My name is Shannon Frey and I would like to express my support of HB 950. Removing the requirement of providing a social security card to receive an ID proves extremely helpful to those who may have lost or are missing documents, particularly the unhoused population. An ID is essential to obtain housing and employment and removing barriers to obtaining this vital document is crucial to creating a safer and productive community for all people in Missouri.

My name is Teresa Lake and I was the director of an ID program with a nonprofit that help people get all the documents they needed for their photo ID. It is a very complicated process in some circumstances. It's a present time if a person does not have a Social Security card and they are not in the DMV system already then let's try to procure one but you now must apply online and most of the people that we dealt with were homeless and did not have access to computers to do this. This is just one more hoop to jump through to try and get the documents they need to be able to function in today's world. As for being able to use your own photo instead of having to physically come into the DMV to have photo taken would be a godsend to people that are homebound. At this point the DMV has no provision for being able to accommodate people that are physically unable to come to the office. Therefore in some circumstances they are unable to vote.
