Modifies provisions relating to the placement of any surveillance or game camera on private property. I am 100% in favor of this Bill. Matter of fact it does not go far enough. Appeals court: Wildlife officers' warrantless searches of private property are unconstitutional. In a blistering and unanimous opinion, the judges called TWRA's legal defense of its tactics a "disturbing assertion of power on behalf of government. In no way should anyone that does not maintain the financial responsibilities of a property be able to place cameras on any property that they directly do not own. Only in the event of a felony act or acts can they be placed on a property by a public court order and posted on the property should anyone be able to do that. Landowner should be notified and reason given and by court order to allow it. No has the right to use their managerial pathway of oversight of resources to say they have the right they do not. First they have no oversight and accountability. Local and state law enforcement has oversight and accountability and governed. At no time is a identity that it's leadership is appointed and volunteers to do a job that has no oversight and accountability by the constituents of the state in regards to wildlife and wildlife practices. **ABSOLUTELY NO CAMERAS BY ANYONE OTHER THAN MYSELF OR HEIRS THAT MAINTAIN FINANCIAL RESPONSIBILITY** without a court order delivered by the identity seeking to place cameras for observance surveillance unless it's for a felonious act towards a human or humanity.
