**I am in Support of this Bill and eliminating a Tax-Credit and Subsidy that really does not make sense.  
Why should we as a State and Missourians pay Property-Owners State Revenue to plant a buffer, act as  
a wind barrier or s Tree-Line?**

Working with landowners and farmers to implement techniques aimed and maintaining and restoring the ecologic value of the land, is exactly what Missouri should be doing. Due to climate change implementing sustainable practices is a way we can adapt to a more resilient method of food production. I urge the committee to give this legislation and do not pass recommendation.
