THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

Commity members,My name is Abigail Wiley. I live in Johnson County. I am a Christian, and as such believe that every life has value and should be protected. One of the greatest evils in our country is abortion, the intentional slaughtering of unborn babies, who are the most vulnerable members of our community. This bill, HB 195, will help to protect unborn babies in our state. I am in full support of this bill. Myself and many other Missourians will be watching closely to see the outcome of this bill, and will be keeping track of those who support the bill and those who oppose it. Abortion, just as slavery was once was, is unpopular to oppose. Now however, those who supported slavery are rightly seen as evil. Those who opposed it are recognized as the heroes they are. The same will be said of abortion. My hope is that we will be on the right side of history. The blood of innocent babies will be on your hands if you fail to do your part to protect them.

Any child born alive during or after an abortion is a person whose life is to be protected by all in the medical community. To fail to do so is to violate the calling of a health professional to preserve and protect life. No child should be neglected or "left to die" and to do so is to murder that child, an egregious offense. The child who is a result of a failed abortion should be given the same treatment as one born alive in normal circumstances.

My name is Holly Schmitz. I am a Believer in Christ, a mom of 4, a Nana of 3, a Johnson County Business Owner, Insurance Agent and am involved in local politics. I am submitting my testimony today in Support of HB 195, "The Born Alive Abortion Survivors Protection Act.". It is unthinkable that anyone, any American Citizen, would have to provide testimony to attest that the life of a child has value. Of course the life of a child, a born baby, an unborn baby, a fetus, no matter what that baby is called...it is still a baby...it is still a LIFE and HE or SHE is Valuable and Precious beyond measure. Most importantly, God tells us in his Word in Psalm 139, that He formed each person as a baby in his Mother's womb. David writes in Psalm 139, "For You formed my inward parts; You covered me in my mother's womb. I will praise You, for I am fearfully and wonderfully made;...My frame was not hidden from You, when I was made in secret..."Also, as stated in our United States Declaration of Independence, in the second paragraph of said document, it states, "we hold these truths to be self-evident, that all Men are created equal, that they are endowed by their creator with certain inalienable Rights, that among these are Life, Liberty and the Pursuit of Happiness." Therefore in Scripture and also in our very own Country's Declaration of Independence, LIFE is sacred and God has endowed every person these listed Unalienable Rights which includes Life, Freedom (liberty) and the Pursuit of Happiness. So, the question remains, how would allowing someone, anyone to kill a child, AFTER, he or she has hopefully survived the most horrendous procedure and pain of an attempted abortion, be allowed??! Absolutely NOT! My husband, Brian, and I fully support HB 195...and reiterate that every life is VALUABLE, PRECIOUS, AND A GIFT FROM GOD AND MUST BE PROTECTED AT ALL COSTS. PLEASE, I beg u to protect these tiny souls, if they survive abortion, and mandate that all Health Care Providers must do whatever it takes to protect and care and transport these babies to get life saving care. Thank u.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The Missouri Catholic Conference supports the General Assembly's efforts to protect the life of the most vulnerable among us. To this end, we urge the committee to support HBs 195 and 1119. This should go without saying, but no newborn should be left to suffer or die without medical care. Whether the child receives care after birth should not be determined by whether he or she was wanted. Current law provides no specific mechanism for holding an abortionist accountable if he denies care to babies who survive abortions. These bills clarify the penalties for a doctor that fails to provide the proper level of care, or who knowingly causes the death of a born child. HBs 195 and 1119 would provide more concrete protection for those children that survive abortions and as such, we recommend the committee vote DO PASS.

My son was born with a spinal issue. The doctors told us to abort him at 5 months into the pregnancy. The original diagnosis that led the doctors to recommend abortion was incorrect. Although he has faced many challenges, his light and love for others is helping change our world. Without these bills it could lead to kids like him being killed at birth. I support this legislation.

It is inconceivable for me to think that children who survive an abortion would then be left to die on a table. This is barbaric and needs to be stopped. This bill is necessary for the protection of innocent children who survived a botched or attempted abortion. I have personally met a person who survived an incomplete abortion and now spends her life fighting for other children in her same predicament. Thankfully, we are hearing these stories and can understand the atrocity of allowing a child to die without providing necessary care just as any other person or child has the right to receive. Please pass this important legislation out of committee and support this bill on the house floor. Innocent MO children are counting on you to protect their right to life. Thank you!

I am a birth mother x 2, having years later met and now in relationship with both of my birth children. They both had extraordinary lives with their adoptive parents and families and are now very close to my own two children that I raised with my husband. Their lives were worth it all. In addition, I was the former director of clinic services of 2 life-affirming pregnancy clinics next door to Planned Parenthood. We heard hundreds of stories firsthand of the 'sales pitch' rush to abortion from PP. Of their sorrow and intense, often life altering regret that came after ending the life of their baby. This organization and other abortion clinics profit off death. They profit off a completed abortion, not one that produces a live baby. I have heard many stories from nurses who volunteered with us, that were told to leave babies in waste closets or back rooms so they can die. Please support life saving measures for the innocent unborn. My birth daughter has said, and now I pass along to you, "Thank you for thinking that my life mattered".

Any child born alive clearly falls into class as a "PERSON" and should have all the protection as any other person under the Constitution. Any taking of a live person's life is already protected by present felony law. Regardless how the person got to be a person (normal live birth, failed abortion, etc.), the child with the first breath is a person and has all the rights under present health care laws.

The truth is in the fine print—and it could create legal loopholes that undermine existing protections for the unborn! Missouri law ALREADY recognizes life at conception—so why are legislators muddying the waters? Add this amendment to protect Missouri's unborn: "Nothing in this section shall be construed to diminish, alter, or impair the legal status, rights, or personhood of unborn children as recognized under Missouri law, including but not limited to Chapter 188, RSMo. The provisions of this section apply in addition to, and not in limitation of, the legal protections afforded to unborn children under state law."

Thank you, Chairperson Stinnet and committee, for bringing these bills up for a hearing. I would like to encourage this committee to heartily “vote do” pass on these wonderful pieces of legislation. I say wonderful, because if passed and finally agreed this will literally save the lives of Missourians. But it is also tragic in that we even need to be having this conversation. I never cease to be stricken by how many people out there think it is okay to deprive others of personhood and even life itself. In America’s past there were those who considered persons of a particular race to be less than human. They were slaves, owned as property of others. They could be killed by their masters and no one thought anything of it. They often were not killed by their masters because of the economic impact that would have had – there was a financial incentive to keep them alive and perhaps sell them off to someone else. But they were not valued as persons, and their life was not considered an inalienable right. Fortunately – though there is still some work to do - we have corrected that error in our nation’s past. More recently the nation of Germany – in the 1930’s and early 40’s – considered Jews to be less than human, deprived of personhood, and even considered “vermin”. Fortunately, the world – led the United States of America – put a stop to that by defeating the Nazi’s in WWII. But here in 21st century America there are many who consider babies as less than human, deprived of personhood, and regulated to being nothing more than a clump of cells. Deprived of their inalienable right to life and liberty. Some would go so far as to say that babies are “vermin”, posing health risk to their own mothers. And tragically, they are often seen as not being financially viable. There are children dying not because of their race or ethnic heritage, but simply because of their age or the fact that they are unwanted by their parents. Though the Romans claimed to be civilized, they were the true barbarians. In the Roman culture if a baby was unwanted, they would simply take them to the dump and allow them to die by “exposure” – the heat of the sun, the cold of the night, the hunger, the rodents . . . the child would soon die of neglect. Thankfully, with the spread of Christianity and its unwavering commitment to the sanctity of all human life, that practice ended and the culture began to find ways to care for these unwanted children. To say that these children that survive an abortion are unwanted and should be discarded is a farce! They may be unwanted by their mother, but there are approximately 2 million families in the US today who would like to adopt a baby. Rather than killing our children we need to be working on a way to make adoption more accessible. Finally, let me ask a simple question . . . if we can allow an infant who just survived an attempt to kill it to die, then will it be okay to allow a 6 month old baby to die if they are unwanted? What about a 2 year old – they can be pretty challenging too, you know....or a 13 year old? Man! There are times when every parent has been tempted, right? Or what about an old man sitting before you making some of you uncomfortable by my forthright discussion of the fact that every human life is valuable and is to be protected with the same passion and vigor and attention as every other human life. Are we going to strive to be better than the Romans, better than our American forefathers, and better than the Nazi’s? Are we going to rise above the past evils of

humanity, or are we going to join them in their atrocities? I expect a unanimous vote of "do pass" on HB195 and 1119.

This is a good bill on it's intention but there needs to be further safeguards in place. To prevent from future misinterpretation or misapplication of MO law , I believe this bill needs to include language referencing RSMo 188 which has similar language protecting the unborn.Please consider including language such as:"Nothing in this section shall be construed to diminish, alter, or impair the legal status, rights, or personhood of unborn children as recognized under Missouri law, including but not limited to Chapter 188, RSMo. The provisions of this section apply in addition to, and not in limitation of, the legal protections afforded to unborn children under state law."

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Rabbi Ze'ev Smason, resident of St. Louis, MO. I serve as the Chairman of the Coalition for Jewish Values (CJV) Missouri, as well as the Midwestern Regional V.P. of the CJV - National. I represent over 2500 Orthodox rabbis in matters of Jewish/Biblical values and ethics in matters of public policy. My views are also representative of a significant segment of the national and Missouri Jewish population who self-identify as Orthodox or who adhere to traditional Jewish/Biblical values. I all decent people wholeheartedly support the protection of those who are most vulnerable citizens. My religious values -- and the values upon which our country and the great state of Missouri were founded upon -- recognizes that human life begins long before a child emerges from its mother. Rather than euphemistic term 'fetus', we recognize that a pregnant woman is carrying an 'unborn child' -- a child that is most vulnerable, and must be protected to the full extent our legal system is capable of extending it protection. Therefore, I enthusiastically support HB 195.

Bill HB 195 conflicts with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters soundly approved on November 5, 2024. A woman must be able to rely on the expertise and judgement of her doctor to make timely life-impacting decisions, including those involving a non-viable pregnancy. The state has no such expertise or judgement to opine on individual, time-sensitive decisions. State involvement outlined in this bill only adds devastation to an already devastating time for a woman. I strongly OPPOSE HB195.

This bill along with HB1119 are in conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on Nov 5, 2024. These bills inject the state into decisions on medical care without taking into account non-viable pregnancies. They intrude into a woman's medical decision-making with her health care providers. They deny the mother's right to hold and comfort her infant after birth until it dies following an abortion or birth of a fetus with a medical condition doomed to fetal demise. Stay out of women's health care decisions like the citizens of Missouri voted and asked you to.

I am a Missouri Resident and constituent of Missouri's 5th Congressional district and I ask the committee to vote in opposition of this bill. The people of Missouri voted on the issue of abortion and the value of privacy regarding individual reproductive healthcare last year and it is unconstitutional to dismiss and bypass the voice and votes of the people. Passing this bill would set a precedent that the votes and will of the people in Missouri do not hold value and do not matter. I ask that you all do the jobs you have been voted by your constituents to do and represent the will of the people who you work for and represent.

Our Missouri laws already state that life begins at CONCEPTION not birth. The preborn are alive as any mother who has carried a child can attest to. These innocents deserve the FULL PROTECTION our state can offer. If our lawmakers had done their job and passed OP Reform we wouldn't be in this mess created by out of state money and influence!influence. PLEASE PROTECT THESE INNOCENT LIVES!

Please stop trying to subvert the will of the people. Missouri citizens voted to protect the reproductive rights of women, and this includes abortion/miscarriage care. The IP process took lots of time and culminated with an election. Respect the will of the people.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

My name is Elizabeth Franklin, Plattsburg MO and I am submitting the following in strong opposition to HB 195. Amendment 3 passed by more than 95,000 votes on 5 November 2024, a clear mandate by citizens of MO that we want the right to make reproductive decisions among our family and loved ones, our doctor, faith leaders and NOT the government. This is settled, the inability to accept and move forward on this issue is unfortunate. As discussed in detail in the hearing, there are both federal and state laws which protect infants once born and need immediate care to survive. This bill is duplicative and unnecessary to do what the sponsors claim it will do. Voters were not confused about Amendment 3 and no legislator should claim this without facts. All the hand-waving does not change the reality that no facts have been presented. Moreover, this bill adds the extra humiliation of denying a mother's right to hold and comfort her newborn until death for an infant with a medical condition doomed to fetal demise. Certainly not a time they want you, the legislators, in their most personal business. The sponsor and supporters are in the minority on this issue and you need to accept the will of the people and move on. The sponsors are not experts and the hearing discussion today was unfortunate listening to them squirm on details they were clearly not qualified to discuss. Amendment 3 passed with a margin of 3.2% (51.6% to 48.4%), that is not close. Your job is to represent your constituents and then uphold the results of all citizens in statewide elections and accept the will of the people. You should be ashamed; this HB is an embarrassment.

My name is Emily, and I oppose HB 195. Missourians voted to enshrine reproductive rights in our constitution. HB 195 is a clear reach to undermine that democratic process, which is by definition unconstitutional. Any and all attempts to overturn or restrict abortion rights must be swiftly and permanently abandoned. To Seitz, Jones, and all other supporters of abortion restrictions, you must remember that your job is to listen to the will of the people and create laws that serve us. Our will is clear: Abortion Rights and Reproductive Rights are to be mandatorily protected by our constitution. Seitz and others, you were entrusted with this position by Missourians who believed you were up for the job. We won't make the same mistake again.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

This bill violates the protections provided to healthcare professionals by the Missouri Constitution: Full Text of Amendment 3 NOTICE: The amendment revises Article I of the Constitution by adopting one new Section to be known as Article 1, Section 36. Be it resolved by the people of the state of Missouri that the Constitution be amended. Section 36.1. This Section shall be known as "The Right to Reproductive Freedom Initiative." 2. The Government shall not deny or infringe upon a person's fundamental right to reproductive freedom, which is the right to make and carry out decisions about all matters relating to reproductive health care, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care, and respectful birthing conditions. 3. The right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted unless the Government demonstrates that such action is justified by a compelling governmental interest achieved by the least restrictive means. Any denial, interference, delay, or restriction of the right to reproductive freedom shall be presumed invalid. For purposes of this Section, a governmental interest is compelling only if it is for the limited purpose and has the limited effect of improving or maintaining the health of a person seeking care, is consistent with widely accepted clinical standards of practice and evidence-based medicine, and does not infringe on that person's autonomous decision-making. 4. Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after Fetal Viability provided that under no circumstance shall the Government deny, interfere with, delay, or otherwise restrict an abortion that in the good faith judgment of a treating health care professional is needed to protect the life or physical or mental health of the pregnant person. 5. No person shall be penalized, prosecuted, or otherwise subjected to adverse action based on their actual, potential, perceived, or alleged pregnancy outcomes, including but not limited to miscarriage, stillbirth, or abortion. Nor shall any person assisting a person in exercising their right to reproductive freedom with that person's consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so. 6. The Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so. 7. If any provision of this Section or the application thereof to anyone or any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby. 8. For purposes of this Section, the following terms mean: (1) "Fetal Viability", the point in pregnancy when, in the good faith judgment of a treating health care professional and based on the particular facts of the case, there is a significant likelihood of the fetus's sustained survival outside the uterus without the application of extraordinary medical measures. (2) "Government", a. the state of Missouri; or b. any municipality, city, town, village, township, district, authority, public subdivision of public corporation having the power to tax or regulate, or any portion of two or more such entities within the state of Missouri.

This bill **MUST** include the following language to re-affirm the fetal personhood already recognized in Missouri law under RSMo. 1.205--otherwise, the implicit reference to being "born-alive" as when the legal rights of a person kick in could be detrimental and used in litigation by pro-abortion advocates. Please, consider adding the following language as an amendment to the bill's language, after which I would support: "Nothing in this section shall be construed to diminish, alter, or impair the legal status, rights, or personhood of unborn children as recognized under Missouri law, including but not limited to Chapter 188, RSMo. The provisions of this section apply in addition to, and not in limitation of, the legal protections afforded to unborn children under state law"."

Representative Stinnett and Health and Mental Health Committee, I am voicing my opposition to HB195 which requires a health care provider to exercise the same degree of care to preserve life for an infant born alive after an abortion. This bill is cruel and inhumane to the mother and the infant who is aborted due to a condition incompatible to life. Often these conditions are not discovered until late in the pregnancy. Compassionate medical care allows the mother to hold and comfort her infant after birth until it dies. This bill denies that comfort to the mother and baby by demanding immediate NICU care. It denies health care providers from making a compassionate choice, requiring them to transport the infant to a hospital for expensive care that will not preserve the life of the infant, rather than allowing the baby to die in comfort.

This goes against amendment 3 which was voted and passed by the majority and will of the people. I believe it also infringes on the rights of the woman to make healthcare decisions with her provider and can create undue emotional and psychological stress, financial burdens, and unwarranted care to extend pain and suffering both for the mother and fetus. I have helped mothers as a nurse when they held their baby post delivery when there was no chance for life. It's an emotional and painful experience but one that should be as loving, calm, and supportive as possible. Please stop pushing beliefs on Missourians that have already said they don't want their rights taken away.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I urge you to oppose HB 195 (Seitz) and HB 1119 (Jones). The offensively named ‘born-alive’ legislation is another cruel and misguided attempt to interfere with evidence-based medical decision making between patients and their physicians. These bills are not based in science or medicine. They are meant to incite emotions, rather than reflect the reality of evidence-based clinical care. These bills, if passed, will harm families and hinder the ability of physicians to practice such evidence-based medicine. These reckless bills would impede families from making significant quality-of-life decisions, such as being able to provide comfort or spiritual care in tragic and painful situations. Abortions later in pregnancy are the result of complex decisions, and patients make these health care decisions thoughtfully, carefully, and painstakingly. These incredibly difficult medical decisions should be made by patients in consultation with their physicians and without any external interference. Instead, these bills take decision making out of the hands of families in crisis and limit the freedom of patients to make the decisions that are right for them. Laws that ban or criminalize evidence-based care and rely on medically unsupported theories and misinformation are dangerous to families and their clinicians. These bills negatively affect all obstetric and gynecologic care. I urge you not to pass these misguided bills, which would limit the ability of doctors and physicians to do their jobs and provide compassionate, evidence-based care to their patients.

I ask that you show some kindness and empathy to all citizens of our state by providing complete reproductive health care in Missouri. Disregard your personal views on abortion and recognize that abortions have occurred for centuries. It is your job as a state legislator to protect the health and welfare of Missouri's citizens. Restricting birth control and safe abortion access, whether through fear tactics or simply shuttering reputable, affordable medical clinics and pharmacies, endangers some of our most vulnerable citizens and ultimately places greater burdens on our state healthcare system. Attempting to create laws that criminalize women's reproductive care and its providers by hiding language at the end of long house bills with sensationalized titles such as those of HB195 and HB 1119 is deceitful and abhorrent. A woman's health care should be between her and her medical professional and not limited by the government. Please defeat any and all proposed anti abortion legislation that may be considered! Defeat HB195 and HB1119

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Chair, Vice-Chair, members of the committee, thank you for the opportunity to submit testimony on behalf of Abortion Action Missouri in opposition to HBs 195 and 1119 which seek to impose cruel and politically motivated interference upon families experiencing pregnancy loss. When people are making difficult, complicated, personal decisions about pregnancy, one-size-fits-all policies don't work. Every pregnancy is unique and deserves unique and compassionate care. If these bills were to become law, parents and doctors already facing the devastation of pregnancy loss will have absolutely no say in how the last few minutes or hours of their child's life will be spent. Decisions about palliative care should always be left up to families, doctors, and loved ones– not politicians. Infants with a few moments, hours, or days to live would be taken out of the arms of their parents, hooked up to loud machines, and forced through painful and unnecessary medical procedures that only prolong suffering. Politicians shouldn't force painful medical interventions on families who are trying to peacefully say goodbye to a child who cannot survive. If this becomes law, parents and doctors will have absolutely no say in how the last few minutes or hours of their child's life will be spent. These families are making the best decisions they can in heartbreaking circumstances. Parents facing these situations often want to spend this very limited time with their infant comforting them as a family. The disinformation perpetuated by these bills vilifies families and the doctors who care for them and wildly misleads the public about these rare and complicated scenarios. Parents and doctors should have the freedom to exercise their best judgment regarding the care and comfort of their loved ones. The legislative interference proposed in this bill would only serve to further traumatize Missourians who are facing very personal and intimate tragedy. Missourians do not support political interference in access to abortion, or any pregnancy care. 1,538,600 Missourians turned out to the polls and VOTED YES to putting decisions about abortion, pregnancy, and all sexual and reproductive care back where they belong, in the hands of the people and families of our state. As the dually elected representatives of those very same voters it is your job to uphold and defend the promise of Amendment 3. Abortion Action Missouri, representing more than 80,000 Missourians across the state, opposes the advancement of HBs 195 and 1119 and urges you to vote NO. Thank you. Abortion Action Missouri works to protect and expand every Missourians' right to bodily autonomy, to access essential reproductive healthcare including abortion care, to access accurate information to make the best decisions for ourselves and our families, and to parent our children in safety and dignity.

HB195 would inject the state into the decisions of women and medical professionals and threaten them with prosecution, which is specifically prohibited by the Reproductive Freedom Amendment passed in November 2024. The bill does not take into account appropriate medical care for non-viable pregnancies, and could deny the mother's right to hold her infant born with a hopeless medical condition. Please oppose this unnecessary and unconstitutional bill.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

House Committee on Health and Mental Health February 4, 2025 Testimony to Oppose HB 195 and HB 1119 Planned Parenthood Great Plains Votes (PPGPV) vehemently opposes HB 195 and HB 1119, which in action would unconstitutionally ban abortion for some patients in the state and criminalize individuals who assist a pregnant person in obtaining an abortion. These bills, referred to as the “Born-Alive Abortion Survivors Protection Act,” are disingenuous in nature, as they attack a pregnant person’s access to reproductive freedom and further politicize access to abortion in Missouri by using inflammatory language, without any basis in science or reality. These bills not only attempt to criminalize abortion but also imply that medical professionals are not providing care that meets appropriate medical standards. These claims are blatantly false, and the language contained in these bills is meant to stoke rage and fear of actions that are simply not occurring. These bills advance false narratives about abortion and impose mandates designed by politicians instead of doctors. This not only interferes with medical practice but denies physicians the ability to provide the care that is necessary, compassionate, and appropriate under complex circumstances. Abortion providers are already required to comply with existing medical laws and standards of care, just like other medical professionals. These bills seek to inject politicians into patient-provider relationships, disregarding providers’ training and clinical judgment and undermining their ability to determine the best course of action with their patients. The law cannot account for every potential complication in pregnancy and should not require specific medical care for all situations. Care offered to patients later in pregnancy involves a team of specialists who are experts in the provision of care and support of families in extremely difficult circumstances. The legislature’s attempt to confuse and upset Missourians at the expense of patients is deeply alarming. The legislation is offensive to pregnant people and the medical professionals who provide their care and could have devastating impacts on families experiencing complex pregnancy outcomes. These bills, if codified, would give a right of action for a wrongful personal injury, bodily injury, or wrongful death against abortion providers and pregnant people who obtained an abortion, by someone with familial ties to the fetus. This has far-reaching implications as it would allow people to attack providers and provide a new avenue for abusive partners to harass and surveil their victims. Each year, approximately 500,000 women are physically assaulted or raped by an intimate partner; three out of 10 women at some point are stalked, physically assaulted, or raped by an intimate partner.¹ Missouri should be protecting people who can get pregnant from their abusive partners, not providing abusers a path to continue attacks on someone that they may have raped, stalked, or otherwise abused. In November 2024, the majority of Missourian’s voted to ensure that the “right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted.” This constitutional amendment, known as Amendment 3, would override the provisions of this bill if it were to become law, as the highest legal authority in the state. This is just another attempt to create a political opportunity to drive a false narrative to stigmatize reproductive

health care. For these reasons, we firmly urge the Committee to hold bills HB 195 and HB 1119. For more information or any questions, please contact: Maria Morrissey, Director of Legislative Affairs and Organizing, Planned Parenthood Great Plains Votes at maria.morrissey@ppgreatplains.org (573) 500-2686.(1) Martin R. My name is Patricia Jones, St. Louis, MO. Please vote against HB195 and 1119 because: These bills are in conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on Nov 5, 2024. These bills inject the state into decisions on medical care without taking into account non-viable pregnancies. Intrude into a woman's medical decision-making with her health care providers. Deny the mother's right to hold and comfort her infant after birth until it dies following an abortion or birth of a fetus with a medical condition doomed to fetal demise

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Testimony on HB 195 and HB 1119 Feb 4, 2025| submit this testimony in opposition to HB 195 and HB 1119 for the following reasons:• These bills conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on Nov 5, 2024 • These bills inject the state into decisions on medical care without considering non-viable pregnancies. • These bills intrude upon a woman’s medical decision-making with her health care providers. • These bills deny the mother’s right to hold and comfort her infant after birth until it dies following an abortion or birth of a fetus with a medical condition doomed to fetal demise. A beating heart does not always signal fetal viability. This bill shows no compassion for mother or baby and I urge the committee to reject it.

Please amend this bill to recognize and affirm that this will not diminish or limit the protection and rights of the unborn as established in Missouri state law. I support raising and widening the legal penalties for abortions, but I believe some of the bill's language as is could confuse the legally defined concept in Missouri that life begins at conception.

This is a Big Brother is watching you bill. Medical professionals should be trusted to do their job to the best of their ability without concerns of begin prosecuted. Not all children born "live" from an abortion are viable babies. Their demise in some cases might be unavoidable. These threats to doctors and other medical professionals is insulting and undemocratic.

I, Ruth Milledge of Columbia, Mo 65203, respectfully write to oppose this bill which is in conflict with the Reproductive Freedom Amendment passed by voters last November, especially with the protections for medical professionals provided for in the amendment. It would cruelly deny a mother her right to hold and comfort her infant after birth until it dies following an abortion or birth of a fetus with a fatal medical condition.

The terminology for "born-alive" does not provide enough detail on what constitutes as "alive" there for anything removed from a person, regardless if the mother's heartbeat is still attached to it, in the stated procedures would be considered "born-alive" effectively banning the ability for Missouri residents to receiving necessary medical care.
