I would suggest notice to the landowner on the other side of the fence be notified 3 days in advance of the work that could possibly involve coming on the their property.10 feet as a permitted barrier is good but it IMPLIES the 10 feet is measured from the fence line. What about gaining entrance into the property by a gate? Then requiring one to drive across a pasture? This wording leaves out a method to designate where the 10 ft allowance begins and ends.This bill should be married to 272.060.

The neighbor should absolutely be part of a discussion about what is needed to be done and how it will be achieved.
