We support ending the residential PACE program. However, our association has no issues with any of the other provisions pertaining to commercial property as these transactions occur with sophisticated purchasers and would have more involvement with their financial partners. The residential PACE program in Missouri has been wrought with controversy since the inception and we are concerned about the marketing of the program in the past and future.

I do not support disallowing residential properties from benefitting from clean energy financing. We should be encouraging and enabling Missourians to use cleaner energy in their homes, especially as investment in renewable energy frees up income to be circulated in the local economy.
