THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I was diagnosed with alpha-gal around 4 years ago. My biggest concern is medical. I make sure everyone in my medical teams know I have alpha-gal because I do not want to use my epinephrine injection. Recently I went to a new doctor he's in ortho. First thing I tell him is I am having heart surgery really soon and I have alpha-gal. He tells me my shoulder is in early stages of freezing up. He talks about steroids and i tell him I'm allergic to steroids they have three mammal byproducts in them, he leaves the room and comes back and injection me with a needle into my shoulder before I knew what was happening. On my way home I started having a reaction so I had to take my allergy medicine as soon as I got into the house. Later that night I read the notes on my mercy app that the doctor gave me a steroid shot. I messaged him about this and he called me apologizing that he didn't know about alpha-gal even though I told him and to my understanding he has a whole hospital data base he could have reached out to for help with more knowledge. Yet I suffer because he didn't know or listen. For years I had a doctor tell me she didn't know about alpha-gal so whatever I can have just let her know and she will prescribe it. I depend on my medical teams to know more about the meds they prescribe than me because I do not have the education they have. Tomorrow April the 2nd I am having a heart procedure and I am literally scared, even though I have talked and talked to my surgeon about having alpha-gal, I am scared someone on my surgical team will not know enough to not give me something that has mammal byproducts in it. I would also like to say when I was in the hospital they didn't have a good dietary plan for alpha-gal patients. Even though explaining it to them multiple times of what i can have, they still restricted me from having chicken and gave me pork. My life is literally always on the line when it comes to alpha-gal.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

The citizens of MO have already voted on the abortion issue. We have spoken and the legislature should not go back and rescind our votes. We voted Yes for reproductive health care for women and that includes abortion on demand. A woman's personal health care decisions are nobody's business and the voters agreed. Just because you don't like the outcome, you have no right to throw out the decision. Do you believe you are above the law? You are not. This legally approved vote should be the last word. Why do you think you are smarter than tens of thousands of voters? Mind your own business and figure out how the state is going to be able to help the poorer citizens get food after Trump et al has cut so many things from the budget.

With an ectopic pregnancy the fetus is not viable. My embryo was growing in my tube. The only way to keep it from rupturing my tube and bleeding to death was to remove my tube. I desperately wanted a second child and was devastated that it may not be possible with only one tube. I was fortunate that I was able to get pregnant again. I didn't consider it an abortion because it was required to save my life and be there for my other child. My doctor was so concerned that he walked me across the street and waited with me until they found an empty room, I was in emergency surgery shortly thereafter. There's no time to wait till legislators can get to the room to decide if I lived or died.

We the people collected enough signatures to get this on the ballot. Missourians voted to pass the bill. Now, once again, Missouri government officials have decided that the will of the people does not matter. I am opposed to this measure and the way this issue is being handled in the Capitol. I am opposed to HJR54 and I want our elected officials to let the will of the people stand rather insert their will in our lives. Thank you.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I want to start by saying Amendment 3 was created from lies. The lie that motherhood kills, the lie that a mother must deny who she is as a mother to succeed, the lie that a woman can only recover from rape if she kills her attacker's child, the lie that a woman can never be free without bloodshed of her child, the lie that children will make a woman poor, the lie that a child born into poverty will never succeed, the lie that disability is a death sentence for the child and family, and the lie that a baby in the womb isn't a person worth rights. Amendment 3 stripped the rights of our youngest Missourians, especially those who were killed. Those babies don't have a voice here because their voices were taken from them. They can't use their lives to help and serve others because their lives were taken from them. These babies most likely don't have names, and I imagine they don't have graves. Therefore, I will use my voice today to help pass a law that will give justice to Sam, Lee, Peyton, Parker, Avery, Jessie, Alex, and any other baby murdered in Missouri this year in the name of "choice." The babies are the most thought of when it comes to the harm Admendment 3 has done since they have been the most affected. This law also hurts women like myself. All safety regulations have been removed, so my dentist can perform a backally abortion. This is especially important when, from what I heard, surgical abortion is twice as deadly as birth and the pill being four times as dangerous as surgical abortion. Not only have the regulations made to keep us safe been stripped away because of Admendment 3, but it reinforced the idea that a woman cannot succeed if she becomes pregnant. Pregnancy isn't a disease, it's a biological function a woman has. Saying a woman can't succeed if she is embracing her femininity is sexist. Admendment 3 also allows men to escape their role on helping the mother. A man should be on standby willing to do anything for his girlfriend. Today, men can abandon their pregnant partner and demand they get an abortion rather than face responsibility for the child they fathered. Admendment 3 hurts parents as well because their child can kill their grandchild without knowing. A parent has the right to know the medical history of their child as long as they have custody over said child. HJR 54 won't undo Admendment 3's damage or bring back the lives of those killed, but it will grant justice to Missouri. It will fix parts of what was stolen from Missourians. Please vote for this bill for parents, women, and the unborn children.

Missouri citizens have already voted on this issue. Missouri majority collectively voted IN FAVOR of reproductive healthcare, including abortion, less than 6 months ago. Let the people speak for themselves. Missouri women and children deserve the best healthcare without restriction. The simple fact that we have to AGAIN ask for this to stay is a pure example of ignoring the will of the people.

These “exceptions” come with a great deal of hoops to jump through for survivors of unimaginable violence. Do we have any other amendments in our Constitution for which a person must prove themselves worthy to benefit? We do not. The People have already voted on this. Their response has been clear and decisive. Those elected by The People now have the obligation to protect and act upon the will of of The People.

Hello, my name is Allison Gordon from Kansas City, MO (Jackson County) and I am in strong opposition to this attack on Amendment 3. 1,538,659 Missourians voted YES on Amendment 3– you were elected to defend those rights. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians’ right to abortion, without politicians interfering. Please represent your constituents and do not support this.

As a mother, and a woman - this is absolutely appalling. I cannot believe you have the audacity to do something as underhanded and manipulative and villainous as trying to undo the will of the majority of voters in your state. Do you not care what the people actually want? Do our votes not matter? You don't care about our opinions or votes, only your own backwards personal agendas based on false information and the ideology of corrupt politicians who are twisting religion and women's health into something truly cruel and evil. Healthcare choices should be between a woman and her healthcare professionals - not elected government officials. It is not your business what I do with my body, this is government overreach at its highest. You are policing people's healthcare choices with no regard for the complexity of this issue. I am a mother - I love my children and would do anything in the world for them. How dare you suggest that this is protecting me or my children. You clearly know nothing of the choices and sacrifices that mothers make every day and you don't know the pain of a women suffering a miscarriage or pregnancy complications that result in an abortion. Those wanted pregnancies and those wanted babies and you are showing such disregard and disrespect for the choices that went into making that truly horrible choice. And - you have no respect for children once they are here. You are cutting services for children and women and babies. So we only care when they are fetuses who would die without their mother? Once they are born you don't give a shit about them. How dare you. I am so unbelievably angry and appalled at what you have allowed the Republican Party to become. This is not the will of the people - you are all cowards who are bending over backwards to appease Donald Trump and it's frankly embarrassing. You should all be ashamed at yourselves and what you are doing.

Roe V. Wade was supposedly overturned to give the vote to the states. Amendment 3 was voted on and passed so therefore it should not be changed or have another bill used to take away women's rights. Abortion is healthcare and it's not the government's place to decide what's best for a woman, especially when pregnant.

When the people speak through the democratic process—when an amendment is vetted, challenged, and ultimately upheld—it is the duty of elected officials to respect that decision. Attempts to undermine this process are not only a waste of time but a blatant disregard for the will of the people. It also suggests that voters are uninformed or incapable of understanding their own rights, which is both false and deeply insulting. Democracy works when leaders listen—not when they attempt to rewrite the results they don't like.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I am writing this to you as I feed my infant with my body, our wanted and beloved son I grew inside of me, whose pregnancy made me throw up for nearly 258 straight days. Why is the Missouri House working so tirelessly to undermine the will of the voters? Missourians like me are struggling to afford groceries, to keep up with student loan payments, to buy diapers for our children. Many of my peers have young families that pay more in childcare costs than toward their mortgage. Others are weighing the decision to have children at all because of the mental, physical, financial, and environmental toll. They see the state of the world-- divestments from schools, toxic pollution, and rising cost of living. Critically, they see headlines of women dying in Texas and Georgia and wonder whether they too will forfeit their right to life-saving care the moment a zygote forms. There are so many ways our legislators could be helping these young families, particularly if you wanted to incentivize and encourage the deeply personal and life-altering decision to enter parenthood. Yet, rather than do the work to help everyday Americans afford basic services, health and childcare, this legislature works time and time again to take away the most basic of freedoms-- that to your own body and life course. Rather than attempting any policy that would lessen the burden for struggling families, you would rather take away the choice for Missourians to decide how their family is shaped. I call upon the legislature to stop this disgraceful waste of our taxpayer funds in another patronizing attempt to undermine the constitution and will of the people of this great state. Perhaps when your time is freed up from ceasing the constant assault on the rights of your state's citizens, you can turn your focus to actually improving the lives of the people you claim to represent... like you were elected to do.

This amendment would overturn the Reproductive Freedom amendment that people voted for on Nov 5. Missourians deserve to have their votes count. Injects the state into decisions on medical care without the privacy of a woman's medical decisions with her health care team. This bill is in conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on Nov 5, 2024 (HB195)

My name is Barbara and I live in Independence, MO. I am a registered voter and vote in every election. I am strongly OPPOSED to this proposed rollback on Missourian's right to privacy and bodily autonomy. In November of 2024- 1,538,659 Missourians voted YES on Amendment 3. You were elected to defend and represent the will of your constituents. That includes honoring our voices and VOTE to overturn MO's abortion ban. The vote to overturn MO's abortion ban illustrated how strongly Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value and as a representative, your job is to honor that value. Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering and risking women's lives. We knew what we were petitioning for and voting on. Our votes must be honored as such. As representatives of MO, your duty requires you to honor the will and vote of the people and leave abortion access intact as it was voted on in November of 2024."

I oppose HJR 54 because it restricts access to essential reproductive health care, limiting a person's ability to make private medical decisions. Abortion is a deeply personal decision that should be made between a patient and their doctor, not dictated by the government. Restrictive laws disproportionately harm marginalized communities and those facing medical complications. I urge lawmakers to protect reproductive freedom and ensure that all Missourians have access to safe, legal abortion care.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I am submitting this testimony to express my strong opposition to HJR 54. This resolution not only threatens the reproductive rights of Missourians but also risks putting lives in danger and deepening existing inequalities in our state. Abortion is a deeply personal and often difficult decision that should be made by individuals in consultation with their doctors—not dictated by politicians. People seek abortions for many reasons, including life-threatening medical conditions, financial insecurity, or knowing that they are not in a place to provide for a child. These decisions cannot and should not be reduced to political talking points. The provision in HJR 54 that allows for exceptions in cases of rape or incest may seem compassionate on the surface, but it is anything but. It requires survivors to report their abuse and provide documentation—despite the fact that many victims are unable to safely report their abusers, especially if those abusers are family members or individuals with power over them. Even for those who do report, investigations can drag on for months or even years, far exceeding the 12-week cutoff. This effectively denies survivors the care they need and deserve. But the issues with HJR 54 go beyond just one provision. Abortion restrictions like this one overwhelmingly harm people who are already vulnerable. Those living in rural areas, people of color, and low-income individuals often have limited access to healthcare to begin with. For these communities, banning abortion doesn't just limit choices—it creates life-threatening obstacles. Let's be clear: Amendment 3 reflects the values and decisions of Missouri voters. Repealing it would ignore the will of the people and undermine their trust in the democratic process. Missourians deserve access to compassionate, safe, and respectful healthcare, free from unnecessary barriers or government interference. I urge you to reject HJR 54 and uphold the protections established by Amendment 3. Thank you for taking the time to consider my testimony.

Missouri voted for abortion to be enshrined in our constitution and we voted for this with a significant margin. The people want Abortion to be legal and kept from the pestering hands of politicians. It is a person's right to have their medical health be a decision between them and their doctor. I don't need some Bigwig politician from Jackson telling my doctor how to treat me or my wife. I support a free and unobtrusive government and I don't need a nanny state telling me what to do with my family. I'll leave that to the doctors and not to some old fossils living it up in the state capital.

Photo attached has instructions for how to My name is Brian and I live in Independence,MO. I am strongly OPPOSED to this proposed rollback on Missourian's right to privacy and bodily autonomy. In November of 2024- 1,538,659 Missourians voted YES on Amendment 3. You were elected to defend and represent the will of your constituents. That includes honoring our voices and VOTE to overturn MO's abortion ban.The vote to overturn MO's abortion ban illustrated how strongly Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value and as a representative, your job is to honor that value. Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering and risking women's lives. We knew what we were petitioning for and voting on. Our votes must be honored as such. As representatives of MO, your duty requires you to honor the will and vote of the people and leave abortion access intact as it was voted on in November of 2024."

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

This bill is in blatant disregard to what the people have already voted on in November 2024. We voted to establish the right to abortion in the MO constitution. It passed. The people SPOKE. Your job is to represent the people of Missouri, NOT ignore them. This started not from one political party. The people of Missouri gathered signatures on a petition to put this on the ballot. They gathered more than the required amount of signatures to let the people of Missouri speak. When we got the right to speak, 1.5 million Missouri voters supported the right to a woman's autonomy, privacy, and right to make her own healthcare decisions outside of a government agenda. Ignoring the voice of the people, no matter the subject, when they have spoken so clearly, is a clear disregard for the people of Missouri and makes it clear representatives are not looking to act for the people, but for their own greed and power. The subject of this vote, truly shouldn't even matter. If people voted, they spoke, and politicians and lawmakers should respect the will of the people, no matter the subject. That's your job. To ensure the will of the people, the right to an abortion is the will of the people even if you personally disagree. We already spoke, we did not misunderstand.

I stand in strong opposition to Missouri House Joint Resolution 54, as it represents a dangerous step backward in our state's commitment to upholding fundamental rights and democratic principles. HJR 54 seeks to amend the Missouri Constitution in a manner that undermines the voice of voters and weakens protections that serve to safeguard the interests of Missouri residents. One of the most concerning aspects of this resolution is its potential to restrict the ability of Missourians to effectively participate in the democratic process. By altering the constitutional amendment process, it diminishes the power of citizens to bring about necessary reforms through ballot initiatives, a cornerstone of our democratic system. This change would make it more difficult for everyday Missourians to influence the laws that directly affect their lives, effectively putting more control in the hands of special interests and lawmakers. Additionally, the passage of HJR 54 sends a troubling message that Missouri is willing to erode its commitment to public participation and the principle of "one person, one vote." Our democracy is strongest when all citizens have equal access to influence the direction of our state through direct participation in policy-making. HJR 54 undermines this principle, and I urge lawmakers to reject it and stand firm in their commitment to preserving the power of the people.

HJR 54 is an attack on the will of Missourians. 1,538,659 Missourians made our voices heard, loudly and clearly, in November when we voted to enshrine the right to safe, effective abortions into our constitution. We resoundingly rejected state overreach into our medical affairs and passionately defended the right of Missourians to access all forms of life saving medical treatment. This disgusting show of legislative overreach is deceptive and unamerican. Because your views are too unpopular to win at the ballot box, you have resorted to lying and tricking to push your unwanted agenda on Missourians. Your job is to represent your constituents, who have already spoken directly and decisively on this issue - to protect the right to access abortion in Missouri. Do. your. job.

As a lifelong Missourian and nurse, reproductive health care is not a partisan issue. Across Missouri; Republicans, Democrats, and Independents decided that reproductive freedoms made sense for Missouri women. The choices in what reproductive health care options are best for a patient are between the patient and their provider and should not be codified into law. Furthermore, it is dangerous to public health for Missouri to limit reproductive freedom. In an age where maternal mortality is at an alarming rate, this will push women further from seeking care from competent providers. Rather than seeking to limit reproductive freedom, lawmakers should instead focus on how we can best support Missourians who struggle to provide for the children they have or the issues we are currently seeing with child abuse and neglect.

Stop going against what we already voted for! The majority of Missourians DO NOT want to ban abortion, which was proven with the Amendment 3 vote. Do not move forward with this bill. It is absolutely ridiculous that we have to keep fighting for the basic human right of bodily autonomy over and over and over again.

The people of Missouri have spoken, and they want abortion to remain legal and accessible. Constituents in the sponsor's own district supported Amendment 3 at the ballot box, and as a voter I am furious and ashamed that the legislature would consider overturning what is once again settled law. Legislators should respect their constituents who believe the government has no place in families' medical decisions about whether and when to have children and oppose HJR 54.

My family has a history of pregnancy ending in miscarriage. These pregnancies required medical intervention. The decisions we have had to make are deeply personal and are decisions we make with our doctors. The pain of losing a wanted pregnancy is difficult enough but to then subject us to laws that do not allow us to make the decision privately is unconscionable. We the people passed the right to have an abortion if we need to have one. Do not overturn the law we the people voted in.

I strongly oppose this bill. Public policy in a pluralistic society must affirm the constitutional right to privacy of the individual to make reproductive choices. At the 2024 Convention, delegates passed a resolution reaffirming the Leagues commitment to fight for reproductive rights and justice, including bodily autonomy, privacy, reproductive health, and access to contraception and abortion.

1,538,659 Missourians voted YES on Amendment 3. This is a constitutional amendment and you were elected to defend those rights and our constitution. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a value, and not a mistake. And this should never be a partisan issue! It's a personal one between the woman, her doctor and her family. I worked to help get this measure on the ballot for many reasons and one in particular close to home. I have a niece that had to face a horrible decision. She was 15 weeks pregnant and went in for the amniocentesis. The test showed abnormalities forming on the child's brain - positive for Trisomy 18. She and her husband knew they would have to make the decision - the choice was in how to let the child they wanted so badly, die. She had chosen Termination for Medical Reasons or Termination of a wanted pregnancy because the alternative - letting the unborn girl to suffer. She was yelled at when she went to the Center to have this procedure. She did not want it to end this way, but few options lay before her. How can such life changing options simply be up to a vote from a stranger. How do these strangers have the freedom to chose for her? What church do those that criticize go to? What gives others the right to make decisions that belong to the woman, her doctor, her family? We need to protect exceptions at all cost, and the only way to do that is to leave Amendment 3 intact. My niece now has 2 beautiful daughters. And she keeps the ashes of her daughter that was terminated because of medical reasons, by her bedside. Not a day passes that she does not think of the child she lost and thanks her for watching over her sisters.

When I was in high school, a CT scan showed that the severe abdominal pain I'd experienced was due to an ovation cyst. Thankfully there was an inexpensive treatment with no side effects available. Unfortunately, it was birth control which my Dad feared would turn me into a "slut" and therefore he denied me treatment. I continued to suffer regularly from tremendous pain until I was able to access birth control as an adult that finally stopped me from ovulating. I'm on my second IUD which helped me to not lapse in treatment when I've lapsed in health insurance over the years.

I oppose HJR54. This is a direct attack on Amendment 3, an issue Missouri voters have already passed. I understand the bill that passed out of committee last Friday was sent for legislative review, where various other amendments have been added that weren't on the bill that came out of committee last Friday. This doesn't seem ethical. Even though the bill has the same name, HJR 54, it has different amendments. It seems like the legislature is determined to go against the will of the voters. Vote no on HJR 54. Respect your constituents' vote.

It is so wrong that this bill is even on the table. This matter was decided by the voters in the November election. A majority of voters said that women have a right to make their own healthcare decisions. This should not even be a political decision and the government has no business trying to tell women what to do with their bodies. When the people vote for something, it is not the right of the legislature to override it.

Amendment 3 was voted yes by the majority of Missouri citizens. It is your job to uphold the will of the people. It is not for the government to decide if and or when someone is entitled to receive health care. Leave these matters to the women and their medical provider not politicians. Missourians have spoken. We want amendment 3 and the right to autonomy of our bodies.

It is critical, that the state of Missouri respect the will of the voters and the sanctity and privacy of women's health decisions. Attempts to overturn the voter approved abortion access is cruel and fails to live into the democracy that are government is founded on. Access to safe and effective birth control and pregnancy services is critical to supporting women's health, and no woman should have the government making these decisions on her behalf.

My name is Diane and I live in Blue Springs, MO. I am strongly OPPOSED to this proposed rollback on Missourian's right to privacy and bodily autonomy. In November of 2024- 1,538,659 Missourians voted YES on Amendment 3. You were elected to defend and represent the will of your constituents. That includes honoring our voices and VOTE to overturn MO's abortion ban. The vote to overturn MO's abortion ban illustrated how strongly Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value and as a representative, your job is to honor that value. Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering and risking women's lives. We knew what we were petitioning for and voting on. Our votes must be honored as such. As representatives of MO, your duty requires you to honor the will and vote of the people and leave abortion access intact as it was voted on in November of 2024.

I write to urge you to vote NO on HJR 54. It is an obvious attempt to overturn the will of the voters who approved Amendment 3 just last year. That amendment was necessary because the Missouri Legislature had seen fit to think they could decide for women whether or not they could avail themselves of the right to control their own bodies. The Missouri law that went into effect when the Supreme Court decided Dobbs went too, too far. I believe it was originally passed when the legislature thought Roe v Wade and subsequent decisions (Planned Parenthood vs Casey) by the Supreme Court would allow for abortions in Missouri and all across the country. And so the Republican controlled Missouri Legislature could boast their so-called "Pro-life" bona fides with the extreme law they passed, never realizing it would actually be a law with the very real consequences it has. But, when given the chance to write and pass less draconian legislation after the Dobbs decision, the Legislature did nothing. Whether out of fear of looking too liberal or just continuing to believe it could impose its collective religious beliefs on all of the people in this state, the Legislature did nothing to fix the problem of having gone too far in the laws that now were in effect. The fair thing to do was to pass legislation that would have allowed abortions up to 15 weeks. It could have allowed abortions in the cases of rape and incest. It could have allowed medical practitioners to treat women having complications with their pregnancies without having those women to be on death's door. But it did none of those things. Amendment 3 was in direct response to the Missouri State Legislature's inaction. The ban on all abortions in Missouri except to save the life of the mother meant that she had to be dying to get the medical care she needed. How close to death did she need to be? Were her doctors deciding that or were the lawyers representing the hospital or clinic deciding? How many doctors were going to leave Missouri rather than be constrained by the threats Missouri's laws posed? These questions were why 380,000 voters said the right to an abortion and reproductive health care should be on the ballot and why a majority of Missouri's voters said yes to Amendment 3, whether they thought of abortion as either healthcare or for a woman to do as she pleases with her body. But when given a chance to vote on it, abortion was made legal in Missouri, like it was in Kansas, Ohio, Wisconsin, Montana, Arizona, and Nebraska. In all, 33 of the 50 states allow abortions up to at least 12 weeks of pregnancy. Women with resources will continue to be able to get an abortion. Shortly after the Dobbs decision I saw a poster that said, "Women didn't start having abortions with Roe, they just stopped dying from them." Please understand we do not want to go back. I urge you to do the right thing and accept the will of the voters and stop trying to undo Amendment 3 with things like this HJR 54. Respectfully submitted, Dorothy Fulks, Webb City, MO

I am opposed to this bill. Missourian's have voted to protect a women's right to terminate a pregnancy. There are many reasons to terminate a pregnancy, beyond rape or incest. This is a private medical issue between a woman and her doctor. Women deserve control over their body beyond rape and incest. This bill is a waste of your time, taxpayer dollars and an insult to the citizens of Missouri.

The people of Missouri voted in Nov. 2025 in support of reproductive/abortion rights. It passed. Now the Republicans in Jeff city want to pass this bill which is a veiled abortion ban for the women of Missouri. Again, the people of MO have already voted on this issue and reproductive rights for women in MO to receive abortion care was restored. If abortions are against the religious beliefs of specific elected politicians in Jeff City fine, they should not have one. The people of MO have already spoken and voted on this issue. I strongly oppose this bill.

Your job is to represent your constituents and then uphold the results of all citizens in statewide elections and accept the will of the people. Missourians voted for The Reproductive Freedom amendment on November 5, 2024 to allow abortion up to fetal viability. This bill would overturn it This bill dismisses majority rule and imposes the will of a minorityThis hearing is scheduled yet the revised HJR text has NOT been provided for the public to review the revised HJR. The public deserves time to review the revisions prior to a public hearing. This process is bad governance and not respectful of MO citizens.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

My name is Elizabeth Becker and I am a constituent of Rogersville, Missouri. I am submitting testimony on House Joint Resolution 54. I strongly oppose HJR 54 for the following reasons:[] The resolution reads that there are exceptions for abortion due to medical emergency. This raises concerns for me for this reason. I have a loved one have complications during two pregnancies and in both cases, had to end the pregnancy to protect themselves. This was luckily before the abortion ban took place in Missouri and their doctor was able to perform a life saving termination. If that happened to my loved one now, I can only imagine what they would have faced. Their doctor would be faced with the decision, with very little time, to determine if it was truly a medical emergency or not. What my loved one needed at that time was to be able to make an informed decision with their doctor and get the care they need. Having to prove if their abortion was truly for the reason of medical emergency is setting them up for a situation where the doctor is wasting time deciding if this will count as a medical emergency, because they are now scared that they could be sued or even jailed for making the best decision in this case. Maternal mortality is already high and this will only add to it. This costs the state both for medical dollars and lost productivity.[] As a member of the strategy team at Abortion Action Missouri, I canvassed over 100 voters in the 132nd, 133rd, 134th, and 135th district over Amendment 3. These voters support Amendment 3. During the canvassing, I talked to a woman who had gone through IVF with her wife a few years earlier and they had a medical complication. They rushed to the hospital for care and luckily at that time, they lived in a state that was not as restrictive as Missouri, for abortion care. They got the abortion care they needed and her wife is alive today. They were able to start a family and when I met them, they had a happy toddler running around the house. These laws are dangerous and do not protect pregnant people. The Missourians I canvassed voted for this ammendment and it passed. We should respect the vote of the people and keep it in place as they voted it in. [] I am a queer woman in a relationship with a woman but this still affects me. If I were to become pregnant through rape, the thought of having to report this to the police, go through explicit information of what's happened to me, and potentially not be believed, is something I don't think I could go through. If I became pregnant, I would absolutely have an abortion. This resolution will not ban abortions. It will ban safe abortions.

I am honestly stunned at the audacity and the clear desire to go against the will of the voters and continue to put MO women and mothers at risk. Even trying to carve out exceptions for rape or incest leaves women and girls vulnerable - incest is almost always child sexual abuse. So a pregnant 12 year old sexually abused by a relative must have reported and gone through proper legal channel to access abortion? Are you kidding me? The data is clear that abortion bans do not reduce abortions - the make abortion less safe. If you cared about reducing abortion, you would be advocating for access to birth control and increasing comprehensive sex education. If your end game is an increase in babies born, focus on making LIFE FREAKING AFFORDABLE. I have 2 children and likely won't have a 3rd largely due to financial considerations. You are wasting time and energy by going directly against the will of the voters and trying to restrict freedom instead of doing ANYTHING to improve the lives of Missourians.

I'm a Missouri resident and board certified OB/GYN. With support of the 538,659 Missourians voted YES on Amendment 3, I was thrilled to see the essential right to abortion and comprehensive reproductive health return to our home state. The people have spoken, and you were elected to defend those rights. This is not a partisan issue— Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. It's time to stop attacks on the will of the people of Missouri.

A few months ago I had a blighted ovum. I had to take medication in order for that to pass through my body. Without it I would have died Or a dnc I would have died. I would have left my husband a widow and my child without a mom. You can say all day long that, it has nothing to do with miscarriages and blah blah blah. But it threatens access to medical care. If my current pregnancy has something wrong with it, I want the option for an abortion if that is what I choose. Why don't you trust me with that choice? My plight aside, no one should be denied an abortion if that is what they choose. They know if they are ready for parenthood. Which is so insanely expensive and I see nothing being done to support parents. You know what stops abortions? People being financially stable. People feeling like they will have support. Social programs that support families. Paid leave for new parents. Childbirth being free. Comprehensive sex education. If you actually care about kids do something to help them when they are out of womb. Do something to help families. I should not have to continue to fight for this right. This is ridiculous. I am so angry. So many people are so angry that you are not listening to the people. Stop.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

My name is Emily Stoinski, and I am a registered Missouri voter. I am one of the many MANY Missouri voters who voted for amendment 3. I am a survivor of sexual violence, and I am writing my **STRONG** opposition to this bill. This bill is not protections for assault survivors. Even eight plus years later, I feel like I cannot truly call myself a survivor. If my assault would have resulted in a pregnancy, I know I would not have been able to access the exceptions because it would have meant that I needed to identify my experience as such, and knowing how I felt about the person, it would have been impossible to be honest with myself, that they were someone who I cared about who also hurt me. As a former direct services advocate, I have worked with individuals of domestic violence who disclosed the most horrendous assaults, and yet, they were not ready to call it an assault. Exceptions do not work with survivors; and this bill will caused further harm to survivors of sexual assault. I am expressing my strong opposition. Do not continue to assault survivors by prohibiting care.

This is really quite simple. Five months ago, this issue was put before the voters of this state. The people spoke. Now, the representative we have elected are choosing to overturn the will of the people because some of you don't like the outcome. This is not the purpose of elections, and the votes of the citizens of Missouri must matter. Your message to all of us, regardless of how we voted, is that our votes and our voices don't matter to you. Thomas Jefferson wrote that the government we elect is the government that we deserve. So is this what the people of Missouri deserve? Do we deserve to have our votes ignored a few months after making them by the very lawmakers who are supposed to represent us? The people have spoken whether you or I like it or not. This body has no business overturning the vote of the people, and I ask that you honor the citizens more than your personal positions.

The women's right to choose should be an undeniable freedom. The government should have no say in the private medical lives of citizens. Women should not be forced to carry to term a baby they do not want or cannot properly support. Why does the government vehemently want to get in the lives of pregnant women but when the child is born they are no longer protected by our government. This government refuses to do state sponsored free lunches for children and school. Also, you refuse to enact harder gun laws causing the rates of school shootings to increase and increased gun violence. In 2022, according to John Hopkins Bloomberg School of Public Health, firearm related deaths were the leading cause of death in children ages 1-17. Why is the Missouri government so concerned with an unborn fetus when Missouri children are dying, not from abortions, but from rampant firearm use. No matter what the media may say, women do not use abortions as a form of birth control. Getting an abortion is never an easy decision for women. The women who seek out an abortion are women who are desperate and abortion is usually their last resort. Do not suggest that they carry to term and put the child into the adoption program as many places are overcrowded and underfunded. You a condemning a born child to often what is traumatic circumstances, because of you're own outdated beliefs. If a women believes they can not properly support another human being and promise them a good life, they should not have to care such fetus to term. In our constitution it dictates a separation of church and state therefore you should not vote on this as a matter of your faith but rather vote on it for the good of the people of your state. You swore to uphold the constitution, stand by that.

To keep trying to overturn the vote of Missourian voters you are destroying the democratic process this country prides itself in ! There is no reason abortion and reproductive care should be restricted in Missouri after the election in November. Abortion is healthcare no matter what you think morally. The voters were not tricked or manipulated into voting the way they did. Stop trying to manipulate the will of the people.

There was a fair election already held on November 5, 2024 and the voters in Missouri voted YES on Amendment 3. You need to respect the will of the voters and just move on to important issues facing our state. Quit wasting time and money just because the Republicans don't like the outcome. We are tired of legislators trying to reverse a legitimate vote! Respect us!!!!

I am completely against this amendment as it violates privacy between doctor and patient, as well a enforces a dangerous "allowable" timeline for only certain abortions to occur. Pregnancy issues that threaten the mother and child's life can occur at any time and it is essential for those women to be able to get healthcare unencumbered by legislative interference.

My name is James Sullins and I live in St. Louis city. In November, Missouri people of all parties supported Amendment 3 to pass it, and it's shameful that the state legislature is now considering contradicting the will of the people of this state. Missouri voted for reproductive freedom without the interference of politicians. I grew up in rural Franklin County and eventually moved to urban St. Louis city, and from what I've seen the people of Missouri anywhere I've lived have always valued privacy and freedom and opposed politicians interfering in our lives. HJR 54 contradicts Missouri values and should be rejected by the Missouri state legislature. Additionally, HJR 54 includes an attack on the rights of trans children to receive health care. Even without this addition it would be out of touch with the values of privacy and freedom that Missourians hold dear. But choices about trans healthcare for a minor belong to the child, the parents, and medical professionals, not politicians. HJR 54 just adds more interference in personal privacy and freedom.

Respectfully, the people of Missouri just voted on this. What do you need to find out? That we still want access to safe abortions? That women deserve bodily autonomy? This will all still be true in 2026. If anything, the anti-women, anti-democratic, anti-human rights administration that is destroying our nation will make voters more resolute on being pro-choice when it comes to abortion. The facts are clear, the majority of people support access to abortion and bodily autonomy. By making us vote on this again you are not representing the will of the people, you are assuming you know better or are outright defying the will of the people you were elected to serve. Drop this Bill and please focus on something more pressing, like the fact that our federal government is in the midst of a coup.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

As a physician and mother of two teenage girls, I am deeply concerned about the current actions in this state to undermine mine and my daughter's rights to bodily autonomy. I am strongly pro-choice and I come to this position as both a physician and a mother. First of all, being a physician, I cannot stress enough the importance of the doctor-patient relationship and the decisions that are made for patients with guidance from their physicians. I have been horrified seeing medical decisions being put into the hands of politicians who have ZERO medical knowledge. And their lack of medical knowledge becomes ever abundant in the policies that they try to implement when it comes to a medical procedure. Practicing medicine is a nuanced endeavor. There is no black and white. There is no tipping point when the mother's life is not in jeopardy, then a point when the mother's life is in danger. If you have reached that point, then medicine has failed. The goal of modern medicine is to prevent situations where you have to make a life and death decision on the spot, because that is when harm to the patient invariably occurs. As an emergency physician, my goal, as well as all other physicians is to prevent bad outcomes. If you wait to preform a life saving procedure (abortion) until the mother's life is in jeopardy, then you are asking for a bad outcome to occur. Politicians who have not stepped one foot into a trauma bay while these life and death decisions are being made nor taken one class of medical school have NO BUSINESS making medical decisions for my patients. That should be between me and my patients. What ever happened to the small government Republican Party of the days of old???I also have strong opinions regarding access to abortion care because I have two teenage daughters. I cannot imagine if the day came that they were impregnated after being assaulted and then telling them that they have to spend 9 months pregnant and reminded every day of the horror that they have experienced. It is the absolute definition of rubbing salt in the wound. When Missouri's stringent abortion ban was implemented after Roe V Wade was abolished, I told both of my daughters to leave Missouri as soon as they were able. I breathed a sigh of relief when amendment 3 passed. But now knowing that Missouri's legislature is trying to overturn the will of the people, I am struggling with how I am going to tell my children that their medical rights, once again, are being stripped away by clueless politicians in Jeff City. Please do not pass HJR 54. Let the will of the majority of Missourians stand.

I am appalled that the legislature is trying to overturn the will of the people. Like the majority of Missourians, I support reproductive rights for women before fetal viability. I am especially concerned with the deceptive ballot language in this bill. If you insist on putting something on the ballot to overturn Amendment 3, the ballot language should clearly ask voters if they want to ban or outlaw most abortions, not "guarantee access to care for medical emergencies, ectopic pregnancies, and miscarriages."

We already voted in favor of the Reproductive Freedom amendment on Nov 5. Missourians deserve to have their votes countThe state should not be involved in decisions on medical care. That should be done with privacy between a woman and her health care team. This bill is in conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on Nov 5, 2024 (HB195)

The people of Missouri have spoken, and they want abortion to remain legal and accessible. Constituents in the sponsor's own district supported Amendment 3 at the ballot box, and as a voter I am furious and ashamed that the legislature would consider overturning what is once again settled law. Legislators should respect their constituents who believe the government has no place in families' medical decisions about whether and when to have children and oppose HJR 54.

I am writing to express my strong opposition to House Joint Resolution 54 (HJR 54), proposed by Representative Stinnett, which seeks to restrict reproductive health care rights. As a concerned constituent, I urge you to oppose this measure and protect the fundamental rights of individuals to make personal medical decisions without government interference. HJR 54 represents a direct infringement on bodily autonomy and personal liberty. Reproductive health care, including access to contraception, family planning, and abortion services, is essential for ensuring the well-being and equality of all individuals. The ability to make private medical decisions should rest solely with patients and their health care providers, not legislators. Limiting access to reproductive health care disproportionately affects marginalized communities, including low-income individuals and those living in rural areas, who already face significant barriers to medical services. By restricting access, HJR 54 will exacerbate existing health disparities and place unnecessary burdens on individuals seeking care. Additionally, reproductive rights have been recognized as essential to public health by leading medical organizations, including the American Medical Association and the American College of Obstetricians and Gynecologists. Interfering with these rights not only undermines medical science but also places individuals at risk of adverse health outcomes. I urge you to stand against HJR 54 and any other legislation that seeks to restrict reproductive freedoms. Instead, I ask that you support policies that expand access to health care, promote comprehensive sexual education, and safeguard the rights of individuals to make informed decisions about their own bodies. Thank you for your time and consideration. I hope you will prioritize the health and rights of your constituents by opposing HJR 54.

We voted for Amendment 3, AS IT WAS WRITTEN, and it PASSED. Missouri Republican legislators are defying the will of the voters with HJR 54. I spent months volunteering on the streets collecting signatures from voters and then knocked hundreds of St. Louis and St. Charles County doors, talking to people about their concerns about restoring reproductive rights in our state. They voted, it PASSED. Stop abusing your power and do right by the people you serve: your constituents.

I'm Jessica Venker, and I'm a concerned resident of Saint Louis City. I am testifying to ensure the right to reproductive freedom is maintained in Missouri. It was clear what I and fellow Missourians wanted in November — as 1,538,659 Missourians voted YES on Amendment 3. I along with fellow Missourians value privacy and oppose political and religious interference in private decision making, especially about pregnancy and abortion. Reproductive freedom - without predefined restrictions - is a Missouri value that was enshrined in our constitution in November. This is not a partisan issue – Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. I implore you to listen to Missourians and stop interfering with Missourians fundamental right to reproductive freedom, defined to include abortion and “all matters relating to reproductive health care.” Thank you.

My name is Joann and I reside in Kansas City. Once again, I find myself writing a strong opposition to this resolution that would essentially reinstate the abortion ban: the very ban that Missouri voters repealed not that long ago. 1,538,659 of us voted yes on Amendment 3. That number includes not just Democrats and Independents but Republicans as well. When you were sworn into office you became the voice of all people in the district you represent - not just the ones you agree with. I am but one voice of the 1,538,659 mentioned above calling on you to reject this resolution and RESPECT THE WILL OF US VOTERS!

In just 3 month's time, thousands of volunteers collected hundreds of thousands of signatures to get Amendment 3 on the ballot. Despite many legal battles, 1,538,659 Missourians voted in favor of Amendment 3 and it was certified the law of Missouri. It is a violation of the will of the people to blatantly ignore that majority vote and attempt to nullify it with this bill and a superseding amendment proposal. The people have spoken: we want reproductive freedom and we do not want a handful of politicians dictating healthcare restrictions to women and doctors. I oppose this bill. Respect the will of the people. Vote NO please.

I'm very curious as to how the Republican members of this body would define "the will of the people", because it seems to me that they must believe it means "the will of the people who voted for us". This is not how democracy is supposed to work. When over half the electorate votes to enshrine reproductive rights, that means we don't want you to attack it. Stop going against our wishes.

1,538,659 Missourians voted YES on Amendment 3 - you were elected to defend those rights. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. This is not a partisan issue. Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without political interference. Therefore, I am in opposition of HJR 54 and expect my representatives to uphold the people's vote of YES on Amendment 3.

I oppose this bill because it would directly impact my family should they require an abortion or miscarriage care. Stay out of doctors' offices. Such reproductive decisions should be up to the woman and her health care provider. A majority of Missourians voted in favor of reproductive rights. Respect our voices and stop trying to control our reproductive organs. What happened to the party of small government?

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I am a mother, and a grandmother (of 3 granddaughters), and I can not believe the government is insisting on being in control of girls and women's bodies. This is not about pro-life, it is about forced birth, and taking away women's right to life, liberty, and the pursuit of happiness. The so-called "exceptions" to banning abortion are despicable, insulting, and disgusting. The majority of rapes go unreported. Forcing a victim of sexual assault to report it, is beyond insensitive, it is shameful. Research published last year (JAMA Internal Medicine) estimated that since the overturning of Roe v. Wade, more than 65,500 women and girls in the 14 states with abortion bans in place became pregnant after being raped. Missourians voted for The Reproductive Freedom amendment on November 5, 2024 to allow abortion up to fetal viability. This bill would overturn it. This bill dismisses majority rule and imposes the will of a minority

This amendment overturns the Reproductive Freedom amendment that we the citizens of Missouri just approved less than one year ago. That in itself is shameful. As elected officials we expect you to be supportive of our decisions. Women's healthcare decisions should be made privately. The only people involved should be medically educated people and family members. Elected officials are not qualified to be making these decisions. I have personally known 4 women in my life to receive abortions. Not one of them made the decision lightly. They were all selfless decisions. Your arrogance is appalling to believe that you have a right to an opinion into these deeply personal medical matters.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I am a mother of two (mostly) great kids. Both pregnancies were extremely difficult for me. I began having symptoms of pre-eclampsia at 18 weeks, and was placed on bed rest. By 32 weeks I was hospitalized in a desperate attempt to keep me alive and pregnant. At that point I was gaining 2 pounds a day, and no longer recognized my own face in the mirror. That's how swollen I had become. At 33 weeks my own health became too precarious - my kidney and liver were failing. My blood pressure was uncontrollable. I wasn't even allowed to have the lights on in fear it would stress my eyes too much and trigger a stroke. I was taken for an emergency c-section. My tiny, 3 pound baby girl was born and whisked away to the NICU before I even saw her. I spent the next week in the hospital, too sick to even go meet my new baby. I lost 70 pounds in that week. At the end of the week, I was finally doing well enough to meet and hold her. I was released on a Friday. By Sunday I spiked a fever and was back in the hospital with sepsis. A few days later, with a lot of IV antibiotics, I was on the mend. I was finally able to focus on this tiny little fighter I had birthed. She spent 28 days in the NICU, getting stronger every day. She is still an amazing kid. This is all to explain the toll this birth had on me - mentally, physically and financially. My body was wrecked. It took almost 2 years before I was back to the way I felt before getting pregnant. That was almost how long it took to pay the hospital bills too. Between the two of us, the hospital bill was over \$250,000. Insurance covered most of it, but that still left us with over \$10,000, plus all the time I had lost from work. I was lucky - my husband had a good job and we ultimately made it through. This child was wanted. I was willing to go through all I did because I wanted her. I can't imagine forcing any woman, for any reason, to go through what I did. If she doesn't want that child, for any reason, she should not be forced to carry it. No one can understand what a woman is going through. It is not our place to make that decision on her behalf. I've known many women who have had abortions, and were forever grateful they had that choice. They all went on to have other children when they were ready. I fully support limiting abortions to before viability. Before that, the fetus is a parasite. It cannot survive without the support of another living being. A living being who is capable of thinking, feeling, evaluating and understanding. No living person should be forced to support the life of another against their will. Ever.

I am a MO citizen, a mother, a grandmother, and an attorney, and I have worked in healthcare for more than 40 years. I am writing this in opposition to the proposed amendment, which constitutes a tremendous intrusion on individual rights, especially for the women and reproductive healthcare providers of the state. First, I find it terribly disturbing that the legislator is once again trying to overturn the will of Missouri voters. Amendment 3 passed and is now part of our Constitution. Additionally, the content of the proposed amendment puts us back exactly where we were. The exceptions for medical emergencies will still leave emergency providers and OBs in the lurch, though the authors were kind enough to let women with ectopic pregnancies get care. Many other conditions argue for the termination of a pregnancy, and the definitions in the bill are ambiguous, creating unacceptable legal risk for providers and their patients. Decisions about treating transgender youth should reside with their parents and medical providers. I urge you all to vote down this resolution.

HJR 54 was in the House Executive Session today and is scheduled in the Legislative Review Committee tomorrow. This does not allow the public to respond to this abortion ban that the voters overturned. HJR 54 reinstates the abortion ban and does not help women who become pregnant from rape or incest. • This bill is in conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on Nov 5, 2024 (HB195) • Intrudes into a woman's medical decision-making with her health care providers • The bill injects the state into decisions on medical care without the privacy of a woman's medical decisions with her health care team. • Two out of every three sexual assaults are not reported to police, according to the Rape, Abuse and Incest National Network and the Bureau of Justice Statistics. In a research letter published last year in JAMA Internal Medicine, one group of researchers estimated that since the overturning of Roe v. Wade, more than 65,500 women and girls in the 14 states with abortion bans in place became pregnant after being raped. This is being rushed through to avoid public scrutiny. Please vote against HJR 54. It is heartless and infringes on all women's rights. I am ashamed of Missouri for sponsoring these inhumane bills. I saw the cruelty before abortion was legal. This bill does not support women. Kay Park St. Louis MO

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Hello, I am Kayla Alfonso, a consistent voter from St. Louis, Missouri. Recently, as you may know, over one and a half MILLION Missourians (including myself, and basically everyone I know, love, and mildly dislike) voted YES on Amendment 3– a loud and clear statement that we wish to RETAIN our bodily autonomy and continue to have access to safe, legal abortion and other so-called “illegal,” sometimes life-saving, gynecological medical care. You were elected to defend these rights, and it seems an appalling number of our rights are being plucked away like weeds by the invasive, inadequate, and at times acting illegally, Trump administration. This situation has my community absolutely terrified. My loved ones include nurses, doctors, community activists, community volunteers, citizens active in local government, parents, children, teachers, child-care experts, blue-collar workers, disabled and neurodivergent people, straight people, queer people, trans people...and all of these people have at least one thing in common: We want the government to back off of our bodies and allow us to live our own lives, and pursue our own versions of liberty and happiness, in the form of safe and legal medical procedures that have been historically controlled by the same kind of people who are STILL trying to take this access away. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. We stood up, showed out, and told the world exactly that during our last election, but now, somehow, we have stepped backwards with this new administration. Reproductive freedom has been clearly shown to be a Missouri value. This does not just mean the freedom to reproduce- it means the freedom to choose not to do so, as well as the freedom to have their lives or quality of life saved by emergency abortive procedures. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians’ right to abortion, without politicians interfering. This issue has major importance not only for current Missourians, but for the future as well. Make no mistake, rolling back reproductive rights will set a dangerous precedent for any future administrations to pick and choose which rights they personally believe their constituents should have access to. This is not freedom. This is not representation. This is not the United States of America we need it to be right now.

More than 1.5 million Missouri voters voted in favor of Amendment 3, declaring they did not want to live (or die) under a cruel abortion ban. That was 51.5 % of the vote; a clear majority. For comparison, my state senator, David Gregory received 51.5 % of the vote in his election. He should feel he won his election. Likewise Missouri voters feel they won the passage of Amendment 3. Amendment 3 passed with 60% of the vote in SD15, so David Gregory's constituents voted in favor of a right to bodily autonomy, without interference by legislators. Reproductive freedom is a Missouri value, supported by Democrats, Republicans, and Independents. Get the politicians out of our most personal decisions.

I strongly oppose HJR54 (Stinnett). These bills are a direct assault on the will of Missouri voters and a dangerous overreach into the personal lives and medical decisions of individuals. In 2024, Missourians made their voices clear by passing a constitutional amendment to protect abortion access, recognizing that reproductive freedom is a fundamental right. These bills, however, seek to undermine that decision by imposing extreme restrictions on abortion care, even in cases of rape and incest. By requiring survivors to report their trauma to law enforcement within a narrow 48-hour window and limiting abortions to just 12 weeks in such cases, they disregard the complexity of these situations and further victimizes those who have already endured unimaginable pain. Missourians have spoken: they trust individuals to make their own health care decisions, and these bills blatantly ignore that mandate. Moreover, these bills go beyond abortion restrictions, targeting essential health care services for transgender individuals by banning the use of surgeries, hormones, or drugs for gender-affirming care. This provision is not only cruel but also medically irresponsible, as it denies evidence-based care to vulnerable populations, including minors. The broad language and punitive measures, such as revoking medical licenses, will have a chilling effect on health care providers, discouraging them from offering necessary care out of fear of legal repercussions. This is not about protecting lives; it is about controlling them. Missourians value personal freedom and the right to make private medical decisions without government interference, and these bills fly in the face of those principles. Finally, the prohibition on public funding for abortions disproportionately harms low-income individuals, effectively denying them access to critical reproductive health care. This is not just an attack on abortion rights; it is an attack on equity and justice. Missourians have already rejected this kind of government overreach by enshrining reproductive rights in the state constitution. These bills are a step backward, a betrayal of the trust voters placed in their government to protect their freedoms. We must stand firm in opposition to these bills and uphold the will of the people, ensuring that every Missourian has the right to make their own health care decisions without fear or coercion. These bills have no place in our state, and we must reject them unequivocally.

Missouri citizens have already voted on this issue. Missouri majority collectively voted IN FAVOR of reproductive healthcare, including abortion, less than 6 months ago. Let the people speak for themselves. Missouri women and children deserve the best healthcare without restriction. Children will lose their mothers to this bill and we will lose citizens. Abortion is healthcare in so many ways that the majority of people trying to overturn this voter approved measure don't understand or refuse to understand because of religious reasons. Leave healthcare to between the patient and the doctor. Government has no place in it. Missouri politicians have already overturned one voter approved measure regarding paid sick leave. Insulting voters in the process. The disregard Missouri politicians are showing for their voter base is disgusting and you should all be ashamed for being so blatantly demeaning and self righteous. Any public servant that supports this bill, and thus disregards their voter base, should be ashamed of themselves as they've become a failure to the very people that gave them their jobs. Please, do better.

I am a mental health therapist. I have been doing this job for 10 years. I have worked with families in some capacity since I was in my early 20s working in preschools and eventually owning a large preschool licensed for 70 kids (I'm now 49). I do not agree with this bill for many reasons. The first reason is that Missouri voters passed a ballot measure to legalize abortion in Nov of 2024. It is gross oversight that Congress feels they have the power to overturn the will of the people. Second, I have seen first hand what forcing a woman to carrying and have a baby they genuinely don't have the mental health or financial health to provide for. I have seen adoptions go wrong. I have seen families struggle to make ends meet because while our government wants to force women to have babies, they don't want to help after the baby is born. I have also counseled countless foster kids and teens over the years. Missouri has so many kids in the foster system needing homes. Many kids in foster care age out of the system and never have their own families. Why are we forcing women to carry fetuses to term when our state can't even provide for the kids who are living? I oppose this bill.

When I found out I was unexpectedly pregnant 6 years ago, I scheduled an abortion. I wasn't sure our family could afford to bring another child into the world. But by the time my appointment came, I realized that we could make the finances work. Today, my daughter is here not because of an accident but because I chose her. A lot of times, the abortion world doesn't understand or appreciate the value of that choice. It's a powerful thing. My daughter's pregnancy was an accident, but she's here today because I chose to keep her. My freedom of choice empowered me to think of my pregnancy in the same way I approached my other two children's pregnancies. Taking away abortion rights for women takes that away from women. Even who keep pregnancies lose autonomy, and that harms them and harms families.

• This amendment would overturn the Reproductive Freedom amendment that people voted for on Nov 5. Missourians deserve to have their votes count• Injects the state into decisions on medical care without the privacy of a woman’s medical decisions with her health care team• This bill is in conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on Nov 5, 2024 (HB195)

Missourians voted last November to reinstate the right to reproductive health in our state. It is the duty of the legislature to uphold the wishes of their constituents. That means no monitoring of pregnant women and no bans. Healthcare decisions should be made between a person and their doctor without interference from the legislature, and Missourians have affirmed this belief through passing Amendment 3 in 2024.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

My name is Lauren Hasanov and I am from St Charles, MO, MO Senatorial district 23 and MO House district 105. I am writing to share my opposition to HJR 54. In November, 1,538,659 Missourians voted YES on Amendment 3– you were elected to defend those rights not to promote your own personal opinions. This amendment was designed to let Missourians chose what is right for their lives after the national ruling striking down Roe v Wade in 2022. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians’ right to abortion, without politicians interfering. Please respect Missouri citizens democratic rights by allowing the will of the people to be carried out with Amendment 3.

I am 77 years old And I collected signatures on the petitions to put amendment three on the ballot. The right to abortion is so important that we must allow women to make this decision for themselves. People who signed the petition knew exactly what they were signing. The voters knew what they were voting for. Abortion Will never stop Happening, Even if it is made illegal. Abortions happened in missouri Before 1973, Before Roe v. Wade.

Despite the fact that the voters made their choice very clear last November, the Missouri Legislature seems determined to attack reproductive care. Reproductive care is not just abortion - although that is the most commonly named "issue" - is about comprehensive health care for women and trans men. Reproductive ability is central to those of us AFAB. Because we are the half of the species assigned with the task of bringing forth new life, our UNRESTRAINED access to reproductive healthcare is essential to being able to fulfill that role. Healthy women require the availability of healthcare to treat their unique biology - both physical and mental health. Simply put, the species cannot survive unless women have full access to the healthcare they and their doctors determine appropriate for their unique situation at the time. This includes contraceptives of all forms AND the ability to terminate a pregnancy that would not result in a healthy outcome for the mother or a non-viable fetus. This is not negotiable. NO ONE but the woman herself can make a decision for her as to what would be best for her in any given situation. NO ONE ELSE has the right or the ability to make that decision. Those who think they know better what's best for someone else suffer greatly from an enlarged ego and overly disrespectful attitude towards others. Each human is capable of making decisions about their own lives - whether that human has male or female biology. Each human is a unique individual and worthy of basic respect to be able to make informed choices about their own lives. Those of us whose health - physical, mental, financial - bear the burden of whatever outcome of a pregnancy will not tolerate those who do not share that burden (and men do not) will not be bullied and coerced into making choices that do not benefit us because somebody else thinks they know what is best. Abortion may be banned, but it will not end. Ever. We will continue to fight for our basic needs. If you cannot respect us as humans fully capable of making decisions for ourselves, expect us to respond to that disrespect with intensity and commitment. If you deny us basic healthcare, expect us to demand it. We will not be silenced.

My name is Louise Cenatiempo and I live in Wildwood, MO. I am writing to oppose HJR 54. Over 1.5 million Missouri voters - Democrat, Republican, and Independent - voted in favor of legal access to abortion. We believe in privacy from government intrusion and nothing could be more intrusive than government controlling individual and family choices about reproduction. It is also supremely disrespectful for legislators to continually try to undo citizen-led initiatives they don't like. Respect the will of the voters. Do not try to erode the rights that the majority voted for.

I oppose this bill and any abortion ban in MO. If this bill is enacted, it will negatively affect my health and the health of my friends and family. Several close friends have had to make very difficult decisions, one they didn't want to make, but a CHOICE in order to PROTECT their own health. This ban, if in place at the time they made that tough choice, would have endangered their life. Personally, I'm afraid to have a child if abortion is banned in MO. There's no protection for me, for my life. I'm getting older, the risks become greater, and while I'd love to grow my family, I can't do so at the risk of not being there for my existing kids and family. This bill is heartbreaking and frustrating. The votes of MO have already spoken, and legislators are overruling their vote purely by party lines and not by the issue itself.

My name is Maggie Rodgers from Ozark, Missouri. I am grateful for the online testimony platform as this allows me to share my beliefs and values with you, my elected representatives, as traveling is difficult due to my handicap. Today, I want to voice my disapproval and concern with the actions being taken with HJR 54. HJR 54 appears to be a tantrum in response to not getting your way on the Amendment 3 vote last November. I urge you to recognize that Amendment 3 was voted on by all constituents and passed with a majority. Trying to bypass the will of the people and hoping for a different outcome is not why you were elected. You are doing the opposite of your role and breaking the trust of the people. If you as our representatives cannot recognize the damage you are causing in the peoples' trust of our institution of government, then you should seek a different career. If you do not take this moment to self-reflect, the people will help you seek a new career in our next election. Respect the separation of Church and State as outlined in the Constitution. You must act on the voice of the many, not of the few. The government has no place making personal medical decisions. That concept is even more distorted when it only affects one gender. Elected representatives attempting to circumvent the will of the people are losing touch with democracy. Sincerely, Maggie Rodgers

Missourians voted for The Reproductive Freedom amendment on November 5, 2024 to allow abortion up to fetal viability. This bill would overturn it. This HJR would require reporting a rape in order to receive an abortion. Two of every three sexual assaults are not reported to police (Rape, Abuse and Incest National Network and the Bureau of Justice Statistics). This bill is in conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on Nov 5, 2024 . The League believes that public policy in a pluralistic society must affirm the constitutional right to privacy of the individual to make reproductive choices. The League of Women Voters of Missouri goes on record in opposition to HJR 54.

I am one of the 1,538,659 Missourians who voted YES on Amendment 3 – we made our will known at the ballot box. You were elected to defend those rights. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. Abortion is not a partisan issue – Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering.

HJR 54 infringes upon personal freedoms and undermines the will of Missouri voters, particularly following the recent APPROVAL of Amendment 3 BY OUR VOTES! Amendment 3 established a constitutional right to abortion up to the point of fetal viability. Please do not ignore or reject our votes. Ignoring the votes of the people is not your job. You are supposed to work for us based on our votes. Thank you.

Missouri and voted for this bill and I don't believe that it's correct for your legislature to overturn it when it comes to a woman's body. You've gone too far when you involve the police and you make it a crime for her to be pregnant as for me, I think a woman has the right to choose. It should be between her her God and her doctor Not law enforcement and certainly not the state. Please don't overturn this bill that we Missouri's voted for.

I strongly disagree with this bill and do NOT want it to pass. Amendment 3 was voted on and passed with more than 51%. Women have the right to control their own reproductive choices. Denying access to some options will ultimately deny access to all options, as fewer practitioners will be willing to provide services when they fear retaliation. They will move out of the area, fewer will even go into the speciality, and as a result, women will suffer. I had the unfortunate experience of suffering a miscarriage while living in another state, and can't imagine what it would have been like had care not been available. I have three healthy children because I had access to good care. I have two daughters that will hopefully have access to good care and I don't want them to lose it. As for requiring rape or incest to be reported - that is cruel and unrealistic for many individuals. Let people make their own choices based on their own individual circumstances, and quit trying to decide for them what you think is best!

I am writing in strong opposition to HJR 54. My first statement in opposition to the bill is the timing of this hearing today. Yesterday the public saw a 3/4 page bill. Today, it is a 4 1/2 page bill. And we have approximately 24 hours to pass on the noted changes to the public. The public has barely been given an opportunity to read the changes to the bill made by the Children and Families Committee. I would guess that this was the overall intent. Move it through quickly so the public won't catch it. In reading the bill itself, I would interpret this as violating the single subject rule. You are talking about 2 separate issues, abortion and gender transition. When it comes to the actual bill, I appreciate the fact that the reporting to law enforcement was removed. I do find it interesting that the committee inserted a statement on the "state's duty to protect public health and welfare includes protecting the integrity and ethics of the medical profession". So why not concentrate on women's public health, of which MO lands at the bottom. And why not protect her right to make decisions with her medical providers. And doesn't the medical profession already have a code of ethics? Why are legislators entering into that area? Instead, this bill is simply trying to overturn the Reproductive Freedom Amendment that the citizens of Missouri approved in November. And of course, the committee believes that adding in language about gender transitions, ballot candy, will get this amendment pushed through. I urge this committee to remember the will of the people and oppose SJR 54.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I strongly oppose HJR54 (Stinnett). These bills are a direct assault on the will of Missouri voters and a dangerous overreach into the personal lives and medical decisions of individuals. In 2024, Missourians made their voices clear by passing a constitutional amendment to protect abortion access, recognizing that reproductive freedom is a fundamental right. These bills, however, seek to undermine that decision by imposing extreme restrictions on abortion care, even in cases of rape and incest. By requiring survivors to report their trauma to law enforcement within a narrow 48-hour window and limiting abortions to just 12 weeks in such cases, they disregard the complexity of these situations and further victimizes those who have already endured unimaginable pain. Missourians have spoken: they trust individuals to make their own health care decisions, and these bills blatantly ignore that mandate. Moreover, these bills go beyond abortion restrictions, targeting essential health care services for transgender individuals by banning the use of surgeries, hormones, or drugs for gender-affirming care. This provision is not only cruel but also medically irresponsible, as it denies evidence-based care to vulnerable populations, including minors. The broad language and punitive measures, such as revoking medical licenses, will have a chilling effect on health care providers, discouraging them from offering necessary care out of fear of legal repercussions. This is not about protecting lives; it is about controlling them. Missourians value personal freedom and the right to make private medical decisions without government interference, and these bills fly in the face of those principles. Finally, the prohibition on public funding for abortions disproportionately harms low-income individuals, effectively denying them access to critical reproductive health care. This is not just an attack on abortion rights; it is an attack on equity and justice. Missourians have already rejected this kind of government overreach by enshrining reproductive rights in the state constitution. These bills are a step backward, a betrayal of the trust voters placed in their government to protect their freedoms. We must stand firm in opposition to these bills and uphold the will of the people, ensuring that every Missourian has the right to make their own health care decisions without fear or coercion. These bills have no place in our state, and we must reject them unequivocally.

I am asking the members of this committee to **OPPOSE** HJR 54 because it runs counter to prevailing medical best practices and it runs counter to the will of Missouri voters. Initially, I ask you to oppose this measure because it runs counter to prevailing medical best practice. The bill would restrict access to abortion, a necessary medical procedure that women need to preserve their own health as well as their ability to have children in the future. The Trump Administration has made clear that they want to see more women have children, but incorrectly believes that restricting abortion access will make that easier. In fact, if women aren't able to access abortions, it will not only make it more likely that they die from complications, but if they survive, it may make it harder for them to get pregnant or carry a subsequent pregnancy to term. Additionally, I ask you to oppose this measure because it runs counter to the will of Missouri voters. I am livid that multiple Missouri legislators have tried to overturn Amendment 3 under the bogus cover of "voters didn't understand what they were voting for". Let me make clear that I understood that Amendment 3 was about enshrining abortion access in the state constitution. I not only voted for the measure after doing my own research and talking with experts; I knocked doors in my corner of the state to help encourage others to understand the Amendment and vote in favor of it as well. In conclusion, I ask you to oppose this measure. Women in Missouri need and deserve access to abortion for medical purposes, but advancing this measure would be a slap in the face to voters like me who did their research and knew full well what they were supporting. Respect the will of Missouri voters and leave Amendment 3 alone.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I Mollie Stephens of St. Louis, 63139, oppose HJR 54. Amendment 3 passed with 1,538,659 Missourians voting YES. You are ment to defend our rights. We value privacy and do not want political interference in private decision making. This is Not Partisan! People from all parties, across the state, have already told the legislature to establish the right to abortion. Stop interfering.

The voters of Missouri made themselves clear regarding reproductive rights in November when they overwhelmingly approved Amendment 3. By submitting this bill, the will of the people is being disregarded, and time and money is being wasted. The leaders of Missouri were elected to represent the people of Missouri, not to further their own agenda.

This is an example of bad governance. I cannot see the new HJR 54. The one that will have the hearing is changed from what left the Children and Families Committee on 3/31 and is not shared with Missouri Citizens before the hearing. I opposed the original HJR54 and certainly oppose this new one, sight unseen. Bad Governance. Missouri politicians will do anything to over-ride the will of Missourians who passed Amendment 3. Shame on all of you.

This bill is plainly an attack on the will of the people. It is an abortion ban and the voters already said clearly that abortion is a health care issue and women deserve the right to make choices about their own health care. We don't need or want politicians making these choices for us. I have advocated for hundreds of domestic and sexual violence survivors and this bill is harmful for survivors. I strongly urge you to vote against this.

This is another attempt to put an abortion ban in Missouri. The Republican Legislature did not listen to the medical experts and put a total ban in place. Now that they know a total ban can kill women, and now that Amendment 3 has passed, they are trying to impose another ban with "exceptions." But those exceptions are not acceptable. Plus, they added a transgender issue to this bill to confuse people. It is against legislative rules to include two issues in one bill. The rape/incest exceptions require a police report and limit the time to get an abortion to 12 weeks. You can't even get the police to give you a report on a house burglary within that time frame. I strongly oppose this bill

The people of Missouri voted for amendment 3. Full stop, no exceptions. The amendment itself is written to prevent gross modifications to it. Stop trying to twist the will of your constituents. And stop this hateful rhetoric against gender affirming care. It is not accepted practice to surgically transition minors, an even half-baked attempt at research would tell you that. Preventing the use of puberty blockers is going to create an increase in troubled teens who aren't allowed to take actions to be themselves. You are putting children's lives at risk. And here we thought you cared about children.

Hello, my name is Nikki Russell and I'm from Kansas City, 64152. I am writing you today to express my disgust of the continued attacks on women's reproductive freedom especially after this was settled at the ballot box last November. We had 1,538,659 Missourians vote YES on Amendment 3 and you were elected to defend those rights. You were NOT elected to undermine the will of the people. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. Abortion is healthcare. This is not a partisan issue. Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. The language was clear and everybody had the same opportunity to go vote on the amendment. You screamed to give it back to the states but we all knew it was just so corrupt politicians could try to use manipulation to control women. Now that you lost you are still trying to steal our reproductive freedoms that we won by voting! Any of you that agree with this bill are despicable and you should be ashamed. For the sake of my daughter and every other female in our country, I strongly oppose HJR 54. Thank you.

Why are our representatives still trying to undo the will of the people? Missourians just made their opinions clear on the issue of abortion when we voted to pass amendment 3 guaranteeing women access to reproductive freedom in our constitution. Over 1.5 million Missourians voted to pass amendment 3 and you were elected to represent those individuals. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. This is also not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians’ right to abortion, without politicians interfering. Stop trying to make women second class citizens. We deserve the same rights to control our bodies and make the best decisions for our lives that everyone else already has. Limiting access to abortion is detrimental to women’s health and goes against everything that Missouri claims to stand for.

I'm Patricia Brown of Independence, MO. The people of Missouri are decidedly pro-choice, pro-freedom. We already voted to allow abortions in Amendment 3 so this repeated question should be voted against. Since the constitution doesn't allow the establishment of a religion and the idea that abortion is killing a complete human being is a religious myth, this should not even be brought up again. Pregnancy circumstances vary widely with people of different beliefs and values. It is a matter that is private business concerning the control of a woman's own body. If we don't have bodily autonomy, needed for mental health, we would basically be slaves without freedom. It is wrong to allow a woman to die of pregnancy complications because she is carrying an incomplete human, a fetus that is only existing off of her body, which is still entirely hers.

The right to abortion has been voted on and APPROVED by WE THE PEOPLE of the State of Missouri. Your responsibility as representatives of WE THE PEOPLE is to ensure what WE WANT OUR Representatives to do is done! It is NOT YOUR JOB to totally ignore us and just do what you want. You are ONLY there by the votes of people who allow you to be there. You obviously don't understand how to represent the MAJORITY of voters as you are clearly working ON Your OWN agenda rather than what WE THE PEOPLE VOTED FOR. I, and thousands of other voters are tired of your not listening to us and working AGAINST us instead of FOR US. VOTE NO ON this attempt to throw away our votes. WE THE PEOPLE ARE WATCHING!

I am writing to express my strong opposition to HJR 54, which seeks to overturn the will of Missouri voters as expressed through our votes in the November 2024 election. This bill not only undermines the democratic process but also disregards the clear mandate given by the electorate. Overturning a voter-approved initiative not only disregards the will of the people but also risks alienating citizens from the legislative process. It is imperative that we uphold the integrity of our democratic system by respecting and implementing the choices made by Missouri voters.

A democracy is about upholding the vote and will of the people. The people of Missouri voted FOR bodily autonomy. Using your status in our government to ignore that will is a clear and inexcusable abuse of power. We voted for Amendment 3. Your job is to uphold that vote and respect it, not undermine it with an amendment your constituents do not want. The Missouri government seems intent on forgetting who put you in a position of power and who can vote to take it away when you fail in your role. We're still a democracy and it's your job to uphold it, not undermine it.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

My name is Rebecca Hemmer and I live and vote in Ballwin, Missouri. I am opposed the this bill because it directly circumvents the election process. Three times in my ten years in the state, congress has decided that voters' voices don't matter and tried to negate a vote. Please unhold our democracy by opposing this measure. More than 1.5 million voters went to the polls in favor of reproductive health being a private and personal decision. Those same voters put you and the other representatives in office. How do you trust us to vote for you and then say we are misinformed about this. We're not misinformed, instead highly informed and engaged in our state.

This amendment overturns the Reproductive Freedom amendment that people voted for on Nov 5. Missourians have spoken through this vote. And yes , we did understand what we were voting for. The state has no right to invade the privacy of reproductive decisions between a woman's and her medical health care team. It also negates the protections given to medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on Nov 5, 2024 (HB195). There has not been time to review all the changes made to the original bill because of the immediate turn around for another hearing.

I am Ryan Cooper. A Missouri voter. An active and engaged member of my community. A citizen who weeps for the existence of a governing body who clearly have forgotten what civics 101 has taught us about what a "democracy" is. If you truly love this country and state (as you so claim...and as I believe you do), as hard as it may be for you, you must reject this bill and accept what the outcome of November's vote was. Sometimes things go your way, sometimes they won't. You must accept that. That's what it means to be an adult. Abandon this narrative that "the voters didn't know what they were voting for" that is a slippery slope that can easily be reflected upon any member of the legislature (because I sure "didn't know" that I would be electing individuals who don't respect my voice and the voices of my fellow citizens). Move on. And the invest more in education...that way you can have the erudite and literate population that you seek. But stop trying to put the toothpaste back in the tube. Thank you for your understanding and respect on this matter. Do the American thing...accept the people's verdict.

You have it all wrong. The CONSTITUENTS worked to get the legal right to abortion on the ballot and WE VOTED YES! Why on earth does this religious extremist GOP - using a female legislator no less- believe that it is even morally correct to ignore the will of the people and can overrule their own constituents? Is this a legislature or the Christian Emirate of Jefferson City? My daughters deserve the rights their grandmother worked hard to earn! This state is neither a theocracy or autocracy like the Taliban, yet here you are practicing the very same type of religious oppression, minus the burkha, for now. I take great umbrage at this departure from good order in the house because I spent 23 1/2 years in the Navy to Defend our Democracy and individual freedoms, not to oppress them! If you REALLY, truly, actually want to lessen the number of LEGAL abortions, you would partner with Planned Parenthood to provide birth control and STD prevention education and screenings in every high school instead of invoking one religion (like the Nazi's or Taliban) over so many other far more ancient faiths into them via wall art. "If men could get pregnant, there would be a Planned Parenthood on every corner Starbucks." Samantha B. Of the Daily Show. And SHE IS RIGHT! The other factor you're failing to see is the vicious cycle of poverty that lack of access to accurate sex education and prevention tools like birth control or even your mythical abstinence beliefs causes. Where is the onus and shaming and criminal law on the sperm donors who can and do just walk away after causing said unplanned pregnancies ? Why are THEY not held accountable 100% of the time by same laws invoked on the female? Do you know there's a FB Page titled'Fathers Against Child Support Enforcement'? Do you know of the domestic violence program which hides victims and their children? Review your DSS Statistics to see who is already on TANF and SNAP while you just want to add to that need by forcing religious views into law. Domestic terrorism is a very ugly thing you practice with this bill. Just think of all the GOOD you could do if you just stopped trying to be gynoticians and impersonators of medical professionals, how MUCH time you would have to help struggling families , Veterans, elderly , and fister child programs. Please rethink this offensive reversal of Amendment 3.

I am writing in opposition to this bill because Missourians have voted to restore abortion rights in our state. Abortion rights are foundational to women and girls' ability to live freely and choose if, when, and with whom to take on the ultimate responsibility of becoming a parent, and to do so safely. As a young mom who hopes to have more children, it is terrifying to think of what could happen to my health if I were to go through another pregnancy under the policies proposed here, and it makes me want to leave the state. Please respect your voters and uphold the rights we have already shown our support for.

Hello, my name is Samantha Undercuffler from Lees Summit, district 8. This bill is in blatant disregard to what the people have already voted on in November 2024. We voted to establish the right to abortion in the MO constitution. It passed. The people SPOKE. Your job is to represent the people of Missouri, NOT ignore them. This started not from one political party. The people of Missouri gathered signatures on a petition to put this on the ballot. They gathered more than the required amount of signatures, including my own, to let the people of Missouri speak. When we got the right to speak, 1.5 million Missouri voters supported the right to a woman's autonomy, privacy, and right to make her own healthcare decisions outside of a government agenda. Ignoring the voice of the people, no matter the subject, when they have spoken so clearly, is a clear disregard for the people of Missouri and makes it clear representatives are not looking to act for the people, but for their own greed and power. The subject of this vote, truly shouldn't even matter. If people voted, they spoke, and politicians and lawmakers should respect the will of the people, no matter the subject. That's your job, to represent US. As elected officials you do not get to pick and choose. You work for us, and this is a gross misuse of your title.

My name is Sarah C. Porter, and I'm from Saint Charles, Ward 2. 1,538,659 Missourians voted YES on Amendment 3- you were elected to defend those rights. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. This is not a partisan issue- Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. I collected signatures in my community and am overwhelmed at how many people believe that decisions made about an individuals health should only be determined by the individual and their chosen healthcare provider. This has nothing to do with importance of family/children/ones religious beliefs/etc. This is about cruelty and exercising control.

My name is Scott Tucker and I live in Blue Springs, MO. I am strongly **OPPOSED** to this proposed rollback on Missourian's right to privacy and bodily autonomy. In November of 2024- 1,538,659 Missourians voted YES on Amendment 3. You were elected to defend and represent the will of your constituents. That includes honoring our voices and VOTE to overturn MO's abortion ban. The vote to overturn MO's abortion ban illustrated how strongly Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value and as a representative, your job is to honor that value. Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering and risking women's lives. We knew what we were petitioning for and voting on. Our votes must be honored as such. As representatives of MO, your duty requires you to honor the will and vote of the people and leave abortion access intact as it was voted on in November of 2024.

This amendment is an affront to separation of church and state by forcing one religion upon all members of our state. The people have already voted in the majority and ratified a constitutional amendment to allow a women the right to chose. We are a family of four that love and support all of our children. My wife has had 4 c-sections to deliver our children over the years. We tried twice more and sadly they were miscarriages due to complications. Her doctors told us she should not get pregnant again as it was to high risk so we took precautions. Sadly though they did not work and she ended up pregnant again but once again with complications that threatened her life. Without the ability to make her own decision to not risk being here for her four children I would most likely be a single father. No one but her and her doctor has the right or authority to make medical decisions for her. This bill on one hand talks about the sanctity of life and in the same breath limits and condemns medical treatment thus causing damage to people who needs hormones or other treatments for their well being. Melaine Stinnett who claims to hold a masters in healthcare administration should be removed from any position that puts her in any form of control or influence over medical issues as she is causing harm to individuals.

Women need autonomy to be full citizens. I am a woman who has never had an abortion, nor do I plan to. However, these decisions should only be made between a woman, her chosen partner, and her medical team. Listen to the numbers of Missouri residents that already voted on this issue. I firmly vote 'no'.

Missourians voted on this subject in the Reproductive Freedom Amendment (HB195) in November 2024. The Amendment (HB195) PASSED. HJR54 would overturn HB195. I'm sorry if some of you don't agree, but what you are doing is disregarding what the voters have directed you to do. Missourians deserve to have their votes count and voices heard. STOP WASTING OUR TIME AND MONEY. Accept the directive you were given in HB195. Missourians do not want the State inserted into private medical decisions between a woman and her health care team. Missourians want our right to privacy protected. This bill is in conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on Nov 5, 2024 (HB195)

Testimony on HB 35 (also HJR 54 and SJR 33) My name is Sharon Hahs. I am a citizen of the United States of America and the State of Missouri. I live in Kirkwood. I am speaking in opposition to HB 35/HJR 54. First and foremost, this bill undermines our democracy and takes away freedoms enshrined in the newly passed Constitutional Amendment 3, the Right to Reproductive Freedom. Missouri citizens voted and passed this constitutional amendment; it is wrong for the Missouri legislature to attempt to erase it. If citizens of another country passed a constitutional change and had it disregarded and overturned by a governing body, we would be certain that this was the action of an authoritarian regime. We are a democracy and the people have spoken. Let us not act like an authoritarian regime. Second, HB 35 incorporates severe limitations on women as well as health care professionals (which are intentionally absent in Amendment 3). Women would have 12 weeks to seek an abortion in cases of medical emergency, fetal anomaly, rape, or incest, a timeframe so restrictive that pregnancy is often not determined yet. Rape or incest must be reported to a law enforcement agency and investigated at least 48 hours prior to a procedure; this clearly demonstrates no knowledge of actual cases and how terrifying and cruel this requirement would be. And the attempts to define fetal anomaly and medical emergency (Definitions 2 and 4) demonstrate a real lack of knowledge and are simply cruel. Currently, Constitutional Amendment 3 provides for women to make their own reproductive health care decisions up to the point of fetal viability as determined by health care professionals and not by the government. A fair and workable definition is provided. They are also protected from adverse action based on their actual, potential, perceived, or alleged pregnancy outcomes. Health care professionals would face severe legal penalties in HB 35 as they struggled to determine which procedures could qualify for public funds, and how to sort out the overlapping definitions of e.g., medical emergency, fetal anomaly, and disability. Threatened penalties would discourage them from practicing at all in Missouri. Thus, fewer sites and less access to all aspects of women's health care would result. Constitutional Amendment 3 assures that no person assisting a person in exercising their right to reproductive freedom shall be penalized, prosecuted, or otherwise subjected to adverse action for doing so. Third, included in HB 35 are prohibitions on gender transition surgeries, hormones, and drugs. None of this is part of Amendment 3, and none of this is necessary to be included here since it is already enshrined in Missouri law. To be clear, Amendment 3 does not legalize gender-affirming care and surgery for minors. Including these prohibitions in HB 35 is a deliberate attempt to muddy and confuse the issues. HB 35 is cleverly written to disguise gender transitions as an additional topic; the practice of adding what is often called "ballot candy" is an attempt to elicit a positive response on the bill, due to the added topic, when the main topic isn't likely to pass. In actuality, the additional topic is "ballot poison"—distorting the primary essence of the new constitutional amendment so the dramatic changes and new topic will succeed in passing this legislation to overturn Amendment 3. In that regard, Definitions 1, 3, and 5 apply solely to the new

topic.Summary: HB 35 attempts to overturn Amendment 3, it is deeply flawed, seriously harmful to women, insulting to and dangerous for health care professionals, and should not be allowed nor passed.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

In November, 1.5 million Missouri citizens made their decision clear on the subject of abortion, women's autonomy, and medical privacy. They voted, it passed, period. That is how the law and elections work in our nation and to insult that time-honored tradition not only endangers the lives of countless individuals, but the foundation of our society itself. Missourians support a woman's right to choose, and that is the simple truth. The overturn of Roe v Wade was already an affront to the American people, and the states decided as was the intention of overturning the original decision. Just because certain people don't agree with that decision doesn't give them an excuse to ignore the rights and voice of over ONE MILLION citizens. Adding this issue to the ballot once more will only result in the same outcome. The people of Missouri made their choice clear once and they will do it again and again and again until their elected officials choose to hear it. This is a waste of time and resources that could be dedicated towards homelessness, poverty, child hunger, and more.

Voters knew what we were voting for in November when we amended the state constitution. HJR 54 subverts the will of the voters and puts undue burden on women and girls who are victims of sexual assault to produce police reports to get on demand abortion care. Folks in law enforcement know that victims of many rapes and incest are dependent on their abusers, so formal charges are often delayed because the circumstances are complex in these cases. Voters do not want further legislative interference in personal reproductive health care choices. Missourians want government out of our bedrooms and have already expressed this fact in November. This legislation ignores and subverts the will of the constituents. Every time I go to Lobby Day I hear Senators and Representatives complain about the what voters have voted into the State Constitution, more than they discuss how to best uphold the laws it contains. I urge every incumbent to oppose HJR 54, and remember your duty to uphold the constitution and laws of this state. This bill is not what is best for women and girls in Missouri, and in fact ignores the protections for access to care we have already voted into state law last year. Do your jobs. Uphold the will of the people. Oppose HJR 54.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

This bill is reprehensible. This is a blatant attempt to overturn the will of Missouri residents and an obvious attempt at overreach. This issue has been put to a vote and the matter decided. The Missouri legislature should not be taking an "I know better approach" to governance. You should be respecting the vote of the people. Stop wasting taxpayers money debating this. Do your job and enforce a woman's constitutional right to abortion. Abortion is health care and every woman has a right to it.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Please vote to OPPOSE HJR 54, in any form. Missourians passed Amendment 3 in 2024 to add abortion rights to the Missouri Constitution. HJR 54 seeks to restrict the abortion rights of women that Amendment 3 protects. Amendment 3 also protects reproductive health care decisions made between women and their doctors without criminalizing them for having an abortion or providing one. Why a woman wants an abortion is private and is not the business of Missouri lawmakers, period. Missouri, unfortunately, already has a law prohibiting gender affirming care for minors. HJR 54 ignores the fact that Missouri citizens have already spoken to preserve their right to abortion care in the Missouri Constitution via Amendment 3 and it shamelessly seeks to trample on those voices. As a lifelong, voting Missourian who voted for Amendment 3, I don't want the abortion restrictions, abortion criminality, or transgender care bans proposed in HJR 54, enshrined into the Missouri Constitution. Please OPPOSE HJR 54, in any form.

I am the Rev. Dr. Teresa Danieleley, Missioner for Public Advocacy for the Episcopal Diocese of Missouri, Champions Consultant for Missouri Jobs with Justice and life-long Missourian. Rooted in Scripture, theology, and our Baptismal Covenant, the Episcopal Church believes in reproductive justice and legal abortion. I have worked on grassroots ballot initiatives since 2006. I have stood outside in the rain, sun and snow collecting signatures. I have collected signatures at parades, fish fry lines and church coffee hours. I have notarized signatures in church basements, union halls, synagogues and gymnasiums. The grassroots ballot initiative process is HARD. Missourians knew what we were doing when we collected signatures for, signed our signatures onto and voted for Amendment 3. Missourians passed Amendment 3. It doesn't need to be changed or messed with, any more than the ballot initiative process needs to be changed for messed with.

I am Dr. Thomas Kibby, a resident of unincorporated St. Louis County, Missouri. I see access to full reproductive health care as an important tool in achieving financial security of my patients. Many times a young woman has dreams of a college degree as a path to full employment, only to have those dreams cut short by an unintended pregnancy. And once off her career path, she often cannot return. The same happens often to the father who must stop school to support the new family. The achievement of financial security depends greatly on full access to family planning. And since no contraceptive is 100% effective, this must also include abortion access. I worked many long hours collecting signatures for Amendment 3 and I resent any politician who thinks they can decide better than the voter. Missourians deserve a choice and they made it in November 2024. Vote no on HJR 54.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Hello, my name is Tricia Souers. I am a constituent of Brentwood in St. Louis County. In July, 1998, I experienced severe pre-eclampsia during my first pregnancy. At 21 weeks, I was induced to save my life, and my son Caleb did not survive. The hospital made me sign paperwork before the procedure that said I was responsible for the decision to do this—not them. And I didn't even want my son to die!! This new bill would allow me to be persecuted and imprisoned for it. They called it "induced abortion." Even though it was necessary to save the mother's life. In 2003, I had a miscarriage. The medical term for this is "spontaneous abortion." Do you truly not understand what you're doing here?? I am writing to demand this bill to be killed in committee. And if it's too late for that, stop it by any means necessary. The MO voters have already voted on Amendment 3 and made their wishes known regarding reproductive health care for the female citizens of this state. This bill is in direct opposition to what the people of Missouri want. Please kill this bill. Trust the medical professionals and the women in this state to take care of their own reproductive health. How many times do we have to tell you what we want before you listen, and stop this??

Women's health in any capacity is between her and her health care provider. The government has no right to regulate a woman's body, nor do they have the right to control a transgenders. They should not be allowed to deny a minority group of people the right to gender affirming care either. This bill is strictly about controlling other people, and is in no way helping protect anyone. Labeling a bill as "Reproductive Healthcare" is propaganda. The people have already voted to uphold the right to abortion, and our government needs to respect democracy and accept what we already decided on.

“Love the Lord your God... This is the first and greatest commandment. ...Love your neighbor as yourself. All the Law... hang on these two commandments.” — Matthew 22:37-40As a rural Black woman born to devout parents, my faith is my core and wholly centered around these Red Letter commandments- I take them seriously. I am currently serving my second term as the Vice Chair of the Missouri Democratic Party, and this service is how I put my faith into action. Faith demands that I take a different path—one that centers my discomfort around truly loving my neighbor. That is why I have also served on the board of my local pregnancy resource center and have donated to them for over a decade. My faith calls me to focus on meeting the needs of Missouri’s pregnant women, to protect life.Love God. Love your neighbor. It’s the beginning and end of my faith.Like many in my community, I am deeply uncomfortable with the idea of elective abortion. Let’s be clear: no one ever desires an abortion. The issue is complex. There are medical complications that necessitate abortion. There are failures of violence—rape, incest, and abuse, and there are systemic economic hardships that lead to abortion. Like faith itself, every abortion decision is deeply personal. Missouri Republicans have decided otherwise. For Missouri Republicans, abortion is a government decision, their choice. For decades, they have entertained new, cruel abortion restrictions every legislative session, culminating in Missouri becoming the first state to implement a complete abortion ban after the Supreme Court overturned Roe v. Wade.Like many Red States, Missouri has spent decades passing one abortion restriction after another. But these bans didn’t pull anyone out of the water. Missouri’s laws made elective abortion more inconvenient; they never actually stopped it. The ban was a legal sleight of hand that forced women to drive to Kansas City, Kansas, instead of Kansas City, Missouri, or to East St. Louis instead of St. Louis. Two years after Dobbs, the number of abortions nationwide surpassed one million for the first time in history. Abortion bans don’t stop abortions.Archbishop Desmond Tutu once said, “There comes a point where we need to stop just pulling people out of the river. We need to go upstream and find out why they’re falling in.” It’s time to go upstream and do the real work. Why are women falling in the river? Thanks to the actions of these ‘pro-life’ legislators, Missouri is one of the most dangerous places on earth to be pregnant.? Half of Missouri’s rural hospitals have closed, leaving many rural pregnant women hours away from obstetric care.? Missouri’s maternal death rates rival those of developing nations like Sudan and Somalia.? Missouri families face a 1.5-hour average wait time to access benefits, which often prevents them from getting the services they need.? Missouri’s Republican-led Legislature made it nearly impossible for pregnant women to sue employers for wrongful termination.? Missouri workers have no paid maternity leave.If Missouri Republicans truly valued life, they would support pro-pregnancy laws that address how hard life is for Missouri families. These are the policies they would champion if ‘saving babies’ were the real goal. Instead, they have used this issue to fill campaign coffers, stage political theater, and rally their base. They’ve proposed databases to track pregnant women, sought to criminalize crossing state

borders for abortion care, and pushed for even harsher bans.It's almost like they're not serious.

I am a medical student with plans to practice primary care in the state of Missouri. However, I am less inclined to practice here if the government continues to want to interfere with the job I have spent years training to do. Vote in opposition to this bill and support democracy - we have already made our voices heard. Amendment 3 should be supported.

Missourians have already voted on this issue and we have demonstrated our opposition to restrict abortion access. This is a sad and unwelcome attempt to ignore the will of the majority and negate the impact of voters.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Missourians passed Amendment 3, which guarantees a right for a woman to make her own decisions about her own reproductive health care, including abortion. The Legislature should respect the votes of the citizens of Missouri, rather than try to overturn the will of the voters. For this reason, I oppose all attempts to ignore the votes on Amendment 3 and all efforts to restrict abortion rights in Missouri. .
