Words have definitions, the words chosen for the second amendment are clear and absolute. Any gun law is in fact an "infringement" and therefore null and void across the United States. This bill just solidifies that against tyrannical actors within our federal, state and local governments.

The 2nd amendment is critical to the preservation of a free society. The Federal Government has trampled upon our right to bear arms with impunity for far too long. It is the duty of the great state of Missouri to defend her citizens from Federal overreach.

Rep. Hardwick's bill removes the language the court disliked while maintaining the integrity of the bill. It also removes the language that says the people of the Missouri grant the General Assembly authority over our 2A rights, which we do not. The Second Amendment Preservation Act was passed by the Missouri General Assembly and signed by Governor Parson in 2021. Because it actually has teeth and actually protects our right to defend ourselves, and because it was a model for other states to follow, it was the **ONLY** such state law the federal (Biden) Department of Justice challenged. The fact is, the 8th Circuit Court couldn't find anything wrong with the functional part of SAPA - the part that merely used the same anti-commandeering doctrine that the U.S. Supreme Court has repeatedly said was clearly within the powers of each state of the union. In essence, the only thing they complained about was a non-functional part of the bill that explained **WHY** the Missouri General Assembly thought it was appropriate to take this action.

It is ridiculous that the judicial branch should try to derail the legislative branch by objecting to a preamble. SAPA is designed to protect the constitutionally protected rights of Missourians, and it is imperative that both the MO senate and house do everything in their power to protect those rights.

I am a female resident of Missouri, and have exercised my second amendment right to own a firearm. When an intruder entered my house in rural Missouri at night while I was home alone, I utilized my firearm to keep him at bay until the county deputies could respond. That response took 20 minutes! Fortunately I did not have to use that firearm, and I did not become a victim because I had it and was prepared to use it. I am concerned that at any given time, the leaders in power in a future Federal administration could abuse my Constitutional right, and the perpetrators would win. Please pass SAPA!

Please keep HB 1175 moving forward to remove the non-functional explanation of the Second Amendment Preservation Act that explains why the Missouri General Assembly felt it necessary to take this action. That explanation has no place in the SAPA and potentially weakens the SAPA. Please protect our right to protect ourselves.

It is way past time to push back against the federal government's (essentially 12 years of the Obama regime) efforts to eliminate our Second Amendment rights. The Second Amendment protects all the others as intended by our Founding Fathers. Preserving it is key. With it, we are citizens. Without it, we are subjects as evidenced by the genocide conducted by despots in the 20th Century, and continues today in cesspool states such as , but not limited to North Korea, Venezuela, and some African countries. The first thing dictators do is disarm the population so as to get complete control. SAPA takes the necessary steps to prevent that from happening right here in Missouri. Additionally, it could entice more law-abiding citizens from Illinois to move to Missouri to get away from the Sluggo Pritzger regime and its heavy handed gun control laws.

It that became law in Missouri in 2021. HB 1175 will take care of technical problem court had with it so we can settle the law and get real 2nd amendment protection in place for all Missourians. To the Honorable Missouri Legislature, I would like to encourage you to support HB 1175 to rectify the legal findings and review by the 8th Circuit Court of Appeals which address, in their opinion, some minor shortcomings of the original bill passed by the Missouri Legislature and signed by Governor Parsons. I supported the original bill and support this 'additional' bill to clarify the concerns of the court in order to ensure Missourians like myself retain the legal and inalienable rights afforded us as citizens of the State of Missouri, as provided under the United States Constitution. I desire Missouri's laws to govern myself and my fellow citizens; otherwise I would be living somewhere else where federal law and state law are maligned against the rights of citizens.

The passage of Missouri's SAPA law is an essential step in protecting our inalienable right to keep and bear arms and our sovereignty as a state. Under no circumstances should Missouri's resources be used to enforce federal laws that violate our right to keep and bear arms. In Article 1 Section 23 of our states Constitution, it requires that "the state of Missouri shall be obligated to uphold these rights and shall under no circumstances decline to protect against their infringement.". The full text of Article 1 Section 23 "That the right of every citizen to keep and bear arms, ammunition, and accessories typical to the normal function of such arms, in defense of his home, person, family and property, or when lawfully summoned in aid of the civil power, shall not be questioned. The rights guaranteed by this section shall be unalienable. Any restriction on these rights shall be subject to strict scrutiny and the state of Missouri shall be obligated to uphold these rights and shall under no circumstances decline to protect against their infringement. Nothing in this section shall be construed to prevent the general assembly from enacting general laws which limit the rights of convicted violent felons or those adjudicated by a court to be a danger to self or others as result of a mental disorder or mental infirmity."

I am voicing my support for HB 1175. When SAPA was first signed into law in Missouri, I remember how proud I felt as a Missourian. Our state was finally standing up against our tyrannical federal government and giving us much needed protection on our second amendment rights. All citizens of the United States should never have to fear that their constitutional rights will be taken away. However, we have all witnessed it time and time again. From the unconstitutional vaccine mandates to "assault rifle" bans. We in Missouri need SAPA now more than ever. The fact that the Federal government is afraid of this bill is all the more reason to move it forward. We must remember that each State works for their citizens and not for the Federal government. The citizens of Missouri want SAPA. We are living in a Fentanyl crisis. An illegal alien crisis. A war on Police crisis. We Missourians need the right to protect ourselves, our home and our property. Let's pass this bill and show other states how to protect their constitutional rights. Thank you.

This Bill simply removes the justification language of the original and streamlines the intent. This is an important step exactly in line with the essential intent only. Let's get this done for the liberty of all Missourians and every other State that wishes to draft legislation that truly represents the full intent of the Second Amendment.

The Second Amendment Preservation Act is vital to Missouri Citizens. It is a shame that we as a Nation have drifted so far from the Constitution that such a mechanism as SAPA has to be considered. Without this legislation we are subject to the totalitarian whims of the socialist-minded folks that have worked their way into government positions.

The Second Amendment Preservation Act is possibly one of the most historic pieces of legislation Missouri has ever handled. Since the 8th Circuit Court of Appeals was "offended" by the narrative contained in the bill and not the law itself, they decided to overturn SAPA despite the fact it had a severability clause. This was a political move and not a legislative or Constitutional move. I fully support this bill and hope to see it become a law again in the Great state of Missouri.

I support HB 1175 for the sake of all Missourians who value their state rights. The 8th Circuit found nothing wrong with the functional part of SAPA and we appreciate their ruling to give us this opportunity to fix this law which was already passed and supported during Gov. Parson's term in office. SAPA protects the rights of all Missourians! One more point, our excellent AG Bailey has filed this SAPA case before the US Supreme Court. He needs the support of all of us behind him and supporting this SAPA fix is a great way to do so. THANK YOU!!

The Second Amendment Preservation Act was passed by the Missouri General Assembly and signed by Governor Parson in 2021. Because it actually has teeth and actually protects our right to defend ourselves, and because it was a model for other states to follow, and so no surprise it was the ONLY such state law the federal (Biden) Department of Justice challenged. The fact is, the 8th Circuit Court couldn't find anything wrong with the functional part of SAPA - the part that merely used the same anti-commandeering doctrine that the U.S. Supreme Court has repeatedly said was clearly within the powers of each state of the union. In essence, the only thing they complained about was a non-functional part of the bill that explained WHY the Missouri General Assembly thought it was appropriate to take this action. And so the 8th Circuit Court of Appeals provided a road map to fix Missouri SAPA and for other states to enact their own SAPAs. HB 1175 removes the non-functional parts of SAPA without diminishing its effective, functional parts. We need to make sure HB 1175 remains on a fast track. SB 23 is the companion bill in the Senate, and it is also moving, so it's looking good

The 8th Circuit Court of Appeals acknowledged Missouri's right to determine how to use our resources. In other words, they acknowledged the right of states to employ the Anti Commandeering Doctrine that the U.S. Supreme Court has repeatedly said was a rightful power of each state of the union.-The 8th Circuit DID NOT like the fact that the Second Amendment Preservation Act included a statement of our opinion that unconstitutional federal gun control laws were not legitimate in our state.-Fortunately, the court opinion in DOJ v Missouri is a road map to making changes to SAPA that the courts must accept. The committee substitute for HB 1175 is focused on making those changes and those changes only.- You might hear complaints that SAPA has prevented law enforcement from participating in federal joint task forces, but there is nothing in SAPA that prevents that sort of cooperation as long as they only enforce Missouri gun laws, OR federal gun laws when such enforcement is ancillary to prosecution for certain violent felonies and drug trafficking. (The federal gun charges have to be for crimes substantially similar to those found in Missouri statutes.)-You might also hear complaints that stolen guns can't be entered into the Missouri stolen gun registry, but nothing in SAPA prevents that, either. After all. it's against Missouri law to steal guns.- When you boil it all down, SAPA is a reasonable 10th Amendment response to the sort of overzealous advocates of gun control we have seen on the federal level from most of the administrations in recent years and will likely see again.

We now have a long standing tradition of ignoring both the U.S. Constitution and the Missouri Constitution. This is a disgrace. Americans all over the United States and even in Washington D.C. are standing up for the rule of law. Legitimate audits of finances and Executive Orders from POTUS to review any Federal laws, regulations or policies that may infringe on the 2nd Amendment are now in play. As adults, and citizens of Missouri we must do our part in this critical time of change. Re establishment of State's Rights and the Rule of Law are paramount to our survival as a Nation.

I am in Support of Representative Hardwicks HB 1175 This bill establishes the "Second Amendment Preservation Act". The following Federal actions will be considered infringements of the Second Amendment: (1) Any tax, levy, fee, or stamp imposed on firearms or ammunition, as described in the bill; (2) Any registration or tracking of firearms or ammunition; (3) Any registration or tracking of the ownership of firearms or ammunition; (4) Any act forbidding the possession, ownership, use, or transfer of a firearm or ammunition; and (5) Any act ordering the confiscation of firearms or ammunition. This bill further holds that all Federal laws or regulations that infringe upon the Second Amendment will be invalid in Missouri. It will be the duty of the courts and law enforcement of Missouri to protect these rights

SAPA was a great step in the right direction for Missourians. HB1175 is now needed to make SAPA a cleaner, more effective Law in preserving our Rights from Federal overreach. They have no legal say over us. We are Missouri - Not Federal Missouri! Vote yes on HB 1175.

I'm a staunch supporter of the rights of self-defense, the right to defend and protect my family, and I abhor the thought that something like SAPA has to be written because we have citizens in this country and state that don't understand rights are superior to any governing body as it clearly states in the state constitution in Article One Sections one, two, and three and via the second amendment based on the opinion of the basis of the fourteenth amendment. NO state resources should be used to violate the rights of any citizen, whether it be RTKBA, free speech, assembly, association and many others that aren't listed by as the founders/framers stated they are recognised.

The Second Amendment may be considered the cornerstone of our freedom in this nation. It is also the one right protected by the Constitution that is constantly being challenged and in the crosshairs of the left. Missouri must be the standard bearer in this matter and secure the freedoms our forefathers so wisely protected in the Bill of Rights. Missouri must protect the second amendment with passing this bill which will protect Missourians and Missourians rights given to us by The Almighty. I ask that my testimony be considered in favor of the Second Amendment Protection Act and ask that the representatives hearing my testimony do the same. Stand for freedom and Missourians.

I urge the committee to vote no on HB 1175. Since gun violence is increasing in Missouri, wouldn't the state want more help preventing tragedy? Why be the party of law and order, but make it harder for law enforcement to do their job? This bill would undermine public safety and hinder local law enforcement from doing their jobs of protecting their communities. I'm disappointed that legislatures want to hinder investigations into gun crimes.

This bill, if signed into law, would drastically impede the ATF's ability to investigate gun trafficking and other gun crimes in our state and as a result it would make gun violence even more prevalent in Missouri than it already is. We should be actively working to make it harder to get guns into the hands of people who have no business selling and possessing one.

Aside from the Constitutional question of attempting to override Federal law, this bill makes it more dangerous for everyone in the State of Missouri, including law enforcement. I fail to understand why Missouri lawmakers are working so hard to enact a bill which has already been ruled unconstitutional and leaves Missourians less safe. There is no upside to keeping local law enforcement from working in conjunction with federal law enforcement. I for one would welcome communities where current gun laws were enforced to the fullest extent rather than watching people paid to protect us all have to tiptoe around unnecessary regulations leaving us all in greater jeopardy.

I oppose HB 1175. When I was a teenager working at the Pleasant Hill Sonic drive during the summer before my senior year, I experienced gun violence. This exacerbated my childhood PTSD, anxiety and depression and has been a reason for much of the mental health counseling I've needed throughout my adult life. The perpetrator appeared to possibly be disabled and even though I had suspicions, I helped him roll up his passenger window after giving him his drink order on his driver's side. He was fiddling with something and I quickly learned it was the pistol he put in my face in attempt to kidnap and later torture and possibly rape and kill me. This was in 1993 and he was a troubled white young man from Odessa. Folks with actions like these should not have access to guns. As a public school teacher and mother of three children who have graduated from and are attending public school, I think about possible gun violence everyday. Multiple times a day. I would die for our kids, but I'd also try to get us to protect us or get us to safety if possible before pending disaster. We lock our classroom doors to prevent disaster. We do drills to be ready for disaster. Please protect Missourians and make it harder for gun violence to occur, not easier. Police officers should not be fined for doing the right thing and helping federal agents fight crime. They should not be prevented from being hired as an officer if they previously helped federal agents with crime. Those are absolutely ridiculous actions and I do not want my tax dollars to fund that kind of insanity. Sincerely, Amy Wilkinson

Please don't pass any more laws that make us less safe from gun violence. Missouri is already a mess and awash with guns. You don't need to make it harder for us parents to keep our kids safe. This proposed law (which will likely again be found unconstitutional) makes us less safe. Even police and other first responders want better gun laws. Your body is letting us down. In the last 20 years the Missouri legislature has consistently stripped away the responsibilities once attached to gun ownership in our state and in that same timeframe has been on a trajectory of increased firearm homicides and suicides, at a higher than the national average. Guns for everyone everywhere is not an effective “tough on crime” strategy but is a recipe for more shootings. In a couple of weeks my school age children will go through an extensive school shooter training resulting in fear apprehension and lost instructional time. They’ll be instructed to walk over dead bodies in their hallways and to not look the shooter in the eye. This legislative body should be focused on preventative measures such as enforcing federal laws rather than stripping them, enacting a secure storage law, and an extreme risk law, rather than placing the burden of defense on our children.

Crimes involving firearms are an ongoing reality where I live in St. Louis, to the extent that I have collected multiple bullets that struck my house. It is absolutely vital for local law enforcement to have access to all resources available, including from the federal government, to investigate unlawful firearms use and address the public hazard.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

To the Missouri General Laws Committee: I am writing to express my strong opposition to House Bill 1175. As a responsible gun owner and parent of three children, I am deeply concerned about the implications this bill would have for public safety in our state. Missouri already faces significant challenges with gun-related mortality rates, ranking among the highest in the nation. As a parent, I now face difficult decisions about allowing my children to attend school and must think twice about visiting crowded public spaces due to safety concerns. This is not the Missouri I want for my family or any other families in our state. While I fully support Second Amendment rights and am a gun owner myself, HB1175 would severely hamper law enforcement's ability to combat gun trafficking and gun-related crimes. The proposed \$50,000 penalties for officers who cooperate with federal agents would effectively defund and destabilize crucial law enforcement operations that keep our communities safe. This bill would not only discourage inter-agency cooperation but would also create barriers for hiring experienced officers who have previously worked with federal authorities. We need legislation that strengthens public safety while respecting constitutional rights – not laws that force our local law enforcement to choose between protecting our communities and avoiding financial penalties. The previous version of this law was already ruled unconstitutional in federal courts in 2023. Rather than rewriting this flawed approach, we should focus on creating sensible gun safety measures that protect both our rights and our families. I urge you to vote NO on HB1175 and instead work toward solutions that support both responsible gun ownership and effective law enforcement cooperation to keep Missouri families safe. Respectfully submitted, Christine Gilbert Columbia, MO

I strongly oppose the "Second Amendment Preservation Act" as it poses a direct threat to public safety, undermines law enforcement, and creates a dangerous precedent of state nullification of federal law. HB 1175 would prohibit reasonable regulations such as firearm tracking, registration, and even taxation, making it significantly harder to prevent guns from falling into the hands of criminals and individuals who pose a danger to themselves or others. The refusal to acknowledge any federal oversight on firearms ignores well-established legal precedents that allow for common-sense gun safety measures, putting Missouri communities at greater risk of gun violence. Furthermore, this legislation severely hinders law enforcement's ability to collaborate with federal agencies in tackling gun-related crimes. The bill imposes hefty civil penalties on law enforcement officers or agencies that attempt to enforce federal gun laws, forcing them to choose between upholding their oath to public safety or facing financial ruin. By stripping officers of the ability to cooperate with federal authorities on critical matters such as arms trafficking and domestic terrorism, Missouri risks becoming a haven for illegal firearm activity. Public safety should never be compromised in the name of ideological extremism. Lastly, this bill sets a dangerous precedent by attempting to nullify federal law, a principle that has been repeatedly struck down by the courts. The Supremacy Clause of the U.S. Constitution clearly establishes that federal law takes precedence over state legislation, and Missouri cannot unilaterally decide which federal laws it will or will not enforce. By adopting this bill, Missouri invites costly legal challenges and potential federal funding cuts, all while endangering its own citizens. I urge you to reject this reckless and unconstitutional measure and instead focus on policies that promote responsible gun ownership and protect public safety.

Missouri has some of the highest rates of gun violence, while having some of the weakest gun laws. We consistently receive and “F” rating for firearm safety from the nonprofit Everytown for Gun Safety. Why are we again attempting to weaken our gun laws? Are more school shootings the goal? Because if more guns make us safer, we’d be the safest country on Earth. Instead, firearms are the number one killer of our children. This bill is dangerous and I firmly oppose. It’s also illegal since it ignores federal gun laws already in place.

Hello, I am an opposition of any that hamstrings are local officers and any member of the police force that is trying to work on gun trafficking. From what I understand, Missouri is a bit of a halfway state between gangs in Mexico, and other U.S. states, and we need to stop gun traffickers and other criminals and get them either deported or arrested. Everyone knows that there's a huge connection between guns and the drug trade. We don't want armed criminals running around with guns in our state or country. Please let our officers do what they need to do to apprehend them. I'm honestly not sure why this is even on the books.

This is essentially a rewriting of the SAPA law that was ruled unconstitutional in federal courts. Why are we trying this again? If signed into law, this law would drastically impede the ATF's ability to investigate gun trafficking and other gun crimes in our state. This bill would make gun violence even more prevalent in Missouri than it already is because it will bar local law enforcement from working with federal agents to enforce federal gun laws in MO. If we want to reduce our crime rates, we need cooperation between local and federal agencies

I strongly oppose HB1175, which would severely undermine public safety in Missouri by preventing local law enforcement from collaborating with federal authorities on gun crimes. This bill would effectively defund the investigation of gun trafficking and other serious offenses in our state. The proposed \$50,000 penalties per officer for assisting federal agents create dangerous disincentives for law enforcement cooperation. These financial threats would force departments to choose between protecting their communities and facing crippling fines. As demonstrated during testimony, particularly by Representative David Tyson Smith, this legislation would significantly impair law enforcement's ability to combat gun violence. At a time when Missouri needs effective collaboration between local and federal authorities to address gun trafficking and violent crime, this bill would create harmful barriers to cooperation. Rather than improving public safety, HB1175 would make Missouri communities more vulnerable to gun violence. I urge you to reject this legislation and work towards solutions that strengthen, rather than weaken, our law enforcement partnerships.

I am in opposition to this bill! If signed into law, this bill will bar local law enforcement from working with federal agents to enforce federal gun laws in Missouri. This would drastically impede the ATF's ability to investigate gun trafficking and other gun crimes in our state. Law enforcement agencies can be sued for \$50,000 per officer that assists federal agents. There are also additional \$50K penalties for hiring an officer who previously assisted in enforcing federal gun laws. This bill would make gun violence even more prevalent in Missouri than it already is.

As someone who has volunteered with people who have lost loved ones to homicide, I have seen the impact that firearm-related crimes bear upon those in my greater community. A dispute that once might have ended in a fistfight at worst, can now become a homicide all too quickly when more powerful tools are in play. Such tragedies now occur, sparked by anything from road rage to domestic discord, all too frequently across the spectrum in our state. A recurring theme in unsolved homicides is the public's lack of willingness to come forward with possible tips. Our brave LEOs deserve the protection of all our laws. They need legal tools by which to pursue the wrongdoer. Our police or sheriffs' forces do not need to have their hands tied by confusion about the law, or to fear civil reprisal for doing their jobs. Let's back the blue. Let's support our LEOs in holding perpetrators responsible.

I am writing to express my strong opposition to House Bill 1175 (HB1175), which seeks to reintroduce elements of the SAPA law previously deemed unconstitutional by federal courts. This bill, if enacted, would severely restrict local law enforcement agencies from collaborating with federal agents on enforcing federal gun laws in Missouri. By imposing hefty fines on officers and agencies for assisting federal investigations, HB1175 would effectively cripple the ATF's ability to combat gun trafficking and other serious firearms offenses within our state. This legislation not only undermines critical efforts to enhance public safety but also poses a significant threat to the security of our communities. By obstructing the enforcement of federal gun laws, HB1175 would create a dangerous environment where gun violence could thrive unchecked. The potential consequences of such a law are dire, exacerbating the existing challenges we face in combating gun-related crimes and safeguarding our neighborhoods. I urge you to consider the detrimental impact HB1175 would have on public safety and law enforcement's ability to uphold federal laws. It is crucial to reject this bill and instead focus on policies that promote collaboration between local and federal authorities to effectively address gun violence and ensure the well-being of all Missourians.

In reading this legislation, it appears that the House is attempting to nullify federal law. This Bill also restricts local jurisdictions, including law enforcement, from enacting local legislation that may prevent dangerous individuals, like those intent on domestic violence or other harm, from possession of a firearm. This bill is a ridiculous and wasteful use of taxpayer resources. The state of Missouri does not get to define what is in the U.S. Constitution. Furthermore, based on the U.S. Constitution, state law cannot infringe on federal law. I am a life long Missouri resident, former Republican and gun owner. My husband is the son of a police officer. He was raised around guns and was safely used how to use them. We keep our guns in a safe, in our basement, where my children do not have access to them. We both support common sense gun laws and have decided to only vote for those who do as well, switching from the Republican ticket. We have children in schools who do school shooter safety drills and it breaks my heart. Gun violence is the number 1 killer of children in America and it is proven that common sense gun laws will prevent more gun violence. Please consider making laws to make our children and our streets safer, not the other way around.

I stand in firm opposition to HB 1175, which seeks to reenact portions of the Second Amendment Preservation Act (SAPA). While the bill’s intent to safeguard constitutional rights is commendable, its provisions are legally untenable, undermine public safety, and conflict with foundational principles of federalism. Below, I outline my objections grounded in constitutional law and practical consequences.

1. Violation of the Supremacy Clause HB 1175 explicitly declares federal firearm regulations “invalid” in Missouri, directly contravening the U.S. Constitution’s Supremacy Clause, which establishes federal law as the “supreme Law of the Land” . The Eighth Circuit Court of Appeals ruled SAPA unconstitutional in August 2024 for this very reason, noting that states cannot nullify federal law or obstruct its enforcement . By rehashing language already struck down, HB 1175 invites costly litigation and judicial rebuke, wasting taxpayer resources on a futile effort to defy constitutional hierarchy.

2. Undermining Law Enforcement and Public Safety This bill jeopardizes collaborative efforts between state and federal agencies. Columbia Police Chief Jill Schlude testified that SAPA forced the return of critical ATF technology used to trace firearms, hampering investigations into violent crime . Similarly, the U.S. Department of Justice highlighted SAPA’s disruption of joint task forces and information sharing, which are vital for addressing interstate trafficking and organized crime . By penalizing officers who cooperate with federal partners (via \$50,000 fines per violation), HB 1175 creates a chilling effect, leaving communities vulnerable .

3. Legal Uncertainty and Overreach HB 1175’s broad language—e.g., labeling federal taxes or registration requirements as “infringements”—ignores settled precedent. Courts have repeatedly upheld federal firearm regulations, such as the National Firearms Act, as constitutional under the Commerce Clause . Moreover, the bill’s attempt to invalidate federal law exceeds Missouri’s authority. As the Eighth Circuit emphasized, states cannot unilaterally declare federal statutes unconstitutional; that role resides solely with federal courts .

4. Contradictory Legal Defense Even Missouri’s own Solicitor General acknowledged flaws in SAPA’s original framework, calling its anti-federal provisions “toothless” during oral arguments . Reviving this legislation perpetuates confusion among law enforcement and citizens, exposing the state to liability. For example, the bill’s exceptions for aiding federal prosecutions of “ancillary” weapons violations are ambiguously defined, risking inconsistent enforcement and legal challenges .

5. Escalating Missouri’s Firearm Violence Crisis Missouri already suffers one of the nation’s highest rates of firearm-related deaths, including suicides and homicides . By obstructing tools like background checks and federal tracing systems, HB 1175 would exacerbate this crisis. Law enforcement leaders, including Lewis County Sheriff David Parrish, warn that such laws “create major obstacles” for officers combating crime . HB 1175 is a misguided attempt to address federal overreach through unconstitutional means. It jeopardizes public safety, invites legal chaos, and disregards judicial precedent. I urge this committee to reject the bill and instead pursue solutions that respect both constitutional rights and the

rule of law.

This bill, if signed into law, will defund the police, which is surprising seeing as police unions are donors to the bill sponsor's campaign. A bill allowing law enforcement to be sued for \$50,000 because they assisted in the enforcement of federal gun laws is lunacy. This is completely out of touch with what public safety looks like. Missouri has one of the highest rates of gun deaths. Start passing laws that reduce those numbers of deaths, not that increase them. This is a rewriting of the SAPA law that was already ruled unconstitutional in federal courts. What a **WASTE** of taxpayer dollars and legislative time that could instead be used to help Missourians who need access to healthcare, food, housing, 5 days of school per week for their children, etc. This bill would drastically impede the ATF's ability to investigate gun trafficking and other gun crimes in our state. I am writing to express my strong opposition to Missouri House Bill 1175. As a concerned citizen of Clayton, MO, I believe that this bill, if passed, would have detrimental effects on our community. I am concerned that this bill weakens Missouri residents' safety and peace of mind by exacerbating the gun violence problems that plague our state. THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I just submitted this to the link if you want it. Good ol AI for the win To the Missouri General Laws Committee:I am writing to express my strong opposition to House Bill 1175. As a responsible gun owner and parent of three children, I am deeply concerned about the implications this bill would have for public safety in our state.Missouri already faces significant challenges with gun-related mortality rates, ranking among the highest in the nation. As a parent, I now face difficult decisions about allowing my children to attend school and must think twice about visiting crowded public spaces due to safety concerns. This is not the Missouri I want for my family or any other families in our state.While I fully support Second Amendment rights and am a gun owner myself, HB1175 would severely hamper law enforcement's ability to combat gun trafficking and gun-related crimes. The proposed \$50,000 penalties for officers who cooperate with federal agents would effectively defund and destabilize crucial law enforcement operations that keep our communities safe. This bill would not only discourage inter-agency cooperation but would also create barriers for hiring experienced officers who have previously worked with federal authorities.We need legislation that strengthens public safety while respecting constitutional rights – not laws that force our local law enforcement to choose between protecting our communities and avoiding financial penalties. The previous version of this law was already ruled unconstitutional in federal courts in 2023. Rather than rewriting this flawed approach, we should focus on creating sensible gun safety measures that protect both our rights and our families.I urge you to vote NO on HB1175 and instead work toward solutions that support both responsible gun ownership and effective law enforcement cooperation to keep Missouri families safe.Respectfully submitted,Leigha Wagner

The Second Amendment Preservation Act does not preserve the public's right to safety. It infringes on the abilities of law enforcement to keep our communities safe by threatening them with fines if they dare to work with federal agencies like the ATF. I urge you to oppose this dangerous and shortsided bill.

Another SAPA law.... This was determined to be unconstitutional in 2023. This erodes cooperation between local and federal law enforcement. This forbids any local aid in solving gun trafficking, domestic terrorizing, etc. It sounds like you want our state to become a crime capitol by passing this law. I don't understand why one would want that. If it passes and it goes through the courts again, how do you justify spending money and other resources on something that never should d have happened in the first place?

This bill, if signed into law, will bar local law enforcement from working with federal agents to enforce federal gun laws in MO. This would drastically impede the ATF's ability to investigate gun trafficking and other gun crimes in our state. Law enforcement agencies can be sued for \$50,000 per officer that assists federal agents. There are also additional \$50,000 penalties for hiring an officer who previously assisted in enforcing federal gun laws. Please vote in opposition to this bill. Anything that serves to make it harder to track and confiscate illegally held weapons is wrong for our state. Pitting the federal and state officials against each other will only serve to break down important lines of communication which could lead to a rise in illicit gun use, violence, unregulated militias, etc.

I stand in firm opposition to HB 1175, which seeks to reenact portions of the Second Amendment Preservation Act (SAPA). While the bill’s intent to safeguard constitutional rights is commendable, its provisions are legally untenable, undermine public safety, and conflict with foundational principles of federalism. Below, I outline my objections grounded in constitutional law and practical consequences.

1. Violation of the Supremacy Clause HB 1175 explicitly declares federal firearm regulations “invalid” in Missouri, directly contravening the U.S. Constitution’s Supremacy Clause, which establishes federal law as the “supreme Law of the Land” . The Eighth Circuit Court of Appeals ruled SAPA unconstitutional in August 2024 for this very reason, noting that states cannot nullify federal law or obstruct its enforcement . By rehashing language already struck down, HB 1175 invites costly litigation and judicial rebuke, wasting taxpayer resources on a futile effort to defy constitutional hierarchy.

2. Undermining Law Enforcement and Public Safety This bill jeopardizes collaborative efforts between state and federal agencies. Columbia Police Chief Jill Schlude testified that SAPA forced the return of critical ATF technology used to trace firearms, hampering investigations into violent crime . Similarly, the U.S. Department of Justice highlighted SAPA’s disruption of joint task forces and information sharing, which are vital for addressing interstate trafficking and organized crime . By penalizing officers who cooperate with federal partners (via \$50,000 fines per violation), HB 1175 creates a chilling effect, leaving communities vulnerable .

3. Legal Uncertainty and Overreach HB 1175’s broad language—e.g., labeling federal taxes or registration requirements as “infringements”—ignores settled precedent. Courts have repeatedly upheld federal firearm regulations, such as the National Firearms Act, as constitutional under the Commerce Clause . Moreover, the bill’s attempt to invalidate federal law exceeds Missouri’s authority. As the Eighth Circuit emphasized, states cannot unilaterally declare federal statutes unconstitutional; that role resides solely with federal courts .

4. Contradictory Legal Defense Even Missouri’s own Solicitor General acknowledged flaws in SAPA’s original framework, calling its anti-federal provisions “toothless” during oral arguments . Reviving this legislation perpetuates confusion among law enforcement and citizens, exposing the state to liability. For example, the bill’s exceptions for aiding federal prosecutions of “ancillary” weapons violations are ambiguously defined, risking inconsistent enforcement and legal challenges .

5. Escalating Missouri’s Firearm Violence Crisis Missouri already suffers one of the nation’s highest rates of firearm-related deaths, including suicides and homicides . By obstructing tools like background checks and federal tracing systems, HB 1175 would exacerbate this crisis. Law enforcement leaders, including Lewis County Sheriff David Parrish, warn that such laws “create major obstacles” for officers combating crime . HB 1175 is a misguided attempt to address federal overreach through unconstitutional means. It jeopardizes public safety, invites legal chaos, and disregards judicial precedent. I urge this committee to reject the bill and instead pursue solutions that respect both constitutional rights and the

rule of law.

I have been practicing law in Missouri since 1978. Eight years of that practice was as an assistant circuit attorney in the city of St. Louis; four years were spent as the elected prosecutor in Wayne county. In my opinion and experience it is essential to have cooperation between law enforcement agencies to discourage and help prevent the use of guns in crimes. I am not anti gun. I have multiple shotguns, rifles, pistols, and revolvers in multiple guages and calibers. I have had my concealed carry license for many years. Responsible gun owners should unite against the irresponsible use of guns for the good of society and to distinguish us from those who give a bad name to all gun owners.

Gun regulations should be more stringent than they are on the state level in MO. I STRONGLY OPPOSE SAPA, in any form. This legislation is OPPOSED by law enforcement, this legislation negatively impacts law enforcements ability to investigate gun crimes, stops data sharing to solve crimes. Creates unnecessary confusion investigating criminal cases. While holding them financially responsible by FINES. Prosecuting gun crimes should not be made more difficult in Mo. or put women and families at a higher risk, law abiding gun owners are not being infringed upon, I would think they would encourage the full prosecution of those who commit gun crimes, and working to assist law enforcement instead of trying to tie their hands and hold them financially responsible. It's REPREHENSIBLE

This bill allows unlawful users of controlled substances, Individuals subject to certain domestic violence restraining orders, and some felons to be able to possess firearms. Seriously? You are allowing criminals to carry guns? What are you thinking? This puts everyone at great risk to their lives, including law enforcement who should not have to face down armed criminals who are carrying guns legally. The law's provisions are vague, making it difficult for officers to determine what conduct is prohibited, creating a legal and ethical minefield for Missouri law enforcement. You complain about crime, but then pass bills that give criminals legal access to firearms.

Please do not make law enforcement's job any harder. HB1175 will just make it easier for criminals, and the rest of us more likely to be victims. Law Enforcement officers need to be able to collaborate with Federal agencies in order to pout many "bad actors" away.

Missouri Republicans continue to pervert the meaning and intentions of the second amendment. For all the useless lip service they pay to “protecting women and children” when it comes to anything involving the LBGTQAI community, they sure seem to be perfectly willing to put everyone in danger with their reckless gun policies. It’s ridiculous that they continue to push these insane, mindless, senseless policies that will absolutely increase deaths in this state. The ability to own and possess a firearm is a right but also a responsibility that should be taken seriously - it shouldn’t be made more dangerous and lawless by ignorant fools playing pretend as lawmakers.

This bill, if signed into law, will bar local law enforcement from working with federal agents to enforce federal gun laws in Missouri. This would drastically impede the ATF's ability to investigate gun trafficking and other gun crimes in our state. Law enforcement agencies can be sued for \$50,000 per officer who assists federal agents. There are also additional \$50,000 penalties for hiring an officer who previously assisted in enforcing federal gun laws. This bill, if signed into law, would make gun violence even more prevalent in Missouri than it already is.

This is a terrible burden to put on the law enforcement agencies of Missouri. They are not hired, or trained and experienced in handling massive international crime rings. You are then asking these brave souls to take on human trafficking and massive security risks that our state does not have the resources to deal with safely. You are adding to their vulnerability, stretching their budgets and staffing away from local areas all to pretend your guns are not safe. Please worry about keeping our law enforcement heroes safe and maybe our children in schools, while you are making laws.

This bill will add to MO's weaknesses. It is a myth that "guns everywhere" make us safer. It is also inaccurate to say that 2A rights cannot be limited. Check out what SCOTUS Scalia had to say about that.

There is no way that HB1175 could make Missouri safer. Among other dangers inherent in HB1175, it would interfere with law enforcement's ability to defend and protect Missouri citizens. Passing bills like this only shows our Legislature's willingness to yield to a noisy minority of gun owners who claim there should be no regulations on gun ownership. Survey after survey show that responsible, mature gun owners are in favor of common sense regulations, including cooperating with federal law enforcement in efforts to reduce gun violence.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I **OPPOSE** the passage of HB 1175 out of the Missouri House General Laws Committee, in any form. I **OPPOSE** passage of HB 1175 by the Missouri House, in any form. Consider that part of the official summary of HB 1175 states "...all Federal Laws or regulations that infringe upon the Second Amendment will be invalid in Missouri." This statement is false and pure malarkey, in my opinion. This indicates that this bill will prohibit State and local law enforcement officers from assisting Federal law enforcement, even though further language in the bill summary tries to make exceptions for this. The exceptions are murky and will result in confusion for state and local LO departments thereby weakening the ability of those LO departments to do their jobs that protect Missouri citizens. HB 1175 attempts to nullify federal law enforcement in Missouri, which is unconstitutional and dangerous for Missouri citizens. No matter how one feels about Federal laws, Missouri can't just decide not to follow them. It is my understanding that many LE Agencies in Missouri don't support SAPA legislation. Missouri has some of most lax gun laws in the United States. The main cause of death for our children in Missouri is gun violence. The ease of access to guns in Missouri makes it easy for our children to die by guns. It seems like the Second Amendment is preserved enough in Missouri as it is. Look at this from the perspective of victims of crime, especially victims of domestic abuse, if HB 1175 were to become law. Missouri law **DOESN'T** prohibit the possession of firearms by domestic abusers convicted of misdemeanor domestic violence and/or are a subject of a full court order of protection, like Federal law does. (Why not pass a similar law for Missouri domestic abusers, by the way?) Don't you think it is a confusing, dangerous message to send to those domestic abusers who are convicted or bound by Federal law who may think that Federal law doesn't apply to them anymore because of the passage of HB 1175? Think of the potential harm and tragedy to Missouri families. Domestic abusers are **NOT** law-abiding citizens nor are they responsible firearm owners, if they harm or terrorize their families with firearms. I think HB 1175 will embolden and enable domestic abusers to continue their terror and harm. If Missouri LO departments can't enforce federal firearms laws concerning domestic abusers what recourse will domestic abuse victims have? Are there Federal law enforcement officers available in every county, city or jurisdiction to, as quickly as possible, respond to violations of Federal gun law by domestic abusers? I don't know the answer to this question. Do you? Have you truly thought through **ALL** of the consequences to **ALL** the citizens of Missouri by the passage of HB 1175 into Missouri law? Do you really want to chill the efforts of local and state law enforcement agencies from protecting victims and citizens from criminals here in Missouri – and even punish them for doing so? It seems like that's what HB 1175 purports to accomplish, so I **OPPOSE** HB 1175 and ask that you please vote to **OPPOSE** HB 1175 for legislative consideration, in any form.

As a Christian, I cannot, in good faith, support an act that seeks to so broadly restrict firearm regulations. My family hunts; we believe in responsible gun ownership. But there are definitely those that I feel, due to their actions, should not be able to wield a gun. If someone is charged with domestic violence, should they have access to firearms? I believe that there are actions people can take that, by virtue of refusing to participate in societal obligations to obey law and order, count as a knowing forfeiture of the ability to be trusted with firearms.

I am opposed to the law. Protection of children should take precedence over right to bear arms. Unlawful users of controlled substances, and Individuals subject to certain domestic violence restraining orders should not be provided the ability to have firearms, since they are more likely to use those weapons in a way that is dangerous to others. This bill undermines public safety by hindering law enforcement's ability to enforce federal gun laws.
