I feel that it should be up to a woman to decide what she wants to do with her body. The state nor the government should be able to dictate what she should do. Reproductive care should be allowed and provided as well as encouraged for the well being of every woman.

I support reproductive rights and bodily autonomy. Outside of any definition of “life”, outside of even the fact that we can’t force people to be organ donors in life or in death even if it could save lives (nor should we force people to), there should be a separation of church and state and it’s immoral and illegal to try to control and rule over people by your specific christian rules. christianity is not fact, not should it be law. While christians are more than welcome to live their lives by these rules (rules not provided by the Bible, I KNOW y’all aren’t reading it), you don’t get to force others to.

As a citizen of the United States in the state of Missouri I voted in November to legalize access to abortion. This is a life saving procedure for many individuals and a choice that only that pregnant person should make. Along with the majority of Missouri voters, it passed. It should be legal. What is the point of ever voting if it can be ignored by government officials. You work for me not the other way around. It was legally voted in, you need to allow access to abortion care in Missouri because that is what we voted for.

Life is a gift, and children should be cherished, not dismembered and disposed of like trash. There was once a day when even democrats declared that abortions should be rare, but now it seems that they declare the need for abortion on demand, through all nine months of pregnancy. I am a surgical nurse, and there are times we have had to perform a Dilation and Curettage on a woman who has suffered from a fetal demise. I look at lab results and radiology reports, and anything else that would help me care for my patient. When looking at the ultrasound I can see little hands and feet, and a crown. A perfectly formed little human being who quit growing, or forming, due to unknown reasons. If parents want the body of their unborn baby, they have to make arrangements with a licensed funeral home, because we don't release human remains any other way. The whole D&C process declares this child a human, and it is treated as such. The excuse that abortions save lives and are safer than childbirth is complete nonsense. Is that why Planned Parenthood wishes to not have health and safety standards to abide by in their clinics? Because they care about the safety of women...I think not. Is that why they are currently fighting having to do pelvic exams prior to distributing the abortion pill, because they care about women and their overall outcome? Wrong again. Planned Parenthood and others like them DON'T care about the mental or physical health of these women, they care about the income. Because life is precious, and should be protected as often as possible, I ask that you pass this Resolution through this committee and promptly take it to the House floor for a vote. I believe lives depend on it.

I am in support of HJR 54. All life is precious from conception to natural death. The doctors, medical staff need to be held responsible if anything goes wrong. The general public was misled on what Amendment 3 was truly about and it was out of town people that were soliciting the signatures of good Missourians and telling us lies. Only petitions from in state residents should be allowed to be signed in Missouri. Please vote in support of HJR 54.

I would have a 49 year old child had it not been for abortion. I became pregnant at 17 and, at that time, had to drive to Kansas (1976) to have an abortion. Of course, the abortion facility lied to me and told me it was only a clump of cells (which they still do, by the way) and so began the most heinous, heart-breaking saga of my life and I am now 65. Once again, the abortion lobby lies and lies to have their deadly purposes accomplished. This amendment needs to be put on the ballot and passed overwhelmingly because the Missouri people do not want to kill babies at any stage, much less all stages! Tell the truth!

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am submitting this testimony to express my strong opposition to HJR 54. This resolution not only threatens the reproductive rights of Missourians but also risks putting lives in danger and deepening existing inequalities in our state. Abortion is a deeply personal and often difficult decision that should be made by individuals in consultation with their doctors—not dictated by politicians. People seek abortions for many reasons, including life-threatening medical conditions, financial insecurity, or knowing that they are not in a place to provide for a child. These decisions cannot and should not be reduced to political talking points. The provision in HJR 54 that allows for exceptions in cases of rape or incest may seem compassionate on the surface, but it is anything but. It requires survivors to report their abuse and provide documentation—despite the fact that many victims are unable to safely report their abusers, especially if those abusers are family members or individuals with power over them. Even for those who do report, investigations can drag on for months or even years, far exceeding the 12-week cutoff. This effectively denies survivors the care they need and deserve. But the issues with HJR 54 go beyond just one provision. Abortion restrictions like this one overwhelmingly harm people who are already vulnerable. Those living in rural areas, people of color, and low-income individuals often have limited access to healthcare to begin with. For these communities, banning abortion doesn't just limit choices—it creates life-threatening obstacles. Let's be clear: Amendment 3 reflects the values and decisions of Missouri voters. Repealing it would ignore the will of the people and undermine their trust in the democratic process. Missourians deserve access to compassionate, safe, and respectful healthcare, free from unnecessary barriers or government interference. I urge you to reject HJR 54 and uphold the protections established by Amendment 3. Thank you for taking the time to consider my testimony.

The ballot language presented to voters as Amendment 3 was incomplete compared to the actual constitutional amendment. Therefore, the matter should be reconsidered through this bill. Pro-abortionists say that it is the woman's choice to do what she wants with her body. But science has proven otherwise. The unborn or preborn is a distinct human life and whole from the moment of fertilization. The preborn is not part of the mother, just growing inside of her with distinct gender, blood type and DNA. The preborn just need time, support, nutrition and protection. The right to life is a basic human right that should be protected by the government. A woman cannot deny the right to life of this preborn fetus. After all, her mother allowed her the right to life.

I am a pregnant woman, and I love my unborn baby with all of my heart and soul. But I recognize that what is a gift and a blessing to me could be a nightmare for another woman. Despite the love poured into this very wanted pregnancy, I have experienced debilitating symptoms throughout this pregnancy. There have been times I had to seek medical care because those symptoms were so bad I couldn't eat, drink, or function properly. NO ONE should be forced to carry a pregnancy they do not want and they cannot afford. Pregnancy is not health neutral—women die from pregnancy and birth complications every day in this country. We the people of Missouri voted YES on Amendment 3 and that decision should be allowed to stand. Anything less than that is an infringement upon our right to vote.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Access to reproductive care is **ESSENTIAL** to the health of women and families. Any restrictions, whether gestational timeline, reason for need of care, or others, is a detriment to women. This is about medical care which should be decided by a woman and her doctor, not a politician. If a woman's morals, religion, or social stance lead to a decision in the case of an abortion, that is her right. Allowing exceptions to care only muddies the waters when it comes to **TIMELY** and safe reproductive care. Ignoring the vote of the people is absolutely abysmal and it's embarrassing that we are, once again, having to defend our own rights as human beings.

This is a bill to repeal Amendment 3! Amendment 3 should have never been on the ballot! We must prohibit abortions, except in cases of medical emergencies, fetal anomalies, rape or incest. If the abortion is performed because of rape or incest, the abortion must be performed or induced no later than 12 weeks and would require that the rape or incest has been reported to a law enforcement agency at least 48 hours to the abortion for them to investigate. Prohibits public funds from being used to pay for abortion. Prohibits the use of surgeries, hormones, or drugs to assist a child with gender transition. Holds any person who intentionally or negligently causes damage to another person relating to the provision of reproductive health care or the performance or inducement of an abortion is liable for damages and subject to suspension of medical license.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The Freedom Principle MO strongly supports this bill. This proposed amendment is a solid solution to protect women's health and reproductive rights and protect unborn and born children. HJR 54 will allow protect women's health by only allowing abortions in cases of medical emergencies, fetal anomalies, rape or incest. It will also protect women's health by restoring the ability for a person who was intentionally or negligently harmed from the performance or inducement of an abortion liable for damages and subject to suspension of medical licenses. Additionally, this proposed amendment will restore and protect taxpayers by prohibiting taxpayer funds from being used to pay for abortion. It will also protect children by prohibiting them from harmful gender transition surgeries, hormones, or drugs to assist with gender transitions.

I want to register my support of this bill to prohibit abortions except in the case of medical emergency where the mother's life is in extreme danger. No public funds should be used to kill children through abortion or disfigure and harm them with gender transition surgeries, cross-sex hormones or puberty-blocking drugs. Each child is fearfully and wonderfully made and should not be led to think otherwise especially by those in the medical community. Though some may experience gender dysphoria, the solution is to help them with counseling and support to understand who they are, not lie to them and foster a fantasy which will create more dissonance and harm in their lives.

When I see women who die because a simple procedure is unlawful, I'm astounded that in a modern society, this is what we've come to. Voters decided this issue, and politicians need to listen and follow what WE want. Unless you make vasectomies mandatory, we don't want to hear your viewpoint. I know women who have been in great danger from pregnancies that were not viable. LIFE happens, so quit killing one to "save" another just to make yourself feel better!!

I have needed life saving reproductive healthcare that without it I would have died. Amendment 3 is vital to protecting women from death during pregnancy and childbirth. Voting to overturn something that the voters put into place is disposable. The lawmakers are supposed to be upholding what their constituents want- and there is no more direct way to know what the constituents want than upholding their vote. Do not repeal amendment 3!

Yes I support. There are too many loopholes in the original amendment. Life must be protected for those unable to protect themselves. Young people do not understand the effects and outcomes of decisions.

I voted for amendment 3 and expect that it be enforced not over ridden by ignorant people, mostly men who have no understanding of how important it is to getting access to good reproductive medical health care for your body as well as allowing responsible doctors to save people's lives if an abortion is necessary. To not enforce what Missouri's overwhelmingly voted for is against every democratic process there is...

I support this bill because of the exceptions — In the case of abortions performed or induced because of rape or incest, the abortion may be performed or induced no later than 12 weeks gestational age of the unborn child and only if documentation is presented to the attending physician that therapy or incest has been reported to a law enforcement agency that has jurisdiction to investigate the complaint at least 48 hours prior to the abortion.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Denise Gelina, and I stand before you today not only as a concerned citizen, but as someone whose own experiences have been deeply impacted by the very issues we are discussing today, abortion. I am a business professional, a mother, a wife, and someone who has lived the middle-class American dream—but that path was far from easy. I grew up in a home marked by severe abuse, both physical and emotional. My biological father subjected me and my family to constant violence, where even minor mistakes could lead to life-threatening situations. I lived in fear, often under the threat of being given away, sold or traded. My bodily autonomy was repeatedly violated, and the man who should have protected me instead terrorized me. In my early teens, I learned about abortion. At a time when I had little control over my life, the mere knowledge of this option gave me a sense of agency. I studied it in depth, understanding the procedures, the laws, and the possibilities. It wasn't a question of "if," but "when" I might need it. The knowledge of abortion was not just about a medical procedure—it represented a way out, a chance to escape a future dictated by circumstances beyond my control. I was fortunate. Through hard work, I earned a college education and have since dedicated myself to giving back to my community. I volunteer with organizations aiming to be the adult I needed when I was younger. Although I never had to make the difficult decision to seek an abortion, the fact that I had the option gave me hope and freedom. It allowed me to plan my future, pursue education, and raise a family in a loving environment. I ask you to consider the young girls who may be in similar situations. For them, the option of abortion isn't just about a procedure—it's about preserving their future. It's about offering them a chance to break free from abusive situations and control their destinies. As representatives of the people, I urge you to protect abortion. For me, for those young girls, and for anyone who needs that option, please don't take away their future.

Amendment 3 was written in a very confusing manor, with the intention to deceive voters. When speaking with voters after voting, people were angry because they didn't know that this amendment would open up abortion in missouri, and hurt women and children. Ballot issues should be clear so that people are fully informed. In addition, I believe that minors must have parental consent for abortions and that tax payers should not have to pay for abortions. I believe that abortion is the killing of a human life and that all human life should be protected under missouri law.

I am supporting HJR 54 because each child has the right to live whether they are in utero or outside the womb. Life is precious and sacred. I , also, believe that medical professionals need to take responsibility and have liability for the procedures they are doing no matter what the procedure is being performed. I believe that parents of children are the ones who make medical decisions on procedures done to their children - not a counselor, teacher, or another adult.

I support reproductive health freedom in Missouri as a young woman & mother to a daughter. I am writing for myself, my friends, and my daughter's future. 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights. Reproductive Freedom is a Missouri value. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them.

This amendment is too extreme and focuses on many areas of healthcare that are not related to pregnancy. According to Missouri Rev. Stat. 1.205 (1) and 188.056(1) the life of each human begins at conception. Abortion is terminating a human life which, according to the state, is murder (565.021).

I fully support reproductive healthcare in our wonderful state of Missouri. Women's reproductive freedom will benefit women, men and children in a positive mental, emotional, physical and economic way. As a community college teacher I work with scores of young men and women who agree and wish for the guarantee of this freedom for our future. They express how disheartened and disenfranchised they feel in our political climate. I submit this testimony in solidarity with them and for myself and my family - children and grandchildren. We are not going back!

I'm strongly in favor of this Bill. As a Mother of 5 but also one who has been on the other side of this issue. By feeling pressured as a young woman to seek and obtain 2 abortions. I personally know and understand the lasting effects on the mental health of the women who make the same decision. I implore you to consider the lives of not only the unborn child, but also both the physical and mental health of the women in the aftermath of an abortion. Ending a life should never have become so common that it's the norm rather than the exception for extreme cases. Thank for your consideration.

Missouri is a pro-life state. The laws of the state of Missouri should reflect that. Amendment 3 was a travesty of justice, where a minority of people with extremem views took advantage of a flawed IP Ratification process to add language to the Missouri Constitution that is both contradictory to other language in the Missouri Constitution, and also in direct violation of the US Constitution. This should be reversed, as much as can be done in statute law, as soon as possible to protect the innocent lives of babies.

I offer my limited support of this bill. As the National Director of Bound4LIFE, we believe in the full value of all children regardless of events that lead to God's creation of that valuable life. I would like to see the legislature of Missouri have the fortitude to go after restoring the protections for the pre-born that we just had a few short months ago, rather than carving out exceptions where I believe those lives still have worth. Please strengthen this legislation to protect all lives.

We believe that God created man & woman in His own image. When their union results in the sperm entering the egg, a spark of life is emitted; it has been captured on camera! We praise you God for each child is fearfully & wonderfully made. Each child is uniquely joined together to form this one & only creation. Lord, we pray that the baby's name will be known, you call this baby by name, before birth. You know this baby and his or her purpose. Their little heart begins to beat in only 22 days from conception. Let us honor & protect each baby's life!

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Reproductive freedom is a vital part of our Healthcare. Taking that away subjects women and children to unreasonable mental and physical health problems. There are multiple cases across the country where women have died trying to access the medical care necessary to help with the fetus inside of their womb that had passed. They were denied care because of doctors being unsure of what they were legally allowed to do. These women died slow and painful deaths while the fetus of the baby they wanted lay decorating inside them. These poor women wanted to welcome life to the world, but were instead forced to succumb to the poison entering their bloodstream as the life-to-be that they already loved decayed in their womb. To subject any human to this is pure cruelty. In addition, forcing a woman to have a baby when she does not want to is putting the woman and the baby at great risks. If the mother knows she will not take care of the baby due to lack of desire, monetary reasons, drug use, or any other fathomable reason, that baby's well-being is immediately at risk. What if the mother just leaves the baby in the crib, completely neglecting the child? What if the mother was in an abusive household and now she is forced to bring a baby into that situation? What if the abuse then includes the baby? Sure, the mother could put the baby up for adoption. The foster care system for our state is already overburdened. Eliminating abortion will exponentially compound this problem. There is no scenario where eliminating reproductive health care freedoms enhance the life of the general population. To believe so is to deny the facts in front of you. To do so is to allow religious or personal beliefs to stand in the way of the true well-being of all women and children in our state. The women of Missouri are counting on you to protect them by allowing reproductive freedom, including contraception and abortion.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Dear Fellow Missourians, I am writing to express my unwavering support for Missouri's 2024 Constitutional Amendment 3, known as the Right to Reproductive Freedom Initiative. This amendment enshrines the fundamental right to reproductive freedom, including access to abortion and comprehensive reproductive healthcare, into our state's constitution. As a resident deeply committed to individual liberties and healthcare autonomy, I believe this measure is essential for the well-being and rights of all Missourians. At the core of this amendment is the affirmation of personal autonomy. It recognizes that decisions regarding reproductive health are deeply personal and should be made by individuals in consultation with their healthcare providers, free from governmental interference. By embedding this right into our constitution, we ensure that every person has the freedom to make choices that are best for their health, family, and future. Prior to the passage of Amendment 3, Missouri had one of the most restrictive abortion bans in the nation, with no exceptions for rape, incest, or fatal fetal abnormalities. This near-total ban not only infringed upon personal freedoms but also posed significant risks to the health and safety of individuals seeking reproductive care. With the approval of this amendment, we have taken a crucial step toward restoring safe and legal access to abortion services, ensuring that healthcare decisions remain in the hands of patients and their doctors. The passage of Amendment 3 reflects the collective will of Missouri voters, who recognized the importance of safeguarding reproductive rights. This decision aligns with a broader national movement, as evidenced by similar measures approved in states like Arizona, Colorado, Maryland, Montana, Nevada, and New York during the 2024 elections. By joining these states, Missouri demonstrates its commitment to upholding individual rights and responding to the needs and values of its citizens. In conclusion, by enshrining these rights in our state constitution, we affirm the principle that personal healthcare decisions should be free from political interference. I stand in strong support of this amendment and urge my fellow citizens to uphold and defend the reproductive rights it guarantees. Sincerely, Jordan Seegmiller

Even though I am unable to be there in person, I wanted to make it known that I am in support of HJR 54 because amendment 3 is way too extreme for Missouri. I firmly believe that if the ballot language matched what the amendment said, it would failed dramatically. The lies they were allowed to get away with in their advertising campaigns were incorrigible. Miscarriage care? Really? And we let millions of dollars of out of state money come in to pay for those shameful commercials. I have heard from many who have remorse for believing the lies and voted the wrong way. "What if my daughter gets pregnant and needs a miscarriage? I don't want her to die." Just like the last amendment 3 that paved the way for legal recreational marijuana, the public was deceived then by ballot language and lies in the advertising. No one saw the future of a dispensary on every corner when they voted for it. They were being lied to (grandma won't be able to get the medication she needs if she gets cancer.) Please approve HJR54 so we don't end up with an abortion clinic on every corner.

I feel amendment 3 was misrepresented in the first place on the ballot. I think the Democrats made people believe that there were no emergency measures in place in case of tubal pregnancies or if the mother's life was in jeopardy.

This resolution is so important to protect women and children in MO. This resolution would undo the horrible provisions instituted in the passage of Amendment 3. Money from outside the state of MO produced deceitful ads that twisted the verbiage of the dangerous provisions imbedded in Amendment 3. Many people were duped into believing that this amendment would protect women's reproductive rights when in fact it removes many safety standards for women, emboldens children to make uninformed health decisions without parental consent, denies women the right to sue for reproductive health injury and allows abortions throughout all 9 months. I truly believe that HJR 54 is much more in tune with what Missourians believe and thought they were voting on with Amendment 3. Please allow the citizens of MO to vote on this resolution by passing it out of committee and supporting it on the floor of the house.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

I am making this statement today as a teen mother who chose life. I was born, raised, and still reside in Missouri. In May 2006 I was finishing up my junior year of high school as a member of the Principal's Honor Roll, FBLA, FCCLA, Student Counsel, and as a player on the softball and volleyball teams in a very small town in Southeast Missouri. It was at this time that I found out I was pregnant via an at home pregnancy test. After taking four more tests, all of which were positive, I still could not comprehend what this meant. It wasn't until my mother took me to my primary care provider the following day, who also confirmed what we already knew, that reality truly hit. I had a million things going through my head, I probably couldn't have even told you any of my identifying information. It felt like the world was spinning out of control. As we are driving away, my mother says to me "you know you have a choice?" I think this was the only statement that could have snapped me back into reality and it did. First, I was aghast and then I was angry. I was raised with a strong belief in Jesus and his words. I was raised to be pro-life. I was raised by a mother that was and still is a staunch opponent to abortion. Her comment to me in my most vulnerable moment angered me because I was taught that if you make a choice, you also choose to accept the consequences of that choice - good or bad. While I accepted the consequence of my choices, the conception of my first child would have been classified under "stealthling" (when a partner secretly removes a condom during sex without the other person's consent). It was this fact alone that caused most of my confusion regarding how this could have happened. Regardless, I chose not to focus on this or the fact that the father of my child was (and had been for most of our relationship) abusive. Although we were broken up at the time I became pregnant, it didn't take long for me to become isolated from essentially every friend I ever had, friends I had known since kindergarten. However, the father of my child was waiting for me with open arms when the isolation became too much to bear. There were many promises made about better, more respectful, and equitable behavior but this illusion was shattered in record time. Unfortunately, so many people I loved and cared for had been so disappointed in my decision to take him back that I felt I couldn't change my mind. The next choice I made was to persevere. As time went on the abuses became more frequent and violent. My child and I were tortured mentally, physically, financially, and emotionally for almost 18 months and these experiences have stayed with us to this day. During those 18 months of abuse I would routinely beg and plead with him to do what he pleased with me (and he did) but to be a good father to our daughter, something he could not do. Eventually, I found the courage to leave him in May 2008 and we were legally divorced in September of that year. The following year he would have another child with his girlfriend. When that child was just a few weeks old it was discovered by a children's hospital specialist in STL that this child had a spiral fracture to her femur. After weeks of questioning, he and his girlfriend agreed to a polygraph examination in which he showed signs of deception. It was then that he admitted, in fit of anger over the child's crying, he forcefully yanked her leg. This confession came only after he had tried to blame my two year old daughter and his dog for

the fracture. He was convicted of child abuse in a Dunklin county court and sentenced to five years in prison. He would serve 2.5 years of his sentence and upon his release my current husband and I had filed for adoption of my child. He was not out of prison long before he would physically assault the mother of his second child (whom he had married upon his release), leaving her with an orbital fracture and almost naked on the side of a highway where she was picked up by a trucker who called 911. My (current) husband and I would go on to win our adoption battle and his rights were terminated. My daughter turned 18 on January 17th of this year. She is fierce, passionate, empathetic, bright, and her dream is to become a nurse. She fearlessly loves and advocates for all children. She is a beautiful reminder of all that is good in this world. I do not regret my decision to give birth to and raise my child. I chose life but because of my choice we both faced many hardships and abuses. We were lucky to have each other, my family, and to find a wonderful man who fell in love with us both. However, many are not so lucky. The truth surrounding this issue is that an unplanned / unwanted pregnancy, at any age, can cause undue hardship on both the mother and child. This true without the consideration of traumatic experiences (such as rape and incest) that result in an unplanned / unwanted pregnancies. I have also chosen not speak on pregnancies that result in an embryo or fetus that is not viable and threatens the health of the mother because I have been lucky enough to not have that experience but so many women do. When taking into account the multitudinous reasons that abortion access may be desired or required, it should be easy to come to the conclusion that every human with the capacity to carry and give birth should have access to safe, reliable, confidential, and empathic abortion and aftercare services. I chose life, and if I had the choice to do it all over again I would still choose life. However, I am writing this as a testament to my belief that safe and compassionate abortion care services should be available to all who desire or require it. The right to choose your life's course is a fundamental human right. It is at the very core of our right to life, liberty, and the pursuit of happiness that is guaranteed to all in our constitution. These rights were named as inalienable by our founders. This means no man / woman on this earth has the right to grant nor take away these rights. It is because of this and my lived experience that I make this statement today in support of allowing abortion access in the state of Missouri. This is the will of the people and the will of the people must stand.

My name is Kaylin and I'm from Webster Groves. I'm one of the 1,538,659 Missourians who voted YES on Amendment 3. You were elected to defend those rights and the decision as voted on by the will of the people. You may have personal beliefs that are at odds with the ultimate decision of the people but it is your sworn duty to uphold the rights and wishes of the people of Missouri. Reproductive Freedom is a Missouri value. Reproductive choice, at its heart, is a family value because all families are different and their decisions are not made easily or lightly. The health and wellness of the women of our great state - our mothers, daughters, sisters, and friends - is at greater risk when the option of choice is not available or upheld as it was voted on over 3 months ago now. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care. Our government leaders and elected officials should honor those values not threaten them, twist them, or delay their access and availability because of their own opinions. I implore you to uphold the wishes of the people of Missouri and do so swiftly.

I have a genetic disorder that causes me to hemorrhage sometimes when pregnant. I've had multiple abortions to save my life, all for wanted pregnancies. I was forced to bleed out on puppy dog pads that needed changing every 20-30 minutes for hours. I thought I was going to die. I was in my 20's and told my husband that I wanted to be cremated. I felt cold and like I was floating above my body. Eventually, I passed out and required a blood transfusion. It was traumatic. Abortion is healthcare. There is life on this side of the argument. My two children, born after my miscarriages, wouldn't be here if I had bled to death. We are people and we deserve medical treatment with dignity.

I fully support and voted in support of reproductive health care in Missouri. Abortion care is a part of health care. No female in MO should have to worry or question the availability of care should the need arise in their home state. Abortions are necessary to protect the life of a mother. Not all pregnancies are viable and put the life of the mother at risk. For women who want the option of trying for additional pregnancies this must remain an option.

When I was in eighth grade, I got groomed by a boy that was a junior. If you look back at your pictures, you're not very attractive at that age. But he knew a lot more than I knew, I was a tomboy. He lowered me into sex by love bombing me. He was handsome and a great athlete. So I did get pregnant my junior year and it wasn't me who thought oh I'll get an abortion... I barely knew what it was. It was him and his brother. They knew people who had had abortions. I'm really tired of you. Blaming all this on women. I want to be able to make that choice for myself and other women for themselves. You don't know what it's like to be 17 pregnant with a guy who's just a player. Don't blame me. Don't call me a whore, our brains out and develop until we're 26. Do the right thing and stay out of the abortion business we voted for it.

1. There were 1,538,659 Missourians who voted YES on Amendment 3. As an elected representative, you should defend our right as citizens and comply with our vote. 2. Reproductive freedom is a right for Missouri citizens. 3. Missourians voted to clarify their/our support for access to abortion and all reproductive health care. It is your responsibility to uphold the majority vote and not to impede the clear choice of Missourians who voted YES on Amendment 3. 4. In addition to Missouri, Arizona, Colorado, Kansas, Montana, Nevada, and Ohio voted to constitutionally allow abortion and reproductive freedom. There is a clear majority for the mandate that voters want reproductive freedom. I ask you to respect our rights as citizens because we voted FOR the passage of Amendment 3.

I am a 64 year old woman working in healthcare who truly believes this is a right a woman must have. I do not believe abortion should be used as a form of birth control but I do believe it's a woman's right not to matter what! This became a law during my lifetime and I hope we never go back to having an abortion in the back of a clinic on the down low.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Lori Rooney and I am a citizen of Springfield. I am disappointed to find the MO Legislature in the position of trying to over rule the will of the people. Many in MO, actually 1, 583,659 voters, voted yes on Amendment 3. Since this vote passed in support of the Amendment in a Red state obviously supporting voters included both Republicans and Democrats. As a representative of the people it is imperative that the will of the people is respected.

I support reproductive health care. On December 17, 1990, we learned our unborn child had anencephaly. This defect means a major portion of the brain, head, and skull were absent. The child had no chance of survival. I was not allowed to to have an abortion in a Missouri hospital. Try to imagine what it was like to continue the pregnancy, of a much wanted child, knowing it would die within minutes after birth.

Every person deserves fair health care, including reproductive Healthcare. The bill was voted in by the people of Missouri and should be respected and honored to do the work for the people. This protects females of all ages and guarantees the basic care needed to have the ability to continue to work, care for our loved ones, and keep our health in check. A vote to overturn is dishonor on the the constituents of Missouri that the government is supposed to be working for. Reproductive Healthcare spans from abortion care, birth control and much more.

Please repeal Ammdement 3. It is FAR too extreme and not in line with the core values of midwestern Missourians. Almost every time I went to the grocery store prior to the election, I was solicited by far left extremists who provided untruths and half truths. There were 15 pro choice commercials to 1 pro life commercial prior to the election. The pro choice commercials were full of untruths and half truths. As a result Missourians had a biased and unclear understanding of the bill. Abortions performed when babies are viable for life outside of the womb are murder. I met a beautiful Indian mother watching her 8 year old playing soccer. Her son was born at 23 weeks and has been the biggest blessing of her family's life.

Restricting womens access to safe abortion only increases the mortality rate of pregnancies. I thought y'all wanted more babies? I can tell you for a fact i will never have children if there's even a chance something could go wrong and my doctor will have to weigh jail time or letting me die. It's like you didn't see what happened to that healthcare worker. Making sure your citizens have access to safe healthcare is in your best interest.

As a person who has lived in Missouri my whole life I am offended that the Government is trying to take away my legal rights. Women's rights are a serious thing. Leave our reproductive rights alone. You have no right to tell us what to do with our bodies. You are putting woman's lives in danger. We legally Voted! You Can't take that away!

The Missouri Submitting online testimony is a critical way to demonstrate opposition to HJR 54 if you are unable to attend in person. If you have not submitted online testimony already, you can do so through this form at <https://witness.house.mo.gov/Default.aspx?bill=HJR54¬iceid=9177>. If you have already submitted testimony and would like to continue to support this effort, please send the form to friends and family encouraging them to sign up to testify online with AAM. Everyone has until 11:59 PM Tuesday night to submit testimony. My name is Mary O'Dell-Lenard. I am a registered voter from University City, MO 63130. Please accept this testimony re. AMENDMENT 3. * 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights. * Reproductive Freedom is a Missouri value. * Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them.

Hello! I'm unclear today why any further testimony is needed. Missouri voters clearly identified their feelings about the necessity for safe health care for women including abortion last November. I'm respectfully requesting that the legislature get on with the business of upholding the wishes of their constituency. We trusted you with the responsibility of representing us, without regard for your personal feelings on this matter. Quit stalling and get on with it, please.

I support HJR54 because women who are injured in abortion should be able to hold the abortion provider accountable for causing the injury. As a mother of eight amazing children, I have personally seen the miracle of how life develops in the womb. These children deserve protection and we who are bigger and stronger must work to protect the weak and vulnerable in our state. It is barbaric and inhumane to tear the legs and arms off of small babies in the womb (which is what happens in abortions in the second and third trimester) Missouri children deserve to be protected in the womb.

I support HJR54 because life is precious, and no one should have the right to take another's life. I believe the "choice" is made before conception and this bill deals with situations where that is not the case such as rape and incest. As a society we must protect the most innocent and this bill is step in that direction.

Amendment 3 should never have been on the ballot. It had too many far reaching ramifications to be considered. Amendments are supposed to address one issue only. The ballot language itself was unclear. Out of state interests were at work to change our Missouri Constitution. This amendment is too radical for Missouri and does not truly represent the will of the majority of the people of Missouri.

Pregnancy is the most significant health issue that can happen to a woman's body. Pregnancy is simply a medical condition. No one would tell a man he can or can't do anything to his body. Why the double standard. And most importantly the people voted. That is the word of the people. That is now the law. Please follow the protocol and rule of law. Begging for common sense and respect for the autonomy of each person to care for their body in their own way!

I believe life begins at conception and every life in the womb should be protected. I believe all abortion is wrong as it intentionally ends an innocent human life. I believe women should be well cared for and supported to ease the burden of childbirth and parenting. Since a total abortion ban is not an option at this time, HJR54 is the option that will save more innocent lives.

I stand in support with Representative Melanie Stinnett. HJR 54 to repeal Amendment 3. I believe abortions should not be used as a form of birth control but to be used as only in cases of medical emergencies, fetal anomalies, rape or incest. If the abortion is done because of rape or incest, the abortion may be performed or induced no later than 12 weeks and would require that rape or incest has been reported to a law enforcement agency at least 48 hours to the abortion for them to investigate. Our public funds should not pay for abortion. We should prohibit the use of child abuse to our little ones and not allow surgeries, hormones or drugs to assist a child with gender transition. They deserve and need our protection until they are allowed to become adults. We must hold any person who intentionally or negligently causes damage to another person relating to the provision of reproductive health care or the performance or inducement of an abortion is liable for damages and subject to suspension of medical license. All Life, liberty, and the pursuit of happiness means that every person has the fundamental right to live, to be free, and to strive for their own personal well-being. These facts should never change and doctors should do no harm to any of us. Some believe doctors need more protection than the rest of us. I believe we all do and it's time our laws protect us all.

This bill will remedy all the issues (actual or perceived) with the current Article I, section 36 that purportedly passed last November. It is my belief that many people were misled as to what Amendment 3 would allow, and I believe the ballot language for Amendment 3 was misleading as well. HJR54 makes it more clear to the voters what they will actually be voting on, and if passed, will provide the protection that women and children need.

I fully support HJR 54. All human life should be protected from the moment of conception. Public funds should not be utilized to pay for abortions. In addition, any person who causes harm to a woman undergoing a reproductive procedure should be held responsible for their actions though legal action and suspension of medical license. Also, public funds should not pay for surgeries, hormones, or drugs to assist a child with gender transition. Please fight for the lives of those who cannot defend themselves.

In the Fall of 1978, I discovered I was pregnant, despite my use of birth control. My husband and I already had two wonderful children aged 8 and 2 years old. We were very surprised and genuinely concerned about raising another child. Our financial resources were already strained and unpredictable. After much soul searching and discussion, we determined that the best thing for our family was to terminate the pregnancy. While it was very difficult, we were certain of our decision and have never regretted it. The abortion was performed by my gynecologist at Barnes Hospital and, importantly, I had a tubal ligation at the same time the pregnancy was terminated so that such a situation would not reoccur. I believe our decision to terminate the pregnancy was the responsible thing to do given all the reasons set out above. In retrospect, we believe we were able to do a better job raising the two children we already had who subsequently became responsible, educated and successful adults. All families should be able to make such a decision without Government interference.

I believe that life begins at conception and that abortion kills a living being and should therefore be prohibited. I definitely do not want to support this practice with my taxpayer dollars. In addition, I believe that God created two genders and he did not make mistakes. No minor should be subjected to chemical or physical mutilation. Physicians who perform either abortions or assist in transgender procedures should be fined and lose their license to practice medicine.

I support HRJ 54 that it be passed to abolish Amendment 3. Passage of Amendment 3 is such a stain on our pro-life state of Missouri. God will not bless our state with such a law in our constitution. So many babies are murdered and the many of these mothers experience a lifetime of pain and guilt. It is time to promote and encourage women to keep their babies and to show women how to cherish and love their babies instead of encouraging women to choose a way out of their pregnancies.

An abortion is the killing of a child and should be prevented by Missouri law. The only exception is for saving the life of the mother or a fetal anomaly. The child never has a choice on how it was conceived. So, ALL viable pregnancies should be preserved through live birth. Gender dysphoria is a mental health issue, not a physical medical issue. Gender change hormones should not be permitted to any minor that does not have the developed mental capacity and experience to make a change of sex decision. And, yes, if a medical professional fails in their duty to perform their work safely, the injured patient should have normal recourse to medical malpractice lawsuits.

My name is Sara Stanfield and I live in Hartsburg, MO. I voted for reproductive rights in Missouri. It's my body, my choice. I believe it is my daughters' choices. If you have a little time to fight for reproductive Healthcare in Missouri: The Missouri Legislature's currently attempting to roll back Amendment 3. There is a hearing in Jefferson City tomorrow at 4 p.m. (Feb. 4). Submitting online testimony is a critical way to demonstrate opposition to HJR 54 if you are unable to attend in person. If you have not submitted online testimony already, you can do so through this form at <https://witness.house.mo.gov/Default.aspx?bill=HJR54¬iceid=9177>. If you have already submitted testimony and would like to continue to support this effort, please send the form to friends and family encouraging them to sign up to testify online with AAM. Everyone has until 11:59 PM Tuesday night to submit testimony. Nearly 300 supporters have testified in opposition to HJR 54. The goal is to get to at least 500 by 11:59 PM on Tuesday. Last, here are a few notes on how best to submit testimony online * 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights * Reproductive Freedom is a Missouri value * Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them. Politicians were elected by the people and should do it will, not what they want to do.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I had my first abortion in 2015 - after I already had one child that I very much loved. It wasn't the right time for me or my partner for financial, emotional, and so many other very personal reasons. Thankfully, I was able to access a safe abortion. I think about this pregnancy often, but never once have I regretted it. I had my second abortion in 2021 after a miscarriage of a very much loved and wanted baby early in my second trimester. The fetus had died but my body had not yet caught up and so I underwent a dilation and curettage (aka an abortion). If I had not gotten this abortion I would have been forced to carry my dead baby until my body expelled the fetus which would have left me at risk for infection and even death. I tell these stories from a place of immense privilege. Many people are not so lucky as to have the means for safe and healthy access including, but not limited to the cost, healthcare access, transportation, etc. Anyone who points to adoption as a viable alternative does not understand that pregnancy, especially in this country, is not a health neutral event. We ask people to put themselves in extreme danger for 9 + months. We have horrific maternal mortality rates (especially among Black populations), no access to universal pre-natal care, and little access to mental health resources while going through an extremely difficult health event. And that's before the baby is born. After the child is born in the US we do not have access to mandatory maternity leave, affordable childcare, thrive-able minimum wage the list goes on and on.

I had the opportunity to provide my patient with much needed PeP during his visit today. The patient was afraid of HIV exposure after the protection barrier broke, and had a great desire to start PeP immediately. Without access to the proper reproductive tools, there is a chance the patient could have had a greater chance to potentially contracting this incurable condition. We were able to get him the desired PeP within 1 hour due. The was extremely grateful.

Reproductive freedom is a fundamental principle of human rights. It is torture to force somebody to give birth. It is not for any single person to have an opinion on whether it be a man or a woman. It is only the business of the doctor and the woman on the table. You are killing the citizens that you took an oath to protect. The war on women is only going to make it so you aren't voted back in , in 2 years. You are taking a constitutional right to every citizen who votes. Even with trump taking the constitution off of a website, I learned it in school. Are you people going to take that next?

I agree that HJR54 would bring some balance to the travesty that the passage of amendment 3 created. I agree that prohibiting abortions in Missouri is what the people of Missouri truly want. The Heartbeat Bill should be upheld. I agree that public funds should NOT be used to pay for abortions, nor to pay for surgeries, hormones or drugs to assist a child with gender transition. MY taxpayer dollars should NOT go for individual welfare on issues of abortion, gender transition or under the banner of reproductive healthcare as this was NOT the intent of "general welfare" from our Founding Fathers in the Constitution. I am a healthcare professional and believe that anyone providing a medical service should also be accountable (whether intentional or negligent) for damages that occur. The highest percentage of abortions performed is not because of rape, incest or fetal anomalies - those instances account for probably 1% of cases of abortion. As a citizen I will always look to protecting life as our Founding Fathers also did. We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights (notice how Rights is capitalized on the original text), that among these is Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments (ALL of our elected officials) are instituted among Men deriving their just powers from the consent of the governed (EVERY CITIZEN). Unalienable rights refer to Rights that the government CANNOT take away because they were given to us by our Creator. I don't think it was unintentional that Life was the first right mentioned. Each and every one of us has the Right to protect our life and that of our progeny which is the original intent of the Declaration of Independence and the Constitution.

I am so glad this joint resolution is being brought forth. In the past year Missouri Voters passed Amendment 3. But it was by a narrow margin. I personally know of several people who voted for the amendment because they were confused and did not understand what they were voting for. The ballot language was deceptive, and the parties supporting it were not being honest in their advertising (i.e. claiming that women could not get an abortion for medical emergency). I believe that this Resolution allows the people of Missouri an opportunity to vote on the matter with the issue being presented to them more clearly and accurately. Please vote "Do Pass" on this Resolution.

My name is Tommie Jordan and I am from Kansas City. I have had my own experiences with women's healthcare during the time my husband and I were planning children and needed immediate women's healthcare during pregnancy. We had no control over what was happening and these are excruciating facts of life and the decisions should be left to the doctor and the patient...period. Missourians made it clear at the ballot that we support access to all reproductive healthcare which also includes abortion. Therefore, it is your elected job to value and defend people this way and not harm and threaten them.

Children raped shouldn't be expected to give birth. They're not physically, mentally, emotionally mature enough for that experience. They are dealing with trauma. Women who were raped shouldn't be expected to give birth to their abusers baby. It should be their choice. She too is dealing with trauma. Women experiencing miscarriage, whose baby died and didn't naturally abort should have the right and availability to receive medical assistance to help that natural process to completion, for the life of the mother and the sake of her family, especially her other children. There are situations that abortions should be considered and made available.

When my husband and I were trying to have a baby, we had a few years of infertility. When I discovered I was pregnant, I was so excited. My excitement ended when it was discovered that there was no heartbeat at 12 weeks. I had to take two rounds of Misoprostol because my body would not reject the fetus. After the first round, I was so sick. I went 6 weeks with constant pain before the doctor provided me with another round of Misoprostol. Thankfully, my body accepted the drug and expelled the fetus. The pain I felt from not only loosing a child, but my body holding onto this unviable fetus was unbearable. I had miserable cramping, I couldn't eat, I was bleeding heavily. I was lethargic and becoming malnourished. No one should have gone through that pain for as long as I had. Abortion rights are health care rights. If I had to have carried that fetus, there's no doubt I could have gone septic and died.

Overturning the vote of the people is abhorrent. Reproductive health is a decision and conversation between a person and their doctor not the state government. There is no viable reason to overturn the will of this state's constituents and doing so says that state representatives do not represent the people. If you make this change, we will have to change as well. Reproductive healthcare saves lives more often than it is "killing babies." This is also a lame excuse to wrap transgender language into reproductive healthcare and they are vastly different. If you want to attack trans people be bold about it. Don't hide behind women's reproductive health. Let the federal government do what they do and focus on representing the people of Missouri and what they want. Representing what the people want does not include overturning their decision.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Rabbi Ze'ev Smason, resident of St. Louis, MO. I serve as the Chairman of the Coalition for Jewish Values (CJV) Missouri, as well as the Midwestern Regional V.P. of the CJV - National. I represent over 2500 Orthodox rabbis in matters of Jewish/Biblical values and ethics in matters of public policy. My views are also representative of a significant segment of the national and Missouri Jewish population who self-identify as Orthodox or who adhere to traditional Jewish/Biblical values. I all decent people wholeheartedly support the protection of those who are most vulnerable citizens. My religious values -- and the values upon which our country and the great state of Missouri were founded upon -- recognizes that human life begins long before a child emerges from its mother. Rather than euphemistic term 'fetus', we recognize that a pregnant woman is carrying an 'unborn child' -- a child that is most vulnerable, and must be protected to the full extent our legal system is capable of extending it protection. Therefore, I enthusiastically support HB HJR 54

Dear Missouri Lawmakers, 1,538,659 Missourians voted YES on Amendment 3. Reproductive Freedom is a Missouri value. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them. The bill is a blatant attempt to overturn the will of the people.

Missourians like me and my family are tired of our elected representatives attempting to circumvent the will of the voters. We stand in support of Amendment 3, which enshrined reproductive freedom and AGAINST HRJ 54. Legislators who cannot support the law and uphold the votes of their constituents do not belong in the Missouri State House. This matter is decided. Can you please move on to real issues, like improving education, healthcare, and bringing new businesses to our state? The quality of life in Missouri continues decline and you do NOTHING to make our state a better place and support families and children. We continually rank at the bottom of important quality of life indices as compared to other states. We also stand against HRJ 54's prohibitions regarding gender affirming care. Let parents and their medical professionals decide what's best for their children. The government does not belong in private healthcare matters of any kind. Thank you.

I am appalled that the will of the people of Missouri is being blatantly ignored. The citizens of this state have already made their wishes known: reproductive rights and freedoms are to be made available to any pregnant person in the state of Missouri. It is also incredibly infuriating that this proposal not only seeks to go against the vote of Missourians but also ties the rights of transgender people into this argument. They are two completely different issues and should remain as such.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

It is my belief that in the most recent election, voters obviously expressed their desire to have the choice of an abortion and that HJR 54 violates that decision. This bill ties multiple issues together in a desperate attempt to gain support. It is also my belief that before any attempt to revoke the choice to have an abortion from Missouri residents, the following things need to be done for the state: •Our state's foster care system should be reformed and better established. This system has been overwhelmed for years, with the number of foster children far outweighing the number of foster parents. Which is expected to become far worse if the choice of abortion is not available. •Governmental focus should shift toward lowering crime rates related to drug use, manufacturing, and distribution. Safety concerns for all persons (born or unborn) of the state arise from the use, manufacture, and distribution of illegal drugs. •Governmental focus should also be directed toward lowering crime rates in the state. •Governmental focus should be directed toward lowering pregnancy-related maternal mortality rates. Is it lawful to prohibit abortions with these statistics? •Governmental focus should be directed toward the state's economic standing. The lack of jobs provided within the state, the lack of fair pay and benefits for employees who do find work in the state. Create an economy where people feel financially capable and safe enough to willingly have children. In summary: The health and safety of CURRENT citizens and the CURRENT workforce of the state should be a priority of our government officials.

I am writing in opposition to HJR 54 because, despite its conservative packaging, it ultimately amounts to little more than a gussied-up version of Amendment 3. Why do I say that? Because once you strip away the legalese, the bill amounts to a 12-week ban—with loopholes big enough to drive an entire abortion industry through. The so-called "medical emergency" exception is undefined, meaning it is malleable to the same point as current, constitutional, law. And then we have the self-defeating language regarding fetal anomaly exceptions. The bill claims to "prevent abortion based on a prenatal disability diagnosis" while simultaneously allowing exceptions for fetal anomaly—raising the obvious question: where, exactly, is the line between the two? This is not a principled stand for life; it's a political hedge. If any representative truly desires to protect the unborn, they must first affirm that all unborn lives are equally valuable—regardless of whether they were conceived in a stable marriage or through the horrors of rape and incest. That means no exceptions for rape or incest, because human dignity does not come with conditions and our laws should reflect that. Speaking of incest—if this bill supposedly safeguards against prenatal discrimination, then why introduce another undefined exception? Many may assume that children conceived in incest are destined for medical catastrophe, but that assumption is made before a fetal anomaly can even be detected. This resembles prenatal discrimination, though not by the same methods—one being based on a priori reasoning, the other on a case-by-case basis. By the bill's own logic, incest should not be an exception. The bill is tangled in its own inconsistencies. HJR 54 is not a victory for life by any definition. A true victory for life would not ask for permission to defend the unborn, nor would it negotiate with injustice. If legislators are serious about protecting life, there are several opportunities this session in the House. Support personhood and equal protection. Request that those resolutions and bills come to your committee and advance them to the floor. Let's repent and remove the evil of Amendment 3 language from our constitution. May God grant us repentance, Adam Cochrun

I'm struggling to understand the desire to move to a minority rule mentality, as we as a State had this as a ballot measure that had the support and won in November. This desire to move to a world where if you lose, you deny the results, you deny the selection of the people that put you in/out of power is not only problematic, it's not how the system is suppose to work. We the people vote, you perform for the will of the people. We need to be adults, accept when you lose and win with grace.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

In November of 2024, Missourians showed up to vote on state amendment regarding reproductive healthcare. On the ballot, an amendment proposed to repeal the state ban on abortion healthcare regardless of an individual's personal circumstance. The amendment proposed to establish a pregnant person's right to seek and receive an abortion without any restrictions or limitations by the government: an unconditional right that the government may not interfere with. Missourians voted in favor for the amendment to pass. As a reactionary measure, RepresentativeMelanie Stinnett has proposed a bill for the government to restrict abortion healthcare to pregnant Missourians to only be accessible for medical emergencies, fetal anomalies, rape, or incest. The Right to Reproduction Freedom Initiative has been approved, but has not officially been implemented. Stinnett and other advocates for this bill are already wanting to restrict abortions to particular situations, discriminating against those who do not fall into that criteria. Missourians seeking an abortion would have to legally file a report on instances of rape or incest before receiving the procedure, and to only allow abortions for those who are less than 12 weeks along in the gestational period. This bill's measures would greatly impact Missourians seeking an abortion due to the government infringing on a person's finite amount of time. This bill's measures seeks to keep restricting the accessibility to reproductive healthcare, healthcare that ought to be available to anyone in need of it. The sooner a Missourian can speak with a reproductive healthcare specialist (someone who has been educated and certified to perform reproductive healthcare procedures--not a different field of medicine such as speech therapy), the sooner that Missourian can receive safe and effective healthcare, make a speedy recovery, and return to their daily life. Missourians have elected the present Representatives to defend and uphold the values and rights in our Constitution, and we would like to hold the House of Representatives accountable to a democratically approved amendment.

It's fact that 58% of voters in Missouri already decided in November 2024 that abortion should be allowed in the state and this should be written into the state constitution as an amendment. So all this bill is doing is literally negating the clear will of the voting citizens of Missouri. And it's completely offensive that it does so by tangling with the Republican performative political hate directed toward gender-affirming care. As a tax payer in this state for 40+ years, I say stop the BS and honor the clear will of the people already expressed. Stop conflating mutually exclusive topics. All you are doing is trying to deceive people and discard their voices, which is completely offensive and lacks professional integrity. We as citizens deserve much better than this.

My name is Adrienne Weston. I am from Webb Coty, Missouri. 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights. Freedom is a Missouri value and the people have voted that Reproductive Freedom is a part of that. Voters made it clear that we support access to abortion and all reproductive healthcare. Our officials that are elected to represent the people need to do just that and not endanger Amendment 3. I would like to share my story. Many women have stories such as my own. My two pregnancies were high risk due to high blood pressure and pre-eclampsia. This condition would likely return and could worsen and we could lose a baby or my own life if I were to become pregnant again. If I were to become pregnant despite my husband having a vasectomy, or heaven forbid I were to be raped, and I was forced to carry that pregnancy due to harsh anti-abortion laws, my living children could be left without a mother. My husband without a wife. My grandmother without her granddaughter. My parents without their daughter. My sisters without their sister. All in favor of an embryo's right to life. There is no form of birth control that is 100% and a woman should not have to give up her life in the event that there is a contraceptive failure.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

On Election Day 2024 Missourians undoubtedly chose Yes on Amendment 3, guaranteeing the rights of reproductive healthcare to the people. HB 54 completely undermines the People's collective choice and makes it clear that the politicians who introduced and support this bill do not care what their constituents voted for. Further, to permit abortion for rape, incest, and medical emergencies but then to restrict those abortions to a set timeframe and allow law enforcement to investigate them before the abortion is a contradictory add on to the exception which creates a moot point and undermines the exception in the first place. Missourians voted Yes on Amendment 3. Therefore, politicians considering this bill should vote NO and cease undermining their constituents wishes.

My name is Alanna, I live in St. Louis. 1,538,659 Missourians voted YES on Amendment 3. Forcing pregnant adults and children to remain pregnant and give birth against their will is quite obviously a heinous injustice. There are a lot of real problems in the world right now besides other people's pregnancies, problems that are killing actual, born babies and children. I would encourage the supporters of this bill to get a life and do something useful with their time that doesn't involve trying to control other peoples healthcare decisions.

In seeking to prohibit abortions, HJR 54 is a direct violation of Missouri Constitutional Amendment 3. HJR 54 also undermines the will of Missouri voters, who voted in favor of Amendment 3 just last year. I urge the Missouri Congress to respect our state constitution and democratic processes.

My name is Alex Hubbard and I am from Saint Louis. Missourians made it clear in November that abortion access is important to them. This resulted in the democratic passage of Amendment 3. I believe the current piece of legislation threatens to undermine this democratic process and go against the values that Missourians clearly expressed in November. This legislation forces the will of politicians and lobby groups onto the people of Missouri and blatantly disregards the democratic process. I am strongly against this bill.

I do not agree with any law that bans an individuals ability to receive an abortion. I do not believe it is the government's right to be able to dictate whether a person should be forced to have a child. There are many reasons why to allow abortions ranging from medical risks to the potential parents inability to financially or emotionally support a child in their life.

This bill fails to protect women and neonates by confusing the will of the people to interfere with prenatal care for women and fetus between 12-23 weeks of gestation or viability. This bill is an attack on the reproductive freedoms of Missourians and muddies which fetal anomalies are covered and that choice is something that is between the pregnant person and her doctors, not the Missouri Legislator. I strongly oppose this bill on the grounds that it violates privacy and the private medical decisions of a woman about her body and her fertility and ability to survive and carry other pregnancies.

As a resident of Missouri, I am frustrated that our state government is attempting to overturn the will of the voters. I personally feel that this puts women and families in danger and women need the protection that this amendment offers. Women with families may need this care in emergency situation, to protect their family, to care for their other children or to prevent their own death. I beg you to reconsider this bill and stand by the amendment that Missourians voted in. We want our voices heard. I also feel that we should trust our health professionals to make these calls and not restrict the life-saving care they offer.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Alex, and I am a pregnant woman in Jefferson County. My husband and I are thrilled to welcome our first child later this year. Every day of this experience has been both beautiful and terrifying. Feeling my body change as I grow a human is a magical experience that I wish on anyone who wants to be a mother. But it's also a uniquely tenuous experience. Early pregnancy is allowing yourself to celebrate the life growing inside you, as well as guarding your heart and not letting yourself get too excited. In Missouri, I have to live with the fact that if we were to suffer an unimaginable tragedy, my life might be threatened because of onerous restrictions on the care that would be required to treat an incomplete miscarriage, otherwise known as a spontaneous abortion. Over the past year, my husband and I spent every weekend knocking doors and putting up signs in support of Amendment 3. Having endured a previous pregnancy loss, we were acutely aware of the need for reproductive freedom in our state. In our deeply conservative area, we met people from all walks of life. We met lifelong republicans who planned to vote in favor of amendment 3 because they believe in small government, as I do. We also met both men and women who supported the amendment based on their own experiences with reproductive health. My point is simple: Missouri voters made their choice, and to ignore that choice, to essentially tell us that we did not understand what we voted for, is a level of disrespect that no Missouri voter should forget. Why should we trust that our representatives have our best interests at heart when you consistently ignore the will of the voters? The language of this bill is vague and unscientific, written by people who have no interest in protecting women like myself. What defines a fetal anomaly versus a disability? When a child is raped by a family member, is she expected to go to the police immediately? What if the perpetrator is her main provider? If she does not and becomes pregnant, should she have to put her life and mental health at risk? You haven't thought through this, you just want to try to overrule the will of the voters. How can you say you represent us? As a woman, and as a mother, I believe that every person has the right to make their own medical decisions without government interference. If you respect your voters, you should, too.

The people of Missouri have voted on this issue and clearly stated their wishes on this matter. Yet again, our elected officials who are supposed to do as "we the people" direct them to do, are trying to override the will of the people. Women do not want to be second class citizens in our state. We don't want people who clearly don't have a clue about anatomy or science or medicine or anything based in actual fact deciding our healthcare for us. This doesn't "save babies." If that was the goal all men would be given vasectomies when they hit puberty. Much more effective if that was the goal, but we all know the goal is to subjugate women. We don't need or want your "protection"--we have DOCTORS for that. 1,538,659 Missourians voted YES on Amendment 3--you were elected to defend those rights, not try to overthrow the will of the people. You said "states should decide the matter." We did very clearly and we expect our legislators to abide by the will of the people. I am appalled that you waste the time and money retrying the same question over and over again thinking you can trick people into voting or supporting this attack on the women of Missouri. If you don't want an abortion, don't have one, but leave medical decisions to women and their doctors. Vote NO on HJR 54 - Stinnett- REPRODUCTIVE HEALTH CARE

As a Missourian I voted to protect reproductive freedom for all women. When I faced the choice of what to do when I became unexpectedly pregnant, I chose to have my daughter. Every woman and family should have the right to choose. Women's rights and the right to control my body should outweigh a possible person. In addition, the will of the Missouri people is to respect women to make the right choice for them and their families. I am thankful I was able to chose to have my daughter out of love and not be forced into a pregnancy or raising her. Forcing women to raise children is detrimental to not only women and families, but the soon to be child. Please value my rights and the rights of women across Missouri. Thank you.

I know you have overruled the people of Missouri who passed a ballot initiative before (Medicaid expansion) but PLEASE let the will of the people stand and let families make personal decisions for themselves. I was denied an abortion 30 years ago when my husband and I found out our very planned and wanted pregnancy had gone terribly awry. We were told it was not legal to do a procedure in Missouri beyond 24 weeks. After the birth she spent 31 days (& \$100K) in a neo-natal intensive Care Unit before life support was removed. No family (parents, grandparents, aunts and uncles) should have to endure this.

The protection of abortion rights is fundamental to ensuring that women have autonomy over their bodies and their reproductive health. Access to safe, legal abortion is a basic human right, critical for safeguarding women's health, equality, and economic independence. Without this right, women face significant barriers to controlling their own futures, which disproportionately affects those in marginalized communities. Restricting access to abortion does not eliminate the demand for it; it only makes it more dangerous. Upholding abortion rights is not just about reproductive health—it's about empowering women to make decisions that are best for their lives, their families, and their well-being. It is essential that we protect these rights to ensure a society that values women's autonomy, equality, and dignity.

My name is Allison Franklin, I'm from Kansas City and I am one of the 1,538,659 Missourians who voted YES on Amendment 3. Just a quick reminder that you were elected to defend the rights of your constituents and we clearly voted for the protections in amendment 3 and this bill is in direct opposition of what we as Missourians clearly voted for. Reproductive Freedom is a Missouri value and I'll state again, we overwhelmingly voted to protect a woman's right to make any and all decisions about her health and body. Please stop threatening the women of this state and focus on issues like the overwhelming amount of homelessness and hunger throughout this state, not to mention the drug problems and child abuse/neglect and human trafficking that is happening in our state. Do better for all of us not just your base, that lost this fight when taken to the masses. We spoke now let's see if you can LISTEN and do your job, the job we the people demand of you and that's not permission to inflict your religious morals or values on the rest of us. We voted overwhelmingly against the radical ideas of Christian nationalism that's infecting our nation. If you choose to go against the people's wishes it will not be forgotten come election time. Best regards

Politicians and religion should not have a say in the choices available to women. Why do we want to further overrun and already overrun system of putting children in dangerous foster homes? You people opposing abortion do nothing to help children after they are born. You complain about welfare and food stamp recipients hurting the economy but want to add to that? Women are shamed for having sex. Wanting an abortion. Filing for assistance. While my ex husband refuses to maintain a job that will provide support to his child. It's always a choice for a man. Yet if I acted in the same manner as a parent-I'd lose custody. Somehow it's always the woman's problem to figure out on her own. If you want to hold people accountable for unwanted pregnancy start with harsher punishment for sex offenders, rapists and abusive men. If they don't pay support or evade enforcement put them in hard labor positions that require income to be paid to the children they insisted on bringing into the world. Stop hiding behind religion as a way to control women.

As a Missouri native, it enrages and disgusts me that our government is trying to strip fundamental human rights from the women in this state, especially when WE THE PEOPLE voted to enshrine those rights. I am a married 27 year old woman who would like to start a family, but I'm SCARED to become pregnant in the state I call home, because I fear that my doctors will have to choose between my life and theirs behind bars. Women are people, not things to be controlled and killed. It is truly despicable for any government to overrule what the people want, especially when all they want is to survive.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am submitting this testimony in opposition to HJR 54. First, the people of Missouri voted in November to protect women's reproductive care. This bill ignores democracy and instead acts to continue limit and hinder women as they attempt to get desired and needed care. The House, if they were to vote on and pass this bill will show a true and complete indifference to the will of the Missouri people they claim to represent. Second, the language of the bill itself is concerning. In 36(a)(1) abortion access in the case of rape/incest is limited to those that can prove they reported it to authorities. This is a dangerous precedent to set because abusers resolved to make a woman carry their child could prevent a woman from reporting the rape/incest by threat or otherwise and the woman will still not have the freedom to make choices about her body. This section also presumes that a woman is emotionally and mentally able to report the crime to authorities. Victims of these heinous crimes more often than not DO NOT report because of fear, embarrassment, doubt in the situation, victim blaming, worry they will not be believed and more. And young women or teens/young girls sometimes do not even understand they have been raped and it is beyond comprehension that they would be able to report the crime when they may not even understand what happened to them. Or in an attempt to protect their abusers, also choose not to report. Assuming a woman (or GIRL) is capable of reporting the rape/incest is a privileged assumption that should not be used to prevent any woman or young girl from receiving the care she desperately needs and should be entitled to. Third, regarding 36(a)(3), some women are not in positions to care for a child with abnormalities either financially, physically, mentally etc. Everyone does not have to agree with the decision, but no one should be forced into a situation with a child they are not able to care for because the state of Missouri thinks so. And do not say adoption is an option; as of December 2024 according to DSS there are 1,834 children waiting to be adopted and 11,159 children in foster care. Maybe instead of forcing women to have children they do not want, we should focus on getting those numbers to zero. Fourth, 36(a)2, it is encouraging to see miscarriage specifically called out and allowed in this bill, but there is confusion caused by the complete abortion ban the bill moves to put in place because much of the treatment for miscarriages is one and the same with abortion care. The concern is that this section is too vague and that some care for abortions will be disallowed hence, receiving miscarriage care will become more difficult. Additionally, "medical emergency" is such a broad category, the types of medical emergencies women face is so extensive we would never be able to write out a list, but the issue is that by enforcing a full and complete abortion ban with an "exception" for medical emergencies will cause doctors to hesitate and consider if the women's life is at risk or is this just a bad situation. Is it truly an emergency, yet? Do doctors have to wait till the woman's life is immediately at risk or if they see the issues coming can they act first BEFORE her life is at risk? Where is that line drawn? Do OBGYNs need to bring their lawyers into delivery rooms? Who in the House is determining what constitutes a medical emergency? In conclusion, the people of Missouri voted to protect abortion access, this bill moves to ignore that and

limit access and contains vague language that lends to cause problems and lawsuits for doctors simply trying to help their patients get the care they need and desire. The legislature has no business telling women what they can do with their bodies or dictating when they can do it. Thank you.

I am in opposition to HJR 54. This country is SUPPOSED to be a democracy. We vote, and the winning vote is supposed to be enacted. Over 1.5 MILLION (1,538,659 to be exact) Missourians voted YES on Amendment 3. I am one of those Missourians. You were elected by winning a vote, and you were elected to defend the rights of the people in your state. Missourians made it CLEAR at the ballot that we want access to reproductive health care, that we support access to all reproductive healthcare, including but not limited to abortion. It has been voted on and made clear that Reproductive Freedom is a Missouri value. Our government should reflect those shared values not threaten them, not decide that if they don't agree, they can simply override them. The will of the people must be respected. Otherwise, this is all a sham. My vote and my voice matter, and it needs to be listened to.

This proposal is a shameful attempt to suppress the will of the Missouri electorate. One million five hundred thirty eight thousand six hundred fifty nine Missouri citizens voted to enshrine reproductive rights into our Missouri Constitution. Further, this is a dangerous attack on the right to privacy and a degrading interference in the providence of healthcare. It is unamerican for government officials, with zero medical qualifications or consent, to attempt to control what treatments are available to individuals - especially as you are doing so without regard for the individuals' personal needs or the practice standards and assessments of qualified, trusted healthcare providers. You have no more business interfering in my healthcare than I have in yours. Your personal feelings about the safety or justification of medical treatment matter only to you and your healthcare team. You had the opportunity to vote on this amendment. What you do NOT get to do is take that right away from the electorate. We have spoken. Finally, your entire job is to represent the will of your constituents, not the will of your donors or your religious leaders. Instead of disrespecting the will of your constituents, you need to get to work on the legitimate concerns of Missourians. If you cannot faithfully execute your duty to honor the will of the Missouri Electorate then you need to get a different job. All governmental power is derived from citizens and you would do well to remember it.

Missourians voted on November 5th 2024, to protect their right to reproductive freedom. In all ways, shapes, and forms. We were not confused, misguided, nor ill informed. No one should be making any decision for another's own body except that person, with the information given to them by their medical provider. Another's thoughts and opinions are NOT facts for the next person and as such, cannot be pushed on that individual without violating individual rights and freedoms. This is true for all matters regarding reproduction, from birth control, medical procedures, sex education, abortion, screening tests, and so on. Amendment 3 enshrined that right for all Missourians and should be upheld as the majority was reached as required to pass.

I am writing to express my strong opposition to JHR 54. It is essential to recognize that the voters have already spoken on this matter, affirming their support for women's health and reproductive rights. Abortion is healthcare, and restricting access to it places women's health at significant risk. The right to make decisions about one's own body is a fundamental aspect of health care and during the previous ban, we saw women across this great nation needlessly lose their lives. Denying access to safe and legal abortion services jeopardizes women's physical and mental well-being. Studies have shown that when women are denied abortions, they are more likely to experience negative health outcomes, including increased rates of maternal mortality and psychological distress. Historically, the fight for women's rights has emphasized the importance of bodily autonomy and access to comprehensive healthcare. Legislation like JHR 54 not only undermines these principles but also threatens to roll back the progress made in safeguarding women's health. I urge you to consider the implications of supporting this legislation and to prioritize the health and well-being of women in our community. Access to safe and legal abortion is a critical component of healthcare, and we must protect it to ensure that women can make informed choices about their own lives. Thank you for your attention to this vital issue.

I urge the committee to vote against this bill. I am never surprised when MO legislatures try to change the will of the people. Missourians voted in favor of amendment 3 for personal bodily autonomy. This is an out of touch power grab and is NOT "protecting those most vulnerable", especially when this bill includes a condition that a person must report a rape within 48 hours before an abortion can be granted. That is harmful to the victim. According to the National Sexual Violence Resource Center, rape is the most under-reported crime. Including language to ban surgeries, hormones, and drugs given to minors for the purpose of gender transitions is just a sneaky way to strike down the sunset clause in The SAFE Act which already bans surgery for minors. Missourians deserve to make their own decisions about their own health care, not politicians.

My name is Amanda Loyd and I am contacting you in regards to HJR54. This bill directly attacks Amendment 3, which was voted on and passed by the people of Missouri. It has already been made clear that your constituents do not want the government to interfere in their medical or family planning decisions. As a mother of two who had preeclampsia with both children and faced emergency inductions, I know the importance of relying on the knowledge and experience of a healthcare provider and that healthcare provider's ability to act quickly based on the needs of her patient and her patient's unborn child. Had it been required that we wait for approval by the state to receive treatment, I could have very well begun having seizures, risking the health and life of myself and my baby. "Reproductive health care", as referenced in the document, should actually refer to expanding the best healthcare possible to the people of Missouri, rather than limiting access to healthcare, reproductive or otherwise. Thank you for accepting the outcome of the November election and discontinuing your attack on an amendment that was democratically voted upon. Thank you.

I oppose this "resolution" as it directly opposes the will of the voters. Over a million people voted in favor of Amendment 3. To turn around & try subverting the will of the people is anti democratic. I am in Melanie Stinnets district & am disgusted that she authored this nonsense. I will be sure to tell every person & neighbor I come across that she doesn't believe in the will of the voters. The people have spoken, it's time you listen. Elections may have consequences but so do your actions. Shameful.

I'm Amanda and I'm from Oranogo. Missourians made it clear at the ballot- we support access to abortion and ALL reproductive health care. Our government should reflect those shared values not threaten them. 1,538,659 Missouri people voted YES on amendment 3 and you were elected to DEFEND those rights. Reproductive freedom is a Missouri value. This is an attack on the fundamental rights of Missouri citizens to make personal choices about their bodies. This resolution doesn't protect life- it destroys the right to live freely and SAFELY. Politicians don't belong in our personal medical decisions. This puts lives at risks by not allowing safe and legal reproductive healthcare. This will force Missourians to seek unsafe, illegal procedures leading to infection, infertility, and death. This is about life like they claim-it's about control. This is sure to drive health care professionals out of our state so they can avoid legal traps. Low income communities, people of color, and rural Missourians ALREADY struggle to access healthcare. This will trap them and the result will not be good. This is inhumane, cruel, and extremely dangerous. It shows a complete disregard for the lives, health, and dignity of Missouri people. This is just a bad policy- it's a moral failure. If you pass this, you are complicit in the suffering and deaths that will follow. We, the people of Missouri, will not forget who turned their backs on our freedom and health.

Why do you want unborn fetuses and corpses have more rights than women? By not allowing women to make their own decisions, with regards to how her body is used and by whom, at any point in her life, you are giving the unborn more rights than the woman. Even a corpse is allowed to retain bodily autonomy, otherwise we would have automatic organ retrieval after death.

Hello, my name is Amber Frazier. I'm a resident of Lee's Summit, Missouri. As a resident and voter I oppose HJR54. I along with other Missourians voted in favor of Amendment 3 which would allow a woman the right to make her own choices regarding reproductive freedoms "without the infringement of the government". The people have spoken and their will should be carried out as such. Our Democracy was founded on this most basic principle. I implore you to follow through with the people's decision. Missourians have entrusted you with the task of being representatives for our wishes and best interests. We hope that you do not take this trust lightly.

9 years ago, I suffered a series of devastating miscarriages. Instead of leaving me in peace to go through the physical and mental pain of these losses, to receive the medical care I needed to survive this common experience, and to grieve the loss of my children and my dream of having another child, the Republican Party would have refused me life-saving medical care, preferred I become horribly sick, possibly die, or would have arrested me for something I had zero control over. Missouri has passed Amendment 3 because Missouri citizens understand that abortion is health care and decisions about reproductive health care should be between a patient, their family where appropriate, and their doctor. It is no one else's business and especially not something the government should be deciding for folks. Stop targeting women with this unnecessary abuse and wasting taxpayers' time and money trying to overturn the will of the voters and do something that actually helps its residents rather than pander to a small group of misguided folks who are being lied to about what abortion actually is.

As a sexual assault survivor I can testify that it is imperative women have the ability to make choices about her own body, especially when the very act of rape has taken any choice away from the victim. The voter's voice is being removed and is not protected if lawmakers can circumvent the will of the people, by creating or removing laws that were democratically voted in by the people the lawmakers are portored to answer to.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

HJR 54 is a direct attack on the reproductive rights of Missouri women, placing them in greater danger by imposing extreme restrictions on abortion access. By limiting abortion to cases of medical emergency, fetal anomaly, rape, or incest—and even then, requiring unnecessary law enforcement reporting—the resolution disregards the realities women face in making these personal medical decisions. These barriers will force many women to seek unsafe alternatives or travel long distances for care, increasing the risks to their health and well-being. Additionally, restricting medical professionals’ ability to provide essential reproductive care under the threat of liability will discourage doctors from offering life-saving treatment, leading to unnecessary suffering and preventable deaths. What makes HJR 54 even more egregious is that it directly undermines the will of Missouri voters, who already expressed their support for abortion rights when Amendment 3 passed in the last election with 52% approval. Instead of respecting democracy and prioritizing women’s health, lawmakers pushing this resolution are ignoring the majority opinion and enacting policies that put women in harm’s way. Pregnant individuals facing complications, abuse, or financial instability will suffer the most under these restrictions, while those with resources will still find ways to access care elsewhere. HJR 54 is not about protecting life—it is about controlling women’s bodies, stripping them of their rights, and ignoring the voices of Missourians who have already voted in favor of reproductive freedom.

My name is Amy Bedgio and I reside in Crestwood, MO. As a mother and woman, I believe it is essential that abortion remain a safe and viable option in healthcare. It has been proven repeatedly that abortion bans do not prevent abortions, they just make women seek unsafe alternatives with devastating consequences. In addition, we know that restrictive reproductive policies result in adverse economic effects (reduced workforce participation, lower educational attainment, and diminished productivity). 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights. Reproductive Freedom is a Missouri value Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them.

The people of Missouri voted to solidify the women's right to choose. The ability to receive an abortion is a woman's right and a form of health care. Trying to overturn the decision of Amendment 3 is a slap in the face to all constituents. The legislature is seeking to upend Amendment 3, which – after being passed by the majority of Missourians in November – enshrined reproductive freedom in the Missouri Constitution.

Allowing the individual to make their own decisions about their body is paramount. We teach children that their body is theirs to decide what to do with it. They decide who touches it, who they hug, when they want something to happen to it. It's called body autonomy. And it is SO important to a child's wellbeing. We should not rescind that as they age into adulthood. All people should get to decide whether or not they want something to happen to their bodies.

The people of Missouri voted in favor of reproductive rights and ending an abortion ban in the state. Please respect your constituents and the results of the election. It is as simple as that. Reproductive rights are more than abortion and more than women "using abortion as birth control." If you do not have an education in health care, you should not be trying to make these decisions for people. 1 in 4 pregnancies ends in miscarriage. It is DEVASTATING for families, and the majority of the sadness, shame, guilt fall on the mother who desperately wanted that child. Many of these miscarriages require intervention, including a D & C. An abortion ban can stop access to this life-saving, extremely common procedure. "Abortion" does not just cover unwanted pregnancies. "Abortion" access means appropriate care for mothers who experience a miscarriage but need care to safely recover. Abortion means appropriate care for avoiding sepsis in a mother whose child has already died in the womb. Abortion means optional care for a woman or child who has been raped and impregnated. It means so much more than you are making it out to be. Respect the voters. Respect women.

To our elected officials, Thank you for your service to our state. In November we as Missourians were asked our thoughts on access to abortion. Missouri spoke at the ballot box with a clear vote to allow access to abortion as a fundamental piece of reproductive healthcare. Missouri has spoken. Now is the time to listen. I am gravely disturbed to see HJR54. You are eroding trust in your constituents by ignoring what was so clearly spoken only a matter of months ago. As a person of faith, I have spent years on the so-called "pro-life" side. But I've changed my stance seeing the immense dangers that arise, the devastation to women's bodies and lives, the increased mortality rate that is a direct result of blocking abortion care. All women are harmed by anti-abortion laws. Ask the women who have lost their ability to have children after not receiving care from natural miscarriages, their state's abortion ban preventing evidence-based standard of care. Ask the medical professionals begging you to let them do their jobs while you do yours. Personally, while I have longed for another child, I would be terrified to discover a positive pregnancy test with anti-abortion legislation. Would I be able to receive care if complications arise? The is a very real fear for many women wanting to expand their families. Now, I'm hearing women as young as 20 seeking sterilization as a way to bring a sense of safety to their futures. May God's wisdom illuminate the task before you. May you not lose sight of your call to uphold the will of the people. With respect and gratitude

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Madam Chair and members of the committee, thank you for allowing me to testify this afternoon in opposition to HJR 54. My name is Amy Kuo Hammerman and I am the Missouri State Policy Advocate for National Council of Jewish Women, based in St. Louis (NCJWSTL). NCJWSTL is a non-profit organization in metropolitan St. Louis, representing over 5,000 members and supporters throughout the state. We focus our work on community service, advocacy, education and philanthropy to improve the quality of life for women, children and families while supporting individual and civil rights, and have been doing so since 1895. The introduction of HJR 54 raises significant concerns regarding the fundamental rights of individuals in Missouri, in this case in relation to reproductive health decisions. However, if this were to pass, the fundamental rights of Missourians in all areas would be at risk. This resolution appears to directly challenge the overwhelming sentiment expressed by the electorate, who have decisively voted to repeal the previous abortion ban and to establish reproductive freedom as a constitutional right. It is imperative to recognize that the voters of Missouri have articulated a clear message: the authority to make personal healthcare choices should remain with individuals, free from political interference. Upholding the will of the people is essential to maintaining the integrity of our democratic process and ensuring that personal liberties are respected. It is our legislature's responsibility to uphold the constitutional rights of all Missourians, including decisions regarding one's body and health that are deeply personal and should not be subject to legislative overreach. NCJWSTL urges you to vote no on HJR 54.

I feel very strongly that The State should play no part deciding what medical care is or is not necessary to any person. Medical providers are educated to understand a wide array of conditions that take into account the mental, physical and emotional toll that simply being human entails. To deny a person of medical care, including abortion, is to tell them that what they need for their own life doesn't matter. That their life doesn't matter. Limiting abortion access has always caused more problems than it's solved. If you care about life and the living, I urge you to let the actual doctors do the doctoring. I oppose this bill.

Overturning the will of the people because you don't agree with the outcome is the opposite of what an elected official is supposed to do. Missouri voted. Amendment 3 was legally on the ballot and legally voted on and legally passed by a majority of Missourians. Elected officials should not impose their bias to overturn the will of the people.

We the citizens of Missouri already voted on this and passed it. Just because you don't like the way the citizens voted doesn't mean you get to overturn our will. Additionally, this bill is dangerous and puts our citizens at risk. Most people do know they are pregnant by 12 weeks especially young incest victims. To make incest victims carry the product of their rape is just cruel. Next, this bill makes no provision for the health of the mother what happens when mothers like myself miscarry and need a DNC, which is essentially the abortion procedure, to keep from hemorrhaging and bleeding to death. This can happen at anytime for me it happened at 20 weeks, for my grandmother it happened at 30 weeks. For my grandmother Roe didn't exist, she almost died and lost her ability to have more children. For me, Roe existed, I was able to receive appropriate care and go onto become a mom to two wonderful children. Please listen to voters, we elected you to listen our voices not ignore them.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

My name is Ana Heermann and I am a lifelong Missouri resident, currently in St. Louis City. Amendment 3 was passed by majority vote in this state, and HJR 54 is an attempt to undermine the will of the people. Missourians are known for standing up for our rights and freedoms. Missourians believe in choice, autonomy, and the constitution, and when we see injustice we stand up to change that. Amendment 3 was one such action because Missourians saw that it was unjust to take away personal choice from a whole group of people simply based on their reproductive organs. After the fall of Roe v Wade, Missouri women, white women, black women, women of color, wealthy women, middle class women, and poor women all became second class citizens when it comes to their healthcare. I would not be here today to testify on our right to abortion and body autonomy without my mother having been able to make that choice for herself. Like many women, she found herself in a toxic and physically abusive relationship that resulted in a pregnancy. Though she feared for her life, she was able to obtain an abortion legally and flee her situation. Because she had the choice in this matter, she was able to leave her abusive partner and eventually had me and my younger brother. Because she had the choice, my nephew is here. Because she had the choice, I am here. Missourians, men and women, deserve to continue to have a choice in their family planning. Choice in family planning makes for healthier, happier families, more personal wealth within family units, makes our economy stronger due to families having income to spend, and creates the chance for our young people to grow up into adults that seek higher education and want to improve our cities and states. I would implore our House and Congress members to actually read up on the statistics of cities/states/countries that have open access to not only abortion services, but 100% free contraceptive care and reproductive healthcare. People are markedly happier, have more wealth, and contribute to their communities at a much higher rate. States that have not banned abortion have lower rates of mother and infant death, have lower percentage rates of people on state and federally funded programs, and have lower crime statistics. Unwanted children, especially young boys, are statistically more likely to fall into a life of crime. This is not what Missourians want or need. We need comprehensive reproductive healthcare that includes all aspects of family planning. Undermining the tenets of our state constitution and its amendments is many steps towards fascism, and Missouri citizens will not stand for it.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Dr. Andrea Lui, and I'm a physician from St. Louis. I strongly oppose HJR 54 for multiple reasons. First, over 1.5 million Missourians -- an unquestionable majority -- voted YES on Amendment 3, which in no uncertain terms added the fundamental right to reproductive freedom to our state Constitution. The verbiage of the Amendment was perfectly clear, and it is your mandate as elected representatives to uphold the will of the people of Missouri. Supporting HJR 54 would therefore be subverting the entire purpose of your position in government. Second, as a physician trained in obstetrics, I strongly support the right of a pregnant person to have autonomy over their own body. I have personally seen in my patients the devastating toll an unwanted pregnancy can take, both physically and psychologically. Maternal morbidity and mortality rates, even today in this most advanced of nations, are not insignificant. There are innumerable risks inherent to carrying a pregnancy, even a desired one. No one should ever be made to accept those risks against their will. Like the founders of this country, I firmly believe in the importance of individual freedom and self-determination. The right to choose what happens to one's own person is the most basic freedom of all. Because of this, I -- along with the majority of Missourians -- voted to support enshrining this right in our Constitution. Therefore, in the interest of upholding the value of personal freedom as well as respecting the will of your constituents, I call on you to oppose HJR 54. Sincerely, Andrea Lui, MD

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Andrew de las Alas, I live in University City. For the last four years, I've paid taxes, volunteered, lived, and worked in Missouri. At WashU, I am fortunate to study international politics, intern with the public defender and the International Institute. Quite simply, I have called St. Louis home and worked towards on behalf of its betterment. I've also been involved in politics: I cast my first ballot, and voted in a presidential election for the first time. Last November, I also voted for Amendment 3 because I believe that the reproductive health is critical healthcare that should not be restricted by the state. I oppose this bill as a blatantly anti-democratic attack on voters like me. Instead of focusing on access to education and better infrastructure, politicians are using taxes — my taxes — to make Missouri more restrictive. In 1904, my great-granduncle came from the Philippines to the United States on a scholarship. He worked at the World's Fair, walked through the same park, and saw the same campus I see today. Later, he took what he learned in the United States back to the Philippines to serve as a Senator and life-long public servant. You have a chance to honor the democratic process, the one that inspired him an ocean away, by opposing this bill. Moreover, it is well established that abortion bans hurt the state. Missouri has lost over 4 billion dollars and our GDP has shrunk by 1.1% according to the International Women's Policy Institute. This policy is anti-democratic and fiscally unsound. I oppose.

First, Please separate trans issues from abortion issues. The waters are muddy enough without combining two very different things into a single amendment. Second, I must point out that prop 3 passed. I understand that many in our state may be unhappy with the outcome of prop 3, yet there was a clear majority. Since this issue will not seem to go away, I would like to propose an alternative that should be a welcome compromise within our state and make Missouri a place for everyone. I believe we should protect the right to an abortion, but require that they only be done at licensed facilities. Each COUNTY will have the authority to license a facility for these procedures and will control how many licenses are issued within their jurisdiction. This would allow an effective ban of abortion in counties where 0 licenses have been issued. As you know, our great state has many very conservative constituents geographically disbursed and many very liberal constituents in the denser population areas. I believe this solution could keep Missouri attractive to all Americans and offer us a chance to be influential to other states who are struggling with this same issue right now. In the interest of preserving democracy, this suggestion helps all Americans live in an area where their voice is heard and they agree with the laws they live under. Thank you for your consideration.

This bill will only cause issues for the unwanted children and for people who can't afford or take care of the child. Unwanted children can lead to foster care, death by abuse, disability's from drinking or doing drugs with fetus, mental illnesses for child and mother. It's not fair to allow unwanted pregnancy's with a faulty child care system. This isn't just about religion and "murder" this can lead to many terrible consequences in the future of the mother and child AND SOCIETY

Forced birth is wrong. Pregnancy & childbirth have always been fraught with risk of death. No person in a free country should be forced to choose risking death against their will. It us up to each person to determine if they are actually qualified to parent, have the resources to provide, and -most importantly- the desire to raise a healthy, secure, loved child up into a functioning member of society.It's simply unconstitutional for the government to take away procreation & health decisions from those who are putting their very lives on the line. In a state that has seen an increase in maternal and infant mortality, it is clear the concern here is for power and control, and not the health care of the citizenry. Where is your bill to stop vasectomies? Abortion saves the lives of people.

To the Members of the House Committee on Children and Families, As a Missouri voter, I strongly oppose House Joint Resolution 54. This proposed amendment disregards the will of voters and seeks to impose extreme restrictions on personal medical decisions that should be left to individuals, families, and their healthcare providers—not politicians. The people of Missouri have made it clear that they do not support extreme government overreach into private medical matters. This resolution is an attempt to undermine democracy and disregard the voices of the very constituents you were elected to serve. Missourians deserve the freedom to make personal healthcare decisions without political interference. I urge you to respect the will of the people and vote against HJR 54.

There is NO place for our government to be interfering with the healthcare between a woman and her doctor. When it does we now have proof woman die! If you have a religious objection then take that up with your god. No one is forcing you to go against your religious beliefs. Missourians already spoke to this Nov 5 2024 election and already once again our government is ignoring the will of the people!! Because of politicians' desperate need for a power grab we are even having this debate. Representative Melanie Stinnett stay out of Missouri women's reproductive healthcare (As a speech pathologist you are not qualified) and start listening to the Missourians' majority vote that has already been decided!

I worked endless hours getting signatures in order to get abortion rights on the ballot. I stood in front of our library day after day to accomplish this. Many who signed were very grateful to have the chance to sign. The Missouri voters overwhelmingly supported the passage of Amendment 3. The Missouri legislature is supposed to work for their constituents, a majority of whom supported Amendment 3. The legislature needs to respect the will of the people. Remember, we pay your salaries!

My name is Annie Wimmer and I live in Mexico, in Audrain County. As elected officials, you are to serve the people of Missouri. Recently we have voted in several different ways to protect our abortion access as well as all reproductive rights and health decisions. Overwhelmingly, Missourians have voted again and again to retain those rights. 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights. Reproductive Freedom is a Missouri value and Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them

Good afternoon, committee chairs and members. Thank you for the opportunity to express my opposition to HJR 54 and for your service to my home state of Missouri. I oppose this resolution not to debate the morals and ethics behind abortion or when life begins but rather the simple fact that Missouri voters have already spoken on this issue by passing Amendment 3. Your job, as our representatives and public servants, is to uphold the will of the people and the communities you serve, regardless of your personal opinion or vote on the amendment. While I voted in favor of the amendment, if Missourians ultimately rejected it, that is democracy and what makes our state and country what they are. This is what veterans and people who love this country have died for. It is your fundamental and simplest duty to uphold the will of the people. I encourage those in support of this resolution to reconsider and show integrity by rejecting this bill. Thank you, Anthony Crapisi

My name is Anthony and I am a resident of Kansas City, Missouri. My wife and I were one of the 1,538,659 Missourians who voted YES on Amendment 3—you were elected to defend those rights. HJR 54 is a direct attack on the will of Missouri voters and a disgusting example of how out-of-touch Republican leadership in the State of Missouri is with their own constituents. Reproductive Freedom is a strongly-held Missouri value. You can drone on and on about freedom, but if every single person doesn't have the right to bodily autonomy - then "freedom" is just an empty talking point. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care. Our government should reflect those shared values not threaten them like HJR 54. You were elected to represent your constituents, not suck up to a tyrant. Do your job and enact the will of your constituents.

I am a 35 year old Missourian woman who is now terrified to become pregnant. I originally wanted a big family, but all of these restrictions might leave me bleeding out in a hallway with doctors too afraid to treat me, a woman who wanted to become a mother. As it stands today, I don't know if I will ever be able to become a mother because these draconian restrictions on a woman's body. Doctors, who are trained to HELP people, are forced to do harm to their female patients because the government told them their lives do not matter anymore. You are causing the wholesale destruction of Missouri families. I hope you enjoy your kids today, because they aren't going to want to have children in this horrible world you are creating. You are monsters. Enjoy your children, because you STOLE MINE. I hope you all are ready to live with blood of innocent women on your hands. Monsters. All of you. I am ashamed to be a Missourian, I am ashamed to live in a country that doesn't value me. Think about your daughters and granddaughters. You want them to die for a rapist's baby? Are you kidding me. What a joke. I can't believe you people call yourselves human beings. Disgusting. I hope the next time you go to the doctor, they just cut your balls off. I hate you all so much and I hope the building you are in smells like assholes. Oh wait, surely it does.

Missouri voters have voted to protect abortion rights in the constitution. This bill does not do that. It extends the ban to 12 weeks, but still puts way too many restrictions on abortion. Women are dying trying to get the reproductive care they need, the voters have spoken and you are expressly denying their wishes. Not to mention there is no reason for transgender treatment restrictions to be thrown in with this. We elected you all to be our representatives. This bill does not represent the will of the voters

Missourians voted. Listen to the voices and votes of your constituents. I am a mother of two in peri-menopause. I should not have children at my age given the high risk of fetal abnormalities. My husband and I follow proper safe sex measures, but those are not 100%. I should be given the right to make decisions for my own body. My 19 year old daughter doesn't want children. She has asked to have a tubal ligation procedure because she fears what would happen if she were sexually assaulted and forced to carry a child. Above all, women should be able to make decisions regarding our own Healthcare with the consultations of physicians. The federal government sent the issue to the states and Missouri voters have spoken.

When the people speak through the democratic process—when an amendment is vetted, challenged, and ultimately upheld—it is the duty of elected officials to respect that decision. Attempts to undermine this process are not only a waste of time but a blatant disregard for the will of the people. It also suggests that voters are uninformed or incapable of understanding their own rights, which is both false and deeply insulting. Democracy works when leaders listen—not when they attempt to rewrite the results they don't like.

My name is Ashley Rehm and i am in opposition to HJR 54. I grew up being promised that being an american was the greatest gift to the world, i could do anything i wanted, be anything i wanted, and make choices for myself. Now, I'm finding these rights are being stripped away from me. I am willfully child free and have taken permanent and un-reversable steps to ensure that. I believe every single person should have the ability to choose their future and not be shoehorned into a role just because their "gender" denotes baby carrier. I know what i was voting for when i said no to amendment 3 and i will not have my constitutional rights taken from me because some individuals believe i am not smart enough to make my own decisions because i am a woman.I can make my own choices because i am an american and that is my right. We will not go back, we will not yield, we will not stay silent.

1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights. Don't you dare take our vote AND democracy away from us! We support access to abortion and all reproductive health care - including hormones, drugs and surgeries for gender transitions. It's not up to YOU! It's up to the team of doctors, care providers patients and guardians. Missourians want and deserve to make their own decisions about their own healthcare, and our bodies are not politicians' business. Without abortion care my life could have been lost due to the confusion and fear associated with these ridiculous stipulations! Don't you dare go against the will of the people of Missouri. This is an abuse of power - as we are seeing this abuse unfold all over our country. Where does it end? World domination? ! Think again. What side of history do you want to be on? The mighty will fall, and you will go down with the ship. Respect the vote of the Missouri people and MOVE ON!

I strongly oppose House Joint Resolution 54, which seeks to overturn Amendment 3, a measure Missouri voters decisively passed to protect reproductive freedom. This resolution not only disregards the will of the people but also sets a dangerous precedent where politicians override voters' decisions to push their own agendas. Restricting reproductive rights endangers lives by limiting access to essential health care, increasing maternal mortality, and forcing individuals into unsafe situations. You were elected to represent us, not to undo the choices we made at the ballot box. Respect democracy, protect our rights, and vote against HJR 54.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am an attorney and Missourian writing to oppose HJR 54. The bill demonizes the transgender community and uses gender affirming care as a cover to also restrict access to abortion, putting women's lives at risk. This bill purports to have exceptions for rape and incest; however, the requirements around these "exceptions" have the practical effect of preventing victims of abuse from obtaining the care they need. Must a 13-year-old victim of domestic abuse put herself in further jeopardy by filing a police report with her abuser before obtaining an abortion? Under this bill, she would. Must a 20-year-old college student relive her date rape trauma multiple times (with doctors and the police and campus safety) to put her nightmare behind her? Under this bill, she would. Not to mention that, in some of these cases, a woman or young girl might not even know she is pregnant until it is too late for her to file a report, obtain an appointment with a doctor, and then receive sufficient documentation to obtain the care she needs. To force a victim of violence to go through these administrative hoops is dehumanizing and life-threatening. HJR 54 also creates unnecessary confusion that has the practical effect of standing in the way of doctors' ability to care for their patients. While this bill claims that a woman could receive an abortion due to a medical emergency, a doctor could also be found liable or lose their license due to negligence or intentionally causing damage to another person related to miscarriage or abortion care. How should a doctor read this? How should a hospital read this? A doctor does not have time to confer with their lawyer before making a life-saving medical decision. A doctor needs to be able to provide the care necessary to help their patient. HJR 54 prevents a doctor from doing their job. Missourians have already voted on and approved of Amendment 3, which provide reproductive freedom to all pregnant people in the state. Representative Stinnett's bill seeks to undue the will of Missourians, which is antithetical to democracy. The people have spoken, and our elected leaders must honor the voice of the people. On a personal note, Missouri's former draconian abortion law has impacted my relationship with my partner. It has caused me to reevaluate whether I am willing to start a family or even risk becoming pregnant. I am frightened for my pregnant friends and family members who have to make plans in anticipation of needing necessary medical care because obtaining care in Missouri is not guaranteed. Amendment 3 brought me new hope, that my friends and family would be protected. That I could consider having children myself. HJR 54 threatens that hope, and it threatens the future of all Missourians.

The voters spoke already. We want access to abortion. Abortion is healthcare. As someone who needed a D&C following a miscarriage, I know that a woman shouldn't have to wait to n be in an emergency health situation to have an abortion. Additionally, the government should stay out of medical decisions of minors and leave that to parents and doctors.

Missouri decided to pass Amendment 3 to keep abortion legal, as it has been since before I was born. As a mother who was unprepared for motherhood at 20 years old, I had the chance to opportunity to be able to choose whether or not I wanted to get an abortion. I ultimately decided against it, but I suffered from depression during pregnancy. Had I not had the choice to have an abortion if I wanted or needed one I would have likely ended my life. Women should be able to have the right to their bodily autonomy and medical decisions. We Missourians voted to pass this. No one should have the power to overturn the vote of the people.

I am writing in opposition of this bill that seems to overturn the November 2024 vote in favor of abortion rights and women's healthcare access. I believe a woman's right to make choices for her body is vitally important and should be inherent in our legislature. I also understand this bill to seek to remove rights for transgender individuals. This violates the law of single-issue bills. I also believe that transgender individuals should have every right non-trans individuals have and this bill seems to deny their inherent humanity.

My name is Barbara Wilkinson and I live in Ballwin. I am sending my testimony in strong opposition to HJR54. I am appalled that this is an immediate reaction by MO legislators to ignore and overturn the votes of more than 1.5 million Missourians. I volunteered to collect petition signatures, and canvas for support of Amendment 3. This was not a close vote. Missourians want reproductive decisions (including abortion, contraception, IVF and more) to be between the patient and their medical providers. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them. HJR54 is a despicable attempt to reverse the decision of your constituents. Shame on Representative Stinnett and those cosponsors/ supporters. Spend time, please on pending issues that have NOT been previously decided by Missouri voters.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

As a Sexual Assault Victim Advocate in the state of Missouri, I can testify that a large number of rapes and sexual assaults go unreported to law enforcement agencies. Why? A multitude of reasons. Fear as to whether or not the victim will be believed, fear that they will be accused of being to blame for what happened to them, questioned for why they would "put themselves in that position". Fear of the possibility of facing their abuser in a court room and being retraumatized. Something that is rarely taken into account in a court of law is the term tonic immobility. Tonic Immobility is essentially the concept of "freezing" (taken from fight, flight freeze), but also incorporates fawn. When someone is operating in survival mode out of being in fear of their overall safety and potentially their life, our brains go into overdrive and are only able to focus on surviving and getting out of that situation alive. This often results in victims and survivors doing what their abuser(s) tell them to do, in order to avoid further harm that may result from them trying to stop the incident from occurring. That is a huge reason why people choose not to report - because they didn't say "no" or "stop" or push the abuser off of them. So for one of my survivors to find out later down the line that they became pregnant as a result of a rape - and they are not able to have an abortion simply because they didn't file a police report - is quite frankly, asinine and not trauma-informed in the slightest. Further, as we currently face uncertainty regarding the future of reproductive healthcare, access to birth control, etc. - I'm curious what supports will be put into place to accommodate more children - wanted, and unwanted - who are being brought into this world. Is there going to be a foster care/adoption initiative? Can we have more medical and pediatric providers so that our children are not on waitlists for basic care? What about increased access to childcare? Or for those who desperately want and have prayed for a child, but are faced with severe medical complications with their pregnancy that it puts their own livelihood at risk? For those reviewing these testimonies, these facts, and implications - please don't be selfish in this. You hold a position of power that allows you to be a voice for those that cannot advocate for themselves. Thank you for your attention to detail and your diligence in reviewing this bill. Please don't let us down.

I reside in Greene County and am submitting testimony on HJR 54. I am strongly opposed to HJR 54 as I firmly believe in every woman's right to choose what is right for her mind and body and that this is **ONLY** her decision, certainly not the governments place to decide anything for her. The language in this bill is blatant trickery and needs to fail.

1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights. Reproductive Freedom is a Missouri value. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them. Bodily autonomy is PARAMOUNT and an intrinsic right of being alive, taking that away from people is wrong.

1) I thought we already voted on this. The people have already made their wants known on this issue. The people of Missouri want abortion to be legal. 2) Really how does the rape thing work? All you need to do is submit a police report? Does this assume guilt on the part of the assailant if the victim is allowed the abortion? Does the victim have to prove beyond a shadow of a doubt that the crime was committed against her? I feel the justice system doesn't have a good track record with rapists and their victims already. I would also wonder about how many false reports might get made.

Abortion and gender affirming care are life saving measures in which anyone should be able to have access to. Abortion is not a dirty word, it's not and it's most definitely not "selfish". With the lack of low income housing, healthcare, and cost of living at its current state how unfair is it for children to be born into families unable to keep these children safe, warm and healthy? And lastly... Gender affirming care is necessary for all. Gender affirming care is necessary for suicide prevention, for quality of life. Denying Gender affirming care to anyone is diabolical and evil.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The will of Missouri voters is to have legal, safe abortion in our state. The majority of voters said 'yes' to amendment 3 in November, which this bill attempts to undermine. Missourians voted for and deserve this right. Abortion bans only make abortion more unsafe. Since Texas have banned abortion, the state has seen 3 documented deaths due to not being able to access this care. Here is the story of just one. Porsha Ngumezi bled to death as she was miscarrying after her doctor opted against an emergency procedure used to end pregnancies. She was 35 and left behind two sons, 3 and 5 years old. Analysis has also suggested that these bans result in a higher level of infant mortality (source:<https://publichealth.jhu.edu/2024/analysis-suggests-2021-texas-abortion-ban-resulted-in-increase-in-infant-deaths-in-state-in-year-after-law-went-into-effect>) This bill also seeks to undermine gender-affirming care. As with abortion, these decisions should be left between patient and doctor. These laws only stigmatize transgender individuals further, and lead to increased isolation and adverse mental health experiences. As a therapist who works with clients of various identities, I can attest to the relief that comes with being able to access care that honors their identity, and gives them a sense of safety in their body. Please reject HJR 54 and encourage lawmakers to prioritize the well being of all Missourians.

I am sympathetic to the plight of scores of young women opting for tubal ligation as a means of dealing with the current legislative climate here in Missouri. If I were younger I might do the same. If you're so determined to get women to breed, create a favorable climate for them to do so. It SHOULD go without saying that women have value beyond popping out babies, but your current behavior is likely to depress the birthrates you're concerned with even further.

After my father left us when I was in kindergarten I was raised by a single mother who worked as a cab driver 12 to 14 hour days 6 days a week. She took the cab driving job because she had high blood pressure and wasn't able to stand on her feet 8 plus hours a day working at a casket company. When I was in 6th grade she became pregnant and had a chemical abortion because of her high blood pressure. It was a high risk pregnancy and she still had three kids to raise. I am grateful that my mother had a choice. I imagine it was not an easy decision for my mother to make but it was right for her and our family.

The government needs to stop going against what the citizens have decided. We are tired of electing officials that don't do follow our votes or do what they say they will. 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights. Reproductive Freedom is a Missouri value. People should be allowed to make their own choices about their bodies. If you really want to help, provide more care for those new babies. Provide more education about contraception and make that a main point. Make more men responsible for their actions. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them. Government is overstepping its limits at all levels these days. Don't be part of that group

My name is Bill Turque and I reside in Missouri House District 25. I know you've already heard many of the talking points. I would just like to say this: HJR 54 is not just an attempt to undermine basic reproductive rights. It seeks to undermine basic democratic values. Elected officials ought not be in the business of regulating reproductive rights. I've never understood why the Republican Party, which proclaims individual choice and minimal government as touchstone values, is so bent on controlling the human uterus. It is cruel. Please stop.

Amendment three made it abundantly clear where the people of Missouri come down on abortion and reproductive health care. The 2024 election—like many previous recent elections in the state—was a resounding statement in favor of conservative candidates and principles, EXCEPT on the issue of forced birth. No amount of nuzzling of the rules and language of the amendment that passed will make the majority of women, and those who support and respect their bodily autonomy, rescind their regained rights to control their reproductive health and decide when and how to have and/or grow their family. To pursue this bill would be a bald faced rejection of the democratic will of the populace, a cynical and misogynistic power grab, and an outrageous waste of taxpayer dollars.

Rep. Stinnett: The people voted to pass Amendment 3. In the 133rd District, your constituents voted by a majority of 56% to pass Amendment 3 - the same constituents who voted to elect you on the same day in November. If you carry this forward, you are going against your constituents and your community's wishes to support a woman's (or child/rape victim and parent's) right to make a decision with her medically trained physician in a moment that no one else should have a say. We have much bigger issues at the state level and I hope you can focus on those to support your constituents.

As a Missouri woman and citizen, I thought our collective of voices were loud enough in November when we voted to enshrine women's reproductive rights and the right to a safe abortion. The state is blatantly disregarding the voice of the people by proposing this legislation. Women and only women should be deciding whether or not they have a baby, not the government.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

I am writing in **OPPOSITION** to **HOUSE JOINT RESOLUTION NO. 54** of the **103RD GENERAL ASSEMBLY**. 3 things stand out about this bill. 1. This is really poorly drafted legislation. On one hand you are proposing new wording to reduce the reproductive rights of women in this state. This was decided in 2024 with the successful passage of Amendment 3 in the November 5th elections. HJR 54 is being proposed not because the new amendment was flawed and needs to be amended, but rather it seems the majority political party of the elected representatives and a minority group of citizens are wanting to bypass the will of a legitimate majority vote of it own citizens. 2. The second issue that I have with Resolution No. 54 is that in addition to changing the will of the majority of the people, it wants to have a blanket inclusion of gender transitions by medical surgeries, drugs, hormones. This is an issue that is also being addressed in the House, with hearings held just one day before on February 3rd, 2025 pertaining to HB35, et al. Lumping two separate issues (reproduction and medical gender transformation) in one bill is in my opinion, 'lazy'. While both both "issues" are regarding human beings and medicine, they are not in anyway mutually inclusive; i.e. either issue could stand on it owns with any sort of proposed legislation. 3. The third, and I may say the most significant part of this legislation is that it is the state of Missouri getting in between a citizen and the medical community in their quest to provide medical support to the patient. It violates all principles of privacy, and a human's self determination. In the case of 36(a)1, paragraph 2 the phrase "A woman's right to reproductive freedom" - all of the proposed wording voids that listed right. Again, it places an undue burden solely on female citizens' reproductive choices that the state has no business being involved with. In section 36 (a) 4, paragraph 5 the phrase "pubertal development in children for the purpose 56 of assisting an individual with a gender transition." rightly describes what a process for under age children should be allowed to do with the support of the parent(s) or legal guardian(s) of the child, as well as the medical community that treats, evaluates and supports this patient as part of their medical training. Again, the state should have **NO** say in this process when it comes to deciding what is allowed or not for it's citizens. While I am writing this just about an hour before the first public hearing for this amendment, I will go out on a limb and predict that the opposition to HJR No. 54 will be much greater than the support for it.

I strongly oppose HJR 54, which seeks to undermine the reproductive rights that Missourians overwhelmingly supported. 1,538,659 Missourians voted YES on Amendment 3—our legislators should respect that decision, not attempt to undo it. Missourians knew exactly what they were voting for: the right to make personal health care decisions, including access to abortion, without government interference. Reproductive freedom is a Missouri value, and our government should reflect the will of its people, not work against it. Legislators were elected to defend our rights, not strip them away. I urge you to reject HJR 54 and respect the democratic process.

The amendment was presented to the people and the people voted. By ignoring the will of the people, you create distrust and set a precedent. You assume your party will always be in office and history shows that is not always the case. So regardless of whether I voted for or against this amendment should not be a factor at all. Just because you dislike the outcome should not mean you are allowed to create legislation to allow for loopholes. That defeats the purpose of putting the amendment up in the first place and could be applicable for any amendment, even the ones you want and with enough support, you may not like that. Thank you.

Amendment 3 was legally passed by the voters of Missouri. Trying to overrule the will of the voters threatens democracy. Our system works when people get a say, and the people showed that they wanted this amendment to pass. This new bill is ignoring the constituents who voted to pass Amendment 3. Medical decisions should be left to the patient and doctor, not lawmakers.

I am a Missouri Resident and constituent of Missouri's 5th Congressional district and I ask the committee to vote in opposition of this bill. The people of Missouri voted on the issue of abortion and the value of privacy regarding individual reproductive healthcare last year and it is unconstitutional to dismiss and bypass the voice and votes of the people. Passing this bill would set a precedent that the votes and will of the people in Missouri do not hold value and do not matter. I ask that you all do the jobs you have been voted by your constituents to do and represent the will of the people who you work for and represent.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Being a woman is unnecessarily exhausting in this country. Constant attacks on bodily autonomy violates my inalienable right to life, liberty, and pursuit of happiness. I believed our state made progress this past election cycle by codifying reproductive freedom in our constitution, standing on the notion that a woman's reproductive health and choices should be left to her and her doctor. To hear that, less than three months later, the state of Missouri is trying to overturn a in by the majority of Missouri citizens is beyond abhorrent and detestable on all counts. Not a single person pushing this blatant attempt to control women is a board certified medical professional, and it shows. We as a state codified it in our constitution and it is disgusting that this is even still up for discussion. To act directly against the will of the people is textbook tyranny and an attack on democracy itself. Anyone trying to undo Amendment 3 should immediately resign as you have objectively demonstrated your inability to serve your constituents and their wishes.

Hello, I would like to submit my testimony in opposition to HJR 54 for a few reasons. First, the people of Missouri have already voted on this so I find it frustrating that you are proposing to amend this. Also, I believe there should be separation of church and state and bills shouldn't be proposed and consequences enforced based on religious beliefs. I also don't agree with the portion of this bill that states "only if documentation is presented to the attending physician that the rape or incest has been reported to a law enforcement agency that has jurisdiction to investigate the complaint at least forty-eight hours prior to the abortion;". I was a victim of sexual assault in high school. Luckily, I did not become pregnant but I did report it to police. It was a humiliating process and I can see why many women do not report their situations. I vividly remember going to the police station, standing on the opposite side of the glass from the police receptionist, and having to say "I was raped" when she asked what crime I needed to report. At 17 years old, I was terrified and embarrassed to say that out loud to then be brought into an interrogation room. That process alone was traumatic so I can't imagine having to deal with an unwanted pregnancy on top of that. That is only one scenario. Amending the constitution to limit who and when an abortion can be performed will only hurt women. Again, not everyone will report their rapes, not everyone can report their rapes, and not everyone wants to. Amending this portion of the constitution and punishing medical professionals will cause negative effects to women's healthcare as well. According to Suzanne Bell, an assistant professor in Population, Family and Reproductive Health at the Bloomberg School, "We have maternal mortality rates that are in some cases twice as high in restrictive states as they are in supportive abortion states". State abortion bans drive away our best doctors.

The populace voted for abortion rights and trans healthcare on amendment 3 not even half a year ago. How dare you call yourselves representatives while going behind the back of the public to push your agenda. This bill would result in physical harm and even death to many women. Not to mention -- 12 week limit for RAPE and INCEST? are you kidding? many don't realize their pregnant until 20 weeks after. nevermind in the case of a statutory incestual rape -- you expect abused children to realize they're pregnant and navigate the absolutely horrendous American Healthcare system within twelve weeks? And what is your problem with trans children? I've heard arguments that it's too early for them to have any medical interventions, while making no mention of how the same medical interventions are used on cis children in the case of precocious puberty. Or focus so hard on made up stories of pre adolescent reassignment surgery, while ignoring the intersex people yearly mutilated by the hands of cis doctors trying to force them into a cisgender binary. Trans people and abortions have existed since the beginning of civilization. They always will. Again, trying to push through bills that include policies your constituents recently voted against is NOT the move of a democratic institution, but rather that of a sneaky oligarchy trying wearing democracy the way a wolf wears wool. I'd say you ought be ashamed, but at this point I seriously doubt ya'll have the capability.

It is absolutely ridiculous that we even need to testify against this bill. Missourians have already spoken. Reproductive rights must be saved, and abortion should remain completely and easily accessible for everyone who needs it. As a mother and a healthcare worker, I understand that abortion is a vital human right and the consistent push to ban access to a simple healthcare service shows legislators attempts to undermine the constitution, regress women's rights, and police our bodies.

I believe abortion bans violate human rights and reproductive freedom, and that they make it more difficult for people to access reproductive health care. I believe decisions regarding a woman's body should be made by her with the help of her physician, and be completely free from the influence of the government and officials who seek to impose their personal beliefs on the masses, including vulnerable women and children.

As a Catholic I understand that while reading this bill the rhetoric used against anti-abortion initiatives are strictly based in religious thought. Therefore, due to the principle of separation between church and state, this bill should not go into effect as it is unconstitutional. Furthermore, this issue was already voted on within the state of Missouri. Abortion is healthcare and should be viable at any point a person may need at any point in their pregnancy. The bill defines a medical emergency as subjective. This is worrying as individual doctors will be able to determine what is or isn't a medical emergency based on their perception of "life at conception" versus "life at birth". Along those lines, this language leaves out any room for mental health emergencies that may lead to a person to terminate a pregnancy. For all of these reasons and more, this bill is unconstitutional and should not be even considered within the House of Representatives in Missouri.

Healthcare decisions belong in the patients hands with the guidance of their healthcare providers, not in the hands of voters. It would not be reasonable for someone to make decisions with such finality without knowledge of the full circumstances of the situation. Religion does not interpret law as the constitution provides for a separation of church and state, therefore religious beliefs do not belong in this conversation about basic human rights.

I strongly oppose this bill because it completely disregards what Missourians voted for and passed with Amendment 3 in November. The majority of Missourians want to enshrine a woman's right to reproductive healthcare without interference of the government determining what that care entails. As a mother who struggles with infertility, I find choices around reproductive healthcare extremely personal and something that must be left up to the individual and their healthcare providers who actually know the patient and the situation. Additionally, being the mother of a baby girl makes this issue profoundly more important for her to have the same rights and to make decisions about her own healthcare in the future.

Women need healthcare and HJR 54 restricts it. Women deserve bodily autonomy. They deserve to make decisions about their health. HJR 54 and other attacks against Amendment 3 will not lower the number of abortions being had. It will raise the number being had in unsafe settings, increasing the risk to those women. HJR 54 does not hold men accountable for pregnancies, this is discrimination. Requiring every woman to carry every pregnancy to term regardless of their health condition, the context of conception (sex, rape, incestual rape, marital rape, etc.), their capacity to raise and provide for a child, and their personal desires puts women at risk and increases the number of children entering the foster care system. This will cost lives and cost taxpayers money. I am wholly against HJR 54 and expect the voice of the people to be heard in this hearing.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Dear Members of the Children and Families Committee, My name is Carol Goodman, and I am writing today to strongly oppose HJR 54. I do so as a licensed clinical social worker who has worked extensively with victims of sexual violence, as a mother of three daughters, and as a survivor of sexual assault myself. This bill is not only harmful and dangerous, but it is also in direct opposition to the will of Missouri voters, who recently reaffirmed their commitment to keeping abortion legal in our state. As someone who has dedicated my career to supporting survivors of sexual violence, I have seen firsthand the devastating impact of forced pregnancies on those who have already endured unspeakable trauma. Many of my clients have struggled with overwhelming fear, shame, and retraumatization when faced with the possibility of carrying a pregnancy that resulted from an act of violence. This bill would strip survivors of their autonomy and dignity, forcing them into even greater suffering. You may think you have a provision for sexual assault survivors, but only if they report their assault to a law enforcement agency?! This is absurd as so few individuals who have experienced sexual assault report their assault to law enforcement, and can you blame them? To force women who have experienced a sexual assault to then have to report the crime (which often only leads to further re-traumatization) to have access to a legal and safe abortion is reckless, absurd, and downright cruel. Furthermore, as a mother, I cannot imagine my daughters growing up in a state where their fundamental rights are disregarded, where their bodily autonomy is subject to government control rather than personal choice. No parent should have to worry that their child could be denied access to essential medical care or be forced to give birth against their will. Missouri voters have already spoken. They have made it clear that they support reproductive rights, yet this bill disregards their voices. It is not the role of legislators to override the will of the people, nor is it their place to force individuals to bear the burden of pregnancy against their wishes, particularly in cases of sexual violence. I urge you to listen to the survivors, the medical professionals, and the citizens of Missouri who have made their stance on this issue clear. Please reject HJR 54 and stand on the side of compassion, justice, and personal freedom. Sincerely, Carol Goodman, LCSW

The will of people and the majority of Missourians spoke Nov. 5 about the Mo. Women’s Reproductive Rights. It was a majority. As the sponsor of the bill you may not agree with it personally, as a representative from Missouri, you are elected to represent the majority. Simply because your party holds a supermajority, doesn’t give you the right to impose your personal belief on the majority of the voters. What you are really saying is you don’t think Missourians are smart enough to tell you what they stand for. I ask you to vote NO, which is what the majority of Missourians want.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

As your constituent, I am urging you to oppose this bill. This bill would require women to report incest and rape specifically to law enforcement - this does NOT take into consideration that there could be conflicts of interest in law enforcement, that the rapist isn't a partner using domestic violence against the victim, or if there is even a possibility for that to be possible in all cases. If a minor is raped by their parent, the likelihood of a parent taking the minor to law enforcement to report it is abysmal. This bill is misleading the public into thinking that it is creating an exception for rape or incest but the reality is that this bill is really just going to further eliminate reproductive healthcare in this state. We already have atrocious statistics on reproductive healthcare in this state, the goal should be to make it better for all your constituents not worse. Do not dismiss the will of the people. We have already told you what the right thing to do is. I am a survivor of rape. When I went to law enforcement in the days after, I was asked what I was wearing, why I was "so intoxicated, "did you ever tell him you liked him". They never did anything because they were basically telling me it was my fault. Do not continue to make this the normal for so many victims. I can tell you, it's demoralizing, it's frustrating, it's devastating. Please don't continue to be apart of the cycle of violence in this state.

As a 33-year-old woman who values my autonomy and the right to make my own reproductive choices, I strongly oppose Missouri's HJR 54. My husband and I are trying to conceive this year, and the ability to make informed medical decisions about my body, my pregnancy, and my future family is deeply personal and non-negotiable. This bill is an attack on reproductive freedom and could have devastating consequences for individuals and families like mine. Every person deserves the right to make private medical decisions without government interference. I stand firmly against HJR 54 and any legislation that seeks to strip away reproductive rights in Missouri.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I oppose this legislation. It is not based in fact & is the very definition of bully legislation, only meant to harm, & a blatant violation of the Missouri Constitution & doesn't take into account all the possible complications that could lead to death. It violates the "life, liberty & the pursuit of happiness" WE the citizens have a constitutional right to! First it clearly states in the "Act of Admission" into the US Union that we will not make laws that supersede the Federal Government aka the Supremacy clause of the US Constitution & FORMS THE UNION. It also clearly states it will not partake in bully legislation, which this is. Setting the limit at 12 weeks is short sighted, ignorant of true medical science regarding possible pregnancy complications at any time in the 40 week gestational period, cruel, & WILL RESULT IN DEATH! It is vague regarding any medical science which is NECESSARY in this situation. NO legislator should be making medical decisions without necessary medical training. This is a cruel, blatant attack on pregnant persons. At twelve weeks, the fetus CAN NOT survive outside the womb. At 24 weeks (the medical cut off) the fetus could survive. Which is why it is the cut off barring emergency complications. You like to argue the bible, which is obvious YOU have never read. It that tome, God says - "Life begins at 1st breath" which he proved by breathing the 1st air into Adam on creation. It also says "the unborn is the SOLE property of the woman & the ONLY job of the father is the "safety & security" of the mother. Also in there, God instructs a husband on how to perform an abortion of his unfaithful wife with herbs. So your argument does not have merit. Medically, there are already restrictions & limitations, but none of them heartlessly kill the mother for a lie. Since you think you have the right, tell me what are you going to do if : the patient has an impartial miscarriage after 12 weeks? What is your treatment for gestational diabetes? How about cancer, an infection, severe pre-eclampsia, goes into pre-term labor? How about pulmonary hypertension? What about an ectopic pregnancy (both will die)? Severe Kidney Disease? A lethal fetal anomaly? All of these complications will affect the outcome of any pregnancy. You don't know what I'm talking about? THAT IS THE POINT! This is nothing more than bully legislation & unconstitutional. You have already caused a massive brain drain in this state & the OB/GYNs that are left are a joke! Quoting Cher, " If every time men had sex, they risked death, physical disability, a life altering interruption in their education or career, & the sudden lifelong responsibility for another human being, I think they'd expect a choice in the matter." This is what WE demand. If men got pregnant, there would be an abortion clinic of every corner! Since you want to claim, "God's will, You should ask your Gods You should ask your Gods Why they command you to love But have taught you to hate Why their words sing the praises of love While they teach you to discriminate You should ask your Gods Why their sacred lands Must be soaked it blood Why they say everyone is their child But designate some to be sacrificed You should ask your Gods For clarification of their words For their teachings have created confusion They have bred hate in your hearts They have fomented wars with your neighbors You should ask your Gods Why they are so bloodthirsty Ask them why love is not enough Ask them why hate is so easy Ask them why are they so

rigidYou should ask your GodsNo...you should ask yourselfCan such carnage really be Gods wish?Can such destruction really be a God's will?You should ask yourselvesIf you're really following a God? Because with God's like thesewho needs evil? Muriel VieuxDear Republican Party: You sold your soul. You used to stand for patriotism, but you sold your soul to a domestic terrorist who conspired with an enemy to destroy our Democracy. You used to stand for our armed forces, but you sold your soul to a draft-dodger who mocked their courage & sacrifice. You used to stand for hard-working Americans, but you sold your soul to a con man who made his fortune by cheating them. You used to stand for the American Dream, but you sold your soul to someone who traded the Statue of Liberty for walls & cages. You used to stand for family values, but you sold your soul to a predator who betrayed all 3 of his wives. And you used to stand for Jesus, but you sold your soul to a wolf in sheep's clothing who makes a mockery of Christianity. Whatever he paid you, if anything, I hope it was worth it. But knowing him, you're probably still waiting for the check. You lack the education to be making ANY MEDICAL DECISIONS FOR ANYONE YOU DON'T KNOW!

My name is Carolyn Gilker and reside in Crestwood in St Louis County, Missouri. I am recording my vehement opposition to this bill. I am incredibly frustrated that Missouri lawmakers continue to disregard the vote and will of the people (I believe there was a gun-related vote and a puppy mill vote that those in public office also ignored) and carry forward with whatever they want. I thought lawmakers were meant to follow the will of their constituents. 1,538,659 residents voted YES on amendment 3 so what is going on????? A great many Individuals in this state worked hard to get that on the ballot, we voted, and it passed. That is the will of Missouri. It should be settled. I've lived here most of my adult life and am finding that Missouri really lives up to its misery name.

The people of Missouri voted for Amendment 3. Keeping abortion legal is important to the mental and physical health of all people with a uterus. You cannot legislate a medical procedure such as this. You are not doctors. Most senators and representatives did not spend 10 years of their lives educating themselves on the reproductive health and care of women! I can't help but think how I would be dead if my birth experience was just slightly different. I am afraid for my daughter. I literally hope she doesn't have children if it is not safe. Our maternal mortality rate is terrible for a first world country! Why don't you make it easier for women to have children? Why don't you support women. Women that feel safe and supported might surprise you. But no, you would rather inact archaic laws and do harm.

My name is Cassie and I'm from Saint Joseph, MO. There were 1,538,659 Missourians who voted YES on Amendment 3. You were elected to defend those rights. Reproductive Freedom is a Missouri value and Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them. Please oppose this Bill.

The people of missouri, have voted for amendment 3. Any effort to demish the vote for amendment 3 is actively going against what the population has voted for. The job of a politician should be to advocate for what the people have voted for. Adding this new bill would go against doing just that. Adding restrictions does not eliminate the issue, it simply makes it more dangerous.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Abortions are already difficult and traumatic. Abortion is healthcare that no one wishes for. But it IS necessary for public health. The people of Missouri have already spoken and we are TIRED of Christian Nationalism effecting our healthcare. Keep it between you and your church, not me and my body. Your black and white thinking has no place in governing the populous. Objective, moral, flexible thinking is needed. Not this archaic attack on women. The sooner we move on from these tactics the sooner we can have a more balanced, safe, and free world. I'm okay with protecting those who haven't been born- late term abortions with no medical cause leave a scar that is avoidable. However, the limits you are creating come from a place of religious zealotry, a lack of understanding of medical processes, and strange propaganda. Come back with a more nuanced and responsible approach. I'll be less sensitive when my fellow Americans aren't dying in parking lots from these illogical beliefs being codified.

HELLO MY NAME IS CATHERINE COOK. I LIVE IN JACKSON COUNTY. I AM HERE TO OPPOSE HJR 54 BECAUSE I AM ONE OF THE MORE THAN ONE MILLION, FIVE-HUNDRED AND THIRTY-EIGHT THOUSAND, SIX HUNDRED MISSOURIANS WHO VOTED YES ON AMENDMENT 3. MY HUSBAND AND I HAD A MUCH DESIRED PREGNANCY IN 2013, WE WENT FOR A ROUTINE ULTRASOUND AND FOUND OUT THAT THOUGH I WAS 11-12 WEEKS INTO MY PREGNANCY, OUR BABY HAD STOPPED DEVELOPING/DIED AT AROUND 8 WEEKS. BECAUSE MY BODY HAD FAILED TO RECOGNIZE THE FETAL DEATH AND WITH GREAT CONCERN FOR INFECTION CHANCES, MY OB DOCTOR SCHEDULED A D&C, ALSO KNOWN AS AN ABORTION. WE WERE DEVASTATED. I ENDED UP DEVELOPING AN INFECTION IN MY UTERUS, THANKFULLY IT WAS CAUGHT EARLY. NOW, I SHUDDER TO THINK OF WHAT UNTOLD SUFFERING MYSELF AND MY HUSBAND WOULD HAVE BEEN PUT THROUGH HAD WE NOT BEEN ABLE TO MAKE AN EDUCATED CHOICE WITH OUR PHYSICIAN. WOULD I HAVE BEEN SENT HOME, WOULD THE INFECTION IN MY UTERUS HAVE FESTERED? WOULD I NOT HAVE BEEN ALLOWED TO HAVE THE PROCEDURES UNTIL I WAS SHOWING CLEAR SIGNS OF SEPSIS? LET ME REITERATE THAT THIS WAS A MUCH WANTED AND DESIRED PREGNANCY AND BABY. THE MAJORITY OF MISSOURIANS VOTED TO KICK POLITICIANS OUT OF PERSONAL MEDICAL DECISION MAKING, LIKE ABORTION CARE, AND ALL SEXUAL AND REPRODUCTIVE CARE. IT IS YOUR JOB TO PROTECT AND FULFILL THE WILL OF THE PEOPLE. VOTE NO ON HJR54.

I am submitting the following in opposition to bill: HJR54. The people of the State of Missouri had voted on Amendment 3 in November ,2024. MORE THAN ONE MILLION, FIVE-HUNDRED AND THIRTY-EIGHT THOUSAND, SIX HUNDRED MISSOURIANS VOTED YES ON AMENDMENT 3. IT IS YOUR JOB TO PROTECT AND FULFILL THE WILL OF THE PEOPLE not to waste time and resources on issues that have already been decided.As a retired Registered Nurse that spent over 40 years focusing on the health care of women and children, I believe that abortion and other reproductive care decisions should always be made by the patient and the healthcare provider in order to achieve the best outcomes.When voting yes on Amendment 3, the majority of Missourians demonstrated support of the process of women choosing how they seek and obtain reproductive care without any interference from our government.I request a No Vote on Bill HJR 54

I am writing to express my opposition to HJR 54. In November, voters chose to restore abortion rights in Missouri. Women would have autonomy over the most sensitive decision of their lives. There was no mention of transgender issues or other issues although such issues were in the public's eye. There was no mention of law enforcement weighing in on such a personal decision. The intent of the law was to return the issue back to the women. The voters decided that a woman, not the state, should be empowered to render the decision to continue or discontinue a pregnancy. Simple enough. This is a contentious issue but the people decided.

The Missouri Legislature's currently attempting to roll back Amendment 3. There is a hearing in Jefferson City tomorrow at 4 p.m. (Feb. 4). Submitting online testimony is a critical way to demonstrate opposition to HJR 54 if you are unable to attend in person. If you have not submitted online testimony already, you can do so through this form at <https://witness.house.mo.gov/Default.aspx?bill=HJR54¬iceid=9177>. If you have already submitted testimony and would like to continue to support this effort, please send the form to friends and family encouraging them to sign up to testify online with AAM. Everyone has until 11:59 PM Tuesday night to submit testimony. Nearly 300 supporters have testified in opposition to HJR 54. The goal is to get to at least 500 by 11:59 PM on Tuesday. Last, here are a few notes on how best to submit testimony online. My name is Charles W. Kempfer, Jr, and I'm from Marble Hill, Missouri. I am one of the 1,538,659 Missourians who voted YES on Amendment 3 of which you were elected to defend those rights. And, Reproductive Freedom is a Missouri value. Missourians made it clear at the ballot: We support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

In 1995 I found myself pregnant at 39 years old. My doctor advised me that my rights gave me the option to not have this baby. There were many risks for me and possible birth defects for the baby. I chose to carry that baby and today's before his due date we found he was no longer alive. I wasn't forced to carry that child and I was given my options to do what was best for me. Because I was not forced to carry him to term I was able to accept his loss. However, a little over a year ago my daughter was not given the same options. After Multiple problems and ultrasounds her doctor told her the fetus was not viable but because the ultrasound tech was afraid of Missouri abortion laws they had put down "possible faint heartbeat" and the doctor could not do a D&C. She would risk going to jail. My daughter suffered through Christmas Day trying to naturally miscarry. Finally on Dec. 29 her body began to miscarry. But because of what her body had been through she began to hemorrhage and my son in law had to call the ambulance to rush her to the ER to slow the bleeding. I could have lost my daughter because a lawmaker made decisions for her that are none of their business! We hosted multiple petition signing events at our home to get the amendment on the ballot and MISSOURI VOTERS passed that amendment!!! We live in a democratic society for now. And to over turn the will of the people is an atrocity and illegal. Please follow the rule of the law and uphold what 1.5 million voters of Missouri passed legally and do not destroy our democracy because someone who has not right to make my or any woman's decision for them make a decision that my vote didn't count!!! Protect your wife, daughter, niece, or any woman you love and do not restrict their reproductive rights!

I am a physician to many young women and a mother of a young woman. There is no one who is pro abortion, but I see women in my practice that face agonizing decisions about their future and the future of an un-born child. To remove that choice ensures that many will be relegated to a life of poverty and on taxpayer support. There are reasons for a woman to choose to terminate a pregnancy AND in the November election, the majority of Missourians indicated they believe that choice must be available. Many of your wives, neighbors, sisters, mothers have voted for that choice. I respectfully request that you not waste my taxpayer dollars in an attempt to overrule what your constituents voted for.

Representative Melanie Stinnett, is introducing this amendment that would prohibit abortions in Missouri, except in cases of medical emergencies, fetal anomalies, rape, or incest. In instances of rape or incest, abortions would be permitted only up to 12 weeks of gestational age, provided appropriate documentation is presented to the attending physician. This proposal is a way to undermine what the Missouri voters approved, Amendment 3 in November 2024, which enshrined the right to reproductive freedom, including abortion, into the state constitution. HJR 54 is an effort to impose new restrictions on abortion access, potentially circumventing the protections established by Amendment 3. This is not what the majority asked for.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The will of Missouri voters is to have legal, safe abortion in our state. The majority of voters said 'yes' to amendment 3 in November, which this bill attempts to undermine. Missourians voted for and deserve this right. Abortion bans only make abortion more unsafe. Since Texas have banned abortion, the state has seen 3 documented deaths due to not being able to access this care. Here is the story of just one. Porsha Ngumezi bled to death as she was miscarrying after her doctor opted against an emergency procedure used to end pregnancies. She was 35 and left behind two sons, 3 and 5 years old. Analysis has also suggested that these bans result in a higher level of infant mortality (source: <https://publichealth.jhu.edu/.../analysis-suggests-2021...>) This bill also seeks to undermine gender-affirming care. As with abortion, these decisions should be left between patient and doctor. These laws only stigmatize transgender individuals further, and lead to increased isolation and adverse mental health experiences. As a therapist who works with many transgender clients, I can attest to the relief that can come with finally being able to access care that helps one's appearance align with their identity, and gives them a sense of safety in their body. I abhor the language and sentiment of HJR 54 and encourage lawmakers to prioritize the well being of all Missourians.

I am in strong opposition to the proposed constitutional amendment that combines restrictions on abortion with the prohibition of gender-affirming care for minors. This proposal is deeply troubling, both in terms of its disregard for the fundamental principles of personal autonomy and its dangerous conflation of two distinct and deeply important issues. First, let us address the matter of abortion. The amendment sets out to severely limit access to abortion, only permitting it in specific and highly restrictive circumstances, such as rape, incest, fetal anomalies, and medical emergencies. While we acknowledge that there are varying views on this issue, the stark reality is that such restrictions place an undue burden on individuals, forcing them to carry pregnancies to term against their will in cases where their physical and mental well-being would be significantly harmed. Additionally, requiring proof of a report to law enforcement for cases of rape and incest is an unacceptable barrier for survivors, many of whom may be fearful of further trauma or retaliation and may never report these crimes in the first place. The 12-week gestational limit also fails to take into account the complexities of women's health, including situations where a diagnosis or complications arise after this arbitrary cutoff. These kinds of restrictions not only undermine personal autonomy but also put women's health and lives at risk. It is also crucial to point out that abortion was on the ballot in Missouri in 2024, and it passed statewide, with voters making it clear that they believe in the right to safe and legal abortion access. This amendment directly disregards the will of the people, undermining the democratic process and imposing unnecessary, restrictive measures on a deeply personal issue that should remain between a person and their doctor. What is even more concerning in this amendment is its direct connection between abortion and gender-affirming care. The inclusion of provisions to prohibit the use of surgeries, hormones, or drugs to assist a child with a gender transition is an unnecessary and harmful infringement on both the rights of transgender individuals and the expertise of medical professionals. Gender-affirming care is a medically necessary, evidence-based treatment that has been proven to significantly improve the well-being and mental health of transgender individuals. Denying access to this care, especially for minors, is an infringement on their ability to access the healthcare they need and deserve. To lump this issue together with abortion is not only a mischaracterization of both issues but also conflates the right to access gender-affirming care with the right to reproductive healthcare in a harmful way. These issues should be addressed independently based on their individual medical, ethical, and personal dimensions, not used as tools for political agendas that ignore the rights and dignity of individuals. Furthermore, this amendment's punitive provisions – allowing individuals to sue healthcare providers and revoking medical licenses for those offering reproductive health services or gender-affirming care – create a chilling atmosphere that will deter medical professionals from providing essential care. This poses a direct threat to patient safety and well-being, creating fear and uncertainty in the medical community and among patients who need care the most. Additionally, the prohibition on public funds being used for abortions or gender-affirming care is a direct attack on low-

income individuals, particularly those already marginalized. Access to both abortion and gender-affirming care should not be determined by a person's ability to pay. This provision ensures that those who need these vital services will be left without the support they require, further entrenching social inequalities. One of the most egregious elements of this proposal is the harmful act of women using their voices to undermine the autonomy of other women. It is deeply gross and disappointing when women attempt to restrict the freedoms of their fellow women by stripping away their right to make decisions about their own bodies. We should be lifting each other up, not attempting to control each other's most personal choices. For some to use their power to force others into submission, particularly on issues of reproductive and gender-related healthcare, is a betrayal of the very values that should unite us as women. The General Assembly's involvement in enacting laws to carry out these provisions opens the door for more interference with personal health decisions. The autonomy of individuals to make healthcare choices with their doctors should be respected, not undermined by lawmakers who are not in a position to understand the full scope of these medical decisions. Abortion and gender-affirming care have been two of the most controversial and fiercely debated topics in Missouri for years. These issues have sparked impassioned conversations, but the introduction of this constitutional amendment goes beyond debate—it feels like a deliberate, mean-spirited attack on women and children. This proposal doesn't seek to understand or address the real needs of those it impacts; rather, it seeks to control, restrict, and punish individuals for making deeply personal health decisions. We should be striving for compassion, support, and respect for the autonomy of all people, not further dividing and stigmatizing them. I strongly urge you to reject this harmful measure and stand up for the rights and dignity of Missouri's women and children.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

This bill is terrible for many reasons, from which I will choose four: 1. This bill would in essence reinstate Missouri's abortion ban, which voters just rejected in approving Amendment 3. It therefore puts before voters a question they have already answered. 2. The transphobic ban on gender transition treatments is an unrelated issue. Opponents of Amendment 3 deceptively and cynically tried to tie it to gender transition to scare up "no" votes. This proposal cynically and blatantly puts these two distinct issues as one ballot initiative. 3. The "exceptions" for rape and incest are illusory. Requiring a law enforcement report and a termination before 12 weeks puts undue and in many cases insurmountable obstacles for women (and especially children) facing pregnancy after these violations. This proposal does nothing to actually protect women and children from rape or incest, which is where the legislature's attention and resources would be better spent. This proposal causes harm; it does not prevent it. 4. The prohibitions on treatments related to gender transition allows the *same* medical interventions in cases not involving gender transition, so clearly it is not about protecting children from harmful treatments. Instead, it is about imposing a rigid gender ideology that ignores well-documented scientific and historical evidence about transgender people. The prohibition on puberty blockers when this treatment is prescribed in the context of gender transition (but not in other cases) prior to the age of 18 is laughably cruel. When does Representative Stinnett believe puberty starts? Transgender kids are at distinctly higher risk of suicide - and those risks are substantially decreased when they can access gender-affirming care (i.e., the very care this proposal seeks to block). This proposal does not protect kids; it hurts them.

My name is Christine Mattsson-Fiehler. I am a resident of Webster Groves, MO. In the last election in Nov I voted yes on amendment 3. I am disappointed that there is now opposition when the amendment has already passed and the voters already decided what they wanted. - 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights- Reproductive Freedom is a Missouri value- Missourians made it clear at the ballot: we support access to abortion and all reproductive health care- Our government should reflect those shared values not threaten themI want to be assured that my vote matters!!

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

How can you once again go against the will and votes of the citizens of Missouri? We voted yes in November. You and your cult leader trump overturned roe and said it should be decided at the state level. It was decided that Missouri would stand for choice. Just because you didn't get the result you wanted does not mean that you have the right to override the legal voters of Missouri. Listen to the will and voices of your constituents.

I am writing to strongly oppose the proposed constitutional amendment that seeks to reverse the will of Missouri voters by restricting access to abortion, reproductive healthcare, and gender-affirming care. Just last year, Missouri citizens exercised their democratic right to pass Amendment 3, affirming that access to abortion is healthcare. The proposed amendment is not only a direct affront to that democratic decision, but it also endangers the health, autonomy, and fundamental rights of Missourians. Amendment 3 was passed through a fair and democratic process, reflecting the will of the people who recognized that individuals, not politicians, should make personal healthcare decisions. Overriding this decision through legislative action disregards the voices of Missourians and undermines the democratic process. If elected officials respect their constituents, they should honor the outcome of the election rather than attempt to reverse it. The proposed amendment significantly restricts abortion access, allowing exceptions only in cases of medical emergencies, fetal anomalies, rape, or incest—while imposing unnecessary bureaucratic hurdles, such as law enforcement reporting requirements, that further traumatize survivors. These restrictions create dangerous delays in medical care, forcing individuals to navigate a legal system rather than focus on their health and well-being. Furthermore, this proposal threatens the ability of medical professionals to provide safe, evidence-based care by exposing them to legal liability and the potential loss of their medical licenses. Physicians should not be forced to choose between following best medical practices and avoiding legal penalties. These provisions discourage doctors from remaining in Missouri, worsening the state's already critical healthcare provider shortage. The proposed amendment also prohibits the use of surgeries, hormones, or drugs for gender transition in minors. Medical decisions regarding gender-affirming care should be made between patients, their families, and their doctors—not politicians. Major medical organizations, including the American Academy of Pediatrics and the American Medical Association, support gender-affirming care as essential healthcare. Denying access to this care is not only discriminatory but also increases the risk of mental health crises and suicide among transgender youth. I feel strongly that this proposed amendment is an unjustified attack on reproductive and gender-affirming healthcare, undermines the will of Missouri voters, and puts lives at risk. I urge you to reject this measure and instead focus on policies that protect bodily autonomy, ensure access to comprehensive healthcare, and respect the voices of Missouri citizens. Thank you for your time and consideration. Sincerely, Christine T Park

Dear Missouri Lawmakers, Last year the people of Missouri voted for reproductive freedom. It is incredibly disappointing to see our government try to overrule the will of the people and take away the rights that were so desperately fought for after Missouri's cruel abortion ban was put in place. Trying to take away reproductive rights is bad enough on its own, but this resolution also attacks the rights of transgender people to receive crucial healthcare. It is broadly accepted by medical and mental health professionals that gender affirming care leads to a better quality of life for transgender people. Their need for this care doesn't start at adulthood. Denying them the care they need during their adolescence can be traumatic to their overall wellbeing and sadly may lead to more deaths. It is for these reasons that I ask you today to please not infringe upon reproductive or trans rights. These should be fundamental rights so that every Missourian, regardless of their gender, can receive the care they need.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am writing to express my strong opposition to HJR 54, which proposes an amendment to Missouri’s constitution that would impose new restrictions on reproductive rights and gender-affirming care. I urge you to stand against this measure, as it poses a serious threat to personal freedoms, public health, and the well-being of Missouri residents. HJR 54 seeks to ban abortion, with only limited exceptions for “medical emergencies, fetal anomalies, rape, or incest.” Even in cases of rape or incest, survivors would face undue burdens, as the amendment requires that they provide documentation proving they reported the assault to law enforcement at least 48 hours before accessing care, and only allows the procedure up to 12 weeks of gestation. These provisions fail to acknowledge the many barriers survivors face when reporting sexual violence, potentially forcing victims to carry pregnancies to term against their will. Additionally, HJR 54 seeks to prohibit the use of “surgeries, hormones, or drugs to assist a child with a gender transition.” This restriction infringes upon the rights of parents and medical professionals to make informed healthcare decisions for transgender youth. Denying access to medically necessary care disregards the guidance of leading medical organizations, including the American Academy of Pediatrics, and may cause irreparable harm to vulnerable young people. The amendment also holds that any person who “intentionally or negligently causes damage to another person relating to the provision of reproductive health care” may face legal liability and potential loss of their medical license. This vague and overly broad language could have a chilling effect on healthcare providers, deterring them from offering essential reproductive care out of fear of legal consequences. Such a measure would further restrict access to medical services that are already limited in many parts of our state. While the amendment states that “a woman’s right to reproductive freedom includes the right to health care in cases of miscarriages, ectopic pregnancies, and other medical emergencies,” the broader restrictions on abortion access create ambiguity and could lead to delays in necessary medical care. Similar laws in other states have resulted in hospitals and doctors hesitating to provide treatment, putting patients at serious risk. For these reasons, I strongly urge you to oppose HJR 54. Instead of amending the constitution in a way that limits personal freedoms and access to healthcare, we should focus on policies that support bodily autonomy and protect the rights of all Missourians. Thank you for your time and consideration. I hope you will stand with your constituents in rejecting this harmful amendment. I look forward to your response.

Statement of Written Testimony Against HJR 54 Cindy Montoya 835 S. Eastridge Nixa, MO 65714 cindymontoya23@gmail.com Feb. 1, 2025

To Whom It May Concern, I am writing to express my strong opposition to House Joint Resolution 54 (HJR 54), which seeks to undermine Amendment 3, a measure that was passed by the voters of Missouri in November 2024 to ensure reproductive freedom. Amendment 3 reflects the will of the people, affirming our right to make personal decisions about our bodies and our health. The passage of this amendment was a pivotal moment for many Missourians, as it provided essential protections and access to reproductive healthcare. HJR 54 represents an attempt to roll back these hard-won rights, disregarding the voices of the citizens who made their choice clear at the ballot box. Furthermore, the pursuit of HJR 54 raises significant concerns about the implications for women's health, autonomy, and equality. Reproductive freedom is not just a personal issue; it is a fundamental human right that impacts the lives of individuals and families across our state. Restricting access to reproductive services disproportionately affects marginalized communities, exacerbating existing inequalities and limiting opportunities for those who are most vulnerable. In addition, the legislative process should prioritize the voices of constituents rather than silencing them through measures that contradict the democratic process. The people of Missouri have spoken, and it is imperative that their decisions be respected and upheld. I urge you to reject HJR 54 and stand in support of Amendment 3, which safeguards the reproductive rights of all Missourians. Let us continue to prioritize the health and autonomy of our citizens, ensuring that everyone has the freedom to make choices about their own bodies. Thank you for your attention to this important matter. Sincerely, Cindy Montoya---Feel free to add any personal anecdotes or additional points that you feel strongly about. Let me know if you need further modifications or assistance!

I strongly oppose HJR 54. Missourians made it clear at the ballot this November. We support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them. Medical decisions should be between a doctor and a patient. Over 1.5 million Missourians support reproductive rights. Please respect the will of the people.

This is a slap in the face of Missouri voters. Stop trying to override our votes, and respect the rights of women and science. As a healthcare provider myself, I know too well that there are too many “gray areas” between “saving the life” of the mother and a death sentence. This insanity needs to stop. The voters have spoken. Go focus on something that would actually improve the lives of Missouri families, like paid family leave or common sense gun laws.

To the Members of the House Committee on Children and Families, As a Missouri voter, I strongly oppose House Joint Resolution 54. This proposed amendment disregards the will of voters and seeks to impose extreme restrictions on personal medical decisions that should be left to individuals, families, and their healthcare providers—not politicians. The people of Missouri have made it clear that they do not support extreme government overreach into private medical matters. This resolution is an attempt to undermine democracy and disregard the voices of the very constituents you were elected to serve. Missourians deserve the freedom to make personal healthcare decisions without political interference. I urge you to respect the will of the people and vote against HJR 54.

I join 51.6% of my fellow Missourians, 1,538,659 people who voted to pass Amendment 3 in November. We knew what we were voting for. The language of the Amendment was clear, as was our endorsement of it. Missourians voted for a right to reproductive care, and this is an effort by the legislature to roll it back because they are unhappy with the results.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

As a licensed professional counselor in the state of Missouri, I testify in opposition to HJR 54. I assert that medical professionals, not politicians, who should make decisions for the medical care in the best interest of the patient. Given that each one of us should be given the opportunity to thrive and given access to the healthcare we need in order to do so, I am concerned that politicians would step outside of established medical best practices, away from scientific research, to attempt to remove even largely or totally reversible medical options from patients who, in fact, are the experts on their own lives. Additionally, I am concerned for Missourians at large. Removal of access to reproductive medical care will lead some of us to preventable funerals. For pregnant people who will perish via suicide after being denied their right to a safe and legal abortion. Pregnant people already experience statistically significant increased risk both during and postpartum. Compounded with the trauma of being forced into parenthood, where so many report being vastly overwhelmed and undersupported (even amongst those who planned for and had the goal of becoming parents), and the risk becomes unacceptable in my mind. It will happen. If we remove access to some people's medical care because some OTHER people don't think they have a valid enough reason to have access to services their grandparents had the RIGHT to, then some of us are going to go to a preventable funeral. How many does our government find acceptable to go ahead and let this pass? 100? 10? I would rather we allow people to be the experts on their own lives. I would rather we treat people how we'd want to be treated (that is to say, that we listen to people when they say what they need, the way we all would want to be listened to and believed when we communicate what we need. I would rather we not punish medical professionals for following medical best practices. How do we live in a world where the president can't get in trouble for official actions taken while in office (even if they're illegal, immoral, etc. Whoops, how'd that get in there?) but also in a world where medical professionals can be punished for following medical best practices?

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Chairman and Honorable Members of the Committee, Children and Families Committee HJR 54. I write today to express my strong opposition to Missouri HJR 54, a resolution that seeks to overturn the will of the people of Missouri and once again limit access to, and in some cases totally outlaw abortion care in our state. This HJR 54 also enters new language that had nothing to do with Amendment 3 or reproductive rights. Gender affirmation care refers to medical, social, and legal support provided to individuals who identify with a gender different from the one they were assigned at birth. In 2024, the voters of Missouri were clear in their desire to protect reproductive rights. The decision to legalize abortion in Missouri was not taken lightly; it was a deeply personal and informed choice made by the majority of Missouri citizens that voted and who sought to ensure that women, families, and people of all backgrounds had the autonomy to make the decisions that are best for their own health, lives, and futures. HJR 54 undermines this fundamental right and disregards the voices of the very people who cast their votes in favor of protecting access to reproductive healthcare. If HJR 54 passes, it emphatically demonstrates that our vote does not matter. Furthermore, it is a demonstration of political agendas and not rooted in the health and well-being of the people you were elected to represent. Rather than passing harmful legislation, we should be focusing on ensuring access to affordable healthcare, including contraception, family planning, and education that can help prevent unintended pregnancies. We should be providing support for those who choose to become parents, offering healthcare, paid family leave, and affordable child care. These are the measures that will truly help individuals thrive—not taking away their rights. Furthermore, it is not just politicians we don't want in our doctor's office, it's other citizens that should not have a voice over the woman's care. That decision is a personal one and resides with the woman, her family, if she has one, and her doctor and no one else. If a person does not believe in abortion, then that is their right to decide. But they do not have the right to make that decision for other women, regardless of why the woman is seeking an abortion. Lastly, Different religions have different views on when life begins, including at conception, birth, or when consciousness manifests. The concept of when life begins is religious, not scientific. Judaism - The Talmud, a primary source of Jewish law, states that life begins at birth. However, some say that life begins at conception when the soul enters the world. Christianity - Catholics believe that life begins at conception. However, some say that life begins at the first breath. Islam - Most Muslim leaders believe that life begins at conception. However, some Muslim scholars have ruled that abortion is acceptable in certain circumstances. Hinduism - Hinduism holds that life is cyclical and has no beginning or end. Therefore, life does not begin at conception. Buddhism - Buddhists believe that life begins when consciousness manifests itself and the mind or thought arises. Zoroastrianism - Zoroastrianism prohibits abortion because it is considered the same as killing an innocent person. We are still a country of religious freedom, are we not?! I urge you to reject HJR 54 and stand with the majority of Missourians who believe in the right to choose. We should not take steps backward. Instead, we

should move forward with compassion, understanding, and respect for the autonomy of every Missourian.PS: I was at the hearing this evening but because of the time, I decided to submit my opposition in writing in this manner instead.Thank you for your time and consideration.Sincerely,Connie Mihalevich1704 Delta PlaceJefferson City, MO

My name is Connie Mathias and I live in Manchester MO. I am writing to show my support for the recently passed Amendment 3 to Missouri's constitution and to illustrate my strong opposition to the bill currently in the house to reverse the clear intent of Missouri voters to ensure the right to reproductive health freedom in this state. Over 1.5 million Missourians voted in favor of Amendment 3 and you were voted into office to protect our rights under this PASSED legislation. It is not acceptable for the legislators of the state to ignore this mandate by the voters who also chose you to represent them by protecting these rights. Missourians support freedom in reproductive health matters and we demand that you uphold the decisions so clearly stated through the November election regarding this matter. This shared value of abortion rights and reproductive health freedom must not be overturned.

As an independent voter, I find myself disgusted that the ink has barely dried on this issue from the last election, and yet here we are. The voters of this fine state have voiced their desire in no uncertain terms, but in line with history, it appears that Jefferson City thinks that they can push personal agendas. Furthermore, the fact that you tie up other hot button issues to stoke public rage in hopes of subverting what the voters of this fine state have already considered and rejected, is disappointing. As a Christian I wrestle with difficult questions and spend large amounts of time considering what it means to follow Jesus, but ultimately he taught love and acceptance for all. Unfortunately, our leaders can't even respect their own people. We have significant portions of our state and my community in particular struggling with food and shelter insecurity, but rehashing an issue that has already been handled is how you have decided to spend your time. I implore you to listen to your voters and start working to solve real problems in our state.

I believe that women should have the right to choose how/what happens to/with their bodies, and the removal of a bundle of cells is not to be made a moral panic. No one is using late-stage abortion unless it is an emergency scenario. So much of the word that being spread around by those pushing this bill is simply a bunch fear-mongering.

decisions like this should be left to the people whose lives it ***ACTUALLY* EFFECTS*** and not to the choice of people who don't understand how devastating the nuances in these situations are. this is a ridiculous bill that only adds fuel to the idea that womens body's should be controlled, without their consent, by governing bodies. family planning is not a beaurecratic activity. let people live and choose their actions with dignity. not all situations end with great options and this is important to understand so as to not **CAUSE** more suffering. there are so many more problems that need out attention, for instance education and access to medical care, also the foster system. abortions are not the most glaring problem in this system, it is the inescapable lack of care, education, options and mobility.

I am Courtney Fuentes Evans and I live in St Louis, MO. Reproductive Freedom is a fundamental right for all women. This is a personal choice, a choice that does not require debate. My body, My choice. In my personal path, I was unfortunate enough to have several pregnancies that did not go as planned. At that time, I as a woman had a right to decide what was the right decision for my family and myself. In the current environment, I would have had to wait for my body to naturally abort the fetus. If that had happened, I might not be here today as I developed sepsis and my body did not naturally abort. 1,538,659 Missourians voted "yes" on admendment 3. You were elected to defend those rights! Missourians have made it clear that we support reproductive healthcare. We have made it clear that we support access to abortion. Our elected officials should support our choices. Your personal opinion and beliefs should not interfere with the citizens vote. We voted "Yes" on 3. Defend our choice, it's your job!

My name is Courtney Hittle and I'm a Springfield, MO resident and volunteer with Missouri Jobs with Justice. I am extremely frustrated with this bill, which would be a direct violation of the will of the people of our state. Missourians, including myself, volunteered many hours of our time to knock doors and ask voters about their opinions, feelings, and personal stories related to reproductive healthcare. Missourians voted and a majority of voters decided that they believe that Missourians should be able to make decisions about their own healthcare. Now, state legislators are trying to undermine this vote. Legislators have proved that they do not respect the will of the people. It's time that they listen to their constituents and understand how bills like this would affect us. Politics have gotten in the way of life-saving medical care for people who have had pregnancy complications or suffered from sexual assault over the past year. My sister is a rape survivor. I can't imagine not having the choice of what to do with my own body in such a violating experience such as this. I understand that there are exemptions for rape and incest in the bill. This is an important addition, but, again, Missourians voted for reproductive freedom across the board. Please don't violate the will of the people. After all, it's Missourians who will have to live with the consequences of your actions.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

Dear Chair and Honorable Members of the Committee, My name is Cristen Mathews, I am a Black woman, a proud resident of St. Louis City, and a Missourian who deeply believes in the democratic values that our state should uphold. I am here today in strong opposition to Bill HJR 54. As someone who lives in this community and shares in the collective hope for our state’s future, I am compelled to speak out against any effort that would undermine the will of the people, especially when it comes to reproductive rights. In 2024, 1,538,659 Missourians voted YES on Amendment 3. The people of Missouri voted overwhelmingly to ensure that access to abortion and reproductive healthcare remains protected. That number wasn’t a fluke. It wasn’t a small minority or a political agenda. It was over a million people, across every corner of this state, sending a message that we want our rights to be upheld. And we expect those elected to represent us to defend them—not to turn back the clock on those rights. The choice to access abortion and reproductive health care should never be taken away from the people of Missouri. Access to healthcare is a human right, and for too many of us—especially Black women, women of color, and marginalized communities—these rights are often under threat. For us, reproductive rights are about health, dignity, and equality. This is not an abstract issue—it’s a life-or-death matter. What we voted for in Amendment 3 was not just about abortion; it was about ensuring that people, no matter their background, no matter where they live in this state, have access to the full range of reproductive health care. We have the right to make decisions about our own bodies, and those decisions should not be limited by political whims or the passing of partisan bills. I ask this Committee today: Will you honor the voices of 1.5 million Missourians, or will you silence us? Will you uphold the values that so many of us hold dear, or will you allow politics to dictate who gets to make decisions about their health, their future, and their families? I ask you to vote against Bill HJR 54 and to stand with the majority of Missourians who have already spoken on this issue. Our government should reflect our shared values and voices, not silence them. Thank you for your time and consideration. Sincerely, Cristen Mathews St. Louis City, Missouri

Missouri Voters are in favor of reproductive freedom—women to make decisions within the privacy of a medical facility and with the advice of a physician. They voted their approval of such a stance in November 2024. You have no right to override the will of the voter. Also, why do you use the word “abortion” to equate three separate medical conditions. There’s a (1) voluntary abortion where the woman decides to terminate a pregnancy. There’s a (2)spontaneous abortion, also called a miscarriage, where the woman needs medical assistance to involuntarily end a pregnancy, and (3) TMFR which is a medically needed abortion due to non-viable fetus or health of mother. These 3 situations are not “equal” and two are not under the immediate control of the woman. The cruelty of “anti-abortion” laws is unnecessary. Please assure women have a safe, healthy future in Missouri. Thank you.

HJR54 overturns the will of the voters. I am against abortion yet voted for Amendment 3 because I am for a woman's right to choose. Now because you don't agree with the election outcome you want to override the voters. In addition, the bill states "...any person who intentionally or negligently causes damage to another person relating to the provision of reproductive healthcare or the performance or inducement of an abortion is liable for damages and subject to suspension or revocation of his or her medical license" What exactly does that mean? Are you purposely vague here so you can then interpret however you'd like if it's enacted? I am against HJR 54. Respect the will of your constituents who voted.

1,538,659 Missourians voted YES on Amendment 3. It is NOT your job to undermine the will of the people. Missourians spoke loud and clear at the ballot box: we support access to abortion and comprehensive reproductive health care. Our government's role is to uphold these values—not attack them. It's outrageous and unacceptable that certain elected officials think they can dismiss the voices of over 1.5 million voters. Stop wasting our time and taxpayer money trying to overturn what the people have already decided. Focus on the real issues that matter to Missourians instead of pushing your own political agenda.

I am a registered voter in Missouri. Along with 1,538,659 Missourians, I voted YES on Amendment 3. You are an elected official and you were elected to defend those rights. It is shameful and disgusting that the voice of the voters is being ignored. We know what we want and that is Reproductive Freedom is a Missouri value! All 1,538,659 Missourians made it clear at the ballot: we support access to abortion and all reproductive health care. That isn't open for you to impose further restrictions such as not issuing licensing to providers and clinics to perform abortions. You were elected to be a part of our government and must reflect those shared values not threaten them. I have had an abortion by choice for deeply personal reasons. I would not be alive today if it weren't for it being legal in Kansas. It is disgusting and shameful I had to go to another state to receive medical treatment which is my right to choose to protect my health and life. A choice that no one should be able to make for another human being. I implore you to focus on what you were elected to do, and that is to uphold the will of the people!

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

HJR54-Stinnett-Reproductive health care is unconstitutional, We the people voted as a collective on Amendment 3 for the right to our Reproductive Freedom Initiative. On November 5th of 2024 this Amendment passed. A fundamental right to reproductive freedom that is defined to include abortion and ALL matters relating to the reproductive health care to the Missouri Constitution among other provisions. The HJR45 Stinnett does NOT correlate with Amendment 3 that was clearly stated and voted on by the people who are in fact educated enough to make this decision and agreed upon by the people of Missouri on the 5th of November 2024. If HJR54 is passed the maternal deaths are expected to rise under continued abortion bans. This Stinnett is not baning ALL abortions but it WILL ban safe abortions. HJR45 also prohibits any medical care given to a person undergoing transition. The rate on suicide or suicide attempts in the U.S. are up by 40% in the transgender community. Williams Institute at UCLA School of Law shows in a survey and study that 81% of transgender adults have had thoughts about suicide, 42% have attended suicide, and 56% engaged in non suicidal self-harm over their life time. Taking away of their health care CAN and WILL result in increased self-injury and deaths. Please take deep consideration about how harmful this bill is and who it will deeply affect.Families, friends, communities. Do the right thing.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

To the committee members of the Children and Families Committee: I am a resident of Missouri, a mother, a military spouse, and am currently pregnant. I am in opposition to HJR 54. There are many reasons, both personal and general, for my opposition. As a currently pregnant woman who WANTS to carry this child to full term, I am concerned about my access to health care, should I need it in case of an emergency. I know that the states that generally oppose abortion and women's healthcare hold the belief that women who should need or want these services should either travel to a location that allows them or should relocate to live in a state that allows them, but for me personally, neither are options. We are ordered to live here by active duty military orders, and Tricare recently removed the travel stipend for abortion care for both active duty members and their dependents, so travel isn't feasible either (particularly when your active duty member is gone on military orders and you are left in a state with no support, since your family lives hundreds of miles away). Beyond that, in the case of an emergency, I worry about what would happen to myself and my baby if healthcare providers are too scared or not allowed to intervene if I need healthcare. These are personal factors that would still exist even if I didn't believe in the right to choose or that abortion care is health care. Beyond that, overturning a ballot measure that was approved by voters undermines the democratic process and disregards the will of the constituents who supported it. The state asked the voters what they wanted, and they responded in a very clear manner. I was personally amazed that this proposal passed - it took support from BOTH sides of the party line, and in talking with my fellow community members, both people who are in agreement with my general political takes and people who I generally disagree with all voted in favor of this proposed amendment. You are not just ignoring one side of the political spectrum if you do not allow this amendment to be enacted. You are not just suppressing people who don't agree with you in general politics. You are willfully telling members of both major political parties and political leanings that their vote does not matter. We cannot undermine the power of any vote, or else our whole system could start to fall. Please reconsider stopping this amendment. You have the power and the responsibility to constituents of this state to honor what they voted for.

I am a Pediatric Nurse practitioner who takes care of sexual assault survivors. This bill is damaging to these patients. To suggest that they can only seek health care if they report their assault to police is absolutely devastating. There are many reasons why victims do not report including fear or retaliation, fear or not being believed or being judged as well as the belief that they are in some way responsible for being assaulted. This bill will demonize sexual assault victims who do not feel comfortable reporting their assault. They should be able to receive care just like anyone else. Not only that, but Missouri has allowed victims to report anonymously which makes no sense in reference to the suggested bill. My opposition to this is also due to the fact that the people of Missouri voted on this already. We voted to inshrine these rights in to our constitution. Passing this bill would be telling the people of Missouri that their vote doesn't count if their legislators don't agree with them which completely violates our due process. Please let these decisions be made by women and their health care providers and not people without any medical training or experience.

Politics have no business being part of a discussion between a patient and their doctor. Reproductive healthcare is healthcare. Abortion bans don't protect babies. Missourians voted on this in November 2024 and the decision was made to allow women to have bodily autonomy. Respect the wishes of the voters.

Chairperson and members of the committee, My name is Dany Lacio, and I am here today to strongly oppose HJR 54, a blatant attempt to override the will of the people and dismantle the constitutional protections for reproductive freedom that Missourians voted for when they passed Amendment 3. HJR 54 is not just a legislative attack—it is a direct assault on democracy and the fundamental right of individuals to make personal healthcare decisions without government interference. Last year, Missourians made their voices clear: reproductive freedom is a right, and politicians should not be in the business of controlling our bodies. Attempting to roll back these protections is an insult to the democratic process and the values of personal liberty that this state claims to uphold. This resolution disregards the lived realities of Missourians who need access to abortion and other essential reproductive healthcare. It particularly harms those already facing systemic barriers—low-income individuals, people of color, rural Missourians, and LGBTQ+ individuals—who may have fewer resources to navigate unnecessary restrictions on their medical decisions. HJR 54 also stands in stark contrast to the principles of limited government that many in this body claim to champion. The government should not be in exam rooms, interfering in private medical decisions best left to patients, their families, and their doctors. Missourians have already spoken on this issue. This resolution seeks to undermine the democratic process and substitute politicians' will for that of the people. I urge this committee to respect the voices of the majority of Missourians who voted to protect reproductive freedom. Instead of wasting taxpayer time and resources trying to strip away rights, we should be working to expand healthcare access, address maternal mortality, and support families across Missouri. For these reasons, I strongly oppose HJR 54, and I respectfully ask this committee to reject it. Thank you for your time and consideration. Dany Lacio - SGF

As a Missouri resident and voter, I voted in favor of Amendment 3. Abortion is healthcare. The citizens of Missouri have voted in favor of Amendment 3 that they believe in reproductive health care and that adequate, safe healthcare is a human right. The Missouri House should be REPRESENTING their constituents, not passing bills that are in direct opposition to their constituents' votes. Enshrine reproductive freedom in the state constitution, as was voted.

MOEEP opposes this HJR and believes that Missourians spoke loud and clear by overturning the abortion ban in November. While the margin was narrow, 51.6% of Missourians voted and we now have a constitutional amendment in place, making this HJR unnecessary. We would note that this same margin elected 1 MO senator and 3 MO House representatives and a smaller margin elected and additional 4 house reps, a circuit judge and voted in sports betting with Amendment 2. If the margin isn't enough for Amendment 3, who will break the news to these other folks, some of them republicans, that their election margin is not sufficient? Will we re-examine sports betting now, as well? The people of Missouri have spoken on this issue. MOEEP echoes that voice and opposes this HJR.

My name is David Cable and I am a proud Missourian from Kansas City. The proposed bill HJR 54 is starkly opposed to the constitutional amendment #3 passed by over 1.5 million Missourians last year. The text of the amendment that passed specifically states that it "establish[es] a right to make decisions about reproductive health care, including abortion and contraceptives, with any governmental interference of that right presumed invalid." Bill HJR 54 is government interference and therefore unconstitutional under the will of the Missouri voters. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care. Further, our government should reflect those values, not threaten them.

The people of Missouri, including myself, voted overwhelmingly to assert our choice for amendment #3 to proclaim the choice of women's bodies for themselves and not be regulated by the government. How can the legislature now oppose the wishes of their constituents who also voted for them to be in office? If HJR 54 continues to repeal reproductive freedom in the Missouri Constitution, then all lawmakers who were also elected should be repealed and their opponents installed in their place to work for the choices of the people of Missouri. We voted for Amendment #3 to be in our state constitution and our rights must be upheld.

As a board certified Ob/Gyn physician who has been caring for patients in Missouri for >15 years it is clear to me that any prohibition that interferes with the patient deciding what is best for them and their family is the worst kind of governmental intrusion and antithetical to the concepts of freedom. The seal of the State of Missouri includes the Latin phrase "Salus populi suprema lex esto" which translates to "The welfare of the people is the supreme law." This law would interfere with the welfare of Missourians! Please focus on ways we can improve the welfare of Missourians.

This bill should not be supported. Women should be free to make their own Healthcare decisions and decide what can and cannot be done to their bodies without interference from government entities. Men are allowed to make their own bodily decisions and women should be allowed to do the same. The introduction of this bill is an affront to the voters of Missouri who passed Ammdement 3 not 3 months ago. By introducing this bill and even entertaining it, you are telling the voters of the state that you do not care what they say and that you are going to do whatever you want anyway with no repercussions. The last I checked, we live in a democracy where a vote by the voters dictates what does and does not pass or who gets elected because that is the will of the people, not the decisions of a select few.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

I am a mother to three beautiful children, and I wouldn't have it any other way. But, my children did not come "naturally" as you will. All three were conceived through the fertility care method of IUI. We had very low chances of becoming pregnant on our own, and the fact that we had choices is what allowed us to become parents. When we talk about reproductive rights, it is NOT just about the right to an abortion. It's about fertility methods, emergency care, women's health, and more. Undoing the will of the people, through HJR54 is a slap in the face to the people of Missouri and is directly saying, "we don't care about women". If you are pro-family, pro-life, then do not take away our reproductive rights through this bill.

The people of Missouri voted that we want to be able to make our own decisions when it comes to our health care - reproductive rights is health care. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them

I oppose this bill because:HJR 54 is clearly unconstitutional: This attempt to overturn the will of the people seeks to take away Missourians' hard won right to have access to abortion care and make abortion decisions for themselvesRespect for Voter Choice: Overturning a ballot measure that was approved by voters undermines the democratic process and disregards the will of the constituents who supported it.Public Health: Access to safe and legal abortion services is an important aspect of healthcare. Maintaining this access helps ensure the health and well-being of individuals who may need reproductive healthcare.

The abortion and reproductive rights issues were put before the Missouri voters in November, 2024. Amendment 3 passed with 51.6% of the vote in favor of the right for Missouri women to access reproductive care, including abortion. Lawmakers have NO RIGHT to attempt to undermine the will of the people just because they don't care for the outcome.

My name is Delaney Eisenbeisz, & I live in Kansas City. As an active voter in the state of Missouri and an advocate for democracy, I am in firm opposition to HJR 54. 1,538,659 Missourians voted YES on Amendment 3, and as an elected official, you are responsible to uphold those right we voted for. Especially seeing as those votes are similar to those that have placed you into office and given you the powers you have today. Missourians have, through the democratic process, voted to uphold reproductive rights in the state and that should be respected and ensured.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

My name is Della Bell-Freeman from Highlandville, MO. I am a lifelong Missourian, retired educator making me an advocate for children and I am a survivor of sexual abuse. 1,538,659 Missourians passed Amendment 3 to reverse Missouri's cruel abortion ban that made no allowances for pregnancies resulting from rape, incest, and sexual abuse. The voters have spoken, and your job as an elected official is to implement Amendment 3 and protect the rights of women to have bodily autonomy. Unless you have been sexually abused you do not understand the importance of bodily autonomy, nor do you understand how triggering smells, visual reminders, and sounds can be. Women should never have to be judged or justify making a choice that a man will never understand. As an educator, I can tell you that sexual abuse is more prevalent than many believe and making a child have a child as a result of that circumstance is life changing. A former student of mine was raped by a family member in middle school and had to have the baby. Her life and that child's life have been difficult to say the least. Making a woman have a baby without ensuring care and supports are provided and without holding men accountable for the support of said child is not pro-life, that is punishing women which is discriminatory. Missouri's recent abortion ban, like bans in other states, also intimidated doctors and delayed medical care related to non-viable pregnancies. This endangered and in some cases ended the lives of women who were mothers, wives, daughters. Again, women and their families were put at risk due to the ban; as Missourians, women deserve more consideration than we were given under the recent ban. Freedoms including reproductive freedoms are a Missouri value and have been something that Missourians fight to protect. Missourians made it clear at the ballot box: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them. The threat to overturning Amendment 3 is coming from the GOP which espouses hearing the voices of voters and advocating for less government; overturning the will of the voters flies in the face of what the GOP stands for. Please do the job you've been sent to Jefferson City to do which is to represent the voters. Thank you!

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

A person with a uterus should be able to make whatever healthcare decisions they deem fit for themselves and their families. If they choose not to carry a child to full term, then it should be up to them and no one else. I firmly believe that bodily autonomy and healthcare of all kinds should be a constitutional right, as it pertains to the pursuit of life, regardless of the context in which it is needed. Who are YOU to make decisions on what it best for others and their bodies? Who are YOU to make decisions that will affect not only people with a uterus, but their families and their pre-existing children as well? Who are YOU to decide that this specific type of healthcare should only be available in specific contexts? What if there was a bill passed that said you could only have hip replacement surgery ONLY if you fall down the stairs, but it's not covered if you just fell on the floor? Would that be constitutional? No, because it infringes on the pursuit of life, which is used in our Declaration of Independence to emphasize the inportance of the Individual's rights and freedoms. This bill aims to take away our bodily autonomy by making it so that someone HAS to carry a child to term whether they want to or not. This bill aims to fill our already full foster care systems, to push more children and teens into a system that results in up to 33% of them becoming homeless at some point. Why are we forcing people to have children that they cannot adequately raise? Because they had unprotected sex? Why not introduce a bill to make birth control a constitutional right, or to make sexual education required in public schools? Why is the answer policing people's bodies instead education and support?

I am asking that this bill not be passed. As woman that cannot have children, I do not believe it right for others to decide what I can and cannot do with my own body. This bill is a tremendous violation of personal autonomy. As it is presented currently, this bill has nothing to do with actual governance of the state. The voters did not make their choice in the election, only for it to be countered against their will by overzealous legislators. Let the will of the voters stand and vote no on this bill.

Hello, I'm Diana McNamara and I live in Overland, MO, St Louis County. –You were elected to defend these rights: * Reproductive Freedom is a Missouri value * Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them. Please vote NO on HJR 54.

My name is Diana Taylor, I live in Independence. I am old enough to remember Roe v Wade becoming a reality. We Missouri voters gathered petitions, we got the signatures to put to the voters a matter of Healthcare that we had before and was taken away. It's ridiculous that you are now saying what we voted for doesn't matter. The people have spoken, loudly and clearly. Oppose HJR 54. It goes against your constituents.

Missourians across the state demonstrated that they care deeply enough about reproductive freedom to go through the initiative petition process in order to put the issue on the ballot. 1,538,659 Missourians voted YES on Amendment 3. Missourians made it clear at the ballot that we support access to abortion and all reproductive health care. You, our representatives, were elected to uphold, not subvert, the will of the people. We demand that you respect Missouri voters and cease your attacks on Amendment 3.

As a woman and a Christian I oppose this bill. 1. This bill sets the woman to be humiliated to try to get the medical aid she needs. 2. Who will judge the medical emergency warrants an abortion. How does this also jive with your plan to prosecute medical officials? 3. What is the plan for Missouri when no medical professionals will practice here since you are putting that at risk for committing a crime but just doing their job? 4. How is the man also held responsible and accountable? It does take a man to make a baby, women don't do this to themselves. 5. Do the sponsors of this bill and those voting on it have medical degrees to make these unilateral decisions? If you feel you are doing your Christian Duty I ask that you actually read the Bible. You won't find being the morality police something Jesus called for.

It is very disappointing that our elected officials are (once again), trying to overturn the will of Missouri voters. The voters passed a Constitutional Amendment to give women the right to make their own decisions about their health and body. And yet, you are trying to bypass the will of the voters and impose YOUR personal religious beliefs on Missourians. Just stop it. If you continue down this road, women and their supporters will once again fight for their rights in the voting booths across our state. You are just wasting taxpayer money to continue your efforts to control women, and we are all getting sick of your nonsense.

I am writing to urge you to vote NO HJR54 which seeks to ban abortion in Missouri and is in direct conflict with the will of the majority of voters as evidenced by the passing of Amendment 3 in November 2024. Missourians made their voices heard on this matter of reproductive rights. A ban on abortion limits women's access to reproductive healthcare. Putting caveats on when access is permissible puts an extra step in seeking services when needed. I have friend who almost died in December 2023 because she was denied a D & C for a nonviable pregnancy. She had to bleed out on the bathroom floor because her doctor was afraid to provide the services she needed to preserve her health and future ability to conceive. Missourian women deserve to make their own healthcare choices without the government getting involved. Doctors should not be afraid to provide the best care for their patients. I urge you to respect the will of the voters and protect the rights we voted for. NO on HJR54.

First of all, the voters of Missouri already voiced their position on this issue! Legislators have no right to attempt to amend this law. I had an ectopic pregnancy many years ago and was bleeding internally. It was a medical emergency that needed immediate attention to save my life. Any time wasted for a doctor to determine if this qualified could have cost me my life. Also, I voted to protect not only my safety, but also that if my daughters and granddaughters and all women in Missouri.

Missourians voted in November to make Abortion legal in our state. Women have the right to control their bodies and private decisions need to be made by the woman and man--not by random men and women who have no part or responsibility for the situation. As a pediatrician, I strongly feel that these decisions are between the family and their doctor. Physicians cannot practice in fear of being charged with assault or murder. And the provision that "any person who intentionally damages" a person related to reproductive care is very frightening for any provider who provides care for women.

This bill is in opposition to Amendment 3 that passed by will of the people of Missouri. As a citizen of this state, I'm appalled that legislators would seek to disregard our democratic process that passed Amendment 3. Please oppose this bill, honor the passage of Amendment 3, and protect the reproductive rights of women.

HJR 54 is an ungodly and unconstitutional resolution that specifies groups of children who can be legally killed. It deprives these children of due process and equal justice and protection under the law. Furthermore, in its current form, it saves no children at all from being legally aborted/killed. I urge the committee members to consult the abortion research which is clear that such attempts to regulate the killing of children does nothing to decrease the number of abortions in a state. The legislature can do much better than this to end abortion in Missouri. I urge committee members to vote no on this resolution and consider other resolutions and bills currently in the House that will bring a complete end to legal abortion in the state.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

My name is Elizabeth Franklin, Plattsburg MO and I am submitting the following in strong opposition to HJR 54. Amendment 3 was passed on 5 November 2024, a clear vote by citizens of MO that we want the right to make reproductive decision among our family and loved ones, our doctor, faith leaders and NOT the government. This is settled, the inability to accept and move forward on this issue is unfortunate. Indeed, the 2024 Presidential election was won by 1.5% (49.8% to 48.3%) and has been called a mandate. By comparison, Amendment 3 passage could be characterized as an even bigger mandate, passing by 3.2% (51.6% to 48.4%). The sponsor and supporters are in the minority on this issue and need to accept the will of the people and move forward. Your job is to represent your constituents and then uphold the results of all citizens in statewide elections and accept the will of the people. The actual contents of this bill warrant little comment but as you know, many rapes and incest cases go unreported out of fear. Your thoughtless requirement that an abortion is available to a woman “only if documentation is presented to the attending physician that the rape or incest has been reported to a law enforcement agency that has jurisdiction to investigate the complaint at least 48 hours prior to the abortion” is mean and cruel. While that might be the ideal way to bring all rapists to justice, you well know that many children are threatened with more harm if they “tell someone.” You should be ashamed, this HJR is an embarrassment.

I oppose HJR 54 – a proposed constitutional amendment to overturn the right to reproductive freedom enshrined by Amendment 3 and undo the will of the people. Missouri Legislature must stop its continued attacks not only Missourians’ reproductive freedom but our voice and vote. This bill has no place in Missouri. We the people deserve the freedom to be who we are and control our own bodies. We voted for Amendment 3 as we were asked and we answered.

My name is Edward Robinson from Blue Springs, MO. I am strongly opposed to our elected officials wasting time on HJR 54. The people of Missouri, over 1.5 million, overwhelmingly passed Amendment 3 last November. HJR 54 is an attempt to undermine what the majority of voters in this state want. As elected officials, you should be upholding the laws and constitution the citizens voted for, not trying to find ways to go against the will of the people. You have many more important things to address instead of intervening in women's health care choices that should be between them and their doctor.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

My name is Eileen Doherty and I am a resident of Kirkwood, MO. I am writing in strong opposition HJR 54. This proposed legislation would undermine the will of the over 1.5 million voters across this state of Missouri who voted to protect reproductive freedom. I was one of those voters. However, I very easily could not have been alive to cast that vote. I suffered an ectopic pregnancy about 19 years ago that caused me to have life-threatening internal hemorrhaging. I would have been left to bleed out and die if not for laws that permitted my doctor to perform life-saving, emergency surgery on me immediately. If I had died, I would have left our two daughters who were 3 and 1, at the time, motherless. Reproductive healthcare including abortion care, is vital healthcare that cannot be modified now, after 1.5 million of us have voted for it. Stop acting like you know better than your constituents who voted for protecting reproductive freedom. Thank you.

I oppose this gross disregard for the will of the people. Not only for the general reason that this is a health care matter and a matter of privacy as protected by the Constitution, but for the personal reason that I am a retired Trauma nurse from several hospitals in St. Louis. We frequently saw women in life-threatening situations like ectopic pregnancies where an abortion of a non viable fetus was the only option. I worked these cases even before Roe v Wade in Catholic hospitals, and there was never a moment's hesitation when deciding whether t get these women to surgery.. Then why should there be now? It is a matter of life and death, and the idea that politicians with absolutely no knowledge of science,specically OB/Gyn are making these decisions is ludicrous. Protect the lives of women who have living children. Stop this bill.

I stand with Amendment 3: Right to Reproductive Freedom Initiative. I will forever affirm the importance of safeguarding personal liberties and protecting the right to make private medical decisions. This measure not only aligns with the principles of individual freedom but also promotes public health by ensuring access to comprehensive reproductive health services. Amendment 3 reflects the will of the people, as it was approved by a majority of voters in the November 5, 2024, election. This democratic decision underscores the state's commitment to upholding the rights and well-being of its residents. Supporting Amendment 3 was a significant step toward ensuring that all Missourians have the freedom to make informed decisions about their reproductive health, free from unnecessary governmental restrictions. It is because of this that I OPPOSE : HJR 54 - Stinnett - REPRODUCTIVE HEALTH CARE.

Women have the right to make decisions about their bodies. Enforcement of abortion bands is against the values of the majority. This issue is about much more than abortion. It's about everyone's right to make decisions about their bodies. It's about separation off church and state. It opens the gate to taking away other freedoms that are the rights of all.

I'm Dr Elina Salminen, writing this from St Louis (Benton Park). I'm writing to express my opposition to HJR 54, on the grounds that it'll waste taxpayer money for the sake of posturing. Mere months ago, Missourians made their will plentifully clear when they voted for Amendment 3. In light of this, HJR 54 as well as licensing requirements are clear in their purpose: to attempt to subvert the will of voters, and to posture in hopes of peddling to a minority of voters. Squandering taxpayers' money and your own work on this is a colossal waste, when there are so many urgent decisions to make and important political questions to debate. I request that you support the will of Missourians and nix this bill that runs so blatantly against that will.

The voters of Missouri have already voted to support women’s choice and reproductive freedom. This issue was settled in Nov, 2024 at the ballot box. As our elected representatives it is your duty to carry out the will of the people, 60% of Missourians support the right to reproductive health care, including abortions, being the choice of women. Missourians have shown by majority that they do not want the government in their doctors office, whether it is regarding reproductive care or trans health care we want the power and the decision to be made by the patients. Missourians support bodily autonomy and it is time for our representatives to represent us. Thank you.

My name is Elisabeth Boyer and I am from Farmington, Missouri. I'm November, 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights. The people used their voice to speak to what they feel is their right as Americans and Missourians and their decision should stand. Reproductive Freedom is a Missouri value and a human right. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care. No woman should die as a result of others attempting to legislate their religious beliefs. There is a separation of church and state that is guaranteed by our Constitution and should be respected by our elected officials. Our government should reflect those shared values not threaten them. Missouri elected officials should represent the voices of their constituents, not defy and stifle them.

I am writing in defense of reproductive freedom and gender affirming care in Missouri. As a registered nurse who works in community health, I see the devastation that occurs when we limit individuals' rights and access to the healthcare they desperately need and deserve. I caution our legislative leaders who do not work with the underserved and who have no working knowledge of healthcare to stop pushing this heinous agenda. Access to gender affirming care, and access to the full scope of reproductive healthcare - including abortion - is necessary for the health and safety of our community. If you value the lives, autonomy, and freedom of Missouri citizens, it is a clear choice to defend abortion access and gender-affirming care.

My name is Elizabeth Grill. I am a full, legal, and complete citizen of the United States of America and the state of Missouri. I am a mother, I am a woman, and I am a registered nurse. I have spent 27 years caring for mothers, infants, woman, and families. I have seen things all of you have no idea even happen in life. I can assure the legislature none of you are educated enough, nor have the experience of thousands of medical situations to be able to make even one single heath care decision for anyone. There is not a single private citizen that you have the medical knowledge/ experience or life knowledge and experience to make a medical decision for. Not one, not a man, not a woman, not a child, not a nonbinary person. You have **NO LAWFUL RIGHT** to choose for a private citizen what medical care is best for that person. If you willingly choose to **IGNORE** the free will of citizens, privacy of citizens, and sovereignty of citizens, this country will pay the price. This country will not tolerate nor survive tyranny. You shall not overturn the will of the citizens of the state of Missouri by passing any law that interferes with the private healthcare decisions of those citizens.

To our elected representatives in the Missouri Legislature: My name is Beth Hastings, and I am a registered voter in Ballwin, (St. Louis County). I am very disappointed in the members of the legislature who feel it is their job to reverse Amendment 3 to the Missouri Constitution. This amendment was passed by the voters in November and the will of the people should be honored. Reproductive healthcare is the right of every human being and, like all healthcare decisions, belongs in the doctor's office. Not the legislature. But you all forced the voters to enshrine these rights in the Missouri Constitution. Now, it's your job to uphold the will of the voters who elected you, not subvert it. Vote down HJR 54 - Stinnett. Thank you.

Hello and thank you for your consideration of this important legislation. As a Family Physician with nearly 30 years of experience, I know that reproductive health care includes access to abortion services. In addition, it has proven impossible to limit access to abortion services without also limiting access to other life-saving care, especially the care of miscarriage and complicated pregnancies in which the fetus is still alive but unlikely to survive to term or in which the continuing pregnancy is a threat to the health and life of the mother. Access to a full range of contraception and fertility care is often limited by these efforts, often without this being the specific intention of the legislators. The voters have spoken: we want to preserve access to abortion. I ask you to vote against this and any other attempt to limit access to abortion.

As a Missourian and woman, I am deeply concerned that politicians will undo the voice of the people. The topic of reproductive healthcare is important to me and many young people. I hope this state continues to be a welcoming and supportive place for me, my friends, and family. Otherwise we will be voting with our feet and moving.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Women are human beings, not breeding machines! Women are human beings, just like men, and should not be forced by the government to give birth, regardless of anyone's opinion. Women should continue to possess the right to have an open and private conversation with her doctor when weighing her options about abortion without anyone worrying about jail time or major consequences. In Missouri, 1,537,765 voters went to the polls and voted YES on Amendment 3 to protect women's right to abortion. There should be no pushback on this issue because "We the People" have already decided! In states where abortion is illegal, doctors have put other measures into practice when a woman is having complications during her pregnancy that actually requires a D&C but isn't carried through due to fear of retaliation. If amendment 3 was overturned, women would be forced to endure unimaginable symptoms that could be avoided by performing a D&C without fearing prison time. It's bad enough she had to go through a traumatizing event such as a miscarriage! If a doctor performs a D&C and later discovers that the legal system deems it unlawful, they could face heavy fines, up to 99 years in jail, and the loss of their medical license. So why would any doctor in a state that doesn't have legal abortions choose to do a D&C? It's a lose-lose situation because the mother and baby could die if the procedure isn't performed. This creates a massive ripple effect on the people in her life who rely on her, including her spouse, children, family, and friends. I mean, WHY ARE WE EVEN HAVING TO DEFEND OUR DECISION THAT WE ALREADY VOTED FOR? We shouldn't even consider abortion bans until we have adequate assistance for expecting mothers that need help such as affordable childcare, funds for the first few months after the child is born, homes for mothers to live in if they lose their job and home, counseling, adoption options, and more! I am deeply disappointed by the lack of resources and the absence of care from politicians and even churches that refuse to help these mothers in their time of need. Many women lack adequate support from their families for various reasons and should not be forced to make unimaginable decisions during pregnancy or after childbirth. This doesn't even touch on girls (children) getting pregnant from being raped by members in their home, women being raped, the horrific sexual abuse women face on a daily basis, our flawed foster care. Until we can truly provide a supportive "village" to help women, abortion must remain legal—period!

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

In November 2024, only a few months ago, Missouri voters enshrined the right to abortion in Missouri. This is basic healthcare that your constituents have demonstrated time and again that they are in favor of. HJR 54 is going directly against the will of Missouri citizens to enforce healthcare restrictions that a few politicians don't care for. Please vote against HJR 54.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

My name is Elizabeth Becker and I am a constituent of Rogersville, Missouri. I am submitting testimony on House Joint Resolution 54. I strongly oppose HJR 54 for the following reasons:[] The resolution reads that there are exceptions for abortion due to medical emergency. This raises concerns for me for this reason. I have a loved one have complications during two pregnancies and in both cases, had to end the pregnancy to protect themselves. This was luckily before the abortion ban took place in Missouri and their doctor was able to perform a life saving termination. If that happened to my loved one now, I can only imagine what they would have faced. Their doctor would be faced with the decision, with very little time, to determine if it was truly a medical emergency or not. What my loved one needed at that time was to be able to make an informed decision with their doctor and get the care they need. Having to prove if their abortion was truly for the reason of medical emergency is setting them up for a situation where the doctor is wasting time deciding if this will count as a medical emergency, because they are now scared that they could be sued or even jailed for making the best decision in this case. Maternal mortality is already high and this will only add to it. This costs the state both for medical dollars and lost productivity.[] As a member of the strategy team at Abortion Action Missouri, I canvassed over 100 voters in the 132nd, 133rd, 134th, and 135th district over Amendment 3. These voters support Amendment 3. During the canvassing, I talked to a woman who had gone through IVF with her wife a few years earlier and they had a medical complication. They rushed to the hospital for care and luckily at that time, they lived in a state that was not as restrictive as Missouri, for abortion care. They got the abortion care they needed and her wife is alive today. They were able to start a family and when I met them, they had a happy toddler running around the house. These laws are dangerous and do not protect pregnant people. The Missourians I canvassed voted for this ammendment and it passed. We should respect the vote of the people and keep it in place as they voted it in.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

My name is Elizabeth and I was born and raised in Missouri. I love our state, but am terrified to exist here as a woman of reproductive age. My husband and I want to have kids, but I have health issues that make this difficult. These health issues make it more likely for me to have complications of which would require immediate medical attention. With bans on abortions, even with exceptions, the timing would still be too long and I would risk the health of my reproductive organs if complications were to arise. I've had many women in my life who have had complications that have led to necessary abortion care. Some of my family members who have had abortion care didn't even realize it qualified as abortion care. For example, my auntie who is a pastor's wife had an ectopic pregnancy and didn't realize that the treatment she received was classified as an abortion. Another auntie of mine had a miscarriage and needed a D&C, which she also didn't realize was an abortion. Both women are strongly against abortion and refuse to accept that they have each had one because of how our government has decided to discuss medical practices without the basic knowledge of these topics. Additionally, the Missouri people made it clear in November that we support a woman's right to make decisions about her own body. It is your duty as representatives to listen to your constituents. By pushing HJR 54 through, you are breaking your oaths and disrespecting democracy. Additionally, our government is wasting time regulating trans people and their personal choices. We elected you to make Missouri a safer and more affordable place to live. By attacking a small percentage of our population who simply wants to exist, you are wasting taxpayer dollars. I am a Christian woman and I believe it is important to love our neighbors, even if we do not understand the decisions they might make. I hope you act accordingly.

I am strongly opposed to this bill. The people of the Missouri just voted that abortion should be legal in most cases and a decision to be made between the patient and medical provider. This bill shamelessly seeks to undermine the will of the voters. The assertion that some lawmakers have made that the voters did not know what they were voting for is insulting. We are not stupid. I knew exactly what I was voting for when I voted for Amendment 3, as did everyone else I know who voted for it.

Pregnancy and childbirth are medical issues that are complex and unique to the women experiencing them. The only way to ensure the best healthcare is to leave the decisions between the patient and the doctor so they can evaluate the specific circumstances fairly without uneducated oversight from the government. Both of my pregnancies have been through IVF. Sweeping, generalized laws that outlaw abortion make IVF less accessible to those wanting to have a baby because of the repercussions of what to do with genetic material after the procedures are completed. In addition, during my second pregnancy, I had multiple complications. There were times when I was bleeding and risked abortion. In such fragile, emotional, distressing times, what I and other women need is immediate and heartfelt care from nurses and doctors without hesitation, not delays and fear of how the government will understand their actions. There are documented cases of women dying or having to live with lifelong effects because they were turned away for fear of legal repercussions. Please stand by what Missouri residents voted for in November!

Good Evening,I am submitting this testimony in opposition to HJR 54, which has been proposed by Representative Stinnett. Missouri voters enshrined the Right to Reproductive Freedom Initiative — including the right to abortion — into our state constitution this past November. Yet just a few months later, politicians are disregarding the will of the voters by pushing HJR 54, which aims to deceive Missourians into giving away the right they just voted for.HJR 54 is a blatant attempt to sow doubt and confusion. This is by design. Every time a measure attacking sexual and reproductive health care is introduced by this body, it fuels uncertainty and drives both patients and providers away from our state. These attempts to score political points come at the expense of the health and well-being of Missourians who simply want to access health care and control their own bodies, lives, and futures.This measure’s abortion ban has so-called “exceptions” for survivors of rape and incest. These “exceptions” ignore that sexual violence is one of the most underreported crimes in America. Many times, survivors do not report because of prior trauma, mistrust of law enforcement or, worst of all, because they live in fear of retaliation from their attacker. These “exceptions” are nothing more than political cover for politicians who fear that voters won’t pass an outright abortion ban. While it was good to hear the sponsor of HJR 54 finally admit that gender-affirming care is health care, it is clear that the supporters of this resolution believe that they cannot win on an abortion ban alone. Instead they are pairing their abortion ban with scare tactics about a small, marginalized community to trick Missourians into voting away their own rights.HJR 54 directly undermines the will of the people who just spoke out in November and passed Amendment 3, enshrining the Right to Reproductive Freedom into the Missouri Constitution. Missourians had to use the citizen initiative petition process to put Amendment 3 on the ballot, because the Legislature passed a total abortion ban. Amendment 3 clearly states that “the right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise delayed.”I urge you to vote no on HJR 54.Ellie BledsoeInterim Vice President of External Affairs

Abortion is an essential human right. The people of Missouri agree: more than 2,000 volunteers gathered 380,000 signatures, then 1.5 million voters showed up to the polls in 2024 to say so. Legislators are supposed to represent the will of the people. Overturning Amendment 3 is wrong.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The will of Missouri voters is to have legal, safe abortion in our state. The majority of voters said 'yes' to amendment 3 in November, which this bill attempts to undermine. Missourians voted for and deserve this right. Abortion bans only make abortion more unsafe. Since Texas have banned abortion, the state has seen 3 documented deaths due to not being able to access this care. Here is the story of just one. Porsha Ngumezi bled to death as she was miscarrying after her doctor opted against an emergency procedure used to end pregnancies. She was 35 and left behind two sons, 3 and 5 years old. Analysis has also suggested that these bans result in a higher level of infant mortality (source: <https://publichealth.jhu.edu/2024/analysis-suggests-2021-texas-abortion-ban-resulted-in-increase-in-infant-deaths-in-state-in-year-after-law-went-into-effect>) This bill also seeks to undermine gender-affirming care. As with abortion, these decisions should be left between patient and doctor. These laws only stigmatize transgender individuals further, and lead to increased isolation and adverse mental health experiences. As a therapist who works with many transgender clients, I can attest to the relief that can come with finally being able to access care that helps one's appearance align with their identity, and gives them a sense of safety in their body. I abhor the language and sentiment of HJR 54 and encourage lawmakers to prioritize the well being of all Missourians.

I am a Missouri mom. I love being a mother, and my experience solidified my belief in choice in our reproductive care. After two pregnancies that thankfully produced my beautiful children, Missouri's continued attack on my rights is making us question whether my husband and I will have a third. It's too dangerous to be a pregnant woman in Missouri for me to risk it now, when I have 2 kids to live for. There are many reasons women seek abortion care that extend being simply not wishing to be pregnant. I know several who had very WANTED pregnancies that were terminated due to irreparable damage with the fetal development or ectopic pregnancies, which are fatal when untreated. In November, Missourians across the state voted in support of Amendment 3 because they see this nuance and believe that these decisions should be between a woman and her doctor. It's your duty to not only implement the will of the people but to protect Missourians, and restricting medical care only puts them in danger. We have doctors leaving our state, creating maternal care deserts for rural Missourians. We are losing life and talent in our state because our legislators are ignoring the science and the will of the people.

Madame Chair and members of the committee, My name is Emilia Stauffer. I am a resident of the 135th House District in Missouri. I write today in opposition of HJR 54 regarding reproductive health care. The majority of people in Missouri voted that Amendment 3 should be ratified into the Missouri Constitution in November. This bill ignores the already noted opinion of a majority vote in Missouri. What's more, why is there language regarding medical interventions for Trans youth that are already codified into Missouri law? This is a gross misuse of taxpayer dollars when the people of Missouri have already spoken and the legislature has already spoken to issues surrounding Trans youth receiving gender affirming care. STOP wasting tax dollars as a means of dominating a cultural narrative that is not popular even in this state that has overwhelmingly voted Red.

I want to voice my opposition to HJR 54. This bill would overturn the Reproductive Freedom Amendment that voters approved by a majority vote on Nov 5, 2024. Overturning the voice of the citizens of Missouri goes against everything this state stands for. It will also dismiss majority rule and impose the will of a minority. The majority of the voters of Missouri have demonstrated that they do not want a minority being enabled by a group of legislatures to misuse their position to overturn their vote. Legislators are supposed to represent their constituents, not impose their bias to overturn the people's will.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Dear Members of the Missouri General Assembly, I am writing to strongly oppose House Joint Resolution 54, which seeks to impose further restrictions on reproductive health care in Missouri. This resolution is a direct attack on the will of the people, as Missourians have already made their voices heard in the 2024 election, affirming that women should have access to abortion care. By attempting to restrict abortion access to only cases of medical emergency, fetal anomaly, rape, or incest, this resolution disregards the fundamental rights and autonomy of women across our state. Missourians have already voted on this issue, and they have clearly expressed that reproductive freedom should be protected. HJR 54 undermines that democratic decision and seeks to override the will of the people with political interference. Furthermore, the requirement that victims of rape or incest must report their assault to law enforcement at least 48 hours before accessing abortion care places an unnecessary and cruel burden on survivors. Many victims do not immediately report their assaults due to fear, trauma, or concerns about retaliation. This provision further harms victims by denying them timely medical care and imposing government overreach in their most personal health decisions. Additionally, this resolution attempts to conflate reproductive rights with restrictions on gender-affirming care for minors, further demonstrating an effort to limit the rights of individuals and families to make informed medical decisions. These provisions serve only to impose a rigid and harmful political agenda on Missourians. The people of Missouri have already decided that reproductive rights should be protected. HJR 54 is a blatant attempt to undermine that decision and impose unnecessary restrictions on personal health care. I urge lawmakers to respect the will of the voters and reject this resolution. Sincerely, Emily Fredrick

Restrictions to health care like this will never be okay. Let people safely have access to take care of their bodies however they choose to do so. The government has no right, in any shape or form, to have a stance on that. Everything from abortions to gender affirming care should be up the individual themselves to decide if they want it or not. No person's medical history or health circumstances look the same so any restrictions can be detrimental in making medical decisions. This is not okay.

I voted for my reproductive freedom and I will be damned if my legislature goes against the will of the people. I have high risk pregnancies. I want the peace of mind that I won't die and leave my son without a mother because my Dr is afraid to get sued or go to jail. If my unborn child has an abnormality I want to have options. Others may choose something different than I do but that is their choice. Not the states. I want women and girls who aren't ready for parenthood to have whatever option they need. These are decisions between women and their doctors. Not the states. I want a guarantee that I can get what ever birth control I see fit when I don't want to get pregnant. I want trans kids (which is a miniscule part of the population, so why are we so focused on this?) to get the access to the healthcare that they see fit with the guidance of their doctors and parents. That is my right as a parent to decide my childs healthcare. Stop taking away rights and get out of our doctor's office!

My name is Emily, I live in University City. For the last four years, I've lived in Missouri. As a student at WashU, I am fortunate to study biochemistry. I've also been involved in politics: I casted my first ballot in a presidential election last November, and supported Amendment 3 here in Missouri because I believe that the reproductive health is critical healthcare that should not be restricted by the state. I oppose this bill as a blatantly anti-democratic attack on voters like me. Instead of focusing on access to education and better infrastructure, politicians are using taxes — my taxes — to make Missouri more restrictive. Furthermore, access to abortion is an essential part of women's healthcare. Moreover, it is well established that abortion bans hurt the state. Missouri has lost over 4 billion dollars and our GDP has shrunk by 1.1% according to the International Women's Policy Institute. This policy is anti-democratic and fiscally unsound. Vote no.

Its ridiculous that a clump of cells with no more complexity than a pimple has more rights than I do. You expect me to carry and raise a child with no support system? Women can't take time off work because Missouri has no mandatory parental leave. Being pregnant is ridiculous expensive. Child care is also ridiculous expensive. When my coworkers find out they are expecting, they aren't excited. They dread having to take up a second or 3rd job to afford a child. If you were truly pro-life, you would support programs to help families and working mothers. Instead the action of Missouri lawmakers show that they simply want women to be breeding sows.

As a Missouri voter and former domestic and sexual violence advocate, I am writing to express my strong opposition to HJR 54. Last year, hundreds of thousands of Missourians signed the ballot petition to allow Missourians to vote on a constitutional amendment to enshrine reproductive freedom into our constitution. I often spoke with individuals who were self-described Republicans who stated in no uncertain terms to me that they believed that our state government should not be involved in these decisions, that it went against their own values of freedom. They expressed strongly their support, without specific week bans requested, and they boldly signed their names. In November, this belief was affirmed by the passing of amendment 3 by Missouri voters. As a former domestic and sexual violence advocate, I know that “exceptions” for sexual assault and incest victims do not work. Exceptions would mean that not only would the individuals have to be comfortable disclosing that they are a victim, but they would also have to identify their experience as sexual violence. I distinctly recall working with survivors who would describe extremely clear sexual assault, and yet, they would call it that the person or situation “pretended not to know they hurt me”, “uncomfortable”, “not intentional”, or “bad sex.” This reframe was absolutely their way of coping with what happened; if they did not call it assault, then the person they loved was not someone committing awful violent acts against them. This reframe also meant that many victims did not seek any immediate care, delaying emergency contraception, STI treatment, and pregnancy tests. Domestic and sexual violence often has an impact on the body- which can include but is not limited to weight fluctuation, hair loss, change in a menstrual cycle, etc. Many sexual violence victims may not know they are pregnant for a very long time. This is not a bill that supports survivors of sexual violence as it neglects every single dynamic and barrier that sexual violence survivors face in seeking care.

Hello my name is Erick and I live in St. Louis city. 1,538,659 Missourians voted YES on amendment 3- you were elected to defend those rights. Reproductive freedom is a Missouri Value. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them.

I support our right to safe and accessible reproductive healthcare, as it is a fundamental human right to maintain bodily autonomy . The removal of this autonomy, as stated by many representatives, presents challenges beyond recognition in this bill. This bill opens opportunities of suffering beyond recognition of individual , health care professionals, legislative processes , and these consequences negate the responsibility of protecting and representing the voices of the people.

Amendment 3 passed in Missouri. Legislators attempting to take the voice away from the people is the opposite of a party for, and by, the people. Furthermore, reproductive choice should be between a woman and her medical team, and no one else unless she specifically asks for their assistance in making that choice. I am a mom of two amazing children, who would not be here if it wasn't for the reproductive choices I was allowed to make in 2009. I challenge any compassionate person to look my children in the eye and tell them they should not be here, and that my husband and I should be childless. My family is complete because of the amazing medical care I received from incredible physicians and nurses who listened, and had my health and well being as their priority. No government belongs in our bodies. A woman's right to choose is imperative to her ability to be a healthy, capable woman. Choice is everything.

The people of Missouri voted on this issue in November with Amendment 3- to enshrine the right to reproductive freedom and healthcare. To introduce and pass this bill flies in the face of the will of the people of Missouri and does not represent our best interests or our desires. As the mother of two daughters, I ask that you leave reproductive health to the woman and her healthcare providers and focus your efforts on measures that will actually benefit children and families living in your state. Issues such as access to childcare and free and public education, ensuring we have adequate special education services, Medicaid coverage for our vulnerable populations, and ensuring a living wage for MO workers.

I am strongly opposed to this proposed resolution. The things listed in this resolution are cruel and will cause harm to women, pregnant people, and transgender people. Putting such harsh limitations on abortion care is dangerous for women. OBGYNs will be limited on the care they are able to provide for us. No person should be forced to be pregnant against their will. Also, denying transgender children gender affirming care negativity impacts their mental health. Trans people exist and deserve compassion. I am opposed to everything in this resolution.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Missourians made clear at the ballot box their support for Amendment 3, for a women's right to make reproductive decisions and family planning without government interference. HJR 54 stands as a prime example of our Missouri state government's unwillingness to let women have the same autonomy that men enjoy. HJR 54--in effect--says, Oh, you people who voted for Amendment 3 couldn't possibly understand what you voted for; so we the government must step in and tell you what you should want as the law in our state. Here's a reasonable alternative, this bill says. Wrong. When you put conditions on who may obtain an abortion and under what circumstances, you create an intrusive burden that may result in lack of proper care. For example, creating an exception for "medical emergency" means some one has to decide whether or not each woman's case meets those requirements. Already, doctors have been unwilling to treat women even when covered by this exception, for fear of a government official deciding the doctor made the wrong decision. Women have been turned away from emergency rooms during their medical emergency because the staff doctor couldn't or wouldn't make the call. Women have been sent home to suffer only to return again to an emergency room to determine if they are now considered a medical emergency. This bill purports to create an exception for "fetal anomaly," but again this provides an excuse for the state to inject itself into the decision making process for doctors, women, and their families. One woman wrote about her decision to have an abortion because of a fetal anomaly in her 4th pregnancy, a decision made painfully and sorrowfully because she and her husband had 3 children, including one with the same fetal anomaly the fetus had. They knew, however, they could not provide adequate care for all three of their existing children if they added another special needs child. There wasn't enough time to attend to everyone's needs, not enough money to pay for all the extras insurance doesn't cover, and not enough of themselves left intact at the end of each day. Can you imagine the additional trauma, then, of having your decision second-guessed by the government? Or what if bureaucracy involvement delayed the abortion enough that the woman now had to travel out of state to find a doctor experienced in later stage pregnancy? Or what about the exceptions for rape and incest? What happens to the 12-year-old girl who whispers to the nurse--because she's afraid to tell her mother--that her older brother has been sleeping with her and putting his penis inside her. Will mom require daughter to carry the pregnancy because she is too afraid of what will happen if she fills out paperwork indicating the pregnancy is incest at the hands of her 15-year-old son? Mom might take her daughter to get an abortion if she is not required to provide a reason that fits into a "special exception." Will a rape victim who wants an abortion be denied the special exception if she was too afraid to file a police report against her rapist? Will a rape victim be subjected to intrusive questions to determine whether or not she consented, because her rapist has denied the charges against him? All of these are scenarios arise from and are the direct result of requiring abortions to be performed ONLY if they meet certain conditions and qualify as a special exception. I cannot begin to imagine the trauma that the bureaucracy required

under this bill will ADD to the stress of a woman needing an abortion. I cannot imagine what it would be like, as one woman wrote about, to know you and your spouse are barely able to afford food and utilities and housing for your children, and yet not be allowed to terminate an unwanted pregnancy. Instead, you must add huge medical bills for the pregnancy, birth, and those for an infant child, as well as paying to feed another mouth. I wonder how many desperate women seek a coat-hanger abortion or consider suicide because the government has stepped in to say they must add to their family. After all the first-hand accounts I have read, and women I've spoken to who've had abortions, I am convinced this is not an easy decision for any woman to make. Many of the women who have abortions want to have a child; but pregnancy has become a threat to their health or a fetal anomaly means they would not have a healthy child. Imagine how torn those women are as they consider the pros and cons of abortion, and how they would feel with an unwelcome insertion of government oversight. I have spoken about the special exceptions under this bill that would cause unnecessary, violative government involvement in the private health care decisions of a woman and the family planning decisions of her and her family. By passing Amendment 3, one and a half MILLION Missouri voters have indicated their decision to keep government OUT of a woman's uterus as the way to protect women who need abortions. It is an insult to those voters for the Missouri Legislature to produce a different amendment to put before the voters months after Amendment 3 was passed. The voters have spoken. HJR 54 should be aborted, and Amendment 3 to the Missouri Constitution should stand as it was passed!

This constitutional amendment does not represent the will of Missouri voters, a majority of whom voted Yes on Amendment 3 in November 2024 to keep abortion a legal option in this state. There should be no law in this state that would cause a doctor to lose their medical license because they performed an abortion. This will only cause our state to become less appealing for doctors, as they will choose less riskier states to practice in. The state has no business enforcing laws restricting personal freedom to choose ones own medical surgeries .

Citizens of Missouri have voted to support women's access to abortion up to the point of viability. As with other health conditions, each pregnancy and its circumstances are unique, and the General Assembly should not be undermining the decision of Missourians by making assumptions about why and how a specific pregnancy up to about the point of 24 weeks (viability) should or should not be carried to term. Have trust in Missouri citizens. As for the questions of transition care for minors, the law is in place, and this is simply additional "ballot candy" for people who have fear that somehow a person would choose gender dysphoria as opposed to being comfortable with the biological gender at birth. (MO Revised Statute 191.1720.). As we also know, no state funding is allowed for abortions, another example of "ballot candy." Please hear and respect Missouri citizens' decision made when Amendment 3 passed. Vote no on HJR 54 which is intended to undo that decision.

This resolution is a violation of both our rights as Missourians and also our trust in our government. I worked for months to ensure that Amendment 3 would pass because I know how dangerous it can be when people do not have access to necessary and oftentimes, life-saving healthcare. At 9 years old, I knew I did not want to have children. At 14, I was diagnosed with an ultra-rare bleeding disorder, meaning that my blood does not clot like the average person's. There is no treatment for my disorder except a platelet transfusion, which if you aren't aware, you can become immune to at any time. Now, at 24 years old, getting pregnant is one of my biggest fears. Post-partum hemorrhaging is not uncommon for women without disorders that make them more likely to bleed; childbirth for me is a death sentence. Under the guidelines outlined in HJR 54, I would not have access to abortion care for consensual sex, I would be forced to carry the fetus, and I would likely die for a child I never wanted. This is not freedom. This is not what I, and 1.5 million other Missourians, voted for. Passing this resolution would be a gross disservice to those who voted you into your positions.

As a woman of child bearing age there is no fear greater than the potential to be a prisoner in my own body. I cannot even fathom the inhumanity of being forced to carry a pregnancy against my will. The most basic human right to bodily autonomy must never be infringed. In the same way someone cannot be forced to donate organs to another, women should not be forced to lend their organs for the gestation of a fetus. Beyond that in order to have an equal opportunity in society for life, liberty and the pursuit of happiness women must maintain the fundamental right to determine if and when to bear children. Time and time again studies have shown that abortion legislation does not promote life but rather increases the amount of death. You are suggesting that women deny their own natural instinct of self preservation, this is anything but pro life. Abortion restrictions inhibit necessary care, contribute to higher maternal mortality rates, and have always served as a tool to control women, never to save babies. I am disgusted that the legislature of Missouri would even consider such a bill, especially following the passage of Amendment three this past election cycle. Missourians have already spoken, you are attempting to defy the will of the people in a gross abuse of power. Do your duty and represent your constituents accurately. Human rights should never be a matter of vote to begin with, but Missourians decided to vote in favor of preserving a woman's right. Show some respect and decency and honor it.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Gene Davison and I am a life-long resident of Missouri living in Springfield. In 2024 Missouri voters approved Amendment 3, restoring a woman's right to make her own choice on reproductive healthcare. Now, that right is once again under attack, including Representative Stinnett's HJR54. The provisions of her bill fly in the face of Amendment 3 and this bill must be rejected. Members of the Missouri Senate and House are elected to serve not just their constituents, but all Missourians, and a majority of voters statewide affirmed that they want a woman to have the freedom to make her own decisions about reproduction. I was one of the many Missourians who circulated petitions to get Amendment 3 on the ballot, and personally collected 400 signatures. EVERY person who signed my petitions knew exactly what they were signing. Missouri voters who supported Amendment 3 knew exactly what they were voting to affirm. It is disingenious at best to falsely claim that the voters didn't know what they were voting for. Indeed, the ballot language submitted by the Secretary of State was so egregious that a court through it out for being misleading. It is not the supporters of reproductive rights who are in error, it is the opponents. That is shown by these attempts to circumvent the will of the people. Representative Stinnett's HJR 54 is an end run around the people's choice, and must be rejected. All legislators took an oath to the Missouri Constitution. You must follow the Constitution, including Amendment 3, to fulfill your oath.

Georgia Unger from o'Fallon MO 63368. I am speaking in I opposition the HJR 54 - Stinnett - reproductive Health Care. I have pose. We've already voted on this amendment three has passed in Missouri with plenty of signatures. More than we need it. It has been voted on the citizens of Missouri passed it. It should be a done issue and quit trying to work around it representatives are to work for us what we want not to go against what we voted for and what we approved up. Every woman should have her right to do what she wants about her body abortion, rights, or something I had my mother had and my daughter not my granddaughters need to have the same rights we had voting against us as our representatives should be illegal and you should be forfeiting Your right to be a representative because you're not representing what the people in Missouri pass give this more time and we will spread the word and you representatives will be voted out. I guarantee you that I'll be on here every day. My right to speech will be all over Facebook. I might even start doing Instagram. This is ridiculous. This is over and done, you lost we won boo-hoo so sad for you!

Reproductive care is an essential option for every female. Only a female and her health care providers can determine the best outcome for a pregnancy. Likewise no pregnancy should be forced! As for the answer to fetal viability, that likewise is the determination for a health expert, a physician, and only a physician can determine whether or not a fetus in a certain stage is viable. Our government does NOT support our elected officials forcing their religious or personal beliefs upon other Americans and their bodies. America is the land of freedom for all, regardless of faith or gender. In addition, if you force pregnancies you will be forcing unhealthy births, risking women's lives (adversely affection their families and children's lives), you will also be directly responsible for more unhealthy infants and abandoned infants, and infants in foster care, as well as more Medicaid and SNAP benefits. Let's focus on taking care of the existing children and families and let a female's decision regarding pregnancy be between her, her family, her medical professionals, and her higher power. Your religious beliefs are for your personal life guidance, not that of others. Be a beacon of love and light, if you feel compelled, your beliefs do not give you the right to force your religion onto others, especially in the United States of America!

The people of Missouri have already spoken. We have already voiced our opinion. And again legislators who have no respect for the will of the people, who lack medical or scientific backgrounds seek to legislate the access to medicine for all of the people of Missouri. Legislators supporting this decision should consider that many victims of rape and incest do not report incidents to police because they live with and are at the complete mercy of their assailants. What this bill suggests is that women are not entitled to the same basic medical privacy that men have without question.

My name is Grace Joy & I am from Bolivar, Missouri. I am writing to you today in staunch opposition of HJR 54. 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights, not (once again) go against the will of Missourians. HJR 54 states “In the case of abortions performed or induced because of rape or incest, the abortion may be performed or induced no later than 12 weeks gestational age of the unborn child and onlyif documentation is presented to the attending physician that the rape or incest has been reported to a law enforcement agency that has jurisdiction to investigate the complaint at least 48 hoursprior to the abortion.” This is an abhorrent punishment for victims. Victims who are already terrified. Victims who may have to go home to their abuser. Victims who are just children. I want to bring your attention to some statistics reported by the National Sexual Violence Resource Center. 63% of sexual assaults are NOT reported to police. Only 12% of child sexual abuse is reported to the authorities. You are naive if you think this is because of anything other than fear. Fear of not being believed. Fear of public ridicule. Fear of the abuser, who for some victims, may sleep right down the hall. I am a nobody, from the middle of nowhere. I have no college education. I am a stay at home mother. But even I have more knowledge, compassion, empathy, and courage then many of the House Representatives listening to this testimony today. You were given authority and power because of everyday people, just like me. Your job is to reflect the shared values of Missourians, not threaten them. 1,538,659 Missourians told you what they wanted. Thank you for your time.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

My name is Grace Wereley-Bross. I am a student at Washington University in St. Louis, a young woman, and a Missouri voter. I strongly oppose HJR 54. This bill would overturn the Reproductive Freedom Amendment that Missouri voters have already approved. It is clear that the majority of the people of Missouri support the right to make decisions about their own reproductive health care, and this bill is an unnecessary violation of that will. Missouri voters deserve to have our votes count, and as our representatives, regardless of your personal views, you should uphold that right. I ask you to consider my testimony and vote NO on this dangerous bill. Thank you.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Gracynn, I'm born and raised in Missouri, The people of MO -WHO PAY YOUR BILLS- stated and voted clearly that we DEMAND OUR HEALTHCARE. To introduce these bills is to plainly state you are NOT serving the majority of your constituents and you DO NOT take your jobs or the laws of democracy seriously. DO YOUR JOBS CORRECTLY. THIS WAS ALREADY VOTED ON BY US. Women have EVERY RIGHT to make our own decisions. Rape or no rape. AND I have never met a single woman in this state who hasn't been sexually assaulted. So since yall don't actually care about preventing violence against the women who live here, STOP acting like you care about life. We are FED UP, and we will KEEP putting up a fight. I'd advise you all to NOT make it worse.

Voters in Missouri clearly expressed their desire to make their own decisions regarding their healthcare. You have a duty as an elected official and public servant to the people of Missouri to uphold their wishes no matter your own individual views. Abortion is healthcare and a woman's pregnancy is more dangerous for her health than having an abortion if needed. That choice should be made between her, her family and doctors, not a politician with special interests. You will be judged by this bill and voted accordingly.

I respectfully submit my objection to HJR 54 and any similar bills to be brought before either the House or the Senate. It appears those that are proposing this bill are unwilling to accept the intent of the vote of the people of Missouri. That vote made it clear that women's health care, including the right to an abortion, is not the business of the state, but rather a private matter between the woman and anyone else she chooses to call upon, be it her family, her doctor, or her God. Those promoting this bill may object to this personal freedom. However, if they do, their recourse is to enter the public square and try to persuade different behavior and belief, not legislate it with the power of the state. I'm a generally conservative voter, but my conservatism is oriented toward individual freedom and a small, non-intrusive state. I'm not even stating to you my preferences and beliefs on this matter. They are irrelevant, as are yours, when the people of Missouri have voted and changed the constitution to their will.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The people of Missouri voted to give reproductive healthcare to its citizens. This bill is a grotesque, offensive slap in the face of Missourians. Shame on every single lawmaker who would so blatantly dismiss the will of the people. This legislature seems so keen on killing women and girls in our state, for theoretical fetuses, when our women already have full lives, heartbeats, and a right to reproductive healthcare, not just abortion. I work in the ER at a major hospital, and the women that walk in the door experiencing a miscarriage for a wanted pregnancy, or finding out they're pregnant after rape, those women deserve healthcare. The women that have cancer but are of childbearing age deserve their chemo treatment, without their doctor being scared of harming a theoretical fetus. The women and men of this state voted to protect our freedoms and reproductive liberties, and this blatant attempt to thwart the will of the people is a stain on this legislature and our history.

Citizens have already chosen to preserve reproductive freedom in the Missouri Constitution. This bill is a blatant disregard for what Missourians want and goes against what has been voted on. I urge you to listen to what the people want. By moving forward with this legislation, lawmakers would be saying to all Missouri citizens that they do not care about our voices or personal freedoms. Decisions around health care belong to the individual, not the government and not politicians. Please say no to HJR 54. Thank you.

I am testifying against HJR 54 as this bill shows blatant disregard for the will of the majority of Missourians, who voted to return and preserve the right to abortion in our state. This bill actively harms women and children, it certainly doesn't help them. Women need abortions, including a number of women very important to me, for many reasons—none of which should be up to their government to decide. This state should focus more of its time, money, and energy on supporting actually living children through things like improved social programs and schooling. I vehemently oppose further restrictions on women's healthcare and further attempts to subvert the will of the people.

The people of Missouri voted to enshrine abortions rights in our constitution. It is shameful that those who are supposed to be representing the interests of the people blatantly ignore the will of the people. Democracy cannot survive if you do not listen to the people. The right to do with ones own body is paramount, and the government never belongs in the doctors office. Being pro choice is more pro life than any "pro life advocate" I have ever met. Do not allow this bill to pass.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am a Licensed Clinical Social Worker (IL), Certified Sexuality Educator through the American Association of Sexuality Educators, Counselors, and Therapists, and Missourian. I specialize in working with people seeking family planning services. Patients I care for are directly harmed by abortion bans every day. People who are pregnant and who have experienced relationship abuse or sexual violence are at heightened risk for a whole host of adverse psychological and physiological outcomes. The number one killers of pregnant people are not obstetric emergencies, but mental illness and homicide. Abortion bans are state-sanctioned violence against the people, and keep people in already vulnerable positions at heightened risk for severe psychological and physiological harm, abuse, and death. Anyone voting to restrict abortion is voting to harm pregnant people, survivors of violence in particular, and is responsible for the inevitable death and severe harm that results from these bans. A vote to restrict abortion at 12 weeks with insulting reporting requirements will further harm pregnant Missourians. We the people of the great state of Missouri voted for accessible abortion in our state in November 2024. This bill shows severe disregard for those the members of this body are charged with serving. To even entertain overturning the will of the people is insulting and shows you do not represent nor respect us. Public servants like those in this body are tasked with carrying out the will of the people, not to subvert it. I have an entire TEDx talk on the subject I would like to submit to this committee: <https://youtu.be/f24-Aww70w4?si=UkRk5a9j4igcVOwi>

1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them. To bring anything to the floor that is contrary to what Missourians voted for is an insult, and frankly any representative who blatantly goes against the will of its constituents does not deserve the position. What a woman does with her body is between her and the physician she trusts. Making the difficult and traumatizing decision to end a pregnancy should always be a personal matter. To assume that a woman is not responsible enough to make that decision for herself is an insult to all women, and a disrespect to any woman who trusted you enough to elect you.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am a constituent from Andrew County Missouri and I voted yes on amendment three. I am in strong opposition of this bill that would overturn amendment three and limit access to healthcare. My wife would not be alive today if she had miscarried in 2024 instead of 2021. The decision, a woman wants to make with a fetus that cannot survive outside of her body, is a private and intimate decision. There are countless reasons why a woman chooses to have an abortion, or a DNC following a miscarriage. To deny a D & C is cruel, and puts women, their spouses, their partners, their families, through additional suffering, telling them they need to just go home and miss Cari at home. Governmental regulations should never exist in healthcare. That is why as healthcare providers we take an oath to do no harm, to provide the best care, research care, care, driven by science and data... Not buy money, power, and opinions. For government to have any say on the medical decisions of a patient and their doctor is abhorrent.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I'm a woman with two children. After my second pregnancy, my medical professionals informed me my uterus will rupture, killing the baby and maybe also me, should I ever become pregnant again. I've been raped twice in my lifetime. What constitutes "medical emergency"? Doctors will be afraid to appear as if they're guessing, but they are doctors. Why legislate this? Let doctors and their patients determine best practices for survival. I want to keep being a mom to my two kids, not end up pregnant which for the baby is already a death sentence. Must I carry this pregnancy until it becomes deathly clear that it's an "emergency"? To me, being pregnant is already the emergency given my knowledge of what will occur with my body due to my doctors intimate knowledge of damage to my uterus. This is just one personal example of one of many things amiss in this bill. Whom does gender affirming care hurt? More people regret having lasik than gender affirming care. Gender is complex. Read some Judith Butler. Study the science, genetics. Look at history. Trans and nonbinary people won't cease to exist, they'll just live much more difficult lives if you pass this legislation. At best. Because they may also lose their lives. What this legislation is doing is saying some humans matter more than other humans. It is codifying discriminatory, violent, and dangerous practices into law. We have real problems in this world—maybe try focusing on something like clean water and housing first for a change!!!

The people of Missouri have spoken loudly in favor of Abortion being codified into our state constitution. This blatant disregard of our voting power is not only horrifying, but is an action in itself that does not have any place to be heard on the floor. Missourians have overwhelmingly voted to continue abortion care in this state. As a citizen of Missouri, I urge you to oppose this bill and respect the voting power in this state.

We made it very clear that we wanted reproductive health rights and abortion rights and that government should not be involved in women's bodies. We voted to protect our rights and it is your job to uphold what the majority voted for. It would be a great Injustice to the women of Missouri to have this amendment turned over. Once again. Yes, on three, support us on three, reproductive Rights are women's rights!

My name is Lena Levey, I live in University City. For the last four years, I've studied, volunteered, lived, and worked in Missouri. At WashU, I am fortunate to study Religious Studies. Last November, I supported Amendment 3 because I believe that the reproductive health is critical healthcare that should not be restricted by the state. I oppose this bill as a blatantly anti-democratic attack on voters who have supported this bill. Residents of Missouri have made their beliefs clear, and an attempt to undo that process is undemocratic. Moreover, it is well established that abortion bans hurt the state. Missouri has lost over 4 billion dollars and our GDP has shrunk by 1.1% according to the International Women's Policy Institute. This policy is anti-democratic and fiscally unsound. Vote no.

My name is Holley Hentz, I am a resident of Maryland Heights Missouri, and I along with a majority of Missourians voted to protect the reproductive rights that this bill would strip away. The people of Missouri elected you to protect their rights. The right to reproductive freedom won. To pass this law would be a disgrace to the constitution, and a slap in the face to Missourians. As a woman who wants children, this bill would make me to afraid to have them. I would fear for my life while carrying a baby. I do not want to have to take that risk, when I get pregnant I want to know that I am just as protected as my baby. Every woman in missouri should feel safe enough to carry if they so choose. This law takes that from them. I strongly urge you not to strip that right from them by passing this bill. Please do what you were elected to do and protect your residents and the constitution. Do not pass this bill.

This bill would undo Amendment 3 and impose a ban on nearly all abortions that goes against the will of a majority of Missouri voters. Missourians came together and passed Amendment 3 overcoming the significant obstacles put up by the state against this initiative petition. It is appalling that the legislature is trying to pass a bill that expressly goes against the clear will of the people. The exceptions given in the bill are not well defined and are overly strict and even cruel. The bill also prohibits gender affirming care for minors. The state legislature should not be making medical decisions for people seeking reproductive healthcare. Such decisions should be between patients and their healthcare providers. I strongly oppose this bill and any like it. The legislature should be upholding the will of their constituents.

As someone who, in my reproductive years, suffered from infertility and an ectopic pregnancy, I know firsthand the struggles and risks when care choices are left in others' hands. That politicians would now consider silencing the voice of the people and reverse a bill that all Missourians voters had an opportunity to speak to is unconscionable. Even my more conservative coworker and lawyer friend voted "Yes" to allow Amendment 3 to be on the ballot, believing that the citizens of Missouri deserved the right to have their voice heard. You were elected to defend those rights. It's time that you make better, more productive use of your time and our collective resources! Holly Elliott1927 Burlewood DrSt Louis, MO

I am Hope Tinker , M.D. from Fayette, Missouri. I am a Family Physician and I practiced in Howard and Chariton Counties for 36 years. In my years of practice in rural Missouri I learned that my patients and my community do not want politicians making decisions about their health care and they don't want anyone interfering with their doctor patient relationship in the exam room. Reproductive Rights including abortion rights are fundamental to Missouri values which include the fundamental right of control over ones body. We call this "bodily autonomy", my body, my choice. This is not a partisan issue. This is a freedom and a democracy issue. I will remind you of these facts: - 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights- Reproductive Freedom is a Missouri value- Missourians made it clear at the ballot: we support access to abortion and all reproductive health care- Our government should reflect those shared values not threaten them I encourage you to have the courage and honor to oppose HJR 54. The intent of this bill is to overthrow the will of the voters in Missouri. This is bad policy and this is bad health care.Sincerely,
Hope Tinker, M.D. Fayette, Missouri

I'm writing to express my strong opposition to HJR 54, which seeks to overturn the Reproductive Freedom Amendment recently approved by Missouri voters on November 5, 2024. This proposed resolution fundamentally undermines democratic principles. The amendment was passed by a majority of Missourians, clearly expressing the will of the people. HJR 54 would disregard this clear electoral mandate, effectively dismissing the votes of thousands of citizens who participated in the democratic process. Legislators are elected to represent their constituents, not to impose personal biases that contradict the explicit wishes of their voters. By attempting to overturn a democratically approved amendment, this bill represents a dangerous precedent that erodes public trust in our democratic institutions. I urge you to respect the vote of Missourians and oppose HJR 54.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

HJR 54 is a dangerous constitutional amendment that disregards the will of Missouri voters and severely restricts access to reproductive healthcare. Despite the state’s clear support for legal abortion, this measure would impose extreme limitations, banning abortion in nearly all cases except for narrowly defined medical emergencies, fetal anomalies, rape, or incest. Even in cases of rape or incest, survivors would face unnecessary hurdles, including a law enforcement reporting requirement and a restrictive 12-week gestational limit—further compounding their trauma and limiting their ability to access care. Additionally, HJR 54 undermines bodily autonomy by prohibiting the use of medications, hormones, or surgeries to assist transgender youth with gender-affirming care. It also threatens healthcare providers with legal liability and loss of licensure for offering essential reproductive services. These provisions not only endanger patients but also deter medical professionals from practicing in Missouri, exacerbating the state’s existing healthcare challenges. By prohibiting public funds from being used for abortion care and granting the General Assembly broad power to further restrict reproductive rights, this amendment places politicians between patients and their doctors. The people of Missouri have already spoken in favor of reproductive freedom—this bill is a blatant attempt to override that decision and impose a harmful, government-controlled agenda on personal healthcare choices. HJR 54 must be opposed to protect the rights, dignity, and well-being of all Missourians.

As a young AFAB (assigned female at birth) individual, I deserve the right to basic reproductive care like abortions, and so does every other person with a uterus. As I'm sure you're aware, abortions save lives, but they also make lives easier for people who are not in a situation to raise a child. I don't think anyone could disagree that the world has enough people in it, enough people struggling, in poverty, facing homelessness. By forcing someone to give up school or their job to raise a child will only increase the rates of uneducated people who end up in low income jobs and struggle financially. No one deserves to live like this just because you want to be in control of people's bodies. This should be a decision made between people and their doctors (and legal parents/guardians if they're a minor), not the government. You say you are doing this to protect the children but we all know you don't care about the children, if you did you would do more to provide good education and healthcare to all, and stop gun violence and school shootings. You always use women and children by making it appear like they are in danger so that you can get your way, and this is because society views us as weak. But when the time comes you do almost nothing to really protect us. An example of this is shown in the fact that you included a ban on minors getting access to gender affirming care. You are using fear mongering tactics to make people believe that if this bill and bills like it don't pass, little children will be able to get life changing surgeries; but you know that's not the case. There are already bills in Missouri that say that minors can't get gender affirming care like HRT (hormone-replacement therapy) and surgeries, and even in places where this is not the case the youngest age is sixteen and that is very rare because you have to provide a gender dysphoria diagnosis and go through many conversations with your doctor and parents/legal guardians to decide whether these procedures are right for you. And you may wonder how I know this, and it's because I am a young trans kid who is looking forward to medically transitioning so I can live my life as a boy. When I heard about the bill against minors getting these procedures it broke my heart. I already had to wait over two years before I would even be considered for medical transition, and the thought of having to wait two more years after that was devastating for me. For a trans person, being able to transition and live as our most authentic self is crucial to our mental well being. Just look at the suicide rates, multiple studies have shown that around 40% of trans people have attempted suicide, and unfortunately I am a part of that statistic. It's scary living every day with these extreme ups and downs, sometimes I'm relatively okay and sometimes I'm in tears hating my body and my life. Usually I'm somewhere in the middle between severe depression and anxiety. It's scary living in a state, in a country, that views my much needed healthcare as "experimentation". It's terrifying and I think it's really messed up that people like me, kids my age, are distracted from their schoolwork because we have to worry about our rights and our healthcare. If you really cared about women and children, you would focus on improving the lives of people that are already conscious beings with relationships, hopes and dreams. You would give trans kids the support they need, whatever that looks like, and protect trans women from being discriminated against and

harassed. But first, start with this. Start by voting no on this bill and giving AFAB individuals the basic human right of reproductive autonomy.

Hi, my name is Inger Lillis from Kansas City, MO. 1,538,659 Missourians voted YES on Amendment 3- you were elected to defend those rights. Reproductive Freedom is a Missouri value. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them.

My name is Isabella Fehle, I live in University City. For the last four years, I've paid taxes, volunteered, lived, and worked in Missouri. At WashU, I am fortunate to study Biomedical Engineering. I've also been involved in politics: I cast my first ballot/voted in my first election/voted for the president the first time. Last November, I voted for Amendment 3 because I believe that the reproductive health is critical healthcare that should not be restricted by the state. I oppose this bill as a blatantly anti-democratic attack on voters like me. Instead of focusing on access to education and better infrastructure, politicians are using taxes — my taxes — to make Missouri more restrictive. Moreover, it is well established that abortion bans hurt the state. Missouri has lost over 4 billion dollars and our GDP has shrunk by 1.1% according to the International Women's Policy Institute. This policy is anti-democratic and fiscally unsound. Vote no.

My name is Isabella S. and I am from St. Louis. The attack on Amendment 3 is egregious. 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights. As a Missourian I am appalled that the will of the voters is blatantly being disregarded. We know that reproductive freedom is a Missouri value. What good is our vote if it will not be respected by those elected to represent us? We know the dangers of restricting abortion access. More women will continue to suffer by being denied the care that we voted to receive. Pregnancy is also more dangerous than abortion. According to the NIH, "The risk of death associated with childbirth is approximately 14 times higher than that with abortion." Maternal death rates in the United States continue to rise while our elected officials are only interested in restricting our health care. Missourians want and deserve to make their own decisions about their own healthcare, and our bodies are not politicians' business. Stay out of it.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The people have made their thoughts clear with amendment 3 in 2024. This bill makes it clear that you don't care about our rights as women. You just want to control our bodies. If you're going to try to regulate our bodies, start regulating men's bodies. I had a friend who was pregnant who wanted her son, started to have a miscarriage and she was still in her first trimester and it was clear that medically there was nothing they could do to stop the miscarriage and due to the insane laws at the time, because her son still had cardiac activity and even though she was having a miscarriage, she couldn't have a D&C to finish the miscarriage her body had already naturally started. To be clear, this was a wanted pregnancy. She didn't want to lose her son but she was having a miscarriage naturally. She ended up losing a lot of blood while miscarrying and nearly bleeding to death. She had to be at death's door to get help. She ended up needing surgery, passed out due to her blood loss and got a concussion as she hit her head when she passed out, needed a transfusion, developed PTSD, and lost her son. She barely survived due to the draconian laws that were put in place by people who have no medical experience. Thank God that amendment 3 was brought forward by the people and voted to pass the amendment. The people have spoken. They made their will clear. Abortion is healthcare. Stop trying to control our bodies and take no for an answer for the last time.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Chairperson and members of the committee, thank you for the opportunity to submit my testimony. My name is Jacob Kempen, and I am a resident of Springfield, Missouri. I am writing to express my strong opposition to HJR 54, a dangerous resolution that seeks to strip Missourians of their reproductive rights and impose cruel, unnecessary barriers to healthcare. In 2024, Missouri voters overwhelmingly approved Amendment 3, enshrining the right to reproductive freedom in our state's constitution. 1.5 million Missourians made their voices heard: reproductive healthcare decisions belong to individuals and their doctors—not politicians. HJR 54 is a direct attempt to override that decision, imposing extreme restrictions on abortion access and undermining the fundamental rights Missourians fought to protect. This resolution does not protect life—it endangers it. HJR 54 bans abortion except in cases of medical emergencies, fetal anomalies, rape, or incest, and even in those limited cases, it creates insurmountable barriers. Survivors of rape and incest would be forced to report their trauma to law enforcement and provide documentation at least 48 hours before they can access an abortion—all within an arbitrary 12-week limit. Many survivors do not report their assault immediately, if ever, due to trauma, fear, or personal circumstances. HJR 54 ignores this reality and would punish victims for their trauma by denying them essential healthcare. This resolution also threatens the health and safety of pregnant Missourians. By restricting abortion access, doctors will hesitate to provide emergency medical care out of fear of legal repercussions. Delayed intervention could cost lives. For those who are struggling financially, HJR 54 makes access to reproductive healthcare nearly impossible. The ban on public funding for abortion care means low-income Missourians will be left without options. Many will be forced to travel out of state, a burden that is costly, time-consuming, and unrealistic for those with limited resources. This bill also threatens healthcare providers, imposing legal consequences on doctors who provide abortion services, even when medically necessary. The chilling effect of these penalties will drive doctors out of Missouri, making it even harder for people to access any reproductive healthcare, including miscarriage management and other essential services. Missourians have already decided this issue. They voted for reproductive freedom, bodily autonomy, and the right to make personal healthcare decisions without government interference. HJR 54 betrays the will of the people and replaces their decision with political control. I am speaking out because this issue affects my family, my friends, and my community. I am advocating for my sisters' right to control their own bodies and make private medical decisions without government-imposed obstacles. No Missourian should be forced to prove their trauma before receiving care. No one should have to risk their life because a doctor fears legal consequences. And no one should have to flee their home state just to access a legal medical procedure. The people of Missouri have already spoken. HJR 54 is an attack on our constitutional rights, our democracy, and our freedom. I urge this committee to reject this resolution and respect the will of Missouri voters.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The will of Missouri voters is to have legal, safe abortion in our state. The majority of voters said 'yes' to amendment 3 in November, which this bill attempts to undermine. Missourians voted for and deserve this right. Abortion bans only make abortion more unsafe. Since Texas have banned abortion, the state has seen 3 documented deaths due to not being able to access this care. Here is the story of just one. Porsha Ngumezi bled to death as she was miscarrying after her doctor opted against an emergency procedure used to end pregnancies. She was 35 and left behind two sons, 3 and 5 years old. Analysis has also suggested that these bans result in a higher level of infant mortality (source: <https://publichealth.jhu.edu/2024/analysis-suggests-2021-texas-abortion-ban-resulted-in-increase-in-infant-deaths-in-state-in-year-after-law-went-into-effect>) This bill also seeks to undermine gender-affirming care. As with abortion, these decisions should be left between patient and doctor. These laws only stigmatize transgender individuals further, and lead to increased isolation and adverse mental health experiences. As a therapist who works with many transgender clients, I can attest to the relief that can come with finally being able to access care that helps one's appearance align with their identity, and gives them a sense of safety in their body. I abhor the language and sentiment of HJR 54 and encourage lawmakers to prioritize the well being of all Missourians.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Jaimi Ramsey (constituent and business owner in Manchester MO). I am strongly opposed to the bill in the house to walk back Amendment 3 (HJR 54). Reversal of this amendment would be a reprehensible dismissal of the will of Missouri voters and would directly undermine the democratic process in our state. Missourians very clearly demonstrated that we support reproductive freedom with the passing of Amendment 3 - and not just liberals (as evidenced by the fact that the same voters also elected conservative candidates into office). This is a value in MO that defies party lines and demonstrates that there are some critical things that many folks from both parties can agree on. I urge you to support the will of the MO voters and not to choose to put your own opinions ahead of those of the constituents you are supposed to represent. Reproductive freedom represents safety and access to healthcare, and I am urging you not to strip these rights from our daughters and sisters and mothers.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Constitutional Argument Against HJR 54: Defending the Will of Missouri Voters and the Right to Reproductive FreedomThe Missouri House Children and Families Committee’s bill, HJR 54, represents an unconstitutional assault on the fundamental principles of democracy, individual liberty, and the rule of law. This legislative attempt to undermine Amendment 3 directly contravenes the will of the people, violates core constitutional protections, and sets a dangerous precedent for disregarding legally enacted ballot initiatives.

I. Violation of the Missouri Constitution and the People’s SovereigntyMissouri’s Constitutional Amendment Process exists to give the people—not politicians—the ultimate authority in shaping their government. Amendment 3, which was passed by a clear majority of Missouri voters, enshrined reproductive freedom in the state’s constitution, effectively repealing Missouri’s abortion ban. HJR 54 seeks to override this democratically established constitutional right, violating the fundamental principle that government derives its authority from the consent of the governed (Art. I, § 1, Missouri Constitution).By attempting to repeal or limit the protections granted by Amendment 3, HJR 54 subverts the constitutionally mandated initiative process and disrespects the sovereign will of the people, undermining the legitimacy of Missouri’s democratic system.

II. Unconstitutional Government Overreach and Infringement on Fundamental RightsThe Missouri Constitution guarantees the right to personal autonomy and privacy, particularly in medical decision-making. Amendment 3 codified the right to reproductive healthcare, ensuring that Missourians—not politicians—retain control over their bodies. HJR 54 blatantly infringes upon this constitutional protection, amounting to an unconstitutional expansion of government power into private medical decisions.Moreover, the Missouri Supreme Court has consistently held that laws restricting fundamental rights must meet strict scrutiny—meaning they must be narrowly tailored to achieve a compelling government interest. HJR 54 fails this test because:

1. There is no compelling state interest in overriding the will of the people who have already spoken on this issue.
2. There are no narrowly tailored provisions—rather, HJR 54 is a sweeping attempt to dismantle constitutional protections without justification.

III. Violation of the U.S. Constitution: Equal Protection and Due ProcessBy targeting reproductive rights after voters explicitly affirmed them, HJR 54 violates both the Equal Protection Clause and the Due Process Clause of the Fourteenth Amendment of the U.S. Constitution:

- **Equal Protection:** The measure unfairly targets individuals seeking reproductive healthcare, imposing government interference on a single group based on ideological beliefs, rather than neutral and constitutionally sound legal principles.
- **Due Process:** The U.S. Supreme Court has long recognized that the government cannot arbitrarily strip away fundamental rights once they have been established (see *Planned Parenthood v. Casey*, 1992). By disregarding the constitutional protections established through Amendment 3, HJR 54 represents a government overreach that violates the right to bodily autonomy and medical decision-making.

IV. Dangerous Precedent: If the Legislature Can Ignore a

Constitutional Amendment, No Right is SafeThe Missouri legislature's attempt to undermine a voter-approved constitutional amendment sets an alarming precedent: if lawmakers can erase constitutional rights after the people have clearly spoken, no right is truly protected. Today, it's reproductive rights—tomorrow, it could be any other fundamental liberty enshrined in the Missouri Constitution, including gun rights, free speech, or religious freedom.If HJR 54 succeeds, it establishes a dangerous legislative mechanism to overturn any voter-approved constitutional amendment lawmakers find politically inconvenient, effectively nullifying the power of the people's vote.ConclusionHJR 54 is not just an attack on reproductive freedom—it is a blatant violation of the Missouri Constitution, the U.S. Constitution, and the fundamental democratic principles upon which our state and nation are built. The Missouri legislature does not have the authority to override the will of the people through an undemocratic attempt to strip away established constitutional rights.Missourians have already spoken. Their voices must be honored, and their constitutional rights must be upheld. The Missouri General Assembly must reject HJR 54 and reaffirm its commitment to democracy, individual liberty, and the rule of law.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

I, James Knight, as a citizen of the United States and the great State of Missouri, am vehemently opposed to HJR 54. This bill spits in the face of every American value for which we stand. You cannot fathom my horror that the will of the people would be so blatantly and nonchalantly disregarded. I served this great country during GWOT as a member of our United States Armed Forces. I did not serve to allow a few representatives undermine the will of Majority Rule. I served to protect it. This basic concept of Majority Rule within our society is the one upon which all our laws are predicated on. This is a callous, brutal and disrespectful attack on not only our American values but the service and sacrifice of those serving or that have served to protect these basic rights. I urge you to toss this bill in the bin where it belongs.

Missouri voters have already made their stance on abortion rights clear—this issue has been decided. This resolution is nothing more than an attempt to override the will of the people, further control women's bodies, and impose additional restrictions on trans youth. Instead of seeking more power over the personal and private decisions of Missourians, this legislature should focus on policies that genuinely improve the lives of all residents. Reject this resolution.

I strongly urge all members of the Missouri House of Representatives to follow the will of the state's registered voters who proclaimed their support and desire through a proper and legal voting process for all women's constitutional right to determine their own healthcare needs. The people of Missouri have voted for an amendment to the Missouri Constitutional that makes plain, and legal, their opposition to the intent of HJR54. For members of the House to vote in favor of HJR 54 would be a direct assault not only on the rights of women but on the rights of voters. All members took an oath to "...swear, or affirm, that I will support the Constitution of the United States and of the state of Missouri". For any member to vote in favor of the bill is a violation of that oath. I sincerely hope that all of you will honor your oath by voting in opposition of HJR54 or by at very least abstaining from the vote. Thank you for your service and consideration.

We just voted on this. The people of Missouri just voted to protect abortion access and now you want to strip it again? Who is this bill representing, because it is not the people of Missouri. I'm tired of individual politicians deciding what is best for everyone with little to no evidence. Abortion is not murder. Women deserve bodily autonomy without punishment. This bill needs to be stopped if you all have any notion of actually representing the people that elected you to this office. Moving this bill forward is in opposition to democratic process - you would acting against the people.

The people of MO voted FOR abortion rights and we are tired of the people who have been elected to represent us going against our wishes. Our representatives should be focused on things that really matter - like the fact that our federal government is being taken over and destroyed by criminals and unelected people. Why is THAT being allowed to happen? All of these reproductive rights bills are only a distraction from the real problems in our state and country. You should not forget that in the next election the people will speak with their votes and there is a slim chance that people who aren't actually looking out for us will make it back into office. Do your jobs and protect us instead of getting paid to bring ridiculous, manipulative bills up over and over.

Transgender people exist — they have existed, and will continue to exist in the future, no matter what bill you pass. Transgender youth are 2-3 times more likely to experience anxiety, depression, suicidal ideation, suicidal attempt and self harm (Resiner et al, 2016). This bill will further worsen the mental health of transgender youth. Please let these children get the health care they need, they deserve to have access to what they need to be healthy person. To address, the abortion ban. Leave women's rights alone. We, the state of Missouri, have voted to keep abortion rights. As a representative of the state, you must LISTEN TO THE PEOPLE.

Please do not overturn the will of the people of the state of Missouri - all women have the right to reproductive freedom to choose what is best for their body and their health. The Reproductive Freedom bill was passed by the people and should not be hijacked by any special interest group with the intent to deny the rights of the women of Missouri. Do not outlaw abortion in the state of Missouri.

I'm a mother of three adult children. My husband and I love Missouri and plan to live the rest of our lives here. I am a runner and cyclist. I often run alone. I am harassed by passers by occasionally and at least one has threatened rape. A pregnancy at my age (47) with my health conditions could be fatal to me. I am scared that I will have no options if this bill passes. 1) Missouri voters have spoken.2) Abortion is a healthcare matter. There are instances in which the mother's life is at risk. Doctors will be hesitant to treat mothers, leading to deaths. 3) Many women are choosing to not get pregnant due to bills like this one. Pregnancy comes with risks. A woman should have the right to mitigate the risk to her own life, with the help of her physician.4) It's unclear whether contraception will be available in the long run.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

We, the people of Missouri, voted IN FAVOR of enshrining the right to an abortion as a constitutional right in Missouri. The language used in the ballot initiative process was clear and concise. THAT is the version of the law the people of Missouri voted for. Your blatant attempts at twisting the will of Missourians and changing the language to better suit your narrative of "abortion is murder" (which is founded in pseudoscience and religious ideology) is not only disgusting, but I find it to be in contempt of the people. You do not care about protecting women and children, nor do you care about the sanctity of life. This is a clear and flagrant attempt at imposing your will and controlling the actions of women. If it were about being pro-life, then why did you let 1,780 foster kids go missing in Missouri from July 2018 to December 2020, and then targeted the journalist who called you out on your negligence? If you cared about protecting women and children, you'd put more funds into public education and early childcare. This is about control and making yourselves feel good, and that is reprehensible.

I am writing to firmly oppose HJR 54. Abortion is healthcare. We petitioned. We got on the ballot. We voted, as a State and Amendment 3 passed. Most Missourians believe women are capable to make their own reproductive choices, as it should be. This is NOT a role of government. Move on! Move on to funding public schools, free breakfast and lunch for children in this state. Isn't it ironic to spend so much time on fetuses when we have tens of thousands in foster care WITH NO HOME OR PARENTS already? With all due respect this is asinine! Transgender decisions also have no place in government. They know their bodies perfectly fine and need no help from government. Mind your business and women/ LGBTQ will mind theirs. These decisions are made at home and have no place in government. Jan Newcomb Rich Hill, MO

My name is Jane Holland and I live (and vote) in Columbia. Voters in Missouri voted to pass Amendment 3 and it is your obligation to uphold the will of the voters. There are so many problems associated with trying to overturn abortion rights. Women have a right to safe healthcare and access to abortion is a part of that. Doctors are put in an untenable situation trying to figure just how close to death a woman has to be in order to perform certain procedures. And telling a woman she has to report a rape in order to be able to get an abortion is cruel. Most of us can't even imagine the emotional aspects of having been raped - and it is the woman's right to not report. Efforts to overturn Amendment 3 are discriminatory towards women.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Hello, My name is Jane Kloeckner, from Lee's Summit, Missouri. Here is my statement: Reproductive freedom begins with a decision to deliver a viable fetus. Viability is at 22 weeks, or so. In this bill, the arbitrary and capricious 12 weeks limit is insufficient for viability ... women have miscarriages at 12 weeks. When I was pregnant, I did not even tell anyone until after 12 weeks for fear of losing the pregnancy at this early stage when pregnancy, labor and delivery are the woman's decision with advice of her care provider. No one else will experience the pain of labor and delivery or miscarriage. The proposed HJR 54 will force some women to deliver a baby without her consent because at 12 weeks many women may not even know they are pregnant. The Constitutional Amendment guarantees women access to abortion and allows legislators to enact laws regulating abortion only after fetal viability. Your law attempts to regulate prior to viability. 1,538,659 Missourians voted YES on Amendment 3– you were elected to defend those rights. Reproductive freedom is a Missouri valueo Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them

The voters of MO have responded in a democratic manner to reinstate reproductive health rights on Nov 5, 2024. The people have spoken. Attempts to bypass the voice of the people is unconstitutional. End attempts to undo the will of the people & immediately honor the right to access to reproductive health & abortion in MO.

I wish I could be there. Why is government going over the people's vote? Why are men involved in women's reproductive rights? The state spoke. This is supposed to be government for and by the people, not DICTATED TO the people. My body my decision and thank God it was my decision. I'm old enough this doesn't affect me now, but could affect my daughter, my granddaughter or many other women. I had a tubal pregnancy. I would be dead under many of the states position to this. My daughter had another condition and lost a baby in uterus. She would be carry a deceased baby and affecting her own health and mental health. This is not a man's decision. This is personal. I do not vote for government to overturn my vote for their personal beliefs.

The people of Missouri have sent their message to you and HJR 54 shouldn't even reach the floor. You have your directive to defend reproductive freedom from your constituents. As a lifelong student and educator in the human development field, I can tell you that women have worked to educate themselves on ways to prevent and terminate pregnancy throughout the ages dating back to biblical times. This will always be the case, but it has been such a relief for women across the state and nation to have access to safe abortion for 50 years. The past year with extreme restrictions was frightening. I am grateful that reproductive services of all kinds were available when I was in my childbearing years and I want those services to be available for my granddaughters. One strong advocate for abortion was my aunt who was forced to carry an unwanted pregnancy to term. She delivered a baby in the Florence Crittendon Home for unwed Mothers in Kansas City in the 1930's. Following that experience she suffered severe depression and was home bound for over 15 years. The issue of being forced to carry a child can have severe mental and physical ramifications for the woman and may even result in her death. Providing high quality, readily accessible reproductive health care to all Missourians should be a given. Leave medical decisions to the woman, her personal support system and the medical care team. I stand with the 1,5398,658 other Missourians who voted for Reproductive Freedom in our state. I urge you to vote NO on HJR 54. Janet Shepard

Yo are trying to take away our vote! How dare you. You are trying to cover your loss with a "simple-do" Well we already did it! You are so shady in your tactics. It's absurd.The difference between Amendment 3 and HJR 54 is that Amendment 3 was initiated by the people, with voter initiative. HJR 54 was initiated by legislators not the voters, to say that you are acting on what your constituents want is not the same as gathering the required signatures. To get initiatives on the 2024 and 2026 general election ballots, the minimum number of signatures required is 185,152 for initiated constitutional amendments and 115,720 for initiated state statutes and veto referendums.

This bill would replace Amendment 3 that was legally approved by voters in 2024. It would take away a lot of the reproductive rights that over 1.5 million Missourians voted for in Nov, allowing the government again to restrict people's own bodily autonomy. This is an egregious usurpation of the will of Missouri voters and must be stopped.

My name is Janika Grimlund and I live in St Louis City. I am writing to oppose HJR 54 which seeks to undermine the decision of Missouri voters. It was made clear in November that we support access to abortion care and all reproductive healthcare. You were elected to represent the values of Missouri and this bill does not reflect this. As a survivor of childhood sexual abuse, the right to an abortion has saved my life and the lives of many of my loved ones. The question of reproductive rights is not about when life begins, which is an individual value.. but it is a question of autonomy and decisions about health that should be left to the individual person and trained medical professionals. Reproductive rights matter for everyone's body, family and health. My right to an abortion does not require anyone else to make that decision for themselves, but allows me to get accurate, evidence-based information from my doctor to make decisions about my own body. I have this right in all areas of my health- why is my reproductive health any different. Restricting reproductive health care not only affects the ability to get an abortion, but to treat high risk pregnancies, miscarriages, male reproductive health care, birth control and much morel, along with the majority of the state of Missouri, oppose this bill.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

In November of 2024, Missourians voted to amend our state Constitution to establish a RIGHT to reproductive freedom, with Article 1. Section 36 (on the ballot as Amendment 3). Less than 4 months after Missourians had voted for this Amendment, our elected representatives have decided to ignore the will of the people to completely gut the provisions of Article 1, Section 36. We the people of Missouri believe that reproductive freedom is a right, and I as a Missourian am livid that our representatives would so blatantly try to revoke the will of the people they claim to represent. Additionally, section number 4, regarding gender transition for minors, seems to completely ignore the damage that delaying treatment can cause to the person's mental health, not to mention the increased burden of changes needing to be reversed and increasing body dysmorphia a transgender child would experience as they go through puberty. This very same section is already attempting to carve out exceptions, discriminating against those children who are transgender, in favor of their cis-gender peers receiving the same treatments in some cases, simply because they have not expressed a desire to be a different gender. This is incredibly unfair for numerous reasons, not the least of which is the fact that it is hypocritical to demand on portion of the population delay medical care, while giving the rest of the population unopposed access to the same care, but also shows how incredibly sadistic and hateful our legislature is towards our most vulnerable. It's utterly disturbing that our legislature cares so much about children's genitals, so much so that they would actively destroy those children's long term mental health in order to deny their existence. Additionally, this proposal ignores the fact that there are reversible options available for aiding in transition and outright banning these medicines without demonstrating any understanding that such reversible options exist. It is utterly infuriating to think that our government thinks denying children healthcare is acceptable. Section 5, regarding intentional and negligent care, seems to be an sneaky attempt to outlaw abortion entirely by broadly appealing to the sense of justice of the people, while specifically calling out abortion. By doing so, further changes to Missouri law could cause the performing of an abortion to become a career destroying practice, even though, as stated above, Missourians have amended the state Constitution to protect these freedoms, and in part 5 of Article 1, Section 36, of the Missouri constitution, it states "no person shall be penalized, prosecuted, or otherwise subjected to adverse action" regarding pregnancy and outcomes of pregnancy, and continues to state that this also applies to "any person assisting a person in exercising their right to reproductive freedom, with that person's consent, shall be penalized, prosecuted, or otherwise subjected to adverse action for doing so." Missourians can already take medical malpractice to civil or criminal court; and the proposal in HJR 54 seems to be just a way to penalize medical professionals who perform abortions with consent of the mother, and therefore acting as yet another method of outlawing abortions, and therefore subverting the will of Missourians, who voted for reproductive freedoms to be enshrined in our state's Constitution. I am utterly disgusted that our legislature would have the gall to openly try to reverse the very amendment our people wanted in

our constitution, and to use this to try and deny healthcare to children. How dare you!?

We, as citizens of the State of Missouri have already decided that we want reproductive healthcare to be enshrined in the state Constitution. This blatant attempt to overturn Amendment 3 is not appreciated by the constituents of this state. The religious morality behind this bill is not shared by all Christians, nor is it shared by most people of other faiths or no faith. In the pluralistic society that we have here in this nation, we must recognize that this type of discussion should not be made by politicians, but should instead be left to a medical board of physicians who can determine the healthcare needs of the people of the Great State of Missouri. As a parent myself, I ask you not to limit my daughters' rights, or endanger their health, as this bill would.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

It seems a serious waste of time and resources to put forward an amendment that mostly counters an amendment that was supported by a majority of Missouri's citizens less than one year ago. It defies logic that an elected official would so obviously ignore the will of the people and runs counter to the principle of popular sovereignty. That being said, my wife and I agree on two matters impacted by this amendment and the one it seeks to subvert. We do not believe abortion should be used as a form of birth control. We also do believe that no law or worse, constitutional provision, should be interfering with the already difficult decisions about reproduction a woman or couple must make with the advice and care of a doctor. Any rigid law (and we are a nation and state ruled by the letter of the law) could interfere with choices concerning viability, health of the mother, and other matters that could never be for seen. Even provisions allowing exceptions for rape and incest are troubling because of very real threats women who are raped can face from their attackers. To use the law in this instance opens the door to inhumanity we cannot justify as a means to prevent abortion. A far more challenging action, but one both more ethically sound and potentially effective would be for this body to undertake efforts to make it so that even an unwanted pregnancy is not so terrifying that abortion becomes the first or best option. If accountability for fathers were stressed in the law better, a young woman might not be as fearful. If health care and child care were more affordable, raising a child that may not have been planned would not seem as daunting. You could help change things, make life better for children and families, and reduce the demand for abortion far more by making parenthood less daunting than you can buy simply installing punitive measures to prevent abortion. You will drive the practice underground or into the courts more than you will decrease the number of abortions and the issue will remain a contentious and divisive one. If you really want to eliminate abortions you have to restructure things so that it more difficult to justify its use. You have to produce a pro family and pro young mother policy that makes abortion the less attractive option. In short, you have to actually address the problems that lead to abortion. You have to find the courage and energy to really change things.

Missourians voted, through our democratic voting right as Americans, to enshrine abortion rights into our state constitution. This bill attempts to infringe upon the democratic voting process which we are entitled to as citizens of this country. It is an unacceptable and absolutely inappropriate overreach of government to go against the desires of the populace after their desires have been made clearly, and legally, apparent. We Missourians deserve, and are entitled to, all manner of proper health care. I am strongly opposed to this bill.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

My name is Jeanne Hamra and I live in Chesterfield, MO. I am opposed to HJR 54 because the Missouri voters have already voted in favor of Amendment 3. Missouri voters used the ballot box to voice their support of reproductive healthcare and access to abortion. HJR 54 is an attempt to reject the will of the Missouri voters. We have spoken through our votes our support of a woman's right to reproductive healthcare.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I am writing to voice my concerns over the passing of Ammendment 3 in November of 2024, due to fraudulent and deceptive advertising from proponents of abortion rights, abortion providers and “reproductive health” lobbies. I was disturbed before the November election by the forceful pressure of the abortion rights movement that brought a law suit against then Attorney General Jay Ashcroft, blocking his wording on the ballot and replacing it with what I consider extremely deceptive and misleading language, while adding in extreme guarantees that remove responsibility and liability for abortion providers, prevent parental consent or even involvement in a minor child’s access to abortion, and promote government funding of abortion with tax payers money. After the language was changed by abortion activists, a judge dismissed the Attorney General’s response, blocking any consideration of further wording changes, resulting in biased language for the proponents of abortion rights on the November ballot. As I watched commercial advertisements supporting Ammendment 3, I was shocked by the misleading use of medical jargon and out right falsehoods that were used to sway voters to believe in the “reproductive health” agenda. I am a registered nurse with experience in healthcare, particularly Neonatology, and found the “claims” that the commercial advertisements made to be completely fabricated, emotionally charged, and manipulative. For example, in one commercial, a woman claimed that she had an ectopic pregnancy and basically inferred that she could not access healthcare for this condition. This is a complete and utter lie. No woman in the state of Missouri would be denied healthcare for this condition. An ectopic pregnancy could not be managed in a clinic, that is true, but an ectopic pregnancy is a serious medical condition and requires specific medical intervention to save the life of the mother, and no woman would be turned away at a hospital regardless of ability to pay for care. (I know this to be a fact as I have over 12 years of experience in hospital utilization management with large healthcare system in St. Louis.) In another commercial advertisement, a woman states that her baby was diagnosed with a “fetal anomaly”, and she was electing an abortion. There was no definition or clarification of the term “fetal anomaly”. Again, the advertisement was emotionally charged and targeted to play on the fears of uninformed people. A fetal anomaly is any deviation from a norm, and while the term encompasses many medical conditions, not all anomalies are life threatening and entirely manageable with medical intervention (such as a cleft lip). In truth, ALL fetuses have a fetal anomaly called a patent foramen ovale (PFO), it’s what allows the blood to bypass the unoxygenated lungs of the fetus in utero and circulate to the rest of the baby’s body. It is essentially a hole in the heart, which closes after the baby takes its first breaths. Imagine if the abortion providers use this language, then every fetus has a fetal anomaly. I also take issue with the use of the term “reproductive health”. This is a blatant misnomer. The healthcare industry has provided reproductive healthcare in the form of Obstetrics and Gynecology by educated professionals for generations. The activists are only wanting abortion on demand, for purposes of convenience, without restriction, with no regard for the rights of the vulnerable and innocent human lives they seek

to terminate. I would like the State of Missouri to evaluate validity of the Ammendement 3 decision, based on the manipulation of the voting system through pressure, fraud and misrepresentation of the facts to voters in the past November election. Thank you for your attention to my concerns!

This resolution is an affront to the will of the Missouri People. It would restrict basic liberties for women and harm our state. Missourians enshrined reproductive rights into our Constitution last year. The legislature is attempting to nullify the People's votes by deception. This Resolution involves abortion and transgender issues. This is an attempt to trick Missourians into thinking last year's Amendment involved transgender issues. It did not. It is disheartening that Republicans repeatedly try to deceive voters, to get what they want. Who knows if it would work? Even if it worked, an enormous number of voters see what is happening, so citizens' unfortunate distrust of government would only deepen. Even if the trick were to work, the Resolution should be struck down by the judiciary. It impermissibly involves two subject matters: abortion and transgender issues. This legislation is an unconstitutional waste of government time and resources. Furthermore, if passed, our state would once again have one of the strictest bans on reproductive rights in the country. We want Missouri to be a place where people want to work, live, go to school and start a business. We do not need to be seen as an extremist state, with wildly fluctuating laws and limited rights. Missouri women should be able to control their bodies and plan their families and careers. Aside from the few years of the draconian trigger laws, Missouri women have had this basic liberty. We do not need to take this step backwards. I respectfully request the General Assembly to reject this Resolution.

This bill violates the Missouri Constitution, specifically: Full Text of Amendment 3
NOTICE: The amendment revises Article I of the Constitution by adopting one new Section to be known as Article 1, Section 36. Be it resolved by the people of the state of Missouri that the Constitution be amended.
Section 36.1. This Section shall be known as “The Right to Reproductive Freedom Initiative.”
2. The Government shall not deny or infringe upon a person’s fundamental right to reproductive freedom, which is the right to make and carry out decisions about all matters relating to reproductive health care, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care, and respectful birthing conditions.
3. The right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted unless the Government demonstrates that such action is justified by a compelling governmental interest achieved by the least restrictive means. Any denial, interference, delay, or restriction of the right to reproductive freedom shall be presumed invalid. For purposes of this Section, a governmental interest is compelling only if it is for the limited purpose and has the limited effect of improving or maintaining the health of a person seeking care, is consistent with widely accepted clinical standards of practice and evidence-based medicine, and does not infringe on that person’s autonomous decision-making.
4. Notwithstanding subsection 3 of this Section, the general assembly may enact laws that regulate the provision of abortion after Fetal Viability provided that under no circumstance shall the Government deny, interfere with, delay, or otherwise restrict an abortion that in the good faith judgment of a treating health care professional is needed to protect the life or physical or mental health of the pregnant person.
5. No person shall be penalized, prosecuted, or otherwise subjected to adverse action based on their actual, potential, perceived, or alleged pregnancy outcomes, including but not limited to miscarriage, stillbirth, or abortion. Nor shall any person assisting a person in exercising their right to reproductive freedom with that person’s consent be penalized, prosecuted, or otherwise subjected to adverse action for doing so.
6. The Government shall not discriminate against persons providing or obtaining reproductive health care or assisting another person in doing so.
7. If any provision of this Section or the application thereof to anyone or any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.
8. For purposes of this Section, the following terms mean:
(1) “Fetal Viability”, the point in pregnancy when, in the good faith judgment of a treating health care professional and based on the particular facts of the case, there is a significant likelihood of the fetus’s sustained survival outside the uterus without the application of extraordinary medical measures.
(2) “Government”, a. the state of Missouri; orb. any municipality, city, town, village, township, district, authority, public subdivision of public corporation having the power to tax or regulate, or any portion of two or more such entities within the state of Missouri.
Therefore, it is a waste of taxpayer dollars (and time) to even

hold a hearing related to this bill.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

Hello, my name is Jennie Loomis. I am a 46 year old mother of five children — three of whom are adopted. In addition to the blessing of being able to adopt children, whose birth mothers have my deepest respect—I have also suffered through the loss of an infant due to complications in pregnancy and I have also had eleven miscarriages. I have spent more of my life pregnant than most people ever will. I used to believe abortion was for people who were different from me—who didn't want children or didn't love them. I had no idea abortion access was keeping me safe—making it possible for me to get surgical care during miscarriages. I had no idea how many women every year would be spared the danger of losing their lives or reproductive capabilities or developing sepsis with long term consequences because access to abortion was the law of the land. I had no idea treating an ectopic pregnancy counted as abortion. But then our Supreme Court overturned Roe v Wade and all that changed. States like Missouri put draconian laws in place that endangered all women and girls. Knowing what I know now, I would never have willingly gotten pregnant in the state of Missouri under those conditions. If any of my children were to get pregnant, I would leave the state because even a wanted pregnancy is much more dangerous in a state with strict abortion bans. Doctors can't do their work properly and leave en masse for states where they're allowed to properly do their jobs. This creates obstetric care deserts that put all pregnant people at risk. Dangerous situations are allowed to come as near to death for the mother as possible so doctors won't be prosecuted for violating these insane laws. Sometimes they guess wrong and women die or suffer dire medical conditions. I am absolutely opposed to changing or limiting the reproductive rights access we just barely enshrined into our constitution. It is illegal. The people have spoken. The amendment passed as it was written. If people want changes, they have to face the same legal work the amendment went through, gaining hundreds of thousands of signatures and a full ballot initiative. A handful of legislators should never be allowed to overturn the will of the people. Additionally, any possible limitations added would only endanger girls and women. We see it over and over again—requiring evidence of rape or putting additional time restrictions punish women. Proving rape is nearly impossible and traumatized people can't always act quickly enough to get the help they need. It is extremely rare for any abortions to be performed past the first trimester. Any occurring later than that, especially in the last trimester, are always because the fetus is not viable and/or the mother's life is in danger. There is no reason for legislators to interfere at that stage. Leave it to doctors and parents. Politicians are only going to cause trauma and potentially death. Please, respect the process and leave our reproductive rights alone. If you want to reduce abortions, do what actually works and doesn't hurt women and girls. Support subsidized childcare, make birth control extremely accessible and give comprehensive sex education in schools.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

According to the nonpartisan data center USAFacts, in 2023, across 30 states, there were over 25,000 untested rape kits (1). That's just the rape kits that were performed and reported. According to the Journal of the American Medical Association, there have been 5,800 rape related pregnancies reported in Missouri since the abortion ban (2). It's estimated that only 21% of rapes are reported due to the stigma and trauma associated, so it's impossible to know the true numbers (3). Most girls and women do not know they are pregnant until the second or even third month and, with making appointments, taking time off work, finding transportation, finding a place to recover, etc, receiving an abortion within 12 weeks is not suitable for many. Further, many girls and women do not have the privilege to travel nor pay for necessary medical care, so what can possibly make it make sense that they can raise a baby? So, not knowing one is pregnant, followed by waiting for a rape kit to go through, followed by an investigation, that will most definitely put a girl or woman at risk for carrying a rapist's fetus to term. This is unfair. Why should a girl or woman be saddled with medical debt, medical trauma, childcare debt, psychological distress, etc due to the actions of another? Why for the choice of another? Why can't she choose for herself? Imagine working two jobs to barely afford rent, food, gas, and prescriptions, only to be raped and forced to carry the fetus to term. Imagine the medical debt they'd incur. Imagine having to raise the child? Imagine going into further debt having to find child care, medical care for the child, clothe them, feed them, etc? Imagine every time you look at that child you remember what happened to you? Imagine being 12 years old and getting pregnant. Imagine being fearful of telling your parents because you may get kicked out. Imagine not going to get medical care for the pregnancy. Imagine a 12 year old body, which is still growing, have its pelvis widen to push out a baby. Imagine being 12 and tearing your vulva whilst giving birth? Imagine sitting in middle school and leaking breast milk through your top. Imagine trying to do your arithmetic homework while calming a fussy baby. How do we expect these girls to grow up and be successful and happy if they don't get a chance early on? I know it's harder to imagine this scenario, but what if you accidentally became pregnant with a partner? What if you couldn't afford to raise it? What if that partner is abusive? What then? Is it fair to force a girl or woman to do with their body what someone else wants? Can I deny someone the right to chemo because it's against my personal or religious beliefs? Can I deny someone tumor removal? Can I deny colonoscopies? Why can someone else determine what I do with my body over a clump of cells? Is a tumor not also a clump of cells? The argument is always made that the fetus shouldn't suffer because of the choices of the parents. That the fetus is a person. Well, what about the girl or woman? What about her life? Does she matter? Is she not a person? THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

As a constituent of Stone County, I am writing to submit testimony in opposition of Bill HJR54. I strongly oppose HJR54 because I am a woman with a daughter and I firmly believe that the government should not force me to carry a child if it is not right for me. I can think of limitless reasons. Why neither my daughter nor I would like to have a child at this moment. It would not be good for us. It would not be good for the child. I do not need my government telling me whether or not the reason is valid. My body, my choice. We need full access to healthy reproductive care. Thank you

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am writing on behalf of the many Missourians who have or will need abortion care, and the 1.5 million voters who understood that abortion is health care and should be protected from attacks by the Missouri legislature. Abortion is more popular than Representative Stinnett herself - her Greene County constituents supported Amendment 3 in higher numbers than they supported her re-election. The committee should respect the will of the Representative's voters and oppose HJR 54. Representative Stinnett should listen to her constituents and work to support legislation that protects health, increases wages, and actually improves the lives of Missourians. There is so much more useful work for this body to take on rather than wasting time subverting the will of the people and making our state less safe.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Since the Supreme Court’s historic decision Roe v. Wade, the issue of a woman’s right to an abortion has fostered one of the most contentious moral and political debates in United States history. With the passing of New York’s Reproductive Health Act, people are up in arms, passionately defending their opinions. Social media feeds have become a revolving door of overly simplified arguments, emotional personal anecdotes, and people defending their closely held beliefs. Conservative Americans, including many students at BYU, often misunderstand the pro-choice stance. No One Is Pro-Abortion Pro-choice advocates are not pro-abortion, but pro-choice, and that is an important distinction. We believe that every woman should have access to quality reproductive care, including abortions when necessary, and that abortions should be safe, legal, and rare. And by rare, we really mean rare. While it is impossible to consider all the potential circumstances that might elicit consideration of an abortion, this phrase generally refers to instances of rape, incest, when the life of the mother is jeopardized, when a fetus is no longer viable, or when the circumstances or environment of the child would be severely damaging or abusive. The idea that women seek out abortions because they love being sexually promiscuous and they just can’t be bothered with a baby is a lie, a misperception unrepresentative of why women seek abortions. Most women don’t make the decision to have an abortion casually. They often wrestle with the decision in profound ways in consultation with their spouse, family, close friends, religious leaders, or medical professionals. Pro-choice advocates also strongly and unequivocally support a woman’s decision to have a child. This can be done by ensuring women have safe and healthy pregnancies, by providing services during pregnancy and after childbirth, including adoption and social support services, as well as providing protections for women against pregnancy discrimination [1]. A Symptom of the Problem We can all agree that abortion should be a rare necessity, and the only way to accomplish this goal is to prevent unplanned pregnancy in the first place. This can be done by providing comprehensive sex education in schools and religious communities, ensuring access to accurate information about contraception, and making contraception more affordable and widely available [6] [7]. The current administration has cut funding to such teen pregnancy prevention programs and has instead proposed allocating millions of dollars towards failed abstinence-only programs that often rely on scare tactics and inaccurate information [8] [9]. Since Roe v. Wade, the definition of the right to choose has evolved and expanded, but the principle of women’s autonomy has remained the same. In a subsequent Supreme Court case, Justice Sandra Day O’Connor stated that “the ability of a women to participate equally in the economic and social life of the Nation has been facilitated by their ability to control their reproductive lives” [2]. An ability to control reproductive life includes access to comprehensive sex education, family planning and contraception, adequate medical care, a safe environment, the ability to continue or end a pregnancy, and the resources that make that choice possible. Are we giving women the resources that allow them to make the choice to keep a child? Have we given them the support services that they need? Often pro-life

advocates fervently support the child in the womb, but they abort the child in other ways as soon as it is born. They abort the child through lack of healthcare, education, affordable housing, welfare programs, and other life-sustaining necessities. Limiting Access Is Not a Solution The most prominent proposed solution among pro-life organizations and supporters is to limit access to abortions. However, even if the United States outlawed all abortions, women who desperately needed an abortion would still have alternatives, but those options would be extremely unsafe and unsanitary. Before abortion was legalized, women frequently tried to induce miscarriages by using coat hangers, knitting needles, radiator flush, or by going to unsafe "back-alley" abortionists [3]. The World Health Organization estimated that unsafe abortions cause 68,000 maternal deaths worldwide each year, many of those in countries where safe and legal abortion services are difficult or impossible to access [5]. Echoes of Oppression The abortion debate highlights an idea that has long been upheld and promoted around the world: that women never take priority. Throughout history, the U.S. government has told women what they can and cannot do. Women were told that they couldn't own property, open a bank account, vote, get divorced, attend college, or work outside the home, among many, many other things. For so many women, the pro-life argument echoes the underlying principle that perpetuated the subordination of women for hundreds of years: that their rights are secondary. Women's rights have never been prioritized. With abortion, the rights of the woman are being considered secondarily, if at all. To focus solely on the rights of the fetus negates its mother's value, personhood, and human rights. We should, therefore, give great consideration to mothers' rights as well as to those of the unborn. I am against this blatant power grab in trying to obstruct voters' voices. We voted for and passed Amendment 3 because it will save women's lives. It will improve the lives of children whose parents cannot afford to have another child (maybe that would be less of a concern if you'd fund childcare, food, other benefits...). Look at what is happening in Texas with a stark increase in maternal mortality. Look at what happens to women who are suffering from a miscarriage or ectopic pregnancy and can't get a necessary, life-saving abortion. Abortion is health care, and health care is between a patient and their doctor. If you're the party of "small government," why are you trying to put the legislature above a doctor's guidance? Please reevaluate your priorities.

The people of Missouri just spoke on this issue and it is ridiculous that the lawmakers we elect spend their time continually bringing the same topic up because they do not like the outcome of the previous vote. Women need to make decisions for their own health with their doctors. We do not need to go back to coat hangers in back alleys, which is what you are suggesting. Stop rehashing these same things we have voted on and work on other needs of our state.

My name is Jennifer Heffern, and I am from St. Louis. Reproductive Freedom is a Missouri value that is supported by the 1,538,659 Missourians who voted YES on Amendment 3. This YES vote means that we support access to abortion and ALL reproductive health care; our government should reflect those shared values and the decision made by Missouri voters at the ballot - not threaten them. You serve at the will of the people and were elected to defend the interests and values of Missourians. Our Yes vote on Amendment 3 makes it abundantly clear that Missouri voters do not want limits on our Right to Reproductive Freedom.

I want to emphasize that Missourians recently passed Amendment 3, affirming our right to access abortion care. Our voices and choices should be respected. I'm deeply troubled by provisions in this bill that would require proof of rape or incest for a woman to obtain an abortion. How do lawmakers expect to enforce such requirements? Will they require prosecution before allowing access to healthcare? This approach is impractical and puts undue burden on victims. Every woman should have the right to access abortion care, no matter her circumstances. I urge this committee to consider the will of Missourians and reject this bill. Thank you for listening.

We as Missourians voted on this. Just because legislators do not like the outcome does not mean that they are free to override the rule of the people. In November Missourians voted to keep healthcare decisions between themselves and their provider. The government has no role in dictating what people can and cannot do with their bodies. This house bill goes against the will of the people and should be voted on as such.

Amendment 3 was passed by the voters. Repealing it would stomp out the voices of 1,538,659 Missourians who voted YES on Amendment 3. You were elected to defend our rights and uphold the people's will; you were not elected to ignore your constituents. Reproductive freedom is clearly a Missouri value, or the Amendment wouldn't have passed. Missourians made it clear on the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values, not threaten them.

Amendment 3 in Missouri was with the majority in Missouri. The Missouri voters worked to gather signatures to get it on the ballot and then voted to pass it. We followed all the channels required to make our voices heard and HJR 54 is an attempt to silence our voices. This bill is an insult to the will of the voters. How dare you subvert us. Reproductive choice is a requirement in our society. Forced pregnancy and forced birth is a human rights violation. I oppose HJR 54.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Dear Committee Members, My name is Jessica DeVoto. Thank you for the opportunity to submit written testimony. I encourage the Committee to reject HJR54. This bill threatens the health, autonomy, and rights of Missouri's citizens. It seeks to overturn the voter-approved Amendment 3 and impose severe restrictions on reproductive healthcare, as well as gender-affirming care for minors. These provisions are deeply concerning for a number of reasons. First of all, it threatens access to reproductive healthcare. While we appreciate that it contains exceptions for cases of medical emergency, fetal anomaly, rape, or incest, these narrow exceptions fail to account for the complex and often deeply personal circumstances that lead individuals to seek abortion care. Restricting access jeopardizes the health and autonomy of Missourians, particularly those facing financial, geographic, or medical barriers. Moreover, the exceptions for rape and incest are unlikely to provide meaningful protection, as survivors of rape and incest often do not report these crimes due to shame, trauma, or fear of retribution. Requiring proof of such incidents to access care only compounds their suffering and creates unnecessary barriers to essential healthcare. Secondly, HJR54 reinforces the harmful stigma surrounding gender-affirming care for minors. Although the bill largely appears to reiterate existing restrictions, the message it sends is abundantly clear: that transgender youth and their healthcare needs are not valid. This is particularly dangerous given the already alarmingly high suicide rates among transgender youth. Studies consistently show that access to gender-affirming care significantly reduces suicidal ideation and improves mental health outcomes. Denying or stigmatizing this care will only worsen their distress and further endanger their lives. And third, HJR54 shows a blatant disregard for voter intent. Amendment 3 was soundly passed by Missouri voters, reflecting the will of the people. We knew exactly what we were voting for. Legislatively overturning the outcome of this democratic process undermines trust in government and disrespects the voices of constituents. Therefore, I respectfully implore the Committee to consider the harmful implications of HJR54 and to protect the rights and healthcare access of Missourians by rejecting this proposal. Thank you for your attention to this matter and for your anticipated service to the people of Missouri. Sincerely, Jessica DeVoto

Protect the Will of Missouri Voters – Uphold Amendment 3
 Dear Missouri Lawmakers I am writing to express my deep concern regarding any attempts to overturn or undermine Amendment 3, which was passed by a majority of Missouri voters. The people of Missouri spoke clearly in favor of this measure, and any effort to repeal or weaken it would be an affront to our democratic process. Amendment 3 was approved through a fair and lawful election, embodying the will of the people. Overturning it would set a dangerous precedent that disregards voter decisions and erodes public trust in our democratic institutions. When voters cast their ballots, they expect their voices to be honored—not dismissed by political maneuvering. Regardless of personal opinions on the policy itself, the foundation of our democracy is built on respecting the outcomes of elections. Ignoring the will of the voters disenfranchises the very people you were elected to represent. Upholding Amendment 3 is not just about the specific policy—it is about preserving the integrity of our electoral system. I urge you to respect the democratic process and stand with the people of Missouri by ensuring that Amendment 3 remains intact. Voters made their choice, and it is your duty as elected officials to honor that choice. Thank you for your time and consideration. I look forward to your response on this crucial issue.
 Sincerely, Jessica Lane

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

To the Honorable Members of the Missouri House of Representatives, Good afternoon, my name is Jessica Paxton, and I am a constituent from Warrensburg. I am writing today to testify in firm opposition to HJR 54, brought forth by Representative Stinnett, regarding Reproductive Health Care. Here in our great Show-Me state, we have enjoyed the right to Majority Rule for 100 years, allowing our state to thrive and grow with the times, and give her people the voice they deserve. In November, the people came out in droves and voted YES on Amendment Three, enshrining the right to an Abortion in our Missouri State Constitution. The people spoke. And yet, today, you want to overturn the people's decision with this joint resolution; in which abortion would be outlawed except in cases of Rape, Incest, fetal anomalies, or risk of death to the mother. Not only that, but in cases of rape or incest, an abortion would be granted ONLY IF DOCUMENTATION is provided that said person was raped or is a victim of incest. This requirement is assanine. According to RAINN (Rape, Abuse, and Incest National Network), incest is not only one of the most underreported cases of sexual abuse, but those victims of Incest are increasingly less likely to report due to grooming by the perpatrator, shame, and fear of family retaliation. Whereas for survivors of rape, 20% of them are unlikely to report the incident for fear of retaliation, and 13% believed that police would not act; a whopping 30% did not cite a reason for not reporting, which almost speaks for itself in how hard it can be to report one of the most traumatic things to occur to a person. Aside from this resolution's willingness to overturn the will of the people, is the inclusion of what is clearly anti-transsexual healthcare provisions, which frankly have nothing to do with reproductive health care. Truly, what is the thought process behind this resolutuion? The inclusion of wanting to ban puberty blockers and gender reassignment surgeries for children seems completely out of left field. For one, puberty blockers are utilized for adolescents for a multitude of reasons; it can help children who are suffering from precocious puberty (aka, early puberty). According to the Pediatric Endocrine Society, precocious puberty is usually treated by the use of...PUBERTY BLOCKERS! Puberty Blockers have been FDA approved, well documented, and utilized for decades for children going through both precocious puberty or accelerated puberty...So why is it such a huge problem now? Banning these blockers won't just harm trans or nonbinary youth...it'll cause harm to ALL youth regardless of gender or sex. Secondly, gender reassignment surgery regularly occurs at...EIGHTEEN YEARS OR OLDER. Banning something that, a simple google search will tell you, does NOT HAPPEN TO CHILDREN, is quite overreactive. Honorable Representatives, the people of Missouri spoke loudly in November their decision regarding abortion. We voted YES on enshrining it in our state's constitution. It might not be the outcome YOU wanted, but what YOU want shouldn't matter when you are a CIVIL SERVANT. You serve THE PEOPLE; NOT YOURSELF, NOT YOUR LOBBYISTS, NOT ANYONE ELSE BUT THE PEOPLE. As a survivor of sexual assault, whose own godmother had to choose between her life and an abortion for a child she desperately wanted, I am urging you all to vote NO on this joint resolution, and put this issue to rest. The people SPOKE. Respect it, respect us,

respect Majority Rule. Otherwise know that this is us putting you on notice, that your jobs will be up for grabs come next election. You may laugh at that, or roll your eyes, but it's obvious that the people are getting sick and tired of your games. Pull yourselves together and focus on legislation that doesn't waste time or taxpayer money, and actually helps US.

This bill is an attempt to take the Constitutional rights of Missouri voters who overwhelmingly and democratically defended the lives and equality of women in our state. Supporting this bill would be going against Missouri voters and putting wealthy special interests over the law.

MISSOURI HOUSE OF REPRESENTATIVES

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

My name is Jessica Smorodin Sarber and I live in University City. I oppose this bill because it rejects the will of the people. The amendment to allow reproductive freedom passed with a majority of votes, showing that Missourians want to let each person decide as an individual whether to get an abortion. I believe that the state should not be attempting to limit what medical care or procedures an individual can receive -- those choices should be between an individual and a trusted medical professional. This bill is an example of government overreach, and I urge Congress to respect the will of the voters and vote no on HJR 54.

I write to strongly opposed HJR. Voters of Missouri passed Amendment 3, and now we are asking you to respect the will of the voters. In a democracy, we respect votes. Hence, the peaceful transfer of power to president Trump on January 20. Control of individual healthcare decisions should not be in the hands of our government. Reproductive decisions should be made between an individual and a doctor and should include access to state of the art procedures and medications.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Missourians plainly stated, in approving Amendment 3, that they forbid the state government from forcing women to give birth against their will. This provision of our Constitution now recognized the fundamental moral principle that each woman may determine whether and when to reproduce, and that the state may not appropriate a women’s body for its own goals of creating more workers, consumers, and soldiers. Nor may the state adopt any religion’s peculiar and scientifically uninformed assertion that a fetus counts as a person with rights superior to the woman. Th bill’s sponsors only reveals their own galling, arrogant paternalism toward the people of Missouri by attempting to reverse their well-informed decision, by pairing it with unrelated material in another Amendment to induce actual confusion. To the extent any confusion existed in the 2024 referendum, it stemmed from blatant misinformation that Amendment 3 involved sex change surgery on minors’, as the ‘No on 3’ campaign sought desperately to change the subject from abortion rights, against which they realized their inability to win a majority.

Dear Committee Members, Amendment 3 passed with a majority of Missourians voting "yes". Just as you each won your seats in this legislature, majority rules. You should not be asked to surrender your seat simply because a Missourian disagrees with you. Nor should you move to overturn a legitimate vote by the people because you do not agree with it. Amendment 3 is now part of the Missouri Constitution and until voted out - by the people - stays. This bill flies in the face of democracy. These rights are now part of the Missouri Constitution. There is a saying with which I trust will be familiar. "Just because you can, doesn't mean you should". This bill stops right here right now. It is your duty to listen to the people and uphold the Missouri Constitution. Your oath of office demands this. Joan Culver

Regarding HJR 54 – I am submitting written testimony in total opposition to this Constitutional Amendment proposal that would completely undue the will of the people of this state. I was not “confused” in any way when I supported Amendment 3. On the contrary, I read Amendment 3 very carefully. It was quite clear in its intent to restore abortion (and other reproductive care) access in Missouri. I knew exactly what I was doing when I signed the petition. I knew exactly what I was doing when I voted in favor. So did every other person who signed the petition and voted “yes.” Please do not insult our intelligence by implying, thinking or outright stating otherwise. You do not have to agree with me. Heck, you don’t even have to like me. But if I live in your district, then you **MUST** represent me fairly and with respect. HJR 54 is a proverbial slap in the face to the majority of voters all across the state as well as to the scores of volunteers that made Amendment 3 happen, myself among them. It also goes completely against everything you were sent to Jefferson City to do: represent the people of your district. Well. The people of your district have spoken. Will you show them the respect we are entitled to – or will you be a Representative In Name Only?

I am a lifelong MO resident who works in healthcare. I am fully in favor of a women's right to have full autonomy over her body. Additionally if there were restrictions on abortion a 12 week limit even after rape or incest is not adequate as some may be unaware they were even pregnant at that point. Physicians providing care should not be in fear either.

Woman's bodily autonomy is more than a Missouri value, it's a human value. Anyone that supports an act that forces someone to lose their rights needs to reflect on what they hold as important.

I am a 30 year old cis woman who gave birth to a beautiful baby girl in July 2024. She is my pride and joy. However, having her was a carefully planned choice. Because of restrictions to reproductive healthcare in this state, I had to be ready to drive 4 hours to Illinois at a moment's notice if something went wrong with my pregnancy. I proudly voted to restore women's rights in November. Now, the state is once again overruling the will of the people. As a mom, I'm urging you to protect women by allowing abortion care in the state of Missouri. No one should ever have to fear losing their life for a pregnancy that is unwanted or unviable. In addition, no child should ever be forced to grow up knowing they were unwanted.

There is a saying that goes something like “a woman doesn’t want an abortion like she wants a new purse. She wants an abortion like a trapped animal who is willing to gnaw off their own leg to escape. Women will become desperate with no options. Women with jobs and families and children will die trying to get abortions in a world where abortion is not available to them. Prioritize the life of the human being who is living, breathing and telling you that they do not wish to be pregnant, to give birth, to raise a child in poor circumstances or to see their baby go through an adoption system that is broken and unreliable. Women have no options without abortion.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Missouri voters made their voices clear in November: they chose to protect abortion rights in the state constitution. HJR54 is a direct attempt to overturn that democratic decision, stripping individuals of their right to make personal medical decisions. This proposal is not just an attack on reproductive rights—it’s an attack on democracy itself. Ignoring the will of the people to push a harmful agenda sets a dangerous precedent that could extend beyond reproductive healthcare. Denying abortion access has real and measurable negative consequences. Studies consistently show that access to abortion improves socioeconomic stability, health outcomes, and overall well-being for individuals and families. Research from the American Journal of Public Health found that women denied wanted abortions were more likely to experience poverty, financial distress, and negative health outcomes (Foster et al., 2022) [<https://ajph.aphapublications.org/doi/pdf/10.2105/AJPH.2017.304247>]. The Turnaway Study, a landmark research project, found that women who could not access abortion were more likely to stay in abusive relationships, suffer from mental and physical health problems, and experience long-term economic hardship (Miller, Wherry, & Foster, 2023) [https://www.nber.org/system/files/working_papers/w26662/w26662.pdf]. Furthermore, a study published in The Lancet Global Health demonstrated that restricting abortion does not reduce the number of abortions—it simply increases unsafe, life-threatening procedures (Bearak et al., 2020) [<https://www.thelancet.com/pdfs/journals/langlo/PIIS2214-109X%2820%2930315-6.pdf>]. HJR54 is not only an attack on reproductive rights and democracy—it is also fundamentally anti-Republican in its approach. The Republican Party has long championed the ideals of limited government, personal freedom, and individual responsibility. Yet, this proposal does the opposite by expanding government oversight into the most private aspects of people’s lives. It empowers the state to interfere in personal medical decisions, dictating what individuals can and cannot do with their own bodies. Instead of upholding conservative principles of small government and personal liberty, HJR54 imposes excessive state control, contradicting the very values that Republican lawmakers claim to stand for. If true conservatism means less government interference, then rejecting this overreach should be a clear choice. Missourians have already decided to protect reproductive freedom and keep the government out of controlling our lives. Lawmakers should respect the will of the people instead of forcing through an extreme and harmful policy that ignores both democracy and science. Lastly, Democratic turnout was low in 2024. We know from history, after a Trump victory, Democrats come out in droves. While we saw voter turnout drop ~30% from 2020 to 2022 (after a Biden win) we only saw a 14% decrease from 2016 to 2018 (after a Trump win). We can expect Democrats to hit the polls hard in 2026 and adding an abortion amendment on that same timeframe would further drive Democratic voters. You aren’t just risking losing the vote on the amendment, which was already voted down by a 3% margin (for reference Trump’s landslide victory in 2024 was only by 1.5%), you are risking losing more seats to Democrats in 2026. This is especially true for the Representative from District 133, where her vote only

totaled 56% in 2024 while her predecessor was at 65% in 2020 when Biden won. Republicans are already losing ground in that congressional district, and introducing laws like this isn't going to move the needle in the right direction. Please kill this bill and focus on things that will make Missouri a better place to live and work.

I am writing to express my strong opposition to House Joint Resolution 54 (HJR 54). As a Missouri resident, I am deeply concerned that lawmakers are attempting to override the will of the people and undermine a clear majority vote in favor of safe and legal abortion access in our state. Missouri voters have made it clear that we believe in protecting the right to make our own reproductive choices, and this resolution represents an alarming effort to directly oppose the people's will. As a woman of childbearing age, I find it critical to have access to safe reproductive healthcare. The majority of Missourians voted to ensure safe, legal, and accessible abortion care in our state, and it is incredibly concerning that this legislative body is attempting to ignore our voices and go against what the people have decided. I urge you to respect the choice and rights of Missouri residents and to vote against this resolution. Thank you for your attention to this important matter. Sincerely, Josie Piccin

This bill does not just "ban abortion," but it puts women of all ages in Missouri in danger. When states have abortion bans, OBGYNs don't want to practice in that state. We have seen a reduction in medical residents applying to the state of Missouri due to the abortion ban that was in place before the passage of Amendment 3. Women of ALL ages need access to gynecological care. Many of the problems that women face cause infertility. There are issues such as uterine fibroids, which can cause excessive bleeding, pain, and infertility. Endometriosis, which can also cause severe side effects, including infertility. Polycystic ovary syndrome is also a significant health issue for women. By banning abortion, you put women of all ages in danger because they cannot access the healthcare that they need at any age to treat problems such as these. Ovarian, uterine, cervical, and breast cancer must be diagnosed and treated by OBGYNs. These are cancers that are exclusive to women. We must have accessible healthcare in our communities to have these cancers detected early and treated. If this bill were truly about protecting women, you would be supporting access to necessary women's healthcare.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Dear Members of the Missouri General Assembly, I am writing to strongly oppose House Joint Resolution 54, which seeks to impose further restrictions on reproductive health care in Missouri. This resolution is a direct attack on the will of the people, as Missourians have already made their voices heard in the 2024 election, affirming that women should have access to abortion care. By attempting to restrict abortion access to only cases of medical emergency, fetal anomaly, rape, or incest, this resolution disregards the fundamental rights and autonomy of women across our state. Missourians have already voted on this issue, and they have clearly expressed that reproductive freedom should be protected. HJR 54 undermines that democratic decision and seeks to override the will of the people with political interference. Furthermore, the requirement that victims of rape or incest must report their assault to law enforcement at least 48 hours before accessing abortion care places an unnecessary and cruel burden on survivors. Many victims do not immediately report their assaults due to fear, trauma, or concerns about retaliation. This provision further harms victims by denying them timely medical care and imposing government overreach in their most personal health decisions. Additionally, this resolution attempts to conflate reproductive rights with restrictions on gender-affirming care for minors, further demonstrating an effort to limit the rights of individuals and families to make informed medical decisions. These provisions serve only to impose a rigid and harmful political agenda on Missourians. The people of Missouri have already decided that reproductive rights should be protected. HJR 54 is a blatant attempt to undermine that decision and impose unnecessary restrictions on personal health care. I urge lawmakers to respect the will of the voters and reject this resolution. - Juan Gonzalez

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

My heart was more than sad and heavy when I found out my niece was taking the necessary steps to remove her breasts and have a hysterectomy, for starters. All this because of anger towards her mother, not gender identity confusion. Let me give you truth in the realities of emotions and communications. The United States and the states individually, have allowed our children to make choices based on emotions and communications in a moment where not all the facts and realities can be understood. We all know our emotions are fickle and unstable. We also know our communication can be very flawed with trying to get our meanings and heart across into the understanding of the other individual. As we all age, the majority I believe learns. As we learn, we change. Everyone knows that conversations we've had many years ago, have had irreparable damage to those we love. I want to point out, our children, still have many many years of growing ahead of them. Much more learning and understanding needs to take place in their mind, their will, and their emotions. We as adults always state, "if I only knew now, what I did then," marks the knowledge of either possible regret we face, sometimes daily, because we did not understand the severity or reality in a given situation. We as adults now know that we have had conversations with parents, grandparents, other loved ones, conversations that turned into outrageous and ugly emotions of fear anxiety and stress, that caused not just those misunderstandings, but have made for the long lasting effects of hate and anger and even feelings of abandonment which none of them may be factual truth, but actually just what they are. How can conversations filled with uncontrollable emotions get the place to make a knowledgeable, life altering and irreparable choice to mutilate our physiological bodies by taking off body parts, changing our hormones, and causing long lasting disaster and destruction to not just the physical, but the innermost being of who we are? How is it that we have given our children and youth, who lack the complete reality and understanding of the detriment these choices associated with gender transitioning will have on them when they grow and learn and ten years later regret what they've done out of emotions and misunderstandings? How can we sit comfortably by while they choose to hurt themselves because someone else hurt them? Whomever does not stand against truth, you are involved in the harming of the innocent if you do not stand against what you wished someone would've stood against that was wrong with what was happening to you at a young age as well! This is just that. With great sadness and anger in my heart that people have stood and said yes, let them do this, I tell you, my niece went through with it. No longer can she have children. I can't even begin to state the everlasting effects this will have on her as she grows and learns. What regret and when she comes into understanding the full reality, what choices will she then make because of regrets of the past. What will happen to her as an individual? Maybe, just maybe, that's the second and unstated point of all this, depopulation of the beauty in who we are. Control, so only a few can choose who wins and who loses. My disgust stands against those with knowledge and let this continue.

Stop trying to UNDO Missourians votes!! We KNOW what we voted on and your insinuations that we are too stupid to understand simple wording is highly insulting. If the majority of Missourians think this shouldn't have passed....let THEM do their own initiative. That's how WE THE PEOPLE are heard!!!!

Missourians voted in November that women's reproductive rights should be preserved, and family decisions should be made by the family and health care providers, not lawmakers. I strongly oppose this attempt to overturn the voters' decision.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

On December 7, 2023, my husband Andrew and I were at the OBGYN's office waiting for our first ultrasound with baby number 2. We were both nervous as this baby was a bit of a surprise, but excited about the future as a family of four. A few minutes later we were brought back to a room to begin the ultrasound. The tech and I were making small talk as she prepped the area and began the scan. When the small talk went silent, I immediately knew. "Are you sure you have your dates right?" I don't remember the rest of the conversation. I laid on the exam table wondering why this was happening to me. They shuffled us to a room to talk to the doctor and I just remember being in shock. Miscarriages were something that happened to other people... not to me. The doctor suggested we come back the next week in the event I ovulated later than I thought. She also started me on progesterone supplements after lab work showed that my progesterone was extremely low. We went back the next week for another ultrasound and were ecstatic to see a baby measuring just over five weeks with a little glimmer of a heartbeat. The tech sent us home with a photo of him and I spent hours praying over it, hoping for health and growth. We saw the doctor who shared she was optimistic but wanted us to come back the next week for another ultrasound just to confirm everything was on track. The next week we returned to the office (just three days before Christmas) with hope. I had convinced myself that I had miscounted or ovulated late and everything was going to be fine. I got myself up on the exam table for another transvaginal ultrasound (where they shove a wand up your vagina) and prayed to see a baby that had grown over the last week. Instead, we were given sympathies and explanations of what was wrong on the ultrasound. The baby hadn't grown, the gestational sac had started to tear drop and was falling towards my cervix, and she didn't see any form of a strong heartbeat. I held it together until we were moved to another room to wait for the doctor, and then I wailed. Every hope and dream I had for our family of four had been shattered and darkened. I felt pain I had never felt before. I was broken. And then, as if things couldn't be bad enough, another punch in the gut came. The doctor had reviewed the ultrasound report and noticed the tech had noted faint fetal cardiac activity. In Missouri, allowing me to have a D&C would fall under violating the state's abortion ban. Her hands were tied. I was given two options. I could come back every few days for more transvaginal ultrasounds until the report said no fetal cardiac activity, or I could stop taking the progesterone and wait to naturally miscarry. The first option felt like it would be more traumatic so I opted to go home and wait. The next week is a blur. People attempted to come over to bring us food, pray with us, or help out around the house. I refused all visitors. I spent the majority of my time in bed crying because of the physical and emotional pain. I questioned God, asking him why I deserved to go through such pain. I replayed every single event I could possibly think of that may have caused me to miscarry. I blamed myself for not being able to protect my baby and went as far as deeming myself an unworthy mother. I hated my body and its inability to care for my child. Christmas Day was hard. I held myself together to watch my two year old daughter open her presents and then almost immediately returned to my spot in the bed

to cry and mourn. I continued to feel like the world's worst mother laying in bed crying instead of playing with my living child. I also still hadn't naturally miscarried. At some point during all of this, I realized that if I didn't complete the miscarriage by January 1, we could also face a financial issue. We had met our deductible and out of pocket for the year at this point but that would all reset January 1. If I did need any medical care to finish this pregnancy after the new year, there would be a fairly large bill attached to it. That felt even more unfair. I pleaded with the doctor's office for a D&C. I explained the situation with our insurance and how this has absolutely wrecked my mental health. There was an agreement made that if I hadn't miscarried by December 29th, the last business day before the new year, there was a case for me to have a D&C. I don't know why, but there was something calming about knowing there was an end coming. One way or another, this would be over by the end of the year. My mom came up on December 28 to stay the night so we could be at the hospital early the next day. As I prepared for bed, I went to the bathroom and saw blood in my underwear. Knowing that this was the start of the miscarriage, I told Andrew that I would stay up for a few hours to get through the heavy bleeding and then get some sleep. I told him there was no need to stay up with me. I should have known something wasn't right when I was having to change sanitary products every twenty minutes because I was absolutely flooding them with blood and tissue. I'd sit on the toilet to clean myself up, stand up to pull my underwear up, and immediately cover my legs and the floor with more blood. I remember praying for this to be over soon so I could just sleep. I was so exhausted. At one point I stood up and immediately passed out. I woke up on our bathroom floor and tried to call for Andrew. He was sound asleep, snoring away. I remember going through my options and nearly resigning to the fact that this was just how I was going to die: Alone, on the bathroom floor, with Andrew snoring and The Office playing on the tv. What a way to go. After some time on the floor I managed to find strength to get back to my bed. And instead of doing the smart thing and waking up my husband to keep him informed, I went back to sleep. I woke up a short time later to blood everywhere and went to the bathroom to clean up and change. While I did manage to let Andrew know what was going on, I don't think he was awake enough to recognize the severity of the situation. The last thing I remember before passing out again was sitting on the toilet. The next thing that I remember was being on the floor, surrounded by my own blood, and Andrew kneeling over me. I muttered we needed to go to the hospital and he agreed. He attempted to get me up and I passed out again. It was at this point that he called 911. I was transported to the hospital by ambulance. I was terrified. I wondered if I would ever see my daughter again. I wondered if Andrew was okay. I pleaded with God for help. Once I got to the hospital, they began running labs and getting things ready for a D&C to finish the miscarriage. The room was packed with professionals surrounding my bloody, naked body. They put a bed pan under me to catch the blood and tissue. I was so weak and tired that I couldn't even comprehend how mortifying this was. I just wanted it to be over. Before they took me back for the D&C, an ultrasound tech came in and said she was there to do one final ultrasound of my pregnancy. She attempted to do a transabdominal ultrasound but had difficulty getting a good picture. She asked if she could do a transvaginal ultrasound to get what she needed. I very sternly refused. Hadn't I been through enough? Why would I let somebody shove something up inside my bleeding body to confirm that my baby was dead. Was the endless amounts of blood not enough? The actual procedure took less than 20 minutes, and I was discharged less than an hour later. I spent the rest of the day on the couch because I was too dizzy to get back up the stairs to our bedroom. While my body started to physically recover over the next few days, I was emotionally wrecked for months. I had to seek out therapy for PTSD and nearly had to admit myself to an inpatient facility because of my symptoms. There were days that I felt so bad that I truly wished I had died on our bathroom floor. This is what abortion bans lead to. This ban didn't protect me and it didn't protect my living child. My family deserved the right to make appropriate choices regarding my health. It never should have ended in the way it did. Voters already spoke out about Amendment 3. Missouri has decided that women deserve access to safe and appropriate reproductive healthcare. Please support that decision.

As a Missouri citizen who voted for Amendment 3, I am absolutely opposed to elected officials attempting to nullify my voice and my vote. Missouri voted for Amendment 3. It's abhorrent that this body has a history of treating the decisions of its registered voters with appalling disrespect. Our bodies do not belong to the state. Politicians have no business in the doctors office.

My name is Julia and I'm a healthcare worker from St. Louis. I oppose HJR54. As a woman, I have a desire to have a child, but I do not feel safe to be pregnant, because laws like these make it too complicated for doctors to treat me in an emergency. Limiting reproductive healthcare with complex stipulations has demonstrably caused permanent harm and death in patients around the country. I believe banning abortion objectively makes pregnancy a higher risk to my life. I think that is the reason why over 1.5 million people voted to keep abortion accessible. It's not just about a personal choice, it's about personal safety, and protecting the lives of the people who are pregnant. Even if Missourians have diverse beliefs about the beginning of life, many have come together to agree that we should not put lives at risk by tangling up evidence-based healthcare practices with moral law. Please respect that desire reflected in our vote on Amendment 3 and give us hope that our healthcare matters to Missouri.

Hello. I'm a resident of Missouri writing to urge you to vote NO on HJR 54. Honestly, I am appalled that the legislature is attempting to undermine the will of the people on reproductive healthcare. Over 1.5 million Missourians voted yes on Prop 3, despite a misinformation campaign against the proposition. The people voted, Prop 3 WON, and now the MO legislature thinks it can go back on what the people of the state actually voted for? That is an egregious corruption of democracy and the sponsors of this bill should be ashamed of themselves for writing and submitting it, trying to overturn the will of the majority of voters in Missouri. Vote NO on HJR 54 and let Prop 3 stand—the voters already decided that should be the law of the land in Missouri.

I oppose this bill because 1) it is trying to overturn the will of the people, established by vote, and 2) women must be able to access reproductive healthcare at ANY stage of their pregnancy, without undue reporting requirements or other burdens. Pro-life means supporting the health of women and babies in all circumstances, not focusing only on birth and ignoring all other aspects of life.

My name is Julie Peterson, from Columbia, Missouri. I have been a Missouri resident for 34 years. I am a retired nurse of 42 years, having worked at the University of Missouri for 25 years. My late husband was an emergency department physician at the University and the VA. I am the mother of 2 grown Missourians. My husband and I chose to have our children, and raise them here, when we were economically stable and able to support them throughout their childhood. My family benefited from that choice. A choice I believe you should not take from our neighbors and friends. HJR 54 threatens the rights of Missourians, those now living, and those yet to be born. Every Missourian deserves to be born into a family that is able to care for them, where they can receive support and love. A parent is the most capable person to determine if that is true, not the government. In November 2024, Missourians approved Amendment 3, the Right to Reproductive Freedom Initiative that is ratified in our constitution. HJR 54 ignores that. It is a clear example of government overreach and the disregard of Missouri's families and parents. You were elected to represent Missouri's families, not tell them what's best for them or what decisions they can or cannot make. Access to safe and legal reproductive care is a critical component of healthcare. It is critical this bill be voted down. Please respect the voters of Missouri.

The citizens of Missouri overwhelming voted to repeal Missouri's overly strict abortion ban. Lawmakers are merely dragging their heels, conjuring up ways to unnecessarily and irrationally deter what the citizens want. In constructing ballot language, gathering 380,000 signatures and winning at the polls, pro-choice Missourians have "played by the rules" It is not fair that a few Missourians who happen to hold state office believe they have the right to now change those rules. Why? Is it because they have a personal negative attitude toward abortion? Do they think it is justifiable to force a woman to carry an unwanted pregnancy? Is their personal religion against it? Are they medically ignorant of what the procedure is and how the law does already protect viable fetuses. Whatever their excuses for delay are, they do not overrule the Peoples' Will.

My name is Julie Schmitz and I live in Kansas City. I went out and knocked doors and talked to Missourians in the city and in rural areas. The overwhelming response is that Missourians want politicians out of their personal health decisions and believe reproductive care is a right. They voted for this right. I urge all elected officials to listen to the people of Missouri and oppose HJR-54.

MISSOURI HOUSE OF REPRESENTATIVES
WITNESS APPEARANCE FORM

BILL NUMBER: HJR 54		DATE: 2/4/2025

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Dear Members of the Committee, I am writing to express my strong opposition to Missouri House Joint Resolution 54 (MO HJR 54), which seeks to impose unnecessary and extreme restrictions on reproductive rights under the guise of replacing Amendment 3. This resolution represents a direct attack on the rights and bodily autonomy of Missourians and is an affront to the principles of individual freedom, medical privacy, and democracy.

1. MO HJR 54 Undermines Personal Medical Decisions Decisions about pregnancy and reproductive healthcare should be made by individuals in consultation with their doctors, not politicians. MO HJR 54 imposes government interference in deeply personal medical choices, preventing patients from accessing the care they need. By restricting abortion rights, the resolution puts Missourians at risk of dangerous health complications and forces them to travel out of state for essential healthcare, disproportionately affecting marginalized communities.

2. The Resolution is an Affront to Democratic Principles Missouri voters have repeatedly demonstrated their support for protecting reproductive rights, as evidenced by growing public opposition to restrictive abortion policies. By advancing MO HJR 54, lawmakers are ignoring the will of the people and attempting to bypass the democratic process. Rather than listening to constituents, this resolution prioritizes ideological extremism over the voices of Missouri families.

3. The Economic and Social Harm of Restrictive Abortion Laws Restrictive abortion laws have far-reaching consequences for Missouri's economy and healthcare system. States with extreme abortion bans experience higher maternal mortality rates, increased financial burdens on social services, and difficulty attracting medical professionals. Missouri cannot afford to continue down this path of harmful policy-making that endangers lives and erodes individual rights.

4. Missourians Deserve Comprehensive, Evidence-Based Healthcare MO HJR 54 is not based on medical expertise or public health best practices. Leading medical organizations, including the American College of Obstetricians and Gynecologists, oppose restrictive abortion laws because they compromise patient care. Policymakers should be focused on expanding healthcare access, improving maternal health outcomes, and ensuring that all Missourians have the ability to make decisions about their own bodies.

I urge you to reject MO HJR 54 and stand with the majority of Missourians who support reproductive freedom. Instead of advancing legislation that strips away rights and endangers lives, lawmakers should focus on policies that improve healthcare access, protect personal freedoms, and respect the voices of their constituents. Thank you for your time and consideration.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

My name is June Yin. I was born in St. Louis and have lived all my life in Missouri. As one of the 1.5 million Missourians who voted to legalize abortion last November I believe it is paramount that our right to choose be protected. The right to proper reproductive health care is a value Missourians share across the state. I believe our government has a responsibility to uphold the will of the people and afford us the same freedoms that people dream of when they imagine America. Taming away the right to abortion only eliminates safe abortions, and doctors often have to risk either their career or their patients' lives when dealing with pregnancy complications as long as an abortion ban is on the books. It breaks my heart to imagine the thousands of women who would have to retraumatize themselves just for legal approval after being raped. And it's not fair for anyone when a lack of reproductive healthcare leads to unwanted children who will never have the chance at a good life, to say nothing of the aspirations of the would-be mothers This abortion ban will only further divide our state and drive the educated professionals we need away from Missouri. Please listen to the people of this state when we ask that we do not return to a dark time where women are reduced to breeding stock. We deserve a better Missouri where people are free to choose what happens with their own body. Thank you.

Please care these legislative attacks on the will of the Missouri electorate. We have already spoken, in a far and open election. There we delivered a clear message. Access to abortion is a right that the people have voted "yes" to. Your attempts to erode, and undermine that right are alarming, unlawful, and betraying the will of the Missouri citizenry. The transparent intent of the bills to qualify, and complicate what is already an intimidating, life changing experience for any family, is fully apparent. Leave this topic, and return to your duty to help Missourians.

Instead of trying to over throw the will of the people, please get to work doing what the majority of Missourians have asked: to allow reasonable access to abortion allowing Missourians to make the best decision for themselves and their families. 1,538,659 Missourians voted YES on Amendment 3, that is over half, the bar which our democratic process says it has become part of the constitution. The people have spoken and our process says that when that happens, the other folks need to support and we all need to work together to move forward, not propose something with altered language to interrogate the same thi bf again. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care. Our government should reflect those shared values not threaten them.Thank you.

All, my name is Kael Rademan. I am strongly against this bill for a two primary reasons. 1) I believe it is far too restrictive in terms of abortion and women's reproductive care. Handcuffing their care with very strict rules like this is dangerous and in my opinion not what the public voted for in November. 2) Jumping from that last sentence, I think this bill clearly aims to undermine the recently passed abortion bill in November. I think proposing this bill so quickly is embarrassing and opposes what our democratic system is all about.

The people of Missouri have already spoken about the issue of the right to reproductive healthcare. We already voted. I work in the legal field and volunteer with children in foster care. I see how many children need help in St. Louis and how nobody is given enough resources to do it. This is a waste of time. You're worried about abortions? The state of Missouri and this entire country needs to do some serious work on the foster care and juvenile detention systems for the children who are alive and suffering NOW, instead of focusing on unborn fetuses and controlling womens' bodies. If you ban abortions, what will you do to support the unwanted children? How will you prevent the inevitable rise in infanticide? This is a joke.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am testifying on behalf of all child-bearing-age women in Missouri and all the friends and family who care about them. I am in strong opposition to HJR 54, which blatantly undermines the will of the people; it would repeal Amendment 3, banning abortion in Missouri--again. More than 3 times the number of signatures were collected and verified to get Amendment 3 on the ballot, and then in November the Amendment passed with a majority. Are we living in a Democracy? Or would MoLeg like us to be living like the Russians, in an authoritarian oligarchy? I personally don't agree with using abortion as birth control--but it IS medically necessary when the fetus is not viable, or dies in utero, or if the mother goes into toxic shock. As a voter, I feel this bill, HJR 54, is a slap in the face, reminding me of when we voted and passed the bill to end puppy mills or when we voted and passed Clean Missouri. MoLeg is trying to bypass the democratic process; this will endanger lives, and drive competent doctors out of the state of Missouri.

You are attempting to subvert the will of the voters YET AGAIN. This is reprehensible. We have voted to enshrine abortion rights in our constitution. Stop trying to overturn the voter's will!!! As a person who has experienced multiple miscarriages, as well as having several family members who have experienced miscarriages that required lifesaving miscarriage care (that is coded and billed as an abortion!!), having access to procedures billed and coded as abortions is basic medical care for women. Further, we have voted to enshrine these rights in the constitution of Missouri. STOP TRYING TO TAKE AWAY OUR VOTE.

The people of Missouri proved last November that the majority oppose political interference in abortion access. We have spoken. Everyone deserves unrestricted access to reproductive healthcare, and that includes abortion. Our bodies are not a political playground and our lives are not something for you to recklessly disrupt. A politician's job is to represent and serve the people, so maybe try doing that instead of undermining their decision just 3 months later.

With the passage of Amendment 3 in November 2024, the electorate of Missouri made their wishes clear. It is unconscionable to attempt to subvert the will of the people. All people have the absolute right to bodily autonomy. Just as no one can compel a person to donate blood or an organ against their will, no one should force a pregnant person to carry a fetus to term. Pregnancy and childbirth is one of the most physically and emotionally dangerous things that a person can experience. Unwanted pregnancy can affect every aspect of life, including employment, education, and family life. The decision needs to remain with the pregnant person and their healthcare providers.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

When I was 23 I almost died from an incomplete spontaneous abortion. At 5 months pregnant with my first pregnancy I had started spotting. My doctor told me to stay in bed until the bleeding stopped. A week later I was still on bedrest and not showing improvement. That night when I went to the bathroom an enormous amount of blood gushed out and turned the water in the toilet black. My husband rushed me to the hospital and the doctors said I needed a D&C (abortion). The fetus had stopped growing some time ago, was no longer viable, and my body knew it needed to terminate the pregnancy, yet it was unable to. Without the abortion, I would have bled to death. This was a pregnancy I wanted but it just wasn't meant to be. Without this abortion I would have bled to death. We have lost all common sense when it comes to women's health. And yes, this is a health issue. My body knew to terminate the pregnancy. Unqualified people (those who are NOT medical professionals trained in obstetrics) should not be making decisions on what is appropriate healthcare.

The people of Missouri voted for the right to abortion. You don't have to like it but your job as elected officials is honor what the Missourians voted for regardless of your opinions. The right to an abortion isn't abortion and you guys know that. If your wife or daughters needed had a miscarriage you can say goodbye to making sure they are safely cared for and don't die. You say you are prolife but that's not true. Women deserve the right to make decisions about their own healthcare. If you take away our rights take away men's rights to their own body decisions as well. I don't agree with all things that were voted by the residents of Missouri but that's what is supposed to make our democracy great. I guess the majority rules in a vote only applies if it's what the republicans want? Stop using late term abortions as the fight back we know that isn't what really happens.

I believe Abortion is healthcare. The decision to receive any form of healthcare should not be based on a religion, or the personal choice of a politician; it should be a choice between a woman and their doctor. Period. All Missourians should have the right to choose this for themselves. If a woman does not believe in abortion, she has the right to not receive one. All women should be given the same ability to make that choice for themselves.

This bill is in direct opposition to the clear will of the voters, as evidenced by the passage of Amendment 3 in November. It is completely irresponsible for the elected representatives of the people to make an attempt like this to override what was fairly voted on. Access to safe and legal abortion is a matter of personal autonomy and healthcare. Restrictions on abortion disproportionately affect low-income and marginalized communities, further entrenching inequality in our society. It is essential that we uphold the principles of individual freedom, bodily autonomy, and the right to choose what is best for one's own life and future. This amendment threatens not only reproductive rights, but also the broader fight for gender equality. The decision to have an abortion should be left to the individual in consultation with their doctor, not dictated by the government.

Script: The Reality of This So-Called “Compromise”[Opening – The Deception of the Bill]On the surface, this bill claims to allow exceptions for rape, incest, and medical emergencies. But let’s be clear: this is not about protecting life. It’s about controlling women, doctors, and healthcare choices. It’s about forcing survivors of sexual violence to navigate red tape and trauma just to access basic care. And it’s about giving the government the power to dictate medical decisions.[Point 1 – The Cruelty of the Rape & Incest Exception]This bill pretends to offer compassion to rape and incest survivors, but in reality, it punishes them. It forces victims—many of them minors—to report their assault to law enforcement and wait 48 hours before they can access an abortion. Imagine being a teenager, assaulted by a family member, and being told that before you get medical care, you must go to the police. For many victims, that’s impossible. This isn’t about protecting life. It’s about controlling and shaming survivors.[Point 2 – The Government Controlling Medical Decisions]This bill allows abortion for "medical emergencies," but who decides what counts? A politician? A judge? A doctor afraid of losing their license? We’ve seen horror stories from states with similar laws—women denied care for miscarriages, forced to suffer until they are near death because doctors fear prosecution. When politicians control healthcare, patients suffer.[Point 3 – Attacking Doctors and Reproductive Healthcare]This bill doesn’t just ban most abortions—it punishes doctors and medical professionals who provide reproductive care. It makes them legally vulnerable, threatening their licenses and exposing them to lawsuits. This means fewer doctors willing to treat miscarriages, fewer doctors trained to handle reproductive health emergencies, and fewer safe options for women across the state. [Point 4 – The Hidden Attack on Trans Healthcare]Buried in this bill is a completely unrelated provision banning gender-affirming care for minors. Why? Because this isn’t about protecting life—it’s about controlling bodies. If they can ban abortion today and trans healthcare tomorrow, what’s next? Birth control? IVF? The government should not have the power to decide which medical treatments people can access.[Closing – The True Goal of This Bill]This bill is not a compromise. It is a dangerous, authoritarian attempt to control reproductive rights under the guise of "exceptions." It forces rape victims to suffer more, puts doctors in legal jeopardy, and opens the door for even more government control over personal medical decisions. If we allow this to pass, what other rights will you take next?

The people of Missouri have already passed a constitutional amendment to enshrine reproductive healthcare rights in our state constitution. HJR 54 is clearly an attempt by career politicians to overturn the will of the people they were elected to represent. As a Missouri resident and voter, I expect the State of MO to honor Missouri Constitutional Amendment 3.

In November 2024, Missourians approved Amendment 3, the Right to Reproductive Freedom Initiative that is ratified in our state constitution. HJR. 54 ignores that. It is a clear example of government overreach and the disregard of Missouri's families and parents. You were elected to represent Missouri's families, not tell them what's best for them or what decisions they can or cannot make. Access to safe and legal reproductive care is a critical component of healthcare. It is critical that this bill be voted down.

My name is Katelin Arndt and I am a Medical Lab Scientist in Springfield, MO. As a medical professional and a member of this community, I feel the obligation to speak out for the people I help care for. We voted for Amendment 3, and this blatant disregard for the People's opinion is uncalled for. This is a direct attack on the health care of the community. Medical acceptions for abortions are not always clearly respected. People have been turned away while bleeding, septic, and vulnerable. The only way to guarantee people get the care they need is to remove the threat of prosecution. Do not go against the will of olyour constituents; trust us and our doctors to know what is best for us, our bodies, and our families.

Dear Missouri Lawmakers, 1,538,659 Missourians voted YES on Amendment 3. Reproductive Freedom is a Missouri value. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

Representative Melanie Stinnett, is introducing this amendment that would prohibit abortions in Missouri, except in cases of medical emergencies, fetal anomalies, rape, or incest. In instances of rape or incest, abortions would be permitted only up to 12 weeks of gestational age, provided appropriate documentation is presented to the attending physician. This proposal is a way to undermine what the Missouri voters approved, Amendment 3 in November 2024, which enshrined the right to reproductive freedom, including abortion, into the state constitution. HJR 54 is an effort to impose new restrictions on abortion access, potentially circumventing the protections established by Amendment 3. This is not what the majority asked for.

Abortion is healthcare. Missouri voters have already spoken out against a ban on abortions. This bill seeks to undermine the will of the people. Access to safe and legal abortions is necessary to protect our friends and neighbors but particularly racial and ethnic minorities and those of us in underserved rural areas with poor access to healthcare. Forced births keep women out of the workforce and perpetuate cycles of poverty and abuse. Access to welfare programs and affordable, safe contraceptives have shown to be effective in keeping abortion rates low. Stop allowing your hatred to hurt Missouri citizens. We don't want your abortion bans.

This is a heinous amendment against the will of the people of Missouri. Missourians have already voted in favor of abortion up to fetal viability. As representatives of the people, it is your duty to respect and enact the will of the people. Furthermore, to slide in anti-trans legislation into this amendment is deceptive. Trans individuals deserve healthcare too, and gender-affirming care saves lives. As a non-binary person who has worked with a transgender minor, gender-affirming healthcare and the ability to use gender-affirming pronouns, names, and clothing gives these children a chance to be happy and start living as their full, authentic, and confident self. Please stop using your time to attack the women and trans people of this state, and start using it to build a better, safer Missouri for all.

Abortion is healthcare. Missouri's elected representatives have no right to decide the health outcomes for a pregnant person. These decisions should be made between the pregnant person and their doctor. This is the definition of government overreach. Further, this bill directly goes against the will of the voters who successfully passed Amendment 3. Restricting access to abortion is inhumane.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Last November, Missouri voted to enshrine abortion and it is a disgrace to disregard the majority opinion of the state. Abortion is healthcare. HJR 54 aims to strip the authority of medical professionals by punishing them for doing their job and prioritizing their patient’s life. In no world should politicians be deciding the time frame and circumstance of when to receive healthcare. HJR 54 puts the idea of pregnancy and abortion into a singular box that assumes every woman experiences pregnancy the same way. It fails to understand the nuance that every single individual navigates a positive pregnancy test differently. The social, economic, and physical background of each woman is just the starting point of what to factor in when deciding to keep a pregnancy to term. HJR 54 is devoid of empathy and any medical understanding that this isn’t how the real world works. The real world works with choice. Having autonomy to decide what is best for ourselves empower us to be the best version of ourselves. Only we know our bodies best, and the second person to that is our doctors who have spent their lives studying how to correctly care for us. HJR 54 strips choice away from every individual and tries to act as an authority without any regard for the individual condition of every person. Motherhood or being child free are both beautiful ways to navigate life as a woman. But having the choice to navigate your health with your doctor is a privacy that should not be touched by politics. That is why Amendment 3 passed in the first place. I promise you there are pro life women who voted for amendment 3 because they had the privacy and choice of no one else knowing what they chose for themselves.

The people of Missouri have SPOKEN and we voted to allow abortion in MO. To make policy that goes against what the people of Missouri have voted on and approved is utterly appalling and speaks to an incredible lack of respect for our country, freedom, democracy. It is in abhorrent and disgraceful abuse of power and show the lack of integrity and honesty that should come with your positions. Your job as elected officials is to serve your constituents. Doing anything else is an act of self serving behavior that is shameful and should disqualify you from your seat. You personally don't have to like it, but you must respect the law of our lands.

My name is Kathryn Gluesenkamp, and I am a resident of Wildwood, Missouri. I have never had an abortion, and I hope to never need one. But that's exactly the point—whether or not someone chooses to have an abortion should be their decision, not the government's. In high school, I was honored with the Glory of Missouri Award for embodying the value of Liberty. To me, liberty means the freedom to choose our own path and make personal decisions without unnecessary government interference. House Joint Resolution 54 is a direct attack on that principle. It seeks to undermine the will of Missouri voters who supported Amendment 3 to protect reproductive freedom in our state. Make no mistake: if HJR 54 passes, Missouri will send a clear message—that our state government does not respect the voices of its people, the integrity of our justice system, or the fundamental right to individual freedom. I strongly oppose HJR 54 because I believe in democracy, bodily autonomy, and the simple yet powerful idea that personal health decisions belong to individuals, not politicians. Thank you.

Amendment 3 was voted on by the public and passed to make abortion available in this state. To make another bill to overturn this Amendment is not fair to all the voters who voted on this amendment. Sorry your side didn't win but the voice of the people stands. I don't like all the election results either but I have to live with them and so does this legislature.

The voters of Missouri were quite clear on their collective will when it comes to abortion rights in this state, and this bill blatantly disregards that vote. There is no reason it should advance any further. It also lumps in gender-affirming care with abortion, in apparent deference to the misinformation campaign that attempted to convince voters that Amendment 3 had anything something to do with “sex changes for minors,” a blatant and inflammatory falsehood aimed at voter manipulation. This bill is a waste of time for the legislature, and therefore a waste of taxpayer dollars.

The Missouri Legislature has a history of disregarding the will of the voters. Missourians voted for the right to reproductive freedom. Policymakers should focus on real issues that Missourians care about instead of spending time and resources on what we do not want. It is insulting for this body to assume that Missourians don't know what's best for themselves and their families. I encourage the committee to spend its time working on real solutions for families instead of expending time and resources trying to undo the will of Missourians.

Amendment 3 passed with the majority that it needed. The people of Missouri have spoken. Leave it alone and move on to more pressing matters, like how you are going to pay your teachers a livable wage. (Just one example). I listened to the hearing today when people said they voted a certain way because they didn't understand the language. Well that could go both ways. That's no excuse. And at the end of the day, what a woman does with her body should be her choice. And that's what we voted on. There are still provisions in place to protect a fetus that is potentially viable. Otherwise stay out of a female's doctors office. It's not a politicians place.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am writing to express my strong opposition to HJR 54 and to defend the critical protections established by Amendment 3. This issue is not abstract; it directly impacts the lives, health, and safety of millions of Missourians, especially the most vulnerable among us. I want to draw attention to a particularly cruel and dangerous aspect of this proposed legislation: the exception for rape and incest, which requires victims to provide documented reports and proof of an investigation, and limits their access to abortion to within 12 weeks of pregnancy. On the surface, this may seem like a compromise, but in reality, it puts countless women and girls in unimaginable danger. Victims of rape and incest are often trapped in abusive, coercive, or violent situations where reporting their abuser is not only unsafe but life-threatening. Forcing these survivors to report their trauma in order to access essential healthcare ignores the reality of their circumstances and puts them at risk of further violence. Even for those who have the resources to report their assault, the system is not equipped to provide the timely response this law demands. It can take several years for investigators to test and process the results of a rape kit, leaving victims in limbo, waiting for justice while their lives are further disrupted. In 2022, there was a backlog of over 25,000 untested rape kits across the United States. Expecting victims of assault to navigate this broken system and secure proof within 12 weeks is unrealistic and inhumane. HJR 54 is not a law designed to protect life. It is a law designed to control and punish. It puts survivors of rape and incest at the mercy of an unresponsive system and leaves them with no safe options. It denies them the dignity and autonomy they deserve. Abortion is healthcare. It is a deeply personal and often heartbreaking decision that belongs to an individual and their healthcare provider, not to politicians or bureaucracies. By pushing HJR 54, you are not only undermining Amendment 3 and the will of Missouri voters, you are endangering lives. I urge you to reject this harmful legislation. Trust Missourians to make the best decisions for their own lives and futures. Protect the vulnerable, support survivors, and uphold the fundamental principle that women and girls deserve safety, dignity, and autonomy. Thank you for your time and consideration. Sincerely, Katrina Keller Independence, Missouri

I am a voter, a citizen of the state of Missouri, and a strong believer in our democracy. In Missouri, the voters overwhelmingly passed an amendment to the state constitution to provide women with the option to choose an abortion if so desired. It is not the job of the legislature to override the expressed wishes of the voters. If they want to change the outcome, then the legislature should propose their own amendment and go through the lawful, constitutional process to change it. The small legislative body should not overturn the votes of over one million Missourians.

I believe in the freedom for women to make informed and wise choices about their bodies & their health in all circumstances. I do not believe a law(s) should take those choices away. A woman needs to consult with her doctors, her inner soul, God, & her family & be allowed to act accordingly. No two situations are the same; every health decision is private & unique.

Representative Jones and the Children and Families Committee, Please oppose HJR 54 which would overturn the Reproductive Freedom MO amendment. HJR 54 would ban abortion which overturns the will of the people as voted on in November 2024, allowing abortion in the state of Missouri up to fetal viability. Missourians deserve to have their votes count. Legislators are supposed to represent their constituents, not impose their bias to overturn the will of the people. Please respect the majority of Missourians and oppose HJR 54.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Firstly, I am appalled that I need to submit this testimony against HJR54. Secondly, I am appalled that state legislatures have taken it upon themselves to introduce this “resolution” in the first place. Over 1.5 million Missourians chose to pass Amendment 3 in November, despite having been met with opposition and political lawfare to thwart their will every step of the way. Hundreds of thousands of your constituents have spent countless hours and their own money to ensure that Missouri is safe for women, to ensure that we protect the freedoms we had for 50 years under Roe. Many of the legislators that support this resolution touted the overturning of Roe as “giving the issue back to the states.” Yet, when Missourians decided as a state to restore abortion access and protections (even across partisan lines), state officials are have continued to attempt to subvert the will of the people. HJR 54 could potentially prevent Missourians from having a direct say on reproductive healthcare. It obstructs the democratic process by overriding or preempting future citizen-led initiatives and it opens the door for more restrictive, UNWANTED abortion bans. Not only this, but restricting reproductive rights has been linked to worse maternal health outcomes, increased economic hardship for families, and higher health care costs. It’s not good for the economy either. Healthcare providers already began leaving the state in 2021 due to Missouri’s trigger ban. Abortion bans create a gender apartheid for women in this country and in Missouri, where it’s safer to exist as a woman in one state but not another. I would like for Missouri to be a safe place for women to exist and build families. Not to mention, any further attempts to oppose the Will of the People in Missouri is a waste of taxpayer money and resources, an abuse of the positions we elected to your positions. As someone who would like to build their family in Missouri, I am vehemently opposed to HJR54 and I can speak for my community when I say this is NOT in the interest of Missourians. Please stop this resolution in its tracks and instead focus your efforts on fulfilling the will of Missourians: to protect access to safe and legal abortions without the government being involved.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I'm writing to you today in opposition of the eight bills being brought forth which would further limit our individual freedoms and rights to make decisions about our own bodies. To take an underhanded approach such as passing laws under the guise of protecting people, strangers, is abhorrent and to be condemned. The government is overstepping its power in trying to tell Missourians what they can and cannot do with their own body. The fear-mongering at play is devised using buzzwords meant to strike fear into the hearts of those with no personal experience on particular, important subjects. They're also meant to instill the same fear into those who simply do not understand what they're being presented with because of the rampant misinformation being pumped into their minds. My elder sister was not born a woman, but she is, in every sense of the word, far more of a woman than me. She's a mother to a wonderful daughter who is intelligent, curious, and stands up for herself. My sister raised her to be a brilliant woman, to be whoever she wants to be. My sister is accomplished in the field of software development and AI, she's someone who struggled her entire life to figure out what it was that wasn't right, that didn't 'feel' right inside her. She never understood why she wanted so badly to do stereotypical 'girly' things. She didn't understand why she never fit in at home under the outright abusive rule of our strict, gender-role-conforming parents, nor why she was bullied horrendously at school for not quite fitting the bill there either. It wasn't until she was older that she realized what was wrong all this time, and I've seen my sister go from an incredibly depressed, suicidal male, to a happy, thriving woman who's raising her teenage child with her partner. There is no reason I should have to write and tell you, the courts, anybody, about my sister. It's not really your business after all, right? But with the consistent overstepping of the government in our personal lives, it's becoming detrimental to our freedoms that we as citizens, speak out. On the topic of abortion, I want to make it known that I vehemently abhor the outlawing of this life-saving healthcare as well. It's been proven time and time again that politicians simply do not understand the reproductive process and their ignorance is costing lives that didn't need to be lost. The infant mortality rate is rising sharply, non-viable fetuses are being carried to full-term at the detriment of the mother. These non-viable fetuses are not surviving, as they were never expected to due to complications. This is also, at times, causing the woman to lose her ability to become pregnant again. These are largely women who wanted to have children who will no longer be able to because they were forced to carry a dead fetus full-term. That is cruel and punishes the would-be mother for something she had no control over. Pregnancy and conception: the implantation of an egg, is far more complicated than Republican politicians would have you believe. Pregnancy is also not a health-neutral state. It's dangerous, it's painful, and it's deadly for many individuals. The United States is woefully underdeveloped in terms of pregnancy care and our mortality rates are nothing to be ignored. And yet, we hardly hear that brought up. Why? The decision to have a child is not one to be made impulsively. And it's also not one to be given as a 'consequence' for sex. Children are meant to be a miracle, birth is a miracle, the fact that humans can create more humans; is

a miracle. But to take that miracle and use it as a punishment, a consequence, is nothing short of evil. When you make children a punishment, you take the miracle out of it. The government's decision to question, if not outright deny, the individual's decision on whether or not to get an abortion; is mainly rooted in religious beliefs which violates the separation of church and state. That aside, we voted to have abortion rights reinstated in our state back in 2024, so why exactly is our vote being questioned? Why did we vote if it were going to be questioned? What part of this is democracy? The fact is, we voted in a way that the government didn't like and that is not an acceptable reason to question our decisions. The very fabric of our democracy is fraying, and you are all guilty for allowing this to occur. Shame on you.

My husband and I desperately want to grow our family, give our daughter a sibling, and try for one more baby. Unfortunately, I have had trouble conceiving in the past and trouble remaining pregnant once I have conceived. This has resulted in needing D&Cs. Most recently, they suspected I had an ectopic pregnancy. Thankfully, that was not the case, but if it would have been, would I be able to receive the care needed with this bill? These laws are so dangerous for people like me. I will not risk my life to get pregnant with laws like this in place. Why would I risk my daughter not growing up with a mother when I cannot be confident that my doctors could legally save my life if needed? 1,538,659 Missourians made it clear at the ballot: we support access to abortion and all reproductive health care. You were elected to REPRESENT the people, not push dangerous ideals about what woman should do. Trust your constituents, along with their doctors and families. to make the best decision for them. They are not always easy, but this will not make it any easier or any safer moving forward. Do the right thing and do NOT allow this bill to move forward.

This bill is in opposition to Amendment 3 that passed by will of the people of Missouri. As a citizen of this state, I'm appalled that our legislature would seek to disregard the democratic process that passed Amendment 3 by majority vote. Please oppose this bill to respect our democratic process and protect the reproductive freedom of women

The Missouri voters have already made their voices heard regarding abortion and women's healthcare. This bill undermines the democratic process by attempting to severely limit reproductive freedom in direct opposition to what we voted for. While I dream of a world free from abortion, no one who has not stood in the shoes of a pregnant woman facing an untenable choice for whatever reason has the right to make this decision for her.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Abortion is healthcare, just as childbirth is healthcare. It should not have to be stated why being pregnant for 9 months and giving birth to a child is related to healthcare. The prevention of having to do so, is also healthcare. Women should always have the choice whether or not to give birth. The massive scope of this decision for women is being taken too lightly by the fact it is even in question. In the last election, Missouri voters have overwhelmingly showed that they support abortion rights. The right for women to make a decision about their own health and body, as a human being. This must be upheld, for the women who can barely afford to feed themselves let alone have time and resources to take care of a child, for the women who did everything right in terms of protection but still become pregnant, for the women who aren't in a good situation and don't want to bring a baby into their suffering, for the women who know the baby wouldn't have a good father figure or one at all, for the women who simply want to focus on their careers or other aspects of their life, and especially for the women and girls who were impregnated without their consent. They all deserve the right to choice. I am personally not in a good enough financial situation for a child, and neither is my boyfriend. We are both freshly graduated college students, steadily trying to build our careers. I have birth control, but it failed and I was forced to give birth - this child and the child's parents would live a life of struggle. No child deserves that, and no parents deserve to have to give them that.

As a woman in the state of Missouri I have already cast my vote in favor of restoring the right to choose. The state of Missouri's constituents overwhelmingly supported amendment 3 and any opposition to this is in direct conflict with the amendment that was codified into the Missouri constitution. As a citizen of Missouri I demand better use of my tax dollars a better representation by my representatives in this matter. We have decided. And this new attempt at limiting access to abortion is not the will of the people.

I am writing to express my strong opposition to the proposed resolution aimed at overturning Amendment 3, which was democratically approved by Missouri voters on November 5, 2024. This amendment enshrines the right to reproductive freedom, including access to abortion, into the Missouri Constitution. The passage of Amendment 3 reflects the will of the people of Missouri, who have clearly indicated their support for reproductive rights. Overturning this amendment would not only disregard the democratic process but also undermine the trust that citizens place in their elected officials to uphold their decisions. Furthermore, enshrining reproductive rights in the state constitution ensures that individuals have the autonomy to make personal healthcare decisions without undue governmental interference. This protection is crucial for safeguarding the health and well-being of Missourians. I urge you to respect the will of the voters and uphold Amendment 3. Overturning this amendment would set a concerning precedent, suggesting that the outcomes of democratic processes can be disregarded. It is imperative that we maintain the integrity of our state's democratic institutions and honor the choices made by its citizens.

As a Missouri voter who voted with the majority of Missourians to pass Amendment 3 last November, I am very opposed to HRJ 54. Voters made their decision and Republicans are once again attempting to undermine the will of the voters. Voters have spoken. The shady, backdoor attempts to nullify a result that Republicans don't like is anti-democratic. If they really want to help, endorsing and funding programs that aim to help and support women and children would be a good place to start, not performative attempts to reverse the will of the majority of the state's voters.

As a Greene County Missouri constituent, I strongly oppose HJR 54. This is my testimony. As a woman, I already feel the downplay of women's healthcare. We are told we are "hysterical" or that our pain "isn't that bad". We are told this our ENTIRE lives. There isn't one woman present who has never been gaslighted in the medical sphere regarding our bodies. Let's make this very clear...**ABORTION IS HEALTHCARE.** I am not here to listen to the rhetoric about "killing babies after 9 months" or whatever the new spin on those lies is; because that is exactly what they are: Lies. I am here as a woman and mother of two daughters who wants to maintain her control over her body and for my daughters to have that same right. The voters in Missouri have spoken, and it's pretty brazen of anyone to circumvent that. I ask that you do the job our tax dollars pay you to do [what our VOTES have instructed you to do], and keep your regulations and laws off Missouri women's bodies. To Melanie Stinnett: How embarrassing that your name is attached to this. A law against women. Shame on you. Instead of tearing women apart, do something that makes Missouri better. If you want fewer abortions, write a law that requires real, scientifically proven, sex education; not just abstinence which statically doesn't work. If you want fewer abortions, write something that fixes this beyond-broken healthcare system. If you want fewer abortions, write something that overhauls the foster system and adoption process. Do something worthwhile and that makes Missourians proud, because this isn't it.

To the Members of the Missouri State Legislature, I am writing to express my strong opposition to any attempt to dismantle Amendment 3, which was passed by the majority of Missouri voters. This amendment was not forced upon our state by politicians or special interest groups—it was decided by the people, through a democratic process. To now attempt to undermine or overturn the will of the people is not only unconstitutional but deeply anti-democratic. Our country was founded on the principle of a government "by the people, for the people." The people of Missouri made their voices clear when they voted to protect abortion access in our state. To disregard this vote is to disregard the very foundation of representative democracy. It sets a dangerous precedent that the votes of Missouri citizens can simply be undone when lawmakers disagree with the outcome. That is not democracy. That is an abuse of power. As a woman of childbearing age in Missouri, this issue is not theoretical for me—it is deeply personal. I have Polycystic Ovarian Syndrome (PCOS), a hormone disorder that affects at least 10% of women—one in every ten. I was diagnosed at age 14. There is no cure, and there is no universally effective treatment. One of the many challenges of PCOS is an increased difficulty in conceiving and carrying a pregnancy to term, particularly after the age of 30. Women with PCOS face a significantly higher risk of miscarriage, and for those of us over 30, those risks only escalate. I am 34 years old. If I were to become pregnant in Missouri and suffer a miscarriage, I would not only face the devastation of losing a pregnancy, but I could also be treated as a suspect rather than a patient in need of care. Under current policies, doctors often hesitate to provide necessary medical interventions due to fear of legal repercussions, leaving women like me vulnerable to life-threatening complications such as sepsis and hemorrhaging. Miscarriages are already traumatic. No woman should have to endure questioning, delays in care, or legal scrutiny while their body is in crisis. Restricting abortion access does not prevent miscarriages, nor does it protect life—it only puts lives at risk. Medical professionals should be able to provide the best possible care without fear of criminalization, and no woman should have to fear being denied critical healthcare because of a law that disregards medical realities. Missourians have spoken. Amendment 3 was passed by the people, for the people. I urge you to respect the democratic process and uphold the will of your constituents. To do otherwise is to betray the trust of the very people you were elected to serve. Sincerely, Kelsey Jensen
 St. Joseph, MO 64507

Hello. Thank you for hearing my testimony. Over 1.5 million Missourians chose to pass Amendment 3 in November, despite having been met with opposition and political lawfare to thwart their will every step of the way. Hundreds of thousands of your constituents have spent countless hours and their own money to ensure that Missouri is safe for women, to ensure that we protect the freedoms we had for 50 years under Roe. Many of the legislators that support this resolution touted the overturning of Roe as “giving the issue back to the states.” Yet, despite Missourians deciding as a state to restore abortion access and protections (even across partisan lines), state officials continue to attempt to subvert the will of the people. HJR 54 could potentially prevent Missourians from having a direct say on reproductive healthcare. It obstructs the democratic process by overriding or preempting future citizen-led initiatives and it opens the door for more restrictive, UNWANTED abortion bans. Not only this, but restricting reproductive rights has been linked to worse maternal health outcomes, increased economic hardship for families, and higher health care costs. It’s not good for the economy or families. Healthcare providers already began leaving the state in 2021 due to Missouri’s trigger ban. Abortion bans create a gender apartheid for women in this country and in Missouri, where it’s safer to exist as a woman in one state but not another. I would like for Missouri to be a safe place for women to exist and build families. Not to mention, any further attempts to oppose the Will of the People in Missouri is a waste of taxpayer money and resources, an abuse of the positions we elected you to. As someone who would like to build their family in Missouri, I am vehemently opposed to HJR54 and I can speak for my community when I say this is NOT in the interest of Missourians. Please stop this resolution in its tracks and instead focus your efforts on fulfilling the will of Missourians: to protect access to safe and legal abortions without the government being involved.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am writing to express my strong opposition to HJR 54 and the efforts to overturn the will of the people of Missouri. The people of this state voted to restore access to abortion through Amendment 3, and it is deeply concerning to see politicians attempt to override this democratic decision. This bill, which seeks to replace the voter-approved amendment with one that imposes arbitrary restrictions on reproductive freedom, is a direct attack on the principles of democracy. The voices of Missouri voters who stood up for their rights are being disregarded in favor of political agendas that do not represent the will of the majority. I am also extremely concerned about the broader implications of this bill on reproductive freedom and bodily autonomy. Decisions about healthcare, including reproductive choices, should be made between a woman and her doctor, not by politicians. By attempting to impose restrictive and unnecessary limitations on abortion access, this bill undermines the right of individuals to make informed decisions about their own bodies, lives, and futures. Women in Missouri deserve the right to make healthcare decisions free from political interference, and I strongly urge you to oppose HJR 54 and any attempts to limit these fundamental rights. Sincerely, Kerry Bursley

HJR 54 clearly contradicts the already-heard views and wishes of the majority of Missourians. Passing it will be a waste of private and public resources on a referendum. It will distract Missouri residents and lawmakers from new and pressing business making us all ill-prepared for a successful future. Even holding the referendum will generate negative effects on economic development and tourism. The negative effects of passing the referendum would be tragic for vulnerable Missouri women, girls and families. A state that endangers a majority of its population and ignores the votes of a majority of its population will not flourish.

I am writing to ask you to reject House Joint Resolution 54. This proposed constitutional amendment is a subversion of the democratic will and insults the intelligence of Missouri voters, endangers the health of women, cruelly attacks the health and well-being of transgender Missourians, and will be a waste of taxpayer money. In November of 2024, Missourians passed Amendment 3, guaranteeing the right to access abortion services until fetal viability - approximately 24 weeks. The voters have spoken. In a deeply conservative state that voted overwhelmingly for President Trump, Missourians declared that terminating a pregnancy is the decision of one who is pregnant, with the advice of their medical professional. Yet, once again, this legislative body believes it can veto the will of the voters. And once again, it uses the tired argument that voters are ignorant and did not know what they were voting for. This is patently false. Even with the lies distributed by those who tried to prevent the approval of Amendment 3, Missouri voters saw through that and affirmed the rights of people to make their own medical decisions. It is abhorrent that this proposed amendment would require victims of the crimes of rape and incest to get written permission from police before obtaining an abortion past 12 weeks. The same police who may be hesitant to believe victims of rape and incest even when there is no pregnancy. In addition, as late as 2022, Missouri had a horrendous backlog of unprocessed rape kits. Yet this bill would put a stopwatch on a victim who is unlikely to see swift investigation. This is cruel. This bill is also legislative overreach - attempting to get a ban on transgender care in the Missouri constitution through the back door. I cannot understand this legislative body's obsession with controlling other people's health, well-being, and bodily autonomy. This is a cruel attempt to pit cis-gendered women against transgendered women. It is a cruel attempt to divide people already marginalized by our system. And finally, this will be a waste of taxpayer money because the voters know what they voted for and will reject this measure if it makes it to the ballot - just like we did when this legislative body tried to sneak "right to work" past the voters - thereby resulting in money wasted passing and getting this amendment on the ballot. I urge you not to pass HJR 65 out of this committee and instead get to work improving the health, education, and well-being of all in Missouri. Abortion bans never stop abortions; they only make women and the physicians who care for them criminals. What actually reduces the number of abortions is economic and health well-being - a living wage, high-quality education, low-cost access to health care, and a society that encourages healthy consent and does not tolerate rape.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Dear Missouri House representatives, I am writing in opposition to HJR 54, a bill that would subvert the democratic will of the people. Your fellow citizens voted just a few months ago to allow access to reproductive healthcare to Missourians and to enshrine bodily autonomy into our state Constitution. And now this bill aims to take those hard-fought rights away. That alone is a reason to oppose this proposed bill. But more than that, healthcare should not be accessible only at the whim of politicians. Healthcare decisions should be between a patient and a provider without government interference. This proposed bill's restriction of abortion access would endanger pregnant people. Further, people who are sexually assaulted should not be required to report to law enforcement; this is a violation of privacy. Sexual assault survivors often don't report, and if they become pregnant from assault, they often experience shame, along with the trauma, that makes them wait months before seeking an abortion. Placing a time limit on care would be detrimental. This proposed bill would also deny healthcare to some of our most vulnerable youth. Prohibiting youth with gender dysphoria from receiving proper treatment can cause irreparable psychological harm, and research shows transgender youth have much higher suicide rates. In addition, surgeries and hormone treatment are not equivalent. Hormones are given routinely to children with physical issues, and denying hormones to transgender kids because they need them for a different diagnosis is discriminatory. Surgeries should be rare and necessary as recommended by medical professionals. In closing, the government should not be involved in making decisions about an individual's personal healthcare, and elected representatives should not allow their personal (religious) beliefs to dictate our state's laws around reproductive healthcare. Please take into consideration this testimony against HJR 54.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

The people of Missouri have voted for reproductive rights for women. The voice of the people must be respected and enacted. Missouri's conservative representatives continue to push 'their' agenda, not the people of Missouri. Most important is that you are sent to 'represent all of us', not your own interests. Missourians voted by a majority to pass amendment 3. They also voted by a majority to elect a pro-life governor. What this should tell you, is the people disagree with the governor on this topic. There are many issues where they aligned with the governor, but the majority believe in reproductive rights for women. The fact that 'women reproductive rights' are singled out, should be a sign there is a problem with this bill! People did not just speak 'loud and clear' about abortion access, but to keeping politicians OUT of our healthcare decisions !! This is not just about women's reproductive rights. It is about women's rights. The state controlling a women's body would mean denying her full autonomy and ultimately full equality. We want EQUAL rights under the law!!!The bill wants to change the gestation limit to 12 weeks and to limit the reason for the abortion. * Many women don't even know they are pregnant at 12 weeks! * According to some research, about a third of rape/incest victims did not know they were pregnant until they were already in the 2nd trimester. So allowing abortions for rape/incest would not exist for 60+% of victims. (ref: <https://www.sciencedirect.com/science/article/abs/pii/S0002937896701412>) * Only a small portion of fetal anomalies are discoverable at 12 weeks. Only 60% of fetal anomalies are identifiable at the "20 week Anomaly Scan". The ultrasound at 11-13 weeks only identified 2.9% of anomalies, and 60% at the 20 week scan. In addition, once the anomaly is found, often there are additional tests that are done to determine severity. Therefore, abortions for fetal anomalies would not be allowed for 95+% of situations. (ref: <https://pmc.ncbi.nlm.nih.gov/articles/PMC9745821/#sec17>) So this law does nothing to support those that experience rape/incest or fetal anomalies. The second paragraph about public funding and holding healthcare professionals liable is just ridiculous. Missouri already prohibits public funds for abortions, other than for the life of the mother. Physicians are already required to carry medical malpractice insurance. Laws matter. They have unintentional consequences. They often affect the most vulnerable. This is especially true for reproductive rights. Where are the laws supporting these women. Where are the laws holding the men accountable and responsible. It takes a man and a women to make a baby, but often times it is only the women who is left to take care of the child physically, emotionally and financially. ** Instead of adding candy language about transgender care, how about adding laws forcing men to be held accountable, not only financial but time, energy and love!This law hurts the most vulnerable women! Many women who have been raped are traumatized and may not be able to emotionally accept the pregnancy until well after the 12 week period. These women are already victims of controlling men, and now you expect them to be controlled by their government that is to protect them. Way to go! What happens, is these women take matters into their own hands and have unsafe 'homemade' abortions that physically damage them for

life, both emotionally and reproductively. Laws are made to protect the people. I urge you to do your job and represent ALL the people of Missouri. We want common sense laws that are for all Missourians - men and women.

I oppose this bill to the utmost. Missouri voters just voted to enshrine the right to have an abortion in our constitution, and politicians in Jeff City are trying to undermine the voters' will. I can assure you that Missourians believe in the right to have an abortion - I saw so many local volunteers working to share the knowledge of this bill with their community. I believe that the right to abortion is like the right to decide whether or not to donate an organ or donate blood - a deeply personal right of bodily autonomy that belongs to that person, with their decision informed by their doctor. It would be un-American to force someone to donate a kidney or to force people to donate their organs after death - even though such measures would certainly save lives. Therefore, it is wrong to force someone to gestate a pregnancy with their body, especially as a fetus is not yet a person. I oppose this bill, and I expect the representatives to upload the people's vote in November 2024 to protect the right to abortion.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

HJR 54 represents a blatant disregard for the will of Missouri voters and an unacceptable intrusion into personal medical decisions. In 2024, Missourians made their stance clear by passing a constitutional amendment to protect abortion access, affirming that reproductive freedom is a fundamental right. Yet, this bill seeks to dismantle that progress by imposing harsh restrictions on abortion care, even in cases of rape and incest. By forcing survivors to report their trauma to law enforcement within an unrealistic 48-hour timeframe and capping abortions at 12 weeks in such cases, HJR 54 shows a profound lack of empathy for survivors and ignores the complexities of their experiences. Missourians have already spoken: they believe in trusting individuals to make their own health care choices, and this bill directly contradicts that mandate. Beyond its attack on abortion rights, HJR 54 also targets essential health care for transgender individuals by banning gender-affirming treatments, including surgeries, hormones, and medications. This provision is not only heartless but also medically unsound, as it denies proven, life-saving care to those who need it most. The bill's punitive measures, such as threatening medical professionals with license revocation, will create a climate of fear, discouraging providers from offering necessary care. This is not about protecting health; it is about imposing a narrow ideological agenda. Missourians value personal autonomy and the right to make private medical decisions without government interference, and HJR 54 undermines those core principles. Furthermore, the bill's ban on public funding for abortions disproportionately impacts low-income individuals, effectively cutting off access to vital reproductive health care for those who need it most. This is not just an attack on abortion rights—it is an attack on fairness and equality. Missourians have already rejected such overreach by enshrining reproductive rights in the state constitution. HJR 54 is a step backward, a betrayal of the trust voters placed in their leaders to protect their freedoms. We must stand firmly against this bill and honor the will of the people, ensuring that every Missourian can make their own health care decisions without fear or government coercion. HJR 54 has no place in our state, and we must reject it without hesitation.

Dear Members of the House Children and Families Committee, I am writing in strong opposition to HJR 54, which seeks to undermine Amendment 3—an amendment that was passed by a clear majority of Missouri voters to protect reproductive freedom in our state constitution. Any attempt to overturn the will of the people is an affront to democracy and disregards the fundamental rights of Missourians to make personal healthcare decisions without government interference. Amendment 3 was approved through a fair, democratic process because Missourians believe in the right to make private medical decisions without political interference. By attempting to undo this constitutional protection, HJR 54 not only disregards the will of the people but also threatens the autonomy and dignity of individuals who deserve to make choices about their own bodies. The people of Missouri have spoken. Their voices should not be ignored or overridden by political agendas. I urge you to respect the outcome of the democratic process and oppose HJR 54.

This bill is evil. I don't say that lightly or without thought. To act with cruelty towards others is evil. To strip others off control over their own bodies is evil. This won't stop abortion, and it won't stop people from being trans. It will only make those people criminals. And what injury have they caused you that you would classify their actions as a crime? None. Their only "crime" is making you feel uncomfortable. And we don't make laws for the comfort of evil.

Reproductive health decisions should be made by a patient and their doctor, not politicians. Missouri voters chose to enshrine reproductive rights in the State constitution, so in attempting to limit those rights, you are acting against the will and interests of the people you are sworn to serve. Restricting reproductive rights also risks losing medical professionals, students, and businesses who choose to leave the state or not to come because of concerns over access to reproductive care.

I am one of the millions of people in the state of MO that voted YES on Amendment 3 and I expect, like all of the others that voted YES, that our vote be confirmed and solidified into law. The people told you overwhelmingly that we want lawmakers OUT of our reproductive conversations and decisions. Those decisions belong ONLY between family members and doctors. Women have the RIGHT to bodily autonomy and that includes deciding when to start a family. Women also have a right to SURVIVE when their life is in danger when a pregnancy turns into a medical emergency! The will of the people stands!! Strike down this unconstitutional bill.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Dear Members of the Committee, My name is Kristi Cook, and I strongly oppose HJR 54, a proposed constitutional amendment that would further prohibit abortion in Missouri. This measure not only strips away the fundamental rights of Missourians but also endangers lives, criminalizes healthcare, and disregards the deeply personal and complex decisions that individuals and families face. HJR 54 places politicians between patients and their doctors, preventing individuals from making medical decisions that should be theirs alone. Abortion is healthcare, and restricting it leads to dangerous consequences, including increased maternal mortality rates, the denial of life-saving care, and the erosion of bodily autonomy. Missouri already has some of the strictest abortion laws in the country, and this amendment would only deepen the harm, particularly for marginalized communities who already face barriers to healthcare. Furthermore, this amendment ignores the will of Missourians. We have seen that voters overwhelmingly support access to reproductive healthcare, including abortion. HJR 54 is an attempt to circumvent the democratic process and impose a narrow ideological agenda on all Missourians, regardless of their personal beliefs or circumstances. I urge this committee to reject HJR 54 and instead focus on policies that support the health and well-being of all Missourians, including access to comprehensive reproductive healthcare, maternal healthcare, and family support services. Thank you for your time and consideration. Sincerely, Kristi Cook

When the Supreme Court voted to end Roe vs Wade, the choice was given to each state to move forward how they see fit regarding the subject. Our beautiful state decided to take the initiative to the people to vote on in November of 2024. Our citizens voices were heard, and Amendment 3 was passed. The fact that our representatives are now attempting to go above the citizens and vote to approve a bill that blatantly spits in the faces of those who exercised their rights to vote the amendment in in the first place. This practice is beyond ridiculous. I understand if your personal beliefs don't fit within the amendment, mine wouldn't either if it had been voted down, but you can guarantee if I were a representative for our state, I would NOT over use my power and attempt to overcome the voice of the people. Secondly, if you do vote in favor of this, you'll need to also come up with some money and vote to increase state benefits, tax credits, child services, child advocacy programs, etc, because those systems will need all the help that they can get. Lastly, I'd like to have faith that our state representatives have the ability to put their personal opinions in check, and do their jobs. There are so many more things to be worried about for our state, than something the PEOPLE have ALREADY VOTED FOR! Thank you, Kristie Weidmann Springfield, MO

Abortion is health care! We the people went to the polls in November and voted to enshrine abortion rights into the state constitution. It is vile that Republicans are now trying to overturn the will of the people & ignore our voices because they don't approve of the choice we made. Last time I checked, the people of Missouri didn't care how the state politicians felt about their right to abortion. Denying abortion rights is shortsighted and dangerous for women. This bill is not about protecting life, if it were Missouri would be expanding health care coverage, subsidizing the cost of daycare and making sure all children had full bellies and a good education. Missouri does the exact opposite, which is why it is one of the worst states in the union to raise a family in. Religious beliefs, those without a uterus (who can't even find a clitoris) and politicians do not belong in the doctors office with any woman making sensitive decisions regarding her body or reproductive rights.

Missouri voters have spoken to this. The people of Missouri want FULL access to reproductive healthcare, which include the right to abortion. Abortion is a medical procedure that has been politicized at the detriment of women. You need to respect the decision of Missouri voters and keep your personal (religious) beliefs and politics out of healthcare.

I am a constituent from Springfield, MO. I am writing in opposition to bill HJR54. While I am pro-choice in general, more than that, I see big issues with the language proposed. Allowing exceptions for rape and infest is great, except that many women don't know they're pregnant yet at that point, and requiring the reporting of the rape to law puts an unnecessary burden on victims. Often reporting to the law is not an option for many reasons, or women are simply afraid to do so. There are so many barriers to even being believed as a victim of an assault, requiring this as a criteria to be able to receive care and bodily autonomy is unfair and strictly against what the constituents have voted for. Missouri wants abortion access and approving this bill would directly go against the wishes of the people you represent.

My name is Dr. Kylie Vannaman and I am a family medicine physician, wife and mother born and raised in Kansas City. I am appalled at how much time and energy is being spent by the government trying to take away a women's right to bodily autonomy. Regardless of any person's beliefs on when life begins, the decision to have or perform an abortion is a complex medical and personal decision that is never taken lightly. The idea that the government should be in charge of making this decision FOR a woman or her doctor is misinformed and dangerous. I understand that those who continue to write these bills believe they are doing so to "protect life", without recognizing this is exactly what physicians like myself spend our life's work doing. There are simply too many gray areas to allow the government jurisdiction in areas in which they have not the expertise or experience. If you want the government making medical decisions, then what's the point of medical schools or hospital ethics committees? If you continue to take away the autonomy of physicians to provide care that is in the best interest of their patients, you will only exacerbate the doctor shortage, especially in primary care, which will lead to worse health outcomes for everyone. In addition to the above, remember, 1,538,659 Missourians voted YES on Amendment 3 and you were elected to defend those rights. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care. Do your job.

The majority of Missouri voters voted YES on amendment 3. I don't care how counties voted. I don't care how the bill sponsor or the entire Missouri GOP feels about it. I don't care if the bill sponsor thinks Missouri voters are ignorant and don't know what they voted for. I don't care what your bible says. I don't care what your religion says. I don't care about the supermajority party's fake concern over the health of women. I don't care about your "deeply held beliefs." I don't care that Representative Becky Laubinger felt compelled to state during the hearing that "sex education is when children are taught how to have sex." Lord, THAT was embarrassing. I don't care about Representative Tara Peter's made up story about "unknown" organizations asking to pay her for her signature at Jefferson City Wal-Marts over the summer. Okay, actually I do care about that. She needs to provide proof of such an egregious violation. I don't care that Representative Cathy Jo Loy's husband is a healthcare provider. He can discuss reproductive health with his own patients. That's not my concern. I don't care that Representative Jamie Gragg has convinced himself that he's "giving this back to the voters." We voted, Jamie. Try to keep up. What I DO care about is the fact that we voted YES for abortion rights. The bill sponsor lost on this issue and now she's throwing a hissy fit. Amendment 3 passed by a majority. Your job is to uphold our vote. Do. Your. Job. Vote NO on HJR 54.

In November, I voted to restore abortion rights to our state as did a majority of voters. So why, not even 6 months later, are YOU trying to take this right away again. This is more than just “killing babies”, this is ectopic pregnancies, this is rape, this is incest, this is coercion, and this is not healthcare. I am lucky to have never needed an abortion, but it is disgusting that our lawmakers clearly care so little about what MOST OF MISSOURI actually wants. Do the right thing and shoot this down.

My grandfather was one of four young brothers, all born within six years time. When his mother became pregnant with her fifth child, she became desperate and had a back alley abortion because no legal ones were available. She got an infection and died, leaving all of her remaining children orphans. This was not only a horrific experience for my grandfather, but it resulted in generational trauma. Please consider all who are affected by restricting women's access to healthcare.

The people have spoken! We want reproductive healthcare for women to include access to abortion if a doctor and patient agree that is the best course of action. What planet are you people living on where you think a victim of incest can report that to the police easily?! The reality of pregnancy whether incest, rape, complications to the mother's health, viability, and just plain choice are things you apparently have little knowledge of or care about. These healthcare decisions are private, difficult in some cases and very necessary in others. Get out of our bodies and get back to work on making Missourians healthier, safer, better educated and better able to take care of themselves!

House Committee members, I have spent most of my adult life fighting for women and the right to autonomy over your own body. There has never been a mandate on male masturbation. Isn't that an abortion of procreation? Abortion is a medical procedure that is not an easy decision to make. It is not taken lightly, and you live with the decision for the rest of your life, either way. It is a decision between a woman and her Dr., NOT the MO House of Representatives. There are a thousand reasons you could be faced with this decision. No one uses abortion as a birth control method (at least not until you get rid of the pill. I'm guessing that's next.) The voters passed amendment #3 on 11/24. Stop trying to undermine the will of the voters. Right to work, Medicaid expansion, reproductive rights; enough already.

My name is Lauren Hermann, and I'm from Kansas City. - 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights;- Reproductive Freedom is a Missouri value Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them.I support the right to abortion to protect myself, my children and my family. Four and a half years ago I almost bled to death, abortion medication helped save my life. If my care team did not have ready access to the necessary drugs I would have lost the ability to become pregnant again. It seems silly to say healthcare decisions should be made between a patient and healthcare provider, but in a world where non medical politicians are making decisions for me it bears repeating. Healthcare decisions should be made between a patient and healthcare provider.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

To the Members of the Missouri Legislature, I stand in opposition to this House Bill, which seeks to overturn the will of the people as expressed through Amendment 3. In 2024, voters across the state made their voices clear by passing Amendment 3, legalizing abortion and ensuring that the right to make personal medical decisions remains with individuals, not the government. The right to vote is fundamental to the democratic process, and when the people speak, their decision must be respected. By attempting to strip voters of their voice, this legislature is undermining the core values of democracy. Missourians have already had their say on this issue, and it is not the role of this legislature to ignore or override that decision. Instead of moving to restrict the rights of the people, I urge you to respect the democratic process and uphold the will of the voters. This bill represents an attack on our collective voice, our rights, and our freedoms. I ask you to stand with the people of Missouri and reject this measure. Thank you.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

If I had a story about having an elective abortion, I would share it. I don't have that story. Instead, I have other stories. I'm tired of women having to share their trauma publicly in order to challenge abortion prohibition, but here we are. I also hesitate to tell my stories in this context because I am wary of the approach of trying to point out the effect of these laws on wanted pregnancies and infertility treatments, because that suggests some kind of moral test where there shouldn't be—because abortion is health care. In 2012, I had an ectopic pregnancy. At the time, I knew that Catholic hospitals could restrict certain treatments for ectopic pregnancies, and I was thankful to have access to a hospital and a doctor who were affiliated with BJC and I never had to "wait and see," or feel as if my health and safety was secondary to a nonviable pregnancy. I also didn't have to think about the Missouri legislature when I was going through one of the most traumatic moments of my life. There are now stories from all across the U.S. (including Missouri) of women who were told to wait, or were sent home until their pregnancy was more life-threatening so doctors wouldn't have legal challenges. Time passes. More and more draconian anti-abortion laws are passed. As this happens, and as the most extreme "Personhood" amendments are proposed (that dictate a fertilized egg is a person), treatment of and suspicion around miscarriages rise. Life-threatening pregnancies involve gray areas that doctors and hospitals don't know how to navigate. IVF is threatened. If a fertilized egg is a person, then IVF will be scrutinized and treatment could be dictated by these laws. (U.S. Senate Republicans have twice blocked bills that would protect access to IVF.) My stories include IVF and multiple losses, which become politicized and potentially even criminalized in places with extreme abortion bans. In August 2022, weeks after Roe v. Wade was overturned and Missouri's trigger ban went into effect (prohibiting abortion, even in cases of rape or incest, and only allowing for medical emergency, which is vague), we got the closest we would ever get to a successful pregnancy. However, growth stopped and the heartbeat slowed. As we drove to what we knew would be the last ultrasound, I realized in a panic that I had to think about Missouri's abortion laws. That's what I had to think about in that moment. I had to hope for no heartbeat so I would have options for miscarriage management. When I think of these experiences—the most traumatic experiences of my life—I cannot believe that I live in a state where women and medical practitioners are not trusted. Amendment 3 changed that. Our rights should not be dictated by geography. Do not overturn Amendment 3. The voters spoke. Extensive research: <https://mffh.org/news/the-health-impacts-of-missouris-abortion-ban-cannot-be-ignored-2/> Missouri is seeing a sharp decrease in OB/GYNs applying for residency in the state: <https://missouriindependent.com/2024/06/04/missouri-ob-gyn-residents-maternal-health-abortion/increasing-criminal-charges-against-women-who-have-miscarriages/> <https://www.pbs.org/newshour/show/the-increasing-risk-of-criminal-charges-for-women-who-experience-a-miscarriage>

Access to reproductive care is **ESSENTIAL** to the health of women and families. Any restrictions, whether gestational timeline, reason for need of care, or others, is a detriment to women. This is about medical care which should be decided by a woman and her doctor, not a politician. If a woman's morals, religion, or social stance lead to a decision in the case of an abortion, that is her right. Allowing exceptions to care only muddies the waters when it comes to **TIMELY** and safe reproductive care. Ignoring the vote of the people is absolutely abysmal and it's embarrassing that we are, once again, having to defend our own rights as human beings.

I am testifying in strong opposition to HJR 54. I support the right to choose abortion as part of a person's reproductive rights. Abortion may be the right choice for someone, and should not require a medical emergency, fetal anomaly, or a report of rape or incest. Requiring a person to report rape for investigation in order to receive an abortion may be dangerous or impossible. Legal investigations for rape can be traumatic and humiliating, and may put that person at risk of further violence and abuse by a partner if they are unable to leave. In no instance other than pregnancy would a person be required to give up parts of their physical body to sustain the ability of another being to live. I also oppose the part of HJR 54 that would prohibit gender affirming care for minors. Youth, their families, and their healthcare providers should be able to determine, with informed medical consent, what treatment is the right choice for that person. I am a 23 year old woman, and the idea of being pregnant terrifies me. It is not only the thought of having a baby, but being pregnant. People treat you differently when you are pregnant. Your body is not seen as your own, but as a carrier of something potentially more important than you. People look at you, ask to touch you, give unsolicited advice on your health, and judge whether you are a worthy person. My mother had postpartum depression, and I believe I would be the same. Being pregnant at this point in my life sounds torturous. Please support my ability to make my own reproductive choices.

As a young woman, I believe that having the right to healthcare is incredibly important for Missouri citizens. Abortion has become a wildly popular topic in politics as of lately, and I feel compelled to say my side of the debate. Abortion was something our mothers, grandmothers, or great grandmothers all fought for in 1973. Women are a powerful force and clearly, the government feels intimidated by us. We deserve the right to choose. We deserve the right to privacy with OUR BODIES. We deserve to feel safe in the hands of the government and its officials. I am pleading with the officials to not allow abortions to be banned. If the government cannot allow a woman to get an abortion for a medical emergency, or frankly any other reason, then that is a clear sign to me that the government does NOT care about women's health. If this were happening to men, it would be so different and that is a fact. Please, please, please, let's not argue about what's "right" or "wrong" when it comes to morals. This is about healthcare. Not morality. Please consider my statement and other people that are standing with me on this.

I want my Granddaughters to have control of their bodies in making medical choices. In passing Amendment 3, we used our vote in this democracy to pass abortion rights by a majority. The people have spoken. Amendment 3 passed. In a democracy when we lose, we lose. I heard a State Representative say that he was going to try to overturn Amendment 3 because it wasn't good for me and others voting for it I am 74 years old and I am allowed to vote and make my own choices. Abortion is a medical procedure. We live in a democracy not a dictatorship.

A lot sounds good, esp as a friend with tragic complication needed an abortion (induced labor) of her doomed, struggling fetus to prevent her getting a deadly infection, but for rape victims having to report to a law enforcement agency to investigate the complaint at least 48 hours prior to the abortion, does the attacker need to be charged and found guilty first - that takes a long time so please specify and have mercy on the victim. Also, you know rape victims are often terrified and ashamed to report - or threatened about reporting.

We the people (remember those words??) passed a bill in November to establish the Reproductive Freedom Amendment. Why can't you listen to the people of Missouri and their voices. It's called a democracy. It is not your place to tell a woman what she and her doctor agree on. You are there to listen to your constituents and we have spoken. Shame on you!!!

I am not "pro-abortion". But I am pro democracy and pro privacy. Voters passed amendment 3 and, apparently foolishly, believed their legislators would respect the results of that vote. I was one of those voters. Do not suppose that I am ignorant of what I voted for, or presume that you have more expertise. I do not believe that anyone in Jefferson City has the right to insert themselves into private discussion and decisions between a woman and her health care provider. I don't believe any medical provider should be afraid to care for any patient because someone with no direct knowledge of the situation thinks they are entitled to control a woman's life. Attempts to overrule a vote because you don't like the outcome tells me you are probably unfit for to hold office, because you can't be trusted to represent voters. You know these efforts would not do away with abortion. It would just go further underground and become more dangerous.

My name is Linda Martin and I live in unincorporated Saint Charles County. I oppose HJR 54, because Amendment 3 did not require any further clarification, definition, or structuring. A majority of Missourians voted in support of access to abortion and all reproductive health care. The majority of voters rejected government involvement in their personal reproductive health care. These decisions are between a woman and her health care provider. Period.

This amendment goes against what Missouri voters voted for. Is your goal to make election meaningless? That's not a democracy. if you leave it to the states, you must abide by what the states voted for. While I am personally against abortion, I do not want women dying because they can't get legal abortions. I do not want women dying in their cars outside of emergency rooms with miscarriages because someone deems that it's not a medical emergency when it is.

The people of Missouri made their intentions clear that abortion access IS health care and is a woman's constitutional right. Amendment 3 was on the ballot Nov. 5th, 2024. Missouri voted YES. There is no gray area here. In order to repeal this decision, a new ballot must be done to allow MO voters to AGAIN vote for a woman's right to choose. The audacity of you people trying to deny what has ALREADY been voted on by MO residents is disgusting. And the time and taxpayer money you are spending to fight on something that has already been decided is a misuse of taxpayer money. We should sue the proposers of this bill for wasting our money and time. JUST STOP IT, NOW!

This proposed amendment to the constitution is a draconian ban on abortions that will put many women's lives in danger. The people of Missouri just passed a women's health amendment that protects a reasonable right to women's health care including abortions. It was passed despite an effective misinformation campaign by the opposition. Respect the will of the people and leave women and their doctors in charge of their healthcare.

I am a Missourian who needed an abortion in my past. I have friends and family members who needed abortions in their past, and I know others will in the future. The need for safe, legal abortions is a fact of life for women and girls of reproductive age, and abortions save lives for those in desperate need. I could go through the various reasons for these needs, but the fact is, people's personal and medical situations are nobody's business but their own and whomever they choose to share them with. While one's religion may tell a person abortion is wrong, this is not a universal belief, we do not live under religious rule, and one person's right to practice their religion does not have jurisdiction inside the uteruses of other people. If you think abortions are wrong, you are free to not get one, and you are free to use your protected free speech to try to convince others to agree with you. But forcing another person to go through the considerable dangers and suffering that come with pregnancy and childbirth because of your beliefs is torture. I feel so strongly about abortion being a fundamental right that I was one of the many volunteers who spent countless hours gathering petition signatures to put Amendment 3 on the ballot. I personally turned in 308 signatures and spent hours each week working on this, going door to door. I talked to people who felt as strongly as I do about the fact that this should not be the decision of government at any level. I remember one woman who signed the petition in Chesterfield who said she didn't support abortion and was a lifelong staunch Republican, but she thought it should be on the ballot and not decided by legislators. Well, we got it on the ballot and the people have spoken. Respect the people's votes and respect their choices. Vote no on HJR 54.

My name is Lisa Nunley. I live in St. Louis Missouri and I have 2 daughters as well as a son. When ROE was overturned it was turned over to the states for states rights The citizens of Missouri spoke loud and clear and passed amendment 3! 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights! Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them

The people have spoken. Missourians want choice. Attempts to override that or find loopholes is shameful and unAmerican. When we have choice, we all benefit. Taking those choices away erode public trust, private decisions, and put legislators in the doctor's office. Remove yourself from this private, personal, difficult decision about healthcare.

When I needed abortion care over thirty years ago, it was safe and legal in Missouri. I have never regretted that decision and I cannot believe that women today do not have the same right to make decisions about their bodies and their lives. That's why I did everything in my power to see that Amendment 3 passed and why I urge you to respect the will of the voters and vote no on HJR 54.

As a long time resident of Missouri and a healthcare worker, I feel very strongly that patient autonomy in medically complex pregnancies (but also for all pregnancies in general) needs to be respected. While anyone who wants to undergo a medically complex pregnancy should be given all the resources necessary to make that experience as safe as possible, no one should be forced to undergo any experience, whether it be a surgery or sky diving or a pregnancy, that raises their risk of death, bodily harm, or loss of freedom above a level that the patient is comfortable with. Additionally, any law passed by this legislature barring the people of Missouri from executing their preferred vision of a state where abortion is legal and accessible is an open rejection of the people's will. As representatives and senators sworn to act on behalf of the people of Missouri, I hope this legislature thinks carefully about its support for this bill.

My name is Liz Wertz, and I am in strong opposition, as it directly impacts what voters just passed on November 5th. This bill is a direct attack on reproductive freedom and the right of individuals to make private medical decisions. These are private decisions that should not be legislated by politicians. Every person deserves to make choices about their own body without government interference. We know that restricting access does not stop people from seeking abortion care. It only makes it more dangerous. The medical community, including the American College of Obstetricians and Gynecologists, has repeatedly stated that abortion bans lead to worse health outcomes, delayed care, and even preventable maternal deaths. This bill is an overreach of government influence. Personal medical decisions should be made between a patient and their doctor. Every pregnancy is unique, and complex medical situations require compassionate, individualized care—not rigid laws that put lives at risk. If the goal is to support families and improve maternal health, we should be investing in comprehensive healthcare, paid family leave, affordable childcare, and economic policies that help parents and children thrive—not stripping away fundamental rights. I urge you to vote no.

I am 77 years old and remember very well the days before 1973 when abortion was illegal in our nation. So many women died! That is why I collected signatures on the petition to put Reproductive FREEDOM in Missouri's Constitution. I know many women who had to go to a hospital in Missouri before the Dobbs decision and have an abortion (a D & C). If the umbilical cord detaches from the uterine wall, the woman will bleed to death long before the fetal heartbeat stops. Right now in our nation, in states that have passed abortion bans, women are dying from lack of life-saving medical care. The CITIZENS voted to put Reproductive FREEDOM in Missouri's Constitution. The VOTERS have spoken!! Do not over-ride the voice of the people.

The people have voted. Amendment 3 is the law and should not be overturned. Women need to be able to chose what they want for healthcare. No one should told what medical care they need. That is between a woman and her physician. Stay out of our healthcare. There are many reasons why a woman may need to have an abortion and it should be her choice to make, not anyone else's. Leave Amendment 3 alone. I chose to have an abortion when I was 18 because I knew I could not provide for a child and adoption was not an option. My life would have been a life of poverty if I had not made that decision. That was right after Roe was passed in the late 70's.

This is a blatant attempt to disregard the vote of Missouri's majority. Reproductive healthcare should be treated like any other healthcare, where the treatment options are decided by the patient and the doctor — not an uninvolved third party. I implore you, for the good of Missouri women, for our mothers, daughters, sisters, wives, to not allow this bill to progress any further. Do not strip the autonomy and voice of Missouri women more than capable to making their own healthcare decisions. There will be grave consequences for these actions.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Hello, my name is Lynnea Wootten and I'm from Saint Joseph (64506). I write today to speak in opposition of HJR 54. In November 20204 1,538,659 Missourians voted YES on Amendment 3 and you were elected to defend those rights. It's disgusting to see elected officials work together to conspire against the majority of the constituents they represent. It's clear the will of the people does not align with your personal beliefs, so this joint resolution strives to undermine the will of our state. Reproductive Freedom is a Missouri value Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them. Shame on our legislature to not honor the will of the people. Our state should not be held hostage by the desires of the few.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

Missouri Jobs with Justice Voter Action opposes HJR54 because we believe in building a strong economy that supports workers and our families and in a democratic process that respects our priorities and honors our voices. Access to quality, affordable health care, including abortion, and protecting the ability of every Missourian to make health care decisions for themselves and their families are critical to strong communities and our economy. We agree with the AFL-CIO's 2024 statement: No one should feel like their doors of opportunity are slammed shut based on their pregnancy status. No one should worry about losing their paycheck or job to travel hundreds of miles to see a doctor. And no one should have their collectively bargained health care benefits infringed upon by laws that criminalize doctors and their patients. Over 1.5 MILLION Missouri voters have spoken clearly at the ballot: we support access to abortion and all reproductive health care; our politicians should be upholding these values not threatening them. Missourians deserve access to health care, including abortion, without interference from politicians. In a state with high STI rates and poor maternal health outcomes, elected officials at all levels should focus on improving public health, not inserting themselves into our exam rooms. Missourians should not be turned away from the emergency room or forced to flee the state to get the health care they need — they deserve access to abortion in their own communities, when they need it. Missouri voters are not "confused" - they don't want the politicians involved in their deeply personal, private health care decisions they make with their providers. Equal access to contraception and reproductive health care, regardless of where someone works or lives, is essential to workers' fundamental freedoms and economic security. We urge the members of this Committee to oppose HJR54.

I, along with a majority of other Missouri voters, voted for abortion to be legal here to allow women to decide for themselves what they want to do with their bodies. We have seen in other states with abortion bans a mass exodus of qualified, competent physicians as well as a rise in fetal and maternal death. Do not threaten women's bodily autonomy, and do not go against the wishes of the people of Missouri as codified by our recent vote in November.

My name is Maddy Molyneux, I live in University City, St. Louis County. I am writing today to testify against this bill, which is in direct violation of Amendment 3. Myself and countless others voted in favor of Amendment 3 and the overturning of Missouri's extreme abortion ban. Amendment 3 passed, according to the will of the people. This bill would completely ignore that expressed will of the people, acting in direct opposition to democracy and the democratic process. I cannot express enough my opposition to HJR 54. As a Missouri citizen, I voted in favor of Amendment 3, and expect that my vote and that of countless others is respected by this body and this government. Amendment 3 will save the lives of Missouri women. HJR 54 will put those same lives back in grave danger.

I'm testifying to strongly oppose this amendment. The people of Missouri voted only a few months ago and they decided that they wanted to protect their reproductive rights. To decide you get to overrule them is a slap in the face to your constituents. Moreover, this will hurt more people than it protects. Similar measures in states like Texas have shown that the "exceptions" aren't possible to maintain in practice, and that people with life threatening pregnancies will die. Don't pass an amendment that you know will leave your constituents to their deaths. Also, adding a little language prohibiting gender transition care is both dishonest and appalling. Leave trans kids alone until you've done a better job supporting all the children who live in this state.

The voters of Missouri passed the Reproductive Freedom Amendment on 11-5-24. Passage of this bill would disregard majority rule to overturn that election. The legislature should represent the expressed will of the people of the state, not impose their own beliefs to overturn it. Child gender transition care is not reproductive health and does not belong in the same HJR.

This amendment is an attempt to subvert the will of the people as expressed in the last election. The qualified voters of Missouri have clearly chosen to enshrine the right to abortion. Attempting to contest that, limit that, or nullify that goes against the democratic values the state and this country hold dear. It's a blatant attempt to exert control over women's bodies and impose the will of the few on the freedoms of the many. I'm disappointed in the state government for allowing this to move forward. Shame on you. In my experience, this will have catastrophic consequences for young, marginalized Missourians. I worked in KCPS and know students who were able to graduate because their pregnancies were terminated. I know Missourians who would likely face lifelong health repercussions if they were forced to carry to term. I know graduates of Missouri universities who would have had the course of their lives changed without abortion access. This action will harm women and harm our states democracy.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

At twelve weeks' gestation time, many young girls don't know they are pregnant. While I oppose abortion on a personal level, I know professionally that abortion is at times a medical necessity. Requiring a woman impregnated by rape or incest report that crime prior to her receiving an abortion, and especially that it be done w/i 12 weeks of conception is illogical at best and not realistic. Many of these rape survivors, and most impregnated females from incest, are young and emotionally immature. Most cases of incest are from a family member (or family friend) raping a child; to expect a young, scared, emotionally-immature and now-pregnant CHILD to even report the incest (or rape) does not happen, will not happen, and quite well puts that child in increased risk of physical harm and even death if she does report the crimes. Often the child is dependent on the rapist for food and shelter. I was raped by a close friend at age 20 and had an abortion. It turns out that a defect in my reproductive system would have killed the growing embryo and myself had that pregnancy continued. I found out I was pregnant at the end of my first trimester--right at 12 weeks. See the issues here? If we truly want to reduce abortions in MO, we need to provide MANDATORY sexual health education in our middle schools, both public and private (statistically lowers teen pregnancies). We also need to provide access to FREE birth control (also statistically lowers teen pregnancy rates, btw). And we need to support our teen moms and dads (and even younger!) with daycare, health care, and nutritional programs that help them remain in school and graduate while their infants grow healthy and strong. And we must FUND Planned Parenthood clinics that provide sexual education, guidance, and healthcare, as well as abortions. You want lower abortion rates? SO DO I--but we must educate our youth on their sexual health to help prevent unwanted pregnancies and STDs, and we must ALSO provide a safety net for at-risk girls, teens, students, and women. Thank you very (very) much for this opportunity.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am writing in opposition of HJR 54. Amendment 3 was supported and voted on by the people of Missouri with 51.6% of the vote to approve it. Representative Stinnett's comments that Missourians did not understand what they are voting for is incorrect. I knew exactly what I was voting for. Women deserve the right to control their bodies and make choices about their own healthcare without the government intervening. I am furious that politicians think they have a say in what we choose to do with our own bodies, especially with a such a sensitive and private matter. You do not know what a woman's, or child's, circumstances are for them to need abortion care. Since the overturn of Roe v. Wade countless have women have either lost their life or suffered from severe medical emergencies due to inaccessible healthcare. No woman should have to lose their life because they can't get the necessary healthcare to save it. Have you ever had to sit on the other side of the glass at the Child Advocacy Center to witness a child's account of rape from a family member? No? Well, I have. I was a child abuse and neglect social worker for many years. Do you really think a child is going to report a rape from a family member within 48 hours?! That is completely unrealistic and shows how disconnected our representatives are from victims of rape. Our representatives were elected to represent their constituents, and instead are knowingly going against what their constituents voted for. You are not doing your job! You are doing a great disservice to Missourians and to healthcare in Missouri. I strongly urge Representative Stinnett and other Missouri Representatives to consider putting yourself in the position of a woman or child who has to make that choice. You are taking away reproductive healthcare, NOT protecting it. You are harming and doing irreparable damage to women and children, NOT protecting them. The biggest mistake one can make is not to think it can happen to them or someone they love. I am extremely disappointed with the representatives that have been given the responsibility to take care of the people in their districts and state, because they are doing a horrendous job right now. You should be siding with what your constituents voted to support, not opposing it for your own personal reasons. Do not impose on people your own personal beliefs, because that is what this is. America is supposed to be about freedom. I'm seeing very little of it anymore for women and children.

Childrens and Families CommitteeChair: Holly JonesChairwoman Jones and Representatives of the Childrens and Family CommitteeOne of Action’s core values is that we apply a Black feminist lens to all of our work: our organizing is shaped by an analysis that recognizes the ways in which Black women are uniquely affected by discrimination and bias and centers their unique needs in any solution we offer. For that reason, Action believes in reproductive justice, and we are unapologetically pro-abortion. Among our most important and fundamental rights is the right to make decisions about whether, when, and under what circumstances to give birth or start a family.We stood with our partners in movement, Abortion Action Missouri, on November 5th, 2024, and celebrated the victory of passing the “Right to Reproductive Freedom” in the State of Missouri. We laughed, cheered, embraced one another, and shared tears of joy as we took in the gravity of the moment. June of 2022 was a fearful time in the lives of many Missouri residents; Roe V. Wade was overturned and within hours the attorney general enacted a trigger ban on abortions. The impact of these moves reverberated throughout the state. Those who utilized clinics such as Planned Parenthood as a means to receive routine health services due to a lack of access to additional spaces of care were now left to figure out how to tend to those needs because those clinics were shut down due to the removal of funding. Many who sought to have abortions were frozen in fear due to the possible risks of criminal punishment if they sought services in other states. Missourians were afraid, but they were also pissed. Pissed because it was clear to many across the state that their elected officials in Jefferson City weren’t acting in their best interest. Pissed because the state government was saying to them that they didn’t believe in bodily autonomy – in fact, they saw a state government that believed that the birthing people of this state should be criminalized for wanting autonomy of their bodies and their choices. And those people chose to fight back. Missourians used both that fear and that anger and collected signatures, attended rallies, called, messaged, and visited many of the members on this committee, and supported a ballot initiative that saw them gain their reproductive rights and codify abortion access in our state constitution. The passage of Amendment 3 represents so much more to Missourians than just abortion access alone. It also signifies that direct democracy works! That Missourians can have a direct impact on government and can truly shape the state they want to live in.The filing of this legislation suggests that this governing body doesn’t care that over 1.5 Million Missouri residents made their voices heard and voted in favor of Reproductive Freedoms for birthing people; that everyday citizens can’t make the best decisions for themselves and theircommunities and that they are willing to bully this state into a partisan political war with no consideration for the will of the people.We strongly encourage this body to vote no on HJR 54. Listen to the will of the people. Uphold Amendment 3.Marcel HagensPolicy CoordinatorAction St. Louis Power Project

HJR 54 would overturn the Reproductive Freedom Amendment that voters approved by majority vote on Nov 5, 2024. Overturning would dismiss majority rule and imposes the will of a minority, and as Missourians, we deserve to have our votes count. Legislators should be representing their constituents, not imposing their bias to overturn the will of the people.

This issue was already put to vote in 2024 with the majority of Missouri citizens voting against an abortion ban. To change the state constitution itself, taking away a woman’s right to choose goes against the vote ruling. Making abortion only possible in cases of incest and rape if a legal claim has been made is incredibly restricting, as most cases are not reported due to mental distress and societal shaming of the women. This does not account for young teens who are too afraid to come forward as well, nor does it account for instances where the offender is the sole guardian or parent and there is no other adult to help the young woman who has been forcibly impregnated. To then try and add restrictions on optional gender changing procedures is a further disgrace. At what point is it ok for the government to make decisions for an individual regarding health issues and at what point is it not? This is a very slippery slope. One of the great things about this country is the right to live the life you choose and follow your beliefs. The government allows the purchase and imbibing of marijuana and alcohol (essentially killing oneself and often indirectly others). Why is it on the issue of health, specifically female and transgendered (not male) citizens, that individuals are not given the right to make up their own mind? These issues do not harm people who are not having these medical procedures, directly or indirectly, it merely insults somebody else’s moral beliefs. If we truly believe in an America that allows its citizens the right to live their lives and follow their beliefs, it must apply to all people. Not just those with the most wealth, power, and fundamental beliefs. Taking away any individual rights regarding health, opens the door to other rights being taken away that might one day impact men as well. This sets a precedent, if one day a bill is proposed to ban viagra under the pretense of playing God, or to require vasectomies for unmarried men to reduce unwanted pregnancies and avoid future abortions. Let’s respect the vote results and stop trying to make moral issues a government issue. This is detracting from more important issues the government should be working on fixing, like healthcare system, education, affordable medicine, etc....

My name is Margaret Toigo, and I'm from St. Louis, MO. I am one of 1,538,659 Missourians who voted YES on Amendment 3– you were elected to defend those rights. I am six months postpartum and am overjoyed to have a healthy baby at home, but my journey wasn't so straightforward. I suffered an early miscarriage; thankfully, my body passed it on its own, but had it not, I would have needed a procedure to remove the dead tissue. Your attack on Amendment 3 is an attack on me and all persons like me of child-bearing age in this state. We ALL deserve the freedom to do what we want with our own bodies, and we ALL deserve access to equitable healthcare without having to worry about what's legal and what's not. Reproductive freedom is a Missouri value. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values, not threaten them.

As a Missouri resident who voted in November of 2024 to enshrine reproductive health rights in Missouri's constitution via Amendment 3, I am outraged that a bill has been proposed that would try and strip our voices as citizens in this area. As a woman, I have followed the various bans on abortion and have been horrified that women have suffered and died following untreated miscarriages and other complications, simply because some legislators think they have the right to make healthcare decisions that belong between a woman and her physician. If you manage to vote down Amendment 3, we will vote it back in and many of us will vote against those who did not respect the will of the people.

Hello Honorable Missouri State Representatives serving the people on the House Children and Families Committee, What is happening? Where are the people who accepted decisions made by the voters? I am an 81 year old mother of seven and grandmother of 17 upstanding adults who care about each other, my 15 young great-grandchildren, their friends and colleagues. You may not be as old as I, but I'm sure you have families, friends, and colleagues about whom you care. Do you tell them their opinion, THEIR VOTE, does not count? I don't and upstanding people don't! 1,538,659 Missourians voted YES on Amendment 3 because they care about others - family, friends, and colleagues. As our elected representatives, you should be doing everything in your power to implement Amendment 3! Please vote no on HJR 54 - Stinnett - Reproductive Health Care. Margie Richcreek

The limit on abortion now is fetal viability. Other limits on abortion are not necessary as Missourians voted for a right to make their own decisions about their own health care. The included language on transgender care infringes on the rights of everyone who may be actually involved in this care to promote the one sided agenda. of people not involved in these personal decisions.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

House Committee on Children and Families February 4, 2025 Testimony to Oppose HJR 45 Planned Parenthood Great Plains Votes (PPGPV) vehemently opposes House Joint Resolution 54, as it would enshrine into Missouri's constitution a dangerous, near total abortion ban and is completely contradictory to the voters' will to protect reproductive freedom in the state. Amendment 3, now in effect Missouri, states that the "right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted." This Joint Resolution is an affront to democracy and the will of constituents, including voters represented by the Sponsor and Representatives that support this dangerous amendment. The Resolution is a Direct Affront to the Will of the People. In November 2024, the majority of Missourians voted to ensure that access to comprehensive reproductive healthcare, including abortion, was protected and not infringed upon by the legislature. The people of this state added Amendment 3 to the ballot, through the petition process, whereby it passed by majority vote. Now, through this Joint Resolution, the majority party of the House of Representatives is attempting to circumvent the will of the people by proposing a constitutional amendment that would interfere in the patient-doctor relationship for more than 1 million Missourians of reproductive age. The people of Missouri lived under a near-total abortion ban and took direct action to restore their rights. The legislature should not politicize the people's call for private medical care without government interference. The majority party of the House of Representatives were elected to office to represent the citizens' interests and concerns in government, and yet this Joint Resolution purports that representatives know better than their constituents, including about their medical care and personal family decisions. The initiative petition process is an important function of our state governance as it allows the people to be heard when the majority party refuses to act at the behest of the majority of the state's residents. Rather than supporting the people who live in their districts and voted for Amendment 3, the majority party is sidestepping the people's vote. This Joint Resolution would amend Missouri's constitution to allow abortion care only in extremely narrow circumstances, effectively reinstating a near total ban. This HJR prohibits abortion except in the cases of medical emergency, fetal anomaly, rape, or incest. This HJR further limits the rape and incest exception by limiting abortion access by gestational age at 12 weeks and requires a police report at least two days before the abortion may be obtained. Medical Emergency Exceptions Deny Fundamental Rights to Many Patients, Put Lives at Risk, and Discourage Medical Professionals from Practicing in Missouri. Many emergency department physicians across the country in abortion restrictive states struggle to know when and how to provide abortions for their patients as state laws are not written in precise medical terms.¹ This lack of clarity has had a chilling effect on emergency department healthcare professionals as they fear they may be criminally prosecuted for performing a lifesaving abortion if a court determines their

professional judgment did not reach the vague qualifying exception to abortion bans.² Many doctors say that real-world pregnancy emergencies aren't always so cut-and-dried, in part because it can be challenging to determine just how close to danger a pregnant patient truly is.³ This fear puts people who are able to get pregnant at risk of life altering physical injuries and death, along with the mental anguish experienced by those who survive this egregious lack of care. Abortion ban legislation also has a direct impact on physician shortages across the country. In Missouri, physician supply lags behind patient demand, ranking in the bottom half of states for primary care and physician availability.⁴ In fact, 111 of Missouri's 114 counties are health professional shortage areas, which have 3,500 or more patients for every one provider.⁵ By 2030, Missouri is projected to be short 3,102 doctors. ⁶ In a national address on October 25, 2023, American Medical Association President Jesse M. Ehrenfeld, M.D., MPH, spotlighted the growing national physician shortage and corresponding health system in crisis, where he listed several ways to mitigate the physician shortage, including ending the criminalization of health care.⁷ The American Medical Association specifically points to states that have enacted total and partial abortion bans, along with states that have restricted or banned access to gender affirming care, as having a detrimental impact on the growing physician shortage. The American Medical Association stated that these types of laws, exactly like what is included in this Joint Resolution, is fueled by misinformation and a heated attack on science and evidence-based care and have forced government into the most intimate and difficult decisions a person can make.⁸ These types of laws have only exacerbated the physician shortage as they have made physicians and other health care workers the target of attacks and intimidation, have caused aspiring young physicians to reconsider where they will attend medical school and where they will ultimately practice, and they have needlessly jeopardized the health of millions of Americans.⁹ An Association of American Medical Colleges survey showed that Ob-GYN residencies dropped by 10% in states with abortion bans and 6% in states with abortion restrictions, with an overall drop of 1% in all specialties in states with abortion bans.¹⁰ A separate survey conducted by the American College of Obstetricians and Gynecologists of third and fourth year medical students supported these findings, finding that three quarters of these students said that abortion laws would influence where they would apply for residency and half said that abortion laws would influence which specialty they would apply to.¹¹ Current and would- be physicians recognize that abortions are necessary, potentially lifesaving procedures, and are not interested in practicing in states that restrict their abilities to provide necessary medical care.¹² Abortion ban legislation, like this Joint Resolution, has and will continue to deter people from learning how to be physicians and practicing medicine in those states. **Minors Seeking Gender-Affirming Care Deserve Life-Saving, Expert Treatment** In addition to attacking the health of patients seeking abortion care, the majority party members who support this legislation also put further at-risk minors – and the parents supporting them – who seek gender-affirming care from medical experts. The joint resolution creates duplicative, dangerous restrictions on critical, life-saving care. In 2023, the state codified egregious anti-trans legislation (SB 49), that banned transgender affirming surgery for minors and banned access to hormone therapy and puberty blockers for minors not already receiving medicinal gender affirming care. However, acknowledging that an exemption and additional information was required due to the legislature's lack of understanding of proper medical practices for trans-youth, current law allows minors who were receiving hormone therapy or puberty blockers prior to August 28, 2023, to continue receiving care, and placed a sunset on the ban of hormone therapy and puberty blockers for minors on August 28, 2027. This exception and sunset provision were legislatively agreed upon to ensure that care for minors already in treatment was not disrupted and to provide the legislature additional time to analyze the efficacy of a complete ban on gender affirming for minors. Notably, established medical guidance from the relevant national academies directly contradicts the legislature's interference in care. Still, the legislature now would use this joint resolution to permanently intrude on the patient-provider and parent-child relationships. This HJR has the potential to override the current exception and sunset provision at the detriment to trans youth. Anti-LGBTQ+ and anti-trans legislation has been shown to have detrimental impacts to the mental health of these communities. According to a recent study by the Trevor Project, nine out of ten (90%) LGBTQ+ young people reported that recent politics negatively impacted their well-being, with transgender and nonbinary young people reporting an even greater degree of negative impacts (94%), and nearly two out of five LGBTQ+ youth and their families reported considering moving to a different state.¹³ Constitutional amendments, which supersede all other state law, must be voted on by the people, and are usually accompanied by voracious voting campaigns, are only going to exacerbate and provide a heightened negative experience for Missouri's trans youth and their families. Gender-affirming care for patients under age 18 is considered best medical practice by major medical organizations—including the American Academy of Pediatrics, American Medical Association, and American Psychiatric Association.¹⁴ There is consensus in the medical community that gender-affirming care is medically necessary, safe, effective, and lifesaving. Specifically for youth under the age of 18, gender-affirming care consists mostly of access to mental health care, as well as puberty

blockers and hormone treatments—both of which are reversible. Moreover, the American Academy of Pediatrics has found evidence that denying gender affirming care may rise to the level of medical neglect and emotional abuse, as denial of gender affirming care has the potential to lead to physical and psychological harm and undermines a child’s self-worth and psychological development.¹⁵ Denial of gender-affirming care has been shown to contribute to depression, social isolation, self-hatred, risk of self-harm, and suicidal ideation and behavior. Transgender youth are more likely to feel depressed and anxious, harm themselves, or attempt suicide. Transgender and nonbinary youth are 2-2.5 times as likely to experience depressive symptoms, seriously consider suicide, and attempt suicide than their cisgender LGBTQ+ peers.¹⁶ Access to gender-affirming care—particularly puberty blockers—has been shown to decrease the likelihood of suicide and depression among transgender and nonbinary youth. Furthermore, individuals who are accepted and supported in their gender identity show better mental health and quality of life outcomes.¹⁷ Not only is gender affirming care for minors considered best practice among leading medical institutions, these institutions consistently oppose legislation that bans access to this life saving health care. The American Medical Association calls this type of legislation “dangerous legislative intrusion into the practice of medicine,” and emphasizing that it is “imperative that transgender minors be given the opportunity to explore their gender identity under the safe and supportive care of a physician.”¹⁸ The American Psychiatric Association “opposes all legislative and other governmental attempts to limit access to [mental health support and gender-affirming care services] for trans and gender diverse youth, or to sanction or criminalize the actions of physicians and other clinicians who provide them.”¹⁹ For these reasons, we firmly urge the Children and Families Committee to oppose and hold the House Joint Resolution 54. The people voted yes to amendment 3 and this is going against the people of Missouri, against women and families. Government has NO business in my doctor's office. This bill does NOT have the best interests of women and family health but rather a way to control women's bodies and choices. Why not introduce a bill that forces men to have vasectomies? Because it's as ridiculous as this bill is. Keep politicians corrupt moral values out of legislation and listen to the people. This bill implies women cannot be trusted to make decisions about their own health. The people voted and passed amendment 3 period!!! I've had close friends have to make choices that affected their health and I can't imagine if they had to make those choices with the government blanket prescription as to the choices women should have!!! This is not the business of politicians. Do not legislate women's bodies until legislating men's bodies as well.

Hello, my name is Marie Olear. I live in Boone County and I am strongly opposed to HJR 54. I feel like there's been a strong focus on women who have suffered from sexual violence, but I would like to ask what of the women and people who can reproduce that simply do not want a child? What right do others have to infringe on my rights of the pursuit of life, liberty and property? In response, I know you will say "what about the fetus' rights?" I would respond that if a fetus were truly regarded as a child then the law would reflect that. If the law recognized a fetus as a child then people would have the ability to take life insurance out the moment they conceived. Women would be able to receive child support dating back to the moment of conception. So, we've determined that the law doesn't recognize a fetus as a child. Then, the purpose of HJR 54 is to restrict women and people with the ability to reproduce's rights. To take it further, I believe that HJR 54 chiefly exists to punish women who want to exorcise the freedom of abortion and not be unduly burdened by raising a child or the strain of carrying a fetus to term. Whether or not adoption is a viable option does nothing to make up for the mental and physical strain that pregnancy entails. You said in your own words (to summarize) that your definition of reproductive freedom is to protect women who have been raped or in the instances of "fetal anomalies," primarily stillbirth and that's it. So, in your mind, it takes the action of my right to consent being taken away before I have to bear the burden of childbirth. This type of bill sets a dangerous precedent. I know that you will say that the answer to preventing pregnancy is abstinence. But having sex is my right (if all parties consent). And if you agree that we have the right to consensual sex, then you should believe that healthcare to treat the side effects of sex is my right, just as there is care to treat sexually transmitted diseases. Just as I have the right to get obese and have a gastric bypass surgery for weight loss. Unless you do not believe that any treatment for the side effects of sex should exist and should only exist in cases of rape (where the right to consent has been taken away) then your reasoning for this bill is misaligned. Someone at the hearing today said that this bill is for the right to decide, but it is NOT for the individual to decide, it is for people to make a decision FOR someone else.

The League of Women Voters believes that public policy in a pluralistic society must affirm the constitutional right of privacy of the individual to make reproductive choices. A recent League resolution reaffirmed this long-held commitment to fight for reproductive rights and justice, including bodily autonomy, privacy, reproductive health, and access to contraception and abortion. The League supported Amendment 3. HJR 54 would overturn that amendment on Reproductive Freedom which voters approved by majority vote on Nov 5, 2024. This proposed HJR dismisses majority rule and imposes the will of a minority. Missourians deserve to have their votes count. Legislators are supposed to represent their constituents, not their personal bias. Among the many concerning provisions of this resolution, it would require a victim of rape to report the rape to law enforcement before getting an abortion. This can be problematic for a variety of reasons, for example, the location of the rape. This HJR adds an unrelated subject, gender transition surgery, to the principle subject (abortion), which goes against the single subject rule. The League of Women Voters opposes this joint resolution.

It is a waste taxpayer money and time to overturn an amendment that the people of Missouri voted for and approved just last year. Respect the will of the people. Abortion is a medical procedure that is not entered into lightly by anyone that needs or chooses to use it. Access to this procedure saves women's lives in Missouri and keeps quality health care providers in the state. Your unrealistic timelines proposed in this bill are not founded in science and are simply set to make sure fewer people would be able to meet those restrictive timelines. I also find it highly inappropriate to try to tie transgender rights and medical procedures into this bill. It is a twisted ploy to muddy the waters on the topic at hand for either of these things. I would like to see the representatives stand down and respect the voice of the people as put forth last year.

The people voted to end the state's tyrannical control over women and their bodies for good fucking reason, because its unconstitutional and is based on an old book from a religion I and many others do not believe in whatsoever and am not apart of. What gives your beliefs and religion priority over ours, especially when opposed by a democratic vote from the state's citizens? You are free to follow your religion and live by its writings, you are not free to force it upon the rest of us. What's the point of civil democracy if those in power just do whatever they want and overturn our direct votes and will? This "resolution" is nothing more than a lazy, illegitimate, transparently corrupt attempt at bypassing the citizens direct voting. You took an oath to your people, your state, and presumably on a bible and to your god that you would follow your duty to us and uphold the people's will. Maintain what little honor and dignity you have left, and stick to that oath. Oppose this resolution and follow the people's will, don't give people reason to doubt democracy.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

The people of Missouri spoke clearly when they voted in favor of Proposition 3. Abortion is a necessary medical procedure that the government should not have a say in. Furthermore, religious beliefs should have no part in government. If an individual does not want to pursue an abortion due to their religious beliefs, they are free to do so. However that individual's beliefs should not hinder another person's options. On the topic of minors receiving gender affirming services, this should be determined by medical professionals, not the government. To my knowledge, no one proposing bills or laws such as these has studied medicine or psychology, particularly in regards to transgender individuals or children. To assume one knows better than trained professionals is ignorant and dangerous.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

This proposed constitutional amendment is so NOT in the interest of Missourians for so many reasons.1. It excludes people in poverty of health care access and resources to secure necessary medical treatment in a way that meets the timeframes mentioned.2. While the bill offers some recognition of a woman's reproductive complexities, the complexity of mixing issues in this constitutional amendment suggests duplicity and cumbersome execution. Apples and oranges on too many levels.3. If the intention is to prevent abortions so that a viable child might be born, it seems this bill would do the opposite, and actually entice fewer pregnancies and thus fewer viable births in the state of Missouri, let alone that there would be financial and human capacity to raise the child in a physical and mentally healthy way.4. No legislator can know what any individual's physical condition is, and the time necessary to act does not match this bill's language.5. For a state that is seeing an ever-growing desert for health care services, including physicians who are subject to undue paperwork hours and and subjective accusations leading to suit and judgments costing loss of license, this piece of legislation does nothing to entice businesses to bring their staff to this state. I have already heard many people say to others out-of-state, "while this is a beautiful state, don't move here" solely because of its lack of respect for women's health and support for physicians/nurses.6. Missourians have already spoken on this issue! They value reproductive health for women, with respect for physicians and families to know what is best for all; this ability and right for each individual to think and make the best choices is freedom.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Abortion must be safe and legal. Restrictions that block rights to safe legal abortion put women and children in terrible danger. Yes children. As a counselor I have encountered more than one person under the age of 18 who was pregnant and seeking an abortion. The youngest was a 12 year old with intellectual deficits who was impregnated by a family friend. **DO NOT** make children bear children. Unintended pregnancy leads to unwanted children who may well suffer abuse, neglect and other harm. Finally, I would ask lawmakers why they feel they are able to make blanket decisions for Missouri women. If you do not know the circumstances and you are **PERSONALLY** unwilling or unable to adopt every child born due to lack of abortion services then you have no choice but to make abortion safe and legal again.

As a voting citizen of Missouri, I am writing in strong opposition to HJR 54. This proposed legislation would negate the voice of the people of Missouri who made it clear at the ballot box that we support a constitutional amendment to access to abortion and all reproductive health care. Our government and its elected representatives should reflect those shared values. Missourians have demonstrated that reproductive freedom is a Missouri value with 1,538,659 Missourians voting YES on Amendment 3. You were elected to defend the rights of the citizens, not override them. I vote in every election and am committed to maintaining our democratic system as an election judge. I will be watching to see if this right is eroded that is a clear violation of our Missouri constitution.

HJR 54 is not only an insult to the Missouri people, but democracy overall. When Roe v Wade was overturned, a major argument was that it should be up to the states to decide what is best for their population and what aligns with their own values. Missouri chose to put Amendment 3 on the ballot to let its people decide on the status of reproductive healthcare in the state. The people of Missouri chose to enshrine Amendment 3 into its constitution. The attempt to pass HJR 54 is a blatant insult to the majority of people in this state and it sets a very dangerous precedent for the future of elections. Should HJR 54 pass, it begins a precedent of elected officials ignoring the results of their elections and thus ignoring their constituents for self interest. How are the people of Missouri supposed to trust in their government and elections if you allow HJR 54 to proceed forward? Many voters, myself included, do thorough research before going to the polls. We know what we are voting for and why. I understood Amendment 3 and still voted "yes". I voted "yes" because I trust women to talk to their healthcare providers to decide the best course of action for them and their family. I believe that women shouldn't live in fear when they need health care, but they cannot receive it due to government interference. I value women's bodily autonomy. I hope that the Missouri House of Representatives, even if they do not agree with my reasoning for voting "yes" to Amendment 3, can at least respect our democracy and the Missouri people by opposing HJR 54.

At least the author of this bill has some background in healthcare, however not obstetrics. I object to this bill for two reasons: 1- It overturns Amendment 3 passed by IP in November 2024. 2- It deals with two topics, i.e., abortion and gender affirming care. They are two separate issues. It is my understanding that legislation is meant to cover only one topic for each bill.

Missouri voters have spoken on this issue. HJR 54 is a deceptive attempt to narrow Amendment 3, which was approved by voters only three months ago. The decision to get an abortion is as complex as the life situations of pregnant women. HJR 54 seeks to pretend that rape, incest, and medical emergency are the only life situations that should affect that decision. This simply isn't true. ALL women deserve to make their own reproductive choices based on their specific life situations. The Missouri legislature should respect the will of their voters.

First, we already voted about reproductive healthcare. Stop wasting taxpayer time and money to undo the will of the voters. Second, "medical emergencies" is too vague. Too many women have already died in states with "medical emergency" exemptions. Some of their names are Candi Miller, Amber Thurman, Josseli Barnica, and Nevaeh Crain. Third, the rape and incest exemption is unkind. Women who are scared, who can't report rape, who are in victimized situations, should not have to report and relive their experiences to get needed healthcare. They did not "make a choice" to get pregnant, and you don't have the right to choose for them. Stop micromanaging women's health. I don't ask about your penis, do I? I don't ask if you've had a prostate exam, or whether or not you take Viagra, or how many people you've slept with, do I? Of course not. It's not my business. My reproductive choices are not your business.

As background, among my degrees, I hold a Bachelor of Science degree in nursing. I practice as a registered nurse and am the mother of two adult sons. I oppose HJR54 because for all intents it will ban abortion in Missouri. As a registered nurse I have cared for women who have made the heart breaking decision to end a pregnancy. These decisions were made at various gestational stages and for a multitude of reasons. What happens during pregnancy is complicated, personal and should not be dictated by law. There is no circumstance in which a politician should decide if or when a pregnancy can be terminated. Decisions of reproductive healthcare are highly complex, personal, and lie strictly with the mother and her physician. This bill's attempt to define medical emergencies, fetal anomalies, and complications is woefully inaccurate. They are neither scientifically or medically sound. It is not possible to account for all maternal complications in a single piece of legislation. During a time of maternal crisis, which legislative body will get to decide if or even when a pregnant woman can receive life-saving care? The 12 week gestational age specified in HJR54 is medically irrelevant. What exception do you propose for women who suffer a pregnancy-related medical emergency after 12 weeks gestation? In the event a woman suffers a catastrophic, spontaneous miscarriage after the first trimester, HJR54 would prohibit her from receiving life-saving care. HJR54 is a dangerous bill that, by denying care, could effectively result in some women being unable to bear future children and perhaps even dying. Abortion bans don't exist in a vacuum. They're part of a broader system that fails women in multiple ways. Passage of HJR54 will criminalize physicians for providing nationally recognized standards of care. OB/GYN physicians are already closing practices and/or leaving the state. My own physician has announced he will no longer provide prenatal care or performing deliveries. HJR54 will create a maternal health desert in Missouri. Women will die. HJR54 completely discounts, the value of a woman's life beyond her ability to have babies. The sections pertaining to gender reassignment treatments and surgeries is laughable. How do you intend to legislate a person's identity? It is clear that HJR54's language referring to hormonal therapies will also be used to ban birth control. In closing, may I remind you that you were elected to represent your constituents not your beliefs or special interest groups. With the passage of Amendment 3, Missourians made it clear that we support access to abortion and all reproductive health care. Our government should reflect these shared values not threaten them. The citizens of Missouri have spoken with a resounding yes on Amendment 3. Vote no on HJR54.

I am a Missouri citizen and research scientist in the Department of Physics at Washington University in St Louis. I strongly disagree with HJR 54. Missourians voted for Amendment 3, agreeing to establish a right to abortion established in our constitution. It is very clear from the summary of HJR 54 that it is in complete contradiction to the will of the majority. The majority of Missourians want women to have an unrestricted right to abortion at least up to the point of fetal viability. I agree with the majority.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

February 4, 2025 House Children and Families Committee Opposition to HJR 54 House Joint Resolution 54 contains the language, "In the case of abortions performed or induced in cases of rape or incest, the abortion may be performed or induced no later than twelve weeks gestational age of the unborn child and only if documentation is presented to the attending physician that the rape or incest has been reported to a law enforcement agency that has jurisdiction to investigate the complaint at least forty-eight hours prior to the abortion." The vast majority of sexual assaults are never reported to law enforcement. Research from the U.S. Department of Justice indicates that rape is the most under-reported crime; 63% of sexual assaults are not reported to police. There are a variety of factors that contribute to a rape and/or incest survivor not reporting to law enforcement. It is common for a sexual assault survivor to experience internal feelings of guilt and shame after the assault. Disclosing the assault to another person is difficult on its own, but can be especially difficult to recount details of the assault to police. Additionally, the relationship to the perpetrator contributes to a victim not reporting to police. The vast majority of sexual assaults are perpetrated by someone the victim knows. This can be a family member or friend, coworker or classmate, even a current or former intimate partner. Power dynamics, fear of retaliation, fear and uncertainty of what could happen next all contribute to a victim not reporting the assault to police. The Missouri Coalition Against Domestic and Sexual Violence (MOCADSV) is opposed to HJR 54 because it takes the choice of reporting rape and/or incest away from the survivor. Survivors of sexual abuse should be allowed to disclose abuse and recover from trauma on their own timeline and terms, without having to report to law enforcement in order to access reproductive healthcare.

Access to reproductive care is **ESSENTIAL** to the health of women and families. Any restrictions, whether gestational timeline, reason for need of care, or others, is a detriment to women. This is about medical care which should be decided by a woman and her doctor, not a politician. If a woman's morals, religion, or social stance lead to a decision in the case of an abortion, that is her right. Allowing exceptions to care only muddies the waters when it comes to **TIMELY** and safe reproductive care. Ignoring the vote of the people is absolutely abysmal and it's embarrassing that we are, once again, having to defend our own rights as human beings.

In opposition to HJR 54, which attempts to undermine Missouri voters passing of legalizing Abortion rights in the last election, this law is disrespectful of our American election system and laws. The greater intent to protect families choices, economic independence, and biological autonomy must be preserved for all genders. Politicians at every government level do not have the medical credentials and experience to legislate an individuals medical care. This oversight must be reviewed by qualified and experienced expert physician committees who prove their are unbiased in regard to political and corporate interests. Our population decline is being negatively affected by criminal abortion laws, exacerbating the social crises harming families who are too fearful, making it harder for them to become functional parents and families. Having raised a family myself, and assisted families professionally and recently those in crisis, this matter will escalate beyond what most government officials are able to manage in the near future if they keep legislating to harm women and families freedom of bodily autonomy.

We are very angry that the Republican legislature is again trying to thwart what the citizens of the state voted on in Amendment #3! Your hypocrisy is so blatant in your disregard professing "Pro-Life"! Yes, the child's life is important, but isn't the life of the mother just as important? As long as there are men who rape their daughters, wives, friends and others unknown to them, you will have abortion. When you banned all abortions, you took away good medical healthcare for women and girls who are pregnant. You are sending women and young girls to places seeking unsafe ends to a pregnancy. How can you call yourselves "pro-life" when you want to keep women and young girls from receiving necessary proper health care. I wonder how you sleep at night. We demand that you stop trying to pass HJR 54 and honor the voter's message that they voted on with Amendment #3, which states women and young girls have the right of choice in their medical and health care decisions and the freedom of an abortion if necessary. Maxine and Ken Horgan from Mountain View, Mo.

My name is Megan McCarthy. I am a resident of Ballwin, MO and a constituent of Rep. Jones. In November 2024, over 1.5 million Missourians, including myself, voted yes on Amendment 3 and restored our right to access safe, legal abortions in Missouri. Allowing HJR 54 to move forward would undermine the voice of Missourians and the democratic process. Legislators must respect the outcome of this ballot initiative and stop pushing bills like HJR 54. Bans on abortion affect health care for women in so many ways. Last year my sister-in-law discovered she was pregnant with her third child, but early on it was clear the pregnancy was not viable. She and my brother were devastated. They decided, at the advice of her doctor, to get a DNC. In order to get this procedure done, she had to wait multiple weeks because the hospital system was so concerned with legal action under the abortion ban, though all evidence already pointed to an unviable pregnancy. She had to endure THREE invasive transvaginal ultrasounds and live with ongoing pregnancy symptoms including morning sickness and fatigue because her body had not yet recognized the embryo had stopped growing. This took an unnecessary physical and emotional toll on her when all she wanted to do was heal and move forward. Please honor the votes that were cast in November in support of Amendment 3 and respect the right of Missourians to make private medical choices for themselves and their families. Please help constituents, like my sister-in-law, avoid unnecessary suffering. Please stop HJR 54. Thank you for your service to our state and your time.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Missouri voters have already made their voices clear, but state legislators and lobbyists have made it clear that they do not respect the will or voices of the people of Missouri and do not respect the democratic process. Amendment 3 was approved and voted into law by the majority of voters and additional restrictions are being put on the ballot in bad faith with the use of unrelated issues to receive and undermine voters. I oppose HJR 54 and encourage the legislation to honor the clear voice of the people they represent and the due process of the law that was carried out on election day.

My name is Megan O'Brien, and I live in the city of St. Louis. It is incredibly disheartening that now, just a couple of months after the passage of Amendment 3, the Missouri legislature is already using their power to overrule the will of the people. I was involved in all aspects of the campaign to enshrine abortion as a legal right in the Missouri constitution: signature gathering, voter outreach, and of course voting yes on the amendment. To say that voters did not know what they were signing or voting for is an abject lie and quite frankly insulting to the very people whom you claim to represent. 1,538,659 Missourians voted YES on Amendment 3. We knew what we were voting for. Amendment 3 drew bipartisan support from all corners of our state, and that is because voters believe that abortion should be a legal right enshrined in our constitution. This legislature needs to respect the will of the voters and stop trying to overturn Amendment 3.

We are all endowed by our Creator with the unalienable right to liberty (the state of being free within society from oppressive restrictions imposed by authority on one's way of life, behavior, or political views). HJR 54 deprives Missourians of that right and overturns the will of the people who have affirmed bodily autonomy as essential for all. This dangerous resolution further overreaches by introducing a prohibition on gender-affirming care for minors, which is a separate matter entirely. 1,538,659 Missourians, myself included, made our voices clear at the ballot box last year by voting yes on Amendment 3 after carefully considering the proposal. The majority of our citizens support access to abortion and all reproductive health care as stated in the amendment. Medical decisions should be up to individuals, their doctors, and their families to decide without government intrusion. It is NOT the role of elected representatives to make medical decisions for their constituents. It is our representatives' DUTY to respect the will of the people, especially when they have made a clear democratic choice by citizen-led constitutional amendment. The voters made this majority decision only a few months ago and have not asked the legislature to bring this matter to a vote again. I volunteered my time every week to educate my fellow Missourians about Amendment 3 so they were better able to make an informed choice on election day. The suggestion that I, or any Missourian, didn't understand what they were voting for, is insulting. We dutifully examined the merits of the amendment as proposed. It is well past time for our representatives to get to work FOR the people who elected them, instead of wasting time and tax-payer money trying to overturn the democratic will of their constituents. I urge you to fulfill your duty and vote NO on HJR 54 and preserve the will of Missourians. Thank you for your time in reading my testimony.

As a Missouri citizen, I am opposed to this bill. First of all, Amendment 3 was passed and shows the will of Missouri voters. Even when we as citizens do not like the outcome of the vote, we must still respect and uphold the will of the people. HJR 54 makes no sense given the will of the people of this state. Additionally, this bill is problematic. I believe reproductive health decisions should be made between a woman and her physicians. Not the state. I also believe most women would like to avoid abortion BUT are denied access to care, struggle with institutional poverty, and are at the mercy of a system that does not value them or their future children. I urge lawmakers to consider that what would actually support women and children (and arguably decrease abortion) is better health care, better childcare options, and more support for women in general.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

In November 2024, Missouri voted to protect the right to abortion. For this reason alone, it is disturbing to me that the Missouri legislature would find it appropriate to overturn the will of the people through HJR 54. Additionally abortion is healthcare. HJR 54 allows a third party, politicians, who more often than not have no background in healthcare decide what's appropriate for a pregnant woman to do with her body while her doctor's expertise might be completely ignored and even punished by the state. This puts women and babies at higher risk. As we've seen in Texas, at least three women have died due to the abortion ban in place there. All of these deaths were completely preventable, as all doctors agreed that an abortion was needed in these cases but they had to opt for less effective routes of treatment to avoid punishment. Texas has also reported a 13% rise in infant mortality since the ban was enacted. I could name statistics like this all day, but at the core of it, there is no reason that a politician should have any say in a woman's right to bodily autonomy. This isn't a question for men, and certainly should not be for women. There is no lawmaker that can know a woman's body better than herself. There is no lawmaker that can know a woman's financial ability to raise a child better than herself. There is no lawmaker that can know a woman's desire of whether to bring a child into this world or not better than herself. None of this can be decided for her, it can only be decided by her. Missouri women on all sides of the political spectrum know this, which is why the majority of them voted to protect the right to safe access to abortion. If Missouri lawmakers are interested in lowering abortion rates and increasing the birth rate, I urge them to study up on how abortion bans historically have had the exact opposite effect. I also urge them to look to other countries and how their policies incentivize an increased birth rate by giving their citizens safe access to abortion, paid maternity leave, free or low cost childcare, affordable housing, tax credits, and education reform. Above all I urge the Missouri legislature to oppose HJR 54, a cruel and ineffective law that is in direct opposition to what was already decided by the people through democratic means in November of 2024.

I am the mom of four kids, three of whom I gave birth to. In each of my births I faced scary complications that would have lead to my death if not for my medical team making quick decisions. Those moments were the scariest of my life, where I feared for my life and thought i would lose everything. I came out on the other side because of my medical team. The decisions that were made and the actions taken were between myself and my doctors. I am so incredibly grateful to not have had to suffer from a miscarriage or need an abortion for any reason. But I can't imagine any world where we would take these medical decisions away from women and their health care providers. Our lives depend on it. Missouri already voted for "the right to make and carry out decisions about all matters relating to reproductive health care, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care and respectful birthing conditions." And the voters rights should be respected.

Conflating "pro-life" policies with policies that ignore the health of the pregnant person are not pro-life, they are simply pro-pregnancy. I am glad that I am alive because of the life-saving care I received. Women and girls in Missouri will truly be protected when their lives are just as precious to politicians as the fetuses they carry. I support the passing of Amendment 3 as it was laid out in our Missouri 2024 election, and I oppose the new wording of this amendment. Introducing this resolution after the choice of Missouri has already been made is an insult to the trust that we have in our politicians and a dereliction of your legislative duty.

I shouldn't have to send this. This decision had been made. **ONE MILLION, FIVE-HUNDRED AND THIRTY-EIGHT THOUSAND, SIX HUNDRED** voters spoke out back in November. The population of Missouri made it clear. Reproductive freedom was a must, something important enough to be enshrined into our constitution. Something the majority agreed on, women should have the right to make this kind of decision, this horribly, hard, heart-wrenching decision, for themselves. But now, here we are, after all your talk about a "free and fair" election, after all the lip service about how important it is to go out and vote and that our voices need to be heard, you've decided we can't be left to make this decision, because you don't like how we decided. You've decided to take the ball and go home... and it's not even your ball. I am angry and fed up with politicians trying to get a government so small that it fits in my uterus. Our bodies are ours. Why should our records of health be open to the world so that you can decide what "choice" we have to make? What medical background do you have? You say "well, we allow exceptions for medical emergencies," do you know what that means to a doctor? It means the woman has to be near death before any intervention, **NEAR DEATH**, because doctors don't want to risk losing their license and right to practice. And you also want documentation?! Do you know how long it takes to get a freaking prescription?!? But you want doctors to get the right paperwork in order to prove to you, a government office who has no medical background, to okay an emergency procedure!?! Doctors are second guessing their own knowledge, a knowledge far greater than yours in this area, and staying on the side of "I can't, they might find me guilty." Thus, allowing women to die. And now, not only have you created a resolution that puts women in danger but one that will likely cause death among the transgendered minor community. And, yes, there is a community, of men, women, and everything in between that is loving and supportive so that these kids know they are not alone, they are not unwanted, they are important and cared for and cherished. Why are you so concerned by someone else's child not meeting YOUR standards? Just because YOU are unable to understand what it feels like to not feel "right" in your own body doesn't mean they don't. These kids exist and you pushing their parents to not be able to support them 100%. You are risking their mental health. 82% of the trans gendered community says they have considered suicide, 40% of them attempt, that number is even higher in youth. You want to know why? Because people like you are pushing laws like this that are attempting to erase them. You are killing people... Men, women, youth, all because YOU don't agree with it. But our health, our gender identity, our family choices are none of your business. Many of these things I are covered under HIPAA and you have no right to the information unless we sign documentation that says you are allowed knowledge, and **YOU ARE NOT**

HJR 54 is clearly unconstitutional and this attempt to overturn the will of the people seeks to take away Missourians' hard won right to have access to abortion care and make abortion decisions for themselves. Access to safe and legal abortion services is an important aspect of healthcare. Maintaining this access helps ensure the health and well-being of individuals who may need reproductive healthcare. Healthcare decisions should be between a person and their healthcare provider. The government should stay out of it. It does not make sense that a government would know better than a physician and a patient in their care. My freedom to choose the healthcare I need for me, is simply that. This matter has been decided. We worked hard to inform people and get signatures. The voters voted and amendment 3 passed. You may not like the outcome, but that does not mean we are asking you to make up new rules. Stop trying to undermine the will of the voters with your moral outrage.

My name is Melanie Pierce, and I am from Kansas City, MO. I'm writing in opposition to HJR 54 in the strongest possible terms. This is a direct violation of the will of the Missouri people, who made their voices heard last election day: abortion care, and all reproductive care, is health care, and seeking health care should be left up to the discretion of the patient and their health care team. It's really very clear: 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights, not undermine them at the first possible opportunity. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care. Our government should reflect those shared values not threaten them, regardless of what is happening at the federal level or the agenda of our current presidential administration.

I am a mother to two young daughters who will need access potentially to life saving abortion procedures if their pregnancies do not go as planned or are a threat to their lives. But this isn't just about my own children it's about all families. The trauma of not having a choice when the finances do not support adding another child to the family lasts generations. We need to support mothers and families that are already in existence. My objections are in no particular order, but I wholly object to any attempt at overturning the will of the people. There is no democracy in our state if an amendment to our state constitution can be overturned by legislation. We all lose at that point. Because what else in the constitution can we then overturn with a swipe of the pen?

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Melissa Clark and I'm from Independence. I am outraged that once again, Missouri is ignoring the will of its citizens and trying to undo something they mandated with their votes. It's reprehensible that Missourians HAVE to use the petition process to get the things they need because our politicians won't do it. It's reprehensible that 1,538, 659 Missourians participated in the process and voted to pass Amendment 3 and you are already trying to undermine that. That does not build trust. Your citizens see you take from us, ignore our needs, and our voices, while spending our tax dollars to work against us. The women of this state have not forgotten the first ban where you valued us beneath livestock. A farmer will at least pull a dead calf to save the cow but Missouri won't allow the same to save the life of a wife/mother or her reproductive organs to try again. You do not get any benefit of any doubt from us. You also fail to understand that this is a bipartisan issue...because it's a life-or-death issue. This is not a good look for Missouri. You are driving workers, families, doctors, and businesses away. Quality companies won't plant roots somewhere good employees won't move and don't feel safe to live. (That last sentence deserves a rant about how we treat education in this state too.) Doctors will not come to a state where they have to be afraid to do their job and make needed judgment calls for their patients. I voted for Amendment 3 to protect my married, type 1 diabetic, sister. A pregnancy for her would be a death sentence. Notice I emphasized that she is married...because in this day and age the common response from pro-lifers is still to suggest that only unsavory "women's" behavior elicits the need for an abortion. That very stigma is one of many many reasons rape victims don't report their rapes. I voted for Amendment 3 so that a traumatized victim of rape could get the care she needed discreetly without judgment and suspicion. A victim of rape is already drenched in fear and misdirected shame and you want to traumatize them more with this bill. In the era of date rape drugs, we aren't safe anywhere and might not know who exactly the rapist was. How would this bill help them? What it will do is chill their voices even more and women will again not get the care they need. Rape and sexual assault is not taken seriously in this country. Every woman knows that. We teach our daughters how not to be victims from the moment they are old enough to understand...while boys don't ever carry that burden. Do you think fathers who raped their daughters will bring them in for an abortion under this bill? Once again, the girl is the one who pays the price. These bans only punish the victims and the man will walk away. I voted for Amendment 3 to protect women who have potentially fatal complications at any point in their pregnancy. Letting a woman's reproductive organs be destroyed or her die needlessly is outrageous and will actually reduce the number of women wanting to have children. Childbirth seems a reasonable risk when there is the medical world there to back you up in an emergency. That perspective changes when the mortality rate explodes and there are no doctors. Stop jerking us around and uphold the amendment passed by the voters of Missouri.

As a citizen who voted to protect and enshrine, these rights to have a bill attempt to overturn the will of the voters is at best shady. As a Christian wife, mother and woman, sometimes in spite of your best intentions pregnancies don't go right. The ultimate decision when these go wrong needs to lie with a woman and her doctor. As a woman who had a miscarriage the heartbreak over that loss was terrible and I didn't have to worry about any legalities to jump through on top of my heartbreak. I was monitored and thankfully didn't need medical intervention but if I had I knew that all I had to worry about was following the advice of my doctor. Please vote against this bill to align with how voters actually voted and from a human side to not add pain where it already exists and make a complicated process more complicated.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I believe that HRJ 54 should not pass the Children and Families committee meeting on 02/04/2025 for many reasons. First, I do not believe it is the role of the Government to control or make medical decisions on behalf of individuals. The only time it is appropriate for the Government to institute any rule or law surrounding health, wellness or safety of their constituents is when it is in effort to protect individuals or the masses from a hazard or risk, either man made or environmental. We have seen a number of cases across Missouri and the United States where restricting medical access has been detrimental to the health or financial wellness of families and women, sometimes, in extreme cases, the causes of the woman death. In Kansas City, we have seen several women go to the hospital to be treated for pregnancy complications, and be sent to the Kansas side of the state line to be treated because doctors in MO were unable to provide necessary medical care. Further, I do not believe politicians, who come from wide and varied backgrounds possess the knowledge necessary to make medical decisions. They have not, in many cases, gone to medical school or have worked in the medical field and are therefore making decisions without understanding the full scope of their actions. Next, HJR 54 brings up gender transitions and gender affirming care. This is a separate issue from abortion and should not be lumped into the same bill. Doing so, is done in poor taste as an obvious attempt to help get this abortion bill "over the goal lines" by including a hot button and polarizing topic. It does not allow voters to make a choice on a single issue and rather forces them to contemplate several topics that are entirely unrelated. If an voter is for reproductive freedom, but against gender changing procedures, you are forced to vote down, or against, an issue that may have otherwise passed had the second issue not be on the ballot. Finally, in reading the proposed language of the measure, in section 4, definitions of terms, number 2 outlines what is a "fetal anomaly." As stated in HJR 54 ""Fetal anomaly", a structural or functional abnormality in the unborn child's gestational development that would make life outside the womb impossible and that would present a serious physical risk to the mother to carry the child to term;" My concern is the use of the word "and" and that it should be changed to the word "or." The use of "and" would mean that even though a fetus is not viable if it does not cause physical risk to the mother, she cannot have an abortion. That is cruel not only to the person carrying the fetus to be forced to carry and baby that is sure to die; a woman growing more and more connected and attached to your baby each day, only to watch it die and grapple with life in front your eyes in the hospital; or to have your baby die in utero and be force to birth a stillborn child. My heart breaks for the souls who would endure the anguish of being forced to carry an unviable child in their womb, knowing their cursed fate all along. To force a woman to carry her unviable child is villainous and inhumane. I have known women who have had babies who were missing organs and it is haunting to see and know their heartbreak. I have known women who have chosen to give birth to their unviable baby in the off chance the doctors were wrong in their diagnoses, but alas, had to watch their babies - their sweet, innocent babies, - be born into immediate suffering

and slow agonizing death. By including the word "and" you take away the right for families to choose to what, while still difficult, may be the best choice for their circumstances. Thank you for your consideration. Please respect the will of the people who have voted this past November. It is abundantly clear, that even Republican voters who came out to vote, were in favor of reproductive freedom and chose to make their opinions known.

I oppose HJR 54 as originally filed. There are several problems with HJR 54. It violates the single-subject rule in the Missouri constitution. Article 3, Section 23 (<https://www.sos.mo.gov/CMSImages/Publications/MissouriConstitution.pdf>) states: Section 23. Limitation of scope of bills—contents of titles—exceptions.— "No bill shall contain more than one subject which shall be clearly expressed in its title, except bills enacted under the third exception in section 37 of this article and general appropriation bills, which may embrace the various subjects and accounts for which moneys are appropriated." Abortion and gender transition surgeries are separate subjects/issues that should not be together in the same bill. There should be a separate bill for abortion, and a separate bill for gender transition surgeries. While I oppose abortion and I oppose gender transition surgeries, I can't support this bill due to the violation of article 3, section 23 of the Missouri constitution. It allows for too many exceptions. I oppose all exceptions. "No abortion shall be performed or induced upon a woman, except in cases of medical emergency, fetal anomaly, rape, or incest." That's 4 exceptions that create too many loopholes to be abused.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

HJR 54 is a direct assault on the will of Missouri voters and a dangerous overreach into the personal lives and medical decisions of individuals. In 2024, Missourians made their voices clear by passing a constitutional amendment to protect abortion access, recognizing that reproductive freedom is a fundamental right. This bill, however, seeks to undermine that decision by imposing extreme restrictions on abortion care, even in cases of rape and incest. By requiring survivors to report their trauma to law enforcement within a narrow 48-hour window and limiting abortions to just 12 weeks in such cases, HJR 54 disregards the complexity of these situations and further victimizes those who have already endured unimaginable pain. Missourians have spoken: they trust individuals to make their own health care decisions, and this bill blatantly ignores that mandate. Moreover, HJR 54 goes beyond abortion restrictions, targeting essential health care services for transgender individuals by banning the use of surgeries, hormones, or drugs for gender-affirming care. This provision is not only cruel but also medically irresponsible, as it denies evidence-based care to vulnerable populations, including minors. The bill's broad language and punitive measures, such as revoking medical licenses, will have a chilling effect on health care providers, discouraging them from offering necessary care out of fear of legal repercussions. This is not about protecting lives; it is about controlling them. Missourians value personal freedom and the right to make private medical decisions without government interference, and HJR 54 flies in the face of those principles. Finally, the bill's prohibition on public funding for abortions disproportionately harms low-income individuals, effectively denying them access to critical reproductive health care. This is not just an attack on abortion rights; it is an attack on equity and justice. Missourians have already rejected this kind of government overreach by enshrining reproductive rights in the state constitution. HJR 54 is a step backward, a betrayal of the trust voters placed in their government to protect their freedoms. We must stand firm in opposition to this bill and uphold the will of the people, ensuring that every Missourian has the right to make their own health care decisions without fear or coercion. HJR 54 has no place in our state, and we must reject it unequivocally.

EMAIL: Mike.Perlmutter@gmail.com	ATTENDANCE: Written	SUBMIT DATE: 2/4/2025 10:36 PM

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Michael Perlmutter, and I am a resident of Chesterfield, Missouri. I am writing to express my strong opposition to House Joint Resolution 54, which seeks to override the will of the people by restricting access to reproductive healthcare and interfering in deeply personal medical decisions. In 2022, 1,538,659 Missourians voted YES on Amendment 3, making it abundantly clear that reproductive freedom is a core Missouri value. As elected officials, your duty is to uphold the will of the people, not to dismantle the rights they have fought for and secured through the democratic process. HJR 54 directly contradicts what Missourians have already decided by imposing new barriers to abortion access and restricting healthcare options. This resolution would:

- Limit access to abortion except under narrowly defined circumstances, disregarding the broader reproductive rights Missourians have supported.
- Prohibit gender-affirming care for minors, taking medical decisions away from families and doctors.
- Prevent abortions based on a prenatal disability diagnosis, which could force families into impossible situations and deny them the right to make informed medical choices.

Reproductive healthcare decisions belong to individuals, not the government. Missourians have already spoken—we believe in protecting access to abortion and ensuring that all individuals have the freedom to make private medical decisions without political interference. I urge you to respect the democratic process and the will of the people by voting NO on HJR 54. We need leaders who will defend our rights, not undermine them. Thank you for your time and consideration. I hope you will stand with the people of Missouri and reject this harmful resolution.

Missourians voted to end the abortion ban and enshrine reproductive freedom in our Constitution. Missourians want and deserve to make their own decisions about their own healthcare, and our bodies are not politicians' business. As a completely separate but equally important matter, paragraph (4) of this bill would be clearly harmful to many children, denying them critical care.

Once again, the Missouri Legislature has taken it upon itself to overturn the will of the people. Amendment 3 has only just been voted on, and here they are, trying to overturn it. Add to the further restriction of abortion access the further limiting of care for transgender individuals, our legislature's latest punching bag and distraction. Please be responsible and vote against this bill.

I am writing with dismay at the thought of Amendment 3 being overturned by HJR 54. The people of Missouri have spoken, loudly and clearly, with their votes in November 2024. Women in this state have spoken. We want to retain our hard-fought rights to reproductive freedom and to our own bodies. Anything less is criminal — and I personally do not need the Missouri legislature telling me how to live my life and force me to accept their paternalistic decisions about my body and reproductive rights and those of my daughter and so many others. Thank you.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The spirit of HJR 54 directly opposes the will of the people of Missouri who passed Amendment 3 by majority vote last November. As our elected representatives, your duty is to represent the people of Missouri, and HJR 54 is an attack on the will of the people. This is a clear case of weaponized legislation aimed at overturning the people's will. It's no secret that abortion bans are unpopular here in Missouri. Many of your republican voters (who elected most of you to office) supported Amendment 3. The fact that the house is entertaining HJR 54 today is evidence that there are congresspeople existing within our legislature that do not respect the peoples' voices at all. Any elected official who votes in favor of HJR 54 is actively betraying the voters and betraying their duty to serve Missourians -- The voters will remember this. Frankly, the idea of our elected representatives putting a proposed amendment like this one on our next ballot is offensive. I would also like to say that wanting to limit or meddle in the healthcare and private medical decisions of women (as if we need you to tell us what is best) is draconian and oppressive. Missourians do not want this. I ask that you respect the voters by not passing this resolution.

Representative Stinnett: I oppose HJR 54 as originally filed. There are several problems with HJR 54. Firstly, it violates the single-subject rule in the Missouri constitution. Article 3, Section 23 (<https://www.sos.mo.gov/CMSImages/Publications/MissouriConstitution.pdf>) states: Section 23. Limitation of scope of bills—contents of titles—exceptions.—"No bill shall contain more than one subject which shall be clearly expressed in its title, except bills enacted under the third exception in section 37 of this article and general appropriation bills, which may embrace the various subjects and accounts for which moneys are appropriated." Secondly, Abortion and gender transition surgeries are separate subjects/issues that should not be together in the same bill. There should be a separate bill for abortion, and a separate bill for gender transition surgeries. Thirdly, while I strongly oppose abortion and I oppose gender transition surgeries, I can't support this bill due to the violation of article 3, section 23 of the Missouri constitution. It allows for too many exceptions. I oppose all exceptions. "No abortion shall be performed or induced upon a woman, except in cases of medical emergency, fetal anomaly, rape, or incest." That's 4 exceptions that create too many loopholes to be abused.

Voters passed an amendment allowing abortion. Public policy in a pluralistic society must affirm the constitutional right of privacy of the individual to make reproductive choices. Women have the right to reproductive rights and justice, including bodily autonomy, privacy, reproductive health, and access to contraception and abortion. There are cases where women don't report rape to law enforcement agencies because of shame, or because the perp is a family member. And because reporting is invasive and makes them relive the rape. And often they are shamed in the process. This is horrible to make a woman go through this process if she is not mentally able. You represent the people. We voted on it.

HJR 54 is a blatant attempt to undermine the will of Missourians to make a better future for women in the state. In November of last year, a majority of Missourians voted for Amendment 3, choosing to enshrine the right to comprehensive reproductive healthcare. This protects girls and women from political intervention into their medical decisions. It ensures that they have access to life saving and life changing healthcare that they deserve. As the elected officials of this state, it is the duty of the legislature to back the will of its people who elected them. For the sake of Missouri girls and women I urge the legislature to stand for what the voters decided, even if they personally disagree with the decision.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I am old enough to remember when young people were young and stupid and in no way emotionally or financially prepared for parenthood. That's what fueled criminal, unsafe abortions before "the ??." Children deserve to be born and raised by people who love and can care for them. That's what family planning is. I am also the aunt of a charming little boy who was diagnosed in utero with a lethal cardiac anomaly. His parents were offered an abortion. They decided to carry through. He went from the delivery room straight to the cardiac suite to the OR. He is 6 and awaiting his first heart transplant. Reproduction is a right, not an accident. If your personal beliefs are different from mine, you have a right to them, but you have no right to force them on me. The government has no authority to get into people's bathrooms, bedrooms, or doctor's offices. The people whom you serve, despite targeted efforts to block, deceive, and derail it, voted a clear majority in favor of individual reproductive choice. This option would not have been available without Missouri's constitutional right for citizens to propose legislation directly. The bill in committee now violates every sacred principle of democracy. It slips specific religious belief into secular government. It violates individual rights to privacy. It violates the rule of law covering majority rule. Legislators serve ALL the people, even the ones they disagree with.

My name is Molly Becker and I am writing to testify in opposition to HJR 54. HJR 54 is a direct attack on freedom and sets a dangerous precedent of denying free and fair election results. The Missouri voters, by a majority, voted to enshrine reproductive freedom into the Missouri Constitution. HJR 54 is a disdainful attempt to deny the will of Missouri voters who established that women are entitled the freedom to make decisions about their reproductive health care without governmental interference. While many people have differing views about abortion, the government has no place interfering in a decision that should only be between a woman and her physician. I encourage the committee to protect women's freedoms, respect the will of Missourians when we passed Amendment 3 and to oppose HJR 54.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Molly Carney, and I am a resident of the City of St. Louis, Missouri. I am opposed to the legislature's improper attempt to override the will of the Missouri people. A majority of Missourians clearly demonstrated their support for reproductive freedom when they voted in favor of Amendment 3. Our government must uphold the decisions of its people.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

Hello, my name is Molly Gordon, I live in Kansas City, Clay County. I am one of the 1.5mil+ voters who voted Yes on Amendment 3 this past November. I am in opposition to HJR 54. The people of Missouri have spoken and we would appreciate that you respect what we have chosen for ourselves, our mothers, daughters, sisters, aunts, and friends. Reproduction conversations and decisions should be left up to medical professionals and their patients. Not law makers and law enforcement. Taking away the access to safe abortions and other medical reproductive care will result deaths, mourning, and trauma to the ones who need it most. This Amendment is important to not only women but their families. When healthcare is not available or access is limited the result in death becomes more likely. Please, allow more access to women and others to the healthcare they deserve.

This bill, if passed, would be in direct opposition to the will of the people of Missouri. We all came out to vote in November 2024 to ensure that our voices were heard and our rights were protected. Passing this bill would fly in the face of that commitment to democracy. This bill will only harm the citizens of Missouri, your constituents, and I urge you to listen to what we, the people, have already said.

My name is Monica Sheets from Saint Louis. I'm asking you to vote against HJR 54. When Missourians had the opportunity with Amendment 3 to vote on access to reproductive health, including abortion, they voted for it by a majority. Your role is to administer and defend that decision, not to circumvent it.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am opposed to Stinnett's HJR 54 attempt to overrule the will of Missourians. We, as a state, decided without question that Amendment 3 is what we want and what we need. Reproductive healthcare is a human right, and taking away patients' right to that care is abhorrent. Additionally, putting undue restrictions on this type of healthcare puts healthcare professionals' ability to effectively and efficiently do their jobs, and they have made it clear through the AMA, OMA, AAP, and others that they, too, greatly support Amendment 3. Taking away the will of the people is not only showing us that you don't care one bit about your constituents' legally protected right to vote, but shows everyone that you are willing to put real people's real lives at risk for your own selfish political gain. People die when they can't receive timely abortion care, people die when they can't get an abortion and are stuck in abusive relationships, and people die when they're forced to carry a pregnancy to term after rape or incest. This also greatly harms children, as well, when they're forced to carry non-consensual pregnancies and when their parents are forced to have another baby when they're already living in poverty. Tell Missourians you actually respect them and their will, because continuing this resolution only tells them that you're willing to sell them out and risk their lives for your own greed. Upholding this resolution and overruling the people puts blood on your hands.

Firstly, I am appalled that I need to submit this testimony against HJR54. Secondly, I am appalled that state legislatures have taken it upon themselves to introduce this “resolution” in the first place. Over 1.5 million Missourians chose to pass Amendment 3 in November, despite having been met with opposition and political lawfare to thwart their will every step of the way. Hundreds of thousands of your constituents have spent countless hours and their own money to ensure that Missouri is safe for women, to ensure that we protect the freedoms we had for 50 years under Roe. Many of the legislators that support this resolution touted the overturning of Roe as “giving the issue back to the states.” Yet, despite Missourians deciding as a state to restore abortion access and protections (even across partisan lines), state officials continue to attempt to subvert the will of the people. HJR 54 could potentially prevent Missourians from having a direct say on reproductive healthcare. It obstructs the democratic process by overriding or preempting future citizen-led initiatives and it opens the door for more restrictive, UNWANTED abortion bans. Not only this, but restricting reproductive rights has been linked to worse maternal health outcomes, increased economic hardship for families, and higher health care costs. It’s not good for the economy or families. Healthcare providers already began leaving the state in 2021 due to Missouri’s trigger ban. Abortion bans create a gender apartheid for women in this country and in Missouri, where it’s safer to exist as a woman in one state but not another. I would like for Missouri to be a safe place for women to exist and build families. Not to mention, any further attempts to oppose the Will of the People in Missouri is a waste of taxpayer money and resources, an abuse of the positions we elected you to. As someone who would like to build their family in Missouri, I am vehemently opposed to HJR54 and I can speak for my community when I say this is NOT in the interest of Missourians. Please stop this resolution in its tracks and instead focus your efforts on fulfilling the will of Missourians: to protect access to safe and legal abortions without the government being involved.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Nakayla Evans and I'm from Springfield, Missouri. I'm in opposition of this bill because women's reproductive rights are a human right. Women do not cease to be human and have rights because they become pregnant. It is a woman's body that a fetus could not grow or develop without. A fetus should not have more rights than a woman or a girl or reproductive age (around 10 years old) To assume that abortion would be acceptable in cases of rape, incest, etc. is assuming that women are even believed in cases of rape, which we all know is historically incorrect. A woman has to prove over and over again that she deserves the right to HER BODY and blatantly it is unfair and unconstitutional. 1,538,659 Missourians voted yes on Amendment 3. As a Missouri representative I strongly suggest respecting the voice of the people in Missouri. We made it clear at the ballot. The government should reflect our values, not threaten them or continue to push their own personal beliefs and agendas. Please spend more time on actually protecting children that are already born. There are plenty more "Christian-like" stances that the Missouri government could take to protect the children that ARE already here.

Healthcare is vital to strong communities and the decisions regarding it are personally made between patients and providers. The MO political system has turned a very private matter into a public snake pit. The majority of voters have spoken clearly that we want the right of personal decision making for reproductive health restored to the people. The Republican party has the majority of representative and senators and rightlyfully should work in line with the majority of voters, many of whom are your constituents. Respect the people you represent, please.

I am in total opposition to HJR 54. Women's reproductive health care is the business of women and their health care provider. Politicians should have no say in the matter. Women know what their bodies need and have the right to make their own very important healthcare decisions. Furthermore, on November 5th, 2024 well over a million and a half Missourians voted to show that they agreed with this so strongly as to amend the Missouri constitution. Missouri legislators job is to uphold what the constitution says.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Natalie Chen, I live in University City. For the last four years, I've paid taxes, volunteered, lived, and worked in Missouri. At WashU, I am fortunate to study [whatever u study]. I've also been involved in politics: I cast my first ballot/voted in my first election/voted for the president the first time. Last November, I voted for Amendment 3 because I believe that the reproductive health is critical healthcare that should not be restricted by the state. I oppose this bill as a blatantly anti-democratic attack on voters like me. Instead of focusing on access to education and better infrastructure, politicians are using taxes — my taxes — to make Missouri more restrictive. Moreover, it is well established that abortion bans hurt the state. Missouri has lost over 4 billion dollars and our GDP has shrunk by 1.1% according to the International Women's Policy Institute. This policy is anti-democratic and fiscally unsound. Vote no.

Missourians have already told our elected officials through voting that we want the right to reproductive health and we want ALL those decisions to be made between ourselves and our doctors. Missourians voted to enshrine that into our constitution. It is not the job of ELECTED officials to try to change what their constituents have spoken for. It is also not the job of the government to meddle in personal and medical decisions. The people authoring this bill are willfully going against the desires of the public and they have no medical background to be attempting to practice medicine by regulating safe and effective care to Missourians.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

My name is Nedra Jeffress. I live in Independence, Missouri, which is State Senate District 11, and House District 29. I would like to oppose HJR54. 1,538,659 Missourians voted YES on Amendment 3. I expect my elected representatives to listen to the will of the voters, not try to overturn that decision during the following legislative session. Missourians have made it clear that they want access to reproductive health care. I firmly believe that family planning decisions should be left to the woman, her partner, and her doctor, not elected officials who do not know the specific reasons for reproductive choices. Unlike rhetoric that is used, most abortions that are late term are due to health complications to either the mother or the fetus or both. To be forced to make a decision in this scenario is heart wrenching enough, and families should be able to make whatever decision is best for them. Supporting families is a Missouri value that elected officials should support. I have a daughter who is about to be married and who wants to start a family. If she were to have complications in a pregnancy, she should have the freedom to make whatever decisions are best for her. It scares me to think she may not if HJT 54 passes. Please trust women to make their own decisions in regards to reproductive health care.

Dear Representatives, I am writing to oppose HJR 54 bill. This type of action undermines the will of the people and a majority of Missourians that voted to end the abortion ban and enshrine reproductive freedom in the constitution. The result of this bill would be to put women, families and health professionals in danger. Making women "show documentation of rape or incest" is just heartless and shame based. Please allow families to make decisions that are in their best interest. Public funds aren't being used for abortions. That is a false statement. It is also ingeniune to add the verbiage about gender transition care. The messaging is shame based in nature and off topic concerning reproductive health care. Please honor the majority of Missourians and uphold your duty as our elected officials. Thank you for your time. Sincerely, Nick

The people of Missouri have already voted on this issue. This bill is nothing more than the GOP being poor losers and disrespecting the will and vote of Missourians. Just like they have done in the past on raising the minimum wage and the anti-gerrymandering bill. The GOP feels they are above accountability of the people, and this people exemplifies this disregard of the people who elected them. It also shows the continued disrespect towards women and children in this state. We are NOT a christian nationalist state or country, and imposing your religion on voters when we have decisively voted against it, is against the constitution. Not only that, but this bill will raise the maternal mortality rate and put Missouri's women and children in danger. This is a despicable power grab by a political party that hates accountability and the checks and balances inherent in our constitution and form of government. If they want to impose a fascist ideology to protect their fragile egos, they can leave the country.

This proposed bill is in absolute disregard of the will of the people. It is absolutely shameful that elected individuals are acting in a way to subvert citizens in order to advance their individual "religious" interests. It's abhorrent and they -if they weren't completely disillusioned- should be ashamed. - 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights - Reproductive Freedom is a Missouri value- Missourians made it clear at the ballot: we support access to abortion and all reproductive health care- Our government should reflect those shared values not threaten them

The people of Missouri voted to protect reproductive freedom and bodily autonomy just months ago. You have a duty to represent your people and they have decided very firmly that they want their bodily autonomy protected. You are not protecting women and children to FORCE BIRTH on pregnant people. You are only trying to force people to follow your religious beliefs. Not only is that wrong but, as history tells us, more women and babies will die as these abortion laws severely limit their medical care.

To undo the will of your constituents is to not do your job. I will not vote for any representative who votes for this bill. Healthcare choices are between patient and doctor, and should not be constricted by unqualified outside parties, including the government. As someone who once defined myself as Pro-Life, then later came to understand the nuances of the medical procedure we know as abortion. Despite its inflammatory name, fueled by politicization and an oversimplification of complex issues, it remains a necessary healthcare procedure to resolve ectopic pregnancies, for those experiencing miscarriages, and, yes, as a choice to protect the mental and physical health of women and their families. I staunchly oppose this bill, HJR 54.

I am a constituent from O'Fallon Missouri. I am a wife, mother, full time worker and parent volunteer. I've committed myself to start standing up for issues such as this one. I have never been as involved in politics as I have these last few years. I am devastated that our representatives have taken our vote on prop 3 and decided to disregard our wishes. Missouri wants abortion/healthcare access period. No limits, no hoops to jump through! I am a sexual assault survivor, I spoke up and the perpetrators got a slap on the hand and I stopped getting scheduled at work until I was forced to quit due to not having enough hours to pay my bills. Victims who speak up about their assault are often met with prejudice and non believers. Their lives do not get easier and they are already in turmoil from their experience. Do not make them jump through hoops for an abortion. Abortion is healthcare. Keep your hands OFF our bodies and mind your own business.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

A basic review of the history of novice state representative Melanie Stinnett shows several extremely concerning issues. Not only does she have a simple background of speech-language pathology, but she clearly does not understand the role of a state representative which is representing the people of this state and district 133. Missourian's have taken the time and energy out of their extremely busy lives to vote again and again on this issue. Each time the residents of Missouri have made it clear that **WE DO NOT SUPPORT FORCED BIRTH**. We continually uphold the rights of women and the educated care of their doctors. Clearly novice representative Melanie Stinnett is either in the wrong state or doesn't understand the purpose of her role. Putting forth this bill is a flagrant waste of resources, time, and takes away from actual issues that plague the state of Missouri. Clearly novice representative Melanie Stinnett needs to learn from her prior experience in speech-language pathology and listen closely. Missouri has and will continue to support women's rights and valid medical choices made with the support and education provided by their doctors. If novice representative Melanie Stinnett cannot find it within herself to listen to her constituents, she either needs to recuse herself from a role she simply is not educated and mature enough to handle or she needs to move to a state that aligns with her own personal, narrow, and uneducated beliefs. It appears mentorship is needed if she still doesn't understand the foundation of her role after 2 years.

My name is Nicole Strombom, JD, MPH, CPH and I live in Saint Louis, Missouri. Abortion is a life saving medical procedure. Abortion is probably why I am alive today and was able to have my two kiddos. Please help women be able to safely handle pregnancy loss by keeping abortion legal. Here is my story from 2021:"Our miracle rainbow baby is due to arrive in the next 3-4 weeks! Today, I want to celebrate our baby in heaven. Last year, I struggled. After years of fertility treatments, out of pocket expensive, shots, procedures, and waiting, I found out I was pregnant in May 2020. With the pandemic in full swing, we decided to try an at home fertility treatment because going to the doctor for multiple blood tests, an ultrasound to check eggs, driving to a specific Walgreens to get medication, and then back to the doctor for an IUI became out of reach. A miracle occurred and in this very dark time, I was pregnant, several at home tests and bloodwork confirmed. I was going to be growing new life as so much life struggled and perished around me. I was elated with the news and excited to share with others. I walked, ate healthily, felt nauseous, experienced sleep discomfort, and waited for my first ultrasound. We went to the first ultrasound and there was another woman in the waiting room who was about the same week I was. I thought about introducing myself and luckily did not. Unfortunately, in early July, when we went to the first ultrasound it was revealed that I had a blighted ovum and that my body had missed miscarrying. Before this diagnosis, the tech looked for baby and then a sad look arose on her face. My care team confirmed the sad news. The bloodwork technician graciously took my blood in a private area instead of her usual room. I cried. I felt lost. I did not think this could happen to me or that this would happen in such a dramatic way. We left the office with several choices, (1) wait and see if my body would miscarry on its own, (2) take a set of pills to induce my body to miscarry, or (3) schedule a surgery to remove the unviable pregnancy. I did not know what to think let alone do. No one prepared me for this. No one ever talked to me about what they did. No one ever really talks about their miscarriages. I was told to think on it but thinking on it only made the terrible ache feel worse. I did not sleep. I cried some more. I consulted my, just as upset, husband. I Googled. Option one, wait and see, could result in weeks of waiting. I read a story about a woman who waiting many weeks and then finally miscarried. While my cheapest option, hovering over a toilet in hopes of seeing blood and questioning if I could go out/live during the wait--for fear of miscarrying in public--seemed an exhausting game of mental gymnastics. I did not think I could handle waiting weeks for a maybe. I could not handle living with/in being pregnant but really not limbo that had become my existence. Additionally, I still might need surgery because even if you miscarry naturally there is a chance that some tissue is left behind and this can significantly impair fertility. Option two, I knew about, I, an advocate for prochoice, knew what two pills would await me. Still, I read about the pros and cons. The potential outcomes and expenses related to this care option. Similarly, to option one, option two is not foolproof. Tissue can be left over and cause an emergency medical situation and impair future fertility. Option one and option two both could result in needing option three anyway. This fact made my choice

clear. I would undergo surgery. I waited over the next few days in limbo of being pregnant and not at the same time. In mid-July, with the country mostly locked down, I underwent surgery to remove a pregnancy that I very much wanted but that had no viable path forward. On the day of the surgery, I walked into a very sterile clinic alone. Three patients total were in the clinic one who must have arrived hours before me and was in a recovery area and one that was checking in after me. Masked, I put on a hospital gown, bagged up my belongings, and was taken to a hospital bed. A nurse helped me get settled. Another nurse came and asked me some questions. She told me many women go through this. No one wants to be told how common their loss is. Luckily, she was not the nurse that would be in my surgery. My doctor came early. She talked to me about what was going to happen. She told me this was only a road block on our fertility journey and we talked about how at least, after the years of fertility struggles, we now knew I could get pregnant. She gave me some information about increased fertility and likelihood of getting pregnant again after a pregnancy loss. She told me that the body likes to get pregnant after a loss. She may never know how much hope, in this horrible moment, those words gave me. She sat with me pre-surgery and then we went in. When I woke up, again she was sitting with me. It is not normal for a doctor to take or have the time to sit with their patient pre- and post-surgery. My background in public health told me that this was not normal doctor behavior; my doctor was being human empathizing with me and being there to comfort me in what she knew was the worst day of my life. She had been there to watch my fertility struggles from the start and I was thankful that her familiar face was with me when, due to the pandemic, no one else could. After a bit of recovery, she asked if I needed anything and I asked to be allowed to go home. She quickly got the nurses to perform their discharge tasks and personally called my husband to inform him of where to pick me up. She gave both me and my husband her personal cell phone number and told us to call if we need anything. Pandemic protocols meant that only the patient was allowed in the clinic. My husband had waited in the parking lot during my procedure and had acquired some flowers for me. He helped me to the car and we went home. After the surgery, I felt like a shell of a person. I grieved. I still am grieving. I grieved for what I went through. I grieved for the what if. I grieved for the first steps, first words, graduations, marriage, and life events that would never be. We named this pregnancy Hope. Hope for two reasons (1) that in such a dark time for the world there was still hope that could shine through and (2) through our fertility struggles, even though this was a loss, there was hope because I could become pregnant. I am now in my second pregnancy with what, God willing, will be my first live baby. I am still grieving. I feel guilt that I hate being pregnant. I hated the morning sickness and lack of energy from the first trimester that gave way to nose bleeds, dizziness, and headaches in the second trimester. I hate that my body is able to grow this second pregnancy when it let down the first. I hate that I feel guilty for grieving my first loss when I should be focused solely on this pregnancy and how excited I am to be a mom. I have struggled. Everyone struggles. For those struggling, you are not alone. Today, with all the excitement that is going to come in the next few weeks, I celebrate Hope my baby in heaven who is abundantly loved."

Not only should a woman be able to make a decision based on her body on her own with a medical professional, the push back to the legal voter support in passing this measure alone should nullify any response to the contrary. Pro-life supports only think about birth, but the trauma that occurs to not only the unwanted children born, but also the adults that now have to support life they were not able to adequately support effects generations upon generations. The voters spoke. Your role as our elected officials is to support and uplift our voices, not make unilateral decisions based on select populations in your congress.

Our constitution was amended to:establish a right to make decisions about reproductive health care, including abortion and contraceptives, with any governmental interference of that right presumed invalid;This bill's existence is invalid by the very amendment that was passed. And now you are trying to circumvent the will of your constituents. You wish to remove our bodily autonomy by limiting abortion to specific circumstances, designated by you. We are not breeding stock that you can force to birth children. Having children is our choice! Not yours. I strongly urge you to stand by the will of the people of our state and deny this bill. Keep governmental interference invalid. Allow women to make their own decisions about their bodies.

Hello, I am a mother to two children. One is a daughter. I worked along side many other women and men who support women to remove the abortion ban. We had 1,538,659 Missourians vote YES on Amendment 3 and you were elected to defend those rights. We showed up to make our voices heard and it would be wrong to try to circumvent the will of the people. Missourians showed we want our reproductive freedom. Missourians made it clear at the ballot that we support access to abortion and all reproductive health care. Republicans wanted this issue back to the States and we showed up to make our voices heard. Our government should reflect those shared values not threaten them. I did not fight for reproductive freedoms for all women and girls for a few politicians that think they know what's best for us. We as women and our doctors will make these decisions without politicians in our private medical decisions. I will not stand by while our country is letting women die from preventable causes. My daughter's life is more important than any pregnancy. We are not second class citizens! Abortion is healthcare!

Hello. My name is Noah Arnold. I'm from Troy, Missouri. We the people of Missouri, want amendment 3. Not HJR 54. Over 1 million people voted yes on this amendment, and it's your job to uphold it. Not take it away. Limiting and/or taking away abortion access will hurt people. And not just emotionally. People who want abortions, will get abortions, and doing so without the hand of a trained professional, can lead to severe complications, including death. Keep bodily autonomy. And respectfully, stop trying to tell people what to do with their bodies.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Dear Members of the Missouri General Assembly, I am writing to strongly oppose House Joint Resolution 54, which seeks to impose further restrictions on reproductive health care in Missouri. This resolution is a direct attack on the will of the people, as Missourians have already made their voices heard in the 2024 election, affirming that women should have access to abortion care. By attempting to restrict abortion access to only cases of medical emergency, fetal anomaly, rape, or incest, this resolution disregards the fundamental rights and autonomy of women across our state. Missourians have already voted on this issue, and they have clearly expressed that reproductive freedom should be protected. HJR 54 undermines that democratic decision and seeks to override the will of the people with political interference. Furthermore, the requirement that victims of rape or incest must report their assault to law enforcement at least 48 hours before accessing abortion care places an unnecessary and cruel burden on survivors. Many victims do not immediately report their assaults due to fear, trauma, or concerns about retaliation. This provision further harms victims by denying them timely medical care and imposing government overreach in their most personal health decisions. Additionally, this resolution attempts to conflate reproductive rights with restrictions on gender-affirming care for minors, further demonstrating an effort to limit the rights of individuals and families to make informed medical decisions. These provisions serve only to impose a rigid and harmful political agenda on Missourians. The people of Missouri have already decided that reproductive rights should be protected. HJR 54 is a blatant attempt to undermine that decision and impose unnecessary restrictions on personal health care. I urge lawmakers to respect the will of the voters and reject this resolution. Sincerely, Olivia Fredrick

The women and girls of Missouri deserve equal and fair access to reproductive healthcare. Placing several restrictions on how and when women can receive medical care is overbearing, unnecessarily paternalistic and unfair. Putting barriers on medical care is never fair, and quite frankly I see it as disgustingly inhumane to tell a woman how she should be dealing with incest and rape in order for her to be able to receive care in cases of pregnancy. Medical issues are always private, but when it comes to rape or incest I especially believe that it is insane to put strict restrictions onto women. Missourians voted, and the results showed support for Amendment 3. Stop trying to undermine voters, this bill is going against what Missourians collectively and democratically voted for. If you care for democracy and representation, listen to your voting population that made a clear choice.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Well-meaning and thoughtful Christian people disagree on whether making abortion illegal will save lives, let alone whether the government should have any say in a decision so personal and permanent. To me, being “pro-life” should mean more than being “pro-birth.” It should mean that you care about everyone – not just an unborn fetus. It should mean that you want the best possible life for all people, and therefore you protect and value the lives of all women. Way too often, politicians will beat their breasts about abortion when it serves them well, but then turn right around (knowing we aren’t watching) and work against any effort to actually save or improve people’s lives. Making the medical procedure of abortion illegal doesn’t “save lives” but it costs the lives of many who will not receive timely or appropriate care, whether they are trying to sustain a pregnancy to full term or not. We KNOW from a ton of research what reduces elective abortions: Easy and free access to prenatal care, nutrition, sex education, childcare, birth control. If you truly want elective abortions to go down, make having a child less dangerous and less financially impossible for single moms. Teenage pregnancy is dangerous for both the mother and the infant. But, in Missouri, teenage pregnancy rates have been going up dramatically, as access to birth control and sex education have decreased due to state policy. And here’s another scary statistic: It is estimated that in our society, one in five women will be physically abused during pregnancy -- homicide during pregnancy now surpasses the previous leading causes of violent death (automobile accidents and falls) for women (<http://pregnancy.about.com/cs/domesticviolence/a/domesticviol.htm>). Don’t these lives count? Shouldn’t we care about protecting everyone? Where are the billboards that say “Real men don’t beat pregnant women”? How is cutting healthcare to poor children, keeping safety locks off hand guns, or failing to adequately support shelters for victims of domestic violence consistent with placing high value on life? To me, it isn’t. But many supposedly “pro-life” politicians have done just that, including the current leadership in the state of Missouri. What I expect to see in Christian politicians is evidence in their lives and their actions – not just their words -- that they have a broad and long-term commitment to saving and improving human life. Focus on laws attempting to micromanage medical care is not consistent with such commitment.

Hello, my name is Paige Spindler-Richardson, and I'm from Springfield. As a Missourian, I value the freedom that we have to bring issues to the ballot that matter to us as citizens through initiative petitions—one of the most American, democratic processes that we have in our state let alone the country. HJR 54 flies in the face of American freedoms, violating the majority vote of Missourians by upending Amendment 3's passage at the ballot box. I urge you to vote NO on HJR 54 and respect the will of the people.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Abortion is health care and is a vital part of providing those who can become pregnant with complete reproductive care. Abortion is sometimes necessary for the health of the person carrying the pregnancy. It is sometimes the best option when the fetus is nonviable. Abortion should always be an option in the cases of rape and incest. Most importantly, the decision to have an abortion should be a private decision made between the pregnant individual and their healthcare provider. The citizens of Missouri voted in November of 2024 and made it clear that we demand reproductive rights in our state. For our elected representatives to overturn that vote would be a betrayal of the trust of the citizens who elected them.

Missourians voted to protect the right to reproductive healthcare, including abortion, this past November by adding Amendment 3 to the Missouri constitution. I urge all members of the Missouri Legislature to respect the will of the Missouri voters and vote no on HJR 54 and any other attempts to overturn any part of the protections granted under Amendment 3.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

HJR 54 raises significant concerns regarding health equity, medical ethics, and individual autonomy. Restricting public funding for abortion disproportionately impacts low-income individuals and may lead to unsafe procedures, while limiting gender-affirming care for minors contradicts medical consensus and could harm mental health outcomes. The resolution also risks government overreach into private medical decisions and may face legal challenges related to constitutional rights. Given shifting public opinion on reproductive and gender-affirming care, Missouri should carefully consider the broader implications of this amendment to ensure policies that uphold personal freedoms and public health.

I encourage you to uphold the will of the people of Missouri, who voted to ensure women will have the right to reproductive choice. As a woman over 75, I personally experienced the era when friends and family had to make clandestine arrangements to exercise that choice. This is not the kind of health care that Missouri women deserve and not what Missourians voted for.

I am greatly opposed to HJR 54. I was a volunteer at Planned Parenthood for five years doing intake so I have direct experience with the importance of reproductive health. I also was a signature gatherer to put Amendment 3 on the ballot. The people of Missouri have spoken and we do NOT want politicians putting constraints on the limits of reproductive health. You are putting physicians through so many hoops having to prove that a pregnancy has an emergency, fetal anomaly or forcing a woman to report rape or incest to police that most of them and emergency rooms will not allow a life saving abortion. And tacking this onto a ballot measure banning surgeries, hormones, and drugs given to minors for gender transitions is very unfair. You know that people want legal abortions in the state so you tack it onto something that most Missourians are against so you are guaranteed to overturn the law we voted for. Politicians are NOT experts on healthcare so stop forcing your religious viewpoint on the rest of us.

Dear Committee Members: My name is Patricia Hubbs and I live in Jefferson City MO. I am writing in opposition to HJR 54. In November 2024, 1,538,659 Missouri voters went to the polls in support of reproductive rights. Voters want abortion and reproductive rights to be included in the Missouri constitution, including gynecological health care for Missouri women and girls. Voters have spoken! As a woman who had to make a choice many years ago, I was grateful that there was no politician standing in my way of what was best for my well being. It was a decision made with my family and my physician. To this day, I stand in support of any woman's right to choose, regardless of my decision. There is no place in a woman's anatomy for politics and religion. We must be doing more to improve health care for all Missourians. We must be encouraging sex education in schools and providing birth control pills as OTC medication. The current legislature should not be trying to overturn the will of the Missouri voter with this type of legislation. Again, I stand in opposition to HJR 54. Thank you!

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am speaking against HJR 54 because this bill attempts to overturn Amendment 3, the Reproductive Freedom Amendment that voters approved by majority vote in November of 2024. I am concerned that this bill is before the legislature, when the people have settled this matter less than six months ago. Missourians deserve to have their votes count. When will this Legislature start taking the people's vote on these matters seriously? Legislators are supposed to represent us, not simply impose their bias to overturn the will of the people. There is nothing in the Reproductive Freedom Amendment to our constitution that forces a woman to have an abortion. If she wishes to carry her baby to full term despite issues with the pregnancy or otherwise, that is her choice. If she does so from a religious motive, that is her choice. If she does so because of medical complications, that is her choice. If she does so because she knows that she cannot, at this time, raise a child, that is her choice. Amendment 3 does not force any woman to have an abortion. Amendment 3 allows a woman to choose what is best for her and her family, under often very difficult circumstances, and it should remain that way. A 12 - or 13-year-old girl who becomes pregnant at the hands of her father, stepfather, a brother, an uncle or through rape from someone else should not be forced to carry a pregnancy to term. For the state to condition access to a termination of the pregnancy resulting from rape upon whether the victim has reported the situation to authorities within an arbitrary timeframe is callous and absurd. The people have spoken. Please listen to them. Do not vote this bill out of committee.

Women's reproductive health care, including abortions, should be made in consultation with her family and healthcare provider, not politicians. The citizens of Missouri have spoken. To insinuate that the citizens of Missouri cannot read or cannot comprehend what they read is insulting and wrong. This is an example of the hypocrisy of politicians in Missouri and is shameful.

HJR 54 is a move against the will of voters who approved Amendment 3 last November. I believe this move is trying to take my vote away and should be considered illegal. We must protect women's health by keeping abortion legal and safe. In addition to trying to undo an amendment already approved, this move also is too vague when including "medical emergency" — this role must be left to medical professionals to ensure women's safety, not voters. Bottom line: A woman must have the right over her own body, medical professionals must not be put at risk in helping with medical needs and emergencies, and this need has already been approved by voters.

This bill is in opposition to Amendment 3 that passed by will of the people of Missouri. As a citizen of this state, I'm appalled that our legislature would seek to disregard the democratic process that passed Amendment 3 by majority vote. Please oppose this bill to respect our democratic process and protect the reproductive freedom of women

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The voters have already had their say. We do not need this. Moreover, this is about abortion, not unwanted pregnancies, or babies, or women's health. If it were about those things there would be sperm- which is the cause of 100% of pregnancies. There would be a DNA database of all sperm. A requirement that the sperm donor assume financial responsibility for the child, even if he were denied custody or visitation, and for rapists there would be automatic castration in addition to any other sentencing. Birth control would be available the moment sperm became viable and when eggs became fertile, regardless of age of puberty. We would have universal health care for women and children, at the very least. This is about abortion and specifically about men controlling the means of reproduction. The basis of inherited wealth in our society is patriarchal and assume the man possesses the woman's body and has the right to determine what happens to it. Forced sterilization among people of color and poor white women, and rape as a "minor offense" at the least and a "right" at the worse, are also part of this ownership. As for religion, I do not believe you are motivated by God anymore than I believe you are motived by a desire to make life better for women, children, mothers or babies. There is also separation of church and state. However, even if really do believe your own words, you fail to answer how two souls can be in one body. And you do not have the right to interfere with me and my God. Humans were given Free Will and each person must answer for the actions. You are obstructing this process. Moreover, you can force people to abide by your laws, but you cannot force them to agree with you, or believe in your God, or truly worship your God. And in the Bible you swear you uphold, you ignore the fact that God commands his own people to do as he says and obey him. His chosen Holy people - who are not all people- are meant to serve as a model. Nowhere does he command that Israelites convert other peoples. And then there is science. You say "a life begins at the moment the egg is fertilized" but again, but do not hold the sperm donor responsible for the pregnancy. Just as you insist that "gender is determined by chromosomes at conception, but conveniently dispose of all other chromosomal science that contradicts your beliefs. And genitalia doesn't develop until at least 6 weeks, and all fetuses develop female genitalia first. You say "the fetus feels pain" but ignore the science that demonstrates that while nociceptors might develop they have no connection to the brain and the brain isn't fully developed enough to process those connections until 24 weeks. Just as you insist that cardiac stem cells are a heart beat, before there is a heart. You should be ashamed to steal the taxpayer's money writing this rotten piece of legislation, and if it were up to me every person that signed this would be removed from office. We voted. This resolution is garbage.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Hello my name is Racheal Martin. I am 37 years old and I live in Lamar MO with my husband, Rusty Martin. I am writing to you today to submit my testimony to oppose HJR 54. I am not able to make it in person today as I am a leader at our local Rotary Club and the hearing for this bill conflicts with our meeting. When Roe v Wade was overturned in 2022, it came out shortly after that our politicians had already met in 2019 to establish a trigger law that would put a total abortion ban in place in MO, should Roe v Wade ever be overturned. This was highly deceptive to all Missourians and took advantage of our right to have open access to information and our ability to give input to the issues that are the closest and most sacred to us. My local representative said that the female legislators had to educate the male legislators in the room on how pregnancy even works before they decided on the trigger law. This should have never happened and was a power grab against the freedom and autonomy of all Missourians. One of the most sad and chilling realizations I had is when I spoke to constituents during the gathering signatures process, all had no idea that on top of this total abortion ban, MO politicians had also removed ALL protections for victims of rape and incest. Its a barbaric ban and entirely inconsiderate of those who have faced their own literal hell on earth. Women and girls who live in the great Show Me State, should be trusted with the decisions to be made about their own bodies. Stripping away that right is stripping away the foundation of what it means to be a Missourian and an American citizen. And when you look at the data, Missouri's abortion rates were the lowest they had been in years, so to say that is was a glaring issue for our state that would justify such a power grab, is highly deceptive. This was a direct attack on our freedom to choose our own beliefs. We do not need or want MO politicians who are leading with their religious beliefs, in the conversations involved with our ability to bear children or to not bear children. We have a right to self determination and we have always previously enjoyed that protection in living in Missouri. As a victim of a violent and long term crime when I was a teenager in SWMO, by a pastor of all people, this new abortion ban shook me to the core when I heard of it and I couldn't rest until our freedoms had been put back. I had never been part of an organized group around policy but I knew I had to find people that were going to fight this. I joined a local protest that was being organized in Joplin Missouri and I brought my girls with me. I found a couple of groups that were drafting petitions and I learned so much about the Initiative Petition Process at that time. I saw how the petitions were submitted to the Secretary of State for approval and we eagerly awaited those approved petitions so we could hit the ground running gathering signatures. I found Abortion Action Missouri that was working on Amendment 3. I spent my own time, money, and energy giving this issue my upmost attention. No one came to me--I went to KC for training and for turning in legitimate signatures. No one was paying me either--this was something I volunteered my time to. I'm a business owner, community leader, wife and mother. My family saw the direct impact this unconstitutional abortion ban took on me and on them. We had a short window to gather signatures and I gathered as much as I could in my small conservative town and had many hard conversations. I

was eager to get this to the ballot so that we could discover what the actual will of the people is on this issue on election day and I was hopeful freedom would be restored. I went to a MO Right to Life meeting to understand why there are many people that oppose it, I find it is usually a strong held religious belief that people should not have abortions. I wholeheartedly support their decision to NOT have an abortion and I wholeheartedly support my decision to have one. This is where we start to get into the territory of religious freedom which is protected by our US Constitution and one of the founding principles of the United States of America. My own aunt told me that if you are raped by anyone, even your own father and you get pregnant as a result of this assault, then it was God's Will for you to be pregnant. I reject this belief and I ask the courts to uphold my right and the right of all women and girls in this state to self determine their families. The right to choose. To have access to safe and effective, studied, reproductive care, which may or may not include an abortion. On top of this, victims of rape and incest deserve the dignity to navigate their unique challenges with the upmost freedom and care. There should not be requirements to report, although it should be encouraged, as these situations are all unique in their own way. Women and girls deserve the dignity to navigate these situations in a way that feels right to them, especially as part of the crime against them has been in stealing their agency. In regards to requiring reporting so that we don't have "criminals on the streets"--this is what my representative told me. I think MO could do much better in serving the victims in this state who have already reported their abuser only to find that MO is not that harsh on perpetrators of sexual abuse. I think when MO gets that area to a more healthier place, victims may feel safer to report the crime. Especially in the area of rape by clergy. I think our state could start there with that conversation instead of putting even more burden on the victim to "carry the load". I have much more to say and I have connected with many great Missourians on this issue and I feel hopeful we are getting on the right track. I am asking the courts of my beloved state to reject this bill that seeks to turn over Amendment 3 and turn over the peoples vote. I am asking the courts to uphold our governing processes, like the Initiative Petition, that make us the great state that we are. We are the Show Me State after all----We showed our state and the world what values we hold last November--One value we must never compromise on and that is our Freedom. Thank you for your time.

I am a proud lifelong Missourian. I deserve a right to privacy and agency regarding my healthcare. So does every woman in Missouri. Abortions, like all other healthcare measures, should be a matter for a person to discuss with their doctor; politics should not be involved. But don't just listen to me: 1,538,659 Missourians voted YES on Amendment 3, and Missouri Representatives were elected to defend the rights and values of Missourians, not pander to bases. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care. Please do what the Missouri constituency has already demanded and protect our access to abortion and all healthcare.

The people have already spoken. We voted. It's your job as our representatives to listen to how the people vote. We voted yes on 3 because we want the government to stop restricting women's healthcare. We voted so that, if you don't like abortions, you don't have to get one. Leave it at that. Get politics out of our doctor's offices. Let women make decisions about their body themselves. This isn't your place to make caveats and amendments to restrict the rights we voted for. We voted. Listen to us.

Dear Rep. Stinnett, My name is Rachel Jamieson and I'm from Springfield. Reproductive freedom is a value that a majority of Missourian voters have supported. 56% of district 133 constituents voted for Amendment 3 and the will of the people has been made clear. We support abortion and all reproductive health care. Please do not undermine democracy by trying to subvert the will of Missourians. 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights. I personally feel strongly about this because myself and numerous people I know have needed abortions for various reasons. Abortion and reproductive rights are a life-saving act of love.

The Missouri legislation has no right to overturn the will of the people. Amendment 3 represents the will of your constituents and access to safe legal abortions is fundamental for the health and well being of the people of Missouri. Medical decisions need to be made between an individual and their medical provider and is not the place of the government to make these decisions for people.

As a Missouri resident, I'm writing to voice my strong opposition to HJR 54. This blatant attempt to override the will of the Missouri people and enforce a narrow religious view of healthcare must not be allowed to stand. Frankly, people who have no knowledge of women's health care have NO business proposing laws around it. Anti-science, anti-humanist, anti-woman, and other assorted doomsday philosophies should have no place in our state house or in our federal government, for that matter. We are tired of it. We won't stand for it. The slippery trick of "exceptions" for rape is not fooling anyone. We know that the primary intent of such language is to hoodwink voters and the secondary intent is to humiliate and torture victims by reliving their experience in front of panels of male law enforcement officers over and over, while the paltry 12 week clock runs out. This bill is despicable. The cruel and ignorant authors of this bill should resign immediately, as they clearly have no business mandating the lives of millions of people. The very least you could do is educate yourself on the reality of pregnancy, rape, miscarriage and women's health. The laws you want will result in nothing but pain, suffering, and death for girls and women in Missouri. I know that in your twisted view, this is acceptable. **WE DO NOT AGREE. YOUR RELIGION HAS NO PLACE IN OUR LAWS.**

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

My name is Rachel Rimmerman, I am a resident in the city of St. Louis, and I stand in strong opposition to HJR 54. In our last election, 1,538,659 Missourians voted YES on Amendment 3, affirming that we value personal freedoms and expect our elected officials to uphold our rights. Missourians have made it clear at the ballot box that we support access to abortion and comprehensive reproductive healthcare. Our government should reflect the will of the people, not undermine it. Every individual inherently deserves the basic human dignity of accessing the health care they need to thrive. Reproductive care is health care, and health care decisions should be made between patients, their physicians, and their families as appropriate, without the intervention of Missouri lawmakers. Any restrictions on abortion, including those in HJR 54, create dangerous obstacles to essential healthcare, placing unnecessary burdens on those who can become pregnant and increasing risks to their health and lives. These restrictions not only harm individuals but also have devastating consequences for families and communities, making it harder for people to access the care they need and deserve. As a woman, my safety, wellbeing, and autonomy depend on my ability to access the full spectrum of healthcare, including reproductive care. Any attempt to strip away these rights is not only a direct attack on my freedom but also a dangerous disregard for the voices of the people you were elected to represent. I urge you to reject HJR 54.

abortion is life-saving healthcare which, as decided by missouri voters last fall, should be a private matter between a person and their doctor, like all other healthcare. it is an affront to our personal freedoms and right of self-governance to attempt to overrule the will of the people.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The will of Missouri voters is to have legal, safe abortion in our state. The majority of voters said 'yes' to amendment 3 in November, which this bill attempts to undermine. Missourians voted for and deserve this right. Abortion bans only make abortion more unsafe. Since Texas have banned abortion, the state has seen 3 documented deaths due to Texans not being able to access this care. Here is the story of just one. Porsha Ngumezi bled to death as she was miscarrying after her doctor opted against an emergency procedure used to end pregnancies. She was 35 and left behind two sons, 3 and 5 years old. Analysis has also suggested that these bans result in a higher level of infant mortality (source: <https://publichealth.jhu.edu/2024/analysis-suggests-2021-texas-abortion-ban-resulted-in-increase-in-infant-deaths-in-state-in-year-after-law-went-into-effect>) This bill also seeks to undermine gender-affirming care. As with abortion, these decisions should be left between patient and doctor. These laws only stigmatize transgender individuals further, and lead to increased isolation and adverse mental health experiences. I abhor the language and sentiment of HJR 54 and encourage lawmakers to prioritize the well being of all Missourians.

Voting yes on this bill would be blatantly undemocratic and unconstitutional as Missourians have already made their voices heard in support of abortion via Amendment 3 which passed last election cycle. As a person who would be personally affected by the passing of this bill, I cannot in no uncertain terms voice my opposition to this bill.

It was made very clear in November that Missourians want access to ALL health care, including Abortion Care. This bill seeks to overturn the will of the people and that is unacceptable. The legislators in Jeff City are supposed to represent their constituents and spending time on trying to reverse the will of the voters is exactly the opposite of what you all should be doing. Please spend your time and our money working on things that we want - more support for our public schools, fixing our roads, and of course any kind of gun saving legislation. This issue has been decided by the majority of voters. Do not reverse it.

This is not ok to do right after we voted to keep our peoples' reproductive freedoms. This unfortunately feels like people who keep trying to make this a morality issue are the ones, pushing their own agendas based on their own frame of reference. There is rarely any thought given to the fact that people have different lives. I'm strongly opposed to this bill.

I spent hundreds of hours gathering signatures and notarizing petitions for the womens health care iniative petition. I made sure that every voter that signed my petition read it. It is my belief that every signer understood what they were signing. The wording in the petition is that doctors would determine viability. The question of viability is best left to the doctors as each case is different and there is no percise way to measure gestation . Further, medical advances in the future will likely shorten the number of weeks of gestation needed for viability.

In November, Missourians voted to enshrine Amendment 3 into our Constitution. This bill deliberately and shamelessly tries to subvert the expressed will of the people. Missourians made it clear they were in favor of reproductive health rights in their entirety. We elected legislators to uphold the will of the people, and not kowtow to political interests.

I am a mother who was pregnant when Roe v Wade was overturned. I am now weighing whether it is worth risking my life and the security of my child's future to get pregnant again. Without guaranteed access to reproductive healthcare, including abortion, I could be forced to wait for lifesaving care. I could suffer the same fate as Josseli Barnica, who died in Texas as a result of doctors delaying emergency care despite the fact that her fetus would not survive the pregnancy. Without guaranteed access to reproductive healthcare, including abortion, I may be forced to carry a fetus with severe abnormalities to term knowing on the other side of childbirth there would only be prolonged suffering for both of us. I know I would do anything I could to take away my two-year-old's pain and the same will be true for any future child of mine. I believe each family knows their situation best and that choices made out of love can be painful, even as they prevent further misery. Termination of a pregnancy is an example of a time when parents take on a burden so their children don't have to. I would rather experience a lifetime of pain and agony than put that on my child. Without guaranteed access to reproductive healthcare, a survivor of sexual assault may be crushed under the weight of having to carry their rapist's baby to term. When laws interfere with a doctor's ability to make a decision based on their medical expertise, patients die. Children lose mothers. Parents lose their co-parents. Siblings lose sisters. Parents lose daughters. And if you support this bill becoming law, you WILL have blood on your hands.

First of all, I don't understand why gender affirming care and women's reproductive freedom are being lumped together in this bill. They should be two different bills. Secondly, this bill will not reduce the amount of abortions there will be. Only the amount of *legal* abortions. This kind of bill has historically killed more women than helped more women. It's not safe, it's not humane, and it's not ethical. Women should be able to choose what to do with their body just like men get to choose. Nobody tells men what to do with their genitals. Extend the same respect to women. It's nobody's business why a woman has an abortion except for that woman and her partner. Spend tax dollars on something that matters, like educating children. Or helping the homeless.

I voted to support Amendment 3 last November. It is not up to the decision of a politician, the state, or our country to decide what a woman does with her body. Reproductive health care is crucial to ALL women to have a choice with what they do with their own bodies. Abortion care is crucial to ALL women. The risk at which we put women by removing their access to abortion care (which is reproductive health care) is high. Women and health care providers in the state should not be afraid to seek access to crucial health care. By pushing back against Amendment 3, you are also putting the state of Missouri at risk of losing crucial health care providers who are no longer willing to practice in this state due to fear of losing their licenses. This bill tells women of the state of Missouri that our local and state governments do not care about how someone has voted, the state will fight against its own citizens choices to impart cruel bills that are harmful to people's health. If this is a matter of religion for the conservatives in office, note that our first amendment right in this country is freedom of religion. You do not get to push your religious agenda on all of your constituents. Especially when those constituents have clearly voted in favor of allowing abortion care within this state.

Overturning a ballot measure that was approved by voters undermines the democratic process and disregards the will of the constituents who supported it. Access to safe and legal abortion services is an important aspect of healthcare. Maintaining this access helps ensure the health and well-being of individuals who may need reproductive healthcare. The legislature could prioritize addressing other pressing issues in the state, such as education, healthcare, and economic development, rather than engaging in contentious debates over abortion rights.

Depriving the people of reproductive health care is a threat to their lives. Abortions are often needed to terminate dangerous and high-risk pregnancies. Denying the right to such care, or imposing legislation that would cause a pregnant person to be concerned for their privacy, is a violation of the human right to life and liberty as enumerated to us in the US Constitution. It is imperative that this bill be rejected by Missouri's house for that face alone. Further, even in cases of unwanted pregnancy, the state government has no moral imperative to dictate what people can do with their bodies or what life they do or do not want to bring into the world. We must prioritize the health, safety, and general wellbeing of people who are currently alive, rather than scapegoating broken ethics onto a clustering of cells in the womb.

I am Renee Van Erp, a native of Kansas City. A reminder: More than 1.5 million Missourians voted YES on Amendment 3 to protect reproductive freedom, a basic human right. You were elected to defend those rights and honor the will of Missouri voters. Reproductive health care decisions should be made by a woman in consultation with her family and her physician, not government. I find it ironic that Republicans are all in favor of reducing the size of government until they want to interfere with a woman's reproductive choices. Is that really the role of government? Simply, NO.

I am a Missouri registered voter. I voted along in support of amendment 3. You are trying to undo the will of the people. I can see where it may seem reasonable to allow for the exceptions that are in this proposed bill but those exceptions are not possible to enact because every situation is nuanced and personal and private. These situations are stressful enough, and need to be between a woman and her doctor and, if that woman chooses, her clergy. Government has no business being part of such healthcare decisions. Every pregnancy is a risk to a woman's life and how a woman came to be pregnant is noone's business

I believe that women should be allowed to choose what happens to their bodies. This includes instances of unwanted pregnancy, which can happen for a multitude of reasons. You don't own us. You have NO say. Missourians voted YES on Amendment 3 in November. It is not a woman's duty to bear children she does not want, cannot care for, or may not be old enough to parent. By stripping women of the right to an abortion, you are actually saying you think that rape and incest not only should be legal, but that you support both.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Richard Hunt, I am a registered voter and resident of the City of St. Louis, Missouri. I submit this in opposition of HJR 54. On November 4, 2024, a majority of Missouri voters, 1,538,659 voted YES on Amendment 3, supporting the rights of reproductive freedom in Missouri. As an elected member of the Missouri legislature, you were elected to defend those rights. The citizens of Missouri have recognized reproductive freedom as a Missouri value. Missourians have said it loud and clear that we support access to all reproductive health care, including all forms of family planning, including abortion services, and our government should stand by those values. To make this a personal matter, under the laws prior to the majority passage of Amendment 3, the laws would have had my daughter imprisoned, due to her having multiple miscarriages. Under those prior laws, a miscarriage was designated as a "SELF-ABORTION", and therefore could have been a criminal offense. As such, not only my daughter could have been guilty, so would any medical personel that assisted with medical procedures to save her life. Of course, if she couldn't attain the medical procedures, she could have died. Thankfully her miscarriages happened prior to the horrendous misguided decision by the United States Supreme Court reversing the Roe V. Wade decision. We have seen the damage caused to women in other states that have installed a full abortion ban. We have heard the reports of women bleeding out on the hospital parking lots, while their doctors are inside calling their attorneys to find out if they are able to provide service to those patients. We know about the underage girl that was a victim of rape and incest from a family member that had to travel across state lines to access the reproductive rights she needed. This is not what we want for the citizens of Missouri, this is not what the women of Missouri deserve.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am against HJR 54. I have been a resident of Missouri my entire life and have lived in the borders of this state for over half my life. Well you might wonder how could this be? It is because I served 20 years in the US Navy onboard submarines. I oppose this issue because first I am a dad of a daughter and if my daughter get ill because of a pregnancy I want her to be able to get care after the 12 week period that is assigned in this bill. I am secondly apposed to this bill because in our last election this matter was settled by the voters of Missouri with amendment 3 which allows for the care that I want my daughter to be able to get. Representative Stinnett from the District 133 (Greene County) does not and I repeat does not represent my views of reproductive freedom that I want everyone to have. Representative Stinnett should also be condemned for her laziness in adding into this bill about transition surgery for kids which is still at this time illegal in Missouri right now. If she would have done an easy google search she would have know that this is illegal is the state of Missouri. Representative Stinnett is using this wedge issue to see if she can get abortion outlawed in Missouri because she will advertise that this amendment is to save the children from this fake travesty. Shame on you Reperesentatve Stinnett Shame on you. The Safe Act was passed in 2023 and this is what that google search reviled to me. Yes, gender transition surgery is illegal for children under 18 in Missouri. This is due to the Missouri Save Adolescents from Experimentation (SAFE) Act, which prohibits gender transition surgeries, hormones, and puberty blockers for minors. The SAFE Act prohibits health care providers from performing gender transition surgeries on minors. The SAFE Act also prohibits health care providers from prescribing or administering cross-sex hormones or puberty-blocking drugs to minors. The SAFE Act allows minors who were already receiving treatment before August 28, 2023 to continue with treatment. Violating the SAFE Act is considered unprofessional conduct and can result in the revocation of a health care provider's professional license. Parents, guardians, or other people in charge of a child who receives prohibited gender assignment treatment can be reported to the Children's Division for child abuse and neglect. Stop trying to legislate us with fear and also please stop thinking we are stupid.

Rita Buckley, Retired St L Louis County, MOFYI. Deadline for testimony is tonight. Please enter yours and share this with others From Cheryl. It won't take long-----The Missouri Legislature's currently attempting to roll back Amendment 3. There is a hearing in Jefferson City tomorrow at 4 p.m. (Feb. 4). Submitting online testimony is a critical way to demonstrate opposition to HJR 54 if you are unable to attend in person. If you have not submitted online testimony already, you can do so through this form at <https://witness.house.mo.gov/Default.aspx?bill=HJR54¬iceid=9177>. If you have already submitted testimony and would like to continue to support this effort, please send the form to friends and family encouraging them to sign up to testify online with AAM. Everyone has until 11:59 PM Tuesday night to submit testimony. Nearly 300 supporters have testified in opposition to HJR 54. The goal is to get to at least 500 by 11:59 PM on Tuesday. Last, here are a few notes on how best to submit testimony online* In your testimony, identify yourself and where you live (ex. "My name is X, and I'm from 'city'). * You can use the talking points below to guide your submission. * 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights * Reproductive Freedom is a Missouri value * Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them* **Note: You will be sent a confirmation email from the Missouri House website upon testimony submission and you must click "confirm" for your testimony to be counted.

Only medical professionals should decide what constitutes a medical emergency not lawmakers. There may be reasons women to not report rape. This is a ridiculous requirement and just another law that infringes on womens' rights. Individuals should have control of their medical health choices including decisions for abortion. Gender transition issues should not be part of this bills. Completely different subject.

As a Missourian, an American, and as a human being, I grow more distressed with the idea that politicians think they can override the will of the people. We voted to protect the rights of women to have COMPLETE CONTROL over their bodies because we know it is right. We didn't vote this through because we thought someone would come along and change it without our permission. We voted it through because that's what WE THE PEOPLE want. Do your job and protect what we voted for, don't destroy even more families and lives. Leave our trans brothers and sisters out of this. They are just like us. Trying to live their lives as they know they should. Stop fighting them too.

Simply put, HJB 54 is an attempt to overturn the will of Missouri voters and once again outlaw abortion in the state of Missouri. This amendment was clearly a mandate in favor of women having freedom to protect the healthcare of their bodies with the professional expertise of their physician and education, principles, and standards of the ACOG. Quite frankly, this move to overturn the voters' mandate for their freedom of care is seen a violation of human rights from thousands or more.

Amendment 3 to the Missouri Constitution assures women the right of reproductive freedom. Many procedures that protect the life and health of women would be prohibited by removing this amendment. I support Amendment 3, and removing it would be a grave mistake, especially since a majority of voters approved it.

Missouri voters made their voices clear when they passed Amendment 3, enshrining the Right to Reproductive Freedom in our state constitution. Now, HJR 54 seeks to undo the will of the people, stripping away our rights and imposing an extreme agenda that threatens both reproductive freedom and access to gender-affirming care. This measure is not just an attack on abortion rights—it is an assault on bodily autonomy, on democracy, and on the right of every Missourian to make private medical decisions without government interference. HJR 54 is an unconstitutional power grab that disregards the will of the people. Missouri lawmakers must respect the democratic process and reject this harmful, regressive measure. We demand the protection of reproductive rights and the fundamental freedoms that belong to us all.

In taking away a woman's right to her own body, you are not only stripping someone of basic body autonomy, but you are suggesting a woman is too stupid to judge how to act upon her own life. In deciding the "right to life" of something not yet fully produced, you want to take the right of someone who actually exists and jeopardize their own health and safety. And while gender transitioning is not simple in terms of maturity or health, to tag it onto a separate issue like abortion rights (a right the people of Missouri voted for) feels underhanded and a means to employ misguided feelings of transphobia to a completely different situation in order to bolster your cause.

In 1968, long before the protections of Roe, my college roommate got pregnant by a rich 'pillar of the community' - well connected to the governor. He became increasingly violent toward her and did not want the shame of fathering a child. He tried to rape me. She was terrified of this man, and so was I. She had to abort this fetus or be subject to his violence for years. After 2 failed coat hanger abortion attempts, she went to a 'back alley' clinic in Chicago. After that she was dropped off at our apartment without any medication for pain or methods to stop the horrible bleeding. She nearly died and could not go for medical attention. After graduation, she signed up to go to Vietnam to get as far away from this man as possible. He went on to murdering the next girlfriend and was sentenced to prison for the criminally insane. She had a beautiful and productive life. Whether a women needs an abortion because of choice, medical emergency, or a deformed fetus, she deserves a safe and legal abortion regardless of anyone else's theoretical choice. Allow women to make these choices alone or with medical and spousal supports. No one else but women understand this choice.

I find it wildly inappropriate for our elected officials to waste taxpayer money and time to overturn an amendment that the people of Missouri voted for and approved just last year. Respect the will of the people. Abortion is a medical procedure that is not entered into lightly by anyone that needs or chooses to use it. Access to this procedure saves women's lives in Missouri and keeps quality health care providers in the state. Your unrealistic timelines proposed in this bill are not founded in science and are simply set to make sure fewer people would be able to meet those restrictive timelines. I also find it highly inappropriate to try to tie transgender rights and medical procedures into this bill. It is a twisted ploy to muddy the waters on the topic at hand for either of these things. I would like to see the representatives stand down and respect the voice of the people as put forth last year.

Only pure and blatant disrespect for your own constituents would permit you, our alleged representatives, to deny what we have already accomplished and proven to you. We have already voted on this matter. We have already shown you, at great cost, what we Missourians believe by voting in clear majority for Amendment 3. The longer that you continue to deny the Constitutional rights of the people of your state, the more severely you damage your own soul. Your duty is not to decide for us what we get to have. Your duty is to ****serve**** us, to represent your constituents no matter what you personally believe. Your religious beliefs are yours, and not mine. My religious beliefs are mine, and not yours. Every single one of you who votes in favor of this resolution, and Representative Stinnett who proposed it, will have betrayed his or her countrymen in favor of his or her personal hypothesis about the nature and intent of God and the universe. If your religious convictions do not permit you to support the will of the people, then I call on each and every single one of you to follow the word of your own Lord and resign immediately from your positions; for He told you in Matthew 6:24 exactly what you must not do and are doing anyway: **No man can serve two masters: for either he will hate the one, and love the other; or else he will hold to the one, and despise the other. Serve your constituents, now, or resign if you cannot. Pick your master.**

Having served my country in defense of our freedoms for 23 ½ years in the United States Navy, I am gravely concerned at this legislative attempt to reverse the will of the people! I worked just a few weekends gathering signatures in the SWMO Area and the consensus among the constituents who have a stake in the matter is to “Get Government Out of Their Private Business!” Literally, what has happened to the respect for the HIPAA Privacy Rule – this information on medical care being sought and being provided should have never been available to legislators in the first place! The last place the Republican legislators, many of whom subscribe to a radical religious viewpoint, belong, is in my daughters’ private medical clinic exam room! We fight AGAINST religious terrorism and subjugation of women overseas, yet here in Missouri you continue to propose laws violating the very right of women to have governance over one’s bodily domain? How is this any different than the Taliban? Just think of all the time you could dedicate toward caring for the thousands of foster kids and currently neglected and abused children already in need and helping Jamie to bring his lofty idea to hold men more accountable for their offspring if you were to just let doctors be doctors, and patients make their own decisions with regard to their own bodies? The financial guess on this supposed resolution says it would save \$800K. You are already raiding constituents state tax dollars illegally by diverting them to the ‘alternatives to abortion’ program which puts residents hard earned tax dollars into the religious non-medical and therefore non-mandatory reporting and falsed ‘crisis pregnancy care’ centers. Do you know what it costs to raise a child when you are impoverished and there are no fosters willing to adopt? In Missouri, it is an estimated annual \$360,000.00 PER child. (Veronoi by Visual CapitalistMapped: The Cost of Raising a Child in the U.S. - Voronoi) So you will be double dipping every resident’s state taxes and even federal taxes by having to provide a means of support through TANF and WIC and SNAP thousands more than a mere 2 offspring (which would be \$800K for one and ½ years) whose parent(s) were in no way, shape, or financial form to raise them. Did you know there were over 5,800 pregnancies caused by rape in Missouri alone? Journal of the American Medical Association (JAMA) study: Mo. saw 5,800 rape-related pregnancies since abortion ban. So do the math on that one! It’s \$2,088,000,000.00?.Putting legislators in the medical professional’s seat and driving is a matter of gross negligence, while an estimated 1/3 are professional clergy men, there are no legislators in your families’ committee with the medical education and degrees to rival the best doctors and yet they feel empowered to tell them what is right and wrong in the world of medicine? This is simply unacceptable and a travesty. This is an heinous attempt to cancel out the recent voter approval of Amendment 3 which clearly states that the following be known as Article 1, Section 36 of the Missouri State Constitution: “The government shall not deny or infringe upon a person’s fundamental right to reproductive freedom, which is the right to make and carry out decisions about all matters relating to reproductive healthcare, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care, and respectful birthing conditions. “ The only line

**you may have right is the common line of “A woman’s right to health care in cases of miscarriages (we don’t want women bleeding out in parking lots like they are doing in Texas) , ectopic pregnancies (someone gave Brian Seitz a Fallopian Tube lesson, didn’t they!) , and other medical emergencies (like having a fetus which has died inside of you and other fetal anomalies which would threaten the woman’s life with no hope of life outside the womb for the fetus) . This SJR 54 is offensive, untimely, and a matter which is no longer on the legislative dinner table for consumption. The Secretary of State has authorized hospitals to perform abortions legally. In the matter of religion, each person has the right to practice their own. What each person and pastor in your Republican body who are also presenting as a legislator does NOT have, is the right to push their religious intolerance into matters of personal, private, and legal medical care decisions with regard to abortion. Sincerely,Ms. Sabrina BonnetteU.S. Navy, Retired
Ozark MO**

Missourians voted to enshrine abortion rights into our state constitution. This is an attempt to infringe up on those rights by placing restrictions on the healthcare that Missourians can receive. This is absolutely inappropriate and an overreach of government. I am strongly opposed to this bill.

As someone who needed post miscarriage health care 40 plus years ago, I am very much in favor of Abortion rights and healthcare for women who have had a miscarriage. This healthcare should be considered a medical procedure previously known as a D&C and NOT an abortion. The people of Missouri have spoken and they do not want the draconian laws that you are now trying to put in effect. We all know that voting for amendment 3 was our privilege and you do not have the right to take away our votes

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Missouri voters were clear that they do want abortion bans. HJR 54 is a disgusting attempt to control women, confuse doctors, and harm women. It is proven that abortion bans with "exceptions" for medical emergencies confuse and scare doctors and invoke panic about when they can give care. How sick is sick enough? "Medical emergency" is not clear terminology that can be used to set a hard and fast rule. Just look at the tragedy that happened in Texas with Nevaeh Crain, who died because the rules weren't clear when doctors could give her an abortion. She is dead. Whole life ahead of her and this would've been a simple procedure. These vague exceptions muddy the waters and do nothing to ensure women's safety. "This is how these restrictions kill women," said Dr. Dara Kass, a former regional director at the Department of Health and Human Services and an emergency room physician in New York. "It is never just one decision, it's never just one doctor, it's never just one nurse." This is also a sneaky and hateful way to continue to push anti-trans rhetoric which is a very different issue. Do not let Missouri women die because Stinnett hates trans kids. Please.

To whom it may concern, I disagree with the current governmental overreach in making decisions regarding women's healthcare and dictating what we can do with our bodies. This intrusion represents a clear disregard for personal freedoms and individual rights. Moreover, we voted yes on Amendment 3, and it was passed by the will of the people here in Missouri. Our politicians are failing to respect the democratic process and the voices of their constituents by ignoring this vote. Such actions demonstrate a blatant abuse of power and a refusal to honor the decision made by the people regarding Amendment 3. It is crucial that our elected officials remember their duty to serve and represent their constituents, upholding the principles of democracy that we hold dear.

I am a woman in Missouri who turned out to vote to protect the rights to my body and the fact that vote is now being called into question is wrong and undemocratic. The people have spoken. The government has no room in a woman's medical decisions. I am a mother by choice, and abortion was banned at the time I gave birth. I had my son across state lines in Kansas so I knew my doctors could make decisions they needed to make based in their medical expertise and not fear of legal action. Choice must be protected in Missouri.

The will of the people was clear when Amendment 3 was voter approved and restored abortion rights. My body, my choice with the medical knowledge and support of my physician. Fetal viability doesn't even occur until 24 weeks. Public funds already don't fund abortion and that is just candy for conservatives. We have already seen harm and death because of lack of access to care and our medical professionals being afraid of prosecution, including but limited to jail time or licensing being provoked.

My name is Sam Nelson and I live in Poplar Bluff, Missouri. Missourians have already spoken loud and clear: reproductive freedom is a Missouri value. In 2022, 1,538,659 Missourians voted YES on Amendment 3, affirming their commitment to personal freedom and bodily autonomy. As elected officials, your duty is to uphold the will of the people, not undermine it. HRJ 54 is a direct attack on the rights Missourians have fought for and defended at the ballot box. It disregards the overwhelming support for access to abortion and comprehensive reproductive healthcare, threatening the very freedoms that our government should be protecting. Missourians deserve a government that reflects their shared values, not one that seeks to strip away their rights. The people of this state made their position clear: they support access to abortion and reproductive healthcare. Any attempt to roll back these rights is not only out of step with the electorate but also a dangerous overreach.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am writing to express my strong opposition to House Joint Resolution 54 (HJR 54), which seeks to undermine Amendment 3, a measure that was passed by the voters of Missouri in November 2024 to ensure reproductive freedom. Amendment 3 reflects the will of the people, affirming our right to make personal decisions about our bodies and our health. The passage of this amendment was a pivotal moment for many Missourians, as it provided essential protections and access to reproductive healthcare. HJR 54 represents an attempt to roll back these hard-won rights, disregarding the voices of the citizens who made their choice clear at the ballot box. Furthermore, the pursuit of HJR 54 raises significant concerns about the implications for women's health, autonomy, and equality. Reproductive freedom is not just a personal issue; it is a fundamental human right that impacts the lives of individuals and families across our state. Restricting access to reproductive services disproportionately affects marginalized communities, exacerbating existing inequalities and limiting opportunities for those who are most vulnerable. In addition, the legislative process should prioritize the voices of constituents rather than silencing them through measures that contradict the democratic process. The people of Missouri have spoken, and it is imperative that their decisions be respected and upheld. I urge you to reject HJR 54 and stand in support of Amendment 3, which safeguards the reproductive rights of all Missourians. Let us continue to prioritize the health and autonomy of our citizens, ensuring that everyone has the freedom to make choices about their own bodies. Thank you for your attention to this important matter. Sincerely, Samantha Rohaus

Access to reproductive care is **ESSENTIAL** to the health of women and families. Any restrictions, whether gestational timeline, reason for need of care, or others, is a detriment to women. This is about medical care which should be decided by a woman and her doctor, not a politician. If a woman's morals, religion, or social stance lead to a decision in the case of an abortion, that is her right. Allowing exceptions to care only muddies the waters when it comes to **TIMELY** and safe reproductive care. Ignoring the vote of the people is absolutely abysmal and it's embarrassing that we are, once again, having to defend our own rights as human beings.

Last November, the People of Missouri voted to protect the right to choose, and enshrine it in our Constitution. However, the state of Missouri is ignoring the rights, and wills of, their constituents; And not only attempting to nullify what we voted in favor of, but also to pass new legislation which has the opposite effect. This is unacceptable. Also, the fact that part of HJR 54 addresses taking away access of hormones to transgender minors, is deceitful and disgusting. The individual who needs whatever type of healthcare is in question, is the ONLY one who has the right to decide what they need - no one else, and certainly not the state. The people of Missouri have spoken - Stay Out of Our Pants.

You all know this is wrong. This very proposition undermines democracy in a way so unimaginable in a country like America. The people of Missouri used their voice, a right ensured in a democracy, to pass Amendment 3, and here you are, undermining what we JUST voted yes on. Do you care about what your people think at all? Or do you only care about YOUR political careers and YOUR ideologies. I think you already know the answer to that question. This proposition should not even exist, and you all should be ashamed of yourselves for even conceiving it. Whether you like it or not, abortion is a procedure that saves the lives, metaphorically and in some cases literally, of people that are already living. Even though nobody I have had a sexual relationship with has gotten an abortion, just knowing I had the option made me feel a lot more confident in my future. In addition, I was dumb when I was 15, just starting to have sex. Everyone is at that age. Even as adults, people make stupid, thoughtless mistakes. So why when a teenager decides not to use protection (when legally they can't even consent to sex, so what makes you think they can fully process the risk that it can lead to a baby?), can they not access an abortion? I know I didn't fully understand that then, and truly I don't even now. For the sake of all the teenagers in Missouri who were in the spot I was in, don't roll back the amendment we JUST passed. I beg you to think about the consequences this will have for our democracy down the line and to put aside your personal beliefs this once for the greater good.

Chairperson and Members of the Committee, I am sending this testimony today because my health does not allow me to travel to Jefferson City to speak to you directly. I hope you will accept this written testimony. I am in strong support of Missouri Amendment 3 and in opposition to the restrictive language being proposed. This issue is not about politics—it is about protecting the health, dignity, and autonomy of Missouri’s women and families. Missouri Amendment 3 Protects the Rights and Health of Women Amendment 3 ensures that women have the right to make private medical decisions with their doctors, free from government interference. It recognizes that reproductive health care is not a one-size-fits-all issue and that patients must have access to medically appropriate care without unnecessary legal barriers. The proposed restrictions impose dangerous government overreach into personal medical decisions. Limiting abortion access based on arbitrary gestational limits and requiring law enforcement involvement for rape and incest survivors creates insurmountable hurdles for already vulnerable individuals. Survivors of sexual violence often face fear, trauma, and stigma that prevent them from reporting their assault immediately—yet under this proposal, a woman who has suffered rape or incest would be forced to navigate bureaucratic red tape just to access care. Medical Emergencies and Complicated Pregnancies While the amendment acknowledges that miscarriages, ectopic pregnancies, and other emergencies require care, the restrictive language leaves far too much room for legal uncertainty. Medical providers should not have to second-guess whether they will be prosecuted for providing urgent, life-saving treatment. Missouri has already seen cases where women were denied emergency care because doctors feared violating restrictive abortion laws. Physicians must be able to act based on medical necessity, not political mandates. Public Funding and Gender-Affirming Care Additionally, the proposed language prohibits public funding for abortion, disproportionately affecting low-income individuals who already face barriers to care. It also seeks to ban gender-affirming care for minors, despite the overwhelming medical consensus that such care is vital for transgender youth. The government should not dictate which medical treatments are available based on ideology rather than medical evidence. Missouri Voters Deserve the Freedom to Make Their Own Decisions Missourians value personal liberty, privacy, and bodily autonomy. Amendment 3 restores the rights that were stripped away after Roe v. Wade was overturned. It ensures that Missouri families can make medical decisions based on their unique circumstances, not on restrictive laws designed to control their choices. I urge you to reject the proposed restrictions and support Amendment 3 to safeguard the fundamental rights of Missouri’s women and families. Thank you.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

As a woman herself, any woman should have the right to reproductive healthcare. Most women do not know they are pregnant until after the 12 week mark. Abortion is a right and the choice of an individual person, that person being the one carrying the fetus itself. If a woman were to give birth and were not able to take care of it, who would? The foster care and orphanage systems are all a huge mess leading the child to trauma and a life of struggle if this was truly about the baby there would be more support programs and less poverty. To add on to the fact of rape and incest most are never recorded out of fear from the victim and often peer pressured from their family to never speak out on it.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

Hi, my name is Sara Kalinowski. I am a 41 year old mother and resident of Randolph County, Missouri. I wanted to provide my oppositional testimony in regard to the proposed Bill(HJR 54-Stinnett-Reproductive Health Care). First, I'd like to say that I can respect the ideals and effort put forth in to the written proposal. However, I am writing in favor of the opposition for various reasons. I will include my personal views, and views based from here-say. I'd like to add that I do not have any names of persons or documents from myself or said persons, to provide. Below, I will mention particular items from the proposed Bill in list format:1)On the mentioning of prohibiting any abortion past 12 weeks-My opposition is that I believe 12 weeks isn't long enough to make a decision on whether or not to keep a pregnancy going. I have heard of stories of women who didn't know they were pregnant, or experienced a non-viable pregnancy well past 12 weeks. 2)Also, I'd like to add that in cases of rape or incest- I often hear of women who feel ashamed that this happened to them or are shamed by others. So, if a woman's case needs investigated, she needs to feel safe to come forward and treated with dignity. Honestly, I think expected mothers, or rape/incest victims need to have quick, free or low cost access to a mental health professional to help them through such a difficult time, without bias, which should include moments during an investigation. 3) I would like to make an additional statement that in my opinion needs to be considered. Here is a personal story I'd like to share: I have attended live sessions via social media (creator unknown), and have witnessed extremely loud protests near Planned Parenthood facilities. Personally, I find these disturbing and possibly quite stressful on the attending physician/ or patient. I feel that such protests shall not be held so close or be too loud near these places. What if the expected mother on their way to Planned Parenthood (or similar), decided they wanted to keep their baby? I believe additional rioters, loud protestors or harassers could cause potential dangers to the mother and unborn baby. 4)On #3(Section 3), it mentioned not allowing public funds to terminate a pregnancy. I disagree with this and here is why: I see nothing wrong in at least allowing advocacy groups to fundraise for such a cause. Advocacy groups don't require our money. I have never felt pressed in any way, shape or form to donate money to any cause. I don't see it any different that the idea of "GoFundMe", or "ACLU", for example. However, one thing I feel we need to keep in mind is (and this is to my understanding), the need for an abortion or inducing, can most definitely be a medical emergency. Why not make sure women have the healthcare they need? How is it fair to deprive us?5) On Section 5- Guidelines need to be in place and the attending physician needs to sign a document in order to acknowledge their understanding of how abortion or inducing need to be handled/performed, along with ongoing quarterly or yearly training. From those trainings, documents should be signed and dated. As far as determining whether a mishap was intentional or not, I am opposed to making that call on a medical professional's behalf. This is simply because I have no medical background. However, I support making sure that medical professionals are kept up to date on (for the lack of better words), the correct "protocol". I also believe patients need to be aware of the procedure (potential risks, etc.) I

also feel that the attending nurse should have the same general training and should need to sign and date after each updated training has been completed. In my opinion, legal steps need to be taken (in some kind of manner), to protect the medical staff and patient. On the subject of Gender Affirming Care, etc. I will do my best to provide my oppositional testimony, based on here-say and if I include factual information, I will include my sources. Also, I do not have any names of persons or my own personal stories I can share. However, I can explain some of my viewpoints on this matter, and would appreciate my views to be taken in to serious consideration. I have met various individuals who either are trans, have children transitioning, or Intersex. From what I have learned, being Intersex and Trans are mean different things. Let me begin with Intersex. The reason why I am including "Intersex" in to this testimony, is because I have met (online) individuals who have had their own struggles with being Intersex and the stigmas that surround the term. I have met some individuals who either had both kinds of genitalia, or too much of one hormone (testosterone for example). From what I have gathered with talking to these individuals (names withheld for privacy), gender affirming care can mean having a surgery to correct abnormal genitalia or in the case of another individual, their hormone levels needed corrected because (as they mentioned), they feel they overall align with being female. The struggle for them was, the continual growth of a beard which was bothersome for them. From what I was told, these medical modifications are considered "gender affirming care". This should not be banned whatsoever. I have heard that without properly functioning genitals, one could end up with a severe infection, etc. On puberty blockers- I have heard various individuals mention that it is rare for those be used and ONLY in extreme cases. As a fellow Missourian, I truly believe we need more factual access and books to educate us. I honestly believe there is a lot of misinformation out there, which I can't see being fair to our Trans and Intersex communities. According to <https://www.ohsu.edu/sites/default/files/2020-12/Gender-Clinic-Puberty-Blockers-Handout.pdf>, the use of "Puberty Blocking Drugs" (as mention in the proposed Bill), do not permanently delay puberty. To my understanding, these "blockers" can be stopped at any time and do not cause harm to the developing child. As far as gender affirming care, I have heard mothers explain (on live social media sessions), what this care entails. I have mostly heard that youth usually begin mental health evaluations and ONLY in extreme cases surgeries may be performed under age 18. I'm opposed to worrying about this matter, as (to my understanding) the percentage of trans youth is very low. I feel we have more important issues to worry about and to resolve. I also feel we need to trust our medical teams to determine what is best. I believe I had already mentioned my views on the need to gender surgery. However, I will go over this briefly. To my understanding, surgery can absolutely be a need. For example: to prevent Urinary Tract Infections. Here is my brief personal story: I am not trans. However, I have had a life-threatening UTI that spread throughout my body. I nearly went into to Sepsis. So, I absolutely believe that we need to allow for these surgeries to continue, especially if a condition can cause a fatality. That is my take on it. As far as our Transgender community goes, I also support their rights and for them to have a say with their bodies. I have firsthand the countless stories in which, suicides occurred due to bullying, exclusion, extreme dysphoria, etc. My personal view is this- we need to leave them alone. Support those who need the support, advocate and protect, even if we disagree or don't understand. At the nd of the day, they are human beings. Each one I have met, at so loving, kind and thoughtful. They have said over and over again that they don't want us to fear them. So, I oppose all these rules and regulations, because I truly believe this creates unnecessary strain in this state and in the United States, as a whole. I'd like to add that in order for us to further understand, we need to allow factual books, Transgender and Intersex people in our spaces , safely. How else will we come together and beat the stigma and confusion? Thank you. Sincerely,Sara Kalinowski

My name is Sara Betancourt and I live in Bridgeton, Missouri. I adamantly oppose HJR 54 because it goes against the voters wishes. Last November, more than 1.5 million Missourians voted YES on Amendment 3, and you were elected to defend those rights. Clearly, Reproductive Freedom is a Missouri value. The majority of Missourians made it clear at the ballot: we support access to abortion and all reproductive health care. Our government should reflect those shared values not threaten them. Of what value is our democracy if our elected officials do not defend the values and electoral decisions of their constituents?

Reproductive Freedom is a fundamental human right-- one that voters in the State of Missouri supported last November by decisively passing Amendment 3. Despite the misleading rhetoric on the side of anti-abortion and anti-woman advocates, voters did indeed understand what they voted for and to imply otherwise is an insult to the intelligence of these voters. The current proposed bill is also an insult to the 1,538,659 Missourians voted YES on Amendment 3. This bill is deceptively worded and cruel in the reporting requirements that it outlines. Again, voters made it clear that Reproductive Freedom is a Missouri value. You were elected to carry out the will of the voters. Do your job by supporting Amendment 3. Keep it safe to be pregnant in Missouri again. Keep Missouri a safe and healthy place to have children, raise families, and grow lives. Support the will of your voters and do your jobs.

As a voting member of the state of Missouri, I am saddened that we are even considering HJR 54. While we do not always like the will of the people, it is the very foundation of our democracy and this legislation chips away at the structure on which we stand. Should you ignore the will of the voters and advance this legislation, I will look for corresponding measures to support children women are forced to birth as well as benefits for women who die during forced pregnancies.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

To the Members of the Missouri State Legislature, I am writing to express my strong opposition to any attempt to dismantle Amendment 3, which was passed by the majority of Missouri voters. This amendment was not forced upon our state by politicians or special interest groups—it was decided by the people, through a democratic process. To now attempt to undermine or overturn the will of the people is not only unconstitutional but deeply anti-democratic. Our country was founded on the principle of a government "by the people, for the people." The people of Missouri made their voices clear when they voted to protect abortion access in our state. To disregard this vote is to disregard the very foundation of representative democracy. It sets a dangerous precedent that the votes of Missouri citizens can simply be undone when lawmakers disagree with the outcome. That is not democracy. That is an abuse of power. As a woman of childbearing age in Missouri, this issue is not theoretical for me—it is deeply personal. I have Polycystic Ovarian Syndrome (PCOS), a hormone disorder that affects at least 10% of women—one in every ten. I was diagnosed at age 14. There is no cure, and there is no universally effective treatment. One of the many challenges of PCOS is an increased difficulty in conceiving and carrying a pregnancy to term, particularly after the age of 30. Women with PCOS face a significantly higher risk of miscarriage, and for those of us over 30, those risks only escalate. I am 34 years old. If I were to become pregnant in Missouri and suffer a miscarriage, I would not only face the devastation of losing a pregnancy, but I could also be treated as a suspect rather than a patient in need of care. Under current policies, doctors often hesitate to provide necessary medical interventions due to fear of legal repercussions, leaving women like me vulnerable to life-threatening complications such as sepsis and hemorrhaging. Miscarriages are already traumatic. No woman should have to endure questioning, delays in care, or legal scrutiny while their body is in crisis. Restricting abortion access does not prevent miscarriages, nor does it protect life—it only puts lives at risk. Medical professionals should be able to provide the best possible care without fear of criminalization, and no woman should have to fear being denied critical healthcare because of a law that disregards medical realities. Missourians have spoken. Amendment 3 was passed by the people, for the people. I urge you to respect the democratic process and uphold the will of your constituents. To do otherwise is to betray the trust of the very people you were elected to serve. Sincerely, Sara Schubert 64503

My name is Sara Thies and I live in Saint Peter's MO. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care. Our government should reflect those shared values not threaten them. I listened this evening and only heard one person in support of HJR 54. Some representatives claimed they had voters suggest they were confused with the wording on amendment 3 and did not know what they were voting for. If that's true, where were they tonight? Why did they not show up in support of this? I believe it's an excuse to get this back on the ballot and push further misinformation like there was 3 months ago. You all are the ones twisting the truth, but the people saw through it!

My name is Sarah Buek, and I live in Affton, Missouri in St. Louis County. When Missouri passed its abortion ban after the overturning of Roe v. Wade, I immediately felt less equal and less free. No one has the right to make a decision about my body, my reproduction, or my health. That is between me and my doctor. To overcome the feeling of powerlessness and injustice, I got involved, as so many others did. We took matters into our own hands because you had failed to represent us on this issue. Last year, I sacrificed weekends with my loved ones and took time off work to go stand in the cold and walk door-to-door in the heat to gather support for what would become Amendment 3. I gathered signatures to get it on the ballot, and I knocked on doors to get out the vote. I spoke to voters like myself who were passionate about the issue and supported a woman's right to make her own healthcare decisions. Over 1.5 million Missourians voted to support Amendment 3. The voters have spoken. Now you must respect the will of the people.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

In November 2024, Missouri voters past amendment 3 providing reproductive care for Missouri women without restrictions. Attempts to overturn amendment 3 are denying the wishes of Missouri voters. As a woman and a mother of daughters, my reproductive decisions should be made between me and my doctor, not politicians. My doctor should have the freedom to provide me the care that I need in order to stay healthy and live a free life. I am a human being. I am a woman, I am a citizen of the United States and I am a citizen of the state of Missouri. I am entitled to choices about my body. Since 2022, Missouri has seen a 25% drop in applicants for OBGYN residencies. Our state struggles with keeping rural hospitals open so that people have access to any health care let alone reproductive care. Missourians have so many obstacles with access to jobs and education and opportunities. These should be the priorities of our lawmakers. Lawmakers should be working to improve the lives of missourians and not interfering with their freedoms.

Just 3 months ago the citizens of Missouri voted to protect our right to abortion. This proposal is a waste of taxpayer resources after Missourians made their opinion on this matter very clear. No one can be compelled to donate a kidney without their consent. Nor can one be forced through the minimally invasive procedure to donate blood. If I die tomorrow, no doctor in this state can take the organs that I'm no longer using ever if it would save the life of another. But for some reason, those who wrote this bill believe that when it comes to a uterus, a person can be compelled to provide life support to an embryo. This government is demanding the right to compel the bodies of Missourians into service, regardless of their consent and the risks to their own health. Think about this. This bill would make it so that I have more rights to my own body as a corpse than as a living, breathing person. What gives the government the audacity to demand this power over me, over us? We must oppose this bill and the dangerous precedent it creates.

I have been a citizen of Missouri my entire life. I voted in favor of keeping reproductive rights because I believe that it is necessary that we are able to choose what we do with our OWN bodies. My body does not belong to any man, woman, or fetus. Repealing the vote CAST by Missouri voters is not only unconstitutional but DANGEROUS. It is necessary that we keep reproductive health care accessible and affordable otherwise we risk the deaths of many women and girls not only through botched home abortions but through suicide and murder.

To overturn the will of the majority of Missourians, who voted to make this necessary healthcare measure more accessible to families, flies in the face of every principle on which our democratic republic was founded. At a time when a Missouri senator believes 12-year-olds make good wives, women deserve better from Missouri's elected officials who are supposed to be carrying out OUR directives as a people.

My name is Sarah and I'm from Jefferson City and I am opposed to this amendment passing for the following reasons: 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights, not deny the will of the voters because you don't think it's right or aligns with your personal beliefs. - Reproductive Freedom is a Missouri value- Missourians made it clear at the ballot: we support access to abortion and all reproductive health care and we ALL knew what we were signing AND what we were voting for. - Our government should reflect those shared values not threaten. In conclusion, I URGE you to reject HRJ 54 and uphold the will of the voters. So many missourians have lost trust in missouri government because time and time again, you refuse to uphold the will of the voters. You did it with Medicaid expansion, and now you're doing it with abortion access. Please do the right thing and reject HRJ 54. Thank you.

I respectfully ask that you honor the will of Missouri voters, who demonstrated via the ballot box in November that we no longer want this to be a forced-childbearing state and have enshrined that belief in the Missouri Constitution, fairly and honestly. State government has no business taking away women's freedom to determine their own futures...whether with regard to terminating a wanted pregnancy when the fetus has no chance of surviving in the womb or for any length of time outside of it, or because an unplanned pregnancy would result in a life of destitution at that point in her life. Please respect the will of Missouri voters, and show some compassion for women, who are capable of deciding for themselves, what is best for their lives and families.

Dear representatives, I am incredibly troubled by this legislation. I am a physician. My colleagues and I have spent at least 7 years, but often more than 10 years, in post-college education. We know how to interpret data and adapt to evolving medical information. Thus, it's incredibly disheartening to see the government try to step in and tell us how to do medicine. As a governing body, you are not obstetricians or pediatricians who see the devastating effects of unplanned or unintentional pregnancy. You say you want what is best for infants and for mothers but it is not this. Please continue to fight for Missourians but please stay out of our clinical practice. Thank you for your time, Sarah Small MD

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Sarah Smith and I am a resident of St. Louis City. As a voter with a female body and women in my life that I care about, I'm strongly opposed to this bill. Missourians voted to enshrine our right to reproductive and bodily autonomy in our constitution, and you were elected to uphold and defend that decision and those rights. What you're proposing instead is legislative vivisection. The right to abortion is not something that should have to be negotiated with law enforcement and governmental bodies, no matter the case. To ban abortion is to ban safe abortion, to further restrict what actions a female-bodied person can do to take control of their life will only result in neglected children, a further overrun foster care system that is laughable in its current state, unsafe abortions that will go unreported and have a higher rate of botching, and young female-bodied people taking their own lives to avoid the consequences. Restrictions on safe, legal means of reproductive care at any stage of a pregnancy is, frankly, a blatant statement of what values you truly project onto the citizens of Missouri. Furthermore, bureaucracy moves slower than our understanding of science and often clings to stale moralistic values that emphasize one monolithic way of living. Imposing restrictions based on such a framework ignores the very real experiences of people outside of such a narrow worldview. The people of Missouri have chosen individual freedom and control over their bodies and lives and is fundamentally the ideal of the American way. Individual decisions must be left up to individuals and their doctors, and not systems of governance completely removed from their lives and situations. Missouri citizens have voted to protect our female-bodied families, friends, and neighbors from oppressive and limiting slashes to our reproductive rights. It is a betrayal of the people to whom you are accountable and to democracy itself to even propose going back on that decision.

As a registered Missouri voter, I submit a testimony in opposition of the proposed HJR 54. Missouri voters have spoken in support of reproductive health, including options for safe, legal abortions. That result should not be reversed or altered. The constitutional amendment in support of reproductive rights should stand as is based on the choice of the Missouri voters. The reproductive rights amendment supports healthcare in a broader sense and should stand to allow Missourians access to safe healthcare. If the legislative body wants to focus on the right to life and sanctity of children, let them turn their attention to supporting families for access to healthcare, childcare, or adoption options. Support families in the crucial phase following childbirth rather than fixating on removing reproductive choice for millions of Missourians in the early months of pregnancy. Missourians exercised their vote and spoke in support of reproductive healthcare. Our elected officials now need to uphold their oath of office to support their constituents instead of stepping in to further opposing views and agendas.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Missouri’s HJR 54 is a dangerous and regressive attack on the fundamental rights of women, transgender youth, and medical professionals. By imposing extreme restrictions on reproductive care and conflating abortion access with unrelated bans on gender-affirming care, this bill undermines bodily autonomy, endangers lives, and perpetuates systemic inequities.1. It strips women of reproductive freedom. The bill’s near-total abortion ban—with narrow exceptions—disregards the complexity of pregnancy and forces individuals to navigate traumatic barriers. Requiring survivors of rape or incest to report to law enforcement within 48 hours and imposing a 12-week gestational cutoff ignores the reality of trauma, shame, and logistical hurdles survivors face. Many victims, particularly minors, cannot safely report abuse, especially when incest involves a family member. This bill prioritizes bureaucracy over compassion, further punishing survivors.2. It disproportionately harms marginalized communities. Banning public funding for abortion care denies access to low-income Missourians, perpetuating cycles of poverty. Restricting care to “medical emergencies” leaves physicians paralyzed, fearing prosecution if they act before a patient’s condition becomes life-threatening. This endangers those with ectopic pregnancies, miscarriages, or deteriorating health conditions that don’t yet meet the state’s vague threshold.3. It weaponizes government against transgender youth. The bill cynically ties abortion restrictions to a ban on gender-affirming care, denying transgender adolescents and their families the right to make medically supported decisions with their doctors. This provision has no place in legislation about reproductive health and exposes the bill’s true motive: to control personal healthcare choices, not protect citizens.4. It intimidates healthcare providers. Threatening medical professionals with liability, license revocation, or criminal charges for providing standard care creates a climate of fear. Doctors should follow evidence-based medicine—not politicians’ agendas. Reproductive freedom is a human right. Missourians deserve policies that trust individuals to make deeply personal decisions with dignity, guided by healthcare providers—not laws that criminalize care, deepen stigma, and endanger vulnerable lives.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am testifying to express my vehement opposition to HJR 54 and my deep concern over the disregard it shows for the will of Missouri voters. Amendment 3 was passed by the people of this state—by a clear majority—because we value the right to make our own healthcare decisions. HJR 54 is not just a dangerous attack on reproductive rights; it is an outright betrayal of our democracy. Missourians spoke loudly and clearly when they voted to protect reproductive freedom. This wasn't a decision made lightly—it reflected the deeply held belief that individuals, not the government, should have the power to decide what is best for their own bodies and lives. Passing HJR 54 would overturn that decision and send a chilling message: the voices of the people don't matter. This proposed legislation includes so-called exceptions for rape and incest, but these exceptions are riddled with impossible requirements. Survivors must report their assault and provide documentation during a narrow 12-week window, ignoring the harsh reality that many victims are unable to safely report their abuse. Even those who do report are often met with systemic delays. Forcing survivors to navigate these barriers shows a profound lack of understanding and compassion. Beyond this, HJR 54 targets those who are already the most vulnerable—low-income families, rural communities, and people of color. Restricting access to abortion doesn't eliminate the need for it; it simply pushes people into unsafe, desperate situations that threaten their health and lives. To ignore the will of the people, to strip away their rights, and to put lives at risk is beyond unacceptable—it is deeply undemocratic and morally indefensible. We live in a state where voters have made their choice. To pass HJR 54 would be to ignore that choice and undermine the very foundation of representative government. Missourians deserve a government that honors their voices, protects their freedoms, and respects their autonomy. HJR 54 is a dangerous overreach that disregards all three. I urge you to reject this measure and honor the rights and decisions of the people you were elected to serve. Thank you for your time and for considering how important reproductive rights are to our community. Sincerely, Sean C. Warr Independence, MO

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Dear Members of the House, I am writing to express my strong opposition to HJR 54, a resolution that seeks to impose severe restrictions on reproductive health care rights in Missouri. This resolution blatantly disregards the will of the people who have consistently voiced their support for reproductive freedom. By restricting access to essential health care services, HJR 54 endangers the health and well-being of countless individuals, putting them at risk of life-threatening complications. It is crucial that we respect and protect the rights of all Missourians to make their own health care decisions without unnecessary government interference. Moreover, HJR 54's provisions on gender-affirming care for minors are deeply troubling and discriminatory. This resolution targets vulnerable populations, including transgender youth, who already face significant barriers to accessing the care they need. By restricting access to gender-affirming care, HJR 54 exacerbates the challenges and hardships faced by transgender individuals, further marginalizing and stigmatizing them. It is our duty to ensure that all individuals, regardless of their gender identity, have access to the health care they need to live healthy and fulfilling lives. Finally, HJR 54 is a direct attack on the progress we have made in advancing reproductive rights in Missouri. The resolution's restrictive measures undermine the protections established by Amendment 3, which enshrined the right to reproductive freedom in our state constitution. It is imperative that we uphold the values of autonomy, dignity, and respect for all individuals. I urge you to reject HJR 54 and stand with the people of Missouri in defending their reproductive rights and access to health care.

I, along with 1,538,659 other Missourians, voted Yes on Amendment 3 in November. We were the MAJORITY. The great people of Missouri voted for Amendment 3 51.6% to 48.4% and the elected officials of Missouri need to recognize the will of the people. Stop wasting tax payer money and time trying to reverse what we voted for. Just because you do not agree with or like the outcome doesn't mean you get to change the results.

In the 2024 election Missouri voters overwhelmingly voted to enshrine the right to abortion in the state constitution. By trying to pass laws banning abortion Missouri lawmakers are actively going against the will of the people. It is unfair and unjust. Each person deserves to make their own healthcare decisions with their doctors. Lawmakers and politicians are not doctors and are not qualified to make medical decisions for the citizens of Missouri.

As a registered nurse that has worked in reproductive healthcare for almost 10 years and a woman who has struggled to grow her family, I cannot believe this is being discussed again. We voted on this. We made our voices heard. We believe in the right to choose. You are attempting to set a dangerous precedent by telling us that it doesn't matter if we join together and vote, because you will ultimately do what you want and we will all have to abide by it. Ultimately, this conversation is dangerous. If you want to reduce the number of abortions, I hope to see you present plans for how you plan to increase access to reproductive healthcare, improve education in schools, increase outreach via community clinics, and engage at risk communities in conversations around trafficking, grooming, and SA. Unlike so many of us, you aren't doing any work on the ground. This is all for show and I hope you are able to explain that at your judgement day. Thank you.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Testimony on HB 35 (also HJR 54 and SJR 33) My name is Sharon Hahs. I am a citizen of the United States of America and the State of Missouri. I live in Kirkwood. I am speaking in opposition to HB 35. First and foremost, this bill undermines our democracy and takes away freedoms enshrined in the newly passed Constitutional Amendment 3, the Right to Reproductive Freedom. Missouri citizens voted and passed this constitutional amendment; it is wrong for the Missouri legislature to attempt to erase it. If citizens of another country passed a constitutional change and had it disregarded and overturned by a governing body, we would be certain that this was the action of an authoritarian regime. We are a democracy and the people have spoken. Let us not act like an authoritarian regime. Second, HB 35 incorporates severe limitations on women as well as health care professionals (which are intentionally absent in Amendment 3). Women would have 12 weeks to seek an abortion in cases of medical emergency, fetal anomaly, rape, or incest, a timeframe so restrictive that pregnancy is often not determined yet. Rape or incest must be reported to a law enforcement agency and investigated at least 48 hours prior to a procedure; this clearly demonstrates no knowledge of actual cases and how terrifying and cruel this requirement would be. And the attempts to define fetal anomaly and medical emergency (Definitions 2 and 4) demonstrate a real lack of knowledge and are simply cruel. Currently, Constitutional Amendment 3 provides for women to make their own reproductive health care decisions up to the point of fetal viability as determined by health care professionals and not by the government. A fair and workable definition is provided. They are also protected from adverse action based on their actual, potential, perceived, or alleged pregnancy outcomes. Health care professionals would face severe legal penalties in HB 35 as they struggled to determine which procedures could qualify for public funds, and how to sort out the overlapping definitions of e.g., medical emergency, fetal anomaly, and disability. Threatened penalties would discourage them from practicing at all in Missouri. Thus, fewer sites and less access to all aspects of women's health care would result. Constitutional Amendment 3 assures that no person assisting a person in exercising their right to reproductive freedom shall be penalized, prosecuted, or otherwise subjected to adverse action for doing so. Third, included in HB 35 are prohibitions on gender transition surgeries, hormones, and drugs. None of this is part of Amendment 3, and none of this is necessary to be included here since it is already enshrined in Missouri law. To be clear, Amendment 3 does not legalize gender-affirming care and surgery for minors. Including these prohibitions in HB 35 is a deliberate attempt to muddy and confuse the issues. HB 35 is cleverly written to disguise gender transitions as an additional topic; the practice of adding what is often called "ballot candy" is an attempt to elicit a positive response on the bill, due to the added topic, when the main topic isn't likely to pass. In actuality, the additional topic is "ballot poison"—distorting the primary essence of the new constitutional amendment so the dramatic changes and new topic will succeed in passing this legislation to overturn Amendment 3. In that regard, Definitions 1, 3, and 5 apply solely to the new

topic.Summary: HB 35 attempts to overturn Amendment 3, it is deeply flawed, seriously harmful to women, insulting to and dangerous for health care professionals, and should not be allowed nor passed.

To the Members of the Missouri State Legislature, I am writing to express my strong opposition to any attempt to dismantle Amendment 3, which was passed by the majority of Missouri voters. This amendment was not forced upon our state by politicians or special interest groups—it was decided by the people, through a democratic process. To now attempt to undermine or overturn the will of the people is not only unconstitutional but deeply anti-democratic. Our country was founded on the principle of a government "by the people, for the people." The people of Missouri made their voices clear when they voted to protect abortion access in our state. To disregard this vote is to disregard the very foundation of representative democracy. It sets a dangerous precedent that the votes of Missouri citizens can simply be undone when lawmakers disagree with the outcome. That is not democracy. That is an abuse of power. I've had a double mastectomy with DIEP flap reconstruction. Getting pregnant would be life threatening for me. I've also got young daughters and if they were to ever get raped I would want them to have options. They should not be forced to carry a pregnancy to term as a result of trauma. Missourians have spoken. Amendment 3 was passed by the people, for the people. I urge you to respect the democratic process and uphold the will of your constituents. To do otherwise is to betray the trust of the very people you were elected to serve. Sincerely, Shawanna Kroeger, 64507

This bill unjustly limits access to reproductive health care and undermines personal autonomy, particularly for individuals who face difficult and traumatic circumstances. By restricting access to abortion even in cases of rape or incest to a 12-week gestational period, the bill imposes arbitrary barriers that fail to consider the complexities and realities faced by survivors. Requiring documentation of a rape or incest report before an abortion can take place creates an additional emotional and bureaucratic hurdle for victims, which may prevent timely access to care. Moreover, the prohibition on the use of public funds for abortion services further exacerbates inequalities, especially for low-income individuals who may already face significant barriers to accessing necessary health care. This provision disproportionately harms marginalized communities, denying them the ability to make essential decisions about their own bodies and futures. The bill also unnecessarily infringes on the rights of transgender individuals by banning gender-affirming care for minors, which disregards the well-documented benefits of such treatments for transgender youth in improving their mental and physical well-being. Lastly, the broad liability provisions in this bill create a climate of fear and uncertainty for healthcare providers, potentially discouraging them from offering essential reproductive and gender-affirming services, even in life-saving circumstances. This puts the well-being of patients at risk and undermines the fundamental principle that medical decisions should be made between a patient and their healthcare provider, not by politicians or the courts. In conclusion, this bill imposes harmful restrictions that interfere with personal health decisions and medical care, while disproportionately affecting vulnerable populations. It is an overreach that limits individual rights and autonomy, and it should be rejected. This bill goes against the will of the people of Missouri.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Sherri Shoe, I live in St. Louis county. I am strongly opposed to this amendment which is just yet another go at reversing the will of the citizens of Missouri. I DO NOT WANT decisions regarding my health, or more importantly, the HEALTH OF MY 2 DAUGHTERS, influenced by religious zealots with whom I disagree on many, many things. Even more important than the personal side of this, the fact that the WILL OF THE PEOPLE is so blatantly disregarded is beyond the pale. In addition, trying to further beat down marginalized groups (trans citizens, which do exist, like it or not) as an additional insult is just ridiculous. We don't want health care whistle blowers, bounty hunters, or anything of this sort. Accept the decision that was made by those who live here and pay taxes. Keep abortion safe and legal. Leave people alone. Women and girls do not deserve this sort of hateful legislation. There are so much GOOD that could be accomplished if the focus could be trained on helping instead of trying to control other people's PERSONAL CHOICES. thank you

If there are questions and need for clarifications regarding Amendment 3, let the courts and regulatory agencies decide. The MO Legislature should not interfere with the will of the people. Hundreds of thousands signed the petition, and a majority of voters passed Amendment 3. LEAVE AMENDMENT 3 ALONE!

My name is Sheryl A Glydewell from Harrisburg. My daughter's life was saved because she had access to abortion when she had a ectopic pregnancy in 2016. That they could not see on ultra sound, because ROE VS WADE was still law, they were able to do a exploratory surgery and find the pregnancy and remove it. Voters in this state have already turned out and told you that abortion is health care.

My name is Shirley Wolverson and I'm from Webster Groves, HD91. I OPPOSE HJR 54 and this blatant attempt to undo the will of Missourians who voted in the majority and passed Amendment 3 in 2024. Amendment 3 is now Section 36 of Article I of the Missouri Constitution, that representatives in the Missouri legislature have sworn to uphold, and it guarantees the right to reproductive freedom for Missourians including access to abortion. By no stretch of imagination does it intend to apply to gender affirming care. HJR54 apparently seeks to add Section 36(a) to Article I to restrict the rights guaranteed therein, while stating "36(a). 1. Notwithstanding any provision of Section 36 of Article I of this Constitution to the contrary" and following with statements contrary to Section 36. This is disingenuous, as it goes on to significantly restrict abortion, currently legal and protected, to a certain gestational age (that is generally considered to not meet the definition of "Fetal Viability" defined in Section 36), with certain cruel rape or incest reporting requirements that do not meet the common sense threshold especially in the case of incest, that forces women to carry a fetus to term that they will not be capable of caring for, and that introduces the politically and religiously suggestive term "unborn child" into this section where it does not properly belong. HJR 54 seeks, contrary to Missourians' will as was demonstrated at the ballot, to insert politicians into the communications between women and their physicians and families and take away the ability for women to make reproductive health decisions about their own body. Please respect Missourians and vote NO on HJR 54 - protect women and their access to reproductive healthcare in Missouri.

As a person who was accused of being inhabited by a devil by my therapist at the time for being trans, I wholeheartedly disagree with this bill. Had I been taught from a young age that people are born in bodies that don't align with their gender or sex, maybe I wouldn't have attempted suicide countless times. My sibling is also trans, and the idea of us and many others living in a world where we are seen as less than is horrifying. I am disgusted and appalled by the people pursuing these laws, as they deem their lives as significantly more important than mine. They view women and others with vaginas as breeding farms, and don't take into account any sort of medical research before declaring their biases as truth. If a woman and those women adjacent, like me, have no control over their own bodies in a medical sense, when does this authority end? This tightening of the cord on women's rights, and the rights of genderqueer or trans or nonbinary or genderfluid people, only strengthens the idea that we are not wanted. I don't feel safe in my home town, and if this ban on my body gets passed, I won't even feel safe in my home.

Dear Legislators, Thank you for your work to try to protect preborn children and their mothers. This bill does not protect very young preborn children whose fathers committed the crime of rape, the sin of incest, or those children who are thought to be disabled. It is therefore an unjust law. Please know that a just anti-abortion law would have my full support.

My name is Sonya C. from Weatherby Lake, MO. I am an adoptive mother who is grateful to have been chosen to be a parent to 2 newborn babies over 2 decades ago. These 2 young moms made difficult decisions to place their babies in an adoptive home, but they had wonderful support of their families and counselors. It was a CHOICE, not forced upon them. I can see the value of adoption, but pregnancies don't always come about or go as planned. Women deserve the right to a CHOICE about these pregnancies and other reproductive concerns, and the government should NOT have the right to make them instead. Republicans say they want small government - this is NOT it. Not allowing reproductive freedom is a very intrusive governmental role. Be on the side of women! Also, I know many women who have had miscarriages, some who needed emergency medical intervention to keep them from infection, sepsis or losing the ability to become pregnant again. Fortunately for them, they were able to confer with doctors and get the help they needed easily. If doctors are afraid of doing these required procedures (e.g. D & Cs), women will not get that treatment and already some have died because of that denial of care. Below are some other facts about AMENDMENT 3, which you are trying to change/modify. PLEASE JUST DO AS VOTERS REQUESTED! THANK YOU!* 1,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights* Reproductive Freedom is a Missouri value* Missourians made it clear at the ballot: we support access to abortion and all reproductive health care* Our government should reflect those shared values not threaten them

The people have voted so who and why is this subject being challenged again? Is this more direction from the almighty DT? Please support the voice of the people. This is why you ran and why people voted for you, because they are counting on you to listen. Stop this and put your focus on stopping the chaos of our so called president. Stop allowing him to say such derogatory things about women, people of color, disabled, and LGBTQ. These people are Americans and he is no better than them so has no right to put any of them down. You should also be absolutely disgusted that he rashly pardoned the people that attacked our country on Jan.6. He says that deporting immigrants will make the country safer, yet he removed this violent group empowering them to do as they wish, knowing the DT will just pardon them again. He is making horrific a mocker of the US with his decisions with people's lives and has no care of how it will affect them. He has "blessed" them with higher taxes, cut aid for the less fortunate, raising coat/prices of food, gas etc. due to the Tariffs, and lowering taxes for his millionaire billionaire buddies (well they can afford all the higher prices and their own helathcare-DT is so very thoughtful of them and himself) but clearly could care less or thr less fortunate. **DO SOMETHING!** Or are you too chicken to stand up to DT and EM. So you are going to be ok with being know as those who allowed all this chaos, death and destruction? You can just stand by and watch DT blame **EVERYTHING** on somebody else or take credit for something he has made up in his head? We are not fooled. We know you are enabling this. Please don't be like DT. Don't lower yourself to his despicable level. Be the one who is willing to be honest and Impeach him or whatever can be done to stop the chaos and please speak up and help him make intelligent decisions. At least try!

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Less than three months ago, Missouri voters came out in support of Amendment Three. The introduction of HJR 54 is insulting to the voters who made their voices heard. Beyond that, the language within the resolution is concerning and contains more than one issue on which voters must decide. While I appreciate it explicitly addressing concerns of ectopic pregnancies and miscarriages, I, like many other voters and representatives on this committee, have serious reservations about additional language within the resolution. For example, regarding the rape and incest victims, the discussion about the jurisdictions and timeliness of the required police reports is unclear. Additionally, that particular portion disregards the safety of the individual who must file a police report after being a victim of rape or incest. That person may live with their abuser and be at risk of additional harm or death. Another aspect of the resolution is the inclusion of language about gender affirming care. While I did listen to Representative Stinnett’s reasoning on including the language, it is objectively a separate issue. Both Amendment Three and HJR 54 have an emphasis on pregnancies, not one’s gender or ability to get pregnant. I have been diagnosed with endometriosis — a painful condition that affects my daily life. Surgeries to treat my endometriosis may decrease my ability to get pregnant. That is a choice that I am okay with making, and I fear that the interpretations of this bill may result in delayed or incomplete care if surgeries and procedures on my reproductive organs that may affect my chances to get pregnant are tied up with abortion issues. Even though I have many thoughts and opinions on what is written about gender affirming care, I will not mention them here as I believe the resolution should not bring them up either. Please vote against this resolution as it is incomplete, rushed, and unnecessary.

Women should have a right to reproductive healthcare regardless of religious beliefs: true Separation of Church and State. My daughter is on this earth because of Planned Parenthood and the birth control I was able to afford through their services. The birth control kept my reproductive cycles regular and allowed me to become conceive my one and only child. While I was given a choice and chose to have my daughter, my daughter's choice to do the same os in jeopardy. Please keep Church and State separate and give women the same equality & equity of care you give men. Listen to the voices of ALL Missourian constituents when we say abortion is a necessary right within womens health care.

I want to reaffirm my vote to protect elective abortion access in Missouri. The majority of Missouri voters affirmed this in the November 2024 election to pass amendment 3 and the legislature is obligated to uphold the will of the people. Abortion is healthcare and regardless of their personal beliefs, the governing body of Missouri should have no claim to the people's private health information and decisions. Infringing upon these rights will undoubtedly have a negative impact on the mental and physical wellbeing of pregnant people, children, and families in Missouri. Likewise, introducing a bill to circumvent the clear choice of Missouri citizens as determined in a fair election is detrimental to the democratic process and will set a dangerous precedent that erodes trust in our elected officials.

My name is Stephanie Patterson, and I'm from Manchester, MO. I was one of the 1,538,659 Missourians who voted YES on Amendment 3—you were elected to defend those rights. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them. Just because you may not agree with abortion doesn't give you the right to choose for another person. Most women who have abortions actually want the child. It's dangerous to take the ability to manage a woman's healthcare out of their hands and the hands of their doctors.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

Amid a maelstrom of deliberate misinformation and smear tactics by Amendment 3 opponents, voters of this state passed Amendment 3 as a way to guarantee the bodily autonomy of Missouri women because people understand that the right of individuals to choose what happens to their bodies is fundamental to the freedom we all have as citizens of this great country. HJR 54 would undermine the clearly-expressed will of the body politic. Politicians do NOT know better than the women - and their families and doctors - what the right decision is for each situation. Vote against HJR 54!

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Stephanie Xian, I live in University City. For the last four years, I've paid taxes, volunteered, lived, and worked in Missouri. At WashU, I am fortunate to study Computational Biology and Genomics. I've also been involved in politics: I cast my first ballot/voted in my first election/voted for the president the first time. Last November, I voted for Amendment 3 because I believe that the reproductive health is critical healthcare that should not be restricted by the state. I oppose this bill as a blatantly anti-democratic attack on voters like me. Instead of focusing on access to education and better infrastructure, politicians are using taxes — my taxes — to make Missouri more restrictive. Moreover, it is well established that abortion bans hurt the state. Missouri has lost over 4 billion dollars and our GDP has shrunk by 1.1% according to the International Women's Policy Institute. This policy is anti-democratic and fiscally unsound. Vote no.

Chair, Vice Chair, and members of the committee, Regarding HJR 54, I'm opposed. I'm a lifelong resident of the state of Missouri, and proud to call it home. Although I do not represent any specific organization, or group, I find many of my peers and fellow voters equally confused by this legislative assault on Amendment 3, that accomplishes nothing but undermining the will of the people of Missouri. Amendment 3 clearly passed because Missourians want and deserve to make their own decisions about healthcare. We want our kids to have that right, the right to their own bodily autonomy and personal decisions regarding healthcare. HJR 54 would be a legislative step backward and have a negative impact and implications on the rights of my spouse, my kids, my friends, and neighbors in the state of Missouri. I urge you to consider opposing this bill, in order to uphold the will of the people of Missouri.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Steven D Spaner PhD. I am a retired UM professor. During my years of employment in the UM System I engaged in many research projects. One project was an NIH Populations Research Institute funded study of the choices of pregnancy outcomes. There are three possible pregnancy outcomes: live birth, spontaneous abortion (aka, miscarriage), and induced abortion. At the time, in the 1980s, there was an unfounded hypothesis that induced abortion was being used as a substitute form of contraception. I collected and examined data from the social services, health services, and educational services databases of the country of Demark to "tease out" the answer to this hypothesis. Denmark and the USA both adopted legislation in 1973 to legalize abortion services (the USA action was a Supreme Court ruling: Roe v. Wade, 410 U.S. 113). Denmark was unique since they gathered national data from every resident annually that was maintained in multiple national data centers. The data sets of focus by my study came from the social services, health services, and educational services databases. After 5 years of linkage of residents' records and interviews with persons experiencing a pregnancy and one of the three pregnancy outcomes, a picture was revealed. First, and foremost, live birth was predominant while not always sustainable. Second, spontaneous abortion was never wanted and survival of the woman was off utmost importance and focus given the options. Third, induced abortion was not being used as a method of contraception, even in the instances of multiple abortions. Induced abortion was elected simply due to failed contraceptive practices. Couples engaging in sex and using a contraceptive method are consciously exercising planned parenthood. There are no contraceptive methods that are 100% failproof if sexual intercourse is engaged. This research made it abundantly clear that when contraceptive failure results, the individuals involved ... with the advice and consultation of a medical service provider ... are the only and appropriate decision makers for the outcome of the pregnancy. Legislative bodies have no role in the choices of individuals faced with pregnancy outcomes. A supportive society would and should legislate freedom of choice and support for all choices. The residents of Missouri overwhelmingly voted to make Missouri "A supportive society" that "would and should legislate freedom of choice and support for all choices" by passing Amendment 3 in the last election. Substitutions that have not been voted for by an overwhelmingly vote of Missouri residents are both out-of-order and illegal. Amendment 3 must be made a permanent and operational law within the Constitution of Missouri by this year's legislative chambers and the State governor.

I am Susan Even,MD, Missourian residing in Columbia. As one of the majority of Missouri voters who supported restoring access to abortion and women’s reproductive services in our state, I am appalled that Representative Stinnett would so quickly strive to prevent implementation and change the course. Missourians have spoken. They want women making their health care decisions, with help from physicians and family members. Women deserve to be able to take their own situations under consideration and make the choices that are best for them. Doctors have the professional and ethical responsibility to provide healthcare that will preserve the health of women without fear of government lawsuits initiated by those with no medical education or experience. No woman takes this lightly. Men and women have voted in support of women making their own health care choices without any government interference. This bill must not go forward.

Reproductive rights for women are fundamental to good health for both women, their children and all of society. Efforts to ban abortion at all costs threaten the health of women who have complications related to childbirth, both before the potential birth of a child and during the act of giving birth. Each woman must be able to make the right decision for herself with the advice and help of her physician. The state of Missouri - indeed any governmental entity - has no place in medical decision making and no authority to deny women the freedom to choose their own options related to childbirth. This anti-choice effort is a disguise to push a pro-Christian nationalist, white supremacist plan to suppress women's rights and create a regime of women's suppression.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

I oppose HJR54 because I was born during a time when women had few rights, reproductive decisions and sexual decisions included. Finally, in 1973, a year after I graduated from high school, women finally had control over their bodies and reproductive choices with Roe versus Wade. Until then, they were at the mercy of the decision of men and the government. Sadly, that control was reinstated when Roe versus Wade was overturned in 2022. Last November, I along with over 1.5 million Missourians took that right back by voting yes on Amendment 3. The majority of Missourians agreed to kick politicians out of our personal medical decision making, and all sexual and reproductive care. I stand by my vote. I want the freedom for sexual and reproductive care. It is your job to protect and fulfill the will of the people. Vote no on HJR54.

My name is Susan Scribner and I live in St. Charles. I am testifying in opposition to HJR 54. In November, more than 1.5 million Missourians voted YES in favor of restoring access to abortion in our state. This included people with a wide range of political views. A woman in my yoga class who is a staunch Trump Republican told me she voted YES on Amendment 3 because she believed women should have the right to make decisions about their own bodies. Missouri is known for being the "Show Me" state, with the rights of individuals considered paramount. Missourians "showed you" in November that they want access to abortion. You were elected to serve the will of the people. HJR 54 is a complete repudiation of democratic values. You must listen to the people and vote against this unconstitutional amendment.

It is undemocratic and wholly inappropriate for the Legislature to nullify Amendment 3 which was approved by a majority of Missourians. The Legislature needs to fulfill its responsibility to represent Missouri voters, not to act as autocratic dictators. Regardless of one's position on the merits of the amendment, the rule of law should govern each legislator's vote on HJR 54

My testimony: Missouri voters have already spoken clearly regarding the right to abortion in this state. It is decided. This is an attempt to override the clear will of the people of Missouri, to further attempt to control women's bodies, and to further restrict the rights of trans youth. Stop focusing on trying to exert power and control over the most personal and intimate decisions in the lives of Missourians, and start focusing on improving the lives of all Missourians. Do not approve this resolution.

The blatant attacks on democracy by the Republican Party within our state should serve as a warning. We as citizens united to allow a vote on Amendment 3, which passed with majority support. Politicians now try to bypass democracy by adding retroactive restrictions to the amendment without allowing citizens to have any vote. This is not democratic. This follows years of gerrymandering and rigging the system by this state's Republican Party. They do this to strip us of our rights. There is nothing we can do about this politically as citizens besides enlisting the help of attorneys to sue and block these nonsense bills. It is a disgusting overhaul of democracy and hardly representative of the values of small government and lessened restrictions on freedom for citizens.

As a citizen of Missouri I feel this bill will negatively impact the lives of thousands of civilians in our state, and will lead to a mass outcry from thousands more across our nation. Blocking gender affirming care towards these individuals will only lead to an increased number of suicides and mental health crisis' in such minorities due the pressure they face to conform to society, and the abuse they might be at risk for. These people need access to proper affirming care to feel safe within their communities, and will help countless minors and adults pursue their right to happiness. Furthermore, the ban on certain reproductive care will only make it more difficult for pregnant citizens who may have been the victim of rape, incest, or medical complications to receive the care they need. While the proposed bill aims to better help these victims, the proper documentation and evidence the individuals are required to have is outright ludicrous, and in some cases a grieving parent can be accused of an illegal abortion in the case that they do not have proper documentation of their miscarriage. Asking said victims of rape or incest to recount their attacks or provide evidence will cause the victims tremendous emotional distress at having to recount the harsh details of their trauma and run the risk of not being believed by authorities. This bill, while intending to protect the lives of Missouri's population, will only cause undue harm towards the affected groups, and will further complicate and strain the lives of thousands of at risk adults and minors.

My name is Sydney, I live in University City. For the last four years, I've paid taxes, volunteered, lived, and worked in Missouri. At WashU, I am fortunate to study mathematics. I've also been involved in politics: I cast my first ballot/voted in my first election/voted for the president the first time. Last November, I voted for Amendment 3 because I believe that the reproductive health is critical healthcare that should not be restricted by the state. I oppose this bill as a blatantly anti-democratic attack on voters like me. Instead of focusing on access to education and better infrastructure, politicians are using taxes — my taxes — to make Missouri more restrictive. Moreover, it is well established that abortion bans hurt the state. Missouri has lost over 4 billion dollars and our GDP has shrunk by 1.1% according to the International Women's Policy Institute. This policy is anti-democratic and fiscally unsound. Vote no.

The will of Missouri voters is to have legal, safe abortion in our state. The majority of voters said 'yes' to amendment 3 in November, which this bill attempts to undermine. Missourians voted for and deserve this right. Abortion bans only make abortion more unsafe. Since Texas have banned abortion, the state has seen 3 documented deaths due to Texans not being able to access this care. Here is the story of just one. Porsha Ngumezi bled to death as she was miscarrying after her doctor opted against an emergency procedure used to end pregnancies. She was 35 and left behind two sons, 3 and 5 years old. Analysis has also suggested that these bans result in a higher level of infant mortality (source: <https://publichealth.jhu.edu/2024/analysis-suggests-2021-texas-abortion-ban-resulted-in-increase-in-infant-deaths-in-state-in-year-after-law-went-into-effect>) This bill also seeks to undermine gender-affirming care. As with abortion, these decisions should be left between patient and doctor. These laws only stigmatize transgender individuals further, and lead to increased isolation and adverse mental health experiences. As a therapist who works with many transgender clients, I can attest to the relief that can come with finally being able to access care that helps one's appearance align with their identity, and gives them a sense of safety in their body. I abhor the language and sentiment of HJR 54 and encourage lawmakers to prioritize the well being of all Missourians.

My name is Tamra, and I'm a resident of St. Louis city. When Amendment 3 was introduced, people from every corner of my community, as well as those in the counties surrounding, expressed enthusiasm that we'd have the chance to vote on the right to abortion in our state. I wasn't surprised at all to hear that it passed! 1,538,659 Missourians voted YES on Amendment 3, and I urge you to defend the choice of the majority. Clearly, WE as Missourians value the right to bodily autonomy in the form of access to reproductive healthcare. When I heard about HJR 54, I was disappointed in the officials that we chose to elect. I am 31 and finally at a stage in my life where I could finally imagine being a parent — I have an education and a settled, safe life to provide for a child. I have decided not to have a child until I am certain that they will have the right to make decisions for their bodies. Nobody WANTS to have an abortion. This is absolutely not something anyone wants, but it can be a necessary life raft so kids can graduate high school, or adults can be certain they really can afford to provide in this unreasonably expensive period of time we're living in. I urge you to listen to Missourians when we vote for what we need. I expect my representatives to listen to their community. I will remember this moment and if my representatives listened to me. Please vote no on HJR 54.

My daughter is in love and starting to plan a life with a young man who very much wants to build a family with her. The problem is that she suffers from both type 1 diabetes and Addison's Disease, both of which could complicate future pregnancies. The family who loves her and her students very much value her life and don't want doctors to prioritize the potential life of a fetus over her life. Missouri legislators must listen to the will of the people and let abortion be a matter of private decision between a woman and her doctor.

The threats against American rights and voice is being threatened again by the State of Missouri elected legislative individuals being inorganically influenced to impose government power on the people. This bill and other like this atrociously unamerican and purposeful abuse of power to invade personal gains and goals is opposed by this retired army veteran and farmer household. The individuals that support this type of constant attack of time and persecution by elected representatives, challenge the protective process of the people and lives that are being subjugated over and over again wasting time and taxpayer money as legislation/er strip the processes of the constitutional rights of working busy folks, by immediately challenging the initiative process used to secure a womans right to her own body. The constitutional amendment the people demanded and obtained was purposefully and legislatively blocked. It is going it again as these hearing have begun. I oppose HJR it is a priority to assault and insult the Missouri Constitution with legislative power. Why is the people's time, tax money, lives and your salary being wasted on reversing and ignoring the people's voice over and over again historically and recently? It is because you are looking to keep this personal feeling issue festered in the hypocritical cloak of leadership. This legislation is awaiting for harder and court strangled legislation to create a process of delay until administrative actions render opposition to this leaderships constant overreach. Bills HB 571 and 551 help HJR 54 to strip innate rights of americans, veterans, women, men and all that have already stepped forward against 54's power grab and by pass of Constitutional Laws and Rights. Where is the elected missouri leadership's legislation to support the services associated with the peoples choices? Where is the work you are hired to do? Where are the processes and provisions to successfully restore the millions of dollars to the state for medical services denied and diminished by legislative administrative strangulation? This insult and slap in the face by emotional manipulations and personal self gain, HJR 54 is an tool to further diminish American standard of life and innate freedoms by constantly being abused by this harmful legislation and rotten salary receiving elected officials ignoring the poor, working class folks that can't believe their neighbors are treating them like disposable cattle or owned resources. Stop and oppose Missouri Legislative Terrorism on Constitution, Doctor and Patient privacy, initiative process actions, rights of body and access to medical choices.

The people have voiced their preference multiple times on this issue. Everyone should be able to make choices about their body and their family structure with the help of their doctor without the interference of the government. Abortion is helthcare! Abortion is healthcare! Women need to have control of their own bodies. I will say that again - women need to have control of their own bodies. The people have spoken - if you do not want an abortion, then do not have one. Keep yourself out of other peoples business.

Please vote to **OPPOSE HJR 54**. Missourians passed Amendment 3 in 2024 to add abortion rights to the Missouri Constitution. HJR 54 seeks to restrict the abortion rights of women that Amendment 3 protects. Amendment 3 also protects reproductive health care decisions made between women and their doctors without criminalizing them for having an abortion or providing one. Why a woman wants an abortion is private and is not the business of Missouri lawmakers, period. Missouri, unfortunately, already has a law prohibiting gender affirming care for minors. HJR 54 ignores the fact that Missouri citizens have already spoken to preserve their right to abortion care in the Missouri Constitution via Amendment 3 and it shamelessly seeks to trample on those voices. As a lifelong, voting Missourian who voted for Amendment 3, I don't want the abortion restrictions, abortion criminality or transgender care bans proposed in HJR 54, enshrined into the Missouri Constitution. Please **OPPOSE HJR 54**.

Instead of focusing on access to education and better infrastructure, politicians are using taxes — my taxes — to make Missouri more restrictive. Moreover, it is well established that abortion bans hurt the state. Missouri has lost over 4 billion dollars and our GDP has shrunk by 1.1% according to the International Women’s Policy Institute. This policy is anti-democratic and fiscally unsound. Vote no.

To the Members of the House Committee on Children and Families, As a Missouri voter, I strongly oppose House Joint Resolution 54. This proposed amendment disregards the will of voters and seeks to impose extreme restrictions on personal medical decisions that should be left to individuals, families, and their healthcare providers—not politicians. The people of Missouri have made it clear that they do not support extreme government overreach into private medical matters. This resolution is an attempt to undermine democracy and disregard the voices of the very constituents you were elected to serve. Missourians deserve the freedom to make personal healthcare decisions without political interference. I urge you to respect the will of the people and vote against HJR 54.

This proposed constitutional amendment will blatantly overturn and ignore the wills of the majority of Missourians who have voted to protect reproductive freedom for Missourians. It is an affront to democracy. The rights to bodily autonomy is a fundamental human rights. To so outrageously attack this right even after the will of the people have made it clear that they are for reproductive justice is disgraceful. I wholeheartedly oppose this attempt to overturn the rights to reproductive freedom and to undo the wills of the majority of Missourian voters.

I reside in Springfield, MO and have been in the Ozarks all my life. I am submitting testimony on Bill HJR54. I strongly oppose this bill. The people of Missouri have voted to overturn our abortion ban. We have voted that women have rights to their bodies. We have voted that each person has the right to make life changing decisions with their doctors, not with politicians. Even introducing this bill is a slap in the face to the voters and undermines our legislative process. This is a disgusting display of contempt for any viewpoint outside of a proven minority vote. As a person who required a medical abortion during a miscarriage, I am fearful of where these proposed laws will end. The people have spoken. Do not silence your constituents.

The vast majority of the country agrees that safe and affordable access to abortions should be legal. As a resident of St. Louis I am already aware of many potential new residents avoiding the state as a whole due to issues like this. Thus, hurting local businesses and potential high wage taxable incomes. This argument has nothing to do with the morality of abortion but I do not think we will agree on that topic, however, I do see access to safe and affordable abortions as the morally correct choice.

I voted in November for Missouri women’s right to reproductive healthcare and to choose what they want for their own body. There shouldn’t be any retraction of an issue that was voted into place by the people of Missouri. The very fact that voters have to submit testimony to defend their vote is ridiculous and an insult to all who voted yes.

HJR 54 is dangerously off the mark should NOT be approved. Missouri voters solidly approved Amendment 3 in 2024; if enacted, HJR 54 would negate Amendment 3 and once again strip Missourians of their rights to privacy and bodily autonomy. This bill is an egregious usurpation of the will of the Missouri electorate, serving only to subjugate the public, not protect it.

Thank you for taking the time to read my statement. My name is Traci Todd Murphy, and I live in Kansas City, Missouri. I am deeply troubled that legislators are working to overturn the will of the voters who overwhelmingly approved Amendment 3 last November. Let me remind you: 1,538,659 Missourians voted YES on Amendment 3. That's a clear mandate. I urge you to respect the will of the voters and uphold the protections we fought for. Missourians deserve representatives who listen to us—not politicians who ignore our voices. Do the job you were elected to do: defend our rights, not threaten them. Thank you for your time.

The citizens of Missouri already voted in favor of maintaining reproductive freedoms for all women. This bill serves to circumvent the vote of the people and instead replace it with the whims of lawmakers. Reproduction rights, including access to safe and LEGAL abortions, are healthcare rights. It is not the job of lawmakers to push their individual will and beliefs on our communities and citizens. Please maintain separation of church and state and stop trying to limit the healthcare rights of women.

I am a mother of five and an APRN, Certified Nurse Midwife with a Doctorate in Nursing Practice, so unlike Melanie Stinnett, I am uniquely qualified to speak on this matter. I have delivered many babies in this state, and I have also had patients suffer life threatening hemorrhage and sepsis due to pregnancy. I am sure that you have all witnessed the dangers to women and children in states with abortion bans across the nation and that it has been thoroughly testified to. I am sure you all know that every major medical organization with any skin in this game has spoken out against abortion bans including but not limited to the American College of Obstetricians and Gynecologists, the National Association of Nurse Practitioners in Women's Health, the American College of Nurse-Midwives, and the Association of Women's Health, Obstetric and Neonatal Nurses. I am also sure you know about the recent letter to Texas legislators signed by 111 Texas OB/GYNs begging them to stop letting women die needlessly and let them do their jobs. So, while I deeply support allowing actual medical professionals to work with their patients to provide appropriate care, I will instead expound on a way this legislation harms women, other than them dying while waiting for care. I would like to personally tell you about the many OB/GYNs I have worked with who would not dream of returning to MO and practicing in a state with our restrictions. They actually laugh when I ask because it is comical to think that any self-respecting OB/GYN would come here to practice. It is unsafe for them to practice here, where politicians ignore the expertise of medical professionals and the will of the people of Missouri, because they think they know better. Melanie ran on increasing access to care, but she does not seem to understand the implications that legislation like this has on access to care for ALL the women in this state- not just those seeking abortions. So when you, or your mother, or your wife have a gynecological problem or even cancer and you can't get the care you need, you will know why. I have cared for many women, who have gone to out of network clinics and paid cash to be seen for a gynecologic concern because the wait for their OB/GYN office was 6 months. How lucky that they were able to do that when so many are not. Further abortion restrictions will only make this problem worse. I am also the former medical director of a military sexual assault program and a trained sexual assault medical forensic examiner. You will not find a single professional in that field that supports the requirements for police reporting being proposed. It would actually be on their list of things not to do to victims. A victim of incest or domestic violence who may not be allowed or may not feel safe to report the crimes committed against them will be forced to continue the pregnancy? What an unfair requirement that they must put themselves in further danger to receive care. We know that forced pregnancy is a method of control used by abusers. Recent research published in the Journal of the American Medical Association estimates that 519,981 survivors of completed rape experienced 64,565 rape-related pregnancies in the 14 states that implemented total abortion bans following the Dobbs decision yet only 21% of rape victims report. Rape victims report being comforted by having the autonomy to decide how and if they report after having their power ripped away by their attackers. Those who have become pregnant after

rape similarly report feeling comforted and empowered knowing they had the ability to choose what to do next. The mere mention of this HJR is an assault on the health and safety of women and children, the people you say you are protecting and it is in staunch opposition to the opinions and recommendations of those who are actually trained in the fields of women's health and sexual abuse and assault.

This should be a settled matter. The citizens of Missouri had voted to enshrine reproductive rights. This bill negates the decision of the people. Popular vote should supersede the politicized votes of a few officials. Passing this bill effectively disregards the voice of the people. Why hold elections in that case?

This past election, Missourians made clear that they wanted a constitutional right to reproductive freedom to keep the government out of our health care decisions. This bill is a slap in the face to those voters. This Supreme Court of this state made clear the sacredness of our right to initiative petition in an opinion issued over a century ago: "Under our system, that intangible thing we call 'government,' the existence of which is least felt when best administered, has its origin in and draws its life and inspiration from the people. They frame and adopt the organic law, which defines the limits of legislative action; they incorporate therein whatever provisions they may deem proper. Thus empowered, as are the people in all governments organized as is ours, the inevitable conclusion follows that if they determine, as they have in the adoption of the initiative and referendum, to limit the province or modify the purview of the Legislature in the adoption or rejection of laws, there is no power that can say them nay." In other words, the government of this state works for the people, not the other way around. Respect the will of the voters and throw this bill in the trash where it belongs.

The citizens of Missouri passed an amendment to allow a women to have choice over her own body. It's taking away everyone's given freedom to pass an initiative petition and then have government take it away. Please follow what the constitution says.

I understand the abortion issue is near and dear to your heart, but trying to legislate it away has never succeeded, and will never succeed in the way you envision, unless your visions include the pain, suffering, persecution, and very lives of countless innocent girls and women. Education is much more effective than legislation; I suggest you put your muscle there. This bill as written is yet another bold and blatant attempt by the Missouri legislators to subvert the will of the voters. The question has been (very recently) asked and answered. This rewriting of voter referendums that didn't go the way you hoped is getting mighty tiresome. As for the second half of the bill, I struggle to understand the obsession with such a small percentage of individuals. Please let families and their physicians sort out this very delicate issue without interference. And remember - all of you have unisex bathrooms in your homes. Don't create a problem where none exists.

Citizens in the state of Missouri **OVERWHELMINGLY** passed Amendment 3. It is unconscionable that legislators insist on causing more money to be paid fighting this battle again when this state has so many other problems! Women in Missouri and all across the country need to know that we have autonomy over our bodies. Stop doing this just to get your name in the press.

Missouri voters passed Amendment 3 in November 2024. Missouri voters support reproductive healthcare, including recognizing women as independent to decide their own healthcare in consultation with their healthcare provider. The uterus is the only organ deemed, by some, appropriate to donate against the will of the donor for another's benefit. This goes against bodily autonomy which all people deserve as a right. There are too many scenarios outside the few exceptions allowed by the previous abortion ban law in which it is appropriate to allow an abortion. These scenarios include those where the mother's life may not be in immediate danger, but appropriate healthcare on an individual level would lead a rational minded person to recommend abortion. Reproductive healthcare, including abortion, is best decided by a woman and her physician and not a man sitting in an office with limited to no medical knowledge.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Hello, my name is Veronica and I live in STL. After hearing about not only this bill, but also the other bill representative Eric Burlison introduced to the house. This is absolutely ridiculous. I'll state many of the points that relate to the other bill as well. To begin, I completely understand that a fertilized egg is only the very START of life, though it necessarily doesn't equal a human being. If an abortion is done properly and early enough, there are no organs, no heart, or any body part formed early on after the first few weeks. This is what we the people want. Healthcare to ensure women can find out the status of their fetus and see which option is the best to forward. How is it that Missouri just a few weeks back, protected abortion rights under the 3rd Amendment, yet Missourians do not have any access to any clinics that perform abortions? Missourians I can say for sure, do not want this, including thousands of other affected Americans. Do we not realize how harmful this is? How ridiculous a law like this is? Why is it that many representatives and senators are proposing bills that are the least of the state's problems when we can be focusing on better things? Like the foster care system, a major increase in homelessness and poverty rates, the fact that millions of American citizens cannot afford their bills or healthcare, or the fact that public schools become unsafe, and more so every year after the next. Why is it that we only care about the "life" at conception and not the young life in childhood? Why are we only "allowing" exceptions? It is completely up to a woman, whether to go through with the pregnancy or not. Why are we trying to enforce women getting permission from a physician? Why is it that we need permission? Especially in cases of rape or incest done to an adult woman? It is completely disrespectful to the American people, especially to us Missourians who voted with our very right just for our government to try and take it right back just after a few weeks. Why are we focused on raising life and normalizing more young women to give birth than trying to prevent older pedophiles from harassing and targeting young women? You are all focused on the wrong things, and it is shameful. Why are we focused on raising life and normalizing more young women giving birth than trying to prevent older pedophiles from harassing and targeting young women? Why aren't we focused on the consequences rapists deserve? Does Missouri support pedophilia and rape? Because it seems to me and to other thousands of Missourians that you all rather prioritize a rapists' well being. Are you aware of the increase in malpractice in Texas due to the abortion law? These situations have happened many times and actively put women's health at risk. Why are we going backward? Why is it now 2025 that we have already overturned Roe vs Wade, and our "representatives" want to diminish our rights in this country completely? What is the point of you being our representatives, our voice, just so many of you can ignore the opinions and voices of your people? How is this helpful to the average American? How is this helpful to the awaiting fetus? Why is it that women are forced to reproduce and go through the tragedies that endanger their children? Disgusting acts of rape and murder happen to children every day, yet I haven't seen any bills introduced talking about limiting gun use or limiting gun sales, or any bills to ensure children are safe in their homes, or any bills or any sort of action being done to abused

children at home that social workers constantly ignore. My message is this, it is outrageous to hear a representative in my state propose something like this when thousands of Missourians have advocated for healthy and safe EARLY abortions. It is deeply upsetting and advocate on my behalf and thousands of others to truly vote against this. It accomplishes absolutely nothing. This is the opposite of what people want. With this bill, we aren't ensuring child safety, we're ensuring forced childbirth and negligence. Thank you.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

My name is Verraine Fritz. I live in Springfield, District 133, and I'm 29 years old. I grew up in Camdenton and attended Camdenton public schools. I excelled in school, graduating with multiple IB certificates and college credits. I made every single regional and national honor choir afforded to me, including the very first NafME all-national choir in Nashville and the Sound of America Chorus that toured across 6 countries in Europe. I was well-loved in my school, including being elected homecoming royalty. I say all this because I want to counter a certain image often portrayed of transgender individuals. I am a transgender woman. We are intellectuals, aspiring artists, and pillars of our communities. We are not confused or irrational or ideologues bent on tearing apart families. We are people and we are in your communities helping to lead us to a better world. A kinder world. We have lived through great opposition and somehow, through strength and resilience both as individuals and as a community, we have found our own ways to thrive. Despite our collective strength, we are hurting. When I came to Drury University in 2014, I did not know I was trans. My mental health had begun to decline in high school and in college it showed no signs of stopping. I struggled to maintain focus on my class work. My mental headspace was as though mired in fog and it grew worse and worse until I was diagnosed with general depression and anxiety disorder and forced to take a mental health leave. I tried a variety of meds over the course of a year, though none made any significant impact. When I returned to college, I was again quickly overwhelmed and I dropped out in 2017. I held a steady full-time job and did little else but work and go home. I was lucky to have a loving partner, whom I am still with today, now going on 9 years in August. When COVID hit and we were forced to spend inordinate amounts of time locked away in our homes, for some of us it was a period of great inward reflection. I put together the fragmented parts of my brain and in 2021, with the help of many incredible trans people online and in person, I came out as trans. In 2022, at the age of 25, I started HRT. From the very first pill, I could feel a change in my internal landscape. The brain fog I had dealt with my entire life was finally lifting. I have learned a range and depth of emotions that I never thought possible. Before, I would go with the flow and when someone asked me what I wanted to do or be, I was so detached from myself that I could only answer what I thought they might like to hear. Now, I am more confident than ever. I am no longer depressed and anxious to simply exist in my body, and I am more active than ever before. I am in a band, I work and have led my workplace to unionize, I have multiple weekly hangouts with different friend groups, but most importantly, I am happy. If I had the type of care now afforded to me, gender-affirming care, and the type of queer community that I now have, I know that my schooling career would have been entirely different. Living with gender dysphoria nearly killed me. It did kill my college career, though I hope to go back some day. Trans people deserve to be happy and healthy. We are not political pawns and it is not the governments role to deny care recommended by healthcare professionals worldwide. I stand in opposition to this bill.

Hello, My name is Vicki Jurica from Grandview. I am writing in opposition to HJR 54. Over 1 million Missourians voted YES on Amendment 3. That means they, like myself, believe in all reproductive health care. And, the decisions should be made between ourselves and our medical team only. Missourians value their freedom to live as they choose, including to make their own health care decisions. Who are you to introduce HJR 54 which limits my freedoms and health? You were elected to defend the voice of the people. It is ridiculous to me that instead of fully supporting the voices of the people in this state and assisting in the complete implementation of full health care for all, time is being wasted on frivolous bills meant to cause harm and deny care.

My testimony is this: I, of able mind, knew what I was voting for last November, and I believe this amendment is an attempt to nullify the will of the people. The people should be heard and our votes should not be overturned. Even if I disagreed with the outcome, which I don't, you elected officials shouldn't assert your will over the people you represent. People, not States, should make decisions about their bodies. How can women be permitted to have abortions in cases of rape when most accused rapists are acquitted and victims are blamed? Rape trials last well beyond 12 weeks. What about minors who are victims? Will they be forced to carry a child to term while people decide if a crime has been committed against the minor? Stop acting like people didn't know what they were voting for. We did. People don't want the government to mess with their bodies. Women in Saudi Arabia have more autonomy over their bodies than Missouri women if this travesty of an Amendment passes.

The people voted to legalize abortion to the point of viability. The job of the Legislature is to respect the will of the people. Those who are against abortion can choose that for themselves, but the people decided that it is an individual decision and the will of a handful of legislatures should not reverse their decision.

My name is Wendy Carlton and I live in Lee's Summit.,538,659 Missourians voted YES on Amendment 3—you were elected to defend those rights. Reproductive Freedom is a Missouri value.Decisions about reproductive and gender affirming care are best made between patient/parent and doctor. Missourians made it clear at the ballot: we support access to abortion and all reproductive health care; our government should reflect those shared values not threaten them.

I did the hard work of gathering signatures to help pass Amendment 3. Abortion bans are bad for everyone in the state. While I am most concerned that women have autonomy over their reproduction, it's also important to remember that care for miscarriages requires abortion care. Abortion bans drive people away from our state - why live in a place with restrictions when there are many states without? Abortion bans drive away doctors and degrade health care in our state. The people have spoken and passed Amendment 3. Stay out of it!

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Good afternoon, I am a daughter, a sister, a mother to a daughter (and a son), a wife, a coach, and a former teacher. I am here for all the females in my life and for the future females of our state. We do not want to go back. In a state that has many people that favor states' rights, you would think that the people's voice would be upheld and honored. The people voiced that each person should make their own health choices. BUT those people, who want to restrict abortions, need to open their eyes to everything they are pushing for. To those that say "abortions are not healthcare:"-Look at the examples of women (and children) that have had to wait for their pregnancies to get bad enough for intervention...and then they died, it was too late. (ex. Amber Thurman, 28 yo; Josseli Barnica, 28 yo; Nevaeh Crain, 18 yo; Porsha Ngumezi, 35 yo) -Look at examples of women who can no longer get pregnant because treatment was delayed.-Look at data about states with more restrictive abortion regulations having higher maternal mortality rates: "The researchers found that states with the higher score of abortion policy composite index had a 7% increase in total maternal mortality compared with states with lower abortion policy composite index. Among individual abortion policies, states with a licensed physician requirement had a 51% higher total maternal mortality and a 35% higher maternal mortality (i.e. a death during pregnancy or within 42 days of being pregnant), and restrictions on state Medicaid funding for abortion was associated with a 29% higher total maternal mortality." (Vilda, D., Wallace, M., Daniel, C., Goldin Evans, M. Stoecker, C., & Theall, K. State abortion policies and maternal death in the US, 2015-2018. Forthcoming September 2021. American Journal of Public Health. <https://sph.tulane.edu/study-finds-higher-maternal-mortality-rates-states-more-abortion-restrictions>) -Part of HJR 54 tries to limit abortion to cases of medical emergency and fetal anomaly, which is saying that it is fine for someone to decide the person is "not sick enough" and to delay treatment during their suffering. This is inhumane; this is immoral.-Do we want congress people and neighbors to have more say on health decisions than a doctor and their patient? We answered no to this by voting yes on Amendment 3 last November. To those that say "leave it up to the states," we did:-MO passed Amendment 3. BUT that's not the end...-We, the people, said anyone can get an abortion without having to justify it. This bill wants to place rules on victims of rape and incest. This is unethical. No one should have to publicly announce their assault in order to get help. This bill also tries to limit abortions based on the gestational age of no later than 12 weeks. First off, there are people that have inconsistent cycles (especially teenagers) so they may not know they are pregnant as soon as one might hope. Secondly, how do children get help when their assaulters are their adults or when they are assaulted but are too ashamed to tell their adults? By the time they might be showing, it would be after 12 weeks. -In January 2024, researchers estimated that 64,565 pregnancies resulted from rape in the 14 states where abortion was banned following the overturning of Roe v. Wade. Missouri was one of those states. They also estimated that there were 520,000 rapes in those states in that same time. Those numbers are abhorrent. Thankfully, my conscience is clear because I never voted for that...hopefully

yours is too. Missouri voted; we don't want to go back to the days of forced birth.
(<https://www.scientificamerican.com/article/64-000-pregnancies-caused-by-rape-have-occurred-in-states-with-a-total-abortion-ban-new-study-estimates/>)In a time that some men feel like they can say things like "your body, my choice," and people have pointed out "rapists can now choose the mother of their children," we need to really think through the consequences of policies. *Also, homicide is the leading cause of death for pregnant women...which I realize is a whole other issue.
(<https://hsph.harvard.edu/news/homicide-leading-cause-of-death-for-pregnant-women-in-u-s/>)Thank you for your time; we trust that you will make the correct decision for the women and little girls of this state.

This is quite blatantly against the will of the people in Missouri. We are not going to throw this issue back and forth to oppose it and then to support it. It clearly was voted yes by the people in 2024 and it needs to stay that way. Popular sovereignty is a good tool, but in some cases there are exceptions. Think of Bleeding Kansas. Some issues need to be clearly stated which way they stand on or conflicts arise when there is ambivalence. This is why the issue should now be settled. Also, nice try to throw gender ideology into this bill. I believe that surgery to transition should ONLY be in cases where the teen is exceptionally at risk of self harm. But that is why there are reversal treatments for HRT or just simply dressing as the opposite sex can relieve symptoms of gender dysphoria. We should not be making a culture war over 1% of the population. C'mom.

Women have a constitutional right to decide what happens with their own bodies, either through consensual sex or rape. Missouri government, along with the United States government, have absolutely no right to make overarching, unilateral decisions on another person's body. I firmly believe that this also pertains to transgender people and their bodily autonomy as well. We are supposed to live in the land of the free, where every person is allowed to make their own decisions and live life how they want. This is what makes America a beacon of hope and prosperity for people around the globe. By imposing laws that horrifically restrict another person's ability to decide what happens to their own body, either willingly or through an atrocity such as rape, you are diminishing what it means to be an American. Please let your constituents decide what is best for them, what they have already voted to uphold, and do not go behind our backs by supporting national bans on abortion and trans rights.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The fact that this is even coming forward is against everything we voted for. We voted for abortion rights. All this is doing is restricting healthcare and power for anyone in these situations. The fact of the matter, is that the people voting yes, do not care about the why. All they want is to say they have more power over someone else. As one of the witnesses said tonight, there is no reason politics should be in a healthcare environment, and politicians should not be able to tell someone what they can and cannot have done. I am beyond disgusted that this is something we have to vote for. All this is doing is restricting people. This is supposed to be the land of the free. Just let people be happy.

I strongly oppose HJR 54, which seeks to impose extreme restrictions on reproductive health care in Missouri, interfering with personal medical decisions that should be made between individuals and their doctors no matter their gender. This measure threatens maternal health by increasing medical risks, disproportionately harming low-income, rural, and marginalized communities. It also forces health care providers into ethical dilemmas, preventing them from offering the best medical care. Restricting reproductive rights negatively impacts economic stability, workforce participation, and overall well-being for Missouri families. I urge you to reject HJR 54 and instead support policies that protect health, autonomy, and dignity for all Missourians. Restricting reproductive rights according to HJR 54 does not take into consideration the time it takes to find out if a person is pregnant and under these proposed guidelines, pregnant people will barely have time to find out they are pregnant, much less determine if they want an abortion after consulting with healthcare professionals. There are also so many medical complications that can happen during a pregnancy that can be fatal to the mother or fetus (clump of cells not a person). By prohibiting access to safe reproductive care, more people will die.

I am writing to express my strong opposition to House Joint Resolution 54 (HJR 54), which seeks to impose additional restrictions on reproductive health care in Missouri. This proposal not only undermines women's autonomy but also disregards the clear mandate expressed by Missouri voters through the recent approval of Amendment 3. In November 2024, Missourians decisively voted in favor of Amendment 3, enshrining the right to reproductive freedom in our state constitution. This amendment affirms the fundamental right of individuals to make personal decisions regarding reproductive health care, including abortion, without unwarranted governmental interference. The passage of Amendment 3 reflects the collective will of the people to protect these personal liberties. HJR 54 proposes to overturn these newly established constitutional protections by introducing prohibitive measures that would severely limit access to reproductive health services. Such actions not only contravene the expressed will of the electorate but also infringe upon the personal freedoms that our constitution now safeguards. It is imperative that we honor the democratic process and respect the decisions made by Missouri voters. Efforts to reverse or undermine Amendment 3 through HJR 54 are not only undemocratic but also dismissive of the autonomy and rights of women across our state. I urge you to oppose HJR 54 and any similar measures that seek to erode the reproductive freedoms affirmed by the people of Missouri. Let us uphold the principles of democracy and individual liberty by respecting the choices and rights of our citizens. Sincerely, Zack Martin
