 3 advertising/campaigning vs. Roughly \$1 million of anti amendment 3 advertising/campaigning. Much of this pro A3 money (large portion was from out of state) was spent on ads that deceived Missourians into thinking that Amendment 3 was needed so that women could recieve medically necessary (non elective) abortions. I personally electioneered many days and flipped many voters who told me that they had no idea that our current law already allowed women to receive medically necessary abortions. Here is the portion of the law that allowed for it. <https://revisor.mo.gov/main/OneSection.aspx?section=188.015> (8) "Medical emergency", a condition which, based on reasonable medical judgment, so complicates the medical condition of a pregnant woman as to necessitate the immediate abortion of her pregnancy to avert the death of the pregnant woman or for which a delay will create a serious risk of substantial and irreversible physical impairment of a major bodily function of the pregnant woman; I have underlined "or for which the delay of" because the lie had often been told that medically necessary abortions were only allowed after the circumstances had turned into an emergency for the woman. As you can see, that claim is a bald-faced lie. In reality, Amendment 3 removed most protections and restrictions on abortion. When people heard this, they were disgusted by it and often told me that they had switched to voting no. Thank you for reading.

Missouri needs to stand for women and babies by supporting moms with resources to have their babies instead of aborting them. Long term negative mental, physical, and emotional effects on mothers with abortions is far worse than those who carried their babies to birth. Moreover, doctors who botch abortions need to be help responsible.

Dear Honorable Members of the Committee, I write in support of HB 1072 because it rightly identifies a human being from the time it is conceived until natural death as having the right to live, and to terminate that life is an act of murder. Murder of an innocent human being. Please support the passage of this bill as the Author of life would have you support these bills.

Isaiah 10:1-4 ESV[1] Woe to those who decree iniquitous decrees, and the writers who keep writing oppression, [2] to turn aside the needy from justice and to rob the poor of my people of their right, that widows may be their spoil, and that they may make the fatherless their prey! [3] What will you do on the day of punishment, in the ruin that will come from afar? To whom will you flee for help, and where will you leave your wealth? [4] Nothing remains but to crouch among the prisoners or fall among the slain. For all this his anger has not turned away, and his hand is stretched out still. Do your duty before Almighty God. Abolish child sacrifice to His glory alone! Or else the blood of slain babies will be on your hands. And judgement upon our unrepentant State.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

As a committed abolitionist, I write in strong support of Missouri House Bill 1072, the Missouri Prenatal Equal Protection Act. This bill takes the long-overdue step of treating the killing of preborn children with the same moral and legal seriousness as the killing of any other human being. For over fifty years, our nation has permitted the legalized slaughter of the innocent under the guise of choice and convenience. Incremental regulations have failed to end this injustice—they've merely managed, regulated, and prolonged it. HB 1072 breaks from that failed strategy. It affirms what abolitionists have long proclaimed: abortion is murder, and the law must treat it as such. By establishing equal protection for all human beings from the moment of fertilization, this bill does what justice requires. It doesn't play political games with gestational limits, exceptions, or undue deference to judicial tyranny. It applies the law equally, without partiality—just as the 14th Amendment demands, and just as God's law commands. To truly love our preborn neighbors, we must stop compromising. We must stop regulating how, when, and under what circumstances it is permissible to kill them. HB 1072 recognizes the full humanity of the unborn and refuses to treat them as a lesser class of persons. That is why abolitionists support this bill—not because it is politically easy, but because it is morally right. I urge every legislator who claims to value life and justice to stand boldly for HB 1072. Not in fear of man, but in fear of God—who hates the shedding of innocent blood and calls rulers to wield the sword in defense of the innocent. Equal protection. Equal justice. No compromise. Abolish abortion. Sincerely, Fredric Allen

My name is Jason Woelm, and I am a proud citizen of the state of Missouri. I humbly submit my testimony to the esteemed Missouri House of Representative's Children and Families Committee in support of House Bill No. 1072. This bill provides the preborn of our beloved state equal protection under the law as is guaranteed to other persons under the United States Constitution, which cannot be contravened by any other state legislation, and as is reflected in the character and commands of the Triune God, in Whose image all persons are made. This bill would protect lawful Missourians and would establish justice for the preborn of our cherished state who cannot defend themselves. Missouri has the unique opportunity to take the lead in showing other states in our Union how to protect and establish justice for every person under its jurisdiction. I implore the members of this respected committee to take the next step in seizing this opportunity by voting yes on House Bill No. 1072. Thank you for your time and thoughtful consideration.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

My name is Josh Holler, I live in St. Louis, where I pastor the First Baptist Church of St. John. I'm a Marine Corps veteran, adjunct professor at Missouri Baptist University, husband, father of five, and most importantly, a servant of the only God, my Lord and savior, Jesus Christ. I come this morning to give my voice in support of both House Bill 1072 and House Bill 1417. When I first moved to St. Louis in 2014, one of the ministries that I quickly became a part of was going to the Planned Parenthood on Forrest Parkway and Hope Clinic in Granite City, Illinois to plead with women seeking to have their baby aborted. It was over the course my years doing sidewalk counseling and heralding the Gospel that that I became aware of an alarming trend that the much of the so called "pro-life" movement denied. Women, who were often portrayed as victims in the act of seeking abortion, willfully, deliberately, gleefully, and sometimes, even repeatedly, returned to the clinic to have their babies, plural, murdered. I want to be clear on this last point: I have witnessed some women return for their second or third abortion. They were not, as we are led to believe, victims, but participants, perpetrators in the crime of killing the very fruit of their womb. The idea that the mother of an aborted baby is the victim of the crime of killing her own baby is an incomprehensive idea. It doesn't make sense. What this bill is simply pressing for is something that is logical, sensible, compassionate to the unborn, and above all, just. It is asking that equal justice be served for the unborn baby, the most precious, innocent and vulnerable among us. Proverbs 11:1 says, "A false balance is an abomination to the LORD, but a just weight is his delight." Dear representatives, you must craft laws that are just, and do not favor the perpetrator of the crime over the victim. Protect the unborn.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

As a husband and father of four children I want to do my best to provide a future for them. Their protection in this great state of Missouri is fundamental to my duties as a provider and protector of my family . The reason I am supporting this bill is to communicate to my children and their generation that life is sacred and should be protected under our laws. If children in the womb are not protected from being murdered by our laws I fear that we are communicating to our children that life really is not sacred and valuable. My Bible tells me that Satan comes to kill steal and destroy. Jesus said he was the way the truth and the life. My prayer is that every person in this room would come to know Christ as Lord and savior and would flee from the wrath of God that we are seeing being poured out on our Country. God is willing to forgive if we would turn to him and repentance and faith. The hour is late and I believe we have hardened our hearts and have become desensitized to the horrific evils that are being done to the future generations in the womb. I thank God that I can call a police officer if someone breaks into my home and threatens to kidnap and kill my children. A mother's womb should not be a dangerous place for a baby. When the only thing that keeps that baby alive is the mother's will, we have stepped into a extremely dangerous place trying to be God. Our laws must protect every human being born and preborn. God have mercy on us all.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

My name is Kayla McDermott and I am here to testify in support of the abolish abortion bills. I know you will hear a lot of arguments from both sides today but I wanted to share with you a perspective which might not be as common in a healthcare professional. I work in the Emergency department in Joplin MO at Freeman hospital. There I have had countless opportunities to care for women who are having miscarriages. Never once did we as a medical team stop to consider whether we should treat the mother or care for her to the best of our ability because of her baby. In the course of my healthcare profession I have seen many miscarriages and premature deaths of infants when they were born before they are viable outside the womb. Whether it was a life critical emergency because of a ruptured ectopic pregnancy or a premature birth at 24 weeks, our patients have always come first, both the mother and if possible the baby. Abortion does not need to remain legal for women to be cared for medically. For example we had a woman come in to the ER who was suspected of having a miscarriage. Throughout her stay she ended up delivering her 10 week old baby there in the ER. This baby was not viable to live outside the womb and did die. Even at that age where it was tiny enough to fit inside a specimen cup, you could still see the developing eyes and the tiny little nubs that would develop into fingers and toes. Although in this case the baby died the medical team did the best they could to save both the mother and the baby.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

This bill will end Missouri's flagrant disregard of the 14th Amendment to the United States Constitution - the denial of equal protection of the law to humans in the prenatal stage of development - but more importantly, this bill will uphold God's command to establish justice and correct oppression. This bill will protect women, guaranting equal protection under the law to both pregnant women and women in the prenatal stage of development. Barring sex-selective abortions, approximately fifty percent of abortions kill women in the fetal or embryonic stages of development and our laws deny them justice. In the past, Missouri denied equal protection and justice to a certain group of human beings on the basis of skin color until the 13th Amendment to the US Constitution forbade it. Please uphold the 14th Amendment to the US Constitution to end the present day denial of human rights in Missouri on the basis of age.

Every life matters and has value. As a biological and adoptive mom I whole heartedly support these bills that would aim to provide protection for every life created in the womb. The children I birthed, those I never got to hold due to miscarriage, the embryo we adopted, and my living adopted children ALL carry worth. ALL have a purpose. And, ALL deserve the recognition that their lives matter. Please take a strong and principled stand to protect ALL life.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

First, I would like to speak politician language, my vote will always go to those who come closest to protecting life from womb (or lab) to tomb. Second, I am post abortive and have suffered much regret for decades my actions in murdering two children and the non action of State and Federal legislators to uphold their God ordained duty to protect ALL those they serve. I am not attending because the last two times I went I was appalled and ashamed of the inattentiveness of those who represent my state, playing on phones and leaving the room and coming back throughout the hearing. God sees. It is also time for the chair to recognize that there are three sides now to the abortion issue, "pro life", pro murder and abolition. They should each get an equal chance to share their testimony in an orderly fashion instead of "pro life" and abolition having to share the same amount of time as pro murder, they are vastly different positions. God see's

"I wholeheartedly endorse HB 1072, the Missouri Prenatal Equal Protection Act. This bill recognizes the unborn as persons deserving of life and liberty, consistent with the U.S. Constitution's equal protection clause. As a matter of justice and faith, we cannot ignore the silent cries of the defenseless. By ending abortion and safeguarding mothers, Missouri can set a bold example of righteousness. I implore the committee to act swiftly and vote 'Do Pass' to protect the most innocent among us."

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

I support House Bill 1072 because every life has value. I am a proud American woman who believes that children are a blessing, not meant to be killed. Every woman I have met who has had an abortion has regretted it, and has had serious health issues or has been at risk of health issues that come with having an abortion. I am sickened by the number of people using the argument of rape, incest, autism, and mothers life. I have worked with children who have autism or other special needs, and I can safely say that they are gifts from God and are just as valuable as you or I. To say otherwise is to spit in the faces of living children who have these disabilities. I am a proud 25-year-old woman who has been faced with an unwanted pregnancy of rape, I lost my baby in a miscarriage when I was 19, but as soon as I found out I was pregnant I immediately changed everything around, I was not going to stay with my abuser, I was going to have to find a safe place to raise my child, I was going to have to quit college and pick up full-time hours at work, and I was going to be shunned by my family, however, it would have all been worth it if it meant my baby was safe. I have been taught since I was young to count every life above your own, and and that the sins of the father or parent do not rest on the shoulders of the child. I wholeheartedly believe that, if I become pregnant again and I am at risk of dying and it comes down to either my baby's life or mine, my child's life is above my own, and it is my responsibility to do whatever I can to protect my child, even at the risk of my own life, this cannot be an excuse used by the conservatives anymore. If someone is so uneducated as to think that they can have intercourse without the risk of pregnancy, then, truly, they shouldn't be having intercourse and perhaps should be put back into Biology 101, where they will learn that life begins at conception. This is not about women's rights, this is about the rights of every living human being to come. Every life has value, if my husband and I need to, we will be happy to take in and find homes for every single one of the children who are being threatened with death. If this bill is not passed, the blood of these unborn children will be on your hands, and you will forever be marked in history as those who allowed the murder of the unborn to run savagely in our civilized nation.

I am voicing my support for HB 1072. We need to truly protect the unborn with the same legal protections everyone else enjoys. We must not carve out loopholes for killing our unborn children. Most so-called pro-life bills do exactly that. HB 1072 gaurantees equal protection for our unborn. Please approve HB 1072.

All human life is valuable. Mother and child. Both need to be protected as unique individuals. The preborn are particularly defenseless and vulnerable and I call you to be heroes to them. Defend and protect them. Advocate for them. We cannot hear them wail but God hears their blood cry to Him and He will not fail to act against those who take their lives. We are commanded not to murder and that goes double for these little ones. Please have mercy and do what is right.

I believe Missouri has a wrongful death statute that covers an unborn child at every stage of development. This bill also protects the unborn child on equal terms with a born person. The unborn are the most vulnerable and should be fully protected, which this bill does.

Dear Missouri Representatives: Please give your full support to HB 1072. Our little Missouri neighbors deserve equal protection because they are made in the image of God, and they are innocent of any crime. Their mothers need to know that the precious, innocent human life within them is worth protecting and caring for, just as mothers of newborn children protect and care for them. The law is a teacher. If my 16-month-old son were to die because I deliberately took actions to bring that about, not only would I be guilty in the eyes of the law, but also before a Higher court. Yet, if I was to have an abortion of a newly conceived baby, the law would say it's totally fine, even though I would feel guilty for the rest of my life and would know that I was the mother of a murdered child. HB 1072 is a bill worth supporting with all of your effort. Thank you.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>		

I am a recent Missouri resident. I write in support of HBs 1417 and 1072. As a state, we passed a constitutional amendment that allows abhorrent discrimination and injustice against a human based on their point of development. We have constitutionalized murder with immunity for one class of people to another class of people based on accidental attributes. We are guilty of injustice and partiality and we must repent by establishing justice and equal protection for all humans being under the law. As a Missouri resident, I am ashamed of what we have done. Christ is King and we must acknowledge our sin before him. He is faithful and just to forgive. God will not go forever without executing judgement on a land that sacrifices their children. We must, in the face of great opposition, abolish abortion to the Glory of God. Let our repentance look like hearing and passing a just decree. I exhort, by the Word of God, all representatives to vote YES in favor of HB 1072 and 1417.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>		

I would like to encourage this committee to heartily vote “do pass” on these wonderful pieces of legislation. But it is also tragic in that we even need to be having this conversation. I never cease to be stricken by how many people out there think it is okay to deprive innocent children of personhood and even life itself. In America’s past there were those who considered persons of a particular race to be less than human. They were slaves, owned as property of others. They could be killed by their masters and no one thought anything of it. They often were not killed by their masters because of the economic impact that would have had – there was a financial incentive to keep them alive and perhaps sell them off to someone else. But they were not valued as persons, and their life was not considered an inalienable right. Fortunately – though there is still some work to do - we have corrected that error in our nation’s past with the 14th amendment, which is also the basis of this legislation. More recently the nation of Germany – in the 1930’s and early 40’s – considered Jews to be less than human, deprived of personhood, and even considered “vermin”. Fortunately, the world – led the United States of America – put a stop to that by defeating the Nazi’s in WWII. But here in 21st century America there are many who consider babies as less than human, deprived of personhood, and regulated to being nothing more than a clump of cells. Deprived of their inalienable right to life and liberty. Some would go so far as to say that babies are “vermin”, posing health risk to their own mothers. And tragically, they are often seen as not being financially viable. There are children dying not because of their race or ethnic heritage, but simply because of their age or the fact that they are unwanted . . . . But it is past time for us to have a forthright discussion on the fact that every human life is valuable and is to be protected with the same passion and vigor and attention as every other human life. In a culture where everyone says we should “follow the science”, we must acknowledge that the consensus of the scientific community is that life begins at fertilization. According to the American College of Pediatricians . . . . “The predominance of human biological research confirms that human life begins at conception—fertilization. At fertilization, the human being emerges as a whole, genetically distinct, individuated zygotic living human organism, a member of the species Homo sapiens, needing only the proper environment in order to grow and develop. The difference between the individual in its adult stage and in its zygotic stage is one of form, not nature.”It is true that at that moment of fertilization, the resulting “embryo” is in fact a human being with its own unique DNA, and nothing else is necessary for it “become” a human. Now, there are those who would claim that because that baby is not “viable” that is, it cannot exist on its own, and without external measures would die. The term “viable” means literally “capable of living”. Some would define it further as being capable of living “under normal circumstance”. But what are normal circumstances? There are people who are only alive because of extraordinary circumstances. My own son, at 30 years old has a pacemaker. It went off Friday night. Is his life not viable because of some extraordinary measure that kept him alive? What about those who depend on dialysis, ventilators, feeding tubes, and other medical equipment in order

to “live”. Would we be willing to say they are not viable and are not worthy of life, or equal protection under the law? Are we going to strive to be better than our American forefathers, and better than the Nazi’s? Are we going to rise above the past evils of humanity, or are we going to join them in their atrocities? Are we going to acknowledge the sanctity of innocent human life, created in the image of God, which should be equally protected from the beginning of biological development to natural death? Are we going to ensure that all persons potentially subject to such laws are entitled to due process protections? I expect a unanimous vote of “do pass” on HB1072 and 1417.

I'm testifying in support of HB1072. Every child, without exception, conceived is made in the image of God (Genesis 1:26-25) and therefore should receive the full protection of the law as every person outside of the womb receives. The state is out of step with God when they determine who is worthy or not to receive the protection of the law. According to Romans 13:1-7 the government's role is punish evil doers and abortion in any form is murder and one of the highest evils that is defiling our land. Please support this bill and stop the slaughter of our children.

Please support this bill. I support a broad abortion ban to protect innocent life created by consenting adults who then regret their choice(s) and take measures to end life. Abstinence is a much better life choice than abortion. I feel there may be reason to allow abortion in the earliest days of a pregnancy in the event of rape or to protect the life of the mother.

I am an RN in the state of Missouri currently using my training to provide ultrasounds for pregnant women in SW Missouri. Ultrasound technology clearly demonstrates the humanity of unborn children. Most mothers who see their unborn child, chose to carry the child to term. Amendment 3 passed and now abortion is a right enshrined in our constitution. Unfortunately, the effort to pass that amendment was well funded by out of state entities and many people were egregiously misled in regard to the provisions of the amendment. For these reasons, I am firmly in support of HB 1072 and HB 1417.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

Every human being has human rights, which includes the right to simply live. For the sake of clarity, if you have human DNA, you have human rights, regardless of your age or stage of development. With the exception of those who commit a capital crime, human beings have the right to live and that right should be protected. In this particular case when abortion is the subject of the conversation, there should be no dismissal of difficult situations in which trama has occurred, complicated medical situations arise, or other things of the like. We cannot ignore these situations but we also cannot allow the "solution" to these situations to be the killing of the unborn child. We also cannot allow potential suffering and/or hardship to be a sufficient reason to kill our preborn neighbor. After all, the unborn baby is, in fact, a human being, possessing their own DNA separate from his/her mother, has value and worth being made in the image of God, and deserves to be protected. I also understand that there are some who claim the title of "pro-life" but are not supportive of a bill such as this because it criminalizes the mother. I understand the desire to show grace and mercy to women in difficult situations but killing an innocent human is evil and when evil is committed, a punishment should follow. Merely regulating evil is unacceptable. Evil must be outlawed. I am in full support of protecting the life of our unborn neighbors, as well as the life of every innocent human being. These convictions are rooted in the pages of the Word of God showing that all human beings are made in the image of God. While my convictions are firmly rooted in my trust and faith in the Lord Jesus Christ, I also maintain that anyone who claims to believe in human rights ought to also affirm this bill regardless of religious convictions. To deny the personhood and humanity of our preborn neighbor is to deny basic human rights and scientific understanding. The taking of innocent human life is wrong and evil in all situations and should be illegal, regardless of what cultural norms have to say. I, Tyler TeBrink, Christ follower, husband, and father, am in full support of HB 1072 and HB 1417. I pray that we are able to break through the culture of death we have permitted for far too long and begin to stand for the rights of our preborn neighbors. Thank you for your time. God bless.

I was 17 years old in 1974 when I got pregnant. It was the summer before my senior year in High School. I called my boyfriend from a pay phone in the clinic parking lot and told him the test was positive. He cussed me out and lied to everyone saying it wasn't his. I still lived at home and had a rocky relationship with my parents. All my friends said to have an abortion. The clinic told me I had to let them know if I wanted an abortion within two weeks so I could get on the schedule. Despite all the adversity, I couldn't kill my own baby. My son was born on Mother's Day 1975 two weeks before graduation. He will be 50 years old this year and has two children and is an amazing father. He is the best son I could ask for and I am so proud of him.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

I urge the members of the Children and Families Committee to support HB 1072 and HB 1417. Preborn children are persons, and personhood of the preborn and equal protection under the law are necessary steps to ending the killing of preborn children in our state. In Psalm 139:13-16, God recognizes the preborn person. King David states that God saw his unformed substance and formed his inward parts in his mother's womb. David also states that God already had a purpose and plan for his life before he was born. God ordained his days before there was yet one of them. The preborn are human beings and persons who are in a prebirth stage of physical development. If God recognizes the preborn child as a person, does He demand any less from us? God demands equal justice for all persons. Equal Protection means providing preborn people with the same rights and protections under the law as born persons. It eliminates partiality towards born persons. God demands we provide equal justice to each individual person. Anyone who believes the preborn are human persons should have no problem providing them with equal justice and protection under the law. HB 1072 and HB 1417 will accomplish this purpose and end the legal killing of these children in Missouri.

The People of Missouri have already voted on Amendment 3. We the People understood what we were voting for and it is the expectation that our elected officials, who are also the result of our choices at the voting place, will uphold our wishes. Your personal dislike of the decisions made by The People does not justify seeking any and every opportunity to undermine the will of The People. A woman who is in a position where she feels that she has no other choice but to terminate a pregnancy, often one that she desperately wanted, should not be prosecuted. She should be trusted to have made a well-informed decision that should be between her and her medical care team. The fact that this bill is even being given the time of day to be heard is an embarrassment to the people of the state of Missouri, an affront to the sanity of the judicial process, and a justification to seek new qualified representation embodying any semblance of integrity in the next election.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>		

The people of Missouri have voted and chosen to allow women to have full autonomy over their bodies. It is insulting to see the legislators repeatedly act as if they are better and smarter than the people they are supposed to represent. It is evident in the way schools are underfunded, maternal mortality rates continue to be higher than those in other states, the fact the people had to fight to get the state to accept the Medicaid Expansion, and the fact that guns are protected above any human that you really don't care about the sanctity of life. Please listen to the people and allow abortion to remain legal.

In laboratory situations, like IVF clinics where people are working to build their families, this bill would require extensive oversight and enforcement and could impact treatment clinics over liability and cost. Alabama literally had to make IVF legal after they did this. Plus, this is blatantly in opposition of voters. <https://www.npr.org/2024/03/06/1235907160/alabama-lawmakers-pass-ivf-immunity-legislation#:~:text=Alabama%20passes%20IVF%20immunity%20law%20The%20law%20is%20intended%20to,ruling%20that%20embryos%20are%20children>.

I oppose any attempts to classify abortion as murder. Access to reproductive care saved my life, and access to abortion made sure that I could come home to my infant son after a devastating miscarriage. These laws violate the Geneva convention and human rights standards across the world, as forcing anyone to carry a pregnancy against their will violates individual autonomy and the right to privacy in seeking medical care. The government should not force its citizens to carry a pregnancy against their will. The government should not criminalize its own citizens for refusing to recognize state sanctioned religious beliefs held by members of the legislature. The voters of the State of Missouri specifically added a constitutional provision to protect the choice of Missouri moms, and these rights shall not be infringed upon by rogue legislators who overrule the will of the people.

HB 1072 would reverse the right for a woman to have bodily autonomy in the state of Missouri. There are never any government or legislative attempts to control a man's reproductive organs. Legislators are not qualified to determine medical procedures and individual medical care must be decided by medical professionals. This bill is based on Rep. Sparks' biblical beliefs and not based on scientific evidence. Mr. Sparks has the freedom to live out his religious beliefs. The rest of us have the right of freedom from his religious beliefs. Legislation based on biblical views and religious dogma have no place in determining a person's private medical decisions. I urge Rep. Sparks to accept the will of the voters and to refrain from using his religious views to attempt to reinstate a ban on abortion. I strongly express my opposition to HJR 1072.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

I am writing to express my strong opposition to Missouri House Bills 1072 and 1417, both titled the "Missouri Prenatal Equal Protection Act." These bills represent an extreme and dangerous attempt to criminalize abortion and redefine personhood under Missouri law in ways that would threaten the rights, health, and safety of pregnant people and their medical providers. By granting full legal personhood to fertilized eggs from the moment of conception, these bills would rewrite the state's criminal code to allow murder charges for those involved in abortion care, including potentially the pregnant person herself. The bills offer only narrow exceptions for life-threatening situations, and even then, require that "all reasonable alternatives" to save the fetus must have failed, placing physicians in legal jeopardy and delaying urgently needed care. These proposals are not about protecting life—they are about controlling it. They strip Missourians of their reproductive autonomy, endanger lives by deterring medical professionals from providing necessary treatment, and pave the way for investigations and prosecutions after miscarriages, stillbirths, or abortion care. This is not theoretical: in states with similar laws, women have already been jailed for pregnancy outcomes. Let us be clear: abortion is healthcare. Healthcare that Missouri citizens have already voted on and made their choice clear. Missourians believe that abortion and abortion care should be between the patient and the healthcare provider. Legislating reproductive decisions through the criminal code undermines medical ethics, disregards science, and erodes human rights. No person should face homicide charges for making a personal medical decision. These bills would grant full legal personhood to fertilized eggs from the moment of conception. As written, that would not only criminalize abortion as homicide, but also create serious legal risks for patients and medical professionals involved in in-vitro fertilization (IVF). By defining embryos as full legal persons, these bills could make it a felony to discard non-viable embryos, conduct embryo selection, or even store or transfer embryos in standard ways, putting fertility treatments at risk. Missouri families trying to conceive through IVF could find themselves facing heartbreaking legal barriers, delays, or even criminal investigations. These bills would turn one of the most hopeful and sensitive moments in people's lives—starting or growing a family—into a legal minefield. Providers may stop offering IVF services altogether to avoid the risk of prosecution. Personhood bills and IVF can't coexist. Lawmakers should not dictate laws as to what a family looks like and who can start a family. I urge the Missouri General Assembly to reject HB 1072 and HB 1417. These bills do not reflect the values of compassion, privacy, or justice. Missouri residents deserve laws that protect their dignity, their health, and their right to make decisions about their bodies and the growth of their families without fear of criminal prosecution.

Missouri voters voted to enshrine abortion rights into our Missouri Constitution, so this bill goes against the will of the voters. Additionally, the reasons why individuals seek abortions are myriad, and it is not right for any individual to take that choice away from someone else. Many women seek abortions not to get rid of an unwanted child. They have an abortion because the child cannot and will not live outside of the womb. Or the child they are carrying will kill them and itself, rendering two individuals dead. Criminalizing abortion will kill more people than it will save.

My name is Cynthia Hedrick and I am a voter in Kansas City. I **ADAMANTLY** oppose HB 1072 and HB 1417 because they are blatant attacks on Missouri’s citizen-led initiative process and an affront to our democratic rights. These bills would raise unnecessary and undemocratic barriers to both qualifying and passing ballot initiatives, stripping power away from the people and placing it firmly in the hands of politicians and special interests. For decades, Missourians have used the initiative process to make meaningful change—expanding Medicaid, raising the minimum wage, legalizing medical and recreational marijuana, and defending reproductive rights—when lawmakers failed to act. Now, because those measures passed with overwhelming public support, certain legislators want to change the rules to rig the system against us. These bills don’t protect voters—they silence them. They are not about transparency or fairness—they are about control. I demand you to stand on the side of democracy, not authoritarianism. **Vote NO on HB 1072 and HB 1417. RESPECT THE WILL OF THE PEOPLE!**

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

In 2024, Alabama was gut punched by a ruling from the Alabama Supreme Court that they had no idea would turn the state upside down and make them the talk of National News. The reason this happened was due to the supreme court ruling that embryos were children and anything happening to them could result in being prosecuted. This made doctors take pause on all fertility treatments that thousands of people were counting on, paying for with their life savings, and putting everything they had on the line in order to build their families. This bill would do exactly that. The bill adds the definition of person in the criminal code to include a human being, including an unborn child at every stage of development from the moment of fertilization until birth. It would bring a lot of uncertainty and fear into thousands of physicians and also those that need treatment in order to build their families. I am an Infertility Mama of a 3 year old that was brought into this world starting with IVF and without that my husband and I would not have the same joy we have every single day of having her in our lives. I have lived in the pain, grief, and sadness of feeling like I failed when it came to being able to build our family. I could NOT IMAGINE the pain this could cause so many that are trying so hard to build theirs. Please do not vote this bill to move any further.

Passing this bill creates so many issues as rate miscarriage is 10-20%. This is a devastating situation and a women should not have to worry about having to defend herself after. We have also seen how this type of situation plays out in doctors being fearful to administer life saving healthcare to pregnant women for fear of legal repercussions. We have seen too many women die in this country over the last few years because of this. This proposal also ignores the will of the people in this state as we voted for the opposite. It also ignores freedom of religion as some believe differently about when life begins. There is no scientific basis for this law.

I strongly oppose any and all proposals, amendments or whatever the MO politicians are wasting our tax dollars on especially when trying to overturn the will of the people! If any of these bills end up getting approved and end up back on the ballot then that means we can overturn the will of the people (which by no means gives this corrupt administration a mandate) by impeaching Trump and every person complicit in this coup of our government and democracy! I'm appalled by our elected officials who don't care at all what the voters want! They just want to impose their religious beliefs and try to control women! How about a bill requiring all men to have vasectomies until they go through invasive medical testing and prove they can support the child!

**This bill is atrocious and antiwoman. Women deserve respect to make decisions about their own health care. For many women, having children is not an option at the time they become pregnant. The decision to terminate is a very personal and medical decision, not one in which the government has any involvement. Leave women alone, respect the will of your voters, who just approved a constitutional amendment allowing women to have free control over their reproductive health.**

I vehemently oppose these draconian measures. You want women to have babies but you make the prospect of pregnancy terrifying. **MANY WOMEN MISCARRY!!!!** You are criminalizing a natural occurrence. Fetal personhood creates more problems than I can list. Are they to be counted in the census? Can I claim my fetus as a dependent? Get off your false Christian high horses and start caring for the poor and the outcast which is was Jesus **ACTUALLY** taught.

I find it ironic that the legal age for carrying has been lowered, which is not what most voters want. There has been immense documentation that shows that a fetus is not a person under the law; yet, once again, the Republican Missouri elected officials believe we are only correct in our votes when we vote for them.

**This bill is insane. I am a white female of child bearing age from St. Louis County. Bills like this discourage me from wanting to have another child because it is terrifying to know that if I needed a medical abortion, or an abortion for any other reason, I would be charged with murder. It makes me want to move my family to another state that values reproductive freedom, for the sake of myself and my daughter. I am furious that I have to contemplate being forced out of my state for safety reasons, when I love it here. This bill would create preventable injuries and deaths to childbearing women. I hope this bill dies and never gets brought forth again. Missourians deserve better. Women deserve better. The constituents of this state literally just voted to make abortions legal again. STOP THIS HARMFUL NONSENSE!**

Hi there. As a woman and former fetus, I oppose any restrictions on the right to abortion in the name of "sanctity of life". My sanctity of life, including the life of many others like me, is tarnished by laws that say I cannot have control over my own health. I am medically compromised due to having one kidney. While it is possible to get pregnant, I have been warned by my doctor that any pregnancy from this point forward would automatically be deemed high-risk. As I am married in my 30s, the chance of an unintended pregnancy is definitely there. A ban on abortion means I either disregard the sanctity of my own marriage by not engaging in martial activities (to prevent pregnancy), or disregard the sanctity of my own life and health through high risk pregnancy. Abortion as an option is the safe alternative to that whole dillema. Knowing abortion is available if my health is compromised gives meaning and security to my life. We need to get over the idea that an unborn life is any more valuable than a born woman.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

I stand in firm opposition to HB 1072, a draconian bill that strips Missourians of reproductive autonomy, endangers lives, and weaponizes the law against women and healthcare providers. This legislation is not about protecting life—it is about controlling it. By granting personhood at fertilization, the bill opens a Pandora’s box of harm, threatening the dignity, health, and freedom of every pregnant individual in our state. HB 1072 criminalizes essential healthcare. While it claims to exempt pregnant people from murder charges under duress, it does nothing to protect those seeking abortion care from prosecution under other criminal statutes. Worse, it subjects doctors to second-guessing by politicians, not medical expertise. The vague “reasonable alternatives” clause will paralyze physicians during emergencies, forcing them to delay care—or deny it—out of fear of litigation. Women facing miscarriages, ectopic pregnancies, or life-threatening complications will pay the price. This bill ignores the realities of pregnancy. One in four pregnancies ends in miscarriage. Redefining “personhood” from fertilization invites invasive investigations into these deeply personal tragedies, traumatizing grieving families. It also disregards survivors of rape and incest, dismissing their trauma by mandating forced pregnancy. What of the 12-year-old child impregnated by her abuser? Or the woman whose wanted pregnancy turns lethal? HB 1072 offers them no compassion—only state-imposed suffering. Furthermore, this legislation flagrantly violates constitutional precedent. Roe v. Wade guarantees the right to abortion, yet HB 1072 seeks to circumvent this through personhood language designed to ban abortion entirely. Such overreach will embroil Missouri in costly legal battles, wasting taxpayer dollars to defend an indefensible assault on bodily autonomy. Government has no place in the exam room. We must trust women and their doctors—not politicians—to make complex, intimate decisions. HB 1072 replaces empathy with cruelty, science with ideology, and justice with control. I urge you to reject this dangerous bill. Protect Missourians’ lives, rights, and futures by voting NO on HB 1072.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

The bill sponsor and the Missouri Republican Party lost on Amendment 3 in November. If this party were made up of adults, they'd understand that sometimes you lose. Then you move forward. Instead, the Missouri GOP has chosen to cross their arms, stomp their feet, and trample all over 1,538,659 voters. WE the people collected signatures. WE the people voted. WE the people passed Amendment 3. Now onto HB 1072. This bill charges women with murder if they have an abortion. This bill charges women with murder if they abort their rapists embryo. This bill charges a child with murder if her uncle raped her, impregnated her, and she aborts her uncle's embryo. What happens to the rapist? Under this bill, he's only charged with rape (at best). Again, the CHILD who's a victim of incest is charged with murder, while her attacker is charged with the much smaller crime of rape... but only if the men believe the young girl. This bill is egregious. The bill sponsor's willingness to put his name on this is egregious. Vote NO on House Bill 1072.

Hello, I am writing to fight against this. The fact that the government feels they should have a say in what happens in my bedroom or in my body is outrageous. Let alone being able to convict someone of making a choice that is best for them? So let me ask this, if it was your daughter/sister/wife; would you want them to live with a rapists baby growing inside them. Reminding them everyday of probably one of the most horrific days of their lives? It's disgusting that there are so many men and women who **CANNOT EVEN HAVE CHILDREN**, fighting to force this. It's uncalled for and un-American. Older folks wonder why us young people aren't proud to be Americans, **THIS IS WHY**. I'm certainly not proud to be a Missouri resident, with the way our politicians are trying to take the Bible and make it law. This isn't what being American is about. It's about the right to choose what you do with your body, what you believe in and free speech. The people have spoken to get abortion rights passed and yet politicians believe we didn't understand what we were voting for! It's actually outrageous to think Missouri's government is trying to undo the word of the people. I hope this actually get read and makes some difference to someone. I'm fighting for my rights but mostly for future generations to come. You can all keep pushing your "trump" agenda, but in the end the people will win. Thank you, Madison Goldkamp

Once again, Christian Nationalist legislators are trying to overturn the majority of voters in the state of Missouri to make abortion illegal. They are using THEIR religious beliefs to try to impose them on the majority. I am a Christian. My GOD is in favor of the sanctity of life when it begins after birth. Legislating and making certain medical procedures **ILLEGAL** on the basis of someone's GOD over the conscience and someone else's GOD is sheer stupidity. Let women and the medical professionals do their work. Keep abortion legal as the people of Missouri have already done so. The Missouri legislature has other, more important issues to deal with than trying to overturn last year's **LEGAL** initiative petition vote. In this sense, the legislature by violating the will of the people, is engaged in nefarious, sinful work by my perspective. **STOP** this madness. Please work on how you're going to cover the huge gaps in safety net coverage by your cutting taxes for the wealthy. . . .

The people of this state have already spoken up and said they want and need the right to abortion. By passing this bill, you are overturning the will of the people. Denying people the ability to even TALK about abortion is a egregious overstepping. You are also creating an environment that severely restricts the care available to women during even wanted pregnancies. Do NOT pass this bill!

For god's sake, are you seriously going to pass yet another bill that penalizes pregnant women? It takes a man to get a woman pregnant, yet you never write a bill that penalizes the man. Heck, law enforcement can't even be bothered to track down rapists because we have a backlog of rape kits that have never been tested. You spend so much time legislating for the unborn, yet you do nothing that benefits actual living beings. Everything and everybody gets thrown under the bus for the unborn. I strongly oppose this extreme legislation. You cannot continue to trample on women's rights. We already see American citizen's rights being torn away by the Republican Administration in Washington, and we in Missouri are not going to stand by and allow this same mistreatment by our state government

Both bills are reprehensible. To define a fetus as personhood and thus charging a person with ending a pregnancy with murder is a crime against all women. With the end goal of these 2 bills being to completely outlaw abortion is to deny women basic healthcare. So many more women have died as a result of overturning Roe v Wade. We cannot let Christian Nationalists control this narrative. Missouri has already spoken by voting No to Amendment 3. I demand that our voices be heard and that HB 1072 and 2025 be terminated

Women should never be forced into pregnancies against their will. I've seen the devastating impact of unwanted pregnancies. Adoption isn't always an answer — many parents who aren't prepared or able to raise children also wouldn't consider placing them for adoption. When women have the freedom to choose, families and communities are healthier, and children grow up in homes where they are truly taken care of. Doctors I know have left Missouri, afraid of facing criminal charges for providing life-saving care. Medical students avoid Missouri for the same reasons. Many areas have no OB-GYN care for miles, making it harder for women to get the medical help they need. Reproductive rights are about safe pregnancies, healthy families, thriving communities, and keeping the government out of our private decisions. Please vote no

I disagree with the creation of these bills. These bills seek to bypass the will of Missourians. We have voted to keep abortion legal. These bills seek to make abortion illegal without our say. These bills also seem to create a lot of legal issues for no reason but to be able to punish a pregnant person. The new definition of human to include fetuses not developed enough to live outside a womb would create a number of legal issues we would have to create new laws for and have court cases over for years. From the pedantic (When can a pregnant women fill that child as a dependent on her taxes? When she finds out she is pregnant?) to the serious (If a man abuses his pregnant wife and she miscarries, is it murder?): these new definitions have ramifications on our whole legal system. These new definitions also stops IVF in our state.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

Personhood from the time of fertilization is a dangerous and highly illogical premise to establish in law. Medically, it makes no sense. It is estimated that 50-70% of fertilized eggs pass in menstruation without implanting in the uterus. So, if every fertilized egg is a "person," HB 1072 would establish that murder is taking place each time a woman has a period after having sex. And using protection would not be proof that none of her eggs had been fertilized because no form of contraception is 100% failproof. HB 1072 could also be used to deny access to contraception. Even if the Legislature decided to establish personhood at the time of implantation, the medical definition for the beginning of a pregnancy, all kinds of other issues would arise. For instance: When would paternity be documented? When would child support start? Could a woman get life insurance on a pregnancy, to be awarded if there was a miscarriage? Could a pregnant woman claim the embryo/fetus as a dependent? These are just some examples of complications that arise when non-viable embryos/fetuses are awarded full rights of personhood. Missourians voted in November 2024 to protect reproductive health and choices. And, yes, we knew what we were voting for. Bills like HB 1072 are an affront to majority will and an effort by the anti-choice minority to impose their will. This bill should not be passed by the Committee.

Please vote to **OPPOSE** HB 1072. Missouri voters passed Amendment 3 to include the right to abortion in our state constitution. I oppose criminalizing pregnancy. I oppose criminalizing people who are pregnant. I oppose criminalizing healthcare providers who perform abortions. In my opinion, HB 1072 is an attempt to subvert the will of Missouri voters who approved abortion rights and an attempt to control reproductive rights of pregnant people by criminalizing them – nothing more. Please vote to **OPPOSE** the passage of HB 1072, in any form.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

As a rural Black woman, my faith is the foundation of everything I do. The call to love God and love my neighbor guides my actions—and it’s why I’ve supported my local pregnancy resource center for over a decade. Like many in my community, I struggle with the complexity of abortion. But my faith teaches me to meet that discomfort with compassion, not control. Let’s be real: no one wants an abortion. But life is complicated—medical crises, violence, and deep hardship all shape these decisions. Missouri Republicans ignore that. They’ve turned abortion into a political weapon. Missouri voters saw through the cruelty. With Amendment 3, we made it clear: we don’t need big government controlling our bodies or our medical decisions. We need care, dignity, and freedom—not Republican interference.
