New gun control laws only further disarm law abiding citizens, and infringe on our 2nd amendment rights. It does nothing to keep people who have no respect for the law from breaking more laws. I am staunchly opposed to red flag gun laws, which is why I support both HB 434 and HB 459.

As an elected sheriff, in my opinion, I'm opposed to confiscation of firearms from law abiding citizens without due process of law. I will be the first to say that in our State, along with many others, our lack of proper mental health programs and proper treatment of mental health disorders are a serious problem. In my experience, what we need to be addressing, providing mental health treatment to those who need it and enforcing current existing criminal laws to those who pose violent threats to others with threat of firearms.

Hello Our 2nd amendment right per the US Constitution is a sacred trust to the citizens of this Republic. Continuing our states unique SAPA laws is a foundation for the Republican party. HB 434 and HB 459 will strengthen our SAPA laws and further solidify our constitutional right to bear arms. I ask that the committee give a "DO PASS" of these bills to go to the House floor for a Vote. Thank you for your thoughtful consideration of these bills. Sincerely, Melissa Thomas

I strongly support this legislation. The anti-gun lobby and leftist organizations push Red flag laws as a way to diminish our 2nd Amendment rights. This legislation combats such efforts by prohibiting state agencies, political subdivisions, and law enforcement from enforcing federal or state red flag laws. It also prohibits the State from accepting Federal Funds that are appropriated for enforcing such red-flag laws.

Red Flag Laws make no sense. If a person is believed to be a danger to him or herself, taking away their firearms does not remove that danger. To truly remove the danger, the subject would have to be incarcerated or confined to a mental health facility. Without due process, none of this makes sense. Every Red Flag Law I have heard of does three things: 1) They deprive the subject of their Second, Fourth, and Fifth, Amendment rights under the U.S. Constitution. 2) They do not contain punitive provisions for frivolous claims. Someone could initiate such action to satisfy a grudge or get revenge on the subject. 3) It also is problematic when the subject is living with a spouse or other family member that also owns firearms. All the firearms are taken, depriving admittedly innocent people of their constitutional rights. I strongly urge you to pass this bill out of committee.

I write in strong opposition to the proposed gun laws, HB328, HB434 and HB459. My husband and I are both gun owners. I come from a long line of hunters and military. I support common sense methods to prevent gun violence. I do NOT support these measures which will further endanger the people of Missouri. Please vote NO. It is critical that law enforcement have access to federal funds to enforce state statutes or red flag laws, and continue to protect the people they protect. HB 459 will have a negative effect on the safety of Missourians, and financially burdens law enforcement.

Florida has a Risk Protection Order setup in response to a school shooting in Parkland. Indiana has a red flag law, as do at least 20 other states. The law allows law enforcement to \*temporarily\* relocate firearms when people are deemed dangerous or at risk of harming themselves or others. But my home state of Missouri is in a race to ensure our school shooters and wife beaters who have been before a judge can hold tight to their lethal weapons? Stop!

I ask the committee to not move forward with this bill because this will remove a safety mechanism in our society that aids in safety of the individual owner of a gun and those around them when they are a danger to themselves and others.

I strongly oppose HB 459, which would block enforcement of federal red flag laws in Missouri. These laws help prevent gun violence by allowing temporary firearm removal from individuals who pose a serious risk. Prohibiting red flag laws puts public safety at risk, limits law enforcement's ability to prevent tragedies, and removes a critical tool to stop violence before it happens.

All of these proposed bills greatly endanger the citizens of Missouri by negligently increasing the volume of weapons on the streets. There is no telling how many lives are at risk in both acts of violence and suicide for those who would have been protected by Red Flag Laws. These are crucial to responsible gun ownership.

I am a survivor of domestic violence who is only too happy that my abuser did not have a gun the day he attacked me (fists and knife). I was able to run and escape, which probably would not have been the case if a gun were present. We need red flag laws to protect domestic abuse victims (mainly women and children) from men in mental or addictive crisis.

I oppose this bill. My first husband suffered from a mental illness. He was fine until he wasn't. Sometimes he turned inward and attempted suicide.. Other times he turned outward with violent words and emotional abuse but always I worried was THIS the time that he'd cross the line and become physically violent. I ALWAYS had to hide the weapon we had in our house. I would have felt much more secure if I could have had a legal means to confiscate his weapons when he wasn't safe. I know proponents say that the words "shall not be infringed" is absolute but the 15th says essentially the same thing: shall not be denied or abridged and the same people who cry about the 2nd amendments work hard to deny and abridge voting rights. It is common sense.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

Extreme Risk Protection –or Red Flag– laws are critical life saving tools that help keep firearms out of the hands of people who pose a danger to themselves or others. MO doesn't have red flag laws in place, keeping guns in the hands of dangerous people. Republicans claim to care about the safety of women. Anti-red flag laws will cause further harm and pose a significant danger to Missouri women leaving abusive partners.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

It has been shown time and time again that states with fewer restrictions on firearms suffer from more gun violence. Red Flag laws are simply common sense. Why in the world would you let someone with violent tendencies have a gun? Missouri's nullification law and lack of a red flag law also directly contributed to the shooting in 2022 at Central Visual and Performing Arts High School. Let's use all of the tools we have to reduce gun violence. Stop the killing.

Extreme Protection Orders had been shown to reduce gun deaths, especially gun suicides in Indiana, Florida, and other states. These laws have many protections for Second Amendment Rights built into them. They are a tool that law enforcement officials can use in exceptional cases to reduce the likelihood of gun deaths. MO legislators should have the right to consider implementing a Red Flag Law in our state in the future.

Red Flag laws are critical to protecting vulnerable people from those who have committed crimes and should not have access to guns. Allowing people who have committed crimes to have access to guns makes no sense. I come from a family of hunters. We were taught to respect guns and that means not using them to hurt or intimidate another person. Guns can be safely used but not if they fall into the wrong hands. Please protect your constituents and keep Red Flag laws in place.

Please do not pass HB434. The MO legislature denied my family a red flag law when we needed one. Because we didn't have legal access to remove my father's gun when he was despondent, he didn't know my daughter and grandchildren and I were on our way to see him that morning. He killed himself just hours before we arrived. If my lawmakers allowed me to work with my local law enforcement to temporarily remove his gun, he would not have died that day, and he would have lived to celebrate Father's Day with us the next week. Your laws decide who dies, when, and how. Your law decided my dad, suffering from depression, would die that day, instead of living to see his granddaughter born 2 months later. Red flag laws save lives. Please allow red flag laws to save families from tragedies like mine.

I am strongly opposed to passage of this harmful bill that will only further weaken our already weak gun laws. This law takes away protections for people who are in danger in their own homes from family members who are past violent offenders or those in mental health crisis. We need red flag laws to keep firearms out of the hands of those who should not have them.

I am a resident of Missouri in St Louis County. The HB459 - an Anti - Red Flag Gun Seizure Act - ignores the benefits of this law. Red Flag Laws or Extreme Risk Protection laws are critical life saving tools that help keep firearms out of the hands of people who should not have them. The school shooting at the St Louis School (CVPA) would have been prevented if this law was in place. Missouri's rate of gun deaths has increased 59% from 2012 to 2012 (compared to 33% increased nationwide. I urge the House to vote NO on HB459.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

Red flag laws, also known as extreme risk protection orders, allow for the temporary removal of firearms from individuals deemed to pose a significant risk to themselves or others. These laws are designed to prevent potential tragedies by enabling timely intervention when individuals exhibit dangerous behaviors. By prohibiting the enforcement of red flag laws, HB 459 could hinder efforts to avert incidents of gun violence, including suicides and mass shootings. Empirical evidence from states with red flag laws indicates a reduction in firearm-related deaths, suggesting that these laws are effective tools for enhancing public safety. Furthermore, red flag laws provide law enforcement agencies with a legal mechanism to act upon credible threats. Without the ability to enforce these laws, officers may be left without options to prevent foreseeable acts of violence. HB 459 could thus impede law enforcement's capacity to protect communities effectively. In conclusion, opposing Missouri House Bill 459 is essential to maintain and enhance public safety, empower law enforcement, and protect vulnerable individuals. Red flag laws are a critical component of a comprehensive strategy to reduce gun violence and save lives.

Red flag laws allow LEOs to temporarily remove guns from those who are deemed to pose a risk to others. To me, it seems little different from a judge's ordering of pretrial detention of a suspect. Not everyone who owns a gun, is a good guy. Let's allow our brave LEOs to do their jobs to protect the public.

Please oppose this bill since Red Flag laws are an important tool to prevent gun violence. After Indiana passed their law, gun suicides decreased significantly because families were able to use the law to remove firearms from their suicidal loved ones. Suicide affects all of us regardless of race or income. Each state sets it own parameters according to what they are comfortable with. A hearing must occur before any firearms are removed. After treatment, another hearing is held and the firearms can be returned. Please oppose this bill and help families prevent deaths from gun suicide.

Unless you would leave your child, or loved one in a room with someone deemed “mentally unstable” with a firearm, then I suggest you learn how to write legislation. This is so dehumanizing to anyone affected by gun violence, you are actively telling us how much you don’t care. If Transgender people can no longer serve in the military because they are now being considered “mentally ill” by our felon president, than i see no reason why a person found mentally unstable would be able to have access to guns. If our officials think “mentally ill” means you can’t serve your country than one can certainly conclude one shouldn’t be allowed to have a gun by the same logic. If one were reported for their behavior in regards to owning a gun, they were reported for a reason, they are not fit to have a firearm. This is for a clarification however no medical data points to Transgender being a mental illness, these are simply normal people who should be free to live their lives in peace from transphobic legislation.

I oppose this bill because it allows guns in the hands of those that should not have firearms. Missouri's nullification law and lack of a red flag law directly contributed to the shooting in 2022 at Central Visual and Performing Arts High School, as the shooter's family pleaded with law enforcement to remove the shooter's firearms when they noticed warning signs. Police said they felt powerless to remove the shooter's gun because under Missouri's nullification law they would be penalized for assisting in the enforcement of a federal gun law. Because Missouri lacked a red flag law, police were unable to directly petition a court for an order requiring the temporary removal of firearms in that situation.

Extreme Risk Protection—or Red Flag—laws are critical lifesaving tools that help keep firearms out of the hands of people who should not have them. As the daughter of an avid hunter and responsible gun owner, I was raised to respect firearms and the second amendment. At the same time, I believe it is our duty to pass common sense laws where public safety is concerned. We are all aware that Missouri's nullification law and lack of a red flag law directly contributed to the shooting in 2022 at Central Visual and Performing Arts High School, as the shooter's family pleaded with law enforcement to remove the shooter's firearms when they noticed warning signs. Police said they felt powerless to remove the shooter's gun because under Missouri's nullification law they would be penalized for assisting in the enforcement of a federal gun law. Because Missouri lacked a red flag law, police were unable to directly petition a court for an order requiring the temporary removal of firearms in that situation. Missouri's rate of gun deaths has increased 59% from 2012 to 2021, compared to a 33% increase nationwide. This means that in 2021 there were 532 more gun deaths than in 2012. We can and must do better. I strongly oppose HB 459 and I hope you will too.

Red flag laws support the mental health and safety of the community. Studies from other states have shown that red flag laws have been successful in reducing the rate of suicide. According to our own MO Department of Mental Health, "Missouri continues to have a higher suicide rate of 18.7 compared to the national average of 14.04 per 100,000 people." DPH has even published a Missouri Suicide Prevention Plan (MSPP) to offer suggestions for what citizens can do in their communities to make a difference. I would suggest that not removing red flag laws is literally the least that we can do.

Temporarily seizing guns from persons who are having a mental health crisis definitely saves lives. Other persons right to live must trump the right of a homicidal person to possess a gun!! There have been mass shootings with a high loss of innocent lives that could have been prevented by temporarily taking a gun from a person who others knew was having a mental health crisis. Another instance where guns should be taken away is from a domestic abuser. It is well documented that when domestic abuser has a gun, the woman is MUCH MORE likely to be killed, shot to death. These are facts!! Please use facts to make decision, not opinion!

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

Extreme Risk Protection –or Red Flag– laws are critical life saving tools that help keep firearms out of the hands of people who should not have them. Missouri's rate of gun deaths has increased 59% from 2012 to 2021, compared to a 33% increase nationwide. This means that in 2021 there were 532 more gun deaths than in 2012. In 2021, Missouri signed into law a bill to nullify federal gun safety laws in our state and penalize law enforcement officers for trying to enforce rules that protect Missourians from gun violence. A law which was subsequently ruled unconstitutional by a Federal judge. Missouri's nullification law and lack of a red flag law also directly contributed to the shooting in 2022 at Central Visual and Performing Arts High School, as the shooter's family pleaded with law enforcement to remove the shooter's firearms when they noticed warning signs. Police said they felt powerless to remove the shooter's gun because under Missouri's nullification law they would be penalized for assisting in the enforcement of a federal gun law. Because Missouri lacked a red flag law, police were unable to directly petition a court for an order requiring the temporary removal of firearms in that situation.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

HB 434 and HB 459, titled the "Anti-Red Flag Gun Seizure Act," are deeply flawed pieces of legislation that threaten public safety and disregard the proven effectiveness of red flag laws in preventing gun violence. Red flag laws, also known as Extreme Risk Protection Orders (ERPOs), are designed to temporarily remove firearms from individuals who demonstrate clear signs of being a danger to themselves or others, based on evidence reviewed by a judge. These laws are not about arbitrary confiscation; they are about preventing tragedies. For instance, states like Connecticut and Indiana have seen significant reductions in suicides and mass shootings thanks to red flag laws. By banning the enforcement of such measures, HB 434 and HB 459 would eliminate a vital tool for addressing crises, putting countless Missourians at risk. Contrary to the claims made in these bills, red flag laws are not implemented without due process. They require law enforcement or concerned family members to present evidence to a judge, who then decides whether a temporary order is justified. This ensures that individuals' rights are protected while addressing urgent threats. For example, after the Parkland school shooting, Florida's red flag law was used to disarm individuals who exhibited clear warning signs of violence, potentially saving lives. HB 434 and HB 459, however, would prevent Missouri from taking similar, responsible actions, even in cases where there is compelling evidence that someone poses a serious risk. This is not just irresponsible—it is a direct threat to public safety. Additionally, both bills attempt to undermine federal law and impose severe penalties on law enforcement agencies for enforcing red flag laws. This approach is not only unconstitutional but also counterproductive. By threatening agencies with \$50,000 fines and legal liability, these bills create a chilling effect that could discourage law enforcement from taking necessary steps to protect communities. This is especially concerning given Missouri's rising rates of gun violence and suicide. Red flag laws are not an attack on the Second Amendment; they are a balanced approach to ensuring public safety while respecting individual rights. HB 434 and HB 459 prioritize ideology over evidence-based solutions, putting lives at risk. For the safety of all Missourians, these bills must be rejected.

As a lifelong Missourian, I strongly oppose this bill. As a mental health professional who has worked in crisis support and prisons, I can tell you there is absolutely no way that we should be considering taking away red flag laws. Do you know how many people are in our prisons for having schizophrenic episodes or other mental breakdowns and shot people as a result? It happens far more often than you realize. And thankfully the numbers have improved over time because of red flag laws. We are able to get guns away from people when they aren't safe to have them. Why on Earth would we want to eliminate this and have no ability to keep people safe? Just so some person having a mental break doesn't have to be sad or angry their guns aren't accessible to threaten people with? Are you even serious? It is absolutely insane we are focusing on deregulating guns here when so many of us are struggling to live financially. What are you all doing about that?

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

My name is Leslie Anne Washington and I am in opposition of HB459 Anti Red Flag Gun Seizure Act. Missouri's nullification law and lack of a red flag law also directly contributed to the shooting in 2022 at Central Visual and Performing Arts High School, as the shooter's family pleaded with law enforcement to remove the shooter's firearms when they noticed warning signs. Police said they felt powerless to remove the shooter's gun because under Missouri's nullification law they would be penalized for assisting in the enforcement of a federal law. Because Missouri lacked a red flag law, police were unable to directly petition a court for an order requiring the temporary removal of firearms in that situation. In 2021, Missouri signed into law a bill to nullify federal gun safety laws in our state and penalize law enforcement officers for trying to enforce rules that protect Missourians from gun violence. A law which was subsequently ruled unconstitutional by a Federal judge. I am pleading with you to do the right thing and oppose this HB459. Extreme Risk Laws can help prevent deaths by firearm suicide. Among commonly used methods of self-harm, firearms are by far the most lethal, with a fatality rate of approximately 90 percent.

I oppose HB 459, the legislature should be creating Extreme Risk Protection Orders (what you call Red Flag laws) not banning them. ERPOs are a proven tool in reducing suicides and protecting women & children by disarming domestic abusers. ERPOS have strict guidelines that involve due process and the courts to safeguard the rights of all involved. Missouri ranks 15th for suicide death and guns were used in 63% of those deaths. I urge you to put the lives of Missourians first and oppose HB 459.

I oppose this act because of the following:1) Extreme Risk Protection –or Red Flag– laws are critical life saving tools that help keep firearms out of the hands of people who should not have them.2) Missouri's rate of gun deaths has increased 59% from 2012 to 2021, compared to a 33% increase nationwide. This means that in 2021 there were 532 more gun deaths than in 2012.3) In 2021, Missouri signed into law a bill to nullify federal gun safety laws in our state and penalize law enforcement officers for trying to enforce rules that protect Missourians from gun violence. A law which was subsequently ruled unconstitutional by a Federal judge.4) Missouri's nullification law and lack of a red flag law also directly contributed to the shooting in 2022 at Central Visual and Performing Arts High School, as the shooter's family pleaded with law enforcement to remove the shooter's firearms when they noticed warning signs. Police said they felt powerless to remove the shooter's gun because under Missouri's nullification law they would be penalized for assisting in the enforcement of a federal gun law. Because Missouri lacked a red flag law, police were unable to directly petition a court for an order requiring the temporary removal of firearms in that situation. Thank you for your time and consideration, Maria Lindbergh

I strongly object to HB 434, which restricts the state from enacting Extreme Risk laws for gun owners. As a resident of St. Louis, I know very clearly how these laws could prevent tragedy. Here in our city, we saw two people - a teacher and a young, promising dance student - murdered by a shooter with mental health problems whose parent BEGGED police to confiscate his firearm. They knew he was a danger and were helpless to do anything. Red Flag laws save lives!! They prevent suicides, prevent domestic violence murders by intimate partners, and could be used to prevent school shootings. It does NOT VIOLATE the 2nd Amendment to prevent dangerous and mentally ill people from having access to guns!

Red flag laws are invoked by a distressed person's family or law enforcement. RF laws vary a bit among states but basically, are activated when a person is displaying behavior that threatens suicide or homicide. Law enforcement or the family then petition the courts to temporarily store the guns the distressed person may have in a safe place where they may not access them for a limited period of time. The time may be 6 months, one year, etc. Due process is afforded. Red flag laws are protective! We NEED a red flag law in Missouri since our suicide rates are climbing. Please vote no on HB 434

Extreme risk laws allow loved ones or law enforcement to intervene by petitioning a court for an order to temporarily prevent someone in crisis from accessing guns. They are a proven way to intervene before gun violence - such as a gun suicide or mass shooting - takes more lives. Only a judge can prevent access and only after evidence is presented that a person poses a serious risk to themselves or others. Many of us feel that more rights are given to gun holders under a broad interpretation of "2nd Amendment Rights", than are provided to normal citizens. Please show all citizens of Missouri that their rights are just as important as those of a gun owner.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

HB 434 and HB 459, the so-called "Anti-Red Flag Gun Seizure Act," represent a dangerous and misguided effort to dismantle proven public safety measures. Red flag laws, also known as Extreme Risk Protection Orders (ERPOs), are designed to temporarily remove firearms from individuals who pose a significant risk to themselves or others, based on evidence presented to a judge. These laws are not about arbitrary confiscation; they are about saving lives. For example, in states like Connecticut and Indiana, red flag laws have been credited with preventing numerous suicides and mass shootings. By prohibiting the enforcement of such laws, HB 434 and HB 459 would strip Missouri of a critical tool to intervene in situations where individuals are in crisis, putting countless lives at risk. Both bills falsely claim that red flag laws lack due process protections, which is simply untrue. Red flag laws require law enforcement or family members to present evidence to a judge, who must then determine whether there is sufficient cause to issue a temporary order. This process ensures that individuals' rights are protected while addressing imminent threats. For instance, in Florida, the implementation of a red flag law after the Parkland school shooting has been used responsibly to disarm individuals who exhibited clear warning signs of violence. HB 434 and HB 459, however, would prevent Missouri from taking similar, life-saving actions, even when there is overwhelming evidence that someone poses a danger. This is not just irresponsible—it is reckless. Moreover, both bills attempt to nullify federal law and penalize law enforcement for enforcing red flag laws, which is not only unconstitutional but also counterproductive. By threatening agencies with hefty fines and legal liability, these bills create a chilling effect that could deter law enforcement from taking necessary actions to protect public safety. This is particularly troubling given the rising rates of gun violence and suicide in Missouri. Red flag laws are not about infringing on Second Amendment rights; they are about balancing individual freedoms with the collective right to safety. HB 434 and HB 459 prioritize ideology over evidence, and in doing so, they endanger the very citizens they claim to protect. For the sake of public safety and common sense, these bills must be rejected.

Extreme Risk Protection, or Red Flag, laws are lifesaving measures that help keep guns out of the hands of people who pose a danger to themselves or others. Unfortunately, Missouri lacks such a law, and the consequences are heartbreaking. To make matters worse, Missouri passed a law in 2021 that attempted to nullify federal gun safety regulations and penalized law enforcement officers for enforcing them. This law, later ruled unconstitutional, directly impacted law enforcement's ability to act in life-or-death situations. For example, the tragic 2022 shooting at Central Visual and Performing Arts High School could have been prevented. The shooter's family begged law enforcement to remove his firearm after noticing warning signs, but police said they felt powerless under Missouri's nullification law. Without a Red Flag law, officers had no legal path to petition a court for the temporary removal of firearms, and the results were devastating. Missouri can and must do better to protect its communities from preventable tragedies.

Red flag laws are not designed to take guns from law abiding persons. Many lives can be saved, primarily women's (with abusive partners) and kids' (suicide) lives, by removing guns temporarily from the hands of the person who is struggling with life issues and mental health breakdowns, Why would you, and we non-elected citizens, NOT want these simple protections that DO NOT infringe on regular gun rights?

I am a resident of Missouri in St Louis County. The HB459 - an Anti - Red Flag Gun Seizure Act - ignores the benefits of this law. Red Flag Laws or Extreme Risk Protection laws are critical life saving tools that help keep firearms out of the hands of people who should not have them. The school shooting at the St Louis School (CVPA) would have been prevented if this law was in place. Missouri's rate of gun deaths has increased 59% from 2012 to 2012 (compared to 33% increased nationwide. I urge the House to vote NO on HB459.

As a concerned Missourian and a responsible gun owner, I strongly urge you to vote NO on HB 434 and HB 459, the "Anti-Red Flag Gun Seizure Acts" which would prohibit legitimate red-flag laws, leaving law enforcement helpless to prevent the sort of shooting that occurred at the Central Visual and Performing Arts High School in 2022. Extreme Risk Protection laws are vital life saving tools that can help keep firearms out of reach of those who are a danger to themselves or others. Even temporary impoundment of firearms can be life-saving. Act on behalf of the constituents you represent; act to keep all Missourians safe from preventable gun violence.

HB 459 - I oppose this bill. Red Flag laws are critical life saving tools that help keep firearms out of the hands of people who should not have them. Effective Red Flag laws could have prevented some deaths in Missouri - there are documented incidents where a person who were identified as being a danger to themselves or others, had access to guns and ended up using those guns to kill themselves or others. Red Flag laws save lives.

As a parent and teacher, I am worried about the pattern of deregulation I see in our state. Guns are increasingly made to be more lethal via the number of shots they can inflict per minute. If someone has made threatening statements or actions, 'red flags' work to protect the community. We need more regulation, not less. I will always vote for individuals that work to protect my students and children by showing they value their lives over arms.

I am testifying in opposition to this bill. Red Flag– laws are critical life saving tools that help keep firearms out of the hands of people who pose a danger to themselves or others. MO doesn't have red flag laws in place, keeping guns in the hands of dangerous people

Missouri has some of the loosest gun regulations in the nation and some of the highest levels of gun homicides, gun injuries, gun suicides, and gun suicide attempts. States that have passed Red Flag protections have seen improvements in those areas and are saving lives. With appropriate due process, there is nothing unconstitutional about Red Flag laws. 2nd Amendment rights cannot be deemed unrestricted. The costs of gun violence to Missouri taxpayers amounts to hundreds of millions of dollars each year. Anti-Red Flag legislation will do nothing to help save lives in Missouri, and will just add to the failure of our state to take common sense action on gun violence.

I write as a concerned, long-time citizen of Missouri who opposes HB 434. Missouri has some of the most lenient gun laws in the country, and we also have increasing rates of gun deaths. Without common sense laws to protect us, everyone is at risk of becoming the next person to be injured or killed by someone with a gun. Ownership and possession of a firearm is a heavy responsibility, and the state has a vested interest in being able to remove guns from people who are deemed dangerous to themselves and others. Missouri's nullification law and lack of a red flag law also directly contributed to the shooting in 2022 at Central Visual and Performing Arts High School, as the shooter's family pleaded with law enforcement to remove the shooter's firearms when they noticed warning signs. Passage of this bill hamstrings law enforcement and merely makes it easier for the mentally ill and violent individuals to harm themselves and others. This law is not needed and takes away an important tool that law enforcement has to keep people safe.

As a lifelong citizen of Missouri, I OPPOSE HB 459 because I want to see a Red Flag law in place in Missouri to help families and law enforcement agencies have a way to get a court order to remove firearms from citizens who threaten harm to themselves and/or others. Missouri lawmakers have an opportunity to craft a Red Flag law that covers all due process and provides accountability for false or frivolous claims, as other states have with their Red Flag laws. Don't just totally remove this possibility from consideration for Missouri. May I remind lawmakers that someone who is threatening harm with a firearm needs help – not protection to carry out tragic deeds - as did the shooter at the Central Visual and Performing Arts school in St. Louis, in October of 2022. The family of the shooter asked law enforcement to remove the shooter's firearms and a Red Flag law would have assured a legal process for doing so. Please move Missouri forward with a Red Flag law to protect our families and communities. Please vote to OPPOSE HB 459 in the House General Laws Committee and/or on the House floor.

**Subject: Opposition to HB 459 - Anti-Red Flag Gun Seizure Act** I strongly urge you to oppose HB 459. Red flag laws provide a crucial safeguard against gun violence by allowing courts to temporarily remove firearms from individuals who pose a clear danger to themselves or others. This bill would block these protections, making it harder to prevent tragedies and putting communities at risk. Law enforcement must have the tools to intervene before violence occurs, not face penalties for acting in the interest of public safety. Please vote against HB 459 to keep Missouri communities safe.

I oppose HB 459. Prior to 2012, Missouri had common sense gun laws. In 2012 the gun laws were loosened, which has lead to an increase in gun deaths in Missouri by 59% between 2012 and 2021. The national gun death rate is 33%. Even 33% is unacceptable. We need strong gun laws to protect our communities and our citizens. If the rate of gun deaths remain high, we will be left with broken communities in Missouri. This is not the future that I wish for my kids.

Missouri's nullification law and lack of a red flag law directly contributed to the shooting in 2022 at Central Visual and Performing Arts High School, as the shooter's family pleaded with law enforcement to remove the shooter's firearms when they noticed warning signs. Police said they felt powerless to remove the shooter's gun because under Missouri's nullification law they would be penalized for assisting in the enforcement of a federal gun law. Because Missouri lacked a red flag law, police were unable to directly petition a court for an order requiring the temporary removal of firearms in that situation.
