Reproductive care is health care for women. I have very close friends who have been faced with these life changing decisions. Without the option, they might not have survived a pregnancy that was unviable.

Bodily autonomy is an inherent right of human beings. By preventing women from bodily autonomy the legislators are implying that women are less than human. If the issue at hand is women's safety, health and protecting the unborn, then all men should have vasectomies. Men who are irresponsible with their sperm cause unplanned pregnancy. Men are responsible for abandonment of women and their children. Men walk away from their responsibilities every day. It should not be necessary to do so, but Missourians agree that women are human beings. Women inherently have autonomy. Let amendment 3 stand!

A3 removed the ability for a mother to sue an abortion provider in the event of a failed abortive procedure. In every other instance in the plant and animal kingdom, life begins at egg fertilization and cell division. This is true for humans as well. Every life is constitutionally protected from conception.

As a registered nurse I understand the importance of bodily autonomy. I am in support of amendment 3 and access to abortion rights. A woman is able to make her own decisions about her body and whether or not to carry a fetus to term. The decision to terminate a pregnancy should be a confidential choice of the pregnant person and anyone they wish to include in their own decision. The role of the health care provider is to answer questions and allow the person to make the decision themselves. For so many reasons I support abortion and say it while beating my chest. A woman has a right to be pregnant and she has a right to not be pregnant. If your concern is "murder" or death of the fetus, I implore you explore the idea that we legally "murder" people all the time with little gun regulation, with executions, by withdrawing life support, the list goes on and yet we justify all these other reasons so why not this? When the health outcomes from an abortion are highly successful. Abortion access improves the lives of women and children. There will still be painful situations but that is to be human. And to be human is also to have bodily autonomy. Amendment 3 passed and we want abortion services available for all Missourians.

It's none of the govt gosh damn business. Nobody cares about the children when it comes to protecting your precious gun rights but old white men should make the decision regarding MY uterus. I don't think so. And this is coming from someone who votes primarily republic. If you wanna take away our reproductive rights then it should be mandatory vasectomies for everyone 14 years old and older (those CAN be reversed when pregnancy is WANTED) but we aren't ready to talk about that! Shall we get in to foster care statistics, missing children where parents are a suspect or worse murdered children by parents who didn't want said child? Everyone is pro life until some kid who was left behind decides to shoot up a school and then what do those lost lives get? "thoughts and prayers". Until you can grow one, like Tupac said "we'll have a race of babies that hate the ladies. And since a man can't make one, he has no right to tell a woman, when and where to create one"

I am an ectopic pregnancy survivor. Approximately 15 years ago I became pregnant and it was an ectopic pregnancy located in a fallopian tube. An ultrasound determined there was no cardiac activity. This was a wanted pregnancy. After I met with the OB/GYN and agreed to an abortion, obviously, my fallopian tube ruptured. By the time I had surgery a few hours later I had bled approximately a pint of blood internally. If I had not had the surgery I would have bled out, making my husband a widower and leaving our 10 yr old son without his mother. Even if there had been cardiac activity I would still choose an abortion as an ectopic pregnancy, especially in a fallopian tube, is NEVER VIABLE. The people of Missouri voted for abortion rights. What right do you have to go against the will of the people?

We as a state voted to affirm a woman's right to healthcare. There are too many instances we have seen across the country where women have suffered severe health risk due to complications that an abortion is the medical treatment for. This choice is a personal one that a woman makes but nearly never lightly. We need to stop setting up legal hurdles and setup a state that encourages healthy pregnancies, assistance for young families, and a respect for individual choice.

This is about choice, healthcare for all women and life saving options. No woman wants to make this choice but that is the point it is a choice and the government does not have the right to tell her what she can and cannot do with her own body. It's a decision to be made by the woman and her doctor and not the government!

Dear Representatives on the Children and Families Committee,I sent an email to all of you dated 04/08/2025 which constitutes my testimony to each of you for the purpose of this gathering at 4:30 pm today, 04/09/2025. All I ask is that each of you read it and that you read it aloud at the hearing for me. I am nearing 80 years of age, use a walker and no longer drive. I am sending a hard copy of the email to a friend, John Landwehr, a local attorney there, so that he can bring it to the Capitol for use at the hearing if necessary. I will inquire tomorrow to arrange whatever is necessary. I will be available by phone during the hearing and ask that you contact me with any questions/comments. You can put me on speaker phone. I deeply appreciate your consideration and accommodation for my age and diminished ability in this matter. I request that you got HJR 73 out of committee as it is...the content and language is the very best it can be to preserve the values/integrity of the majority of the people in this state and make it through the voting process. It occurs to me that I can also FAX or email my testimony anywhere you want it to go so it can be present for the hearing. Thank you for your consideration. My cell # is 636-239-4176. I do enumerate six elements in support of HUR 73 in my email to each of you which affirm my request to the Committee to vote it out of committee as is. Thank you.

I once had the heartbreaking responsibility of driving a friend to get an abortion. She had been raped by a man who not only violated her body but also stole from her family—and later took his own life. Her situation was horrific, and her decision was incredibly difficult. I'm simply grateful that she had the ability to choose what was right for her. The people of Missouri have spoken—we've made it clear that we want the option to choose when necessary. Ignoring our votes and the will of the majority strips us of our rights. Our government is not built on the idea of "keep trying until you get your way." It is built by the people, for the people. And the people have spoken.

I am writing in extreme opposition to the Constitutional amendment HJR 73 which prohibits most abortions and also prohibits public funds from being used to pay for abortions as it will repeal Article I, Section 36 of the Missouri Constitution known as the "Right to Reproductive Freedom Initiative" which was known previously as Amendment 3. Despite the bill's text, this amendment's only purpose is to undo the will of the people who voted yes for Amendment 3 and will remove a woman's right to complete reproductive freedom and should not be approved.

It is very clear by the numbers over and over that the majority of voters believe making abortion rights available in Missouri. Women should have control over their bodies. This is definitely government overreach, meddling in personal decisions. I understand that some people have religious beliefs that prohibit them from approving of abortion. However some of us do not believe that. And in this country, we also have freedom of religion and prohibiting abortion is again the government interfering in our inherent individual liberty and freedom.

• **Restores Constitutional Integrity:** Repeals Amendment 3, returning Missouri's laws to reflect the will of its people. • **Balanced Protections:** Allows exceptions for abortions only in critical cases—medical emergencies, fetal anomalies (defined as severe structural or functional issues making life outside the womb impossible), rape, or incest—while maintaining a strong pro-life stance. • **Safeguards Children:** Prohibits gender transition procedures for minors, including surgeries, cross-sex hormones, and puberty blockers, preserving their health and future. • **Ensures Accountability:** Reinstates essential safety regulations for healthcare providers and facilities, prioritizing patient well-being. • **Respects Taxpayers:** Prevents public funds from being used for abortions, aligning with fiscal responsibility. • **Future-Proof Design:** Includes a severability clause and ensures that if abortions are fully banned in Missouri, exceptions will phase out while preserving the core protections. This is a pivotal moment to act decisively and uphold Missouri's values—please support this resolution with urgency!

I believe that many Missourians were mislead by the supporters of Amendment 3 to believe that our previous laws did not protect the lives of women and their reproductive health. We need to pass a new law that covers the concerns of Missourians who want to make sure that women receive the best health care but also protects the life of the unborn.

I am very appreciative that the committee is considering this and ask you to vote yes and put the bill before the house for a vote. I was at the committee hearing tonight, and I support this bill, but I did not get to speak because I was in the back and overlooked. I can see why prolife people do not attend the hearings. It seemed a very hostile atmosphere for those who do support an opportunity to vote on a more prolife bill. By 12 weeks, all the cells have differentiated into the cells that form individual tissues and organs. After 12 weeks, the organs and tissues just grow until the baby is ready to be born. The heart is beating. The baby feels pain. As a mother, you know the child in the womb has unique features and personality well before birth. I support HCS HJR 73. Thank you for giving Missourians another chance for their voices to be heard. I feel like Amendment three does not accurately represent the views of Missourians, and was funded by people outside of our state, and takes away 50 years of laws that were passed to give protections to expectant mothers and the babies. I feel like so called "health care" without proper information for the patient is mal-practice, and that under Amendment 3, the women are not given informed consent. Several people close to me have had abortions, and it caused devastating consequences in their lives and families including drug addiction, increased risk of suicide, trauma, attachment disorders, loss, regret, remorse and unresolved grief. Abortion is a tragedy for both the child and the mother and the father. No one every speaks up for the men, who have lost a child through abortion and were given no parental rights consideration. Women are often pressured, forced or coerced into abortion by parents, boyfriends or others. Abortion is a for-profit industry that makes money through death and destruction of human beings. No civilized country would allow abortion throughout all 9 months by an unregulated, for profit industry that has no value for human rights or human lives and that causes many increased health risks for the woman. I support this bill and hope you the committee will put the bill before the House for a vote. Thank you.

I believe that all women , over the age of 18 should have eminent domain over their own bodies, Their private property. Woman know if they are mentally and or physically able to care for a child. If they are ill or the baby is ill they should not have to risk their life by going to full term with the pregnancy. Women should not have to loose their life because someone who has no business in her life should try to control her. Anyone who wants to take that risk can take that risk, but a woman who does not want to take a chance of loosing her life or have mental anguish about a child she can not raise emotionally or because of abuse or economical reason should have the right to an abortion. Woman should always have the right to the care of their own bodies and this I feel very strongly about.

We must stand up for both mothers and their unborn babies. BOTH have right to life. In supporting the life of the unborn baby we must support women in crisis pregnancies by providing the resources that would fund abortions to fund ultrasounds & places that would support her thru her pregnancy and the first year of the baby's life with emphasis on preparing for any future issues. Both myself and one of my daughters were unmarried at our first pregnancy. We were blessed to have family support to help with the difficulties of such situation. I was 18 & my daughter was 23 & just starting out on her career. Both my daughter and granddaughter are beautiful, productive women. Not all girls and women have these resources.

Please support the ORIGINAL language of HCS HJR 54 as it pertains to the Children's and Families Committee of March 31st, 2025. This language that is supportive of unborn life, was changed to reflect language supporting the killing of an unborn baby by a very general time frame of weeks, called fetal viability. Problem = medical science keeps changing that to a shorter and shorter time! Medicine keeps changing for the better and is more and more capable of treating babies. Additionally, Missouri Right to Life is aware of initiative petitions that would impede the legislative ability to insert joint resolutions placing issues on ballots. How many pregnant mothers more must we Missourians unfortunately have encounter terrible consequences of all our protective laws being gone? Right now, abortion clinics in Missouri are operating WITHOUT a license!

Any ability to function as a polity must hold as foundational right to life. If this right is violated, is there any purpose to government left? What should government do if it shouldn't guard innocent life? If we are to conserve anything good in our society, it must be that murdering babies is wrong. The unborn are still human babies, and murdering them is just as wrong as murdering anyone else.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

To the Honorable Members of this Committee: My name is Nick Irmen. I am an attorney, a husband, a father of four beautiful children and a proud Missourian. I write you today to encourage you to pass HJR 73. Though I am not a native Missourian, I am deeply proud of this state. 10 years ago, I decided to begin my career in Springfield, and began my family there. While we loved the Ozarks and are deeply appreciative of Springfield, we chose to move to Kansas City nearly 5.5 years ago. After a brief time in Olathe, Kansas, we chose to come back to the state we love and lay down roots in Lee's Summit. For all my love, this state has a long and complicated history, including as a slave state and with a government in exile who sided with the confederacy. Even with that, there is truly no deeper stain than Amendment 3. As someone who not only considers himself and his family to be Missourians through and through but also worked on the campaign to defeat Amendment 3, this law, quite simply, does not represent who we are. Though I hesitate to ever draw religion when making these arguments, Missourians are religious and god-fearing people. However, as our motto implies as the "Show Me State," we are skeptics; we want to discern truth from falsehood and act accordingly. Unfortunately, the proponents of Amendment 3 - Planned Parenthood and the ACLU - were able to create a war chest and convince Missourians that our laws did not include protections for women, when in fact they did. They believed politicians like Trudy Busch Valentine who ran their entire campaigns on abortion, telling voters that Missouri law didn't care about women. That was not, and is not the truth. Since the election, the horror we all prophesized came true - the courts have taken away virtually every restriction designed to protect women from the abortion lobby. I cannot stress enough that this is not who we are as Missourians nor is this what we truly want - people have been motivated by fear and a strongly funded abortion lobby. Please, give us the chance to reverse the law and pass something that both covers the concerns and protects Missourians' overarching desire to protect innocent human life. Let us diverge from the ugly past from which we, as a state, were founded, and to be on the right side of history. In Jesus' name I pray. Nicholas James Irmen Lee's Summit, Missouri MO Bar #67479

As a college student in 1984, I was assaulted and raped on my college campus. No pregnancy resulted from that attack, however back then I had the reproductive freedom to seek an abortion if I had so chosen. I cannot begin to describe how heartbreaking it is to me to know that 41 years later there may be other victims in the same situation that might not be allowed that same freedom. Women in Missouri HAVE to be allowed to make their OWN decisions about their OWN bodies.

I gathered signatures for Amendment 3. People were excited, happy, and thankful to sign to restore reproductive health care rights in Missouri. They were worried about ectopic pregnancies, fatal fetal abnormalities, and the health of mothers. This amendment was voted on by a majority of Missourians and the will of the people should be respected.

For God's sake, people. Is overturning the will of the voters your job? Last time I checked, it was the opposite of that. Not only is this bill anti-democratic, it is short-sighted and dangerous, just as Missouri's previous abortion bans were. To require rape and incest victims to report their assault in the appropriate jurisdiction in order to qualify for an abortion, you are entirely ignoring the complicated circumstances that surround rape and incest. Do you not think about the victims whose abusers are their parents? The victims who are young enough that they don't know what to do or who to go to? The victims who don't have access to consistent transportation? Why must you put a million roadblocks in front of the "exceptions" you claim to write into these bans? Don't even get me started on the complete non-sequitur bit about healthcare for trans people. Did you think you hadn't isolated enough minorities, is that it? You want to make sure that trans children, who kill themselves at an alarming rate because people like you will never see them as human, know that you would never deign to let them live their lives free of government overreach? Look at yourselves. Donald Trump and Elon Musk are currently trying to burn the government down from the inside. They are ripping life-saving government programs and funds from the people who need it most in order to justify giving themselves tax breaks. 1.3 million people in Missouri are on Medicaid, and amidst the terror and uncertainty that wracks the minds of Missourians, you choose NOW to disenfranchise the voters. You chose to introduce this bill during all of this chaos so that you could quietly undo their will. Do you truly think this is God's will? You think that, because you are "protecting the unborn" at the cost of the lives of their mothers, that God will ignore the way you turn from the human rights violations you vote for? Do you really think that God is okay with treating immigrants like animals just because they came here illegally? If Jesus himself started preaching in the Missouri House of Representatives, you would call him an illegal alien and a liberal traitor, and you would want him deported to an El Salvadorian prison because he disagrees with the false idol that YOU worship, Donald Trump. I am so tired of you people pretending to be "pro-life" when you vote for crimes against humanity. You refuse to stand up against discrimination, gun violence, the subjugation of women, people of color, Palestinians, the LGBTQ+ community, the disabled, etc. You're not pro-life, you're pro-control, and you're not fooling anyone else anymore. You're only fooling yourselves.

I am writing to express my strong opposition to the proposed bill aiming to ban abortion in Missouri. This legislative effort directly contradicts the will of Missouri voters, who, just five months ago in November 2024, approved Amendment 3 to enshrine the right to abortion in our state constitution. ? The passage of Amendment 3 was a clear and democratic mandate reflecting the electorate's commitment to reproductive rights. According to the Associated Press, this amendment guarantees individuals the right to make decisions about their reproductive health, effectively overturning previous restrictive laws. ?Introducing legislation to ban abortion so soon after this constitutional amendment not only undermines the expressed will of the people but also threatens to reignite legal uncertainties and challenges. As reported by The Guardian, even after the amendment's passage, Missouri faced legal limbo regarding abortion rights, highlighting the complexities and potential conflicts such contradictory legislation can create. ?Furthermore, as noted by the Missouri Independent, such legislative actions could be perceived as dismissive of voter engagement and may erode public trust in our democratic institutions. ?I urge you to respect the decision made by Missouri voters and oppose any bill that seeks to ban abortion in our state. Upholding the constitutional rights recently affirmed by the electorate is essential to maintaining the integrity of our democratic process and ensuring that the voices of Missourians are heard and honored.

I am a constituent in Springfield Missouri. I believe that this legislation is a glaring overstep of power and a perfect example of our representatives NOT representing the people. Only a short while ago Missourians voted overwhelmingly to protect a woman's right to choose. The amendment that would be repealed under this bill is important to maintain a woman's bodily autonomy and her right to freedom. To even suggest this legislation is unacceptable and a disgusting display of regressive patriarchal values that are not welcome in Missouri.

I am opposed to this initiative by the Missouri leadership to overturn the citizen initiated revision to the constitution, giving Missouri citizens reproductive freedom. The citizens voted and the majority voted in favor of the amendment. Why not listen to the citizens who also elected you, and follow their wishes instead of pushing your own agenda onto the people (whom you represent). As a citizen of Missouri from birth, I had less rights than my mother did at my age. With the current standing of the Missouri constitution, I am comforted in knowing the children of our state will grow up with the same freedoms allowed to the men of our state, to have full control and choice over their bodies and health care.

My name is Aimee Newman and I'm from Springfield, MO (Greene County). It's important that individuals have the right to make private medical decisions without governmental interference. I believe abortion care is a fundamental right and our government should work to protect a pregnant person's right to abortive care. Restrictive abortion laws have been linked to negative public health outcomes, including increased rates of unsafe procedures. By constitutionally protecting reproductive freedom, Missouri promotes safer healthcare environments and outcomes. This is essential to preserve individual liberties, respect the democratic process and promote public health.

My name is Alexa Wilson and I am from St. Louis MO. 1,538,659 Missourians voted YES on Amendment 3– you were elected to defend those rights. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. As citizens of this country, no law should prevent us from making choices about what we do with our bodies.

I strongly oppose HJR 73. This resolution would repeal Missourians' constitutional right to bodily autonomy and reproductive healthcare. Just months ago, 52% of voting Missourians made a clear directive that abortion should not be banned in our state. The legislature should not undo the will of the people they represent. I am a Christian and the mom of a young daughter. I believe that individuals should have the ability to make their own healthcare decisions, and not have those decisions dictated by legislators or on the basis of other people's religious beliefs about when life begins.

I strongly oppose HJR 73, a dangerous and undemocratic proposal that threatens the fundamental rights of Missouri citizens to have a voice in their own government. This resolution is nothing more than a power grab—an attempt by politicians to rig the rules and silence the people. HJR 73 would dismantle our initiative petition process by requiring an undemocratic supermajority to pass citizen-led ballot measures. This move is a direct attack on grassroots democracy and a betrayal of the trust Missourians have placed in the ballot box for over a century. The message from Jefferson City is clear: they don't trust the people to make decisions, so they want to rewrite the rules to keep power in the hands of a few. Let's be honest—this is about control. It's about blocking popular initiatives that the people of Missouri overwhelmingly support, including the right to make personal medical decisions without government interference. This is about stopping Missourians from restoring reproductive freedom. HJR 73 is a deliberate attempt to make it harder for voters to enshrine the right to abortion and bodily autonomy in our state constitution. We will not stand by while politicians try to force themselves into our homes, our families, and our private medical choices. Missourians deserve the freedom to live their lives without government intrusion, and that includes the right to access reproductive healthcare, including abortion.

Abortion is not only considered healthcare, it is a basic right to our own bodies. Taking away womens choice to have safe abortions will only drive numbers up on unsafe, life threatening abortions by women who will be too scared to get medical help when things go wrong. This is unjust as we just voted for this in November. Keep your laws off womens bodies.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Dear members of the committee, My name is Alexis Schneider, and I am a pregnant woman living in Jefferson County. The last thing I want to do while growing a life inside of me is spend my time writing testimony. But I feel that I have no choice, because the legislature is once again trying to take away mine. When I voted yes on Amendment 3, I did so carefully and thoughtfully. I read the amendment, did my research, and decided to vote yes. I was voting for the right to make my own medical decisions. I was voting for my daughter, who will be born into this world soon. I was voting for every woman who has faced impossible decisions, and for every family that deserves their privacy to make them. I believed in that vote. I believed that it meant something. Now, you're telling me that it didn't. That the voices of your voters can just be tossed aside when you don't agree. That I, and thousands of Missourians like me, didn't understand what we were voting for. That we have to fight all over again for rights that we already secured, that the people you represent secured. It feels insulting. It feels cruel. Exhausting. And honestly, for someone dealing with my own reproductive health, it feels terrifying. What scares me most about this resolution is how vague it is, and how misleading. What in this text defines a medical emergency? How sick do I have to be before I can access the care I need? How sick does my child have to be? Is a 50% chance of death an emergency? 25%? Who makes that decision, if my doctor is afraid of repercussions that keep them from caring for other patients? If my heart gives out, and it becomes too dangerous for me to carry to term, is that an emergency? If we find out that my child will be born in agonizing pain, must I watch her suffer and die? Because the people elected to represent me don't trust my doctors to provide the care I need? This simply means that people would be forced to suffer needlessly, to wait, to get sicker before they can access care. No one should have to go through that. Not me, not my daughter, not anyone. Pregnancy is hard enough. It comes with risks, fear, anxiety, hope, and so many unknowns. I can't imagine navigating this journey without the right to make medical decisions for myself. I can't imagine my child growing up in a state where those rights don't exist. Where politicians, not patients and their doctors, decide what happens to our bodies. Where my sons will never have their medical procedures questioned by a politician, but my daughters might. This is government overreach in its most basic and intrusive form. Please, stop this. I beg you. Respect our vote. Respect our voices. Respect our freedom. I am happy to talk to anyone more about this experience. I am reachable by phone or email. 636-235-6198. Sincerely, Alexis Schneider First-time mom Terrified Voter

My name is Alice Barber and I am a resident of Springfield, MO. I am writing in opposition to HJR 73 because this proposed Constitutional amendment blatantly undermines the will of the people of Missouri. This past November, 1,538,659 Missourians voted to pass Amendment 3. A majority of voters--Democrats, Republicans, and Independents--made their preference clear: we all want Missourians to have reproductive freedom, including but not limited to access to abortion care. HJR 73 disregards the clear will of the people on this issue.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I am writing in opposition to the Constitutional amendment HJR 73 which prohibits most abortions and also prohibits public funds from being used to pay for abortions as it will repeal Article I, Section 36 of the Missouri Constitution known as the "Right to Reproductive Freedom Initiative" which was known previously as Amendment 3. Despite the bill's text, this amendment's only purpose is to undo the will of the people who voted yes for Amendment 3 and will remove a woman's right to complete reproductive freedom and should not be approved.

Reproductive healthcare includes the ability to make an informed choice to or not to reproduce. Removing Amendment 3, an amendment that the majority of Missourians voted in support of, shows that you are not representing the will of the people, rather personal aims and beliefs. Beyond the ability to make an informed choice to reproduce, this change will put the lives of hundreds of Missouri citizens at risk, not just from complications during pregnancy or pregnancy individuals taking their own lives into their own hands, but risks throughout the lifetime for the unborn child including food insecurity, financial insecurity, and many more. Banning abortions does not stop abortions. It stops safe abortions and puts hundreds of thousands of Missouri citizens at risk. And again, we the people of Missouri have already voted on this and voted yes.

I signed the petition in support of reproductive freedom so that it would be voted on as a constitutional amendment. I then voted for the right for reproductive freedom in Missouri. The majority of voters voted the same way. Laws should not be written to repeal the wants of the people. This is a reminder that lawmakers are elected to represent the people. The people voted. Leave their rights alone.

During the election I voted to keep the government out of my decisions about my body. I have had endometriosis my whole life. My symptoms were not typical. So I could not get a definitive diagnosis from any of the four Missouri doctors I saw for my symptoms over the past 25 years. Not until I could get a non-Missouri doctor to get a tissue sample to test during a complete hysterectomy. Why wouldn't Missouri doctors do this? The reason I was given repeatedly was that nothing would be done that could POSSIBLY harm my ability to carry a POSSIBLE child to term. I have held to the argument that I didn't want children my whole life. I was very likely sterilized during a fever of 113 degrees when I was 9 years old. For 12 years I have been married to a man who is also sterile. Yet I could not get treatment for a debilitating ailment because of the POSSIBILITY of a child. I don't want more restrictions for myself and my neighbors intended to aid POSSIBLE citizens. I want more freedoms for ACTUAL people with ACUAL pain to get the best medical care possible. As a detail, the medicine I needed to take in order to heal the endometriosis riddled tissue so that I could have a better mortality chance during surgery would be a restricted drug since it neutralizes sex hormones. The only way I could afford it was through a program getting it shipped directly from Abvie. The hormone patches I have to have now since the surgery may also be at risk of restrictions because they are "gender affirming care." I no longer have gonads of either sex. To repeat why to those who don't know what endometriosis is, I had them removed because the ones I had were damaged by God. Not my fault. I have already had to travel to a pharmacy far away from my home to get the medication because my local pharmacies were out of stock and had them on back order. More restrictions and more regulations on the healthcare of Missouri citizens is going to cause even more harm than the culture war and threats of restrictions and regulations already has. I understand that the hearts of many people that vote against abortions and against gender care are thinking of dead babies and mutilated children when they vote. The reality is that those are not the guaranteed outcomes of having access to this care. The reality is that it broadens what is acceptable enough to make room for so many of us to get treatments we need, not to end a child's life but to end decades of suffering.

Abortion and other women's reproductive care are crucial medical procedures that save women's lives, and to restrict or ban it puts the health of mothers severely at risk. Abortion is a medical decision that should be between a woman and her doctor, they shouldn't have to consult legal restrictions or bans for medical treatment. For the sake of myself, my family, and my friends, do not ban or restrict abortion in Missouri.

I oppose House Joint Resolution 73 as it undermines the rights guaranteed under Amendment 3. This resolution threatens to compromise fundamental freedoms, including women's right to make personal healthcare decisions. We have voted on the right to abortion already, please stop wasting our time trying to again take away these rights and listen to these testimonies that we have to keep submitting over the same things. Again, a woman should be able to do whatever they want to their bodies with the guidance and recommendations from their health care providers (their doctors) and NOT the government. Please stop wasting everyone's time and tax payer dollars and actually spend the time and money on things like school lunches for kids or lower costs for healthcare.

I had a medical abortion and I would not now be a mother of three without that living saving health care. Newly married and suffering from an ectopic pregnancy, I was able to get medical care I needed and pass the fetal tissue at home with my husband and grieve privately. I did not have to wait for an outsider's approval or suffer the loss of my reproductive organs before receiving care. No one, no couple, no woman should have to go public with their situation or argue with politicians for her right to terminate a pregnancy. Abortion is private medical care. The people of the state of Missouri upheld this and it should be honored.

Missourians voted in favor of reproductive autonomy. Families deserve to have control over when and IF they have children. Unplanned children often end up unwanted, abandoned or abused. Instead of attacking healthcare, increase education to empower people to make informed decisions. If you truly care about preventing abortions, people need to know how to not become (or cause someone to become) pregnant if they don't want to have, love and raise children. **ABORTION IS NOT THE PROBLEM.** It is a **SOLUTION** to a host of problems. Perhaps the pregnancy is iunsafe. Perhaps the pregnancy will result in a birth where the baby will only suffer and die. Perhaps the baby will tie the mother to an abusive partner or reduce her ability to provide for the children she already has. If you are not directly involved in the situation, mind your business and let the people who are involved and affected choose guidance. Amendment 3 passed. For those who don't want abortion or birth control, they are free not to use them. Keep the options open. Let the family and their doctors decide.

Thank God my family member was able to access the appropriate care she needed in that heart-wrenching August. With her specific disease and the unique health challenges that come with her case, doctors told her it would be almost certainly fatal to her and the baby if she were to continue with her pregnancy. She agonized over the decision, but the risk that her other child would be left without a mother was too much for her. SHE and her DOCTORS determined the best course of action for HER LIFE and that of her LIVING CHILD. We, the people of Missouri, have ALREADY SPOKEN about this right and it PASSED. It is crucial that lawmakers represent the will of the people and oppose this abortion ban.

I OPPOSE HJR 73, and I ask that you do the same. The people of Missouri have already voted on reproductive healthcare, and our voices were heard loud and clear in November 2024. Amendment 3 put a vote to the people, asking if people should have the ability to access reproductive healthcare and make such decisions with their healthcare providers, and the answer was a resounding yes. HJR 73 is an attempt to overturn the will of the people - this is frustrating and infuriating. You cannot dismiss the will of the majority for the wishes of a few. Furthermore, even though this Bill allows an exception for rape, two out of three sexual assaults are not reported to police; since Roe v. Wade was overturned, more than 65,000 women and girls in 14 states with abortion bans in place became pregnant after being raped. The people of Missouri deserve healthcare and the ability to make those decisions with their medical providers. Politicians do not belong in those decisions.

Here we are again, HJR 73 by Rep Lewis is again a blatant attempt to undermine the will of the people of Missouri. We had an election MONTHS ago and chose to reinstate reproductive healthcare choices and support for women and girls in Missouri. Let the decision of the people stand= stare decisis. It is more important now, than ever before, that the people of Missouri have access to safe and equitable healthcare. If you continue to attack the rights of female or femme people in this State, then we will be pushing for contraceptive measures to be implemented on the men of the State. Enough is enough!

My name is Amanda Henry and I am a resident of St. Louis, Missouri. I am writing today to express my strong opposition to any legislation that seeks to ban or further restrict access to abortion in our state. Access to abortion is a critical component of comprehensive healthcare. Abortion is a safe, legal medical procedure that allows individuals to make decisions that are best for their health, their families, and their futures. Banning or severely limiting access to abortion puts lives at risk. It forces people—often already facing economic hardship, abuse, or health complications—into dangerous and desperate situations. In Missouri, we already face significant barriers to reproductive healthcare. There is only one abortion provider left in the entire state. This is not just about inconvenience—it's about safety. Delays in care can lead to more complicated medical outcomes and, in some cases, irreversible consequences. Let us be clear: banning abortion does not stop people from seeking it. It only makes it less safe, particularly for those in marginalized communities. Black, brown, rural, and low-income Missourians are disproportionately impacted by these laws, widening the already unacceptable gap in healthcare outcomes across our state. Every person deserves the right to make private medical decisions without interference from politicians. The government should not be in the exam room. Trusting people to make decisions about their own bodies is not radical—it is necessary. I urge you to consider the real-world impacts of abortion bans. We must prioritize health, safety, and dignity. That starts with protecting the right to access safe, legal abortion in Missouri. Thank you.

My name is Amanda Loyd and I am contacting you in regards to HJR73. This bill directly attacks Amendment 3, which was voted on and passed by the people of Missouri. It has already been made clear that your constituents do not want the government to interfere in their medical or family planning decisions. As a mother of two who had preeclampsia with both children and faced emergency inductions, I know the importance of relying on the knowledge and experience of a healthcare provider and that healthcare provider's ability to act quickly based on the needs of her patient and her patient's unborn child. Had it been required that we wait for approval by the state to receive treatment, I could have very well begun having seizures, risking the health and life of myself and my baby. "Reproductive health care", as referenced in the document, should actually refer to expanding the best healthcare possible to the people of Missouri, rather than limiting access to healthcare, reproductive or otherwise. Thank you for accepting the outcome of the November election and discontinuing your attack on an amendment that was democratically voted upon. Thank you.

Missouri House Bill #HJR 73 seeks to undermine reproductive health care by proposing constitutional amendments that limit access to critical services. This bill fails to respect individuals' autonomy and the right to make personal healthcare decisions. Restricting access to reproductive health care disproportionately affects marginalized communities, including low-income individuals and people of color, who already face systemic barriers to care. Instead of supporting policies that promote health, safety, and equity, this bill seeks to roll back essential rights. It is crucial that we protect reproductive rights, ensuring that all Missourians have access to safe, comprehensive, and affordable health care.

We, the voters, decided on this issue. Overturning the will of the majority makes our state not honest to the values of our country. Missourians are fully able to determine what to do in their private lives when a situation like abortion arises. Our autonomy and privacy matters, no one has the right to decide they know better than the majority of voters who passed reproductive freedom into our constitution. To overturn the will of us, the voters, makes our state one of dictatorship and not democracy.

I am one of many volunteers who have taken time out of our lives to protect the well being and healthcare of all women in this state. We took to the streets, we collected signatures, educated our neighbors, and have written countless testimony explaining the reasons why this amendment is not only necessary but a requirement of our basic human right to the autonomy of our bodies. I would not be here today if we're not for the healthcare received. Absolutely no one has a right to dictate what my healthcare should be. I demand that you stop ignoring the will of the citizens in the state of Missouri and uphold your oath to your office. We the people have already spoken. We unanimously voted to pass Amendment 3 into law and you do not have the right to overturn our votes. It's time to start doing your damn jobs and stop ignoring your constituents. We are not going to allow this to continue. I will not be silent. I demand your respect. Do not put any more lives in danger. Respectfully, A wife, Mother of 3, Sister to 3 women, and Aunt to 5 young ladies, devoted sibling to a 9000 person workforce

Missourians already voted to approve amendment 3 to the state's constitution in 2024, ensuring women have bodily autonomy no matter their status or reason for choosing abortion. The state has no right to interfere with a woman's choice, particularly when opponents of the amendment cite religious reasons for being against abortion. Someone else's religious beliefs have nothing to do with the personal decisions made by others in a country where church and state are separate. Do what is right, follow the constitution, and do not allow the religious agendas of some determine what Missouri women can and cannot do with their own bodies.

To the Missouri House of Representatives: My name is Amy Latta, and I am submitting this testimony in strong opposition to HJR 73. In November 2024, the people of Missouri made our voices heard through the democratic process. We voted to enshrine the Right to Reproductive Freedom in our state constitution. Amendment 3 passed because Missourians, across party lines, believe decisions about pregnancy, medical care, and bodily autonomy should be made by individuals, not politicians. HJR 73 directly undermines that vote. It proposes overturning the will of the people less than a year after we expressed it. Let me be clear: this resolution is not about protecting life. It is about reasserting political control over people's private medical decisions. It places arbitrary limits on access to abortion, forces survivors of rape or incest to report to law enforcement before they can receive care, and criminalizes providers for offering compassionate, medically appropriate services. It also includes an unrelated attack on transgender youth, banning medically approved gender-affirming care—a choice that should be left to families and doctors, not the government. You cannot claim to value freedom while stripping people of the most fundamental freedom there is: the right to control our own bodies. I urge you to vote NO on HJR 73—for the health, dignity, and autonomy of Missourians. Respect the will of the people. Trust us to make our own decisions. Do not rewrite the constitution to satisfy a political agenda that voters have already rejected. Thank you for your time and consideration. Sincerely, Amy Latta
Constituent, Business Owner, Mother
St. Charles County

My name is Dr. Andrea Lui, and I'm a family physician. I strongly oppose HJR 73 for multiple reasons. First, over 1.5 million Missourians -- an unquestionable majority -- voted YES on Amendment 3. The verbiage on the ballot was crystal clear; Amendment 3 would alter our Constitution to "remove Missouri's ban on abortion" and "establish a right to make decisions about reproductive health care, including abortion [...], with any governmental interference of that right presumed invalid." We, the people of Missouri, voted a resounding "YES." It is your mandate as elected representatives to uphold the will of the people of Missouri. By supporting HJR 73, you would therefore be subverting the entire purpose of your position in government. Second, as a physician trained in obstetrics, I strongly support the right of a pregnant person to have autonomy over their own body. I have personally seen in my patients the devastating toll an unwanted pregnancy can take, both physically and psychologically. Maternal morbidity and mortality rates, even today in this most advanced of nations, are not insignificant. There are innumerable risks inherent to carrying a pregnancy, even a desired one. No one should ever be made to accept those risks against their will. Like the founders of this country, I firmly believe in the importance of individual freedom and self-determination. The right to choose what happens to one's own person is the most basic freedom of all. Because of this, I -- along with the majority of Missourians -- voted to support enshrining this right in our Constitution. Therefore, in the interest of upholding the value of personal freedom as well as respecting the will of your constituents, I call on you to oppose HJR 73. Sincerely, Andrea Lui, MD

Missourians voted in favor of Amendment 3. Bills such as this are in direct conflict of the will of the voters. Abortion and healthcare choices should be between medical professionals and their patients, and not by the state. It is upsetting to see our representatives continue to insert themselves in healthcare decisions and go against their own constituents by trying to circumvent the very things we voted on. This has to stop.

I was one of many volunteers who knocked on doors and visited local venues and spoke to Missourians about the total abortion ban in Missouri that existed last year. Many people had no idea that the Legislature had passed such an evil, all inclusive, anti-women, anti-human rights total ban. It was very hard getting thousands of signatures in the short time that was allowed, but we DID it because Missourians really do want women to have choice. Then, Missourians VOTED and PASSED Amendment 3. Now, you in the legislature are wasting our time and tax payer's money by trying to override this Amendment. We will not be silent and let you do this. We want women to get the healthcare that they need, and this include reproductive freedom to terminate dangerous pregnancies, to terminate unwanted pregnancies, and to take care of our OWN bodies. Get your hands off and do something with your time in the Legislature that will actually improve the lives of Missourians. Vote NO on HJR 73.

The people of Missouri voted to enact Amendment 3 in support of women's reproductive health in November of 2024. We knew what we were voting for despite elected officials trying to claim we didn't understand. Everyone capable of pregnancy deserves to seek reproductive healthcare in any form. The pregnant person and their doctors should be allowed to make their own informed decisions. This is not something for which we need governmental control. The people of Missouri told you in November what we wanted. Your job as our elected body is to enact what we've told you we want.

As a young woman I found myself pregnant and unmarried. I chose to carry my child to term and then to adopt him out to parents who could care for him properly. I had the option of choice and I did what I could live with. There are other reasons for the right to choose however. A woman who has a miscarriage and does not expel the entire fetus may need a procedure to clean out the uterus so she doesn't bleed to death or become septic. Those procedures fall under the category of abortion. There needs to be the option for such situations, as well as incest and rape, or in a situation where carrying a child to term will risk the mother's life. The government needs to step out of the way of this very personal decision and leave it up to the physicians and woman to decide.

I am submitting my objection to this attempt to overturn the will of the people. Healthcare is an essential personal right. The interference of government in deeply personal healthcare decisions is grossly irresponsible. Women are disproportionately targeted by unnecessarily oppressive policies that the government has no business imposing upon us. I support all persons rights to autonomy in medical decision making.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Ann Lohman and I am a resident of HD18. I am a volunteer and Board member of Abortion Action MO. I knocked doors, gathered signatures, talked to many Missourians, and most importantly, like 1,538,658 other voters, voted FOR Amendment 3 to restore abortion and reproductive freedom to Missouri. elected to defend those rights. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. Missourians knew what we were voting for. We do not want to fight this battle again, but do not doubt, that we WILL if you pass this bill. Please don't waste everyone's time and money.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

An abortion ban would cause many pregnant women to be denied appropriate health care in a time when they are most vulnerable. In my case, my fallopian tubes are malformed because of a childhood infection, causing chronic ectopic pregnancies. While this ban says it will make exceptions for ectopic pregnancies, there could be added pressure on doctors and health care workers to make the right call and want to avoid legal trouble, which could delay any help I would receive for an unviable pregnancy. In 2020 I almost lost my life due to a ruptured ectopic pregnancy. After I arrived at the ER I collapsed due to internal bleeding. The doctor on call performed an ultrasound, but it couldn't be completed because of poor visibility and because I was in so much pain. They promptly wheeled me into surgery to see what was going on. They confirmed my right fallopian tube had ruptured beyond repair and I had lost half the blood in my body. If this had happened during an abortion ban, they might have made me go to a different hospital for fear of losing their license/being prosecuted, as they couldn't confirm what had happened through ultrasound. Thankfully I was living in California during this time and was taken care of. I'm terrified of having a pregnancy in Missouri. If something were to go wrong with a pregnancy, I don't trust that I will be given the right health care because of this abortion ban. There have already been cases of women bleeding out, because they have been denied care. I don't wish that for any woman. We need to trust women and their doctors to make the right call in these sensitive and life altering circumstances.

Last October a member of my community had to leave the state of Missouri to find care for a non-viable, but much wanted pregnancy. Having to leave a healthcare team and loved ones because state legislators have intruded upon personal medical decisions adds trauma and more heartache to an already impossible situation. Please get your religion and non-scientific opinions out of womens healthcare and comply with the will of the people.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I STRONGLY OPPOSE THIS BILL!!!! Missourians voted for The Reproductive Freedom amendment on November 5, 2024 to allow abortion up to fetal viability. This bill would overturn it This bill dismisses majority rule and imposes the will of a minorityTwo of every three sexual assaults are not reported to police (Rape, Abuse, and Incest National Network and the Bureau of Justice Statistics)Research published last year (JAMA Internal Medicine) estimated that since the overturning of Roe v. Wade, more than 65,500 women and girls in the 14 states with abortion bans in place became pregnant after being raped This bill is in conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on November 5, 2024 (HB195)

My name is Anthony Ilgenfritz, I live in southern Missouri and I am giving this testimony in opposition to HJR 73. HJR 73 is an anti-constitutional cup game against the people of Missouri's efforts to exercise our rights to the state's Initiative Petition Process, as well as our democratic right to simple vote in our elections. Time and time again we've seen the voice of the people be silenced by our collective members of the state legislative bodies. We saw this today with the near silencing of testimony outside of a name and a single word followed by the ultimate silencing and dispersal of all witnesses from giving testimony over a minority of frustrated and tired voices. The actions taken today by members of our Missouri Legislature have already made history. How that history will be recorded and by who will be the inevitability of the fear, and emotional immaturity shown by the our House Children and Families Committee today. You know what you've just done, don't you? You've given your opposition the greatest victory it will ever have. The people of Missouri will not tolerate the heavy hand of totalitarian governance and you will reap a whirlwind.

In almost all areas of health care in the U.S., people are given the right to make the best choices for themselves and their families. Abortion is the only area where people's rights are curtailed or prohibited in making decisions for their healthcare. The citizens of Missouri approved Amendment 3 to proscribe abortion rights into law in Missouri, and the Missouri legislature should follow the will of the people and the rule of law.

in Opposition to HJR 73As a Missouri resident dedicated to human dignity, personal agency, and the pursuit of health and wellbeing, I write to express my unequivocal opposition to HJR 73. This proposed constitutional amendment represents a dangerous overreach of governmental power into the most personal and complex aspects of individual and family life. It undermines bodily autonomy, threatens the integrity of doctor-patient relationships, and disregards the real-life consequences of denying access to comprehensive reproductive healthcare—including abortion. Legal and Constitutional ConcernsHJR 73 seeks to repeal the "Right to Reproductive Freedom Initiative," which enshrines the essential principle that individuals—not politicians—should make decisions about their own bodies and futures. This proposed repeal violates the spirit of constitutional protections for privacy, liberty, and equal protection under the law. The Supreme Court's decision in *Dobbs v. Jackson Women's Health Organization* removed federal protection for abortion rights—but it did not preclude states from securing those rights for their own citizens. Missouri voters have the right to affirm bodily autonomy and reproductive freedom. HJR 73 would forcibly strip that right away through legislation that prioritizes political ideology over public health, individual liberty, and medical ethics. Medical and Practical RealitiesAbortion is healthcare. It is a necessary, sometimes life-saving, part of a comprehensive reproductive healthcare system. The proposed amendment's carve-outs for rape, incest, and medical emergencies are neither adequate nor practical. Forcing survivors of rape or incest to file a report and wait 48 hours before accessing care is not compassionate—it is retraumatizing. Many survivors never report their assault due to fear, shame, or mistrust of the legal system. This amendment creates additional barriers that will deter vulnerable individuals from seeking urgent care. The amendment also criminalizes essential aspects of healthcare for transgender youth and those providing it, further politicizing medicine and punishing professionals for offering evidence-based, medically appropriate treatment. Moral and Ethical ResponsibilityMorally, I believe we are obligated to trust individuals to make their own decisions about parenthood, health, and their futures. Criminalizing abortion or restricting access to medically necessary procedures does not end abortion—it simply makes it less safe, less equitable, and more traumatic, particularly for those in marginalized communities. Missouri has some of the highest maternal mortality rates in the nation, especially among Black women. Limiting access to reproductive healthcare will worsen these outcomes, deepening health disparities and perpetuating cycles of poverty and trauma. A Call for Compassion and ReasonIf we are to be a state that values life, we must value the lives of those already living. That includes women, girls, and all people who may become pregnant. True support for life includes access to healthcare, education, safe housing, and support for families—not coercive laws that deny people the right to decide what is best for their bodies and their futures. For these reasons, I strongly urge legislators and fellow citizens to reject HJR 73. Let us instead move toward a future rooted in compassion, equity, and the enduring American principles of freedom and personal

agency. Respectfully,

MISSOURI HOUSE OF REPRESENTATIVES

The repeated attempts by this congressional body to circumvent the voting power of your constituents is reprehensible. Missourians made their voices clear by passing a constitutional amendment to protect abortion access, recognizing that reproductive freedom and bodily autonomy are fundamental human rights. These bills seeking to undermine that decision by imposing restrictions on abortion care are already excessive impositions on individuals' rights to determine the best course of medical care for themselves, but the hypocrisy and tyranny involved in attempting to overturn a majority public vote is shameful.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Members of the Committee: My name is Ashley Aguilar, and I wish to voice my strong opposition to House Joint Resolution No. 73, particularly the provision that would require survivors of rape or incest to report their assault to law enforcement before accessing abortion care. I am unable to attend today's hearing in person due to work commitments, but I appreciate the opportunity to submit this testimony. First and foremost, I want to acknowledge the democratic context in which we find ourselves. On November 4, 2024, Missouri voters decisively chose to remove the abortion ban. Despite this clear expression of the voters' will, within days of the results being confirmed, efforts began to undermine that decision, with some lawmakers claiming that "the public did not really understand" the measure they voted for. Not only does this disregard public sentiment, but it also erodes trust in the democratic process by attempting to overturn or reinterpret the outcome that citizens themselves determined. At the same time, House Joint Resolution No. 73's law enforcement-reporting requirement fails survivors of sexual violence and places an unjust burden on individuals who have already endured profound trauma. Imagine if you experienced a violent assault—an event so harrowing you feared for your life. Then, while you are still grappling with the physical and emotional aftermath, you are obligated to recount those horrors, sometimes in unsettling detail, to multiple strangers: law enforcement officers, investigators, examiners, and potentially others deemed necessary by the investigation. Each retelling forces you to confront the terror, pain, and fear all over again. Moreover, you risk encountering skepticism and disbelief, essentially having to prove your own trauma just to receive essential health care. This process adds another layer of distress to an already devastating ordeal. Survivors of rape and incest must retain the autonomy to decide when, how, or if they will engage law enforcement. Mandating such a step not only violates their privacy but can also deter them from seeking timely medical care. Many survivors fear retaliation from their assailant or may face stigma in their communities if they come forward. The decision to involve law enforcement should be the survivor's alone—a deeply personal choice that deserves respect and compassion. I also urge you to remember that Missourians—the very people whose interests this body is meant to serve—have already voiced their desire for access to reproductive health care. They chose to remove the abortion ban at the ballot box. Attempting to override that choice with provisions such as mandatory reporting only serves to re-victimize survivors and undermine the democratic process. Policy should prioritize helping and empowering survivors, rather than controlling their decisions or questioning their experiences. In closing, I respectfully request that you vote against House Joint Resolution No. 73. Please uphold both the will of the voters and the well-being of survivors of sexual violence by supporting legislation that affirms bodily autonomy, promotes genuine public safety, and respects the sanctity of individual choice. Thank you for your time and for considering my testimony.

Hello. My name is Ashley and I am a resident is Saint Louis City County in Missouri. I am writing to state my opposition of HJR 73. Amendment 3 was voted on by the people of Missouri and was passed. The fact that the House of Representatives are trying to undo the vote of the people of our state, is absolutely wrong. Women deserve to make the decisions about their reproductive health. This is not a partisan issue. Amendment 3 was signed by residents of all parties, along with being passed in our November 2024 election. Overturning this will not only put the mental health of pregnant women at risk, but also risk their physical health. The “exceptions” you have for cases of rape and incest, are not appropriate. Let me ask you this, how is an 10-year old who was raped by her Dad supposed to file a police report? What if her Mom is abused too? What about the college girl who was taken advantage of, held down and brutally raped by a guy she thought was her friend? She’s supposed to just run straight to the police, retell her horrific story multiple times, have her naked body photographed, all the while her rape kit just sits on a shelf because her county doesn’t have the money to test it? Have you ever had someone put their hands on your genitals at a get together? Have you ever been threatened with death if you wouldn’t allow a man to thrust on top of you, unprotected with risk of any STI, AIDS/HIV, then have to let that semen remain in you so you can file a police report? I’m sure you’re all uncomfortable now. Good. You should be. Because you have no idea what it’s like to be taken advantage of sexually. You have no idea what that feels like after and for the rest of your life. It never goes away. Even when you’re sleeping. There is no escape from that mental hell. Instead all of you representatives want to do is keep women from making their own health choices. You want to take away the choices they make in their lives. You should be ashamed of your behavior and actions. You’re not any better than a person who commits assault.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Banning abortion does not make it go away, it just endangers the lives of women, even those wanting to be pregnant. Your constituents already voted to remove the abortion ban, this is a ridiculous attempt to undo the will of the people. I am terrified of trying to start a family one day, only to have a complication when my doctors have to decide if it's enough of an emergency to treat me. Women have died in other states waiting for their case to become emergent enough to be treated. Infant death rates have skyrocketed in other states. Do the right thing, follow the will of the people, and don't ban abortion again.

I strongly oppose HJR73. This resolution is a direct attack on the rights, health, and dignity of Missourians and it ignores the will of voters who have already made clear their support for reproductive freedom. HJR73 would force survivors of rape or incest to report to law enforcement just to access care, and then only within a 12-week window. These cruel restrictions punish victims, not protect them. They create fear, shame, and barriers at the very moment someone needs compassion and support. It also strips access to critical care for low-income families by banning public funding for abortion and prohibits medically recommended gender-affirming care for youth. These are deeply personal decisions that should be made by families and doctors, not politicians. Missourians deserve compassion, privacy, and freedom in their healthcare decisions. HJR73 does the opposite.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I am writing to strongly oppose any bill—such as HB195—that seeks to overturn the main tenets of the Reproductive Freedom Amendment passed by Missouri voters on November 5, 2024. This amendment, approved by majority vote, allows abortion access up to fetal viability and includes protections for medical professionals. Importantly, the amendment also prohibits the government from discriminating—through programs, funding, or other activities—against individuals seeking or providing reproductive health care. HB195 directly conflicts with this protection and undermines what voters clearly supported. Efforts to reverse this decision ignore the will of the people and impose the views of a minority on the majority. This is a direct dismissal of democratic principles. Research from JAMA Internal Medicine shows that since the fall of Roe v. Wade, more than 65,500 women and girls in states with abortion bans became pregnant after rape. Yet, two out of every three sexual assaults are never reported (RAINN/Bureau of Justice Statistics). Blocking access to abortion further harms victims who already face overwhelming barriers. Additionally, this bill includes unrelated and misleading language about gender-affirming care. This political distraction has no place in legislation addressing reproductive rights. I urge you to respect Missouri voters and uphold their decision. Reject any bill that seeks to undo their will. Sincerely, Ashley Swanson-Hoye Kansas City, MO Constituent of House District 25, Rep. Mansur

I am writing in opposition to HJR 73. As a lifelong Missourian who wants to remain in Missouri, I implore members of the General Assembly to oppose this bill. The people have spoken, and they have voted to unequivocally restore reproductive freedom and enshrine protections in our constitution. It is your responsibility to uphold the will of the people. In my conversations with Missourians over the last several months, I have heard countless stories of lives that were saved because of access to abortion care. To deny the will of the people and to deny basic health care is barbaric.

I have worked and continue to work in healthcare over most of my sixty years working in Missouri. I collected over 500 signatures for Amendment 3 over a 4 county area around Kansas City. The responses from people who's signed the ballot initiative petitions were often heartfelt and passionate. There were stories from personal, often heartbreaking experience, and many people thankful for the chance to make their voices heard, who did not think they were being listened to. I have seen the effects of decisions made around abortion care at the workplace and of personal acquaintances. I remember when abortion was illegal. Abortion does not need to return to the days of unsafe backrooms and coat hangers. Many people who signed the petitions simply did not think the government should be involved in their private, personal decisions regarding their health and reproductive care. The last signature I gathered was from a spry, 92 year old gentleman, still living independently in the home where he raised his family in a rural area near Peculiar. He was adamant that the government should stay out of personal decision making and abortion should be legal. Amendment 3 passed in every county, rural and urban in Missouri. Don't prove that Missourians who think that they elected do not listen to them. Please oppose this bill and do not subject the voters to a ballot initiative by the politicians, not the people.

When I voted in favor of Amendment 3 I was fully aware of the details as I read it and I have a brain, the right to make personal decisions, and a right to freedom, as does every woman. The legislators have no business controlling my or any woman's health care and reproductive decisions! It is none of the state's business!!! It seems to me that you are meddling in areas where you have no experience, little or no medical training, and want to control women, yet do not wish to care for or protect children once they are born. I suggest you spend your time cleaning up DFS, fund fully public schools, provide SNAP, fund daycare, etc.

The Attorney General of MO has as an obligation to point out that most of the issues in Bill HJR 73 are already covered in by Initiative Petition, and it imposes a select minority to ignore the legal protections voted upon by a majority of Missourians. Citizens have a right to privacy of the individual to make reproductive choices especially when thousands of females become pregnant by being raped. HJR 73 is misogynistic and warrants being discarded.

I think that it is a terrible idea for our local government to attempt to overthrow and ignore the Will of The People with this misleading "Reproductive Health Care" bill. After reading it, there are SO many things that I disagree with. The people have voted for this already. We have spoken. We expect our votes to count and for our governmental processes to be respected. I want to go on record with my testimony that I am wholeheartedly against any bill that intends to ignore The People's Will, and that our Reproductive Rights be respected.

This bill is in conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on November 5, 2024 (HB195), and as such, dismisses majority rule and imposes the will of a minority. Furthermore, the bill contains “ballot candy” by adding in language about gender transition surgeries, hormones or drugs

Good afternoon. My name is Betsy Vanderheyden and I live in west St. Louis County. I am here to speak in opposition to HJR 73. As a lifelong Missourian and voter in this state, I am disturbed by the efforts of certain Missouri representatives to undo the will of its citizens. Clearly, the majority of Missourians feel that reproductive freedom is something they support. It is the constitutional responsibility of lawmakers to respect that choice and not work to undermine it. Last week my representative, Justin Sparks mailed his constituents "The Citizen's Guide to Government." The guide included a graphic display of how a bill becomes a law. The newsletter highlighted two ways a citizen could make their views known to lawmakers, one being the initiative petition process. When lawmakers fail to address issues important to Missourians, the IP process is a means to bypass the General Assembly all together. Amendment 3 complied with the IP process and was passed by the majority of voters. Amendment 3 is the voice of Missouri citizens and establishes the right to reproductive freedom, including abortion, without the General Assembly's involvement. Missourians have spoken via the ballot box and reproductive rights, without government interference, are now part of our constitution. I urge members of this committee to respect the will of the voters and vote NO on HJR 73.

My name is Blaire Bacher and I'm a constituent from St. Louis. HJR 73 is in direct opposition to what the citizens of Missouri want and voted for. 1,538,659 Missourians voted YES on Amendment 3 and you were elected to defend those rights. It has been made abundantly clear that Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion, which is part of fundamental health care. Reproductive freedom is clearly a Missouri value. This is not a partisan issue, as Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. But yet, the ones that are supposed to represent Missourians' values are interfering and going directly against the majority's will. This is an extreme abuse of power to use your position to force your personal and misguided beliefs onto your constituents. You must abandon this and similar bills attacking Amendment 3.

Please do not subvert the will of Mo voters last year by attempting another abortion ban. VOTE NO on HJR 73 on Thurs. April 10 (or later during this legislative session, 2025.). Hopefully, few women will choose abortion, but women need reproductive freedom, chosen without laws dictating their actions, especially when those opposing abortion often do not want to help women once their child is born, and when the men causing the pregnancy are not held responsible or required to help mother and child.

Greetings, my name is Brandon Clayton. I currently reside in Howell County. I am here to oppose HJR 73. I was one of more than a million that voted yes on Amendment 3. Despite dubious claims, this is not a party issue. This was a voter initiative that was a multi-partisan effort from all across the state. The legislative branch was not serving the need of the citizens of Missouri, so we took matters in our own hands and passed Amendment 3. To overturn this based on opinions and feelings is a gross overreach of an elected official, much less the whole legislative branch. Majority of voters wanted government out of personal medical decision. Missouri chose to protect sexual and reproductive care. It is an elected official's job to listen to their constituency, and help further the need and benefit of Missouri, the Show Me State. Protect the citizenry's vote. To do otherwise is to go against the Missouri Constitution. Treasonous in other circumstances. Furthermore, placing a ban on puberty blockers and hormones, regardless of purpose, is also a gross overreach of power. In a world where parents can decide if their kids are vaccinated or not, regardless of how it effects anyone, something that literally harms no one when done under the watchful care of a professional, is just gross. Puberty Blockers and Hormones does so much for adolescence health, and not just for trans care. Trans is not a scary word, misunderstood perhaps, but not scary. Government should not be allowed to overturn or regulate informed decision between a patient/guardian and their doctor. Most elected officials do not have the understanding nor the training to make a properly informed decision. It would be like going deep sea diving with just goggles. You would drown. Unless it's for the greater good, Government should not have a single thing to do with healthcare, except for aiding in further research and improving care. These bans does none of that. Leave health to the professional that spend years of their lives training for. They have the latest data, they're not often swayed by propaganda, they have the science, the evidence, to help patients make informed decisions. While old money runs deep in Missouri, and a lot of elected officials run unopposed, you still have to consider the great citizens of Missouri, because as recent years have shown, more and more are getting involved in politics. Take that into consideration as well.

Dear members of the committee, my name is Brandon Schneider. I'm a voter in Missouri. Do not support this bill. If you vote for this, you are admitting you never cared about what Missourians wanted. We voted for this because we wanted safe and legal access to abortion. We weren't confused. My wife is pregnant now with our first child. If something should go wrong in her pregnancy, we should not have to wait until she's actively dying before we can do something about it. You put language like "medical emergency" as if that's going to be a panacea against mothers being maimed or sterilized or killed. If you're a doctor and you've got a decision to make on whether or not to take care of the patient in front of you, do you think you'd be hastened or stifled if the threat of prison time were involved? And not if you make the wrong call, mind you. Even if you make the correct call but somebody who has no medical training whatsoever thinks you acted too soon. Obviously, they will be slower to act. If a woman has a non-viable pregnancy (that is, a pregnancy that will only ever end in the death of the fetus, the mother, or both) they should be able to terminate the pregnancy without wondering if some guy in a suit with, again, no medical training, thinks it's medically necessary. Doctors and patients should make medical decisions. Not politicians. Vote against this bill.

Hello my name is Brian Hacker and I live in the city of Saint Louis. I'm writing this testimony as a reminder to the representatives of Missouri that the bulk of Missouri voters wish for safe and legal abortions in the this state. The vote in 2024 clearly articulated this fact as the will of the people. HJR 73 actively represses the opinion of the majority in favor of a vocal minority; this is the antithesis of representative democracy, and any representative that votes in favor of this resolution is taking an active stance against the democratic process, and should be judged accordingly. Please vote no on HJR 73, and uphold the will of your constituents. Thank you.

Missourians voted this past November for the right to abortion. Whether or not you personally agree, the will of the voters has spoken. This is a blatant attempt to overturn what we the people want in an attempt to satisfy our state government's personal convictions, an action I find frankly disgusting. Abortion bans have led to women dying, and even more families broken as a result. Listen to your voters.

To whom it may concern,I heavily oppose HRJ-73. I am dismayed and outraged that you are requiring rape or incest to be reported to law enforcement for abortion to be allowed. Sexual assault and rape are traumatic experiences which make it difficult for the person to report out of fear of retribution from the attacker. In many cases, the attacker threatens the victim with their own safety or their loved ones safety making it very difficult to report it to law enforcement. Of course this can only be understood by people with empathy which it seems that you not have. HJR-73 will be amending an amendment that has barely been active for 2 months. The people have spoken in November in an election. By trying to amend that, you are not only ignoring the wishes of the people in Missouri, you are also blatantly disregarding any situation of unideal reproductive health crises, which are honestly 99% of all cases. Respectfully, I do not agree with the amendments in HJR-73 and think it's an affront to the voices of the people.regards

My name is Brittany Kiefer, I live in the city of St Louis and I OPPOSE HJR73. 1,538,659 Missourians voted YES on Amendment 3 and the Committee on Children and Families were elected to defend those rights. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. This is NOT a partisan issues, Republicans, Democrats and Independents from across the state (including myself) collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion without politicians interfering. VOTE NO on HJR73.

My name is Brynn Cockrum. I am a constituent and active voter from Kansas City, MO. On Nov 5th I voted to allow abortion until fetal viability. HJR73 undermines that vote and the vote of all of the Missourians who also voted to allow abortion until fetal viability. I believe all women should have the fundamental right that is bodily autonomy. Abortion access is a medical necessity for the mental health and physical safety of all women. Please, do not undermine the peoples' vote. I oppose HJR73.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Dear Members of the House Children and Families Committee, I am writing to express my strong opposition to House Joint Resolution 73 (HJR 73), which seeks to overturn Amendment 3 and reinstate restrictive abortion laws in Missouri. This resolution directly contravenes the expressed will of Missouri voters and poses significant risks to the health and autonomy of individuals across our state.

Respect for Voter Mandate:In November 2024, Missourians voted to approve Amendment 3, thereby enshrining the right to reproductive freedom, including access to abortion, into the state constitution. This measure passed with 51.6% of the vote, reflecting the majority's desire to protect these rights. HJR 73's attempt to repeal this amendment disregards the democratic process and the clear mandate provided by the electorate.

Health and Safety Concerns:Before the passage of Amendment 3, Missouri enforced one of the nation's most restrictive abortion bans, leading to significant challenges for individuals seeking essential reproductive healthcare. Reinstating such bans through HJR 73 would likely result in adverse health outcomes, as individuals may be compelled to seek unsafe alternatives or carry unintended pregnancies to term, both of which carry substantial physical and psychological risks.

Economic and Social Implications:Restrictive abortion laws disproportionately affect marginalized communities, exacerbating existing inequalities. Limited access to reproductive healthcare can lead to economic hardships, as individuals may face increased financial strain from unplanned pregnancies. This, in turn, can perpetuate cycles of poverty and limit opportunities for economic advancement.

Legal and Constitutional Considerations:Amendment 3 is now integral to Missouri's Constitution, reflecting the people's will. Efforts to overturn it through HJR 73 not only undermine democratic principles but also set a concerning precedent for disregarding voter-approved measures. Such actions could lead to legal challenges, resulting in unnecessary expenditure of state resources and further divisiveness.

Conclusion:The introduction of HJR 73 represents a direct affront to the expressed will of Missouri voters. It poses significant risks to individuals' health, well-being, and rights across our state. I urge the committee to respect the democratic process, uphold the constitutional rights affirmed by Amendment 3, and reject HJR 73.

Thank you for considering this testimony.

Sincerely, Brynn Palmer

As a mother and a Missourian, I am deeply opposed to HJR 73. This resolution is a blatant attempt to overturn the will of the people and undermine our constitutional right to direct democracy. Missourians have made it clear that we value personal freedom and the ability to make private medical decisions without government interference. HJR 73 seeks to silence our voices and make it harder for citizens to protect their own rights through the initiative process. I want my child to grow up in a state where rights are respected—not stripped away by political gamesmanship. I urge you to reject HJR 73 and respect the will of your constituents.

My name is Callie Aitkens and I am an active voter in Plattsburg, Missouri. On November 5th, I voted with the majority of other Missouri residents to allow legal abortion access up to fetal viability. Prior to that vote I was directly effected by anti-abortion legislation. I had a nonviable embryo that did not develop further than 5 weeks. I was denied access to medication or surgical intervention because of the "political climate" and was made to wait 8 more weeks until my body passed the dead embryo. This could have led to significant complication and illness that would have been preventable. I was robbed of my right to choose and my health care provider was robbed of the opportunity to provide updated, evidence based care. I oppose HJR73. HJR73 would show that our state does not stand for or represent democracy by directly going against the voice of the people. Missouri residents deserve to keep the right to make educated decisions with healthcare providers and for the privacy of that decision to be protected. Abortions will not stop. Safe abortions will. I vehemently oppose HJR73.

HJR 73 Is a Direct Attack on Missourians' Rights and Democracy! I'm writing to voice my unwavering opposition to HJR 73. This proposal isn't just an assault on reproductive freedom—it's an attack on democracy itself. Missourians have already spoken loud and clear on this issue. We've fought this battle before. When it came time to vote, 1,538,659 Missourians said YES to Amendment 3! You were elected to represent and defend our will—but instead, when you didn't like the outcome, you chose to silence us. Rather than honor our voices, you stripped us of them. And now, through HJR 73, you're trying to force your rigid, extreme religious beliefs into our state constitution. Let's be clear: this resolution would ban nearly all abortions in Missouri, even in cases of rape or incest. It would take deeply personal medical decisions away from individuals and their doctors—and hand them over to politicians. That is not freedom. That is not justice. That is theocracy. Let's stop pretending this is about "protecting life." It's about control. HJR 73 isn't just an attempt to dismantle bodily autonomy—it's a direct effort to rob Missourians of their rights and their votes. It's about forcing every person in this state to live under the narrow moral code of a few corrupt and power-hungry legislators. Meanwhile, the real crises in Missouri continue to be ignored: crumbling infrastructure, underfunded schools, and a mental health system in crisis. We—the people—deserve the right to make our own decisions about our bodies and our lives. We deserve leaders who respect democracy, not ones who change the rules when it doesn't suit them. HJR 73 must be stopped. Missouri deserves better. Sincerely, Cammie Storm West Plains, Missouri

I strongly oppose Missouri House Joint Resolution 73 (HJR 73), as it threatens to undermine the fundamental rights of Missouri residents. The proposed resolution risks infringing upon the core principles of democracy, particularly the right to participate in a fair and inclusive political process. Missouri voters have made their choice clear with the passing of Amendment 3, and this resolution seeks to limit the ability of voters to exercise their right. MO HJR 73 opens the door for undue influence and the erosion of fair representation in our state. As a citizen of Missouri, I believe it is vital to safeguard the voices of all residents, regardless of their background, income, or political affiliation. Our democracy is strongest when it is accessible to everyone, and any attempt to limit voter participation undermines the values we hold dear.

I strongly oppose this House Joint Resolution because it dangerously limits reproductive freedom, imposes harmful restrictions on medical care, and carries serious economic consequences for individuals, families, and our state. This and another resolution claim to allow exceptions for rape, incest, and medical emergencies, the reality is far more restrictive. For victims of rape and incest, the requirement to report to law enforcement at least 48 hours before an abortion creates an unnecessary hurdle that can retraumatize survivors and delay urgent care. Many victims—especially minors—may be too afraid or unable to meet this rigid timeline, effectively denying them access to care. The financial burden this resolution imposes is equally troubling. By banning public funding for abortion, it disproportionately harms low-income individuals who already struggle with the cost of healthcare. Forced pregnancies can push families deeper into poverty, increase reliance on public assistance programs, and strain social services. Restricting reproductive healthcare is not just a personal issue—it's an economic one. When people are denied the ability to make decisions about their own bodies, it can affect their education, job prospects, and long-term financial stability. The resolution's ban on gender-affirming care for youth also carries severe economic repercussions. States that have passed similar laws have seen businesses reconsider investments, medical professionals leave, and talent-driven industries hesitate to relocate. Denying transgender youth access to healthcare not only harms families but also sends a message that our state is not inclusive—discouraging potential economic growth. Furthermore, this House Joint Resolution threatens healthcare providers with vague liability provisions that could discourage them from offering essential reproductive care. This could lead to fewer doctors practicing in our state, exacerbating existing healthcare shortages, particularly in rural areas. When access to care is restricted, more people delay treatment, increasing overall healthcare costs and reducing workforce participation. This is not about protecting life—it's about control, and the consequences will be felt not just by individuals, but by our entire economy. I urge you to vote NO on this House Joint Resolution.

Statistically speaking: 50% pregnancies are either unwanted or untimed. These pregnancies, when brought to birth of baby, statistically lead to children then adults who have greater problematic issues in life. This is often because mom is not yet ready emotionally or financially to raise a child. If abortion is illegal, or made difficult, it should be somehow the man's responsibility to pay for and raise the resultant child, possibly government paid paternity tests when necessary and garnishment of wages. Ok, I understand the Republican agenda is to have more women at younger ages have more children. Maybe this is to support the labor force that is dwindling. Maybe it's for a lot of reasons I can imagine, but none that don't inspire. I am, however, inspired by women who powerfully assert themselves in ways that contribute to society at home, business, and community. I am also inspired by men who support women, and believe that a woman can be intelligent and contribute positively to society in ways other than having babies and keeping a good home. I am not inspired by men who assert their dominance over women. Makes me want to emulate Lorena Bobbitt :-) I can think of many reasons one would want to make another have an unwanted child, and none are inspiring. But then again, I also believe democracy is now dead, and the will of the people is meaningless— please prove me wrong.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

This was already voted on by the voters of Missouri. An abortion saved my life years ago. I am also a disabled veteran who served my country and I now enjoy fewer rights than when I served. Politicians have no place in a woman's reproductive decisions. My body. My choice.

In a democracy, the people have a voice. Please don't forget that! The MO Legislature's job is to create laws that support the will of the people. The overwhelming vote in favor of Amendment 3 last November clearly states that the will of the people is to preserve the reproductive rights of Missourians. HJR - 73 is a slap in the face to your constituents. The wording is deceptive, and your motives are clear -- suppress women's rights to make their own decisions about their bodies and their healthcare. VOTE NO.

How dare you. Weaseling your way around, trying to void the decision of the voters of this state, who **CLEARLY** told you what they wanted in the way of reproductive rights. You must remember that we are **YOUR** employers; you work for US. You were not elected to monitor our personal lives or interfere with our personal decisions that in no way affect you. There is a clear distinction between an action being legally available, so that the people can decide what is best for them and their loved ones, and an action being forbidden, where the decision is made by others who have "no skin in the game". Safe abortions are available in neighboring states, that is true. Women can travel...if they have enough money, enough time, enough support. Unless, of course, you make that illegal, too. Shame on you.

HJR 73 is an attack on the will of Missourians. 1,538,659 Missourians made our voices heard, loudly and clearly, in November when we voted to enshrine the right to safe, effective abortions into our constitution. We resoundingly rejected state overreach into our medical affairs and passionately defended the right of Missourians to access all forms of life saving medical treatment. This disgusting show of legislative overreach is deceptive and unamerican. Because your views are too unpopular to win at the ballot box, you have resorted to lying and tricking to push your unwanted agenda on Missourians. Your job is to represent your constituents, who have already spoken directly and decisively on this issue - to protect the right to access abortion in Missouri. Do. your. job.

Women must have access to comprehensive reproductive healthcare, including beyond the 12-week mark. When we voted for Amendment 3, we understood exactly what we were supporting. Despite the misinformation and misrepresentation of this legislation, I've read it thoroughly and firmly stand by it. It's important to acknowledge that 12 weeks amounts to just three months, a period in which many people may not even realize they're pregnant. Tragically, if a young girl is assaulted—sometimes by someone in her own family—and becomes pregnant, this legislation would force her to carry the pregnancy to term. Such an outcome is nothing short of abusive and cruel, and it does not align with God's will. If religion is to be part of this conversation, let me remind you: it is not anyone's place to weigh which sins cause more harm. Enforcing forced pregnancies within our communities and giving rapists the power to determine who becomes a mother is as sinful as it is inhumane. I adamantly oppose this archaic, sexist, and brutal bill. It's time to stop attacking women and focus on issues that genuinely matter. The people—your constituents—have already spoken. Respect their decision and move forward.

I really, really, really oppose HJR 73. The idea that Missourians didn't know what they were voting for is the most insulting idea in the world. We voted for the constitutional right to reproductive freedom. Although this is a family healthcare decision, it mostly affects women. And we voted to protect the right. White men in Jefferson City trying to overturn the will of the voters on any subject is wrong. Stop it. Please go to work on issues that really matter and would make positive change, not taking away rights THAT WE ALREADY VOTED FOR! Missouri voters have already made it clear: we support reproductive freedom. We will not let extremist politicians erase our rights from the constitution that we JUST VOTED FOR!

Last spring, my foster sister learned at 18 weeks that her baby would not survive, no matter what steps were taken. Her doctors recommended she have an abortion, but because it was illegal in our state, she was unable to do so. She delivered her baby at around 35 weeks, and he lived for roughly 40 minutes before dying in her arms. My sister wanted an abortion; she understood that giving birth to a baby who would not survive would be incredibly harmful to her mental health. She is still struggling to cope, and she deserved access to an abortion. Please do not support this bill. Missourians voted on this issue in November 2024, and they made their opinions clear. After I gave birth, I faced complications and ended up experiencing pregnancy psychosis. I'm better now, and I actively take steps to prevent pregnancy because I have children to care for. However, if I were to find myself in a similar situation, I know that for the safety and well-being of my children, continuing the pregnancy would not be wise. Access to abortion is crucial healthcare. Please remember how Missourians voted in November 2024.

It is time to stop insulting Missourians. We, the voters, made our voice **LOUD & CLEAR** when we voted for Amendment 3. Women are dying, and you should care enough to know that infants are dying. Banning access to reproductive health care is killing Missourians and we are already near dead last for maternal and infant mortality rates in this country. Do your elected official job and work towards solutions to address the maternal health crisis instead of worsening it.

Research shows that attempts to criminalise or restrict abortion don't reduce the number of abortions that take place, but more women are forced to seek unsafe abortions. Data from the Guttmacher Institute shows that abortion rates are roughly the same in countries where abortion is broadly legally accessible and in countries where it isn't. Because restricting access to healthcare services does not remove the need, it only forces women to seek UNSAFE services, which can put their health, life and future on the line.

I strongly oppose this bill. The people of Missouri already voted YES to Amendment 3 and the right to reproductive freedom- PLEASE listen to your constituents and leave it alone. This is healthcare that affects not only me, a woman who is actively trying to get pregnant but God forbid something could happen and would need healthcare if I miscarry, but would also affect my daughter's future. I oppose this bill to protect Missouri women.

If this passes, it will be men in the majority who vote for it. Try to see a woman's side of it. I became pregnant, even with the Pill, and had only been in a new job for a short amount of time. Not long enough to build up any time off. There was no way I could support my son and I and have another child to take care of, both physically and financially. I was getting no support from the father of this child to be since he was not supporting his 9-year-old son who was also the father. My only option was to have an abortion. I did not want to have a pregnancy and then a child away to strangers.

My name is Charmagne Schneider and live in Cape Girardeau, Missouri (Representative John Voss and Senator Jamie Burger). I am opposed to HJR 73. Prohibiting safe and legal abortion does not protect families, women or children. Missouri ranks "... 43 of 51 in the health and reproductive care outcomes which include maternal and infant mortality . . . issues," according to the Missouri Independent July 24, 2024 edition. So if you really care about women and children, invest in better healthcare for them. Don't take away the right to reproductive healthcare that a majority of Missourians voted in favor of by passing Amendment 3.

I strongly oppose this bill. In its opening sentence the bill states, "This Constitutional amendment, if approved by voters, repeals Article I, Section 36 of the Missouri Constitution, known as the "Right to Reproductive Freedom Initiative" This is a case of legislators once again attempting to overturn the will of Missouri citizens. We have seen the harm these laws have done. Women who plan pregnancies and miscarry are dying in states with strict abortion bans. I urge the committee members to stand with Missouri voters and common decency and refuse to advance this bill.

Hello, My name is Cheryl Houston and I live in Missouri District 15, the city of Wildwood. I am submitting my testimony IN OPPOSITION TO HJR 73. Why? - 1,538,659 Missourians voted YES on Amendment 3— you were elected to defend those rights. - In my district alone, 60% voted YES on Amendment 3. - Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. - This is not a partisan issue— Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. - I, like the majority of those in the State of MO who voted to oppose Amendment 3, value privacy in terms of family, relationships and autonomy over our bodies. Though I raised two boys to adulthood, I now have a daughter-in-law with two sisters. They each have daughters and one of them is my granddaughter. We must protect their reproductive rights and access to safe and legal abortions.

I am submitting online testimony as we were unable to speak our mind at the committee hearing which I attended. Hello, My name is cheryl barbero. I live in Boone County. I AM HERE TO OPPOSE HJR 73 BECAUSE I AM ONE OF THE MORE THAN ONE MILLION, + MISSOURIANS WHO VOTED YES ON AMENDMENT 3. This is not a partisan issue– signatures were collected across the state to petition for our right to vote and be heard. We voted yes on 3 and now want our vote to be respected. I needed an abortion at age 19 I am grateful I could safely and legally get the care I needed in 1978. Later, receiving health care at planned parenthood saved my life by finding cancer early. Planned parenthood also was there for my daughter when she had an unexpected pregnancy. They saw she was distressed about it and counseled her to not let anyone pressure her decision I demand the same right to personal care afforded me for my 5 children and 13 grandchildren. We the citizens of mo have clearly voted to establish Missouri's right to obtain medical help like abortion from our drs without politicians interfering. Physicians must be free to practice medicine without non medical interference from politicians. If I wanted politicians involved in my vaginal and uterus care I would invite them to my obgyn appt. This is about personal privacy. THE MAJORITY OF MISSOURIANS VOTED TO KICK POLITICIANS OUT OF PERSONAL MEDICAL DECISION MAKING, LIKE ABORTION CARE, AND ALL SEXUAL AND REPRODUCTIVE CARE. IT IS YOUR JOB TO PROTECT AND FULFILL THE WILL OF THE PEOPLE. Our vote should count VOTE NO ON HJR 73

To the 103rd General Assembly, I ask that you respect the wishes of Missouri voters and do not repeal Section 36 of Article 1. I cannot imagine how hard it must be to have lobbyists in your ear, and outside influences with lots of money pushing you to file this, but I ask you to think less of them and acknowledge the reality that across the state of Missouri both conservatives and liberals voted for this reproductive freedom. While you personally may not believe that women should be free, it is important to remember that when you took this job it was under the pretense that you would serve the people of this state. Upholding something they voted for is part of that service.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

HJR 73 is another attempt, proposed by a man, to control women's access to contraceptive care and choices, as well as an attempt to override the will of the people. The proposed legislation includes exceptions for rape or sexual assault with the requirement that women face repetitive trauma - first, in the act of sexual violence against their person; second, during an invasive medical and forensic exam; and third, through re-living of the trauma through the required reporting to law enforcement. The National Sexual Violence Resource Center reports one in five, or 20%, of all women in the U.S. have experienced some form of sexual violence in their lifetimes. According to the National Crime Victimization Survey from 2023, less than half of rapes and sexual assaults are reported to law enforcement. HJR 73 would cause additional trauma to sexual violence victims while also failing to address instances of sexual violence against children who may not understand what was done to them. How does an eleven year old child know to report rape? What happens when the rapist is a family member or authority figure? This legislation fails to recognize the complexities and trauma of sexual violence and how the reporting experience is dehumanizing, especially when female victims have no choice but to report, and be interrogated about, their rapes to men. Missourians voted to protect access to abortion, and we, the people, understand that every woman's situation is individual, complicated, and should not be subjected to input from elected lawmakers. Health and reproductive care decisions belong between a woman and her healthcare provider. If I, as a woman who has experienced sexual violence, must accept multiple accused sexual predators as elected or appointed officials - then you, as an elected official, can accept the will of Missouri voters and protect access to reproductive healthcare, including unfettered access to abortion.

My name is Christine Hill. I live in St. Paul, MO And my representative is Deanne Self. I am writing in Opposition to HJR 73. I am one of 1.5 million voters who voted for amendment 3 last November. Missourians have been clear that they want access to abortion care and want politicians OUT of personal and family healthcare decisions. We understood what we voted for. There was no confusion. I am urging you to stop trying to overturn the will of the voters. Your job is to represent the people and the people have spoken. Lots of other issues to work on !

Since this bill is a transparent attempt to push through a legislative action that was already attempted unsuccessfully, I will just repeat my earlier testimony. Here's what I wrote: This bill is terrible for many reasons, from which I will choose four: 1. This bill would in essence reinstate Missouri's abortion ban, which voters just rejected in approving Amendment 3. It therefore puts before voters a question they have already answered. 2. The transphobic ban on gender transition treatments is an unrelated issue. Opponents of Amendment 3 deceptively and cynically tried to tie it to gender transition to scare up "no" votes. This proposal cynically and blatantly puts these two distinct issues as one ballot initiative. 3. The "exceptions" for rape and incest are illusory. Requiring a law enforcement report and a termination before 12 weeks puts undue and in many cases insurmountable obstacles for women (and especially children) facing pregnancy after these violations. This proposal does nothing to actually protect women and children from rape or incest, which is where the legislature's attention and resources would be better spent. This proposal causes harm; it does not prevent it. 4. The prohibitions on treatments related to gender transition allows the *same* medical interventions in cases not involving gender transition, so clearly it is not about protecting children from harmful treatments. Instead, it is about imposing a rigid gender ideology that ignores well-documented scientific and historical evidence about transgender people. The prohibition on puberty blockers when this treatment is prescribed in the context of gender transition (but not in other cases) prior to the age of 18 is laughably cruel. When does Representative Lewis believe puberty starts? Transgender kids are at distinctly higher risk of suicide - and those risks are substantially decreased when they can access gender-affirming care (i.e., the very care this proposal seeks to block). This proposal does not protect kids; it hurts them.

Abortion may seem wrong to some and that's ok. I'm a mental health therapist who sees clients who have had abortions. No one wants to have to have one is my takeaway. But why should YOUR views, beliefs, and values be applied to everyone? If you happen to be Republican, did you know that your past colleagues in the 70s supported freedoms like abortion. Aren't you into everyone making their own decisions? It's unconscionable to renege on what's already been voted on.

Hello! My name is Christine Queensen and I'm from Wildwood. We voted, and we won. I voted because I needed an emergency abortion when I had a miscarriage and was bleeding out to death. My body was doing its job, but needed medical intervention with a D&C to stop the bleeding. It was the only procedure that could be done to save my life. That is why I am passionate about this issue. I didn't die because there wasn't an abortion ban at the time. I want my daughter to have a future and not fear to get pregnant in fear of dying. Do your job. 1,538,659 Missourians voted YES on Amendment 3— you were elected to defend those rights. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. This is not a partisan issue— Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering.

The people have spoken in November and put through Prop 3. We elected you, not the other way around. This is about personal rights and freedom, not just for women, but for any issue that comes about personal rights. To deny this, denies what we are striving for in this country. Though it was written 249 year ago, we're still working on "all men are created equal." Let's keep working on this, this great experiment, rather than slipping back into times where we are told what we could and couldn't do. Let's aspire to be better, not ruled by fear and scoring points to get elected. The people have spoken, let Prop 3 be, and now do some real good with other legislation. Thanks for listening.

I strongly oppose this proposed law. Missourians voted for The Reproductive Freedom amendment on November 5, 2024 to allow abortion up to fetal viability. This bill would overturn it. This bill dismisses majority rule and imposes the will of a minority. Two of every three sexual assaults are not reported to police (Rape, Abuse, and Incest National Network and the Bureau of Justice Statistics). Research published last year (JAMA Internal Medicine) estimated that since the overturning of Roe v. Wade, more than 65,500 women and girls in the 14 states with abortion bans in place became pregnant after being raped. This bill is in conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on November 5, 2024 (HB195).

The majority of Missouri voters spoke loud and clear when Amendment 3 was passed to END the abortion ban and stopped using politics to control women's bodies. Right now, thanks to Missourians, abortion is legal and available in Missouri AND IT NEEDS TO STAY THAT WAY. I am opposed to this bill.

My name is Connie Mathias and I live in 63011. More than 1.5 million Missourians recently voted YES on Amendment 3 and you were elected to defend those rights, not to find a way to circumvent our direction. Missourians value privacy and oppose political interference in personal decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. You must be aware that this is not a partisan issue. Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. Please do the job you are there to do: **DEFEND AND UPHOLD THE CHOICES OF MISSOURI VOTERS. STOP WASTING TIME ATTEMPTING TO OVERTURN OUR CLEAR DIRECTION.** Thank you.

The people of Missouri showed up and executed our right to vote this past general election. The results clearly show that the majority of Missouri residents support reproductive freedom. To try and circumvent the people's vote with a new bill is anti-democratic and against what this nation is founded on. Missouri elected congressional representatives should by definition represent the voice of the people not speak over the people. Missouri residents votes should be heard and respected and I strongly oppose this bill.

I am a female voter of childbearing age. My husband and I are trying to grow our family. These abortion bans are **EXTREMELY UNSAFE** for women and families. Law makers have no background in medicine, and they have zero business telling individuals how to make their own medical decisions. Especially medical decisions that are truly life or death for the life of the mother. There should be absolutely no government involvement or intervention on this matter. **ZERO.**

As a woman who experience a miscarriage with my first pregnancy in 2015, I was given the so-called 'abortion pill' to ensure that all deceased fetal matter was expelled from my womb in order to prevent any future potential complications. It is my understanding that under this new bill, such a procedure would be deemed illegal and, as such, is only placing women (who are statistically underserved in healthcare to begin with) at further unnecessary risk. Adding in these governmental oversights into women's health care is uncalled for, especially as it directly opposes the wishes of the majority of Missouri state voters. Keep politics out of women's healthcare and let women and their doctors make the choices that are best for them and their individual situations. Please honor the wishes of the Missouri voters as they voted on the November 2024 ballot.

Missourians have already voted to enshrine reproductive rights in the Missouri Constitution. This bill would be in direct violation of human rights and would completely dismiss the majority of what Missourians want - ACCESS TO REPRODUCTIVE HEALTHCARE. Furthermore, the "exceptions" to abortions outlined in this bill have clearly been under researched, or, most likely, factual evidence has been completely overlooked. Two of every three sexual assaults are not reported to police. People who have been raped and victims of incest are less likely to report their sexual assault to the police, especially after becoming pregnant. This bill is nothing but fearmongering to the American people, shoving ideals of gender conformity down the throats of supposedly free individuals. No good comes of limiting anyone's rights, and no person goes to heaven for forcing life.

Amendment 3 passed!. 51.60%, that's 1,538,659 voters in Missouri voted YES. We knew what we were voting on. We know how to read bills and we definitely comprehend that this bill is trying to be passed through the house to undermine our vote. Put this on a ballot and watch it be voted down. You are purposely circumventing the will of your constituents by the mere action of proposing this bill. Shame on you all. We see you and what you are doing. You are an elected office, put in your position by the people and you are supposed to be for the people. Not out for yourself and your will. The will of the people! We spoke and voted YES on Amendment 3 that removes restrictions on abortions in the state of Missouri and allow us the right to make and carry out decisions about all matters relating to reproductive health care, including but not limited to prenatal care, childbirth, postpartum care, birth control, abortion care, miscarriage care and respectful birthing conditions. In case you were still concerned that I was not able to read and comprehend what I voted for as a college educated woman that works in healthcare, I assure I know exactly what I voted for. Just like the other 51% who voted YES on Amendment 3. We sent a message loud and clear that we believe it is a woman's right to choose. Continuing to propose bills that undermine the will of the majority of Missourians without giving us the option to vote on it, is deplorable and deceitful. You are not physicians and therefore are not educated enough to make or even weigh-in on medical decisions for me, my daughter and any other female. You believe abortion is a sin, then don't have one. Your beliefs and religious convictions are yours and I support your right to freedom of religion so please respect that my right of freedom of religion is not having the same religious convictions as you but do believe that when we go before our maker he and only HIM shall determine what is and what is not sin. You were not put on this earth to be the judge of what is moral or what is sin and then try to pass bills that will enforce punishment on anyone that disobeys you or goes against your beliefs. Please stop trying to force your religious beliefs on me, please stop playing God, please stop playing doctor and please stop acting like a slimy-ass politician trying to get a fast one over on your constituents. NO on HJR 73!!!

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

My name is Cindy Hedrick and I am a voter in Clay County. I submit this testimony in unequivocal and vehement opposition to House Joint Resolution 73 (HJR73). This resolution is a flagrant attempt to override the will of the people, erode constitutional rights, and reimpose harmful political control over the most personal and private medical decisions Missourians can make. It is not only an attack on reproductive freedom—it is an insult to democracy itself. Just months ago, more than 1.5 million Missourians voted to pass Amendment 3, restoring the constitutional right to reproductive freedom in this state. That vote was not narrow. It was not uncertain. It was decisive. Missouri voters—across party lines and from every corner of the state—said clearly: these decisions belong to individuals, not politicians. HJR73 is a direct attempt to undo that mandate. It is an act of political defiance against the expressed will of the people. It seeks to drag our state backwards by once again inviting the legislature to interfere in decisions that should be made between a patient and their doctor. It would open the door to re-criminalizing abortion, restricting access to contraception and IVF, and returning Missouri to an era of fear, surveillance, and second-class citizenship for anyone capable of becoming pregnant. The message behind this bill is clear: that some in this legislature believe they know better than Missouri voters—better than doctors, better than families—about what is best for someone else's body and life. I want to be very clear: HJR73 is not a neutral policy proposal. It is a weapon. It is part of a larger national effort to silence voters, erode bodily autonomy, and entrench minority rule through constitutional manipulation. And Missourians are watching. This committee should not be in the business of subverting democracy. It should not be in the business of forcing ideology into medical practice. And it absolutely should not be using the Missouri Constitution as a tool to strip away fundamental freedoms. I urge every member of this committee to stand on the side of liberty, privacy, and self-determination. Reject HJR73. Uphold the voice of the voters. Respect the rights of the people you were elected to represent. The government does not belong in our exam rooms. The voters have spoken. Leave our rights alone.

I strongly oppose this bill. It goes against what my fellow Missourians voted for on November 5, 2024 -- to allow abortion up to fetal viability. Thus, this bill flagrantly dismisses majority rule and imposes the will of a minority! Two of every three sexual assaults are not reported to police, and research reported last year in the Journal of Internal Medicine estimated that since the overturning of Roe v. Wade more than 65,500 women and girls in the 14 states with abortion bans in place became pregnant after being raped. These tragedies can be prevented. Please oppose this bill.

Hello, My name is Cynthia LaCroix. I live in Jefferson County, Representative Jason Smith. I AM HERE TO OPPOSE HJR 73 BECAUSE I AM ONE OF THE MORE THAN ONE MILLION, FIVE-HUNDRED AND THIRTY-EIGHT THOUSAND, SIX HUNDRED MISSOURIANS WHO VOTED YES ON AMENDMENT 3. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. THE MAJORITY OF MISSOURIANS VOTED TO KICK POLITICIANS OUT OF PERSONAL MEDICAL DECISION MAKING, LIKE ABORTION CARE, AND ALL SEXUAL AND REPRODUCTIVE CARE.IT IS YOUR JOB TO PROTECT AND FULFILL THE WILL OF THE PEOPLE. VOTE NO ON HJR 73.

I am asking you today to reject this bill. On November 5th, Missourians of ALL parties showed up to voice their desires and we voted for the Reproductive Freedom amendment. This bill flies in the face of your own constituents wants. Women are sexually assaulted every day in this state, and two of every three are never reported. Yet you ask women to live with the consequences their entire lives if the result of that assault is a pregnancy. I have sat with friends of mind after being assaulted, and women in these circumstances are often broken beyond belief. The passing of this bill is simply cruel to women to this and other similar situations.

Amendment 3 was voted in by the will of the people. It is not your right to subvert the will of the people. I do not have a personal story to add to those already given, other than I am a woman. And as a woman, I have seen the rights over our own bodies be taken away by this state and the country. I have read the horror stories of the suffering that women have gone through in order to have a medically advised abortion. Added to the physical pain these women went through and are still going through as I write this, the emotional toll that will last a lifetime due to this government, is heartbreaking to me. And that women and children have been denied abortions due to incest and rape is frankly sadistic. How dare you.

My name is Daniel Schramm. I am a resident of St. Louis County. I wish to express my strong opposition to HJR 73. I was one of the majority of Missouri voters who supported Amendment 3. We made reproductive rights a part of the Missouri Constitution. This proposed joint resolution would reimpose an abortion ban with only limited exception. Yet the language of the ballot proposal is misleading about what rights are being taken away. The legislators should not get a “do over” just because they lost on Amendment 3. The will of the voters must be respected.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I was in middle school when my school showed us a video about abortions to educate us on the dangers of abortions prior to a class trip to D.C. for a pro-life march. I was maybe 12 years old when I watched this video, and I immediately knew that abortions need to be legal so that qualified healthcare providers can make these decisions and perform these procedures in a safe and educated manner. This was obviously not the intended message, but I saw through the pro-life propaganda and I heard the woman's stories in these videos. Making abortions illegal is NOT going to stop abortions. It is NOT going to save lives. It's NOT going to ease the suffering and suppression of women. What it will do is cause more pain and suffering for women. Let the doctors and women make decisions on what is best for them- not some people in suits in a government building. Do you ask your accountant to replace the roof on your house? No, that's a ridiculous idea. So, don't ask a government official to decide what to do with women's healthcare. Additionally, government officials should not decide who should and who should not receive proper healthcare for any reason - including trans healthcare. Doctors are NOT out here performing life-altering surgery on minors. Jeez, I read some propaganda that said schools will be performing gender-affirming surgeries without parental consent! First off, my kids' schools won't give my kids a cough drop without first calling me. There is no way they are going to do surgery without my consent! Second, where are the schools going to find this funding?!?! Have you been in a public school recently? The public schools in my area are very old and are in need of many repairs, but there isn't the funding to fix everything. Also, who is going to perform these procedures? The teachers! ? We really do ask everything of these teachers... So, let's agree that surgeries are not and will not be done on minors at schools without parental consent. Hell, let's just agree that minors are not having elective gender-affirming surgeries. What treatment are you concerned about? Therapy? hormones? Neither of these are permanent. The risks of denying this care to a minor with gender dysphoria FAR outweighs the risks of hormone treatment. Again, this is a risk/benefit decision that NEEDS to be made by doctors and their patients - not people in suits sitting in a government building. I am very fortunate to know some trans minors, and I can honestly say they are some of the most insightful, caring, and all around amazing people. They don't want to have to fight for their rights. They just want to grow up and feel comfortable in the body they were born in. They just want people to listen to them and accept how they feel is true - because it is their truth, and no matter how much you fight them, you can't change the truth. You can make any and all gender-affirming and women's healthcare options illegal - but it won't make them go away. You will not change the truth of the matter. You will only make it more widely acceptable to hate and discriminate against them. Is that what government officials are supposed to do? Spread hate and discrimination? I don't recall the pledge of allegiance saying, "...with liberty and justice for those the current government body deems worthy." No, it's "... with liberty and justice for ALL." Everyone deserves to have access to the healthcare they need and that a medical professional

recommends. You have no right to deny that of your citizens. Thank you.

Chairperson and Members of the Committee, My name is Dany Lacio, and I am here to speak in firm opposition to HJR 73. Not just as a transgender Missourian, but as someone whose life has been directly impacted by the kind of decisions you're trying to make for others today. This resolution is dangerous. It's manipulative. And it's deeply out of line with both the will of Missouri voters and the values of our state constitution. Missourians voted for Amendment 3. They made their voices clear: people should have the right to make their own personal healthcare decisions—without government interference. But HJR 73 throws that vote in the trash. It pushes a personal religious agenda onto the rest of us, using the law to control our bodies, our choices, and our futures. But what's worse is what's being hidden in this resolution: the permanent removal of the sunset clause on gender-affirming care for minors. That sunset was a compromise. Four years to let families breathe, to make space for understanding, for real conversations. Stripping that away is not only dishonest—it's deadly. I say that with full awareness, because this is personal. I am a trans man. And I am also a survivor of stage 3 estrogen-positive breast cancer. Had I been able to access puberty blockers as a young person—if I had been supported and affirmed in who I am instead of denied care—I would have NEVER developed the cancer that nearly killed me. That is not hypothetical. That is my life. You may see this as a moral issue based on your religious beliefs, but I need you to understand: for people like me, and for the trans youth you're targeting, this is about life and death. Gender-affirming care saves lives. Denying it causes irreversible harm. This is not one-size-fits-all. No law, no blanket ban, no amendment to our constitution can account for the unique, personal medical needs of every individual. That's why we leave healthcare decisions to patients, families, and doctors—not politicians. Not pastors. And certainly not lawmakers using the Old Testament as legal justification in a secular government. Our constitution is supposed to protect freedom—not suppress it under the guise of religion. You were elected to serve ALL Missourians—not just those who believe like you do. Please—do not let fear, misinformation, or ideology cost people their lives. Oppose HJR 73. Respect the vote. Respect the compromise. And most importantly, respect our humanity. Thank you.

The voters of Missouri have already passed a constitutional amendment enshrining reproductive rights including abortion. There is no reason to ask voters to vote on a new constitutional amendment. Voters knew exactly what they were approving last time. This bill HJR 73 is superfluous and wasteful. Please spend your time working on activities that would actually benefit the lives of Missourians, not wasting voters time trying to undo something we've already decidedly approved.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

This bill should not be even up for consideration. Reproductive rights were on the ballot in November and the voters of Missouri voted in favor of reproductive rights being left to the woman who is actually involved and her doctor. Aside from the fact that politicians have no business "being in the doctor's office" and making medical decisions that they are not qualified to make due to not having medical training, it is appalling and an absolute slap in the face of Missouri voters for this bill to even be considered. By discussing this bill and even proposing it, you are flat out stating that you do not care what the voters say and that you will do whatever you want anyway. This has constantly been the case with Missouri legislators on not caring what voters decide and just doing whatever they want to do anyway. This also includes not only inferring that voters are dumb but also flat out calling them dumb by stating time and time again that "they did not know what they were voting for". This goes not only for the reproductive rights with Ammendment 3 that this bill is now trying to overrule but also with several other bills that are currently in the Missouri Congress. For once, actually do your jobs and accept what the voters decided and quit throwing a fit when an outcome does not go your way. You represent the people of Missouri and those same people told you what they want, LISTEN TO THEM!

I am in opposition to this bill. The voters in this state have already spoken on this issue. To reverse that decision is an outrageous assault on the will of Missourians who value the right to their own autonomy and privacy. I would ask those pushing to overturn Amendment 3 to "Read the room" April elections have proved that Missourians are fed up with bad actors who instigate political culture wars just to stoke division.

As a woman of 52, I have been both molested and talked in my life. Once was by a boyfriend ADMITTEDLY attempting to force a commitment by getting me pregnant. Regardless of these horrifying experiences, I do not believe that ANY woman should be forced to bring a child to tell if she is not physically, mentally, emotionally or financially able to raise that child. I also know from experience that parents who are not interested in bearing children are NOT going to be good or even adequate parents. These are the children most likely to grow up to be abusers or emotionally stunned themselves. Additionally, unless the "system" is going to provide financial help to mothers who can't afford a child but are forced to, then the "system" has become the abuser and the one neglecting the child. (Same for emotional support, parenting education, housing, and therapy for the additional violation of that person by forcing them to bear a child.)Deanne Row

Missourians voted YES on Amendment 3– you were elected to defend those rights.- Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. - This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering.

I strongly oppose HJR 73. This resolution would repeal Missourians' constitutional right to reproductive freedom and ban abortion across the state. Voters—not politicians—should decide what happens in their personal healthcare decisions. Reproductive rights must be protected, not taken away. Missouri voters have made it clear: we support reproductive freedom. I resent politicians thinking they know better than the voters. Do your jobs, listen to us instead of trying to override what we voted for.

Missourians voted for The Reproductive Freedom amendment on November 5, 2024 to allow abortion up to fetal viability. HJR73 would overturn it by dismissing majority rule to impose the will of a minority. This is yet another example of Republican overreach; there is no place for politics in personal/private decisions concerning sexual/reproductive health. And the addition of language in this bill relating to gender-affirming healthcare (GAHC) is an affront to those who identify as trans or gender non-conforming in our state. It sickens me how Republican lawmakers continue to target the trans community for its political gains. Trying to bait voters in this way in HJR73 decries the very foundation of our democracy. If members of this committee truly believe they are in Jefferson City to represent the people and not to line their pockets and further their political careers, then they each must VOTE NO on HJR73.

The people of Missouri spoke on November 5, 2024. They came out and voted in favor of Amendment 3. The people of Missouri support a woman's right to control her own body. This is not anyone's choice except the woman's. I am a mother through adoption and I support every woman's right to choose when and if she has a child. I am a grandmother because my daughter in law was able to terminate an unhealthy pregnancy and save her fertility. I believe in women and the right to choose.

I am strongly opposed to more legislation blocking women from accessing reproductive care. If you care about life so much, try caring about the lives of the women in need of abortion - which is medical care - for various reasons. Try caring about the lives of the unwanted babies forced to be born into horrible conditions and poverty. If you care about life so much, start acting like you do.

My name is Desiray Thompson and I'm from Fayette. We the people of Missouri voted yes on Amendment 3. Our voices and votes matter. Do not undermine your constituents. The women of Missouri want to feel safe in our state. I have only felt safe since amendment 3 passed. HJR 73 threatens that safety. Women deserve to have safe reproductive health care in their home state. We should not have to be concerned with fleeing the state to protect ourselves from retaliation for basic healthcare. Women are more than a womb. We are people that have rights to our bodily autonomy.

Stop going against the will of the voter by trying to enact this legislation. As a female citizen of Missouri, this attack on bodily autonomy is not what I want happening in the government. Spending energy on trying to reverse the will of the voters is not the best use of time or resources. Missourians have more pressing issues to address. Please vote no on this legislation.

The people of Missouri clearly passed an amendment allowing women to make their own reproductive decisions in most cases. The Missouri Legislature should NOT undo the will of the people. Women have died in the US because doctors were afraid to make the wrong decision on when a woman's life is in danger. Do not allow that to happen on your watch. Instead, pass legislation on reproductive education, free birth control and allowing women the autonomy over their own bodies. They know what is best for them and for their families!

I strongly oppose HJR 73. This resolution would repeal Missourians' constitutional right to reproductive freedom and ban abortion across the state. Voters—not politicians—should decide what happens in their personal healthcare decisions. Reproductive rights must be protected, not taken away. Reproductive health care is a personal decision, one that involves many variables. Women must have the right to determine what happens with their own bodies and the treatment they feel meets their needs and the needs of their families.

Over 1.5 million Missourians voted YES on Amendment 3— you were elected to defend those rights. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. This is not a partisan issue— Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering.

Health care for women is the issue, again. Pregnanvy can be high risk, bad things can happen. When it does, it take a toll on the mom mentally and physically. Its bad enough that a pregnancy ends, but compounded by lack of care and insinuations is inhumane.We shouldnt even be discussing this, the voters followed all the rules even though they were changed and made more difficult, abd WE PASSED ADMENDMENT 3. Now do what the constitution states you are suppoed to do.Move on to rural hospitals and nursing care. Move on to getting food trucks to Mo. Move on to more and better child care especially in tural areas.You are suppose to represent us, not fight us !!

I oppose HJR 73 because I am one of the one million, five hundred and thirty-eight thousand, six hundred Missourians who voted yes on amendment 3. This is not a partisan issue, as Republican, Democrats and Independents from across the state collected signatures, signed petitions and voted YES on Amendment 3 to establish Missourians right to abortion without politicians interfering. The majority voted to protect our rights to personal decision making in all areas of reproductive health care. I am at the hearing to support those who are sharing their stories, although I am very disappointed that they are being forced to recount their personal and often very painful experiences. As a small child, I watched my Mother carry two babies to full term, which were born dead. I also went with my parents out of state at age 11 so they could obtain an abortion because their birth control method failed. With that third child, the prognosis was grim. They were told it would likely not survive and if it did, it would suffer severe disability. These events were due to RH negative and RH positive parents. Today, there is a simple shot which can save these babies. However, there are still so many sad situations similar to this. Of course there are other terrible situations like rape, incest and child molestation. Healthcare decisions should always be left to the woman and her health care team. Pregnancy is a very risky business for women, and we can easily lose our lives, health or even our future ability to have children. It is so difficult for me to understand how anyone can feel that government has any business in our health care. Also, I find it beyond disgusting that Mothers actually get very little help from this government that is so focused on controlling their bodies.

I oppose this bill for several reasons. The first and foremost being most of my family has or carries the VonWillebrand gene and Disease which means our blood does not clot properly. Severe nosebleeds, heavy menstruation and prolonged bleeding after injury are symptoms. I hemorrhaged severely after my last pregnancy and almost died, which ultimately led to hysterectomy. Fast forward 20 years and I was terrified when my daughter who has the disease also was pregnant. Luckily we knew and she received platelets before her due date but MOST women do not know they have this disease until they are bleeding out in an emergency room. This bill puts pregnant womens lives in danger who may have medical emergencies requiring emergency D& C or Abortion. Abortion is healthcare and denying it to women should be felonious. Inaction to providing lifesaving service can cause DEATH. There are no laws governing a man's body and there should be none governing a woman's. The answer is simple. If abortion causes religious or moral conflict within you simply do not have one.

I am writing to share my opposition to HJR 73. Amendment 3 reflects the will of Missouri voters who chose to enshrine reproductive rights in our state constitution. HJR 73 not only disregards the will of Missouri voters but also endangers the health and safety of women across our state. We don't sit in the exam room with Representative Ed Lewis and his wife, and Missouri families deserve the same level of privacy and respect when making personal medical decisions.

Unwanted pregnancies create a hardship for poor people who can't even put food on the table or a roof over their heads for the family they already have And the EMBRYOS that come to turn are often subjected to neglect and abuse and starts another cycle of people who can't function. Don't talk to me about adoption. It costs more than most people can afford.

My name is Jessica Bergin and I am a licensed pharmacist in the state of MO. I am writing in opposition to HJR 73 - Lewis - REPRODUCTIVE HEALTH CARE. I voted for amendment 3 for MO women to gain access to abortion care. I knew exactly what I was voting for; I was not confused. As a health care provider I understand the need for abortion care in MO. Abortion is a personal choice that no woman takes lightly. It should not be up to our government to decide if a woman she be forced to carry a baby she did not intend to have. Abortion can also be life saving for women trying to become mothers. A portion can not only save a woman's life but also her reproductive organs to be able to have future children. This is a choice that should be up to each individual woman and her family - not up to MO politicians. Men - under no circumstance - have laws change for their bodily autonomy as they cross each state line. The fact that we have to fight for this is beyond absurd. If you feel abortion is a religious decision and you don't believe in it - then don't have one. But one person's beliefs should not be pushed upon anyone else. Please respect the people's decision and hold up amendment 3 that was passed last November. Women's rights matter. My daughters' rights matter. Do not let us down.

I am submitting the following in strong opposition to HJR 73. Amendment 3 was passed on 5 November 2024, a clear vote by citizens of MO. The bill handler repeatedly stated citizens didn't 'understand' the Amendment 3 ballot measure. He demeaned voters intelligence, an unprofessional assumption and this was clearly pointed out by a witness that voters are NOT stupid. Every elected Representative and Senator could have provided information on any ballot measure to their constituents, including full amendment and summary language. In fact, Senator Bernskoetter provided information about Amendment 7 to his voters on 18 October 2024. Blaming voters lack of intelligence is the height of hypocrisy for this bill handler and others who themselves failed to inform and educate constituents. That is part of your job to represent voters!! The Christian religion being used as a justification is belittling to persons of other religions, and those of no religion, I was insulted. I find clinging to and elevating one religion a non-Christian behavior. Including transgender text violates single subject and just shows this is a non-serious effort and its inclusion is to serve as 'ballot candy.' Shameful. Lastly, if this bill is really about women and unborn children, then it would have been more comprehensive to provide tax deductions, child support for the unmarried, food and other assistance from conception to ensure unborn children and their mothers are truly valued as the handler claimed. The fact none of these are included for women is terribly transparent; this HJR "IS" about women, it's about CONTROLLING women. Want efficiency? Stop these efforts. MO has spoken, women are free to have as many children as they want, or none at all. Maybe you all should mind your own business, focus more on ensuring your constituents have information about your work and state elections. Contrary to what you think, we are not stupid people.

Regarding the abortion restrictions in HJR 73, I strongly oppose them because: My body, my choice: This bill infringes on my fundamental right to make decisions about my own body and my healthcare. The government shouldn't dictate such personal and private choices. * The exceptions are too limited and unrealistic: The exceptions for rape and incest, while seemingly compassionate, are severely restricted. Twelve weeks might not be enough time for someone to even realize they're pregnant, let alone process the trauma and make such a difficult decision. Requiring a police report within 48 hours after experiencing such violence is an immense barrier and completely disregards the emotional and practical realities for survivors. * What about other difficult situations?: This bill offers no consideration for pregnancies involving severe fetal anomalies or other incredibly challenging personal circumstances. It lacks compassion and understanding for the complexities of these situations. * It interferes with my healthcare: These restrictions could negatively impact the doctor-patient relationship, making healthcare providers hesitant to offer the best possible care for fear of legal repercussions. * The voters already spoke: Missouri voters recently affirmed the right to reproductive freedom, and this bill seeks to undermine that clear expression of the people's will. Regarding the gender transition restrictions in HJR 73, I am deeply concerned because: * It ignores medical consensus: Established medical organizations recognize gender-affirming care as necessary and evidence-based. This bill disregards that expertise and interferes with appropriate medical treatment for transgender individuals. * It will harm transgender youth: Restricting access to crucial care like surgeries, hormones, or other treatments will have devastating consequences for the mental health and well-being of transgender children and adolescents. It could lead to increased rates of depression, anxiety, and tragically, suicide. * It undermines parental rights: As a parent, I believe I should have the right to make informed decisions about my child's healthcare in consultation with medical professionals, not have those decisions dictated by the government. * It's discriminatory: These restrictions single out transgender individuals and deny them the same healthcare options available to others. This is blatant discrimination. * It shows a lack of understanding: The language regarding gender transition suggests a fundamental misunderstanding of what it means to be transgender and the established standards of care. Overall, I believe HJR 73 represents unacceptable government overreach into deeply personal healthcare decisions. It will disproportionately harm vulnerable populations and seems driven by political ideology rather than genuine concern for the well-being of Missourians. I urge our representatives to reject this harmful bill.

My name is Edward W Houston. I live in Missouri District 15, the city of Wildwood. I am submitting my testimony IN OPPOSITION TO HJR 73. My reasons are as follows: Missouri has been a state founded on respect for the individual rights of ALL its citizens. Missourians value privacy and oppose political interference in private decision making. It's inconceivable that a state that supports the right of its private citizens to make their own personal decisions would try to dictate how these same people are allowed to think and act in such a deeply private decision about reproduction and family planning. Reproductive freedom should be treated as one of our inalienable rights for all Missourians. I understand that 1,538,659 Missourians voted YES on Amendment 3— you were elected to follow the will of your constituents and to defend those rights expressed by their vote. In my district alone, 60% voted YES on Amendment 3. This is not a partisan issue— Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. I, like the majority of those in the State of MO who voted to oppose Amendment 3, value privacy in terms of family, relationships and autonomy for our bodies. We must protect the reproductive rights and access to safe and legal abortions for all women and our future generations of women to come.

Hello! As someone who has terminated a pregnancy in the past, I'm here to say that if a majority of Missourians (who bothered to get out and VOTE) want pregnant people to have a safe and shameless terminations of their pregnancies, let's go ahead with what the majority wants and voted for. I'll bet there are a lot of voters who either had abortions themselves or knew of folks who've had abortions and thought, yes, let's enshrine this right into our constitution, because it sucks when you don't want to be pregnant and you also don't want to bankrupt yourself trying to hustle to other places to get an abortion or worse, die getting an abortion and leave a lot of people sad. Let's keep things the way they are, and, as Missourians voted and let pregnant folks decide what is best for their lives, sanity, and family.

Why I am in support of abortion is a personal experience. There is a question sometimes people ask lately and the question is what is your earliest memory? I can't answer this question. My earliest memory is seeing my feet fly up in front of my face as I was beat going up the stairs. I was thrown in a room to be punished. I wasn't even 18 months old. The reason I know this is because I went to the hospital at 18 months old with the double hernia from being beat up the stairs. I was born in 1971 to parents who didn't really want me and no they didn't give me up for adoption. The idea of having more children that had to be raised like me among horrors like this is worse. I used to think that maybe if my mom had conceived me two years later, I wouldn't have been born the unwanted child. I wouldn't have been born at all to suffer. It's taken 50 years to straighten out my mind. And if you think for a minute 50 years is worth it, you're wrong. 50 years of thinking I would've been better off if I've never been born at all. People don't give their child up for adoption when they don't want them they keep them. They do their best and when they don't do their best, we're raising broken children who grow up to be broken adults. And then we stand around, burying our hands helplessly without hope wondering why there are so many monsters in the world.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I am writing in opposition to HJR 73 -- REPRODUCTIVE HEALTH CARE as well as SJR 33 (2025). The voters of Missouri voted to enshrine reproductive rights into the Missouri Constitution in 2024 and this is a blatant attempt to overturn the desires of the majority. A majority, that I might add, voted overwhelmingly for Republicans, showing that this vote absolutely crossed party lines in this State. This is a healthcare privacy issue as well as being a medical and personal family planning decision that should be determined by a family and by physicians, not by legislators- especially legislators who are not fully trained and licensed OBGYN's. It is also a medical issue and metrics from Missouri and from other states with restrictive abortion rates showed a rise in maternal deaths and infant mortality. The Journal of American Medicine just published a study showing a 28% rise in maternal mortality in the US post-abortion bans. Texas, for example, saw 56% rise in maternal mortality from the years 2019 to 2022 compared to just an 11% rise in maternal mortality nationwide in the same time period aligning to their restrictive abortion laws. Infant mortality in Missouri went up 16% between 2021 and 2022, according to federal data released in 2023 - a metric that had been declining for over 20 years and suddenly, with our restrictive abortion laws, swung sharply upward. Finally- one other Healthcare issue we have had to contend with- Missouri saw a 25% drop in OB-GYN residency applicants. We don't need to be a healthcare desert for pregnant women in our state because of abortion bans and while we pretend in this bill that "a woman's right to reproductive freedom includes the right to health care in cases of miscarriages, ectopic pregnancies, and other medical emergencies" what we've seen in the with our last abortion ban is that there is a significant lag between treatment of high risk pregnancies as physicians and hospitals wait until it becomes an absolute emergency leading to some of this alarming rise in maternal deaths- 75% of which were entirely preventable. HJR would limit abortions for Rape or Incest to 12 weeks gestational age. You may not be aware, but in NIH studies on children who are raped, the discovery of pregnancy was an average of 15 weeks gestational age for rape and 18 weeks gestational age for incest. 12 weeks isn't nearly enough. Additionally, I would remind Missouri Legislators that many rapes (up to 2/3rds) are not reported currently because of the lack of police interest in pursuing charges, how the majority of law enforcement personnel re-victimize victims of rape, and how law enforcement (as voiced by your colleague, Barry Hovis), views rape by a boyfriend or a date as "consensual rape" vs it being what it is- a crime of opportunity. While Barry said he made a "mistake", it was more of a Freudian slip as this is how the crime of rape is treated every day by police. For victims of the "date rape" drug Rohypnol- the drug can cause amnesia which in some cases, women wouldn't even realized they were raped, the drug can cause them to forget they were raped, and consequently they wouldn't recognize they were pregnant until well after 12 weeks. And they may not even know who to report as they can't remember the circumstances of the rape. If Missouri genuinely wants to reduce unwanted pregnancies-then the following are proven to be extremely successful: provide improved access to free, medically accurate family planning education

and pregnancy prevention while also providing healthcare support, tax breaks, family leave and abundant high-quality child care options to incentivize continuing with a pregnancy. If you want to reduce rape- provide robust education around consent, improve police training and response as well as prosecution in the case of reported rapes. Additionally, don't pretend to be "pro-life" when you do everything possible to put forward legislation that makes Missouri MORE deadly for pregnant women. 25% of pregnancy related deaths were due to gun violence. In case you missed the metric, pregnancy is the most perilous time for many women both from a healthcare standpoint, but also from a domestic violence standpoint, so perhaps you can listen to experts on domestic violence prevention as well as providing the resources needed for women to escape abusive partners. Studies cited here:https://jamanetwork.com/journals/jamanetworkopen/fullarticle/2832320?guestAccessKey=601c54f6-1301-480b-a5cc-38ece562efb7&utm_source=for_the_media&utm_medium=referral&utm_campaign=ftm_links&utm_content=tfi&utm_term=040925https://jamanetwork.com/journals/jamapediatrics/fullarticle/2819785?guestAccessKey=7d568a16-aea5-41e6-bb65-f9c586b2ecb0&utm_source=For_The_Media&utm_medium=referral&utm_campaign=ftm_links&utm_content=tfi&utm_term=062424<https://www.stlpr.org/health-science-environment/2023-11-10/missouri-one-of-only-four-states-with-a-significant-rise-in-infant-deaths><https://missouriindependent.com/2024/06/04/missouri-ob-gyn-residents-maternal-health-abortion/><https://health.mo.gov/data/pamr/pdf/2019-annual-report.pdf><https://pmc.ncbi.nlm.nih.gov/articles/PMC6722962/><https://rainn.org/statistics/criminal-justice-system><https://publichealth.jhu.edu/2025/two-new-studies-provide-broadest-evidence-to-date-of-unequal-impacts-of-abortion-bans><https://www.drugs.com/illicit/rohypnol.html><https://www.msn.com/en-us/news/us/kansas-city-organization-calls-domestic-violence-a-citywide-community-health-crisis/ar-AA1CuxYZ><https://www.americanprogress.org/article/the-right-way-to-reduce-abortion/>

Submitted with the following comment: I am in opposition to this bill. The voters in this state have already spoken on this issue. To reverse that decision is an outrageous assault on the will of Missourians who value the right to their own autonomy and privacy. I would ask those pushing to overturn Amendment 3 to "Read the room" April elections have proved that Missourians are fed up with bad actors who instigate political culture wars just to stoke division.

As a Missourian, and as a woman who has availed myself of my right to safe and legal abortion, I oppose this action of the Missouri Legislature. The people of Missouri are well aware that making abortion illegal does not stop abortion, and we DO NOT want to become a state like Texas, who treats women worse than breeding cattle (which experience completely legal abortions at the hands of trained veterinarians daily). We, the people of Missouri understand abortion is a complex issue, and that no one is as capable as the women involved in that decision to make her own best choice. Women have a right to refuse, or to give, consent to the use of their body by a third party, and no matter what laws are passed, we will exercise that right. The attempt by the Legislature to contravene the will of Missouri voters is both cowardly and malicious. It is motivated by a desire to punish women, not to improve the problems which create a need for abortion in the first place. It is shameful that our elected Representatives would rather relegislate this issue than focus on improving the poverty gap, ensuring housing, food, and education for all people, and raising the income and opportunity of all Missourians. The avoidance of Missouri's elected officials to address problems in a truly pro-life way shows how shallow their collective commitment to Life really is. My ability to obtain an abortion is what allowed me to complete my education, obtain employment that kept me above the poverty line, and to raise 2 children once I was financially stable. This is a right every woman in Missouri has--whether you accept that fact or not.

This is an attempt to overrule the voters' decision to support access to abortion in Missouri. This is also not at all based on evidence based care for victims of sexual violence. Requiring a report to law enforcement is harmful to survivors and should not at all be related to their access to healthcare. Including abortion.

Overturning a constitutional amendment that was approved by a majority of Missouri voters is beyond reprehensible. It is a direct violation of the oath taken by every member of the state legislature, because it subverts the will of the people of Missouri. The very same people that have entrusted the members of your chamber to be their voices and serve their interests. The simple majority rule protects the many from the extreme few who wish to force everyone to live by their dictates, versus allowing individuals the freedom to make the best choice for themselves. We voted, honor our vote. Honor our choices.

I strongly oppose HJR 73. This resolution would repeal Missourians' constitutional right to reproductive freedom and ban abortion across the state. Voters—not politicians—should decide what happens in their personal healthcare decisions because WE TRUST WOMEN. Reproductive rights must be protected, not taken away. Missouri knew EXACTLY what we were voting for when we passed Amendment 3. Missouri voters have made it clear: we support reproductive freedom. We cannot let extremist politicians erase our rights from the constitution.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Good Evening; This past November, 1,538,659 million Missouri voters spoke loud and clear, passing Amendment 3 to end the abortion ban and enshrine the Right to Reproductive Freedom into our state constitution — allowing full control of our own bodies, lives, and futures. Thanks to Missourians, abortion care is again available in Missouri for the first time since June 24, 2022. It's important that we tell the truth about HJR 73: It is an abortion ban.. Passing this bill would overturn the will of the majority of Missourians who just voted for reproductive freedom. Politicians know that Missouri voters do not want politicians interfering in personal, private decisions about pregnancy, and so they have included sham "exceptions" in the measure. The vague medical emergency exception puts pregnant patients at risk, forcing doctors to check with lawyers before they can provide the medically appropriate care their patients need. A provider is allowing me to share their personal story regarding the dangers of delayed care: Abortion bans are dangerous, even for patients not needing abortions. The bans are designed to create fear and confusion among both patients and health care practitioners. Last year, we took care of a patient from a banned state with a fetal demise--someone that could and should have been taken care of in a local hospital. Instead, due to the deliberate confusion created by abortion bans, she could not find a local doctor to take care of her and her care was delayed by weeks until she eventually made it to us in Illinois. Her procedure was completed and she suffered a life-threatening hemorrhage, transfer to a hospital, major surgery, multiple transfusions of blood products and a prolonged ICU stay, all of which could have been avoided if her doctors could have provided the care she needed when she needed it. Abortion bans harmed this patient. This measure's abortion ban also has so-called "exceptions" for survivors of rape and incest. These "exceptions" ignore that sexual violence is one of the most underreported crimes in America. Many times, survivors do not report because of prior trauma, mistrust of law enforcement or, worst of all, because they live in fear of retaliation from their attacker. Sham rape and incest "exceptions" to abortion bans are disingenuous and hollow. They are designed to be rare and to limit access to abortion care, despite the high rates of sexual and domestic violence in our state. They do not make abortion any more accessible for survivors. Instead, their real purpose is to make an abortion ban, and the politicians pushing it, look more reasonable. Missourians agree that politicians have no business interfering with our private, personal, medical decisions, which is why Missourians voted to end the abortion ban. Missourians deserve elected officials who uphold the will of the people and our state constitution. HJR 73 shamelessly defies the will of the people and imposes another abortion ban. I strongly urge the committee to vote no to HJR 73.

My name is Emily Brinkmann, and I am from Fenton, MO. Over 1.5 million Missourians voted YES on Amendment 3– you were elected to defend those rights and our choices as voters, even if you don't agree with them. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. And the voters proved that in the November election. Overturning the will of the voters is a miscarriage of democratic values. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. Please vote NO on HJR 73.

I am writing in opposition to HJR 73. Women should have the same access as men to healthcare without interference from the state legislature. What is especially egregious in this bill is the requirement women to submit third party verification of their sexual assault in order to obtain healthcare. 2 out of 3 rapes go unreported to police. In case you wonder why that is, I suggest you ask Rep Chad Perkins who was accused of soliciting sexual favors from an intoxicated 19 y/o while he was on duty as a law enforcement officer.

Abortion is part of health care. There are many instances where an abortion procedure is vital health care for a woman and only the woman and her medical professional team should be deciding whether or not an abortion procedure should be part of her treatment plan. Also the people of Missouri voted IN FAVOR OF amendment 3 and we are a democracy so even if you don't agree with it, you need to support the result of the vote.

My name is Emily Stoinski, and I am a registered Missouri voter. I am writing today with my **STRONG** opposition to HJR 73. As a former domestic violence advocate, I worked with many survivors who experienced sexual assault from their partner. Because of the relationship to this individual, they would often not label it as assault or rape, instead calling it “uncomfortable” or not even talking about it at all. Because I know that most sexual assault goes unreported, much less identified as assault, I know these “exceptions” do not work. This means that this legislation will prevent survivors of rape, incest, and assault from gaining care and continue to be traumatized. I know that many representatives care about sexual assault survivors in our state, and a vote against this bill will continue to support survivors of sexual assault on their healing journey.

Missouri voters have spoken. We voted to keep abortion legal in Missouri. A MAJORITY of Missourians supported Amendment 3 and the right to abortion. It's your job to respect the will of the voters– not retaliate against them for votes you disagree with. SB 22 is nothing but a political power-grab to eliminate democratic checks and balances and allow politicians to mislead voters with politicized, biased information. The current process allows a voter to challenge ballot summary language if they think politicians are attempting to mislead the public about a future ballot measure. Both Democratic and Republican officials have had ballot summary language rewritten through litigation. I implore you to uphold the will of Missouri voters.

I stand in opposition of this resolution, and I urge you to vote against HJR 73. My first question to you is: do you plan to force me to have my rapist's baby? This is not an abstract question and this resolution is not a philosophical discussion. I was raped, repeatedly, at the age of 17. If not for birth control, I likely would have become pregnant. There are many reasons why a woman would choose to have a child and many reasons why she would choose not to. And none of these reasons should have to be justified to a political body. These deeply personal actions and decisions should only be made by the ones who are most affected by them. My second question is: how do you plan to stop a 17 year old victim of rape from having an abortion? Do you plan to chain them to the wall of a hospital, bloated and bleeding, until birth or miscarriage? Trying to enforce an abortion ban, will not stop it from occurring. I would have chosen to be beaten with baseball bats until miscarriage. Than to be forced to carry such an embryo to term- which would irreparably change my body the same way rape irreparably changed my psyche. My third question is: who will then raise that child? The child I would have undoubtedly hated and despised for the sins of their father? If you truly are pro-life, why do we not care for the unwanted children of this country? Why are you not spending your efforts trying to provide for children in foster care? Or are the children of this country truly cannon-fodder and the women truly birthing machines? This abortion ban is disgusting. Perhaps there is some provision in cases of rape- make no mistake, if this resolution passes, year after year it will become more stringent, more enforceable, more punishing. Please. For my sake, for the sake of my friends and their daughters, vote against this resolution.

Stop trying to overturn the will of the people! If you believe in the idea of democracy in anyway you will oppose this bill. It's absurd the lengths the republican politicians will go to to invalidate the democratic process. Have some respect for your constituents and the rule of law. I volunteer to escort patients at an abortion clinic and any decent person would be horrified at the heinous abuse anti-abortion protestors scream at patients at one of their most vulnerable moments. Bills like this give those vile words power and embolden the people who harass, intimidate, and shame people just trying to access healthcare.

I am a woman, mother, nurse, and informed voter. Missouri Republicans are attempting to silence the voices of their constituents by introducing this bill hoping to reverse THE PEOPLE's DECISION. Missouri voters support women's right to reproductive freedom and healthcare. It's your JOB as elected officials to accept the results. Stop trying to control women and strip them of bodily autonomy. Since Republicans are so pro-life, why don't you all introduce legislation that supports newborns and mothers during the postpartum period: offer access to healthcare (which includes mental health), childcare, and early childhood interventions?

There are absolutely no laws telling men what they can bf can't do with their own bodies. Without access to these procedures there will be that many more children being neglected or abandoned entirely and the systems that are already underserved like foster care will be flooded. We already voted on this issue and that should be the end of the story.

Esteemed Members of the Committee,I write to express my strong opposition to the proposed bill seeking to ban most abortions in Missouri. This legislation directly contravenes the will of Missouri voters, who, in November 2024, approved Amendment 3, thereby enshrining the right to reproductive freedom in our state constitution. Amendment 3 was a clear mandate from the electorate, reflecting a commitment to uphold individual autonomy in reproductive health decisions. The current bill undermines this democratic decision and disrespects the expressed will of the people. Furthermore, the proposed bill threatens to reintroduce legal uncertainties and potential judicial challenges, diverting attention and resources from pressing issues that demand our focus. I urge you to honor the democratic process and the decision made by Missouri voters by opposing this bill. Upholding the constitutional rights affirmed by Amendment 3 is imperative to maintain the integrity of our state's legislative process and the trust of its citizens.Thank you for your attention.Respectfully,Erika Drake

As a physician in Missouri, protecting women's (and children's) right to healthcare is paramount. Restricting access will not prevent abortions from happening but only endanger women's lives. Doctors will be afraid to provide care in any instance, and women will suffer and die. The time restrictions on cases of rape or incest are ridiculous; a woman may not realize she is pregnant before 12 weeks. And, requiring a woman to report such a thing to law enforcement in order to receive the desired/necessary care is heinous and not in the best interest of a victim. Furthermore, the government has no business inserting itself into my private business that is between myself and my physician. My right to reproductive freedom includes abortion access, birth control, etc. I and Missouri already voted on this issue; I can't believe the house is wasting taxpayer money and time with this. Please listen to what the voters already said, do your jobs, and focus on actually doing something that will help Missourians rather than hurt them.

1,538,659 Missourians voted YES on Amendment 3— you were elected to defend those rights.- Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. - This is not a partisan issue— Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering.-passing Amendment three made me proud of Missouri and that together we care about health and safety and the privacy of a doctor patient relationship. I feel safer in Missouri with it as the law of the land.

Hello, My name is Erin Rigdon and I am a mental health counselor working in West Plains, MO as an LPC. I work with many members who will be impacted by HJR 73 including women whose lives have been impacted by sexual assault and members of the LGBTQ+ community. Speaking from a mental health perspective, I speak in opposition to the HJR 73 which will increase the risk of suicide in women, children, and members of the LGBTQ+ community. The right to abortion services and bodily autonomy is sacred for someone who is a victim of sexual assault and also potentially carrying a pregnancy as a result of rape or incest and it is not uncommon for individuals to need varying timeframes to process those intense emotions and thoughts which would be stripped away as a result of HJR 73. As a result of that, I fully believe you will see more drastic measures included increases in suicide as a direction connection to HJR 73. Furthermore regarding the provisions on gender affirming care, blocking access to gender-affirming care has been shown by research time and time again as increasing the risk of suicidality in children and adults of the LGTBQ+ community. Lives will be on your hands as a result of passing HJR 73 and I urge you to vote in opposition!As a citizen HJR 73 is an overstep of the government on the lives of the populace when voters spoke during the election cycle in favor of protecting women's reproductive healthcare. What authority do you derive to override the will of the people in whom you are elected to serve?!

Roe v Wade was overturned to allow each state to decide whether or not to legalize abortion. In 2024 both Republican and Democrat citizens of MO overwhelmingly voted in support of Amendment 3. HJR 73 undermines the will of the people. Politicians should not be allowed to overturn this or anything else the voters have decided. It does not matter if a politician does not agree with the outcome personally or if it goes against their overall party's beliefs. Politicians work for the people of their state and should honor their vote.

I graduated from high school in 1973, the same year Roe v. Wade became law. The adults in my life encouraged me to take action, which I did. I wrote letters to elected officials protesting the Supreme Court decision. Several years later my view changed. Why? I knew several women who had abortions. I realized that it was not my place to question the deeply personal and difficult decision they had made in consultation with their doctor. The government has no business interfering with the medical decision process between someone and their doctor. Please respect the will of the people. Oppose HJR 73

I can't believe legislators are trying to pass a bill under our noses to ban abortion access. We literally just voted to have access to abortion in Missouri. It is very disrespectful for all of these "men" who will never I repeat never have to be in the shoes of a woman choosing to have an abortion or not, to decide that maybe we misunderstood what we were voting for or that women aren't equipped enough to deal with their own medical decisions. If this was some type of way to control a man's body or a young boy's body oh God forbid! We would have burning in the streets and rioting. Stay Away from our right to choose. We have made it abundantly clear that we support abortion access in Missouri. So step down off your pedestals and support your voters like you're there to do. You're not there to play God. You're not there to decide what women , Republicans and Democrats alike, really meant when they voted to enshrine abortion access. You're not there to make sure that no Missourian ever has an abortion again. You Are there to support your voters. Now act like it. Squash this bill. The majority have already spoken. Listen to them.

Missouri voters spoke loud and clear when they passed Amendment 3. HJR 73 seeks to overturn the will of the people. It also seems to redefine "reproductive health care" by constitutionally banning abortion. The spectrum of reproductive and sexual healthcare is already well understood and practiced. This bill oversteps the Missouri Legislature's authority by imposing their definition of reproductive healthcare on medical practice, disregarding widely accepted clinical standards and evidence-based medicine, as well as disregarding the clearly expressed will of Missourians. Please do not go forward with this action/

As a US citizen and life-long resident of Missouri, who believes in the rule/will of the people, I am appalled that the current legislative is attempting to impose their minority will when the People have spoken. Women's healthcare should not be disenfranchised or infringed upon. I urge you to reject HJR 73 and oppose legislation that similarly overturns the will of Missourians.

HJR 73 is the latest attempt by the legislature to undermine our vote (52% voted in favor) to end the abortion ban and to enshrine our reproductive rights & freedoms. What legislators have forgotten is that they, including you, work for "We the people" - Missouri citizens know what they want. You do not have the right to override our votes! Furthermore, this resolution incorporates the lie that you and other Republicans spewed last year about transgender care. Do what is right and respect the decision of the citizens of Missouri!

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

This bill is an attempt to circumvent the will of Missouri voters. Last year, over 50 % of Missouri voters approved Amendment 3, allowing for abortion through the time of fetal viability. This bill would overturn Amendment 3 by dismissing majority rule and imposes the will of a minority. Abortion is health care and saves the lives of women and allows them to make their own choices about their reproductive health in consultation with their medical providers. I oppose this bill in the strongest terms possible.

Missouri voters spoke loud and clear when they passed Amendment 3. HJR 73 seeks to overturn the will of the people. It also seems to redefine "reproductive health care" by constitutionally banning abortion. The spectrum of reproductive and sexual healthcare is already well understood and practiced. This bill oversteps the Missouri Legislature's authority by imposing their definition of reproductive healthcare on medical practice, disregarding widely accepted clinical standards and evidence-based medicine, as well as disregarding the clearly expressed will of Missourians

I oppose this action by the Missouri House of Representatives. The Missouri people made it VERY clear last October that we want access to safe, legal abortions in the state. If this was almost any other issue, or an issue that supported the Republican base, this issue would not be reconsidered and would not question the voters intent. As a mom of 2 young children with a genetic predisposition to miscarriages, I am fortunate enough to have resources to access safe, legal abortions, regardless of where I have to go to have them done. However, MANY women in Missouri are not so lucky and will absolutely still have abortions, they will simply not have SAFE abortions. This is discrimination plain and simple against anyone except the far right. Even when citing "religious" justification for illegal abortions in Missouri, two things are very clear. One, that the only religion anyone in the House is concerned with is extremely conservative Christianity. As someone raised in a conservative Catholic family, who now practices reform Judaism, I can tell you that abortions are NOT against my religious morals, as is the case with SO many in the state. Second, this country is not founded on a theocracy, there is SUPPOSED to be a separation of church and state, which has become indistinguishable in the current climate. It's quite frankly embarrassing as a life long Missourian that after Amendment 3 passed, and the lawsuit against it failed, the House is still not honoring the will of the people. If the state offered ANY support to parents after these children were born, maybe this amendment wouldn't have passed in the first place? If the state didn't already have an overflow of children without homes in foster care, maybe there would be more local capacity to adopt these children. Also, it is most definitely not the courts place to restrict me, or any other woman in the State of Missouri from HEALTHCARE plain and simple, that could save my life. It goes against The Hippocratic Oath and breaches HIPPA laws. It is disgusting that this issue is getting so much attention while so many other issues in our state and country are falling apart at the seams, all in the name of political party and control over the welfare of the citizens.

My written testimony:I'm Gina Meyer from House District 30. Please respect the will of the people. We want Amendment 3. We do not want your HJR 73 version of an abortion ban with cruel and medically unnecessary reporting requirements that deny access to 2/3 of rape victims, and everyone after 12 weeks gestation - which is only halfway to viability. The majority has voted, and in America, the majority rules. If you want us to recognize your win on Election Day, respect ours.The people have spoken, and our voice is strong. Adding your completely unrelated language about gender transition surgeries, hormones and drugs is only desperate, insulting, and weak.We are not going back, and we're not leaving anyone behindThank you.

My name is Glenda Mae Gish. I am a resident and registered voter in Lake St. Louis, St Charles county. 1,538,659 Missourians voted YES on Amendment 3– you were elected to defend those rights. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. As a resident in Missouri, I expect my vote and my rights to be protected by those elected to represent the people.

I strongly oppose HJR 73. This resolution would repeal Missourians' constitutional right to reproductive freedom. Missouri voters (individual members of the public) have decided that they do not want the legislature intruding into their personal healthcare decisions. They were very clear about that when Amendment 3 passed; they were not misled. And, members of the legislature are NOT more knowledgeable on this topic. Individual reproductive rights must be protected.?? Missouri voters have made it clear: we support reproductive freedom. We cannot let extremist politicians erase our rights from the constitution.

Dear Members of the Committee, My name is Grace Barnes and I live in Christian County. I strongly oppose HJR 73 as both a Christian and a woman who has worked to improve my own education on reproductive rights. Amendment 3 was passed through a fair, democratic election and was supported by 1.5 million voters. Personal medical decisions do not belong to the government, but the individual who has to live with the reality of their personal situation. Your responsibility is to uphold the will of the people, and we have made it very clear that we do not want an abortion ban. If you want to limit unwanted pregnancies, please consider bills that will improve access to birth control. Missourians are also in desperate need of support for existing children, so if you are looking to save lives please focus your efforts on helping our already-born children instead. I urge you to vote no on HJR 73 and stand with the majority of Missourians who believe in protecting our rights and our voices. Sincerely, Grace Barnes
Christian County, Missouri

WE VOTED FOR HEALTHCARE- do your job and listen to the people's VOTE. By continuing these oppressive, destructive and inhumane policies, you solidify your place in history with those forgotten because you tried to silence what is already is here. And has been here since the beginning. Abortion is healthcare. Focus on something our state actually needs, like housing, education, or providing more resources for mental health so your constituents stop killing themselves. If you actually cared about protecting women you'd provide more services, sciences, and funding to understanding the leading causes of maternal death: mental health, substance abuse and suicide. Our state has historically state at D-F on our grade scale with March of Dimes.

I am a MO voter from Ferguson. As someone who really wanted children and had very difficult and high risk pregnancies, I desperately wanted the option to make a decision to terminate my pregnancies. I remember being in the hospital desperately sick with an unknown virus and telling my mom that if it came to the decision between my very wanted pregnancy and me, I would choose me. I so wanted to be there for my 3 year old boys. Having that option was extremely important to me. We overwhelmingly voted to have access to this choice in MO. Mothers, fathers, young and old, voted for this right. It is immoral and undemocratic to attempt to undo this democratically elected and wanted decision. Doing so is already costing families and women lifesaving medical care. If you really care about families, you will uphold this majority supported right and vote against this bill.

Missouri voters have spoken on this issue loud and clear in the past. Amendment 3 passed by a majority of Missouri voters. It is our elected representatives' mission to effect the laws Missourians approve. This is not a partisan issue. The very purpose of government is to enact the will of the people. The Missouri House must act accordingly.

Once again, Missouri politicians elected, ostensibly, to represent and further the aims of their constituents are subverting the will of the people. A majority of Missourians voted for Amendment 3 and their voices - and votes - deserve to be heard. There are a great many issues actually impacting Missourians that our politicians could certainly choose to spend their time and energy on instead. Abortion is healthcare. Hiding behind incorrect terminology, propaganda, and religious dogma doesn't change the facts. Legal and available abortions saves women's lives. Every woman you see walking down the street has an abortion story of one kind or another - her own, her sister's, a friend's. Every one of those women is harmed by the rhetoric surrounding abortion in this state and the repeated attempts to further restrict what we rightfully earned on the November ballot. This time, let's allow the scientific data and the will of the majority of Missourians to stand without interference from our own government.

PLEASE RESPECT YOUR CONSTITUENTS ACTIONS IN VOTING TO PASS AMENDMENT 3! 1,538,659
Missourians voted YES on Amendment 3– you were elected to defend those rights.WE ARE TIRED OF
CONSTANTLY REPEATING OURSELVES, Missourians value privacy and oppose political interference in
private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri
value. WOMEN DESERVE FULL RIGHTS OVER THEIR BODIES, THE RIGHT TO MAKE DECISIONS WITH
THEIR HEALTHCARE PROVIDERS! This is not a partisan issue– Republicans, Democrats, and
Independents from across the state collected signatures, signed the petition, and voted YES on
Amendment 3 to establish Missourians' right to abortion, without politicians interfering.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I am in stark opposition to HJR 73. First and foremost, we still live in a democracy that allows for creation of and voting on ballot measures to provide voice to the majority of people on topics that have become politicized to the point of no return. The voters of Missouri voted in November to protect the right to an abortion, despite voting republican for majority of elected officials. This is proof that majority of citizens in this state (and country!) regardless of political party are supportive of abortion rights. (just as most reputable and rigorously adherent data collection surveys have also indicated). This right was voted into the Constitution, despite the presence of extremely biased and fraudulent claims about the extent of the measure's connection to legalizing transgender health care (which was all over billboards, tv etc) and tried to use fear mongering to get people to vote against the measure. Despite all of that -the politicized nature of abortion, republican voting state, fear mongering tactics all over tv, billboards, outside polling places to get people to oppose the measure- IT STILL PASSED WITH MAJORITY. HJR 73 is quite literally giving power to the few representatives against the power of the people who voted to enshrine this right into constitution. There is no way to argue that's not what this bill is doing. If you believe in democracy, there is no way for you to support this bill. Secondly, I personally know someone impacted by the prior abortion ban. A minor was raped, kept silent due to shame and fear (from the perpetrator who was known to the family). That minor had no legal option but to carry to term. They missed a significant amount of schooling, fell into a deep depression that is still impacting them today, and likely changed the course of their life in ways we will never be able to know. Even though HJR73 has a carve out for rape and incest, I have seen personally that 12 weeks is unfortunately not going to catch a lot of rape against minors where power and shame are used for CHILDREN to not speak up because they are scared, they fear they did something bad and will face repercussions, or they don't think they'll be believed - all of which happen every day, so I don't blame the child for reacting in this way. An abortion ban does not protect children, it puts them at more risk and I've seen it firsthand. Thirdly, as someone going through my first pregnancy right at this moment (36 weeks along) I know how disruptive and potentially dangerous childbearing is. I had a friend recently almost die due to a hard to diagnose condition that impacted her pregnancy. To force someone, particularly a CHILD, to carry a fetus that was unwanted, unplanned, and often created through manipulation, uneducation, lack of access to reproductive care (eg birth control), or at worst trauma - is changing the course of their life. As someone who worked in a school based therapy setting and dealt with many foster youth, I see the MASSIVE hole in our society regarding caring for children in the foster care program. The rates of violence, trauma, substance addiction (to name a few) among foster youth are an astounding amount higher than their peers. We DO NOT HAVE A SYSTEM THAT PROTECTS CHILDREN. So if we are forcing impoverished families to carry a fetus then baby to term, we are creating more harm for all involved, parent and baby. My first point alone, should be straight forward enough to oppose this bill. But the second two reasons are why I will now (and until our

country actually prioritizes children safety and protection in funding and system overhaul) I will forever support abortion rights.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

My name is Hannah and I am a 29 year old married woman who recently moved to Missouri. My husband and I have begun talking about our desire to grow our family and to try to have a child. When we moved from New York last year, one of my biggest concerns about the move was the fact that reproductive rights in MO are not as guaranteed as they are in NY. When the state voted to protect abortion rights this fall, it felt like a weight was lifted from my shoulders. If I am able to get pregnant and there are life-threatening complications for me, it is essential that I can get the healthcare I need without hesitation. The election made me feel more comfortable living in this state and trying to get pregnant. But now you are trying to change that? Why? I am so confused – the people of Missouri voted to make abortion legal. Also, I am so scared – what if a doctor has to make a choice between saving my life and keeping their medical license? Even with exceptions for rape, incest, or life of the mother, there is room for interpretation that threatens the lives of people with a uterus. How do you know a married woman who gets pregnant wasn't raped by her husband? Who determines how bad a condition needs to be in order to be life threatening? Neither of these questions have clear answers, which is why it's imperative that all abortion is legal. It is essential that individuals, in partnership with their doctors, are allowed make the best medical choices for themselves without government intervention. I urge you to please oppose HJR 73 to save my life and allow me to continue living in Missouri.

My name is Hannah Elsaka and I'm writing this in the capitol after being denied the right to use my freedom of speech with a committee. I am 14 years old, my best friend is also 14 years old and he got his girlfriend pregnant. It was not rape and they both wanted to have sexual intercourse. She would like to have the access to abortion she will not have the financial stability, the mental capacity, and the life she should have. She deserves to live without the regret of giving a baby to foster care. Woman will get abortions no matter what, but they will do it illegally, dangerously, and it most times ends up with both the mother and the child dead. My grandmother has been fighting for this right 4 times longer than I have been alive. In all I ask you to understand how much harm your putting my friends and family in and , do NOT take control of my body. One last thing I've been told by grown men they wanted to "breed" me, will you let adult men breed me as if I'm an animal?

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I strongly oppose the proposed abortion ban in Missouri, as it would have devastating consequences for women's health, the welfare of children, and the fundamental rights of Missouri women. Missouri already has one of the highest maternal mortality rates in the nation, with over 40 women dying for every 100,000 live births. Denying women access to abortion will only increase these risks. Many women in Missouri face serious health complications during pregnancy, and an abortion may be their only option for survival. Forcing women to carry high-risk pregnancies puts their lives in jeopardy, especially for women of color who face disproportionate health risks. Debating abortion based on the sanctity of an unborn life disregards the well-being of those already born and suffering without a home. Missouri's foster care system is already overwhelmed, with over 13,000 children in care and 2,500 children waiting to be adopted. Banning abortion will only increase the number of children who end up in foster care, worsening an already strained system and prolonging the wait for families seeking to adopt. This ban also strips away a woman's fundamental right to make decisions about her own body. Missouri women deserve the autonomy to choose what is best for their health, their future, and their families. Forcing women to continue pregnancies against their will is an unjust infringement on their rights and freedom.

This bill does not help individuals and further damages the reputation of Missouri. I am a proud trans woman who medically transitioned 8 years ago. I work at a firm, support my community, and give back. Having accessible access to healthcare is important especially if it's for reproductive health of for trans healthcare. It allows for individuals like myself to thrive and prosper despite bills like this that undermine basic rights to healthcare. Shame on you for putting forth this bill and any others that remove reproductive and trans healthcare for anyone.

As someone who wants to have children, abortion care is important to me because it is nuanced. Under this bill, and other rapidly changing legislation, my doctors may hesitate to give me the care I need to save my life for fear that their job is in jeopardy. My doctors need to feel unencumbered by legislation to do their jobs in order for me to feel comfortable giving birth. My choice to have children is my own. I strongly believe it is just as important that others get to choose NOT to have children. Abortion care is necessary to create healthy and supported families.

Missourians voted for The Reproductive Freedom amendment on November 5, 2024 to allow abortion up to fetal viability. This bill would overturn it. Why do you think it is okay to overturn the will of Missouri citizens/voters? This bill dismisses majority rule and imposes the will of a minority. It is also completely draconian. What is being gained by taking away a woman's right to healthcare and her ability to make decisions about her own body? I am completely disgusted.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

This is an egregious failure of the Missouri voters who already approved a constitutional amendment in November 2024. This proposed amendment further marginalizes women who are assaulted but are afraid to file charges. Legislators do not need to be involved in the healthcare decisions of private citizens. The Missouri legislature got their answer last November and need to honor the will of the voters.

My name is Heidi Stiemsma, I am a constituent in St. Louis, zip code 63118. I am testifying in opposition to HJR 73. The voters spoke overwhelmingly in favor of protecting women's reproductive freedom and I am so angry that I have to keep fighting for what the voters have already spoken on. Listen to your constituents, listen to your voters. We want control over our own bodies, and the freedom to make our own reproductive choices. We don't want to have to keep fighting for our basic rights. As a survivor of sexual assault, NO ONE should be making a choice for me that will impact every day of the rest of my life. MY BODY. MY LIFE. MY HEALTH. MY FREEDOM. MY CHOICE. Thank you.

I am writing to strongly oppose HJR 73. Missourians voted to put a right to reproductive healthcare including abortion up to the point of viability into the Missouri constitution via Amendment 3. We understood exactly what we were doing, and the Missouri legislature should be working to support the will of the people, not to overturn it. You must vote against this bill.

It is a sad statement for Missouri that over and over again their elected officials will break their sacred obligation to uphold the constitution and honor the will of the people that was expressed through a legitimate election process. This social contract is what holds our Democracy together, and when it gets distorted through gas lighting and rushing through a process that was designed to be methodical and reflective, the damage to our trust in government is immeasurable. This bill is intended to circumvent the expressed wishes of Missourians who take the time to engage in their government through their vote, and it puts the lives of women and children in danger.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

My name is Isabella Short and I am from St. Louis, Missouri. If the people of the state of Missouri had voted in favor of a Republican-sponsored amendment, and the Democrats in office had decided to sponsor a bill to overturn it unilaterally, Republicans would be shouting from the rooftops about the injustice. We would never hear the end of it - how Democrats are overruling the will of the voters and how the party of "big government" is going to take over and imbue us with their immoral values. Unfortunately, the Republicans in office have decided to do just that. Despite 1,538,659 Missourians voting YES on Amendment 3, there is now a bill proposed to overturn what Missourians voted in favor of. Missourians value privacy and OPPOSE political interference in private decision-making - this value transcends party lines. This attempt to overrule what the good people of Missouri have decided is egregious and contemptible. We have shown that reproductive freedom is a Missouri value, and we are prepared to defend it. Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. This proposition is a waste of time and is an insult the voters of Missouri.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I strongly oppose HJR 73, a proposed constitutional amendment that seeks to restrict or ban abortion in Missouri under any circumstances, including cases of rape, incest, or threats to the life of the pregnant individual. This resolution represents an extreme and dangerous attack on reproductive freedom, personal autonomy, and public health. It is critical that Missouri lawmakers reject this measure for the following reasons:

- 1. Violation of Bodily Autonomy and Fundamental Rights**HJR 73 undermines the fundamental principle of bodily autonomy by denying individuals the ability to make private medical decisions about their own pregnancies. The government should not interfere in deeply personal healthcare choices that belong solely to the individual and their medical provider. This resolution strips away a basic human right—control over one’s own body—and imposes the will of the state over personal freedom.
- 2. Threats to Health and Safety**By banning abortion without exceptions for medical emergencies, HJR 73 endangers lives. Pregnancy complications such as ectopic pregnancies, sepsis, or severe fetal abnormalities require timely medical intervention, including abortion, to save lives. Preventing access to safe and legal abortion care forces individuals into life-threatening situations, placing their physical and mental health at grave risk.
- 3. Disproportionate Impact on Marginalized Communities**Abortion bans disproportionately harm vulnerable populations, including low-income individuals, people of color, and those living in rural areas with limited access to healthcare. These groups already face systemic barriers to healthcare services, and HJR 73 would exacerbate these inequities by eliminating access to essential reproductive care.
- 4. Disregard for Voter Intent**In 2024, Missouri voters approved a constitutional amendment protecting abortion rights—a clear expression of public support for reproductive freedom. HJR 73 disregards this democratic decision and seeks to impose policies that directly contradict the will of the people. Lawmakers have a duty to respect the voices of their constituents rather than pursue extreme measures that undermine voter intent.
- 5. Lack of Compassionate Exceptions**HJR 73 fails to include exceptions for cases of rape, incest, or pregnancies that threaten the life or health of the pregnant individual. Such omissions are cruel and inhumane, forcing survivors of sexual violence or individuals facing life-threatening complications to endure unimaginable suffering. HJR 73 is not about protecting life—it is about controlling individuals’ choices and denying them access to safe, legal healthcare. This resolution would harm Missourians by putting their health at risk, perpetuating systemic inequities, and disregarding their democratic rights. I urge lawmakers to reject HJR 73 and instead focus on policies that expand access to healthcare and protect individual freedoms.

As a wife of 56 years, mother of six (two of whom we adopted while my husband was serving in the US Army in S. Korea), and grandmother of sixteen children, I am writing in opposition to the Constitutional amendment HJR 73 which prohibits most abortions and also prohibits public funds from being used to pay for abortions as it will repeal Article 1, Section 36 of the Missouri Constitution known as the "Right to Reproductive Freedom Initiative" which was known previously as Amendment 3. Despite the bill's text, this amendment's only purpose is to undo the will of the people who voted yes for Amendment 3 and will remove a woman's right to complete reproductive freedom and should NOT be approved.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

A ban on abortion denies individuals the fundamental right to make personal and private decisions about their own bodies and reproductive health. Such a ban disproportionately affects marginalized groups, limiting their access to safe healthcare and forcing them to bear the burdens of unwanted pregnancies. Furthermore, restricting abortion does not eliminate the need for it, but rather drives it underground, leading to unsafe procedures and increased risks for those seeking care. A ban on abortion also ignores the harsh realities of unwanted pregnancies, often leading to children being born into environments of abuse, neglect, and poverty. Many individuals are not prepared or equipped to care for a child, and forcing them to carry an unwanted pregnancy can result in long-term harm to both the parent and the child. Addressing reproductive rights is not just about personal choice; it's also about ensuring the well-being and future of children who deserve safe, loving, and supportive homes.

In 1979 I became pregnant even though I was using an IUD. My husband was in the air force and we had only been married a year when I found out I was pregnant. When I went to the physician on base, I was offered an abortion because there was concern that the IUD may have migrated to the embryo and the physician was concerned about what effect this may have on the fetus. I decided not to abort the fetus and proceeded to have a very stressful pregnancy. Although I chose to carry to term, I was so grateful that I was given a CHOICE. I was not forced to continue with a pregnancy.. I was never resentful or angry at my situation because I was able to make a CHOICE and once I did so I accepted that responsibility. Please do not take away a woman's CHOICE. The voters of Missouri have already voted on this issue and most of them do want a ban on abortions. They understand the need for CHOICE.

Members of the committee, my name is Jacob Kempen, and drove nearly three hours to be here to deliver my testimony in person, but I was blocked from using my voice in the April 9 hearing. I'm here in strong opposition to HJR 73. I'm opposing this not just because I care deeply about reproductive freedom and trans rights--though I do. I'm opposing it because I believe in the legitimacy of our democratic process, the integrity of this House, and the binding authority of the Constitution that Missourians just voted to amend. This resolution may present itself as moderate. But it is not. I've heard it said that this is simply "letting the people vote again." But let's be honest--that's not what's happening. This resolution is a calculated effort to undo the will of the people not because Missouri's were unclear, but because some lawmakers didn't like the outcome. Repeating the vote until power gets the answer it wants isn't democracy--it's a political do-over. And that alone raises a deeper question--not just about policy, but about trust. Can Missourians count on this body to honor their voice, even when that voice is inconvenient? That's what's being tested here: whether public voice means anything at all when it challenges power. I've heard lawmakers say there's simply "reflecting the will of their district." But your oaths--the one each of you swore--wasn't just to represent your district's opinion. It was to support the Missouri Constitution. That Constitution now includes reproductive freedom. Undermining that isn't representation--it's violation: of your oath, of public trust, and of your own democratic legitimacy. I've also heard it claimed--disturbingly, and without evidence--that voters were "confused" when they passed Amendment 3. Let me say this as clearly as I can: That's not just condescending. It's dangerous. It says that Missourians--your own constituents--in their majority, aren't capable of understanding a ballot measure unless they vote the way you wanted them to. The actions of this body demonstrate that you think we are not capable of participating in our own democracy. And it sets a chilling precedent: If you lose, claim confusion--and rerun the vote. But we are not confused. We are clear. We said that reproductive freedom belongs in our Constitution. And this resolution seeks to disguise its override of that clarity as more procedure by using manipulative rhetoric. If this were truly about protecting life, we'd see legislation focused on prenatal care, maternal health, childcare, and housing. Not bills that criminalize doctors, surveil pregnancies, and force survivors to navigate the legal system just to access care. This isn't about safety and it never was. It's about control. And Missourians have already rejected it. The people have spoken. The Constitution has changed, and it is binding. Your job now--on your own word--is not to fight that result. It's to uphold it. So I ask this body plainly: Will you uphold the Constitution you swore to defend--or will you undermine the people who amended it? Please vote NO on HJR 73. Let this body choose integrity.

It is an absolute disgrace to see a handful of people try and overturn the will of the people. Especially, after months of trying every trick in the book to prevent the constitutional amendment from being voted on in the first place. The people of Missouri spoke loudly when they voted for access to abortion last fall. To spit in your constituents faces not even a year later makes your title as "representative" a farce. Do not threaten the proud citizens of Missouri with these back room bills. You should feel a deep shame in place of where your soul would be, if you had one.

My name is Jackie Cintel, and I'm from Saint Louis. Pushing through yet another abortion ban is a slap in the face to the more than 1.5 million Missourians who voted to enshrine abortion rights and reproductive freedom in our Constitution last November. No matter anyone's personal feelings, Missourians agree that politicians have no place interfering in personal, private decisions like pregnancy, abortion, and the broad spectrum of sexual and reproductive health care.

This is not just a bill—it's a direct attempt to overturn the will of the people and cement a government-controlled ban on abortion in Missouri. I strongly oppose HJR 73. This resolution would repeal Missourians' constitutional right to reproductive freedom and ban abortion across the state. Voters—not politicians—should decide what happens in their personal healthcare decisions. Reproductive rights must be protected, not taken away. Missouri voters have made it clear: we support reproductive freedom. We cannot let extremist politicians erase our rights from the constitution.

My name is Jacqueline Hemmann and I live in New Franklin, Missouri. Missourians voted YES on Amendment 3— you were elected to defend those rights. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. This is not a partisan issue— Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering.

Missourians voted for The Reproductive Freedom amendment on November 5, 2024 to allow abortion up to fetal viability. This bill would overturn it This bill dismisses majority rule and imposes the will of a minorityTwo of every three sexual assaults are not reported to police (Rape, Abuse, and Incest National Network and the Bureau of Justice Statistics)Research published last year (JAMA Internal Medicine) estimated that since the overturning of Roe v. Wade, more than 65,500 women and girls in the 14 states with abortion bans in place became pregnant after being raped This bill is in conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on November 5, 2024 (HB195)

This legislature has continually tried to undermine the vote of the people of Missouri. Amendment 3 was passed by a majority, people knew what they were voting for: to protect the individual reproductive rights of women. It is shameful that opposition bills have been continuously introduced to void the people's vote. Let women have control of their own body; to try to legislate this is cruel and inhumane. Please do not let this pass.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

This testimony is in strong opposition to the current proposed Reproductive Health Care amendment, which would overturn the will of Missouri voters who approved Amendment 3, the Right to Reproductive Freedom Initiative, in November 2024. The Right to Reproductive Freedom amendment allows for abortion access up to the point of fetal viability and includes essential protections for patients and medical professionals. To now attempt to reverse this through legislative maneuvering disregards the foundational principle of majority rule, disrespects the votes of Missouri citizens, and undermines our democratic process. The proposed Reproductive Health Care amendment not only ignores the voices of Missourians, but also fails to address the real-life consequences of abortion bans. According to the Rape, Abuse, and Incest National Network, two out of every three sexual assaults go unreported, most often due to fear of retaliation from the rapist. Thus, the reporting requirements of the current amendment would preclude many women and girls, fearful of further violence against them, from accessing care. And this does not just affect one or two women and girls. A study published in JAMA Internal Medicine found that over 65,500 women and girls became pregnant after rape in the 14 states that enacted abortion bans after Roe v. Wade was overturned. Stripping Missourians of the reproductive rights they voted to protect only exacerbates this crisis. Furthermore, the inclusion of unrelated language targeting gender-affirming care is a clear example of “ballot candy” — an attempt to distract and divide voters with politically charged issues that have no place in this conversation. This amendment is an attack on bodily autonomy, democracy, and basic human dignity. I urge lawmakers to respect the will of the people and reject this measure.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The people of Missouri have **ALREADY SPOKEN** on this issue; we **DO NOT** share your **RELIGIOUS** Belief, which ought to be **SEPARATE** from our laws. Forcing women to give birth against their will because of a minority religious belief is outrageously unconstitutional and just plain wrong. Practice your religion in your own family and for yourself but stay out of other people's business. Women have already died because of these intrusive and barbaric bans in other states.

We canvassed people in our state and learned/obtained signatures that people in Missouri want access to abortion in our state. You lawmakers do not have the right to go against the will of the people. I want women in Missouri to have access to abortion. Missouri lawmakers are proving to us that you cannot be trusted to represent us. You have your own agendas which to not reflect what we want. I oppose fascism and bullies in our state government. Let us have our rights to our own bodies. Separate church from state. I am in opposition to this bill.

Hello, My name is Janet Schott. I live in St. Charles County, Representative Tricia Byrnes. I AM HERE TO OPPOSE HJR 73 BECAUSE I AM ONE OF THE MORE THAN ONE MILLION, FIVE-HUNDRED AND THIRTY-EIGHT THOUSAND, SIX HUNDRED MISSOURIANS WHO VOTED YES ON AMENDMENT 3. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. THE MAJORITY OF MISSOURIANS VOTED TO KICK POLITICIANS OUT OF PERSONAL MEDICAL DECISION MAKING, LIKE ABORTION CARE, AND ALL SEXUAL AND REPRODUCTIVE CARE. I AM SICK AND TIRE OF THE MISSOURI ELECTED OFFICERS TRYING TO UNDO MY WISHES AND THE WILL OF THE PEOPLE. IT IS YOUR JOB TO PROTECT AND FULFILL THE WILL OF THE PEOPLE. VOTE NO ON HJR 73.

I believe it is wrong to make laws that would allow the state to interfere with women's health and reproductive decisions. I believe this is a personal freedom and should not be a matter that is dictated by the state. Those who don't approve of abortion should make decisions for themselves, but not for anyone else.

I aim strongly in opposition to HJR73, having worked to secure signatures for a petition to get reproductive rights onto the ballot, a petition that people were eager to sign, as evidenced by the fact that the voters of Missouri passed Amendment 3 just this past November. How dare the legislature try to strip women and girls of the rights over their own bodies! An requiring those seeking abortion to have previously reported rape or incest violates them again. Victims of rape and incest often do not report the crime, fear and shame causing them to to hope to "sweep it under the rug" ... until a pregnancy forces them to confront it again. The state of Missouri has some of the least supports for women and children of any state. Requiring desperate women to carry unwanted pregnancies to term is unconscionable.

Restricting access to reproductive healthcare is harmful to women and girls. Without access to abortion, pregnant women will die of avoidable complications from issues such as ectopic pregnancies and sepsis (which often happens when a woman is forced to carry a dead fetus). Without access to abortion, young victims of rape and incest will be forced to carry fetuses that their young bodies aren't able to properly incubate -- and in the case of incest victims, those babies are bound to have health complications that I personally wouldn't wish on my worst enemy. Apart from these points, Amendment 3 was approved by Missouri voters, and overturning the will of the people is against the very fabric of democracy.

The people of MO have already decided how abortion should be handled in our state. Most Missourians realize that making a woman or girl undergo a pregnancy and give birth is interference with a basic right to make our own decisions about our healthcare and bodies. Missouri is 2nd in the number of pregnant women who die of homicide usually by guns. Too often the woman is blamed for the unwanted pregnancy. Due to defunding of Planned Parenthood, where many women obtain birth control products, unwanted pregnancies will be more common. Listen to your constituents, practice Responsive Democracy and vote against this bill!

Chair Jones and Members of the Committee, I am writing as an individual who lives in Rep. Anderson's district and not as a representative of an organization. I ask that you not move HJR 73 forward. Reproductive health care is best left to individuals and their doctors and trusted advisors. Government should not get between people and their health care providers. Many who experience rape do not make a police report - for a variety of reasons that deserve our compassion. The issue of transgender health care is possibly placed in this measure to confuse the public or stir strong feelings on a topic where much bigotry remains. Please vote no on HJR 73.

I want to address this testimony to sponsor of HJR 73, Representative Edwin Lewis. Regarding the section of HJR 73 about abortion, I would like to say how shameful it is for a politician to try to reverse the amendment we've only seen go into effect 2 months ago (after voting in favor of it 5 months ago). Judging by your campaign against Amendment 3 on Facebook, I can't say I'm shocked you sponsored this, but, as a resident of the "Show-Me" state, I WILL say that you've "Shown-Me" how little respect you have for the voters' will. I live 123 miles from your residency of Moberly. To put that into perspective, it would've taken me 2 hours and 25 minutes to drive from St. Louis County all the way to the church which you attend and see you in person. Although, given my identity as a gender minority, I'm not sure if I even WILL be welcome there. Anyway, what I'm getting at is this: I don't know you, you don't know me, and it's incredibly unlikely that we'll ever see each other on the street, let alone know each other personally. With that being said, I would like to speak my mind on the section about gender-affirming care for minors. My name is Jemele Werner (my legal name is Jemell Werner, but I would prefer to have my name spelled Jemele), I am a 22 year old transgender woman from the suburbs of Florissant, Missouri. I am unemployed, I have been out of education since dropping out of Ranken in 2023, and - as far as the government is concerned - I am a virtual nobody. I am diagnosed with OCD, ADHD, and formerly high functioning autism (they removed the diagnosis because I wasn't qualified "enough"). I suffer from constant gender dysphoria along with my hormonal imbalance which, to my (and potentially your) perception, gives me grossly "masculine" features, including but not limited to: fast-growing body & facial hair, easily scarred skin, and the face & deep voice reminiscent of Frankenstein's monster. In spite of that, I have lived happily as a woman for 4 years, and the only thing I regret regarding my transition is not starting sooner. In the last 4 years, thanks to a wonderful support system from both friends and the people at Metro Trans Umbrella Group, I have found myself to be intimate with my gender identity. Thanks to the shifting public opinion of gender nonconformity, I have grown increasingly comfortable with expressing myself in ways that people 20 years ago would've considered "sissy" behavior. It's a beautiful transformation from the boy I used to be. There is no word or phrase in the English language that could perfectly describe the amount of pain my 12 year old self endured daily because of my lack of knowledge of gender dysphoria. Had I known what gender identity, gender-affirming care - both surgical and therapeutic - and gender nonconformity all were, I would've realized I was a woman and alleviated this pain sooner. But better late than never I suppose. Thankfully, my friends and family made sure I didn't steer into the wrong path during my transition as an 18 year old. Unfortunately, not every good thing lasts forever. In 2023, when I was 20 years old, Missouri AG Andrew Bailey declared an emergency ruling that added astronomically high requirements for receiving gender affirming care for both minors AND adults. Why in the world would you need an AUTISM screening to be eligible for HRT? Does he believe autistic people are too simple-minded to make their own decisions? Does he even LIKE autistic people? This was the closest Bailey could get to

an outright ban on gender affirming care, which thankfully got shot down shortly after, but it leered long enough to have a panic-inducing impact on me and others like me. On account of being unemployed, I couldn't (and still can't) afford laser hair removal, so I tried the next best thing: getting a dysphoria diagnosis and receiving feminizing hormone treatment from Planned Parenthood before the ruling went into effect, as those with existing prescriptions would get grandfathered into the system. This was the last time I felt like a living human being. Good God, did I feel amazing in those two months. Every day felt like a new world for me to explore. But then, I ran out of money to cover the expensive costs for the orders from CVS, and shortly after, I ran out of money to cover the \$300 bill. To reiterate, I was in college at Ranken on top of living with my parents while unemployed. My parents insisted on paying for the bill so I wouldn't have it breathe down my neck all the time. But when the deadline came, they didn't pay for it. This wasn't a big deal for me, as I could just scrape up some money from DoorDash delivery (along with asking for mutual aid from friends) to try to make ends meet. By the time I was ready to pay, I called the agency that handles my bill, and they agreed to send me the bill one last time, so I waited. And waited. And waited. And waited. As of writing this Wednesday morning, April 9th, 2025 at 11:06, they still have not sent it. They ghosted me. I am stuck in legal limbo. With no legal way to go back on hormone therapy, and with more anti-trans rulings and legislations baring their teeth, I was back in that state of pain. The slow, constant, unbearable anguish of my masculine features coming back to haunt me. Because of this newfound, I turned towards more dangerous methods of gender affirming care: I took a friend's own prescriptions of estradiol and spironolactone, the two most common hormone therapy prescriptions that transgender women take. Not too long after, I suffered a severe allergic reaction to the spironolactone and suffered inflammations all over my skin so excruciating that it felt like I was literally on fire. I immediately stopped taking them and doused myself in Benadryl for a month. I still have a scar on my left arm that occasionally flares up again to remind me of this mistake. Since the Missouri government largely disapproves of existing as a transgender person, information on HRT was scarce at that time, which may become even more scarce, if not cease to exist, now that the second Trump administration is gearing towards what I can only describe as a civilization-ending empire of nightmares. This incident shouldn't have happened. I SHOULD'VE known better, but thanks to your party's erasure of resources and education regarding LGBTQ identity, I COULDN'T know better, and more young people exploring their identities (especially pre-teens) are going to suffer the same mental anguish inflicted onto me by the state government, and essentially try to walk in and out of a slaughterhouse blindfolded to soothe that pain. I know neither of us want that, so how would a ban on treating young abnormally dissatisfied Americans with safeguarded, REVERSIBLE hormone therapy make them feel any safer? Representative Lewis, I try not to be a hateful person. While I was writing this, I did some research on you and I saw that you have three little grandkids - two boys, and one girl. Right now, they look too young to really care about who gay or trans people are, but mark my words, by the time they reach their middle school years, they WILL start questioning their identities and whether or not they want to be what their parents or grandparents want them to be. To them, this will be more than just kids playing pretend, it'll be a once in a lifetime experience that could open a door to new possibilities for them. Obviously, this doesn't mean I advocate for permanent, life-changing surgery on pre-teens, but it DOES mean you SHOULD be there for your grandchildren once they hit those years. Let them be comfortable in clothes of their opposite genders, let them wear wigs, let them try hormones that are proven time and time again by science to be safe and reversible so long as they're reviewed and prescribed to the proper person by pediatricians. When they reach their high school and college years, they'll thank you for letting them explore themselves. Consider this - if your granddaughter were to come out as a transgender boy while in middle school, would you still comfortably sleep at night knowing you created a legislation designed to make her life as miserable and rigid as possible? If one of your grandsons came out as a transgender girl after starting Freshman year of high school, would you still smile at him knowing you and your party's ideology frames him as a soon-to-be child molester? Would you have liked it if, say, Attorney General Andrew Bailey or even Governor Mike Kehoe were to treat your grandchildren as sexual predators simply for not wanting to be the men and women they want them to be? I don't believe you're intentionally trying to hurt your loved ones, but I would like you to think about what this joint resolution means for all three of their futures - God forbid you look over a gravestone bearing any of their names. Sincerely, Jemele Werner, Florissant, Missouri

Hello, I am a resident of Jefferson City Missouri. I am the mother of five children, three of whom are adopted. I urge you not to vote for HJR 73. It runs directly contrary to the Amendment 3, which the voters of Missouri just passed. I understand it can seem like you are saving lives when you vote to block access to abortion, but you actually put all child-bearing women in danger. As someone who has gone through many difficult pregnancies, I now understand my ability to receive care for miscarriages kept me safe. That care would not have been possible if abortion had been restricted or illegal. Additionally, when you make abortion illegal, obstetricians move to states where they can practice medicine without fear of legal retribution. That means pregnant women in states without legal access to abortion have less adequate medical care. The mortality rates of women in states with abortion bans are already on the rise. Please don't let that happen to Missouri. Please respect the voters and protect women. Reject HJR 73.

I am a constituent who voted for Amendment 3 and expect the lawmakers to abide by the will of Missourians. My daughter chose to go to an out-of-state college because of Missouri's abortion ban that will also deeply affect her access to birth control and her future choices ABOUT HER OWN BODY. Please respect the will of the people.

I am writing in opposition to the Constitutional amendment HJR 73 which prohibits most abortions and also prohibits public funds from being used to pay for abortions as it will repeal Article I, Section 36 of the Missouri Constitution known as the "Right to Reproductive Freedom Initiative" which was known previously as Amendment 3. This amendment's only purpose is to undo the will of the people who voted YES for Amendment 3. It will remove a woman's right to complete reproductive freedom and SHOULD NOT BE APPROVED.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I oppose HJR 73. Like the majority of voting Missourians on November 5, 2024, I voted in favor of Amendment 3, the Reproductive Freedom Amendment. This bill would dismiss majority rule and attempt to impose the will of the minority. The proposed bill is in conflict with the protections for medical professionals, which was also embedded in Amendment 3 , which again, the majority of votes approved. The exemptions proposed in HJR 73 require documentation of rape or incest in order to terminate a pregnancy yet 2 of 3 are not reported for reasons including fear, mental trauma and abuse. The will of the majority of voters should be respected by our legislators, even when they personally disagree with the results. Amendment 3 was and is the will of the voters. HJR 73 should be rejected and not brought to a vote in the House.

Good afternoon, I strongly oppose HJR 73 regarding reproductive health care. Law makers should not undermine the will of the 1,538,659 Missourians voted YES on Amendment 3– you were elected to defend those rights. Citizens worked tirelessly to gather signatures and move this into law. It is not the role of politicians to interfere with the will of the people as expressed through a free election. Respect your citizenry to uphold their vote. What is the point of voting if politicians are not going to uphold the expressed will of the people?

This is a blatant attempt to reject the will of the people who ALREDY voted to enshrine the right to have an abortion. It OVERWHELMINGLY passed with a vast majority of the state voting to keep abortion legal. Rewriting the bill and reworking the verbiage because our "lawmakers" don't personally like that we voted for it is absolutely going against the voters. Shameful. I am adamantly against this ridiculous and outlandish bill.

It is getting EXHAUSTING to fight for what we as a whole state VOTED for. But here we are, fighting, again and we will keep fighting. As a Missourian, and as a woman who has availed myself of my right to safe and legal abortion, I oppose this action of the Missouri Legislature. The people of Missouri are well aware that making abortion illegal does not stop abortion, and we DO NOT want to become a state like Texas, who treats women worse than breeding cattle (which experience completely legal abortions at the hands of trained veterinarians daily). We, the people of Missouri understand abortion is a complex issue, and that no one is as capable as the women involved in that decision to make her own best choice. Women have a right to refuse, or to give, consent to the use of their body by a third party, and no matter what laws are passed, we will exercise that right. The attempt by the Legislature to contravene the will of Missouri voters is both cowardly and malicious. It is motivated by a desire to punish women, not to improve the problems which create a need for abortion in the first place. It is shameful that our elected Representatives would rather relegislate this issue than focus on improving the poverty gap, ensuring housing, food, and education for all people, and raising the income and opportunity of all Missourians. The avoidance of Missouri's elected officials to address problems in a truly pro-life way shows how shallow their collective commitment to Life really is. My ability to obtain an abortion is what allowed me to complete my education, obtain employment that kept me above the poverty line, and to raise 2 children once I was financially stable. This is a right every woman in Missouri has--whether you accept that fact or not.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My name is Jenny Young, I live in Columbia, MO. I voted YES on Amendment 3, along with over 1.5 million other Missourians. We understood what we voted for. You were elected to defend the rights bestowed by Amendment 3 and to honor the wishes of your constituents. This is not a partisan issue - people from all parties voted YES on Amendment 3. We don't want you interfering with the peoples' will.

My name is Jeri James and I reside in Jefferson City, MO. I am in opposition of HJR -73 Lewis/reproductive health care. The citizens of Missouri have already voted for Amendment 3. The politicians need to stop moving the goal post on the previously passed Amendment 3. Leave reproductive health and choices out of the politicians hands. Women deserve to address their personal reproductive health care and decisions with their physicians. The current Missouri politicians are wasting time on an issue that has been voted on! The people of Missouri have spoken! Thank you. I respectfully request this ongoing madness to cease..

It is time to stop this shameless disrespect of our votes on women's health decisions, abortion, birth control etc. We, the people, actually know what we are voting for or against when we turn out to vote. If it fits the Republican narrative, then you approve. But if YOU don't like the results you beat the issue to death. The numerous women's issues have been around for a long time. You would have to have lived under a rock for the last 50 years not to have an opinion about this issue. The voters have spoken, leave it be and move on to issues that actually help Main Street.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I am writing to express my strong opposition to House Joint Resolution 73 (HJR 73), introduced by Representative Lewis, which seeks to restrict access to reproductive health care. As a concerned citizen, I believe that this resolution is a harmful and unjust attempt to undermine the fundamental rights of individuals, particularly women, to make personal health decisions without interference from the government. Reproductive health care is a deeply personal issue, and decisions regarding pregnancy, contraception, and healthcare should be made by individuals in consultation with their medical providers, not dictated by political agendas. I am particularly concerned about the impact HJR 73 would have on vulnerable populations, including low-income individuals, people of color, and rural communities, who already face significant barriers to accessing healthcare services. This resolution would exacerbate these inequities, leaving many individuals without the care they need and deserve. Moreover, this resolution is in direct conflict with established legal precedents and medical ethics that prioritize patient autonomy and access to comprehensive care. Restricting reproductive health care disproportionately impacts those who are already marginalized and can have long-lasting effects on their physical, emotional, and financial well-being. I urge you to stand on the side of personal freedoms, healthcare access, and equity by opposing HJR 73. We must protect the right of every individual to make informed decisions about their own bodies and healthcare without undue governmental interference. Thank you for your time and consideration. I hope you will take a stand against this resolution and work to ensure that reproductive health care remains safe, accessible, and legal for all. Sincerely, Jessi Kopp63379

My name is Jessica Lefton and I am a constituent from Clayton. I am among the majority of Missourians who voted to pass Amendment 3 in November. It is shameful that the legislature is once again insulting our intelligence and our will by trying to overturn this measure. No matter anyone's personal feelings, Missourians agree that politicians have no place interfering in personal, private decisions like pregnancy, abortion, and the broad spectrum of sexual and reproductive health care. I strongly oppose HJJR 73

I knocked on doors from September to November 2024 to get peoples' opinions on how they were going to vote on Amendment 3. Then, when the election happened, Missouri voters voted YES ON AMENDMENT 3! And now, it is still a NO because... why??? Why are we even debating on this issue? People WANT people to have access to reproductive healthcare. People WANT people to have autonomy over their own bodies. Otherwise, why did YES ON 3 pass??? It is within your power to keep it as YES ON 3! Please do not let Missourians down.

Dear Committee Members, My name is Jessica DeVoto. Thank you for the opportunity to submit written testimony. I encourage the Committee to reject HJR73. This bill threatens the health, autonomy, and rights of Missouri's citizens. It seeks to overturn the voter-approved Amendment 3 and impose severe restrictions on reproductive healthcare, as well as gender-affirming care for minors. These provisions are deeply concerning for a number of reasons. First of all, it threatens access to reproductive healthcare. While we appreciate that it contains exceptions for cases of medical emergency, fetal anomaly, rape, or incest, these narrow exceptions fail to account for the complex and often deeply personal circumstances that lead individuals to seek abortion care. Restricting access jeopardizes the health and autonomy of Missourians, particularly those facing financial, geographic, or medical barriers. Moreover, the exceptions for rape and incest are unlikely to provide meaningful protection, as survivors of rape and incest often do not report these crimes due to shame, trauma, or fear of retribution. Requiring proof of such incidents to access care only compounds their suffering and creates unnecessary barriers to essential healthcare. Secondly, HJR73 reinforces the harmful stigma surrounding gender-affirming care for minors. Although the bill largely appears to reiterate existing restrictions, the message it sends is abundantly clear: that transgender youth and their healthcare needs are not valid. This is particularly dangerous given the already alarmingly high suicide rates among transgender youth. Studies consistently show that access to gender-affirming care significantly reduces suicidal ideation and improves mental health outcomes. Denying or stigmatizing this care will only worsen their distress and further endanger their lives. And third, HJR73 shows a blatant disregard for voter intent. Amendment 3 was soundly passed by Missouri voters, reflecting the will of the people. We knew exactly what we were voting for. Legislatively overturning the outcome of this democratic process undermines trust in government and disrespects the voices of constituents. Therefore, I respectfully implore the Committee to consider the harmful implications of HJR73 and to protect the rights and healthcare access of Missourians by rejecting this proposal. Thank you for your attention to this matter and for your anticipated service to the people of Missouri. Sincerely, Jessica DeVoto

I, a Missouri citizen, voted back in November to make abortion legal in the State of Missouri. The people of Missouri collectively voted in support of making abortion legal in this State. It is important that the voice of the people, your constituents, be heard and respected. It is important that women make their own health decisions with the support of their doctor. When abortion is made illegal it creates more unsafe situations for women and leads to more health issues for pregnant women. I hope that you this all into consideration and vote to keep abortion legal in Missouri.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Missourians plainly stated, in approving Amendment 3, that they forbid the state government from forcing women to give birth against their will. This provision of our Constitution now recognized the fundamental moral principle that each woman may determine whether and when to reproduce, and that the state may not appropriate a women's body for its own goals of creating more workers, consumers, and soldiers. Nor may the state adopt any religion's peculiar and scientifically uninformed assertion that a fetus counts as a person with rights superior to the woman. To the extent any confusion existed in the 2024 referendum, it stemmed from blatant misinformation that Amendment 3 involved sex change surgery on minors', as the 'No on 3' campaign sought desperately to change the subject from abortion rights, against which they realized their inability to win a majority.

I was raped as a teenager (1971) and could not have an abortion in the state of Missouri. I could not tell my family. I was ready to kill myself by jumping from a train trestle onto the tracks of an oncoming freight train. A friend took me to get an abortion in Illinois. Rape is VERY common - ask any police officer. It is also VERY common to deny a woman's testimony. You ruin the life of a woman by depriving her of options. Finally, citizens of the state of Missouri decided IN FAVOR of a woman's right to choose in 2025. Those opinions have not changed in the meantime. You're using transphobia as a means to deny women's rights. Shame on you.

Dear Committee, The people of Missouri have spoken, we voted to keep abortion legal and with minimal interference from government. This bill, once again, seeks to undo a democratic vote by the people. The Republican obsession with abortion is unfathomable. The party speaks to allowing individuals to make their own decisions yet Republicans continue to interfere with medical choices that are, frankly, none of your business. No one asks Republican men if they take Viagra, and it is none of anyone's business whether and what surgery someone has had. Medical issues are private. Abortion is the only medical procedure with this excessive and unnecessary amount of scrutiny. The unspoken injection of religious preferences and morals obviously weighs on this topic. These should not be imposed on the good people of our state nor our country. People are capable of making their own decisions without legislative moralizing. I urge this bill not be passed out of committee and never voted by the body of the whole.

I am getting so tired of this fight against Amendment 3. The voters voted. We created a new law. This is about providing women with healthcare and not being baby killers. This amendment created an environment for safe delivery of procedures that no politician should be involved in. Can you tell me if any other surgical or medical procedure, be it a vasectomy, taking insulin to lower blood sugar, appendectomy or heart surgery that requires the intervention of politicians to allow it to move forward? Why don't you work on gun control? That seems like a much more important issue for Missourians. I worked with mothers and babies my entire career and appreciate so much the sanctity of life, love and building families. Please let families make decisions for themselves.

I was sweet 16 in 1978 when I found out I was pregnant. I had known since the 3rd grade that I wanted to be an educator. I had plans to attend college after graduation. Options? Drop out of high school and marry my 16-year-old boyfriend or get an abortion so I could pursue my long-time dream career. The answer was obvious to me. My parents and my boyfriend supported my choice. The point is that I HAD a choice. Over my 25 years of teaching, I was able to make an impact in over 1,000 young lives, an impact I could not have made if I had not had that choice when I was 16. Every woman who obtains an abortion has a different reason for that choice. For some, the reasons are financial while for others, the reason may be medical. Those who believe that women use abortion as "birth control" are simply misinformed. No woman would repeatedly put her body through this medical procedure for that reason. Bodily autonomy is a basic right that women must have. These tough decisions should be made between that woman, her family, her doctor, and her God. The government should play NO part in that decision. I spent many weeks circulating a petition to get abortion on the ballot. After that was achieved, the people of Missouri spoke loud and clear. We want women to have reproductive freedom, freedom to make the choice that is best for them and their families. Government has no right to override the voice of people in Missouri. YOU have no right to override the voice of the people in Missouri. I strongly request that you vote NO on HJR 73 and side instead with the people of Missouri, your constituents. The people of Missouri have spoken and you should listen and support their voices. Thank you for your time and attention. Joanne Carmichael, Jackson County, Grandview, MO.

The Republicans who run the Missouri government need to stay out of citizens' doctor's offices and stop forcing their beliefs upon parents and caregivers in the process. Based on Republican politicians' atrocious record regarding funding and managing Missouri's obligations to education, healthcare, safety, and foster care- among other things- it's clear that Republicans' intention isn't to protect children, but instead to exercise power, purposely harm others in the name of self-righteous, misguided "faith," and to squander profit. I oppose and reject the shameless bigotry and tyranny demonstrated by the power-drunk Republican politicians who run and ruin the state of Missouri. Leave these people alone and try to honor the will of Missouri voters for a change.

Missourians do not want healthcare workers to be punished in this way, and clearly a majority of us also want legal abortion rights beyond this bill's allowances. We knew what we were voting for when we amended the constitution in 2024. Don't try again with this one, it's a waste of time: we won't fall for it. And trying to get us to fall for it disrespects the 2024 message sent by voters.

Missourians voted in support of abortion access in our state. This bill is an effort to go against the will of the voters, who also elected you to represent their interests. Removing access to this healthcare for women just puts more lives in danger. Missouri has a terrible standing as far as prenatal and maternity care for underserved populations. Removing access to abortion only makes statistics rise. Forcing your personal religious beliefs on others is not the role you were elected to play. Please vote NO on HJR 73.

Hello, My name is Josh Boyer. I live in Boone County. I AM WRITING THIS TO OPPOSE HJR 73 BECAUSE I AM ONE OF THE MORE THAN ONE MILLION, FIVE-HUNDRED AND THIRTY-EIGHT THOUSAND, SIX HUNDRED MISSOURIANS WHO VOTED YES ON AMENDMENT 3. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians’ right to abortion, without politicians interfering. THE MAJORITY OF MISSOURIANS VOTED TO KICK POLITICIANS OUT OF PERSONAL MEDICAL DECISION MAKING, LIKE ABORTION CARE, AND ALL SEXUAL AND REPRODUCTIVE CARE. IT IS YOUR JOB TO PROTECT AND FULFILL THE WILL OF THE PEOPLE. VOTE NO ON HJR 73.

The people have already spoken on this. Why do we still feel like we have the right to tell anyone what they can do with their own body. The last I checked we are all supposed to be equal and free. This is an attack on the freedoms of the people. The people already voted and now a few people that are not happy with the outcome want to overturn in it. This is just another attempt to step on the rights of the people that were voted by the people. Whats the point of having free elections if someone can just over turn the people. This is an affront to democracy and to the constitution.

I am not sure what you all don't understand about the will of Missouri voters, but just because you don't like what we voted for doesn't mean you get to overturn it. We are perfectly capable of reading and understanding the bills we vote on. If you do not care about the lives of the mothers in a pregnancy, that's bad enough. But ALL women are hurt by abortion bans. Procedures to terminate nonviable pregnancies are considered abortions. When doctors can't perform these life saving procedures, they will not come to Missouri to practice. This hurts ALL Missouri women. There are four types of cancer that are nearly exclusive to women. Those cancers must be treated by an OB-GYN. If there are no OB-GYNs, women will die because they can't get the care they need. Your wives, mothers, and daughters will die because you couldn't respect the will of the voters. If you are so concerned about women's health, why aren't tampons and pads freely accessible in public bathrooms? Why won't you eliminate the tax on those items? The answer is that you don't. You only care about control.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

When I was about twelve or thirteen years old, something in my brain switched off. Something important. It happened slowly, and at first I didn't notice it. But those around me noticed it. I stopped smiling. I started spending less time with family and friends, and more time sitting in my room in the dark. With the onset of puberty, what I now understand to be late-onset gender dysphoria started eating away at what had up to that point been an exuberant and joy-filled personality. My mother now commented on how I used to be the most enthusiastic person at any event, and that that energy had suddenly left me at some point. My sister now reminisced about how we used to be best friends growing up, and then her and I both tried and fail to find in me the love and excitement I used to show her. On the inside, what was really going on was that I was receding. I suddenly found the world uncomfortable at best, and unbearable at worst, and I didn't want to face that world anytime I could avoid it. I would get home from school and immediately lock myself in my room for the night, lying in bed because I didn't have the energy for anything else, or spending the night playing games on my computer in the hopes of drowning everything else out. And because every teen is said to be moody and antisocial, it was hard to guess that there was something deeper going on, and that I needed serious treatment for it to ever get better. But not every teen has an underlying medical issue with a very specific solution, and just as I remember the numbness of my teen years, I remember my first day of hormone replacement therapy. I had asked my doctor to let me try the regimen out if it was safe to do so, since I had been getting more serious about mental health and had found several signs in my life pointing to potential gender dysphoria. My doctor agreed that the medications I requested were safe and that their effects were easily reversible, so I went ahead with forward with it. As my system's hormone levels readjusted, I suddenly could think clearly for the first time I could seem to remember. A fog was lifted and a weight was taken off my shoulders that I didn't know I had. The story of a transgender person falling back in love with life has been told hundreds of times now, but the healing power of transition care is a truth that bears repeating. Looking back on my youth, I would give anything to have started treatment earlier, and get back my teenage years. Those five years I would have spent growing, discovering myself and my passions, making memories, making and learning from mistakes, and truly living. Anything but lying in a dark room trying to shut the wonders of the world out. This bill is one of a long line of bills casually tossing in the banning of transgender affirming care for anyone under eighteen. The only word I can come up with for this notion is "heartbreaking." It is heartbreaking to imagine other kids having to go through what I went through, heartbreaking to imagine that even the ones luckier than me, that know something's wrong, that can say what it is, that have the support and the knowledgeable adults around them to get them help, even those kids won't be able to get that help. To imagine a child knowing their joy is shutting off, seeing it happen in real time, and being unable to do anything but watch their youth crawl away from them breaks my heart. Even if the help they could get was safe. Even if the help they could get was reversible. Even if

everyone who cared most about them saw their best qualities being slowly drained and replaced with hollowness. And knowing that a footnote in a larger health bill now made it so there was nothing they'd be able to do. I don't know how I would have reacted to that. I don't want any kids like me to have to react to that. And that fear and sorrow and heartbreak is why I oppose this bill and will oppose every bill coming from the legislature enshrining bans on transgender-affirming health care.

Amendment 3 passed last November and is the will of the people. Trying to eliminate it or erode its effectiveness in the state legislature is anti-democratic and a direct assault on our democracy that should not be attempted by HJR73 or any similar legislation. Moreover its passage will endanger the health care of MO women, to say nothing of proscribing their freedom of action as persons.

My name is Judith Gehrke, MO District 33. I'm writing in opposition of HJR 73. The voters won the passage of Amendment 3. Reproductive freedom is a woman's right over her own body. Because you know that the majority do not support repealing Amendment 3, you are tacking on other "red meat" items such denying gender affirming drugs and medical procedures that have nothing to do with the original amendment. When you win an election the result is respected, women expect for you to do the same for our wins.

This is an abominable showing of disrespect to the voters of this state who chose to enshrine a constitutional right to abortion up to viability. This bill virtually reinstates the ban that voters voted against. In addition, it deceptively adds inflammatory language on other topics to hide the true purpose of the bill. Please do not dismiss and deceive the voters of this state. They chose to vote government out of private health decisions.

My name is Julie Peterson, from Columbia, Missouri; house district 44. I am a mother, grandmother and a retired nurse. My husband and I chose to have our children, and raise them here, when we were economically stable and able to support them throughout their childhood. HRJ 73 threatens the rights of Missourians, those now living, and those yet to be born. Every Missourian deserves to be born into a family that is able to care for them, where they can receive support and love. A parent is the most capable person to determine if that is true, not the government. This bill is a detriment to the success of children. In November 2024, Missourians approved Amendment 3, the Right to Reproductive Freedom Initiative that is ratified in our state constitution. HJR. 73 ignores that. You were elected to represent Missouri's families, not tell them what's best for them or what decisions they can or cannot make. This bill demonstrates contempt for women and is even supported by those of our own gender. Access to safe and legal reproductive care is a critical component of healthcare. Please respect the voters of Missouri and oppose HJR73.

My name is Julie and I live in Chesterfield Missouri. I have two beautiful children, both of whom came with severe pregnancy complications. After a miscarriage that I needed medical intervention to help with, I was advised to never attempt to have children again. Laws banning medical procedures related to pregnancy and women's health will kill women like me. This kind of unfair legislation needs to be stopped! Women deserve equal rights to healthcare.

As a voting resident of Missouri I vehemently oppose HJR 73. The voters of Missouri already decided they want to allow women to make their own reproductive health care decisions. Also, current medical and mental health science and knowledge supports providing gender affirming care for transgender minors. Prohibiting that care will cause untold suffering for children, teens, and families in Missouri.

My name is Julie Rowe. I live in the Central West End neighborhood of Saint Louis City. I worked for over 3 months trying to overturn our state's cruel and unreasonable abortion ban. Did you somehow forget that, on Nov. 5, 2024, Missourians passed a constitutional amendment granting the right to an abortion to state citizens? No, you did not forget, but lawmakers, acting on their own personal beliefs, will not stop at giving themselves the authority to override the will of the People. The majority of Missouri citizens want reproductive choice. (And YES, they did know what they were voting for). Give it to them.

I strongly oppose this bill because it is dangerous for women and dangerous for our democracy. First of all, it overturns the will of the people. We voted on this in November and you guys think it's ok to overturn that? I'm so sick of this dictatorship. It's ridiculous. The reason I voted to enshrine the right to abortion in the Missouri constitution back in November is because the government should have no say in family planning. It's none of your business whether I am pregnant and whether or not I need to make the heartbreaking decision to terminate a pregnancy. As someone who has experienced a miscarriage (unlike many of you), I understand that sometimes an abortion is necessary to save the woman. Messing with the law on this issue has caused women to suffer and healthcare professionals to hesitate. You can claim that there is an exception for the life of the mother, but we all know that's bullshit. Women are in incredible pain waiting to get worse and in some cases die. It's torture, and it's NOT YOUR CALL!

I am opposed to this bill because this issue was already decided by a vote of Missouri residents. It is a waste of taxpayer money to continue to bring this issue to ballots again. Do you not trust the voters you represent? We turned out, we voted. That should be enough. If there are substantial flaws in the existing Article/Section, those can and should be reviewed, however, the nature of this proposed Amendment would in essence totally overturn the previously approved Amendment. That is purely an attempt to deny the will of the voter.

As a concerned citizen, I stand in strong opposition to the proposed abortion ban bill. The decision to seek an abortion is deeply personal and often made in difficult circumstances. It is a decision that should be left to the individual, in consultation with their healthcare provider, free from government interference. Banning abortion would disproportionately affect marginalized communities, particularly low-income women and people of color, who may already face barriers to healthcare access. It is critical that we protect a person's right to make choices about their own body, and that includes the right to choose an abortion. This bill undermines the fundamental principle of bodily autonomy, which is essential to a free society. No one should be forced to carry a pregnancy against their will, especially when it can have lasting physical, emotional, and financial consequences. I urge lawmakers to prioritize the health, dignity, and rights of individuals, and reject this harmful and restrictive bill.

WE the people have spoken. Abortion bans are dangerous and in direct opposition to the majority of Missouri's voters. American families deserve high quality and equitable access to health care, education, affordable housing, and affordable childcare that benefits not only our children, but allows our workforce to prosper. Please consider shifting your focus to the systems failing American families and respect a woman's right to bodily autonomy.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

All I'm asking for is for the freedom to make a choice. I was an unexpected baby. I'm also 2 months away from being a doctor. I'm really glad that my mom had the choice about whether or not to keep me. Women who are forced to carry against their consent experience significantly higher rates of mental health crises, increased risk of poverty, and diminished physical health. Because my mother had the autonomy to choose her life course, I grew in a family where I never felt unwanted, unloved, or under appreciated, despite being raised by a single mother. My mom chose to keep me, largely because she was financially and emotionally able to handle the responsibility of a child. Consequently, I feel capable of achieving everything I hope to. I'm also someone who has never wanted children. Even as a little girl, I've felt in my bones that I'm not meant to be a mother (despite being raised by an amazing one). That being said, if I was in a position where I experienced an unexpected pregnancy, I'm not sure what decision I'd opt for. All I'm asking is that I not be forced to have a baby without my consent. Until the point of fetal viability (at approximately 24 weeks), it's my body. I ask that it continue to be my choice. And I ask that you respect the choices that the citizens of MO have already made.

My name is Kara Mentzer and am from Columbia, MO. I am submitting this testimony to express my support for the fundamental rights established in Amendment 3. As you know, over 1.5 million Missourians—1,538,659 to be exact—voted YES on this amendment, clearly indicating their desire to protect reproductive freedom. As elected officials, it is your responsibility to defend the will of the people, and this means respecting the rights that were granted through this amendment. Missourians value privacy, and they strongly oppose political interference in personal, private decisions—particularly when it comes to pregnancy and abortion. Reproductive freedom is not only a right; it is a deeply held value within our state. It transcends party lines. This is not a partisan issue. Republicans, Democrats, and Independents from across Missouri joined together to collect signatures, sign petitions, and ultimately vote YES on Amendment 3, solidifying the right to choose without government intrusion. It is crucial that we respect the collective will of the people of Missouri and uphold the protections guaranteed by Amendment 3. This is a matter of personal autonomy, privacy, and the preservation of rights that affect the lives of millions of individuals in our state. I urge you to stand with the people of Missouri and protect the right to reproductive freedom as enshrined in Amend

I am writing in opposition to the Constitutional amendment HJR 73 which prohibits most abortions and also prohibits public funds from being used to pay for abortions as it will repeal Article I, Section 36 of the Missouri Constitution known as the "Right to Reproductive Freedom Initiative" which was known previously as Amendment 3. Despite the bill's text, this amendment's only purpose is to undo the will of the people who voted yes for Amendment 3 and will remove a woman's right to complete reproductive freedom and should not be approved.

I'm so tired of people trying to take away my rights and the rights of my two daughters. The Missouri voters passed Amendment 3 because we want reproductive healthcare that is safe and accessible. Both of my daughters left Missouri for college and are now afraid to return to this state where they might lose the opportunity to make decisions about their bodies and their healthcare. One is in medical school, and she and her fellow students discuss how they need to stay away from states like Missouri. The elected officials who want to undo Amendment 3 are an embarrassment to the young people like my kids who just want freedom over their bodies and their healthcare.

My name is Karen Joseph Robards and I'm from University City, Missouri. I am writing in strong opposition to HJR 73. In the election last fall, the voters of Missouri said they wanted the right to reproductive freedom, including the option of abortion, placed in the Missouri Constitution. As one of those voters, I am outraged that, once again, Missouri legislators think they have the ability to overturn the results of that election. Legislators have no right to pass laws that overturn the results of this, or any other, election. In particular, they have no business trying to impose their own opinions and values on anyone besides themselves. We voted to ensure that the individuals in this state have the ability to make their own decisions about their own bodies, free of politicians over-reach. So stop it. I have a long memory and I vote.

This bill violates the will of Missourians. Amendment 3 passed to protect reproductive healthcare. Reproductive care should be decided by the pregnant person with support of their chosen medical provider and chosen supporters. When the government interferes in reproductive care pregnant people are at a greater risk of injury and death. Let stand the constitutional amendment that Missourians voted in a few short months ago.

I was at the Capitol today but was, due to a rules change, not allowed to speak. I oppose HJR 73 because it will take away the reproductive freedoms that I and my fellow petition signature gatherers worked so hard to restore. I cannot for the life of me understand why GOP legislators are so hellbent on making women give birth to children they don't feel equipped to raise. I might feel differently if you did anything to help them, but your track record on this score is hardly encouraging. You had to be constitutionally bludgeoned into expanding Medicaid, and recent findings showed that it still took 72% of applicants more than 45 days to have their applications approved. You refused federal funding for summer lunch programs because it was more important to refuse anything from the Biden administration than to feed hungry kids. "Pro-life"? Not once they're out of the womb, apparently. If you oppose abortions, then by all means use your persuasive powers to encourage those in your orbit to forgo them -- but don't impose your will and worldview on other people. A woman may seek an abortion so she can (a) adequately care for the disabled child she already has, (b) avoid being tied forever to an abusive partner, (c) keep a roof over her existing family's heads (a new baby being one of the chief causes of eviction), etc., etc. The point is, you have no idea what someone else is going through, and you shouldn't presume to think you do. Find a little humility and vote against HJR 73.

I think this bill goes directly against what Missouri voters already voted on with regards to reproductive rights and would harm many women in the process.

It is so incredibly important to protect abortion access and oppose another abortion ban for one, because Missouri voters already voted to have this healthcare available to women so this shouldn't even be an issue, but also because so many abortions are medically necessary. Many women require a D and C which can be medically coded as an abortion but in many cases, it is done after a woman has already suffered a miscarriage. An abortion ban put women's lives at risk. It is so rare that a woman considers a late term abortion unless she and/or her baby are at risk. I personally know women who very much wanted to be mothers and had to make the heartbreaking decision to have an abortion because their baby wouldn't survive long enough to be born or at all once born. They did not make these decisions lightly nor would they ever wish to but had to or they would face drastic and sometimes fatal medical consequences. This decision should always be left up to the individual, her family, and her healthcare provider. At the very least, if left up to the state, Missouri voters have already spoken via Amendment 3. This is affront to their voices which have already been heard. Don't let those voices be ignored.

We voted on this- it is the will of the people to have access to abortion. The opinions of a few people in the Missouri congress is not the will of the people. Leave our right to abortion in the constitution - we voted it in last November. This affects every Missourian, it affects me and my children and grandchildren to come. Rape is far too common. I was raped when I was in college - and I did not report it. It is like being raped again. Abortion is something that is not, nor should ever be, controlled by a few men in power. This is a decision between a woman, her family, and her doctor.

I am here because I am appalled that the legislators of my state are working on our dime to undermine the will of the people of MO. Collectively we voted to support the right of bodily autonomy and WON! When I was a teen, I learned that sexually abused girls engaged in sex younger and more frequently than non-abused girls. While I was sexually abused by my father at a young age, I was determined that this would NOT be me. I was resolute that a number of things wouldn't be me. I was wrong. What I didn't realize was how little control I would have over some of my own behaviors until I had sufficient therapy recovery. Over 3 decades later, I am still recovering. I am grateful that abortion was legal in MO when I needed one. When I realized I was pregnant, I called immediately and was told it was too small to even find and that I'd need to wait a month. When I did go in, I was shocked when they used a STRAW to suck the cells off my uterine wall. Yes, it was THAT SMALL. I'm so mad I could spit nails. YOU are here to represent us ALL. Not to continually try to control us and our bodies. And certainly NOT to make these bodily decisions for us. This issue is not about religion or God, it's about control.

I am writing to acknowledge that while abortion and gender identity is of moral concern, judgement should be rendered by God alone and let out of the political arena. Our country is founded on individual freedom and if I support gun ownership, freedom of speech and our Pledge of Allegiance then I must respect all fellow Americans to make the right decision for themselves. Please remember none can throw rocks nor know the conditions that others face. Please keep health care safe for women and all people by saying no to more legislation limiting freedom. Thank you for all you do everyday on our behalf.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

My name Kasey Boling and I'm from Kansas City. I believe every woman should make decisions for her own body without the government being involved. It should be a decision between a woman and her health care provider. 1,538,659 Missourians voted YES on Amendment 3– you were elected to defend those rights. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering.

I am disappointed to hear that the House Children and Families Committee once again has a resolution seeking to nullify the abortion rights protections Missouri voters added to the state constitution last year and banning reproductive choice. Voters ratified Amendment 3 in November to restore reproductive rights in Missouri after the U.S. Supreme Court's conservative majority eliminated the federal right to abortion in 2022. The voters of Missouri have made it loud and clear that they believe in the woman's right to make her own decision and that the government does not have any right to be involved in something so personal. We have seen in other states with an abortion ban that maternal morality rates are on the rise, as are rates of sepsis. Let's have Missouri make national news for something positive and not embarrassing for once. Let's stop wasting voters' time and keep politicians out of the doctor's offices and out of business that has nothing to do with anyone besides who is making the personal decision about their own reproductive system.

This bill is in blatant disregard to what the people have already voted on in November 2024. We voted to establish the right to abortion in the MO constitution. It passed. The people SPOKE. Your job is to represent the people of Missouri, NOT ignore them. This started not from one political party. The people of Missouri gathered signatures on a petition to put this on the ballot. They gathered more than the required amount of signatures, including my own, to let the people of Missouri speak. When we got the right to speak, 1.5 million Missouri voters supported the right to a woman's autonomy, privacy, and right to make her own healthcare decisions outside of a government agenda. Ignoring the voice of the people, no matter the subject, when they have spoken so clearly, is a clear disregard for the people of Missouri and makes it clear representatives are not looking to act for the people, but for their own greed and power. The subject of this vote, truly shouldn't even matter. If people voted, they spoke, and politicians and lawmakers should respect the will of the people, no matter the subject. That's your job. To represent US

I'm tired of protecting my right to my own body! By the way, what is the man's responsibility in this? Why aren't they held accountable for unwanted pregnancies? Fatherhood can be easily traced through a DNA test, so it's not as though a man can be falsely accused of parenting a child. These men need to pay for the hospitalization and lost wages of the mother, and the care and education of the child. He should have to participate if it's decided that the baby will be put up for adoption. All of the responsibility and pain falls on the mother. This is unjust! A small detail: Missouri voters supported Amendment 3, and it's your job to enact it!!

I see no problem with the language currently in the constitution, which seems to me to guarantee my right to make decisions about reproductive health myself. But I do see a problem with this bill, which would severely limit that right - and also drags in gender-affirming treatments, which are a separate issue and not in the section of the constitution nominally referred to here. Please retain the constitutional language as it stands.

Hello, My name is Kathleen Wheaton. I live in the city of St. Louis, Represented by Nick Kimble of District 82. I OPPOSE HJR 73 BECAUSE I AM ONE OF THE MORE THAN ONE MILLION, FIVE-HUNDRED AND THIRTY-EIGHT THOUSAND, SIX HUNDRED MISSOURIANS WHO VOTED YES ON AMENDMENT 3. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. THE MAJORITY OF MISSOURIANS VOTED TO KICK POLITICIANS OUT OF PERSONAL MEDICAL DECISION MAKING, LIKE ABORTION CARE, AND ALL SEXUAL AND REPRODUCTIVE CARE.IT IS YOUR JOB TO PROTECT AND FULFILL THE WILL OF THE PEOPLE. VOTE NO ON HJR 73. The residents of Missouri are NOT dumb, we understood what passing Amendment 3 would mean to women across Missouri.

I am writing in strong opposition to HJR 73. Making abortions legal in Missouri has already been brought to the voters of Missouri and it passed (Amendment 3, Nov 2024). Regardless of how I feel about abortions, I do not agree with lawmakers proposing bills that go against what has already been decided and approved. That being said, I emphatically believe that abortions should be legal and so do a majority of Missouri voters.

Missourians have voted and made it abundantly clear: We support Amendment 3 and reproductive rights, and the will of the people of Missouri will not be overturned. It's shameful and appalling that you're trying. We overwhelmingly, as a state, support reproductive freedom. You don't get to ignore what we voted for just because you didn't like the outcome. I'm absolutely disgusted that I even have to do this and remind leaders that the will of the people should stand. This shouldn't even be a question.

I am a Missouri citizen and attorney. I have worked in the health law field for more than 40 years, representing or being employed by medical providers. The language of this change does nothing to relieve the fear and uncertainty that professionals caring for women experience in providing emergency care. It also significantly reduces the choices women have when facing health concerns during pregnancy, which can be significant without meeting the definitions in this proposed amendment. Additionally, the criminalization of what would otherwise be civil liability for negligence in the provision of reproductive care represents a change that will discourage skilled physicians and other providers from practicing in Missouri. The people of Missouri voted for Amendment 3 because they believed that women should have the right the full range of reproductive care. The concerns I list above relate to my professional experience, but I also believe that this effort to limit the legitimate voice of voters indicates a callous disregard for the rightful rule of law in our state.

HJR 73 would overturn the Reproductive Freedom amendment that people voted for on Nov 5. Missourians deserve to have their votes count. • This bill is in conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on Nov 5, 2024. • Intrudes into a woman's medical decision-making with her health care providers • Two out of every three sexual assaults are not reported to police, according to the Rape, Abuse and Incest National Network and the Bureau of Justice Statistics. In a research letter published last year in JAMA Internal Medicine, one group of researchers estimated that since the overturning of Roe v. Wade, more than 65,500 women and girls in the 14 states with abortion bans in place became pregnant after being raped. Demanding a police report is cruel and harmful.

I'm getting tired of writing to you all every week or two to repeat yet again that we have already voted as a community and showed our full support across party, candidate, and issue lines that we DO NOT want our bodies and reproductive health managed by POLITICIANS instead of MEDICAL DOCTORS. This in an insane power grab to crush the will of the people, and we the people WILL NOT STAND FOR IT. If reproductive care is outlawed, WE WILL ACCESS IT ANYWAYS, AND IT WILL BE DANGEROUS. Politicians so not have a choice in respecting the will of the people and we have spoken many times about this. Thank you for your time (yet again).

One of the great things about this country is our democracy, but how can we claim to be a democratic society when our own representatives refuse to honor and fulfill the will of voters? HJR 73 is a blatant abuse of power, an abhorrent slap in the face to the 1,538,659 Missourians who voted YES on Amendment 3. I don't care if you are personally opposed to Missouri families having the freedom to make their own decisions. I don't care if you believe that you should be judge, jury and executioner for nearly 67,000 mothers annually. Your job is to honor the democratic process and represent your constituents. This goes beyond party politics. This is about upholding the will of the People you have been elected to represent. Hundreds of thousands of Missourians across the political spectrum have spent years putting their blood, sweat and tears into ensuring we have the same reproductive rights as those in our neighboring states like Illinois, yet many of you infantilize your constituents as if we aren't aware of the freedoms you continuously attempt to strip away. We are aware and we will remember and we will shout from the rooftops the cruelty and tyranny you are attempting to uphold. I have known too many women who have suffered because of laws like HJR 73. Our infant and maternal mortality rates rose significantly following the overturning of Roe and the onset of our horrid trigger law. I am newly married and hoping to start a family soon, but I am terrified by the prospect of having a child here knowing that my elected officials would rather I die than be able to make my own choices with my husband and our doctor. The current President said "let the states decide," SO LET OUR STATE DECIDE and stop trying to circumvent democracy just because you disagree with it.

I implore our legislators to vote against HJR 73 as it shamelessly undermines the will of the people and the majority of Missourians who voted to end the state abortion ban and enshrine reproductive freedom in our Constitution this past November. Also this amendment's inclusions targeting the use of surgeries, hormones, or drugs to assist a child with a gender transition is unjust as those decisions are made carefully by the child, their parents, and their healthcare providers. It also targets punitive measures against healthcare providers who are simply trying to do their job. They are experts assisting people in navigating complex decisions and should not be punished for their actions, advice, and expertise. Missourians want and deserve to make their own decisions about their own healthcare, and our bodies are not politicians' business. As a Missourian and a woman who voted in support of women's right to choose and who supports families right to make decisions related to gender affirming care, I am tired of continually seeing what I voted for, what many Missourians voted for, undermined by our state government seeking to overturn the will of the people.

We the people of Missouri voted for what we wanted and it is your duty to honor a majority vote despite it not being what Ann Kelley does not. This undermines our rights. If you repeal what Missouri Voters voted on you are stating we are not intelligent enough to make decisions. In addition and the biggest point/take away. We have seen what happens to women with restrictive laws on healthcare. We can not allow this to happen here! Let healthcare remain between a woman and her physician and keep politics out of it.

Why are we doing this? We have already spoken - THE PEOPLE. I am in opposition to this bill. The voters in this state have already spoken on this issue. To reverse that decision is an outrageous assault on the will of Missourians who value the right to their own autonomy and privacy. I would ask those pushing to overturn Amendment 3 to listen to citizens of MO. We already expressed ourselves. April elections have proved that Missourians are fed up with bad actors who instigate political culture wars just to stoke division. This has got to stop. Listen to the people who already voted in this!! Stop wasting our taxpayer dollars to rehash something - because you don't like the answer. Just stop.

Allow me to first speak as a voter and citizen of this state: Missouri has made their voice clear; **GET YOUR HANDS OFF WOMEN'S BODIES**. Why aren't you listening? Because it doesn't fit your ideal? Because it doesn't fit your agenda? Well, as a lot of us have been told over the years, and even recently, that's too bad. I'm sure you voted the way you felt was right, but the majority of this state didn't agree with you. While politicians have always been seen as greedy and dishonest, what happened to you all? Attempting to circumvent the will of the people goes way beyond any closed door deal. Now, let me speak as a woman: You and your ideals have no right to tell anyone what to do with their bodies. It's does not matter what the situation is, it is none of your business and I think that is what you have the most problem with; staying in your own lane. **Ed Lewis, MIND YOUR BUSINESS**. As a mother of two, I can assure you that no one is forcing kids into "transgender" ideology. Fact: Transgender people can be found in the oldest cultures in the world. This is **NOT** new and I encourage you to educate yourself. I can also assure you that you, sir, have no right to tell my daughters what they can do with their bodies. Ever. **MIND YOUR BUSINESS**. If the MO Senate and House spent more time dealing with **REAL** issues, like funding for the twelve thousand plus children in the foster care system in this state or providing health services to those most in need, instead of being gossipy busy-bodies who probably need to sweep their own porches before they sweep ours, we'd be in a much better state. The people of this state, your constituents, have spoken. Stop wasting time and tax dollars on frivolous nonsense like this and do your job.

Hello, My name is Kenneth Lemmie. I live in St. Charles County, and I am asking that you please honor the will of the people who voted. I OPPOSE HJR 73 BECAUSE I AM ONE OF THE MORE THAN ONE MILLION, FIVE-HUNDRED AND THIRTY-EIGHT THOUSAND, SIX HUNDRED MISSOURIANS WHO VOTED YES ON AMENDMENT 3. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians’ right to abortion, without politicians interfering. THE MAJORITY OF MISSOURIANS VOTED TO KICK POLITICIANS OUT OF PERSONAL MEDICAL DECISION MAKING, LIKE ABORTION CARE, AND ALL SEXUAL AND REPRODUCTIVE CARE.IT IS YOUR JOB TO PROTECT AND FULFILL THE WILL OF THE PEOPLE. VOTE NO ON HJR 73.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I am testifying today in strong, unequivocal opposition to House Joint Resolution 73. This resolution is an outrageous and unacceptable attempt to overturn the will of Missouri voters who recently approved the Right to Reproductive Freedom Initiative. The people of Missouri spoke clearly: we believe in the right to make personal medical decisions without government interference. HJR 73 spits in the face of that vote and insults every Missourian who participated in the democratic process. This Legislature is trying once again to silence the public after being told "no." I'm sick and tired of seeing lawmakers try to override the will of the people just because they don't like the outcome. HJR 73 is not just an attack on democracy—it's an attack on our bodily autonomy, our health care, and our freedoms. It would strip away the constitutional right to reproductive health care and replace it with a cruel and narrowly defined exception-based system that puts lives at risk. Forcing survivors of rape or incest to report to law enforcement and wait 48 hours before accessing care is not just callous—it's dangerous. Many survivors don't feel safe or ready to report. Imposing arbitrary time limits and bureaucratic hurdles is a punishment, not protection. This amendment would also ban gender-affirming care for children—a move that goes against the recommendations of every major medical association in this country. It puts transgender kids in greater danger and punishes families trying to do what's best for their children. On top of all this, HJR 73 opens the door to civil lawsuits against providers and could strip medical professionals of their licenses for simply doing their jobs. That will only worsen Missouri's health care crisis by driving good providers out of our state. Make no mistake: this is a cruel, ideological power grab. It is an affront to voters, to women, to LGBTQ+ people, and to every Missourian who believes in personal freedom. I urge this committee to reject HJR 73 and show respect for the will of the people. Let us keep our rights, our dignity, and our voices intact.

Kessah Headrick Regarding HJR 734/9/2025 My name is Kessah Headrick and I am a concerned citizen of St Louis, MO. I am testifying in opposition of HJR 73, an anti-abortion and anti-trans bill. I believe every person has the fundamental right to access the health care they need without fear of discrimination, prejudice, or barriers to treatment that supports their mental, physical, and emotional well-being. I am testifying today as a survivor of child sexual assault and member of the queer community. According to the Department of Justice, only 310 of 1000 people report sexual assault. A majority of them, like myself, do not. HJR 73 will make it more difficult for sexual assault survivors like myself to get abortions, as they will have to report the assault to authorities to receive care. This bill will disproportionately affect minority groups that have poor rapport with law enforcement. HJR 73 claims that medical emergency, rape, or incest are the only allowable reasons to perform an abortion, to which I, and a majority of MO voters which passed Amendment 3 in Fall 2024, vehemently disagree. The bill also threatens medical professionals that perform prenatal care with removing their medical license in the event of harm, which I see as an attempt to scare doctors into not honoring their Hippocratic oath to provide necessary health care to everyone. Every medical procedure has risks, but abortions are one of the safest procedures that you can get. Requiring a "medical emergency" is only going to result in doctors being unsure if the case in front of them is urgent enough to be treated. The more dangerous option is abortion attempted without a medical professional, or waiting for a miscarriage and risking sepsis. HJR 73 also attempts to introduce anti-trans legislation into the Missouri Constitution by banning transgender healthcare for young people. First, the bill mentions banning gender transition surgeries on those younger than 18, which is an extremely rare occurrence that is heavily guided by medical professionals. In one study that conducted a retrospective chart review of a U.S. national pediatric surgical database, authors were only able to identify 108 trans minors who had received any form of gender-affirming surgery over four years (2018-2021) — accounting for 0.04% of all transgender youth nationwide. Only 10 of these patients were under the age of 16. And approximately 95% of these surgeries were chest surgeries. In all cases, regardless of the age of the patient, gender-affirming surgeries are only performed after multiple discussions with both mental health providers and physicians (including endocrinologists and/or surgeons) to determine if surgery is the appropriate course of action. HJR 73 also would ban the use of puberty-blockers for transgender youth, which again is one of the safest and most effective medical treatments. Puberty blockers are fully reversible, and the process to get them is not simple. Puberty blockers are often the most important treatment that a trans youth can get, as they temporarily stop the body from going through the unwanted and irreversible physical and developmental changes that come with puberty. They are used to give youth time to continue exploring their gender identity before potentially moving on to more permanent health care interventions when they are older. My suggestion to solve this would be for lawmakers to not pass this bill, and for judges to rule laws like this already on the books as

unconstitutional according to Article I, Section 36 as it was passed by voters in the fall of 2024. Thank you for your time, your consideration of these matters and solutions is very much appreciated.

Written Statement in Opposition to HJR 73As a Missouri resident and mental performance coach dedicated to human dignity, personal agency, and the pursuit of health and wellbeing, I write to express my unequivocal opposition to HJR 73. This proposed constitutional amendment represents a dangerous overreach of governmental power into the most personal and complex aspects of individual and family life. It undermines bodily autonomy, threatens the integrity of doctor-patient relationships, and disregards the real-life consequences of denying access to comprehensive reproductive healthcare—including abortion. Legal and Constitutional ConcernsHJR 73 seeks to repeal the "Right to Reproductive Freedom Initiative," which enshrines the essential principle that individuals—not politicians—should make decisions about their own bodies and futures. This proposed repeal violates the spirit of constitutional protections for privacy, liberty, and equal protection under the law. The Supreme Court's decision in *Dobbs v. Jackson Women's Health Organization* removed federal protection for abortion rights—but it did not preclude states from securing those rights for their own citizens. Missouri voters have the right to affirm bodily autonomy and reproductive freedom. HJR 73 would forcibly strip that right away through legislation that prioritizes political ideology over public health, individual liberty, and medical ethics. Medical and Practical RealitiesAbortion is healthcare. It is a necessary, sometimes life-saving, part of a comprehensive reproductive healthcare system. The proposed amendment's carve-outs for rape, incest, and medical emergencies are neither adequate nor practical. Forcing survivors of rape or incest to file a report and wait 48 hours before accessing care is not compassionate—it is retraumatizing. Many survivors never report their assault due to fear, shame, or mistrust of the legal system. This amendment creates additional barriers that will deter vulnerable individuals from seeking urgent care. The amendment also criminalizes essential aspects of healthcare for transgender youth and those providing it, further politicizing medicine and punishing professionals for offering evidence-based, medically appropriate treatment. Moral and Ethical ResponsibilityMorally, I believe we are obligated to trust individuals to make their own decisions about parenthood, health, and their futures. Criminalizing abortion or restricting access to medically necessary procedures does not end abortion—it simply makes it less safe, less equitable, and more traumatic, particularly for those in marginalized communities. Missouri has some of the highest maternal mortality rates in the nation, especially among Black women. Limiting access to reproductive healthcare will worsen these outcomes, deepening health disparities and perpetuating cycles of poverty and trauma. A Call for Compassion and ReasonIf we are to be a state that values life, we must value the lives of those already living. That includes women, girls, and all people who may become pregnant. True support for life includes access to healthcare, education, safe housing, and support for families—not coercive laws that deny people the right to decide what is best for their bodies and their futures. For these reasons, I strongly urge legislators and fellow citizens to reject HJR 73. Let us instead move toward a future rooted in compassion, equity, and the enduring American principles of freedom and personal

agency. Respectfully, Kevin McCulloch

The people of Missouri have spoken. Amendment 3 was put to a vote to Missouri citizens. The majority voted for Amendment 3. Majority rule, does that not mean anything to you? Is it your way or no way? It hasn't even been 6 months! I find it very unfair that you are trying to overturn the will of the people. Maybe we should recall you from office for not respecting the will of the people. I don't see you trying to overturn online betting - of course not! You are only trying to overturn what you and the republican party view as against their agenda. Here's the thing. People are not so black and white - Republican or Democrat. We think for ourselves. We determine what we feel is right. Our beliefs often include Republican and Democratic views. We voted! It is 'By the people, For the People'. Not party not representatives. It is the PEOPLE. And the People have voted. Stop trying to take away Amendment 3. With that being said... what other law prevents another person from having full autonomy over their own body. Yes it is our body (Women/Mother). We know what is best for our body, our life. No politician (especially a man) has any right to dictate what happens to our body. Hands off our body! I am not a democrat or republican. I am an independent. I am a women. I have daughters and granddaughters and I am fighting for them. Women will not be silenced nor will we stand for the blatant discrimination! You want to insist that a women have a baby. Then what? What happens if the mother can not take care of the child? The father? - in a lot of cases that doesn't happen or would be a worst case scenarioThe government? - hardly! Republicans are all about 'saving the life of the unborn'. But at what cost? Those that are currently alive? What about the life of the mother, any other children she may have? The republican party are all for saving the unborn, but don't want to do anything once the child is born. The foster care system is broken. You want to put time and money towards saving children, how about those that are alive and breathing?!!!

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

?House Joint Resolution 73 (HJR 73), proposed by Representative Ed Lewis, seeks to amend the Missouri Constitution to prohibit abortions except in cases of medical emergencies, rape, or incest, with stringent conditions. This resolution undermines the reproductive rights of Missourians by imposing restrictive measures that could endanger women's health and autonomy. ?Notably, HJR 73 would require survivors of rape or incest to report the crime to law enforcement within a narrow 48-hour window to be eligible for an abortion, and limits the procedure to no later than 12 weeks gestational age. This places undue pressure on survivors during a traumatic time and disregards the complexities involved in such situations. Furthermore, by repealing the "Right to Reproductive Freedom Initiative," the resolution dismisses the will of Missouri voters who have previously supported reproductive rights. ?Additionally, the resolution's broad language could have unintended consequences on other aspects of reproductive health care, potentially restricting access to miscarriage care, contraception, and other essential services. The American Medical Association emphasizes the importance of policies that prevent and address systemic racism, explicit bias, and microaggressions in health care settings, advocating for patient autonomy and access to comprehensive care. ?In light of these concerns, it is imperative to oppose HJR 73 to protect the reproductive freedoms and health of individuals in Missouri.

Dear Committee Members, The voters have spoken Missouri residents support reproductive freedom and the right to keep our healthcare private. Stop. Stop wasting our tax dollars on women's, intersect, transgender, men's and families right to healthcare and privacy. Love and support is the first step of a productive and healthy democracy at home, in our towns, cities and beyond. I would never tell you if I had an abortion or not. It is none of your business. Looking at me you would be unable to judge my healthcare choices, who am I. You would only see that I am a good person and Missouri is lucky to have me living here by interactions because I choose to live a life of kindness, respect and the desire to continually learn. Stop stomping on our healthcare rights. Stop.

I strongly oppose HJR 73 (Lewis). This bill is a direct assault on the will of Missouri voters and a dangerous overreach into the personal lives and medical decisions of individuals. In 2024, Missourians made their voices clear by passing a constitutional amendment to protect abortion access, recognizing that reproductive freedom is a fundamental right. These bills, however, seek to undermine that decision by imposing extreme restrictions on abortion care, even in cases of rape and incest. By requiring survivors to report their trauma to law enforcement within a narrow 48-hour window and limiting abortions to just 12 weeks in such cases, they disregard the complexity of these situations and further victimizes those who have already endured unimaginable pain. Missourians have spoken: they trust individuals to make their own health care decisions, and these bills blatantly ignore that mandate. Moreover, these bills go beyond abortion restrictions, targeting essential health care services for transgender individuals by banning the use of surgeries, hormones, or drugs for gender-affirming care. This provision is not only cruel but also medically irresponsible, as it denies evidence-based care to vulnerable populations, including minors. The broad language and punitive measures, such as revoking medical licenses, will have a chilling effect on health care providers, discouraging them from offering necessary care out of fear of legal repercussions. This is not about protecting lives; it is about controlling them. Missourians value personal freedom and the right to make private medical decisions without government interference, and these bills fly in the face of those principles. Finally, the prohibition on public funding for abortions disproportionately harms low-income individuals, effectively denying them access to critical reproductive health care. This is not just an attack on abortion rights; it is an attack on equity and justice. Missourians have already rejected this kind of government overreach by enshrining reproductive rights in the state constitution. These bills are a step backward, a betrayal of the trust voters placed in their government to protect their freedoms. We must stand firm in opposition to these bills and uphold the will of the people, ensuring that every Missourian has the right to make their own health care decisions without fear or coercion. These bills have no place in our state, and we must reject them unequivocally.

I strongly oppose HJR 73, a resolution that seeks to limit access to essential reproductive health care in Missouri. The right to make personal medical decisions, including those related to reproductive health, is a fundamental right that should not be subjected to political interference. This resolution undermines the autonomy of individuals and disregards the significant impact such restrictions would have on women, families, and healthcare providers. Reproductive health care, including access to contraception and abortion, is essential for ensuring that individuals have control over their bodies and their futures. The decision to seek reproductive health care should remain between a patient and their healthcare provider, free from government intervention. The proposed resolution not only infringes upon personal freedoms but also ignores the diverse needs and circumstances that individuals face when making such important decisions. Furthermore, restricting access to reproductive health care has proven to have detrimental effects, leading to increased health disparities, economic hardship, and unnecessary suffering. Missouri should prioritize policies that support the well-being and dignity of all its residents, rather than adopting measures that will only deepen inequalities and hinder access to critical healthcare. I urge lawmakers to vote against HJR 73 and stand with the people of Missouri in protecting the right to safe, legal, and accessible reproductive health care.

Thank you for allowing me to submit public testimony! We, the voters of Missouri, approved Amendment 3 in November 2024. Women need to make the choice about their bodies not men. Abortions are often needed due to medical reasons involving the fetus or mother. Abortions are needed in the case of rape or incest. Women need choices. Abortion is healthcare and women must have access to them as a part of their healthcare when and if the need arises. Miscarriages do happen and can be fatal if a woman bleeds out too much. A woman bleeding out should never be denied healthcare for a miscarriage. That is why we need the protection of amendment 3. Stop overturning the will of Missouri voters! Allow amendment 3 to be in our state constitution as Missouri voters approved the measure!

My name is Kristin Edmonds. I am a resident of Ballwin, MO. I am against HJR 73. The People's decision that women control their own bodies and healthcare decisions should not be overturned , but should be upheld by Missouri lawmakers. The majority of Missourians do not want women to be forced to volunteer their wombs to be controlled by politicians. Reproductive healthcare for women is a personal matter for women and their physicians. The increased deaths of pregnant women after performative abortion bans showed how reproductive healthcare is too individualized and complicated for the legal profession to micromanage. Vote no on HJR 73

I personally worked to get hundreds of signatures of people who supported amendment 3. So many people I talked to who believe abortion should be a choice in Missouri (which is clear from the election results). 1,538,659 Missourians voted YES on Amendment 3– you were elected to defend those rights.- Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. - This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The people of Missouri have voted to enshrine women's rights to abortion and reproductive healthcare. As a father of two girls, born-and-raised Missourian, and respectable human being, I demand you respect the will of your constituents or forever be ashamed of your broken oaths, efforts to overturn democracy, and actions that harm our loved ones.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Good morning, Missouri House, I appreciate your time and dedication to the people of Missouri and for your time in reading my testimony. I am frustrated, however, at how many of you continue to try and alter the outcomes of free & fair elections that you don't personally agree with. 1,538,659 Missourians voted YES on Amendment 3— you were elected to defend those rights, not immediately try to change the will of the people before the amendment has hardly even been in effect. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value and abortion is a decision to be made between a woman and her doctor, not by you and the rhetoric that's out there. My wife and I went through 3 years of trying to conceive our 2nd child, including multiple early miscarriages. To ensure her health after one of them, she went through a medical procedure that is classified as an abortion, one that she may have had to leave the state to undergo if your draconian policies were in place at the time. We were eventually able to conceive a perfect baby girl but the heartache and difficulties we went through do not need to be exacerbated for other couples by your desired legislation. This is not a partisan issue— Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. It does not get more democratic than that and it's highly anti-democratic for you to now be fighting that. Move on to the many other needs this state has and let the will of the people stand. Thank you.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Along with a majority of Missouri voters, I cast my vote November 5, 2024, to ensure a woman's right to choose to terminate a pregnancy up until fetal viability. Roe v Wade protected this right for decades. After returning the decision to the states, it is clear that the Missouri legislature is ignoring its own citizens who voted: "Women and physicians have the right to make this most personal health and welfare decision without the interference of the government. There should be no threat of adverse consequences to women or physicians for exercising this right."

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

My name is Laura Brugger and I am a resident of Saint Louis City. I am writing to express my strong opposition to the proposed anti-abortion bill, HJR 73. This legislation is a harmful step backward, as it infringes on individual rights and disregards the well-being of people who are or may become pregnant. There are several key reasons why this bill is both misguided and detrimental:

- 1. The Right to Choose:** Abortion is a deeply personal decision that should remain between an individual, their doctor, and their loved ones. The government should not interfere in such private matters. Denying this right perpetuates gender inequality and undermines personal autonomy.
- 2. Health and Safety Risks:** Restricting access to legal abortion does not prevent abortions—it only drives individuals to unsafe, illegal methods. This bill would jeopardize the health and lives of many.
- 3. Impact on Vulnerable Communities:** This bill disproportionately harms low-income people, people of color, and those in rural areas who face barriers to healthcare. It worsens existing healthcare disparities and leaves many without access to necessary care.
- 4. Economic and Social Consequences:** Forcing someone to carry an unwanted pregnancy can lead to financial instability, mental health issues, and increased public resource strain. This bill would harm not only individuals but society as a whole.
- 5. Trusting Medical Professionals:** Medical professionals are trained to make the best decisions for their patients, and their expertise should not be undermined by legislation.
- 6. Respect for Religious and Personal Beliefs:** People hold diverse beliefs about abortion, and we must not impose any single viewpoint on the entire population. The government should not legislate healthcare based on one set of religious or moral values.

In conclusion, I urge the committee to reject this harmful bill. We must protect the right of individuals to make their own decisions about their bodies and their futures, and ensure that all people, regardless of their background or circumstances, have access to the healthcare they need.

I believe every woman should have the right to do what they want with their own body. I do not think it is fair or ok for the government to have a say in what any woman does with her body. There is no one governing men and their bodies and the government needs to keep their hands off women. Abortion care is health care for women.

This bill is in direct opposition to the rights Missourians voted to establish and protect in November. This is not the will of the people, and elected officials should not abuse their positions to promote their own agendas. Abortion is HEALTH CARE, and the dire situations many women have faced since the unjust reversal of Roe vsWade clearly demonstrate that. This is not just an assault on women, but the children, spouses, friends, and family members of women. This hurts everyone, and is a gross overstep of government into women's health and lives.

I am a 53 year old mother of three children. When I was 33, I was married, pregnant, with a three year old daughter at home. I miscarried and my ob-gyn at the time manipulated my wishes for a DNC by delaying the procedure for a week. I started to miscarry at home while my husband was at work and I was alone with my daughter. I had to be rushed to the emergency room. I lost a lot of blood. It was dangerous and scary to think what might have happened. It never should have happened, as I learned from other doctors (in Illinois, no less). Reproductive healthcare is a human right.

Protecting abortion access is essential for ensuring that people can make decisions about their own bodies, health, and futures. Abortion bans take away personal freedom, often disproportionately harming those who already face barriers to healthcare. Everyone deserves the right to safe, legal, and compassionate reproductive care without government interference. In November 2024, Missouri voters approved Amendment 3, enshrining the right to reproductive freedom, including abortion, into the state constitution. This decision reflects the will of the people to have autonomy over their reproductive health decisions. Efforts to impose another abortion ban would contradict this democratic choice and undermine the constitutional amendment passed by the majority. Respecting the outcome of this vote is essential to honor the democratic process and the expressed desires of Missouri's citizens.

I am writing in opposition to HJR 73. Missouri voters have already voiced their wishes regarding wanting access to abortions. This bill is insulting to Missouri voters, an attempt to undermine a democratic process, and a waste of taxpayer money. The government does not get to define what constitutes a "medical emergency." That is between a woman, her family, and her doctor. In addition, making the threshold "medical emergency" puts women at risk, as women then must reach a dangerous threat to her health before receiving medical care that could avoid long-term complications to her health, and possibly be too late. I cannot overstate how much I despise this bill.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Our state has already voted in favor of abortion and the freedom of individuals to choose our own reproductive healthcare. This is a blatant attempt to overthrow the will of the people. I oppose this and am ashamed of our representatives for supporting this measure.

It continues to amaze me that the legislature is so intent on undermining the will of the people in our state. It is not the legislature's place to decide whether Missourians got it right or not. It is the legislature's responsibility to enforce and protect what the people have decided. This resolution directly interferes with deeply personal healthcare decisions that should remain between women, their families, and their physicians. By attempting to overturn what Missourians voted for in November, you are once again removing agency from the very individuals most impacted. I stand firmly in opposition of HJR 73, a bill, that de-centers women, their families, and their physicians from making appropriate decisions about their healthcare.

I am a healthcare provider with decades of experience working with children in the school districts, in foster care, in the hospital, and in their own homes. I have worked with children from many different backgrounds, as well as their families. I've spent a lot of time with families dealing with special needs, Multi-Generational care, income barriers, and limits to health care access. You may wonder how this experience is relevant to your legislation, and I would invite you to imagine the incredible suffering of families are dealing with across the state of Missouri, and the country right now. Finances, access to healthcare, access to food and reliable housing are incredibly limited for many families right now. To put an individual who is unable to carry a pregnancy, whether by choice (although typically and statistically not due to choice) or not, through the incredible duress of having to carry a risky or unwanted pregnancy is horrific. It is illegal and unethical to obtain organs or specimens from a human body, alive or dead, without consent . What do people own IF NOT THE RIGHTS TO MAKE CHOICES ABOUT THEIR OWN BODIES?! One need look no further than the state of Texas, where abortion restrictions have caused previously healthy young women to die due to lack of access to health care, leaving them septic, and eventually dead. DEAD. This also does no good for the children that this legislation allegedly purports to serve. If you leave an infant with no mother, or with a medical condition in a political climate and economy that will not allow them what they need to survive (if they are even able to survive at all), you are betting on, and abetting, their suffering. Unrelated to all of this, this legislation goes directly against what Missouri voters have showed up for and chosen themselves. To be elected government officials who strip the demands of their constituents is to be deliberately defiant and distrusting towards the population that you claim to serve, that you were elected to serve, is unconscionable. Hear our demands then, and hear our demands now! Stop trying to overturn what Missourians have stepped forward and claimed as their own autonomous decision. Leave abortion access intact, and reinstate the capacity for providers to deliver necessary and life-saving health care, you cowards!

Hello, My name is Lauren Marshall. I live in St. Louis County, I AM HERE TO OPPOSE HJR 73 BECAUSE I AM ONE OF THE MORE THAN ONE MILLION, FIVE-HUNDRED AND THIRTY-EIGHT THOUSAND, SIX HUNDRED MISSOURIANS WHO VOTED YES ON AMENDMENT 3. This is not a partisan issue—Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians’ right to abortion, without politicians interfering. THE MAJORITY OF MISSOURIANS VOTED TO KICK POLITICIANS OUT OF PERSONAL MEDICAL DECISION MAKING, LIKE ABORTION CARE, AND ALL SEXUAL AND REPRODUCTIVE CARE. IT IS YOUR JOB TO PROTECT AND FULFILL THE WILL OF THE PEOPLE. VOTE NO ON HJR 73.

I strongly oppose a ban against access to life-saving care. There are laws against being forced to donate an organ despite that being life-saving and the extensive need for recipients because of the bodily autonomy of the donor. That autonomy should extend to women carrying a fetus that would not survive due to gestational age or complication risking the life of the woman carrying. This does not even address the psychological trauma of situations where a woman could be forced to carry due to rape or incest and terminates PRIOR to a viable gestational age to prevent psychological trauma.

Missourians voted for The Reproductive Freedom amendment on November 5, 2024 to allow abortion up to fetal viability. This bill would overturn it This bill dismisses majority rule and imposes the will of a minority Research published last year (JAMA Internal Medicine) estimated that since the overturning of Roe v. Wade, more than 65,500 women and girls in the 14 states with abortion bans in place became pregnant after being raped This bill is in conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on November 5, 2024 (HB195)

Dear Members of the Committee, My name is Leigh Woodworth Haught and I live in Greene County. I am writing to express my strong opposition to HJR 73. I am one of the more than 1.5 million Missourians who voted yes on Amendment 3. This effort was supported by people from across the political spectrum—Republicans, Democrats, and Independents—who came together to protect the right to make personal medical decisions without government interference. Missourians made it clear: decisions about abortion and reproductive health should be made by individuals and their doctors, not politicians. Amendment 3 reflects the will of the people, and it is your responsibility to respect and uphold that. I urge you to vote no on HJR 73 and stand with the majority of Missourians who believe in protecting our rights and our voices. Sincerely, Leigh Woodworth Haught Springfield, Greene

At what point is the legislature of Missouri going to stop ignoring and defying the constitutes that voted them into office and voted to enshrine a woman's right to bodily autonomy already. You are not experts, you are politicians and you need to let the will of the people prevail and focus on things that Missouri actually needs - not waste your voters time and resources to grandstand and try to bypass the will of the people. Go focus on things like improving education from 32 of 50, increasing teacher pay from 50th for new teacher pay and 47th for average teacher pay and increasing GDP from 21st in the nation. Grandstanding and virtue signaling is not helping the people of Missouri. Do better.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

My name is Leslie Ortvals, I was born and raised and currently reside in Boone County. I am writing in **OPPOSITION** of HJR 74. Amendment 3 won by MAJORITY this past November. Why is it that we are here AGAIN? My views on abortion have been shaped by personal experiences and the stories of others. I have never needed an abortion, but I may need one in the future to protect my health. I may also want one for personal or professional reasons. Both scenarios are valid. I want people to know you don't have to have a long story or a personal experience or anything at all. Abortion is a fundamental human right. What I wish more people understood is that restricting reproductive rights is just another form of oppression, a way to control women, BIPOC, Gender and Sexual minorities and other marginalized people and communities who don't fit whatever "mold" they've imagined for us. Our country is broken. Our political system is broken. Our health care system is broken. Our people are broken. Standing together in opposition of HJR 73 helps us repair some of what is and continues to be lost: hope. They tried to silence our stories, telling us we only had 5 people who could give a 2 minute testimony, and then the rest of us could just say "in opposition" They want us angry and disorganized, afraid to take a stand, and exhausted to the point of giving up. But we won't. I have polycystic ovarian syndrome (PCOS) a mast cell disease, and a few other chronic, life long illnesses that significantly impact my ability to conceive and maintain a healthy pregnancy. My multisystem chronic illnesses increase my risk for pregnancy complications significantly. I could easily encounter hyperemesis gravidarum, miscarriage, pre-eclampsia, premature labor and delivery, gestational diabetes, and other serious cardiovascular events. My husband and I have decided together we will not pursue having a family, despite my yearn for one, unless we are sure I can receive timely and safe emergency care if I need it in my pregnancy. Fertility issues are on the rise. roughly 1 in 10 have PCOS (many of which go undiagnosed) and the percentage is around the same for couples and individuals struggling with fertility. This is due to many factors—hormonal birth control pills, food, stress, environment, water, and exposures to plastic etc. This topic is understudied and underfunded, so we are constantly having to advocate for ourselves with doctors who refuse to acknowledge these issues- much like we do in hearings like HJR 54 and HJR 73. Twice a week, I volunteer at a nonprofit healthcare organization that provides reproductive health services, STD testing, and gender affirming care. I spoke to a doctor the other day about her experience as a physician with abortion bans both in practice and with her patients. She shared a story about a Medical Student who she had worked with, who tried to secure an additional clinical site rotation to gain necessary abortion care training. Despite her professionalism and advocacy, they denied her request, citing potential funding losses as their reasoning. This is alarming. Abortion care is recognized as an essential component of medical training, yet institutions are placing financial concerns above medical education and patient care. I found a statement made by The American College of Obstetricians and Gynecologists, who have the highest standards of clinical practice and continuing education for the nations women's health physicians. "The science of medicine

is not subjective, and a strongly held personal belief should never outweigh scientific evidence, override standards of medical care, or drive policy that puts a person's health and life at risk. Pregnancy imposes significant physiological changes on a person's body. These changes can exacerbate underlying or preexisting conditions, like renal or cardiac disease, and can severely compromise health or even cause death. Determining the appropriate medical intervention depends on a patient's specific condition. There are situations where pregnancy termination in the form of an abortion is the only medical intervention that can preserve a patient's health or save their life. As physicians, we are focused on protecting the health and lives of the patients for whom we provide care. Without question, abortion can be medically necessary."Abortion is a deeply personal, often medically necessary decision- but not always. Regardless, it is not a choice made lightly, nor is it something that should be stigmatized. stand in solidarity with the of the sexual assault survivors in this room , I hear you, I see you, I am you. People deserve compassion, not judgment, when making healthcare decisions. Quite frankly, not one of the politicians who vote in favor of this HJR care about the people. You care about yourselves, your pockets, and what the men around you think. Get over it. Reproductive freedom is not just about abortion. It is about bodily autonomy, equality, and the right to make personal medical decisions without government interference. It means having access to effective, affordable, and high-quality care tailored to individual needs. Whether that means getting reproductive care, STI testing, declining birth control, obtaining birth control, taking Plan B, or accessing an abortion, it is about choice. Like I said in the hearing room tonight when my voice was silenced (what happened to the right to free speech?) , because of these anti-abortion, anti-democracy politicians, I have found my voice, I've found my power, and I am NOT going anywhere. I'll see you guys next time! ;)

Hello, my name is Libby Becker and I live in Rogersville, MO. I want to say how disappointed and concerned I am seeing this joint resolution. I volunteered my time by knocking over 100 doors for Amendment 3 last August and spoke with my neighbors regarding their right to abortion care. People on BOTH sides of the aisle support Amendment 3. Republicans and Democrats. This is a non partisan issue. After lengthy discussions at many doors last year, I can confidently say the people know what they voted for. WE know what we voted for. The right to an abortion is a decision a woman and her doctor should be making together. Not politicians. We want the right to our bodily autonomy without government overreach. Over 1,500,000 people voted YES on Amendment 3 to take back our right to privacy, our right to healthcare, and our right to bodily autonomy. Missouri is pro reproductive healthcare. Taking away abortion access does not and never will stop abortions. It will only stop safe ones. I urge you to not support this resolution and support the voice of your constituents.

Abortion is so important for so many women. There is no law that tells men what they can and can not do with their bodies, so why should there be one for women. Pregnancy from the result of rape/incest causes even more emotional pain. However, no one is saying that children born from these situations are less than, people just want women to have the right to choose. Ending abortion will just causes more deaths due to unsafe abortion attempts.

Healthcare is a very personal choice, because proper healthcare looks different for everyone. Proper healthcare includes choices on when to go to the doctor, freedom to explore treatment plans, and freedom to choose the path that is best for your life. Because of this, healthcare decisions for an individual cannot be legislated ethically. Every situation is different depending on the patient, their values, and the path that has led them to treatment, and therefore it is no one's right to take a choice away from them based on their ideas of what treatment should look like. Medical school takes intense training, and we trust that it creates knowledgeable doctors that can make good decisions. As legislators are not medical professionals, there seems to be no reason for them to decide what goes on between a doctor and patient. Healthcare cannot be generalized, because every patient is different.

I am a Missouri centrist conservative and I believe women should have the absolute right to make choices that have anything to do with their own reproductivity. Women should have a right to abortion if they so choose that will be between them and God. The people of Missouri have already spoken and had over 63% support of women having access and the ability to have an abortion if so they choose. Denying the public of their vote is tyrannical.

1. There were 1,538,659 Missourians who voted YES on Amendment 3. As an elected representative, you should defend our right as citizens and comply with our vote. 2. Reproductive freedom is a right for Missouri citizens. 3. Missourians voted to clarify their/our support for access to abortion and all reproductive health care. It is your responsibility to uphold the majority vote and not to impede the clear choice of Missourians who voted YES on Amendment 3. 4. In addition to Missouri, Arizona, Colorado, Kansas, Montana, Nevada, and Ohio voted to constitutionally allow abortion and reproductive freedom. There is a clear majority for the mandate that voters want reproductive freedom. I ask you to respect our rights as citizens because we voted FOR the passage of Amendment 3.

- 1,538,659 Missourians voted YES on Amendment 3— you were elected to defend those rights.- Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. - This is not a partisan issue— Republicans, Democrats, and Independents from across the state collected signatures, signed the Agreement 3 petition, and voted YES to establish Missourians' right to abortion, without politicians interfering. I oppose HJR 73, because my abortion 37 years ago removed my dead fetus and allowed my uterus to heal while my husband and I prepared to try to get pregnant again. That abortion was not a medical emergency, but rather a reproductive health care decision that my husband and I made with our doctor that we thought was in our best interest. In later years I had gallbladder surgery that while lit was not an emergency, it was in my best interest to have the surgery to prevent an emergency. Same. Again, please join me in opposition to HJR 73. There are just too many variables that impact women's reproductive health for politicians to govern women's private decisions, and it's morally wrong that some try to do that.

This is a direct attack on our newly enshrined Right to Reproductive Freedom. I am writing to urge you to abide by the will of Missourians and oppose this harmful measure. Abortion bans are very dangerous. The abortion ban in Texas has shown:- Infant deaths in Texas rose by nearly 13% the year after the ban.- The number of women in Texas who died while pregnant, during labor, or soon after childbirth rose by 56% following the 2021 abortion ban.- Sepsis rates in women hospitalized for losing second-trimester pregnancies increased by 50% after the abortion ban took effect. The people of Missouri have spoken and we want abortion rights. The reason for wanting and/or needing to get an abortion doesn't matter. Those who have a "pro-life" personal belief should simply not get an abortion instead of trying to force their religious and/or personal beliefs on everyone else. Please support your constituents and keep abortion enshrined.

I deeply believe reproductive freedom is a right and a Missouri value. As someone who knows and loves people who have had abortions, I know stripping away that right to bodily autonomy is truly devastating. I would not exist without the right to reproductive freedom. Taking away these freedoms makes me afraid to live in Missouri. I want to feel protected and supported by my government not threatened. HJR 73 is a blatant attempt to undercut our rights and deny Missourians the ability to make decisions that are best for them – NO on HJR 73.

I urge you to oppose HJR 73. Missourians voted to keep abortion access in tact, yet legislators continue to fight against our wishes by proposing bill after bill to repeal it. Our state wants reproductive freedom and for its females to have agency over their own bodies. This bill strips away our rights, one we have upheld multiple times over. And yet, lawmakers feel they know what's "best" for us. It is demeaning, to say the least. Furthermore, the language of the bill stating that a person would need documentation that they reported their rape or incest to law enforcement is disgusting. Most victims do not report the crimes due to mistreatment or lack of follow through by police. And in many instances you are forcing minors, young girls who have been brutalized, to carry out these pregnancies. A child should not be responsible for reporting a crime when she is dealing with the trauma and fallout from the act. Women have been the victims of sexual crimes for all of history. One way to respect us as human beings is to acknowledge that we should have agency over our own bodies. It is cowardly to fear empowerment of any person or group. I urge you to oppose this bill and respect Missourians right to reproductive freedom.

The state legislature should be ashamed of themselves for undermining the will of the people. The state overwhelming voted to make abortion legal in the state. The attempts to undermine the democratic process by passing a law to undo the votes demonstrates their craven, selfish and spiteful disregard for the health of women across the state and trampling of individual rights to bodily autonomy. As representatives of the state, they swore an oath to uphold the state and federal Constitution. The efforts to pass this law prove they are failing to honor that oath. If they weren't such cowards, they should go and speak with the people they are harming face-to-face to tell them in person how little they care for their well-being. Kick rocks.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I was an adult before Roe v Wade was decided. The fact that abortion was illegal did NOT prevent abortion. It just made it dangerous. There was no regulation as to who performed the procedure or how it was performed. Woman died. Women were afraid to get help if things went wrong. They were raped. They died of infections which could have been treated. Making abortion illegal makes it more dangerous. Women who have been impregnated by rape or incest should not have to share their shame in order to terminate a pregnancy they did not want, the product of which they would loath. Dealing with a pregnancy is a very personal decision. It is wonderful when it is celebrated, but it can be tragic when it is unwelcome. And children who are not wanted do not thrive.

Hello my name is Lorelei Standish and I live in the city of Saint Louis. I am writing my testimony is opposition to HJR 73. I am a resident who supports proposition 3 and the right to medical autonomy without politicians interference. Residents of this state have proven they desire access to abortions, as well as other reproductive health care, via their passing of this measure in the November election. This is a bipartisan issue with support from voters from many political affiliations. Please represent your constituents and vote no on HJR 73.

My name is Lorelei and I'm from St. Louis and I am in staunch opposition to this bill. Abortion is healthcare and thus must remain the choice of the pregnant person and their healthcare provider ONLY. I myself am a Christian and I believe deeply in the separation of church and state and Missouri must not allow any religious views to dictate the laws of our state. Individual belief in whether abortion is right or wrong should not trump individual choice on what is healthy and safe with regards to an abortion. Missourians overwhelmingly voted to legalize abortion and this bill goes against the majority of Missouri voters and constituents. Do not pass this bill.

I ask you to please uphold the results of the vote in support of Amendment 3 that was held in November 2024. You rewanted this decision left up to the states and Missouri decided so you have no right to overturn it just because you didn't like the result. Women's lives and safety is at stake so please do not reverse the people's decision. This is a blatant attempt to undercut our rights and deny Missourians the ability to make decisions that are best for them – NO on HJR 73.

The majority of Missouri voters voted for Amendment 3 last November. Legislators' repeated attempts to undue the will of the people only serve to anger proponents of legal access to abortion and to strengthen our resolve. Pretending to allow exemptions for rape and incest is only a public relations move. To expect a child to make a police report if she is raped by a father, grandfather, uncle, brother, etc. is an insurmountable hurdle. And the vast majority of rapes of adult women are never reported. These so-called exemptions do not protect women and girls. The only way to do that is to maintain legal access to abortion in Missouri. I urge you to vote NO on HJR 73.

I believe that public policy in a pluralistic society must affirm the constitutional right to privacy of the individual to make reproductive choices. At the 2024 Convention, delegates passed a resolution reaffirming the Leagues commitment to fight for reproductive rights and justice, including bodily autonomy, privacy, reproductive health, and access to contraception and abortion. (LWVUS Impact on Issues 2024-2026, p. 64-68)

As a Missouri resident, I strongly oppose HJR-73. The people have already voted on this issue, continuing to argue bills about this it goes against the will of the people and is a waste of taxpayer money. It is time for Missouri legislators to stop overturning what their constituents have voted for!

This bill does not protect life. Instead, it puts girls and women at unnecessary risk, both physically and emotionally. I have personally and professionally seen the detrimental and devastating effects of these bans on the health of women. I have watched women suffer and die unnecessary. We cannot let this happen in Missouri.

Limiting a woman's ability to make decisions about her own body through restrictive abortion legislation is an infringement on her fundamental rights. A woman should have the autonomy to make choices about her health, her future, and her family without interference from lawmakers who often lack an understanding of the complexities of individual circumstances. Policies that restrict abortion are not simply about preserving life, but about controlling women's rights and freedoms. These decisions should remain in the hands of the woman, who is the one directly affected by the pregnancy. Restricting access to abortion ignores the reality that every woman's situation is unique—whether she is facing financial hardship, health risks, or other personal factors. For example, in cases of rape or incest, forcing a woman to carry a pregnancy to term disregards her trauma and personal well-being. Similarly, banning abortion in situations where a woman's health is at risk places her life in danger, which should never be the role of government—to jeopardize the health and safety of its citizens. Legislators who limit a woman's right to choose are not only undermining her autonomy but are also ignoring the broader societal impacts. Denying a woman the power to decide what happens to her own body can have far-reaching consequences, from economic struggles to mental health challenges. Instead of creating laws that restrict a woman's access to necessary healthcare, the focus should be on ensuring access to comprehensive reproductive care, education, and support systems. A woman's right to make decisions about her body should be respected and protected, free from political interference or legislative control.

Removing women's right to choose will not stop abortions. It will criminalise miscarriages & allow women (fully-developed, conscious human beings) to die to keep fetuses (a fistful of cells) alive. It is a disgusting overreach of power. Why are ya'll so hellbent on keeping the unborn alive, just so they can die from easily treatable diseases? Just so they can die from being gunned down in their kindergarten, middle, high school classrooms? Protect the unborn, until they're grown enough to disobey.

I oppose HJR 73 because it overturns the will of the people. The majority of Missouri voters have made it clear that they want abortion to be legal. Why does the legislature, who were elected by the people to do the will of the majority of the people, think it's okay to impose the will of the minority on the majority. That is not how democracy works. This country is a democracy, not an autocracy. My ancestors fought for democracy in 1776 and almost every American war since then. What makes you think you have the right to throw that away?

I voted to enshrine reproductive rights for women and I am livid that the Mo Republican Party is trying to disenfranchise my vote. Women die when abortion care is restricted. The government needs to stop trying to get between me and my doctor. I am 46 years old and have been medically advised not to get pregnant because it would risk my life. I have an IUD and take every precaution. If I get pregnant the only viable medical choice for me is an abortion. Are you telling me I need to die and leave my existing child an orphan because of YOUR religious beliefs that I do not share. I follow the Bible and life begins at the first breath after birth. That is my faith and you violate my right to free expression of my faith by jamming your interpretation as to when life begins down my throat. Your actions are anti American and anti Constitutional

We live in a democracy. The voters of Missouri sent a definitive message with Proposition B. Respect that decision. Respect each individual's right to control his/her body. Respect our abilities to make the decisions that are wisest for each of us. Let scientific knowledge and medicine guide the healthcare choices each of us makes. Healthcare choices can not be legislated. Legislators are elected to listen to voters. Legislators are not elected to make my healthcare choices. The voters of Missouri spoke loud and clear. Vote against HJR 73.

Hello, my name is Maggie Rodgers and I'm from Christian County, Ozark, Missouri. I am grateful for the online testimony platform as this allows me to share my beliefs and values with you, my elected representatives, as traveling is difficult due to my handicap. Today, I want to voice my disapproval and concern with the actions being taken with HJR 73. HJR 73 should not be trying to put any limits on abortion as we, ONE MILLION, FIVE-HUNDRED AND THIRTY-EIGHT THOUSAND, SIX HUNDRED MISSOURIANS, voted to add reproductive freedom to the Missouri Constitution last November. Least of all, HJR 73 should NOT be limiting victims to make a life altering choice in 12 weeks or asking for documented proof. There is absolutely no need for that embarrassment because their reproductive health is none of your business. Vote "NO" if you actually care about victims rights. PLEASE, stay out of everyone's personal medical decisions and this includes our transgender Missouri citizens. They are also important members of our community and should be consulting doctors for their needs NOT politicians. How dare you threaten Missouri Doctors for your own personal religious beliefs. Finally, I want to ask in rhetoric; How is this not wasting Missouri's time and money? 1.5 million Missourians voted on Amendment 3 and then we killed HJR54. This is just a new number-73, and definitely should be seen as a continuation of the tantrum called HJR 54. HJR 73 states that it is also similar to SJR 33 (2025). Please respect your voters by voting "NO" on HJR 73 and ending this insulting waste of time. Sincerely, Mrs. Rodgers

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

TESTIMONY IN OPPOSITION TO HJR 73Planned Parenthood Great Plains Votes (PPGPV) vehemently opposes House Joint Resolution 73, as it would enshrine into Missouri's constitution a dangerous, near total abortion ban and is completely contradictory to the voters' will to protect reproductive freedom in the state. Amendment 3, now in effect Missouri, states that the "right to reproductive freedom shall not be denied, interfered with, delayed, or otherwise restricted." This Joint Resolution is an affront to democracy and the will of constituents, including voters represented by the Sponsor and Representatives that support this dangerous amendment.THE RESOLUTION IS A DIRECT AFFRONT TO THE WILL OF THE PEOPLEIn November 2024, the majority of Missourians voted to ensure that access to comprehensive reproductive healthcare, including abortion, was protected and not infringed upon by the legislature. The people of this state added Amendment 3 to the ballot through the petition process, whereby it passed by majority vote. Now, through this Joint Resolution, the majority party of the House of Representatives is attempting to circumvent the will of the people by proposing a constitutional amendment that would interfere in the patient-doctor relationship for more than 1 million Missourians of reproductive age. The people of Missouri lived under a near-total abortion ban and took direct action to restore their rights. The legislature should not politicize the people's call for private medical care without government interference.The majority party of the House of Representatives were elected to office to represent the citizens' interests and concerns in government, and yet this Joint Resolution purports that representatives know better than their constituents, including about their medical care and personal family decisions. The initiative petition process is an important function of our state governance as it allows the people to be heard when the majority party refuses to act at the behest of the majority of the state's residents. Rather than supporting the people who live in their districts and voted for Amendment 3, the majority party is sidestepping the people's vote. This Joint Resolution would amend Missouri's constitution to allow abortion care only in extremely narrow circumstances, effectively reinstating a near total ban. This HJR prohibits abortion except in the cases of medical emergency, fetal anomaly, rape, or incest. This HJR further limits the rape and incest exception by limiting abortion access by gestational age at 12 weeks and requires a police report at least two days before the abortion may be obtained. MEDICAL EMERGENCY EXCEPTION DENY FUNDAMENTAL RIGHTS TO MANY PATIENTS, PUT LIVES AT RISK, AND DISCOURAGE MEDICAL PROGESSIONALS FROM PRACTICING IN MISSOURI Many emergency department physicians across the country in abortion restrictive states struggle to know when and how to provide abortions for their patients as state laws are not written in precise medical terms. This lack of clarity has had a chilling effect on emergency department healthcare professionals as they fear they may be criminally prosecuted for performing a lifesaving abortion if a court determines their professional judgment did

not reach the vague qualifying exception to abortion bans. Many doctors say that real-world pregnancy emergencies aren't always so cut-and-dried, in part because it can be challenging to determine just how close to danger a pregnant patient truly is. This fear puts people who are able to get pregnant at risk of life altering physical injuries and death, along with the mental anguish experienced by those who survive this egregious lack of care. Abortion ban legislation also has a direct impact on physician shortages across the country. In Missouri, physician supply lags behind patient demand, ranking in the bottom half of states for primary care and physician availability. In fact, 111 of Missouri's 114 counties are health professional shortage areas, which have 3,500 or more patients for every one provider. By 2030, Missouri is projected to be short 3,102 doctors. An Association of American Medical Colleges survey showed that Ob-GYN residencies dropped by 10% in states with abortion bans and 6% in states with abortion restrictions, with an overall drop of 1% in all specialties in states with abortion bans. A separate survey conducted by the American College of Obstetricians and Gynecologists of third and fourth year medical students supported these findings, finding that three quarters of these students said that abortion laws would influence where they would apply for residency and half said that abortion laws would influence which specialty they would apply to. Current and would-be physicians recognize that abortions are necessary, potentially lifesaving procedures, and are not interested in practicing in states that restrict their abilities to provide necessary medical care. Abortion ban legislation, like this Joint Resolution, has and will continue to deter people from learning how to be physicians and practicing medicine in those states. **MINORS SEEKING GENDER-AFFIRMING CARE DESERVE LIFESAVING, EXPERT TREATMENT** In addition to attacking the health of patients seeking abortion care, the majority party members who support this legislation also put further at-risk minors – and the parents supporting them – who seek gender-affirming care from medical experts. The joint resolution creates duplicative, dangerous restrictions on critical, life-saving care. In 2023, the state codified egregious anti-trans legislation (SB 49), that banned transgender affirming surgery for minors and banned access to hormone therapy and puberty blockers for minors not already receiving medicinal gender affirming care. However, acknowledging that an exemption and additional information was required due to the legislature's lack of understanding of proper medical practices for trans-youth, current law allows minors who were receiving hormone therapy or puberty blockers prior to August 28, 2023, to continue receiving care, and placed a sunset on the ban of hormone therapy and puberty blockers for minors on August 28, 2027. This exception and sunset provision were legislatively agreed upon to ensure that care for minors already in treatment was not disrupted and to provide the legislature with additional time to analyze the efficacy of a complete ban on gender affirming for minors. Notably, established medical guidance from the relevant national academies directly contradicts the legislature's interference in care. Still, the legislature now would use this joint resolution to permanently intrude on the patient-provider and parent-child relationships. This HJR has the potential to override the current exception and sunset provision at the detriment to trans youth. Anti-LGBTQ+ and anti-trans legislation has been shown to have detrimental impacts to the mental health of these communities. According to a recent study by the Trevor Project, nine out of ten (90%) LGBTQ+ young people reported that recent politics negatively impacted their well-being, with transgender and nonbinary young people reporting an even greater degree of negative impacts (94%), and nearly two out of five LGBTQ+ youth and their families reported considering moving to a different state. Constitutional amendments, which supersede all other state law, must be voted on by the people, and are usually accompanied by voracious voting campaigns, are only going to exacerbate and provide a heightened negative experience for Missouri's trans youth and their families. Gender-affirming care for patients under age 18 is considered best medical practice by major medical organizations—including the American Academy of Pediatrics, American Medical Association, and American Psychiatric Association. There is consensus in the medical community that gender-affirming care is medically necessary, safe, effective, and lifesaving. Specifically for youth under the age of 18, gender-affirming care consists mostly of access to mental health care, as well as puberty blockers and hormone treatments—both of which are reversible. Moreover, the American Academy of Pediatrics has found evidence that denying gender affirming care may rise to the level of medical neglect and emotional abuse, as denial of gender affirming care has the potential to lead to physical and psychological harm and undermines a child's self-worth and psychological development. Denial of gender-affirming care has been shown to contribute to depression, social isolation, self-hatred, risk of self-harm, and suicidal ideation and behavior. Transgender youth are more likely to feel depressed and anxious, harm themselves, or attempt suicide. Transgender and nonbinary youth are 2-2.5 times as likely to experience depressive symptoms, seriously consider suicide, and attempt suicide than their cisgender LGBTQ+ peers. Access to gender-affirming care—particularly puberty blockers—has been shown to decrease the likelihood of suicide and depression among transgender and nonbinary youth. Furthermore, individuals who are accepted and supported in their gender identity show better mental health and quality of life outcomes. Not only is gender affirming care for minors considered best practice among leading medical institutions, these institutions consistently oppose legislation that

bans access to this life saving health care. The American Medical Association calls this type of legislation “dangerous legislative intrusion into the practice of medicine,” and emphasizing that it is “imperative that transgender minors be given the opportunity to explore their gender identity under the safe and supportive care of a physician.” The American Psychiatric Association “opposes all legislative and other governmental attempts to limit access to [mental health support and gender-affirming care services] for trans and gender diverse youth, or to sanction or criminalize the actions of physicians and other clinicians who provide them.” For these reasons, we firmly urge the Children and Families Committee to oppose and hold the House Joint Resolution 73. For more information or any questions, please contact: Maria Morrissey, Director of Legislative Affairs and Organizing, Planned Parenthood Great Plains Votes at maria.morrissey@ppgreatplains.org (573) 500-2686. Planned Parenthood Great Plains Votes (“PPGPV”) is the political and advocacy arm of Planned Parenthood Great Plains (“PPGP”). PPGP offers expert, compassionate sexual and reproductive health care to patients at four health center locations in Missouri. Our services include pregnancy testing, PrEP (pre-exposure prophylaxis), PEP (post-exposure prophylaxis), menopausal symptom management, annual exams, STI testing and treatment, and emergency contraception.

Missouri has voted time and again to provide reproductive rights, including abortions, to Missourians. I oppose this bill in its attempt to take away those rights. As our elected officials, you have a duty to represent us and our voices. We have made our position clear by voting yes for amendment 3 and repeatedly blocking attempts to take away represents. It's time for our law makers to do their job, which is represent the will of the people. Your job is not to carry out your own personal agenda. Your job is to represent your constituents. I oppose this bill and will continue to demand reproductive rights for all Missourians.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Missourians voted for The Reproductive Freedom amendment on November 5, 2024 to allow abortion up to fetal viability. This bill would overturn it. This HJR would require reporting a rape in order to receive an abortion. Two of every three sexual assaults are not reported to police (Rape, Abuse and Incest National Network and the Bureau of Justice Statistics). This bill is in conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on Nov 5, 2024. The League believes that public policy in a pluralistic society must affirm the constitutional right to privacy of the individual to make reproductive choices. The League of Women Voters of Missouri goes on record in opposition to HJR 73.

It is a statement of fact that banning abortion and limiting reproductive care results in the deaths of innocent women. This is a first world country with modern medicine. We should not be sliding backwards in terms of healthcare. Regardless of one's moral stance on voluntarily ending a pregnancy, the health and safety of the people should come first.

I am Marti Moore from Kansas City. In 1971 I had an abortion in Kansas where, thank God, it was legal. I am sorry I wasn't in a position to raise a child, but I never regretted ending the pregnancy. These decisions should be made by women and their healthcare providers, not legislators, who do not understand all the complexities of pregnancy. The voters of Missouri voted decisively to return these decisions to women with the help of medical professionals. This worked in Missouri for many years and the majority of voters wanted to end the ban on abortion. What makes legislators think they have the right to disregard and disrespect the will of the electorate?

Please don't allow this bill to pass. When women have been raped, by an acquaintance or a relative, or any other man, they often do not have the support from their family or friends to report it. They certainly don't have access to governmental social support systems in our state. Passing this bill would mean that many children will be born through incest or rape to mothers who cannot support them. Passing this bill means that the victims of rape or incest will be doubly persecuted, by their violent crime, and then with the burden of taking care of a child that will remind them all their lives of their victimization. The child will be resented, or abandoned. Society will suffer.

1-stop overturning what the people voted for, Republicans!2-every maternal complication cannot be anticipated by legislation. This endangers women as one can plainly see in Texas, La, etc. 3-Religious beliefs should not enter legislation. This defies the 1st amendment. 4- Repeating something over and over does not make it true. Just STOP

I am against Missouri lawmakers attempts to disregard the will of the people who by a majority vote November 5, 2025 enshrined Reproductive Rights into the Missouri Constitution. Many lawmakers suggest that Missourians did not know what they were voting for inferring that the electorate is too dumb to vote. If this is the case, I would suggest that all officials who were elected in the same election please resign now because obviously the people did not know what they were voting for. We definitely did not vote for our voices to be overturned. Please vote no on this offensive bill, and let the voters choice stand!Thank you.

I live in Springfield, I was born and raised here. I, along with over half a million Missourians, voted for women to be able to make very private and sometimes life-saving medical decisions with their **DOCTORS**, not police, politicians, or men that have 0 business making decisions for women's bodies and 0 medical qualifications. This is a disgrace to our democracy and you should be ashamed. We the people have spoken, leave women's bodies alone.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

My name is Mary Sheahan and I am from St Louis Missouri. I'm opposing this bill for the following reasons: 1,538,659 Missourians voted YES on Amendment 3– you were elected to defend those rights. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering.

My name is Mary Johnson and I am from House District 20. Please respect the will of the people. We want Amendment 3. We do not want your HJR 73 version of an abortion ban with cruel and medically unnecessary reporting requirements that deny access to 2/3 of rape victims, and everyone after 12 weeks gestation, which is only halfway to viability. The majority has voted, and in America, the majority rules. If you want us to recognize your win on Election Day, respect ours. We are not going back, and we're not leaving anyone behind. So take your completely unrelated language about gender transition surgeries, hormones and drugs and try your luck in a stand-alone bill, because it's insulting, and desperate, and you know it doesn't belong here. Thank you.

This is blatant and cruel destruction of the civil liberties of non male citizens. And even in some cases, male citizens with reproductive disorders. This bill is attempted murder and assault on any human who has a uterus and all who have reproductive disorders, cancers, or genetic differences. This act blatantly disregards all previously defended rights to life, liberty, and pursuit of happiness. How can one be lively, liberated or happy when their organs are policed by the government? What right does the government have to know what happens in our bodies or in our doctors offices? NONE. This is despicable. Our founding fathers would spit on this bill for its disregard for human rights and the health of US citizens. The law should have no say in health care. It is none of the business of government to declare opinions or decisions on the behalf of a medical professional. Disgusting grab, for lack of an opportunity for a better word, for power. NO to 73.

I strongly oppose HJR 73. This resolution would repeal Missourians' constitutional right to reproductive freedom and ban abortion across the state. Voters—not politicians—should decide what happens in their personal healthcare decisions. Reproductive rights must be protected, not taken away. Missouri voters have made it clear: we support reproductive freedom. We cannot let extremist politicians erase our rights from the constitution.

Why are legislators, once again, trying to overturn the people's vote? You know that the vast majority of rapes are not reported. The Bureau of Justice Statistics records show that in 2021 only about 21.5% of victims reported sexual assaults. Why? Retaliation, shame, unattended complaints, not wanting their family or friends to know, feeling the crime was "not serious" enough, and who the aggressor is. So, you think that a 12-year-old child who is sexually assaulted by a male adult but is silent about the crime because of shame and fear so that her mother does not find out until she is 12 weeks pregnant and refuses to let her mother tell law enforcement, including telling her that she will run away and/or kill herself if her mother tells anyone, should not have access to an abortion? For shame!

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I am Maryalice Williams, a registered nurse from Kansas City. As background, among my degrees, I hold a Bachelor of Science degree in nursing. I practice as a registered nurse and am the married mother of two adult sons. I oppose HJR73 because for all intents it will ban abortion in Missouri. As a registered nurse I have cared for women who have made the heart breaking decision to end a pregnancy. These decisions were made at various gestational stages and for a multitude of reasons. What happens during pregnancy is complicated, personal and should not be dictated by law. There is no circumstance in which a politician should decide if or when a pregnancy can be terminated. Decisions of reproductive healthcare are highly complex, personal, and lie strictly with the mother and her physician. Any attempts by the legislature to define and codify pregnancy-related medical emergencies, complications, fetal anomalies, etc. are dangerous and are neither scientifically based or medically sound. It is not possible to account for all maternal complications in a single piece of legislation. During a time of maternal crisis, which legislative body will get to decide if or even when a pregnant woman can receive life-saving care? The 12 week gestational age specified in HJR73 is medically irrelevant. What exception do you propose for women who suffer a pregnancy-related medical emergency after 12 weeks gestation? In the event a woman suffers a catastrophic, spontaneous miscarriage after the first trimester, HJR73 will prohibit her from receiving life-saving care. HJR73 endangers women. Restricting and denying pregnancy-related care, could effectively result in some women being unable to bear future children and perhaps even dying. Abortion bans don't exist in a vacuum. They're part of a broader system that fails women in multiple ways. HJR73 will criminalize physicians for providing nationally recognized standards of care. OB/GYN physicians are already closing practices and/or leaving the state. My own physician has announced he will no longer provide prenatal care or perform deliveries. HJR73 will create a maternal health desert in Missouri. Women will die. HJR73 completely discounts, the value of a woman's life beyond her ability to have babies. The sections pertaining to gender reassignment treatments and surgeries is laughable. How do you intend to legislate a person's identity? It is clear that HJR73's language referring to hormonal therapies will also be used to ban birth control. In closing, may I remind you that you were elected to represent your constituents not your beliefs or special interest groups. With the passage of Amendment 3, Missourians made it clear that we support access to abortion and all reproductive health care. Our government should reflect these shared values not threaten them. The people of Missouri have spoken with a resounding yes on Amendment 3. It is a waste of constituents time and tax dollars to place a confusing, unwanted anti-abortion measure on the ballot.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I hereby state my adamant and unwavering opposition to this reversal of Amendment 3 which includes removing reproductive rights for women and removing the ability of medical staff and doctors to DO THEIR JOBS and PROTECT WOMEN and their children. I am in opposition to this: "prohibits abortions, except for in cases of medical emergency, rape, or incest. In the case of abortions performed or induced because of rape or incest, the abortion may be induced or performed no later than 12 weeks gestational age of the unborn child". Women don't typically even know they are pregnant till well into the pregnancy. 12 weeks is a completely unreasonable cutoff time period. I am also in opposition to this: "only if documentation is presented to the attending physician that the instance of rape or incest has been reported to a law enforcement agency that has jurisdiction to investigate the complaint at least 48 hours prior to the abortion." Most victims of rape and MOST ESPECIALLY incest or victims of pedophilia rarely go to the police because the victims are usually shamed and accused of misconduct in some way rather than their attacker. This is a WELL KNOWN FACT. In full, I'm in opposition to this bill that takes us back to the dark ages, not only because it will cause many more deaths for women just trying to do their best to care for their bodies and make the best decisions they can for themselves, it puts doctors in a terrible position of facing criminal charges by trying to HELP their own patients. THIS is NOT OKAY! This is being played in out in real time in Texas and Florida where MANY cases of women suffering TERRIBLY due to these backassward bills that do not serve anyone but the uneducated, single-minded extremists politicians that are doing nothing more than doing Donald Trump and the Christian Nationalist's groups bidding. #MYbodyMYchoice!

Roe v Wade was overturned to allow each state to decide whether or not to legalize abortion. In 2024 both Republican and Democrat citizens of MO overwhelmingly voted in support of Amendment 3. HJR 73 undermines the will of the people. Politicians should not be allowed to overturn this or anything else the voters have decided. It does not matter if a politician does not agree with the outcome personally or if it goes against their overall party's beliefs. Politicians work for the people of their state and should honor their vote.

Dear Committee, I am strongly against HJR73 and any bill that negates what we, as informed voters of Missouri, voted on and passed last November to be enshrined in our state constitution guaranteeing the right to reproductive health care for women/girls in Missouri. The right of a woman/girl to choose the path of her health care should not be curtailed by members of this legislature!!! By submitting this bill and voting for it and to have it on the ballot is saying to women and girls "we own you"! And you do not own anyone---that is where freedom comes in. Everyone who supports this bill and any bill that tries to overturn Amendment 3 is hypocritical at the highest level. The sponsor and supporters of HJR73 are pro-birth, and that is all. The hypocrisy comes when you profess to be pro-life but support the death penalty, under fund education, make it harder to get food assistance for the mother and baby, and ignore adequate health care for babies, children and teenagers---- the list goes on! Where are the laws that require a man to go on birth control or get a vasectomy to prevent unwanted pregnancies, especially from rape and incest? What law in Missouri goes into the doctor's office with a man and tells him he does not have a say in his health care? NONE! Why do you hate women and girls? Why do you think of them as lesser than equal human beings? Get over the fact that we educated Missourians want the women in our lives to have full and equal treatment and rights in this state, especially when it comes to their health care and reproductive rights!!!! We are your constituents, and it is your duty to honor and adhere to the voter's directives when they voted Amendment 3 to be enshrined in the constitution of Missouri. Abandon HR 73 and any other bills that try to overturn Amendment 3. Maxine Horgan

I oppose this bill as a rape survivor who never reported the crime committed against her. Almost every woman I know who has suffered this abhorrent act also left the crime unreported and those who did report grew to regret it because the systems that were supposed to protect them did anything but. The people voted clearly. Listen to the people.

Denying women reproductive care is wrong. Despite language in this bill that says we would still have access to care, the reality is that this bill (and others like it) causes the closing of clinics and stifling of reproductive care across the state. Fear of reprisal causes remaining physicians to delay or deny care, with devastating results. Decisions about care souls be between a woman and her doctor and NO ONE ELSE! In the same vein, gender transition is NO ONE ELSE'S BUSINESS! So trying to attack our freedom of choice!

I am writing this committee in opposition to HJR 73. Just like I previously wrote in opposition of HJR 54. First, I find it interesting that a bill that didn't move to a committee until yesterday, April 7, immediately sets a hearing for April 9. It is almost like you are intentionally wanting to sneak it in under the radar. That said, this bill is wrong on so many counts. First, it is a direct attack on the Reproductive Freedom Amendment approved by voters in November. Second, the facts have been presented before. Making a victim of rape or incest report a rape to a law enforcement officer is especially troubling because little is done to protect the victim from the rapist or family member or friend that was the perpetrator. Third, setting as 12 week gestational age is wrong . . . many victims, especially young victims, might not even know they are pregnant until after the 12 week period. And who chose 12 weeks?? The bill also contains "ballot candy" by throwing in language about gender transition surgeries, hormones or drugs, a violation of the single subject rule. This bill, added to all the changes of HJR 54, is like the republicans throwing spaghetti against the wall to see what sticks. The people's voices have been heard. We will continue to fight your attempts to dismiss majority rule.

Keep abortion legal and accessible in Missouri. More than 1.5 million Missourians voted to enshrine abortion rights and reproductive freedom in our Constitution last November. No matter anyone's personal feelings, Missourians agree that politicians have no place interfering in personal, private decisions like pregnancy, abortion, and the broad spectrum of sexual and reproductive health care.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

HJR 73Hello, my name is Melanie Montambeault. I live in Gladstone, in Clay County and Representative Jamison is my representative. Once again you forced many of us to take off work or find child care or put our lives aside in order to come here to Jefferson City to fight for what was already decided by the people back in November. I'm not quite sure why, but you seem unable to adjust to the fact that the majority of the Missouri population wants to have reproductive freedom. You've tried changing the outcome of that vote with H JR 50 and with SJR 33. I would love to know why exactly you don't trust the public and more importantly the women who live here. But here I am, having to reiterate three major points this time against HJR 73, again.1. More than 1,538,600 Missourians voted yes on amendment three. This was the majority of Missourians and if we have to accept the majority's decision on the president, then you need to accept the majority ruling on Amendment 3. The public asked you to have politicians kicked out of our personal medical decision-making, like abortion care and all sexual and reproductive health care but here we are again. I respect your faith sir, but your faith and beliefs have no business in making laws for all of us. I personally believe that life begins much later, many others believe life begins at first breathe. Why should your religious belief be the one that decides. Now some of you have said that you worry about the pain of the unborn child, that's very noble of you , may I suggest however, you tend to the children who are already here. If you truly cared for the children, their school lunches would be free as well as their health care needs. But instead, you're focusing on an unborn fetus, ignoring the pain, both emotional and physical, of the mother. I believe you are under the impression that women who become pregnant and don't want to be a mother make their decision flippantly, not caring about the possible baby within them, this is untrue, overall, abortion is not being used as a birth control. For the vast majority of the female public it is used as a desperate solution out of a dangerous situation. Most women making these decisions, it is not done easily. Women weigh options, we think forward, some pray, some seek counsel, but none should have to get the permission from a government official with no medical knowledge in order to receive necessary healthcare. 2. HIPPA will be violated routinely with this proposal because law enforcement and government officials need to know about our private health information before we can receive health care. Why should we have to report a rape or incest in order to receive necessary healthcare? The fact that 75.1% of sexual assaults go unreported for various reasons, this proposal would force women who have already been traumatized by sexual violence to feel retraumatized in order to receive necessary healthcare. And that is unacceptable. Doctors already feel limited to what they can do legally to provide proper health care, waiting for a note from a police officer or an okay from a non-medical professional, to decide whether they are allowed to do what is best for their patient. And 12 weeks is not enough time to go through all of the steps to cope with a possibly violent rape, to get the courage to go to the police, and then find someone to provide an abortion, especially since you've made many abortion providers and OBGYNs in general flee our state. HIPPA will also be broken routinely for minors seeking gender affirming care.

The government has no business in anyone's medical records, including theirs. You also seem to be attempting to practice medicine without a medical license, that's illegal.³ You've added "gender affirming care" to a reproductive bill. I know this might be very hard for you to understand, but gender transitioning has NOTHING to do with reproductive care. Just like hair plugs, waxing, breast augmentation, tummy tucks, colored contacts, fake eyelashes and wigs have NOTHING to do with reproduction. Gender affirming care has EVERYTHING to do with mental health, and this bill will be destroying minors' mental health. 40% of the adult trans community have attempted suicide, that number is even higher for minors. When you tell a minor they can't be who they truly are, you are telling them they shouldn't exist. And why exactly do you feel that parents and doctors don't know how to properly care for these minors? And why are you so obsessed with them? They make up less than 2% of the population yet bill after bill has been introduced trying to stop their care or make life more difficult for them. That doesn't sound like law making to me, that sounds like discrimination. And not to be a stickler, but they are more likely to be sexually assaulted than to be the assaulters, so how about you create some laws that help protect them instead? So, here's my overall recap. I'm not angry anymore, I'm just so, so disappointed in you all. For not accepting Missouri's decision on Amendment 3, for openly discriminating against some of our most at risk children, and for claiming to be so concerned for "babies" when so many children in Missouri go hungry everyday. I suggest you put some effort in solving some issues that you can control like food scarcity and affordable housing and leave the topic of reproductive care between medical professionals and their patients.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

When I was 26, single and without children, I learned I was essentially infertile. Several years later, I was married and wanted to have a child more than anything. Against the odds, our final shot at in vitro fertilization worked and I was able to carry and give birth to my son, who remains the light of my life. While we were struggling to get pregnant, I couldn't imagine making the choice to end a pregnancy if I were ever blessed enough to get pregnant. Then I had my son. And I knew I would do everything in my power to make sure I would be here as long as humanly possible to give him the love that only his mother can give. Having grown up without the security of unconditional parental love, nothing was (or is) more important to me than ensuring my son knows there is nothing I would not do for him. I knew there was really no chance of me getting pregnant naturally, but I still imagined now and then what I would do if I did get pregnant again and learned that my life would be in danger if I proceeded with the pregnancy. It wasn't a matter of whether I would sacrifice my life for my baby--of course I would. It was a matter of whether I would sacrifice my son's well-being and the security he had in my love and take the chance of leaving him without his mom. Thankfully, I was never faced with that dilemma, but I can say with confidence that whatever choice I would have made would have utterly destroyed me. It would have been a situation with no "good" outcome. But I cannot imagine if I had no say in making the decision of what was best for my family. I cannot imagine people who did not know me--most of whom are not even capable of getting pregnant and will never have to face such a choice--telling me what I must do not only to my body, but to my family. The voters have told you they are not willing to cede control over the most private and personal of decisions to you--people they have never met and cannot possibly know their situation. To the extent that you believe your crusade is one for Jesus, I challenge you to show me where Jesus mentioned a word about terminating a pregnancy. Or said that life begins at conception. He did not. He did tell us to love our children, but you seem to forget that terminating a pregnancy may be a way of doing just that. Loving my child means making whatever sacrifice I have to for his sake. For him to be able to grow up with a mother who he knows loves him more than anything--even more than her desire to give him a sibling. Please leave families and women with the liberty to decide for themselves what God wants for them. Please vote NO on HJR 73.

This bill is in direct conflict with the vote of the people during the last election. Please do not pass this bill and maintain the vote. If you overturn the vote around Amendment 3, please ensure everyone who was voted into office this last cycle gets placed on a recall election too as it only seems fair to overturn the vote of elected officials. Do not cherry pick the vote of the people, that is a dangerous game.

I'm a mother of two, but I've had three pregnancies. My first pregnancy ended in miscarriage and it was a horrible and painful experience, but it would have been far more terrifying if abortion had been illegal because my care team may have hesitated to offer me care in the event of a complication for fear of being investigated and losing their licenses. Women have died because abortion bans made doctors afraid to provide life-saving care until it was too late. Please don't put Missouri women at risk. Keep all reproductive healthcare legal, including abortion.

I will never stop fighting for women's rights and bodily autonomy. I was in a long-term committed relationship with a man who raped me, removed contraception during sex, and afterwards verbally abused me. He went on to rape two more women in the next few months. I thank god every day that I did not become pregnant because of that vile horrible man. But if I had, I would want every right to MY OWN BODY.

I absolutely oppose HJR 73. Reproductive freedom was the will of the voters in November and the legislature has no right to overturn the will of the people. We voted to have access to abortion statewide, and there should be no undermining of that vote or that right. Voters and their healthcare providers of choice, not politicians, should decide what happens in their personal healthcare decisions. Reproductive rights are basic healthcare and must be protected, not taken away.

I oppose the exceptions in this piece of legislation that would make it legal to kill certain children based in circumstances of their conception, or a prenatal diagnosis (diagnoses which are often inaccurate). All life is valuable and worthy of protecting. We should not be labeling some life as unvalued in our state constitution. I will support this legislation, but ONLY if the exceptions are removed.

Hi my name is Melissa LaRose and I live in Nixa, Missouri. I encourage you to oppose HJR 73 as it directly thwarts the will of Missouri voters. As state representatives, you are elected to defend the rights and the will of the people. When 1.5 million Missouri voters approved Amendment 3, the issue should have been resolved so we can move on to the next issue. This is a waste of taxpayer money not to mention insulting to the women of Missouri. The women of our state can make their own medical decisions under advisement of their doctor. At the end of the day, the choices a woman makes about her body are none of your business and Missouri voted as such. Any change to Amendment 3 is a slap in the face of Missouri voters. We know the value of our votes and it's about time our elected representatives respects those votes.

Dear Members of the Committee, My name is Melita Van Winkle and I live in Christian County. I am writing to express my strong opposition to HJR 73. I am one of the more than 1.5 million Missourians who voted yes on Amendment 3. This effort was supported by people from across the political spectrum—Republicans, Democrats, and Independents—who came together to protect the right to make personal medical decisions without government interference. Missourians made it clear: decisions about abortion and reproductive health should be made by individuals and their doctors, not politicians. Amendment 3 reflects the will of the people, and it is your responsibility to respect and uphold that. I urge you to vote no on HJR 73 and stand with the majority of Missourians who believe in protecting our rights and our voices. Sincerely, Melita Van Winkle Ozark, MO

I strongly oppose HJR 73 (Lewis). These bills are a direct assault on the will of Missouri voters and a dangerous overreach into the personal lives and medical decisions of individuals. In 2024, Missourians made their voices clear by passing a constitutional amendment to protect abortion access, recognizing that reproductive freedom is a fundamental right. These bills, however, seek to undermine that decision by imposing extreme restrictions on abortion care, even in cases of rape and incest. By requiring survivors to report their trauma to law enforcement within a narrow 48-hour window and limiting abortions to just 12 weeks in such cases, they disregard the complexity of these situations and further victimizes those who have already endured unimaginable pain. Missourians have spoken: they trust individuals to make their own health care decisions, and these bills blatantly ignore that mandate. Moreover, these bills go beyond abortion restrictions, targeting essential health care services for transgender individuals by banning the use of surgeries, hormones, or drugs for gender-affirming care. This provision is not only cruel but also medically irresponsible, as it denies evidence-based care to vulnerable populations, including minors. The broad language and punitive measures, such as revoking medical licenses, will have a chilling effect on health care providers, discouraging them from offering necessary care out of fear of legal repercussions. This is not about protecting lives; it is about controlling them. Missourians value personal freedom and the right to make private medical decisions without government interference, and these bills fly in the face of those principles. Finally, the prohibition on public funding for abortions disproportionately harms low-income individuals, effectively denying them access to critical reproductive health care. This is not just an attack on abortion rights; it is an attack on equity and justice. Missourians have already rejected this kind of government overreach by enshrining reproductive rights in the state constitution. These bills are a step backward, a betrayal of the trust voters placed in their government to protect their freedoms. We must stand firm in opposition to these bills and uphold the will of the people, ensuring that every Missourian has the right to make their own health care decisions without fear or coercion. These bills have no place in our state, and we must reject them unequivocally.

I am writing in strong opposition to House Joint Resolution 73, sponsored by Representative Lewis, which seeks to impose additional constitutional restrictions on health care access in Missouri. HJR 73 is a direct attempt to preempt and undermine the citizen-led Right to Reproductive Freedom Initiative, which is currently being advanced by Missourians across the state. This initiative reflects the will of the people—thousands of Missourians who believe that reproductive decisions should be made by individuals, in consultation with their doctors and families—not by politicians. The legislature should not be working to sabotage a democratic process simply because it may produce results some lawmakers disagree with. Missourians have consistently shown they value personal freedom and medical privacy, and they deserve the right to vote on an initiative that would restore those protections. HJR 73 would only deepen the harm already caused by our state's near-total abortion ban:- It threatens patients experiencing medical emergencies or pregnancy complications.- It increases the criminalization of health care providers.- It disproportionately harms the most vulnerable in our communities—low-income individuals, rural residents, and people of color. At its core, this resolution is about control—not health, safety, or family values. Missourians should have the freedom to make personal medical decisions without government interference, and they should have the right to weigh in directly on this issue through the initiative petition process. I urge you to reject HJR 73 and respect both the rights and the voices of the people of Missouri. Sincerely, Michele Rowe

We the people have already decided this issue. The right to reproductive health care is enshrined in the MO constitution. Claiming that the voters didn't understand what they were voting for is an insult to us all. All people should have the right to make medical decisions for themselves. If we don't have bodily autonomy, we are basically second class citizens. I have benefitted from abortion care when I had a miscarriage many years ago. It is already a heartrending time without worrying about what the state is going to say about it. Keep politicians out of our doctors' offices.

The people of Missouri voted on this. The people have already spoken on this. You work for the people of Missouri. Stop trying to overturn the will of the people. It is possible someone who was raped does not want to file a report, or may not be in a situation to file a report if the perp was a family member. Also, rape victims are not believed, or are accused of 'asking for it'. Rape is a traumatic event. If a woman does not feel comfortable filing a report, she should not be forced to. Please don't put vulnerable women in this situation.

This is not what the people of Missouri voted for. Do not try to cancel out what we did by putting a different amendment before the voters, we have already spoken and there is no need to do this again. This proposal is terrible, and not realistic in terms of women's lives and their need to make decisions. Requiring law enforcement reports of rape is against all that we know about this crime and how women deal with the trauma of being attacked. In conjunction, I also oppose SB22 because it allows legislators and the SOS office to change the wording of ballot issues to make it more confusing for voters.

1.5 million Missourians voted to enshrine abortion rights and reproductive freedom into our Constitution last November. No matter anyone's personal feelings, Missourians agree that politicians have no place interfering in personal, private decisions like pregnancy, abortion, and the broad spectrum of sexual health. I needed abortion care in 2017 when my pregnancy was no longer viable. An abortion was the only option for me and my husband if we wanted to try to conceive again. I had reached my second trimester when got the heartbreaking news from my OB that she could not detect a heartbeat. An abortion was schedule for the following day. I needed an abortion. Abortion is healthcare. No one would be against a person needing heart surgery to repair a value. No one would oppose knee surgery to fix an ACL tear. Stop standing in the way of healthcare for Missourians.

Michael Fishman Regarding HJR 73 4/9/2025 My name is Michael Fishman and I am a concerned citizen of St Louis, MO. I am testifying in opposition of HJR 73, an anti-abortion and anti-trans bill. I believe every person has the fundamental right to access the health care they need without fear of discrimination, prejudice, or barriers to treatment that supports their mental, physical, and emotional well-being. I implore you to not pass HJR 73 and ask that judges rule laws like this that are already on the books as unconstitutional according to Article I Section 36 as it was passed by voters in the fall of 2024. Thank you for your time.

My name is Miranda, and I'm from Rogersville. 1,538,659 Missourians voted YES on Amendment 3 and you were elected to defend those rights. These staggering numbers show that constituents believe individualism in reproductive health is vital, just as the value is in so many other aspects of Missourians lives. Individuals should have the right to make decisions for their reproductive health independently without the government's interjections. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. This is not a partisan issue— Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering.

I believe that Amendment 3 is essential to all women in Missouri. Removal of these rights would make me feel less safe to be in Missouri as a woman. The stories I have heard of people who not only occasionally want but NEED access to these services are imperative. The support of this law is a disgrace to the people of Missouri.

My name is Molly Carney, and I am from St. Louis, Missouri. I am opposed to HJR 73. You were elected to defend the rights of all of the Missourians who voted YES to pass Amendment 3. Many of the voters who voted YES did so regardless of their political leanings, because this is not a partisan issue. Missourians have demonstrated that they value privacy and oppose political interference in private decision making when it comes to fundamental health care. Your job as representatives is to represent the will of the people of Missouri. This bill is wasting time and resources that could be spent making Missouri a better place.

Hello, My name is Molly Evers. I live in Franklin County. I AM HERE TO OPPOSE HJR 73 BECAUSE I AM ONE OF THE MORE THAN ONE MILLION, FIVE-HUNDRED AND THIRTY-EIGHT THOUSAND, SIX HUNDRED MISSOURIANS WHO VOTED YES ON AMENDMENT 3. This is not a partisan issue—Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians’ right to abortion, without politicians interfering. THE MAJORITY OF MISSOURIANS VOTED TO KICK POLITICIANS OUT OF PERSONAL MEDICAL DECISION MAKING, LIKE ABORTION CARE, AND ALL SEXUAL AND REPRODUCTIVE CARE. IT IS YOUR JOB TO PROTECT AND FULFILL THE WILL OF THE PEOPLE. VOTE NO ON HJR 73. You are the voice of the people who voted for you, and your constituents have voted to retain the right to make our own health care decisions without government interference. You must do your job as a representative of the people to uphold the will of the people who put you in office.

I think that our elected officials are forgetting what "will of the people" actually means. Did you guys forget that we are the ones that elected you? Did you forget that you are literally employed to represent the will of Missourians? The absolute hypocrisy of this government is hilarious to me. I am a 24-year-old woman who is actively trying to leave this state because of the abuse of power and lack of **AWARENESS** of what is going on in this state by our representatives. democrats are barely fighting for us and Republicans are doing everything that they can to fight **AGAINST** us. i'm disappointed, but I'm also not surprised in the slightest. All Republicans know how to do is blindly follow a man who does not give a shit about any American that these policies impact. this is something that will impact your daughters, your granddaughters, and every woman you care about for decades to come, all because you wanted to prove that you are more powerful than the millions of people in this state. Shame. On. **ALL.** of you.

Limiting healthcare access is the antithesis of healthcare. This law is meant to hurt people, the people who wrote it know this, the people who support on the house floor know this too. Your jobs as lawmakers are to ensure that lives of the citizens you represent are lived in a fulfilling manner according to their own terms. Supporting a law that's clear function is to bring harm towards others is a direct conflict of interest to your job. Please practice better critical thinking and I don't know maybe talk to a trans child before you ruthlessly limit their access to healthcare. Also maybe remember that these children will grow up one day, whether you'd like that or not, and they will not vote for you. If you can't care about them now, at least care about the future of your job?

The people of Missouri have so recently voted on the right to abortion. We voted in November to keep abortion, the people of Missouri have already spoken less than a year ago. There is no reason to force a minority opinion over the people of Missouri. We already had a decision made, and public opinion has not changed so drastically in such a short time period. Our representatives and politicians should represent our opinions, not theirs. Our opinion has already been told, and to do anything else would be a violation of their position. You are to represent the people, not represent your own beliefs. Missourians have already decided on abortion, and it is ridiculous to vote against the people. If politicians can decide for us without regard for our opinions, what is stopping politicians from mandating further? Politicians are not our keepers or our guardians. They should be our voices. By voting against the people, you take away the rights of the people. The elected few are to represent the opinions of the majority, not the niche opinions of the minority. This is not a question of respect, morality or even political opinions. This is a question of who has the power. The people have the power, the people should always have the power. To disrespect the people is antithetical to your responsibilities.

My name is Nancy O'Brien; I live in St. Louis County in House District 100. I am opposed to HJR 73. I am being forced to submit my testimony online, because you denied public testimony at a PUBLIC hearing. Amendment 3 began as an initiative petition in response to Missouri's draconian abortion ban. Despite all the Republican pushback, this initiative petition made it on the ballot in November 2024 and more than One Million, Five-Hundred and Thirty-Eight Thousand, Six Hundred Missourians voted Yes, and it passed with 51.7% of the vote. Too small of a margin you say? The Missouri Constitution is a sacred document you say? Well, Constitutional Amendment 2, allowing SPORTS BETTING (so sacred) won with 50.1% voting in favor, yet no one is proposing putting Amendment 2 before the voters again. Someone got a nice kickback. HJR 73 is deliberately deceptive, because it touts reproductive freedom, while denying abortion to everyone except in medical emergencies/fetal anomalies and, yes, it also denies abortion to rape and incest victims because of the unreasonable burden of proof. It also squeezes in a trans issue to ensure that the bill will trigger uneducated voters. Remember Constitutional Amendment 7, Requiring Citizenship to Vote amendment, which was unnecessary, as it's ALREADY against the law. Republicans wrote that Amendment deliberately so Missourians would lose rank choice voting. Again, two subjects in one bill. And Republican's response is "rules for thee, but not for me." Did you see the crowds outside the capital and across the state last Saturday, April 5, 2025? We are tired of the Republican Administration enacting laws for their own benefit instead of the needs of the American people and we see this in our own Republican-led state legislature. We the people are tired of politicians reversing what the people voted for under an initiative petition. We are tired of politicians enacting legislation specifically for their wealthy donors. We are tired of politicians inserting their personal religious views into laws that impact the private lives of citizens. We are tired of paying taxes that pay the salaries of representatives who do not listen, do not respond, and do not protect and fulfill the will of the people. You continue to ignore us, and you do so at your own peril, because we WILL vote you out. Vote NO on HJR 73. Oh, and I am NOT being paid for my testimony -- I know that's the current response of Republicans these days.

MISSOURI HOUSE OF REPRESENTATIVES

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

My name is Nancy Reese and I live in unincorporated Jefferson County in the 97th District. I worked on gathering signatures for the initiative petition for Amendment 3 last spring and am one of the more 1.5 million Missourians who voted to legalize abortion in Missouri. Every step of the way we followed the legal processes necessary to amend our constitution. I am here to tell you that no one I saw signed the petition without a complete understanding of exactly what they were doing. It is the duty of you, our elected officials, to uphold the decision of Missourians and their right to do amend our constitution. This is an issue that has bi-partisan support. Persons of all political parties, races and sexes voted to pass Amendment 3. Republicans, Independents and Democrats can agree that politicians should stay out of our personal business and do not have the medical knowledge necessary to influence healthcare decisions that should be left to a woman, her family and healthcare providers. Your job as an elected official is to make Missouri a safe and secure place for all Missourians to live, work and play. And it is not your place to force your religious or personal beliefs onto others. It is also your job to uphold the rights of the residents of Missouri. For these reasons you must vote against HJR73.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am a Missouri voter and I strongly oppose HJR 73. I and other Missourians passed Amendment 3 last fall to restore abortion access and reproductive rights. HJR73 seeks to repeal Amendment 3 and bring back an abortion ban. I expect you, our elected representatives, to respect the will of the Missouri people and uphold Amendment 3. I urge you to vote NO on HJR 73.

This is another attempt to overturn Amendment 3 and abortion access---undermining the will of Missourians who voted with a majority in November 2024 to end the abortion ban and enshrine reproductive freedom in our Constitution. Missourians want and deserve to make their own decisions about their healthcare and bodies. It is NOT the government's role!

Abortion access is vital. For those without access to genuine comprehensive sexual education that does not only promote abstinence, for those (children and adults) who are forced into motherhood caused by a nonconsensual interaction, for those whose bodies medically cannot comfortably or safely support a pregnancy, for those who cannot financially or emotionally support a child or psychologically will suffer from the birthing process, for those who used birth control and still became pregnant, and for all individuals - accidents included - we should be able to control our bodies. There are not sufficient means, support, or systems in place to guarantee pregnancy prevention. It is unfortunate that the value of an individual's life is being proposed as less than their value when becoming a mother. Abortion is healthcare and saves lives. Any influence of religion on this argument is inappropriate.

My name is Nathan Ortvals, and I am a resident of Columbia, Missouri. I'm here to speak in strong opposition to HJR 54. This bill is not just a theoretical policy change—it has real, immediate consequences for families like mine. My wife, Leslie, lives with Polycystic Ovary Syndrome (PCOS), a condition that significantly increases her risk of serious pregnancy complications such as miscarriage, gestational diabetes, hypertension, pre-eclampsia, preterm birth, and the need for cesarean sections. These are not rare or hypothetical scenarios. These are known medical risks that our family would be forced to navigate if we choose to pursue parenthood. HJR 54's vague and limited definition of "medical emergency" provides neither clarity nor protection for families like ours. It handcuffs medical professionals and replaces their expertise with language written by individuals who are not medically trained. The idea that lawmakers, without medical licenses or clinical experience, can foresee and legislate every possible complication that may arise during a pregnancy is not only misguided—it's dangerous. This bill doesn't offer peace of mind to those of us who are trying to responsibly consider the risks of growing our family. Instead, it leaves us questioning whether we can safely start a family at all—at least here in Missouri. That's the personal cost of this bill. Moreover, it's essential to remember that the people of Missouri already spoke clearly on this issue. With the passage of Constitutional Amendment 3 last November, voters across this state chose to protect reproductive rights and legalize abortion up to the point of fetal viability. HJR 54 attempts to undo that decision, disregarding the democratic will of Missourians. That's not only wrong—it's fundamentally un-American. HJR 54 is a direct threat to reproductive freedom, to medical autonomy, and to the future of families like mine. I urge our lawmakers to respect the voices of their constituents and uphold the rights enshrined in our state's constitution. Thank you.

To whom it may concern, My name is Nico Quinn Whittaker and I am a trans person desperately reaching out to oppose these harmful bills being questioned. As someone who's lived as a woman, and has had children, I urge you not to go through with this. If you ban abortion, you're not "ending a problem " you're only creating a new one. Remember when women would be so desperate that they would inact very dangerous procedures on themselves? Do you really want that to happen again? You say you're concerned about the lives of the children being aborted but why don't you care just as much after they're born? You say that instead of aborting the fetus the woman in question could just consider adoption if she chooses not to keep the child. I hate to break it to you but the foster care system can be such a scary, unknown, constantly being moved around and often even neglected or abused. Yet, I don't see any law makers huffing and puffing about the state of those thousands of children suffering. Not to mention the threat of homelessness. So, no, I don't believe this is about the well being of the child, it's about controlling what women can and cannot do with their own bodies. I don't see anybody forcing men to get vasectomies, which can be reversible. Putting restrictions on reproductive health care will not stop abortions. It will only prevent women from getting safe ones. Thank you for your time and consideration.

A woman's health should be more important than a bunch of cells in a womb. A woman is already alive and walking this earth. You can't say you are pro life if you pass a law that could kill woman. If you don't have a medical degree then you should not make laws or decisions about another human's body and health.

This bill violates the "Single Subject" rule since it seeks to restrict the issue of 1) Abortion and 2) Gender affirming care. Missouri voted a common ground Amendment 3 into the constitution and this would further restrict the constitutional right to abortion that ALL Missourians have. Since Missouri recognizes a 17 year old as a legally emancipated adult, the age of "18" listed under the Gender Affirming Care portion of this bill is inappropriate. If we are considering a 17 year old mature enough to be emancipated and able to make decisions on their own lives, then they should be able to make decisions on what happens to their own bodies.

I am currently 5 days post a medication abortion. My husband and I have plans to have children one day, but against all our best efforts to use contraceptives, we ended up pregnant. This was not our plan. My husband has a type 2 collagen disorder that would severely impact any future children we may have, and we have vowed never to put a child through the pain he has to suffer every day if we can have anything to do with it. It's not ideal that we wont ever get the excitement of conceiving naturally because we're worried about what genetic material we have passed on. To have to wait 10 weeks with an accidental pregnancy to have genetic testing done on the fetus would mean 10 weeks of worrying, of stress on my body while I manage my type 1 diabetes (majorly affected by pregnancy), and 10 weeks of waiting to see if we had to be excited or devastated. Thank god Illinois offered us the *choice* to have an abortion. My partner and I went from deep anxiety of what we might have just imposed on a baby, to having control over our plan for our future family. This choice shouldn't be politicized or stripped from us just because some people impose their religion on the masses. This is real life, and if god is real, this choice is between me, her, and my partner.

Hello, my name is Olivia Riggs, and while I am unable to make it in person, I want to submit my testimony to express how deeply worried and disappointed I am in my state's ongoing, and seemingly constant, attempts to undermine its citizens' bodily autonomy and ignore democratic election results. The people of this state voted **CLEARLY** in support of protecting abortion rights in this state, and it truly disgusts me to see how our state government will not stop attacking their citizens' democratically elected choices. I repeat, we Missourians used our rights and **VOTED**, and all the state is doing is attempting to ignore us yet again. It is genuinely beyond me how, not even half a year after we very obviously expressed our needs and wants, there are already attempts to silence our voices and take our rights away again, despite our democratic election obviously proving that citizens' interests lie in protecting women's reproductive rights to a choice. You are failing our democratic system and the citizens of this state. Do better.

My name is Oneta Templeton and I live in Jackson County. I came from some distance today to oppose HJR 73 but was prevented from doing so by the committee. This joint resolution would reverse the clearly stated will of the majority of Missouri voters. I'm one of over 1,538,600 Missourians who voted yes on Amendment 3, and I spoke to many other voters as well. As I spoke to voters in multiple Missouri counties about Missouri's previous abortion ban and other related restrictions, during which we sometimes looked together at the actual language of Amendment 3, the overwhelming majority were very clear that they supported abortion access without governmental interference for all people. They wanted options for their family and friends to make the decisions about their bodies that were best for them and their families in consultation with their physicians. These voters included members of all political parties and those with no affiliation at all. They included people of many faith traditions and those with none. They were men and women of all races and ethnicities, older and younger voters, single people, fathers, mothers and grandparents. They all agreed abortion is health care and support these important decisions being left to women, their families, and their health care providers. Vote no on HJR 73 as Missouri voters expect you to uphold their informed and clearly communicated decision.

Dear Members of the Committee, My name is Pam, and I live in Stone County. I am writing to express my vehement opposition to HJR 73. I am one of the more than 1.5 million Missourians who voted yes on Amendment 3. This effort was supported by people from across the political spectrum—Republicans, Democrats, and Independents—who came together to protect the right to make personal medical decisions without government interference. Missourians made it clear: decisions about abortion and reproductive health should be made by individuals and their doctors, NOT you politicians. Amendment 3 reflects the will of the people, and it is YOUR RESPONSIBILITY to respect and uphold that. I urge you to vote NO on HJR 73 and stand with the majority of Missourians who believe in protecting our rights and our voices. Sincerely, Pam Adelman Stone County MO

I OPPOSE HJR 73 BECAUSE I AM ONE OF THE MORE THAN ONE MILLION, FIVE-HUNDRED AND THIRTY-EIGHT THOUSAND, SIX HUNDRED MISSOURIANS WHO VOTED YES ON AMENDMENT 3. This is not a partisan issue – Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians’ right to abortion, without politicians interfering. THE MAJORITY OF MISSOURIANS VOTED TO KICK POLITICIANS OUT OF PERSONAL MEDICAL DECISION MAKING, LIKE ABORTION CARE, AND ALL SEXUAL AND REPRODUCTIVE CARE. MY BODY, MY CHOICE!! IT IS YOUR JOB TO PROTECT AND FULFILL THE WILL OF THE PEOPLE. VOTE NO ON HJR 73.

As a Missouri resident and voter I am disgusted at Missouri's so-called leaders who are attempting to undo the will of Missourians regarding full reproductive rights for women in our state. You got to vote the same as other Missourians got to vote on this issue. You do not have a "greater right" than other Missourians simply because you hold a legislative position. You disagree. That doesn't automatically give you the right to scurry and write other laws that can curtail elements of Amendment 3 which passed by vote of your constituents. Shame on you. I oppose HJR 73 which seeks to nullify provisions in Amendment 3, which was passed by a vote of the people of the state of Missouri.

Abortion is health care. Politicians have no place making health care decisions for individuals. Health care decisions are made between patients and health care providers. Reproductive health is no different than any other health care decision. Do you want Politicians making those decisions as well? Deciding whether to have surgery, chemotherapy, or a transplant? Based on their religious beliefs or opinions?

I strongly oppose HJR 73. The right to reproductive healthcare is a right of a woman over her own body. Woman without this right die because pregnancy is complicated. Women miscarry a fetus through no fault of their own. They die if an ectopic pregnancy is not treated properly. I am offended by your idea that we didn't understand what we were voting for. I am offended that you have decided to take away rights of woman over their own bodies. The people voted for these rights and you think we are stupid. I have a medical background. It is hard enough to become a mother without the ignorant legislature interfering. Your narrow thinking is killing woman, stay out of this issue where you don't understand the issue. A woman and her physician must decide what is best in each case.

I am greatly opposed to HJR 73. I proudly collected signature for Amendment 3 and was glad when the citizens voted to legally allow abortion and reproductive care. HJR 73 is overturning the will of the people. If this is passed, it will revert Missouri back to outlawing abortions, and physicians will not provide miscarriage care for fear of losing their licenses. It is already illegal for taxpayers to fund abortions unless in emergency care. You are sticking transgender care on this bill to entice people to approve it. I urge you to oppose it and do NOT overturn the will of the people and all the good work we did to add Amendment 3 into the Missouri Constitution.

I oppose this and any bills to remove the reproductive rights we the voters approved in 2024. It doesn't matter if YOU agree with the amendment - Missouri voters approved it and your responsibility is to ensure it is adhered to. I don't agree with many of the bills you pass but I have to live with them; you need to do the same with what people in this state want. This bill would effectively repeal the amendment we passed, ban abortion, and cause the same issues seen in other states with an exception for "medical emergencies", where physicians are afraid to act to treat the woman. Victims of rape and incest already go through too much trauma, whether they have reported the attack(s) or not. Is a 12 year old girl who is repeatedly attacked by her father or uncle likely to have been able to report it? Including the part about gender transition surgeries and hormone treatments is just pandering to the current culture war; it should be up to parents to decide how to care for their child. If you really want to "protect women and children" you should stop your war on Planned Parenthood and groups like it. They provide education and family planning and health care - all of which reduces the number of unintended pregnancies, giving women and the children they do have a better life. You could also put all the energy you are spending on undoing what voters want and use it on more things voters like - improving public schools; banning smoking in public places; fully funding public works so our roads can get fixed.

As a Christian, I believe in the inherent dignity and worth of every individual, a principle rooted in the Imago Dei. My faith also calls me to compassion and justice. Science, through rigorous study, informs us about the complexities of fetal development and the profound impact forced pregnancy and childbirth can have on a person's physical, emotional, and socioeconomic well-being. My understanding of Christian freedom and responsibility leads me to believe that individuals, in consultation with their conscience and medical professionals, are best equipped to make deeply personal decisions about their reproductive health. To deny access to safe abortion is to disproportionately harm marginalized communities and disregard the scientific understanding of these complex realities. Therefore, respecting bodily autonomy and ensuring access to comprehensive reproductive healthcare, including abortion, aligns with my Christian values of love, compassion, and justice, guided by scientific understanding.

Esteemed Members of the Committee,I write to express my strong opposition to the proposed bill seeking to ban most abortions in Missouri. This legislation directly contravenes the will of Missouri voters, who, in November 2024, approved Amendment 3, thereby enshrining the right to reproductive freedom in our state constitution. ?Wikipedia+1The Guardian+1Amendment 3 was a clear mandate from the electorate, reflecting a commitment to uphold individual autonomy in reproductive health decisions. The current bill undermines this democratic decision and disrespects the expressed will of the people.?WikipediaFurthermore, the proposed bill threatens to reintroduce legal uncertainties and potential judicial challenges, diverting attention and resources from pressing issues that demand our focus.?I urge you to honor the democratic process and the decision made by Missouri voters by opposing this bill. Upholding the constitutional rights affirmed by Amendment 3 is imperative to maintain the integrity of our state's legislative process and the trust of its citizens.Thank you for your attention.Respectfully,-Patrick Drake

I strongly oppose HJR 73. This resolution would repeal Missourians' constitutional right to reproductive freedom and ban abortion across the state. Voters—not politicians—should decide what happens in their personal healthcare decisions. Reproductive rights must be protected, not taken away. We already voted on this. Missouri voters have made it PERFECTLY clear: we support reproductive freedom.

My name is Philip Grout and I'm from St Louis As a State we already made this decision. Do you remember when 1,538,659 of the constituents of Missouri voted YES on Amendment 3– you were elected to defend those rights. Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. If you are unable to recognize that then we'll find a successor who does. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

In a country that prides itself on freedom and liberty for all, women and birthing people should be included in this. To have a governing body make decisions for the medical treatment and to remove bodily autonomy is inherently unconstitutional. People are entitled to make decisions about their own body and what happens with it. It's the freedom of choice and free will. Should this pass, I feel it is one step closer to total governmental control over everyone. There are already countless children in the foster system and wards of the state, and by removing a birthing person's rights and choice in terminating an unwanted, and potentially life threatening, pregnancy the number of children who will be cared for by the state will increase exponentially. This puts a burden on tax payers and other Missouri residents, but more importantly the health stability and welfare of the children in Missouri. To remove people's right to choice and to have autonomy over their own bodies for reasons that are non scientific and non medicinal in nature is taking a huge step back. Freedom, free will, and safety should be every single persons right.

This bill is directly undermining the will of the people of Missouri. We voted on this already. As a woman in my 40s, I am truly terrified of the implications were I to have an accidental pregnancy, which is more likely to be life-threatening with each passing year. I understand there are provisions for medical emergency, but I believe this bill would create a chilling effect on the availability of doctors and their willingness to risk legal liability to perform an emergency pregnancy termination, so that when an emergency actually happens, it wouldn't matter because no doctor would be available to do the procedure. In a free society, decisions about my body should be left to me.

Missouri voters spoke loud and clear when they passed Amendment 3. HJR 73 seeks to overturn the will of the people. It also seems to redefine "reproductive health care" by constitutionally banning abortion. The spectrum of reproductive and sexual healthcare is already well understood and practiced. This bill oversteps the Missouri Legislature's authority by imposing their definition of reproductive healthcare on medical practice, disregarding widely accepted clinical standards and evidence-based medicine, as well as disregarding the clearly expressed will of Missourians.

How dare you defy the will of the voters! Women **MUST** be allowed to make their own **LEGAL** reproductive healthcare choices. I lost a much wanted baby at 20 weeks and would also have died without this medical care. Outside of cases like mine, unplanned pregnancy can cause great economic hardship. If you want to stop elective abortion force teen boys to have vasectomies and pay their college education and they can get reversals at 18 when they sign legal financial commitment for any children. No..? Why not? If you are claiming to be 'pro-life' you would change the gun laws. This is about **CONTROL**, nothing more.

Gender affirming care is a broad term that everyone needs, though only people that don't seem to get it without question are women that want a hysterectomy, babies born with both forms of genitalia, and people with gender dysmorphia. Then those decisions are made for them and it's not right. We need to increase reproductive care in those country, not decrease it. We need to allow doctors to practice the best form of science for all without politics. True science knows gender presentation is actually three genes, not just two. People can be any combination of XXY XYX YXX and so on and this going to affect their hormones, mannerisms, and personality. Science also knows the strength in this biodiversity.

Amendment 3 was supported across party lines. It even won in counties where President Trump, Senator Hawley, and Governor Kehoe won, such as St. Charles County, Platte County, and Clay County. The people of Missouri have spoken - we do not want politicians involved in our healthcare decisions and we believe all Missourians should have the right to access safe, legal abortions if that is there choice. HJR 73 sets an extremely dangerous precedent of the state legislature being allowed to overturn the will of the people. This is deeply concerning to people of all political affiliations. Our state legislature must abide by the decision made by citizens.

Dear Members of the House Children and Families Committee, I oppose HJR 73 because I am one of the more than 1.5 million Missouri voters who approved Amendment 3. This measure received overwhelming support from citizens who are Republican, Democrat and Independent, not just on election day, but also collecting signatures, and signing the petition that put it on the ballot. Missourians made it clear in November 2024 that we approve of the right to abortion without politicians interfering. We voted to kick politicians out of personal health care decisions. As a Missourian, a mother and a woman, I can tell you that reproductive freedom is a Missouri value, a family value and an individual right. It is your job and your duty to fulfill the will of the people and vote no on HJR 73.

I could list scores of medical research. I could show you the kind hearted joy that Queer children experience when they are not labeled as pedophiles and perverts before entering Junior High, and remind you that the person who introduced the bill banning Gender Affirming Care for minors is an openly proud pedophile. I could remind you that more Missourians than you've likely spoken to in your entire life voted to legalize abortion in this great state, and I could show you evidence throughout nature and history that the bodies we inhabit cannot and have not ever fit neatly into box "M" or box "F". But I know that the people who introduce bills and resolutions like this do not care. I know that their lust for power is driven by fear so deeply rooted within them that they cannot imagine themselves without it. It is clear that they will not listen to reason or their constituents or democracy so I ask - at what point do we stop calling ourselves free? At what point will your crusade be complete? How many people must be killed, or thrown in prison, or enslaved, or deported, or bombed in lands you've never seen before you have "fixed" the problem? How many people must suffer without any sense of sovereignty or humanity before you have pacified your fear? When your flesh returns to dust, what will your legacy be? What will you have left behind? Will it be unity and prosperity, peace and healing? Or division, scarcity, and fear?

The Legislators already have a method to propose changes to Missouri's Laws and Constitution. There is no reason the House or Senate should control the wording of ballot issues proposed by citizens using the Citizen Imitative Petition Process. I know what I signed on the petitions, and I know what I voted for. I voted to allow women to exercise control of their own bodies and to raise the minimum wage.

Missourians have spoken in a majority vote, about a clear and clearly worded issue. We deserve to make our own informed decisions about our healthcare and family planning decisions, as our right as adults and United States citizens. Government overreach into private family lives and decisions is not the purpose of government, and government interference in individual rights and decisions is eerily similar to communist government regimes. Respect the recorded voice of Missouri voters, and choose to do your sacred, elected job of representative those voters - even when they disagree with your personal opinions. Personal opinions of a few politicians should not dictate personal decisions in families.- A Proud Missourian

The people I met volunteering as clinic escort and their stories clearly illustrated that exceptions for rape, incest and the mother's health are grossly inadequate to protect women's right to bodily autonomy and health care needs. I met many couples who already have families, for whom the current pregnancy is wanted but have fetal or maternal health conditions which made termination of the pregnancy the appropriate medical decision. Requirement of health professionals to wait for immanent death of the patient before acting to save her is unconscionable. This is tantamount to legislators practicing medicine without training or license. How is this moral or legal? Only complete access to abortion without stigma is acceptable for women's human right, right to healthcare and right to self-determination.

I am Rebecca Replogle-Wilkes from Kansas City and I wish to testify in opposition to amendment 73. This amendment seeks to overturn the will of Missouri voters.- 1,538,659 Missourians voted YES on Amendment 3- you were elected to defend those rights.- Missourians value privacy and oppose political interference in private decision making, especially about pregnancy and abortion. Reproductive freedom is a Missouri value. - This is not a partisan issue- Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering.I gathered signatures personally and the stories I heard were always about family-centric, life-saving decisions families make. Politicians have no business being involved in these decisions. Vote no on amendment 73.

For a nation that declares itself free, it means truly providing freedom beyond what you believe is “religiously” correct. This was a nation founded on the notion that we would be free from religious persecution and enforcement. The only reason you can be against abortion rights is if you are incorporating religion into your argument. I am disgusted by this current government and I speak confidentially when I say this is NOT what the American people want. Listen to the people who elected you, this is not what we want.

The people of Missouri voted to allow women to have agency over their own bodies. Personally, I do not think I ever could have had an abortion (way too old for that possibility now), but it is wrong to make this decision for others. Instead of the constant effort to overturn the majority of voters in our state, please focus on contraceptive education and availability. That is a healthy, non-devisive solution.

I have been a pastor in Kansas City since 1987. In my almost 40 years as a congregational pastor. My tradition affirms the role of each individual to make decisions about reproductive health and has been on record supporting the rights of the individual since 1971. The Missouri Constitution has an ironclad commitment to the separation of church and state. It is NOT the role of the state to impose a set of religious beliefs, held by a minority--or a majority--of its citizens on others. I urge you to reject this bill.

I live in near Springfield and I oppose this bill because I along with over half a million Missourians voted for women to be able to make private medical decisions with their doctors, not police or legislators. This is a disgrace to our democracy. The church I serve publicly supported amendment 3 because health care decisions belong between a woman and her doctor. The people have made their voices known, please respect our vote.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

In the state of Missouri, according to the DHSS, Black women are at least 3 times more likely to die due to childbirth complications than white women. According to the National Institutes of Health (NIH), Missouri is ranked the 44th worst state in maternal deaths, for all races, at 40 deaths per 100,000. 80% of these deaths were deemed preventable. Meaning, so many Missouri women should still be here with us. We've witnessed states that have enacted total abortion bans, including our own, and the amount of unnecessary deaths is too great. Physicians across the country have stated over and over again that abortion bans directly lead to pain for women across the state and their families. The evidence is there and if you vote in support of this bill, you are supporting the deaths of Missouri women. If this bill passes, physicians will wait to care for patients out of fear of losing their careers. They will wait until women are on their deathbeds to provide care. Even then, it may be too late. With no exceptions for rape or incest, this bill will be one of the most extreme in the country. We have the opportunity to be an honorable state and ensure women have autonomy over their bodies. Vote against HJR 73 for your mothers, daughters, nieces, granddaughters and the many Missouri women whose lives have already been lost unnecessarily.

You have got to stop trying to undo what your constituents worked so hard to get on the ballot. 51.6% of us voted to add Amendment 3 to the Missouri Constitution. The majority of voters voted against conceal carry. MO GOP overturned it. The majority of voters voted for a cap on campaign contributions. MO GOP removed the caps. The voters voted for the MO Gambling Loss Limits act where a casino tax was supposed to fund schools. MO GOP undid the school funding measure. The majority of voters voted to pass the puppy mill measure. MO GOP stopped it before it even took effect. The majority of the voters voted for minimum wage hikes. MO GOP passed a state mandated minimum wage. MO voters once again voted for caps on campaign contributions. MO GOP fought it tooth and nail. MO voters overwhelmingly rejected Right to Work legislation. MO GOP files legislation again. In 2018 MO voters voted overwhelmingly (62%) in favor of campaign finance reform in Clean Missouri Amendment 1. In 2020 MO GOP passes Dirty Missouri, a redistricting measure to repeal CLean Missouri & undo the redistricting measure & replaced with a commission appointed by the governor, instead of a non-partisan group. This is getting old and we are going to provide Missourians with a GOP legislative history lesson.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Missourians voted for The Reproductive Freedom amendment on November 5, 2024 to allow abortion up to fetal viability. This bill would overturn it, ignoring majority rule and imposing personal ideology. Two thirds of sexual assaults are not reported to police (Rape, Abuse, and Incest National Network and the Bureau of Justice Statistics) and since the overturning of Roe v. Wade, it is estimated that more than 65,500 women and girls in the 14 states with abortion bans in place became pregnant after being raped (JAMA Internal Medicine). This bill conflicts with protections for medical professionals embedded in the Reproductive Freedom Amendment approved by majority vote on November 5, 2024 (HB195). It also contains “ballot candy” by adding in language about gender transition surgeries, hormones or drugs. Just like HJR54, this bill is trying to undue a majority vote.

The Missouri Legislature and the elected representatives should be acting based on the will of the people. The voters of Missouri already decided this issue. The majority of Missourians voted that politics and the government should stay out of individual health care decisions. I'm sorry if this decision conflicts with your personal beliefs. Many of your decisions conflict with my beliefs. There are plenty of serious issues that need to be addressed in Missouri, such as public school funding and the political attacks on our schools, universities, and educators. This should be how you spend your time. If you disagree with something that is legal, then don't do it. I do not plan to have an abortion, purchase marijuana, have a gay marriage, or wager on sports. This does not mean that others should not have the right to partake in those for whatever reason.

The electorate of Missouri has made it very clear that we the people want to have safe access to abortion in our state. The Republican party has no interest in listening to what the people want because they hold the view that they're always right and facts don't matter. The fact of the matter is that when reproductive healthcare is restricted people will die. Real living people, not just embryos. I know that they do not understand that there is a difference, but the majority of voters understand basic science more than our elected officials do, and we have already voted to make sure that abortion was safe and legal. The GOP seems to want women to die instead of having healthcare, but these officials are going to be voted out at the next election. I would like to see democracy continue and not just officials declaring they're above the will of the people. We demand that our votes be respected and the this assault on our rights and liberties end now.

Amendment 3 was passed to protect abortion rights for women, their partners, and medical providers. This amendment stands and should be protected. Women face circumstances that rich white folks cannot even imagine. They face domestic violence, health issues, poverty, lack of social networks, homelessness and so much more. They need choice not control. Now that the federal government is taking down Medicaid, education, climate change initiatives and DEI it is all the more important that women have autonomy to make choices to save their families and health. Wake up.

I OPPOSE HJR 73 BECAUSE I AM ONE OF THE MORE THAN ONE MILLION, FIVE-HUNDRED AND THIRTY-EIGHT THOUSAND, SIX HUNDRED MISSOURIANS WHO VOTED YES ON AMENDMENT 3. I also worked hard collecting signatures, call banking and knocking doors to educate people about amendment 3. MISSOURIANS KNOW WHAT THEY VOTED FOR!! This is not a partisan issue—Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering. THE MAJORITY OF MISSOURIANS VOTED TO KICK POLITICIANS OUT OF PERSONAL MEDICAL DECISION MAKING, LIKE ABORTION CARE, AND ALL SEXUAL AND REPRODUCTIVE CARE. IT IS YOUR JOB TO PROTECT AND FULFILL THE WILL OF THE PEOPLE. VOTE NO ON HJR 73.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Honorable Members of the Children and Families Committee: If passed, HJR 73 would be a waste of Missourians tax dollars. Just a little over five months ago voters approved The Reproductive Freedom Amendment, allowing abortion up to fetal viability. HJR 73 would place an initiative on yet another ballot asking voters to once again make their opinion on the matter known. These initiatives are expensive. There is no reason to spend the money to ask the voters to weigh in on this matter yet again. The majority of Missourians who voted for The Reproductive Freedom Act approved the right of Missouri women to make decisions in privacy and in consultation with professionals of their choosing. HJR 73 would take away that right. Offering women the right to abort pregnancies after rape, incest, or when her life is in danger won't change the opinion of voters especially if under unreasonable criteria.. Please understand that voters knew what we were voting for last year, and we would vote for the same right this year.

I am Ryan Gerdemann in Saint Peters(63376). I AM SUBMITTING THIS WITNESS FORM TO OPPOSE HJR 73 BECAUSE I AM ONE OF THE MORE THAN ONE MILLION, FIVE-HUNDRED AND THIRTY-EIGHT THOUSAND, SIX HUNDRED MISSOURIANS WHO VOTED YES ON AMENDMENT 3. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians’ right to abortion, without politicians interfering. THE MAJORITY OF MISSOURIANS VOTED TO KICK POLITICIANS OUT OF PERSONAL MEDICAL DECISION MAKING, LIKE ABORTION CARE, AND ALL SEXUAL AND REPRODUCTIVE CARE.IT IS YOUR JOB TO PROTECT AND FULFILL THE WILL OF THE PEOPLE. VOTE NO ON HJR 73.

My name is Ryan Philyaw, and I live in speaker Patterson's district in Lee's Summit. Missouri has a process allowing citizens to create and submit Amendments to the state constitution, and allowing the entire state to vote yes or no. A majority of Missourians voted YES on Amendment 3 to establish the right to an abortion, without politicians interfering, as this bill is now attempting to do. We value our privacy and we know better than you what choices are right for our personal lives. Reproductive freedom is a Missouri value, as expressed by the vote of it citizens. Thank you.

Hello,My name is Ryan Strong I live in Imperial, Missouri. We the people of Missouri voted to have the right to choose if we give birth to rapists' children. We don't all want to have to live like good mothers that don't drink beer or do any other harmful drugs to protect the unborn from harm. If protecting children is the goal then ban alcohol.

For your information- this bill is frivolous and a waste of taxpayer time and money. You are paid to represent THE PEOPLE and we have spoken through our vote to install the right to safe legal abortion in the Missouri Constitution! The Hyde amendment which ALREADY precludes any government funds to cover the cost a safe legal abortion in Missouri! With regard to medical care for transgender people you are delving into both psychological and physical medicine WITHOUT A LICENSE! Please stop worrying about HIPAA protected private medical matters beyond your scope of understanding! The CONSTITUENTS worked to get the legal right to abortion on the ballot and WE VOTED YES! Why on earth does this religious extremist GOP believe that it is even morally correct to ignore the will of the people and can overrule their own constituents? Is this a legislature or the Christian Emirate of Jefferson City? My daughters deserve the rights their grandmother worked hard to earn! This state is neither a theocracy or autocracy like the Taliban, yet here you are practicing the very same type of religious oppression, minus the burkha, for now. I take great umbrage at this departure from good order in the house because I spent 23 1/2 years in the Navy to Defend our Democracy and individual freedoms, not to oppress them! If you REALLY, truly, actually want to lessen the number of LEGAL abortions, you would partner with Planned Parenthood to provide birth control and STD prevention education and screenings in every high school instead of invoking one religion (like the Nazi's or Taliban) over so many other far more ancient faiths into them via wall art. "If men could get pregnant, there would be a Planned Parenthood on every corner Starbucks." Samantha Bee of the Daily Show. And SHE IS RIGHT! The other factor you're failing to see is the vicious cycle of poverty that lack of access to accurate sex education and prevention tools like birth control or even your mythical abstinence beliefs causes. Where is the onus and shaming and criminal law on the sperm donors who can and do just walk away after causing said unplanned pregnancies ? Why are THEY not held accountable 100% of the time by same laws invoked on the female? Do you know there's a FB Page titled " Missouri Fathers Against Child Support Enforcement"? Do you know of the domestic violence program which hides victims and their children? Review your DSS Statistics to see who is already on TANF and SNAP while you just want to add to that need by forcing religious views into law. Domestic terrorism is a very ugly thing you practice with this bill. Just think of all the GOOD you could do if you just stopped trying to be gynoticians and impersonators of medical professionals; how MUCH time you would have to help struggling families , Veterans, elderly , and foster child programs. Please rethink this offensive reversal of Amendment 3. I would also urge you to stop impersonating physicians and invading tge privacy of families who are entitled to live their lives without government interference!

This ban is a gross overreach of the government. Every person should have the right to their own body! Abortions are healthcare. Forcing a woman that cannot financially or emotionally support a child is putting both the woman and child in danger and creating astronomical issues for the duration of both their lives.

In November of 2024, Missouri voters passed amendment 3 and restored the right to bodily autonomy and reproductive healthcare despite a concerted effort by conservatives to manipulate voters through lies and misinformation. The language in the amendment is very clear, as is the intention behind it- women have the right to make decisions about their bodies without government interference, and without the condition of our bodies being violated. HJR73 is dangerous, particularly for children who are victims of rape and have no one to advocate for them and women who are in abusive relationships. And it's not what we voted for. Missouri residents took these things into account when making a decision on how to vote on amendment 3, and its your JOB to represent their interests. So do your job, respect the will of the people, or face the fallout at the polls.

I was one of the many many Missouri voters who felt that it was important to protect a woman's ability to access the medical care that she feels is best for her. We petitioned for and then voted for a Constitutional Amendment to protect these rights. This is not an issue about partisan politics, this is about the health and welfare of the women who live here, your sisters, mothers, daughters, nieces, aunts, and neighbors. Keep women safe and stop trying to undermine the will of the people on this issue.

This is exactly what some extremely far right conservative individuals, senators, representatives and other government officials without empathy or any caring for others in this situation. You should be ashamed and pray someone you love never finds themselves in this situation. The public already voted on and passed an amendment with out "ballot candy" that was safe for mother and child - some individuals feel that they know what is best for others. They care nothing about mental or physical heath of women or the expense of caring for an extremely disabled child. Will you adopt them?

I'm writing in opposition to HJR 73 which directly contradicts the will of the people that defended reproductive rights with Amendment 3 last November. Reproductive rights are a basic human right and was proven last fall that the people of Missouri value. These continued attempts to strip reproductive rights are making it increasingly hard to commit to starting a family here in Missouri and further increase fears that proper health care will not be received within our state. Please stop this attack on basic human rights.

The voters of Missouri spoke in November passing Amendment 3. Every person I spoke to regarding the amendment understood clearly what it meant, both for and against. This issue has been settled. Like the majority of Missourians, I support reproductive health and a woman's right to an abortion. Abortion is healthcare, and it is a decision made between a woman and her doctor. In a democracy, I have a right to bodily autonomy and a right to privacy. This is an issue of freedom to make personal decisions without politicians interfering. If my daughter needs care, I will take her to a medical doctor and not a politician. This bill and others like it that went to ban abortion, put all women at risk. Missouri has already seen a 25% drop in OBGYN residency applications since 2022. Women's access to health care is threatened by these bans. No doctor wants to consult a lawyer when deciding how to provide care to their patient, and it's impossible to do in cases of emergencies. This bill infringes on my rights to bodily autonomy, goes against the will of Missouri voters, and threatens healthcare for all Missouri women.

Voters made their wishes known, myself included, to keep abortion access available to the women of Missouri and this bill violates our constitutional right to decide by voting. Abortion is healthcare and religious definitions of when life begins has no authority in a government that is supposed to keep separate church and state. Women who are opposed to abortion can simply not have one, but the harm caused to women who need this care goes beyond what lawmakers can even fathom. Please vote to uphold the voices of Missouri and oppose this bill. Protect us, as we have already asked to be protected.

Dont ban abortion. Missouri already voted of this. Women deserve the right to decide, with their health care provider, what is best for them. Lets focus on fixing the broken foster care system for neglected, abused, and abandoned children instead. Even the adoption system is broke. I have 3 children and I will still support a womans right to choose! Vote no, let women have a choice.

The people have already spoken on this issue. To continue to advance your own personal agenda on this is a waste of time, money, and resources. Abortion is healthcare that women need access to. There is no logical reason why a secular government would put the lives of its citizens at risk in this way. Vote no.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I'm Sarah Starnes from Kansas City and I implore you to respect the will of the people, with regard to individual rights that are now enshrined in the Missouri Constitution, after thousands of volunteers, many of whom had previously "not been political" got hundreds of thousands of signatures to get reproductive rights on the ballot, and 1,538,659 Missourians voted YES on Amendment 3. People of all political persuasions voted to keep the government out of health care decisions that should only be made by a woman, in consultation with her doctor and her family, faith leader, and trusted advisors, as she chooses. Women should not be forced to bear children against their will. I've been a licensed social worker in MO for over 40 years and, especially when I worked for MO Division of Family Services, I've seen the consequences of unwanted child-bearing. We live in the real world, where adoption might be a better option in some situations, but many people who do NOT WANT children and are not equipped to raise them would never consider letting someone else raise the children in more capable, loving, nurturing, and healthy families. And the vast majority of these parents never come to the attention of the child welfare system, and they wouldn't meet the standard for having a child involuntarily removed from their custody, if they did. Empowering women to have children who are WANTED would result in a vast increase in the numbers of happier and healthier children and families. I have friends and neighbors who are physicians, including family practice providers, who have moved out of Missouri due to concerns about possibly being criminally charged when, for example, they'd provide emergency care in an effort to save a pregnant woman's life and/or future reproductive capacity. There are large areas of Missouri where there's not an OB-GYN within an hour's driving distance. Medical students don't want to consider doing residencies in MO due to our pre-Amendment 3 restrictive abortion and reproductive rights laws. ABORTION RIGHTS ARE ABOUT HEALTHY BIRTHS, BABIES, WOMEN, FAMILIES, AND COMMUNITIES.. And about prohibiting government from infringing on individual rights and liberties. Thank you for voting no on HJR 73.

Hello,As a member of the Missouri medical community as well as a mother to two girls, and a friend to many many women of childbearing age, I am absolutely disgusted that yet again our state government is taking overreach to the next level by going directly against the voice of the people in the state of Missouri. The right to abortion was voted into law by the passing of amendment 3 in November of 2024. Given the missteps of the current administration, it is in your best interest to listen to the voices of your constituents. Women's healthcare is already grossly underfunded and under researched and to now take a healthcare decision out of the hands of a woman and her doctor is too far. I hope that you are lead to make the right choice on this matter, and if not, I hope you don't have to be faced with this issue or know someone who could die at the hands of your poor choices. Missourians deserve better. Women deserve better. As a former emergency department nurse in St Louis County Missouri, I have seen first hand so many wanted and loved pregnancies that ended in pain and suffering, why on earth would any of you want to be responsible for that? Do you really feel that women should not be able to have a right to lifesaving medical care after the 12th week of pregnancy if medically necessitated by people who spend 10+ years receiving an education in order to help with these decisions? Respectfully, please stay in your lane and leave medical choices where they belong-in the hands of a woman and her doctor. Thank you,Sarah Shannon, RN-BSN

I AM HERE TO OPPOSE HJR 73 BECAUSE I AM ONE OF THE MORE THAN ONE MILLION, FIVE-HUNDRED AND THIRTY-EIGHT THOUSAND, SIX HUNDRED MISSOURIANS WHO VOTED YES ON AMENDMENT 3. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians’ right to abortion, without politicians interfering. THE MAJORITY OF MISSOURIANS VOTED TO KICK POLITICIANS OUT OF PERSONAL MEDICAL DECISION MAKING, LIKE ABORTION CARE, AND ALL SEXUAL AND REPRODUCTIVE CARE. IT IS YOUR JOB TO PROTECT AND FULFILL THE WILL OF THE PEOPLE. VOTE NO ON HJR 73.

I am writing to oppose HJR 73 - Lewis - REPRODUCTIVE HEALTH CARE. This bill bills overstep by imposing the Missouri Legislature's definition of reproductive healthcare on medical practice, disregarding widely accepted clinical standards and evidence-based medicine. This bill is also a direct assault on the will of Missouri voters and a dangerous overreach into the personal lives and medical decisions of individuals. In 2024, Missourians made their voices clear by passing a constitutional amendment to protect abortion access, recognizing that reproductive freedom is a fundamental right. These bills, however, seek to undermine that decision by imposing extreme restrictions on abortion care, even in cases of rape and incest.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Testimony in Opposition to H.J.R. 73 Submitted to the Missouri House of Representatives April 9, 2025 To the Honorable Members of the Missouri General Assembly, My name is [Your Full Name], and I am a 43-year-old woman, a mother of two living daughters, and one daughter who passed away shortly after birth due to a premature delivery at 20 weeks. I am writing today in strong opposition to H.J.R. 73. When I was 22 years old, I experienced a high-risk pregnancy that nearly took my life. After miscarrying one twin early in the pregnancy, I was diagnosed with placenta previa and endured constant bleeding. I was told by my doctors that if I began to hemorrhage, I could bleed to death before help could reach me—even in a hospital setting. My OB-GYN had to sit my husband and me down and ask us to make an impossible decision: should it come down to saving my life or the baby's, what would our directive be? We were forced to consider not only my survival but also the condition of our unborn child, who was not developing normally and would have faced a life of suffering. We were lucky—if you can call it that—that the decision was made for us. My daughter was born too early to survive and passed away in our arms within hours. But I lived. And I went on to have two more daughters, each pregnancy complicated and high-risk—but always mine to face and mine to navigate, supported by my doctor, my family, and my faith. H.J.R. 73 would rob Missouri women of that same constitutional protection—the right to make deeply personal and often tragic decisions with their doctors, not politicians. I cannot imagine watching my own daughters go through what I went through and being told the state knows better than they do. As a Christian, I understand that faith is often invoked in these discussions—but I would urge anyone leaning on biblical authority to truly study the text. In Exodus 21:22–25, if a man causes a pregnant woman to miscarry, he is fined. But if he causes the woman herself to die, he pays with his life. That tells us something critical: the Bible does not treat a fetus the same as a living, breathing person. The punishment for ending a pregnancy is not equal to the punishment for ending a life. So if your argument for H.J.R. 73 is rooted in Christianity, then you must wrestle with this scripture too. You must acknowledge that the Bible itself leaves room for complexity, nuance, and, most of all—compassion. I buried a daughter who was conceived and born. I held her in my arms until she died, because she could not survive outside of my womb—my body, my baby, my decision, my pregnancy, my life. That choice should never belong to the government. Missourians have already spoken. We voted to restore the right to reproductive health care in this state. H.J.R. 73 is not only an affront to that vote—it is an affront to every woman who has faced an agonizing choice and found her strength in being trusted to make it. Please oppose H.J.R. 73. Sincerely, Sarah Watkins-Ferrell Cape Girardeau, Missouri

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I strongly oppose Missouri Legislative Bill HJR73, a proposed constitutional amendment that would severely restrict access to reproductive healthcare, including abortion and gender-affirming care for minors. As a proponent of evidence-based decision-making, I am compelled to highlight the numerous scientific and secular concerns with this bill. HJR73 would prohibit abortion except in cases of medical emergency, rape, or incest, with stringent requirements for documentation and reporting. This provision is not grounded in scientific evidence, as it ignores the complexities of reproductive healthcare and the need for safe and accessible abortion services. The American College of Obstetricians and Gynecologists (ACOG) and other reputable medical organizations have emphasized the importance of access to safe and legal abortion. The bill would prohibit gender transition surgeries, cross-sex hormones, and puberty-blocking drugs for children under 18, with narrow exceptions for medically verifiable disorders of sex development. This provision is not supported by scientific evidence, as it disregards the established medical consensus on the importance of gender-affirming care for transgender youth. The American Academy of Pediatrics (AAP) and other medical organizations have recognized the benefits of evidence-based, individualized care for transgender youth. HJR73 would impose liability on healthcare providers for damages related to reproductive healthcare, including abortion and miscarriage care. This provision would create a problematic effect on medical practice, as providers may be deterred from providing care due to fear of litigation. The American Medical Association (AMA) has emphasized the importance of protecting the physician-patient relationship and allowing healthcare providers to make decisions based on the best available evidence. HJR73 is not grounded in scientific evidence or secular principles. It represents a clear attempt to impose a specific ideological or religious viewpoint on the citizens of Missouri, restricting access to reproductive healthcare and gender-affirming care. As such, it is not a neutral or evidence-based policy.

My name is Savannah Sadler, and I am from Manes, Wright County MO. I would like to tell you all a story. When I was in elementary school I kissed my best friend. Not knowing anything about what being gay was, what homosexual meant, I had never even met a gay person at that point, nor had I seen one on TV. That day was when all that changed. My classmates beat me, tormented me emotionally, refused to even acknowledge me as even a human being from that point forward. There were no adults concerned with protecting me, because in their eyes a gay child wasn't something worth protecting. I am a grown adult now, and guess what? I am still gay. I wasn't indoctrinated as a child, I was not coerced into becoming queer. I was who I was, and I was beaten for being who I was. You all seem so concerned with erasing queer, and trans children. When you should be protecting. By passing this resolution you will create more situations like the one I had to suffer through as a small child. A situation that drove me to nearly ending my life, as a small child. I beg you to see that all children deserve love and protection, you aren't going to erase queer children by passing this resolution. You are only going to add to their pain and anguish, to drive them to extremes that no child should be driven to. I wish I'd had someone to stand up for me when I was a child, now you have the chance to do that today for queer children all across Missouri. I implore you to make the right choice. "No gender transition surgeries shall be knowingly performed on children under eighteen years of age, and no cross-sex hormones or puberty-blocking drugs shall be knowingly prescribed or administered for the purpose of gender transition to children under eighteen years of age. The provisions of this section shall not apply to the use of such surgeries, drugs, or hormones to treat children born with a medically verifiable disorder of sex development or to treat any infection, injury, disease, or disorder unrelated to the purpose of a gender transition." How come you have chosen to tag transgender healthcare for children into a bill discussing the reproductive care for women? Unless you are acknowledging the fact that you are knowingly doing harm to both parties?

How dare you tell me or my daughter or my sister or my mother what kind of reproductive care we can receive in this state. I cannot carry any more children. My husband has a vasectomy but those still have a chance of failure. How would it be pro-life for myself and a pregnancy to fail and die leaving my 3 children motherless? What kind of life would that provide them and their father? What am I supposed to tell my patients, as a first responder, when they cannot receive care for pregnancy complications and termination? How can I keep my oath if I cannot take them to somewhere that can help them? But if your daughter, sister, wife or mistress became pregnant and you wanted to terminate—you'd easily find a way. Hypocritical, egregious, unAmerican.

HJR 73 is the latest attempt to dismantle Amendment 3 and abortion access. This bill shamelessly tries to undermine the will of the 1,538,659 Missourians who voted YES on Amendment 3 to end the abortion ban and enshrine reproductive freedom into our Constitution. Missourians want and deserve to make their own decisions about their own healthcare. You were elected to serve the people of Missouri, defend those rights. Listen to us!!

The voters of MO have decided this issue. We do not need government interfering our trying to overturn our choices. Reproductive health is a matter for a woman and her physician. I have family and friends who have had to make incredibly difficult choices in regard to their reproductive health & random legislators interjecting their will would have only made their difficult time worse. For myself, and my three daughters we are firmly opposed to any attempts to overturn our will.

Amendment 3 is the will of the Missouri people. HJR 73 is just a way to override and ignore what a majority of voters decided. Since when do elected representatives ignore what voters have decided when these very same voters elected them to office, trusting them to represent their views? The people of Missouri have decided that reproductive freedom is a value, and reproductive freedom is a HUMAN RIGHT. Reproductive care is health care. Abortion is healthcare. Legislating abortion directly endangers women's lives.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Testimony on HB 35 (also HJR 54 and SJR 33) and HJR73My name is Sharon Hahs. I am a citizen of the United States of America and the State of Missouri. I live in Kirkwood. I am speaking in opposition to HB 35/HJR 54/HJR 73.First and foremost, this bill undermines our democracy and takes away freedoms enshrined in the newly passed Constitutional Amendment 3, the Right to Reproductive Freedom. Missouri citizens voted and passed this constitutional amendment; it is wrong for the Missouri legislature to attempt to erase it.If citizens of another country passed a constitutional change and had it disregarded and overturned by a governing body, we would be certain that this was the action of an authoritarian regime. We are a democracy and the people have spoken. Let us not act like an authoritarian regime.Second, HB 35 incorporates severe limitations on women as well as health care professionals (which are intentionally absent in Amendment 3). Women would have 12 weeks to seek an abortion in cases of medical emergency, fetal anomaly, rape, or incest, a timeframe so restrictive that pregnancy is often not determined yet. Rape or incest must be reported to a law enforcement agency and investigated at least 48 hours prior to a procedure; this clearly demonstrates no knowledge of actual cases and how terrifying and cruel this requirement would be. And the attempts to define fetal anomaly and medical emergency (Definitions 2 and 4) demonstrate a real lack of knowledge and are simply cruel. Currently, Constitutional Amendment 3 provides for women to make their own reproductive health care decisions up to the point of fetal viability as determined by health care professionals and not by the government. A fair and workable definition is provided. They are also protected from adverse action based on their actual, potential, perceived, or alleged pregnancy outcomes.Health care professionals would face severe legal penalties in HB 35 as they struggled to determine which procedures could qualify for public funds, and how to sort out the overlapping definitions of e.g., medical emergency, fetal anomaly, and disability. Threatened penalties would discourage them from practicing at all in Missouri. Thus, fewer sites and less access to all aspects of women's health care would result. Constitutional Amendment 3 assures that no person assisting a person in exercising their right to reproductive freedom shall be penalized, prosecuted, or otherwise subjected to adverse action for doing so.Third, included in HB 35 are prohibitions on gender transition surgeries, hormones, and drugs. None of this is part of Amendment 3, and none of this is necessary to be included here since it is already enshrined in Missouri law. To be clear, Amendment 3 does not legalize gender-affirming care and surgery for minors. Including these prohibitions in HB 35 is a deliberate attempt to muddy and confuse the issues. HB 35 is cleverly written to disguise gender transitions as an additional topic; the practice of adding what is often called "ballot candy" is an attempt to elicit a positive response on the bill, due to the added topic, when the main topic isn't likely to pass. In actuality, the additional topic is "ballot poison"—distorting the primary essence of the new constitutional amendment so the dramatic changes and new topic will succeed in passing this legislation to overturn Amendment 3. In that regard, Definitions 1, 3, and 5 apply solely to the new

topic.Summary: HB 35 attempts to overturn Amendment 3, it is deeply flawed, seriously harmful to women, insulting to and dangerous for health care professionals, and should not be allowed nor passed.

I oppose this bill for several reasons. The first and foremost being most of my family has Von willebrands disease which means our blood does not clot properly. Severe bleeding, nosebleeds, heavy menstruation and prolonged bleeding after injury are symptoms. My mom hemorrhaged severely after her last pregnancy with my brother and almost died, which led to her hysterectomy. I was 3 years old when I was diagnosed with Von Willebrands. I had a nosebleed that lasted over 8 hours in the emergency room when I was diagnosed. When I started my period, I woke up in bed full of blood. I am 38 years old and still can not wear a tampon because I bleed so bad. When I was pregnant, luckily I knew I had the bleeding disorder and received platelets for months before delivering so I would not hemorrhage like my mom did but MOST women do not know they have this disease until they are bleeding out. This bill puts pregnant womens lives in danger who may have medical emergencies requiring emergency D& C or Abortion. What about rape? Incest? Why should a woman be forced to carry and live with having or giving up a baby that was forced, that she had no control over stopping, for the rest of her life but the man can simply walk away at any given time??? Abortion is healthcare and denying it to women should be felonious. Inaction to providing lifesaving service can cause DEATH. There are no laws governing a man's body and there should be none governing a woman's. The answer is simple. **WOMEN SHOULD HAVE ABORTION RIGHTS!**

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

This is a direct assault on the people of Missouri whose voters petitioned for, and passed, Proposition 3 in General Election in November of 2024. WE DO NOT WANT AN ABORTION BAN IN MISSOURI!!!! We will not let our legislators go behind the backs of the voters of this state and subvert their will without speaking up. The very existence of this bill is proof that the Missouri legislators have no intention of respecting the voice of the over 1.5 MILLION Missouri voters who voted for NO abortion bans in Missouri.

I am opposed to HJR 73. Missourians voted for The Reproductive Freedom amendment on November 5, 2024 to allow abortion up to fetal viability. This bill would overturn it, dismissing majority rule and imposing the will of a minority. This is not the Missouri way. Research published last year (JAMA Internal Medicine) estimated that since the overturning of Roe v. Wade, more than 65,500 women and girls in the 14 states with abortion bans in place became pregnant after being raped. Since two of every three sexual assaults are not reported to police (Rape, Abuse, and Incest National Network and the Bureau of Justice Statistics), this bill would negate the rights of those who do not want or have the opportunity to report. This bill is in conflict with protections for medical professionals embedded in the Reproductive Freedom Amendment that voters approved by majority vote on November 5, 2024 (HB195). It also contains "ballot candy" by adding in language about gender transition surgeries, hormones or drugs.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

If I didn't have the right to an abortion I wouldn't be here. I was pregnant with my first child and at 14 weeks I was told that my child did not have a heart. They couldn't even tell whether it was a boy or girl yet. My body was not naturally ridding my uterus of the embryo and doctors were telling me that I was at RISK of turning septic. I had to make a decision. Do I take a pill and inhumanely sit on a toilet, in unbearable pain? Or do I get a DNC? A procedure where I would be put under and wake up in 15 min with no recollection of what happened. I chose a DNC. Now I would have to find a doctor to do the procedure. I finally found one and everything went fine. The days after however are some of the hardest days of my life. I could feel my body slowly going back to normal. No more little belly. No more hormone changes. No more silly little cravings. Feeling this slip away with every passing day. Slowly erasing what was there and any tiny bit of evidence that I was carrying a life. Afterwards, because of the awful narrative behind abortions, I was called all types of names. My friends stopped being friends with me. I was 21 being called a whole. And the thing is. I wanted my baby. Under this bill, I would not be here because I was not septic at the time of my DNC. Under this bill it would not be deemed a medical emergency as at the time there was nothing wrong with me. But I was at a high risk. You would have wanted me to wait until I was about to die AND THEN I would be able to get an abortion. And I am not sorry when I say that anyone who would let me lose my life. You are not worth shit.

Hello, I am writing today in opposition to HJR 73. I would like to start this testimonial to say I am furious I have to share very personal information about things I've experienced in order to attempt to get you to listen to your constituents. Missourians voted to amend our constitution to protect access to abortion despite widespread nefarious attempts to spread lies and disinformation about what A3 stated. Yet, here we are, because Missouri legislators don't understand their role in our government. You work for us! This bill denies women the right to bodily autonomy and therefore is unconstitutional. This bill designates a rape victim/survivor based on the victim/survivor's decision to report the violent crime to police. Not all people who are victims/survivors report their assault to law enforcement for a variety of reasons. This decision is based on the knowledge that women who report rape are often not believed, scrutinized, ostracized, and even retraumatized by either the legal process or responses from people, either strangers and/or people with which they are familiar. And at times, reporting places them in further danger. Not all rape victims report. Nor should they be made to just to have autonomy over their own bodies. As a survivor of sexual assault who did not report the crime, I can't imagine the government telling me how I should proceed in the management of my own trauma just to make decisions about my own body. This bill in this light is no different than the original offense of rape. Both seek to control women's bodies. We deserve better than you're offering here. Protect women!! Oppose this bill!!!!

I attended the hearing today, but was prevented from testifying by the limitation on speakers that conveniently accommodated nearly every attendee supporting the bill. Therefore, I am instead submitting written testimony. To be clear, I voted for Amendment 3. I knew exactly what the Amendment covered. I was not misled in any way. I still support Amendment 3 exactly as it's currently written. You are elected representatives. You should support the will of the people, instead of taking every opportunity to thwart it. Reproductive health care is a fundamental right, and women alone have agency over their bodies. I oppose HJR73, as well as any other legislation that fundamentally modifies Amendment 3.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

As a life-long rural Missourian (with a family tracing its Missouri roots back to Missouri's beginning), I strongly oppose this bill. Constitutional amendments should not be used as ideological override mechanisms when a public vote has occurred. Doing so cheapens our sacred Constitution and weaponizes the amendment process into a tool of factional power (for a small group of zealots) rather than long-term governance. The majority of Missouri voters voted for reproductive freedom. The legislature needs to honor that, as morally painful as it may be to them. The Missouri Constitution should not be so easily subject to legislative reversal based solely on religious fundamentalism when the people have unequivocally spoken only a few months before. Ultimately, voters will not allow a legislative body to override a recently passed constitutional amendment (from just months prior). One way or the other, Missouri voters will see their choice fulfilled, even if that means voting out the current lawmakers and reinstating reproductive freedoms. To be sure, this bill has a LOT of attention, and its supporters are not looked on favorably by Missourians -- including rural Missourians like myself. Moreover, HJR 73 will impose long-term costs on Missouri taxpayers by increasing dependency on public welfare programs and straining already overstretched systems. The majority of women who seek abortions in Missouri are low-income, often black or Hispanic, and already receive government assistance. Forcing them to carry unintended or at-risk pregnancies to term will inevitably and dramatically increase enrollment in Medicaid, WIC, TANF, and foster care. As we know, black and Hispanic children, as well as children with disabilities or those born to drug addicts, are much less likely than healthy white children to be adopted. The future costs, therefore, could be catastrophic to Missouri. Each unintended birth covered by Medicaid, in itself very costly, multiplied over many thousands of additional births annually, is likely to result in hundreds of millions of dollars in new spending each year over the next 5 to 10 years and beyond. HJR 73 is fiscally unsound and risks turning conservative social policy into a long-term government liability. If the state mandates birth, it must be prepared to assume responsibility for the financial and medical consequences. Yet HJR 73 offers no funding, no safety net, no plan for increased maternal healthcare access—especially for what is likely to result in an explosion of pregnancies and births to economically hardshipped poor, the drug-addicted, the black, and the Hispanic communities. This economically disadvantaged population explosion, creating a massive welfare state, is something Missouri will have to deal with for many, many decades to come. This unfunded moral mandate is wholly inconsistent with conservative principles of fiscal responsibility. The voters have spoken, and they want the Missouri legislature to keep their hands off of this issue. I urge any lawmaker supporting this bill to rethink the long-term consequences to the State of Missouri, a state that I and my family have called home my entire life.

As a registered voter, I am appalled that the legislators who work for me would have the nerve to override the will of the people who voted to allow abortion in Missouri in November. Either find another job or start listening to the constituents. Providers and women know best when it comes to whether a pregnancy should be terminated or not. Leave the decision to the woman and her provider and keep your hands off!

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Hello, My name is Steph. I live in Jackson County. I am here to oppose HJR73. I'm 56 years old, a high school teacher, a mother and one of one million, five-hundred and thirty-eight thousand, six-hundred Missourians who voted yes on amendment three. The people of this state spoke clearly and with conviction. For much of my life, I saw abortion as an abstract, political issue. It wasn't until I began to look into the eyes of my students—young people scared, vulnerable, and desperate for support—that I began to understand the real faces behind the policies we create. A year ago, one of my students—bright, kind, and full of potential—tried to end her life. She was pregnant. The child was not conceived in love or safety—it was the result of abuse at the hands of someone meant to be her caregiver. Because of our state's abortion restrictions, she saw no way out. No access. No options. No hope. And because she couldn't get the help she needed in time, she made a decision no woman should ever feel they have to make. She survived the suicide attempt—but barely. The physical damage was so severe that she will never be able to have children. Her ability to make that choice for herself in the future was taken away, just like her sense of control and safety was taken away in the moment. And it all started because she didn't have access to care. This wasn't just a tragedy—it was preventable. It didn't have to happen. Recently, my own daughter gave birth to my grandson. He's six months old now, and a joy to all of us. But her pregnancy wasn't easy. There were complications—serious ones—and I lay awake many nights terrified. Terrified that something might go wrong. Terrified that she might not receive the care she needed if decisions about her body were left to lawmakers and not to her and her doctors. I have 6 grandchildren. I've watched both my daughter and daughter-in-law go through pregnancy and childbirth. When abortion was legal in Missouri, I never worried whether they would be safe. I never feared they would be denied care in an emergency. I trusted the system to support them, to give them options if something went wrong. That trust disappeared when abortion was taken away. Suddenly, my daughters were no longer fully protected by the system that once gave me peace of mind. It became clear to me that their safety—and their lives—were now subject to uncertainty and delay, not compassion or care. To each of you sitting here today: I know some of you are parents. Some of you are grandparents. Many of you carry the responsibility of protecting this state's future—and our children are that future. Please think about the people you love most in this world. Think about your daughters, your nieces, your grandchildren. If they were in danger, if they needed care, if their lives or futures depended on a choice—they would deserve access to every option available. You would want them safe. You would want them supported. You would want them to have a voice. And speaking of voices—we must not ignore the voices of the people of Missouri. They have spoken. Amendment 3 was passed through a democratic process. Overturning it with HJR73 doesn't just take away access to care—it takes away the will of the people. That should matter to every person in this room, no matter your political beliefs. This is what the conversation around abortion must return to: real people. Real lives. My daughter's safety. My student's survival. A woman's right to control what happens to her body

should never be up for debate. Abortion is not about politics. It's about autonomy, safety, and dignity. When we take away a woman's access to care, we don't protect life—we risk it. We silence voices. We rob futures. And now, with HJR73, we threaten to silence the voice of democracy itself. I'm asking you, not just as a teacher or a mother, but as a fellow Missourian who believes in compassion, common sense, and the power of the people—please protect access to abortion. And please protect the decision that Missouri voters already made. Respect their voice. Respect our rights.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

I'm writing today because I am reading very concerning news from the state capitol. It's being reported that the Missouri Legislature seems to be working to undermine the will of the people of this state. I am appalled that those elected to be our voices in Jefferson City would have the audacity to believe that they, politicians, would know better than the Missourians who voted on an amendment -- those very Missourians who elected the office holders and placed them into office. We Missourians have a constitutional right, which I believe **MUST** not be rolled back, to be able to conduct initiative petition and to directly amend Missouri law. How dare some elected legislators attempt to ignore the will of the electorate and put up blocks on Amendment 3. I find this unconscionable and do hope that you are not one of those who would ignore the vote of the people in this way. Shame on those who are attempting to do so. Missouri legislators are in office to be the voice of constituents, not to exercise personal views in that role. I ask that those who are attempting to go against the voice of the citizens of this state either stop doing so or resign. Ignoring and disrespecting the voice of the electorate is unacceptable, and those who do so should step aside.

I strongly oppose HJR 73. This resolution would repeal Missourians' constitutional right to reproductive freedom and ban abortion across the state. Voters—not politicians—should decide what happens in their personal healthcare decisions. Reproductive rights must be protected, not taken away.?? Missouri voters have made it clear: we support reproductive freedom. We cannot let extremist politicians erase our rights from the constitution.

Missouri voters, myself included, voted for reproductive freedom in Missouri. HJR 73 is a blatant attempt to undercut our rights and deny Missourians the ability to make decisions that are the best for them. These are personal decisions and the government has no right to intervene. Vote NO on HJR 73!

I am Stevie Miller from Howell County. I am a nonbinary trans man and concerned Missourian, and I urge you to not only vote no, but have this bill dismissed. I am appalled that this is what you are focused on, Representative Lewis. The people have already voted for the rights to abortion. And to throw in an attack on an already vulnerable group of children that you clearly know nothing of nor care to know anything about? How dare you. This is not Christian behavior, and it's certainly not what you were hired to do. You were voted in to protect the will of the people, and the people are here telling you their will. Many of us have better things to do with our lives than to be here today to tell y'all how to do your jobs, and if you or any member of this committee can't keep your religion separate from YOUR ABILITY TO perform the duties of the offices you uphold, resign. You do not deserve the seat you sit upon. It's not a throne, remember that we the People are in charge here, and you were put there by us to serve us. I'll say it again, we voted. Missourians voted for the right to abortion. We should not be here having this conversation. And it's not even a conversation. This is an exercise in control, on women and child-bearing bodies, and on children. We the People are here telling you no. Hands Off our bodies. Hands Off our trans kids. Hands Off our reproductive rights. You have many actual concerns on child safety- including access to food, shelter and Healthcare- than to legislate out of existence the already marginalized group of children within the 1.7% of the population that is Transgender. Trans kids are resilient, they will still exist, and you would doom them to suffer with their gender dysphoria. Blood on your hands, and if you think I'm overreacting, I have a collection of statistics from the Trevor Project. Their 2023 study says that that leading cause of death among youth aged 10 to 14 is suicide, and LGBTQIA+ youth are 4 times more likely to kill themselves than their peers. 41% of LGBTQIA+ youth have considered suicide, and 2 out of 3 say their mental health worsens when they hear about legislation like this. Why do y'all think that is? Because you're nothing more than bullies that are empowering the peers and adults in their lives to terrorize them for being who they are. I get told to kill myself at least once a day, I can only imagine what the queer youth face. Leave trans folks, and especially trans kids, alone. Leave our abortion rights alone. Let the medical community experts set their standards of care and take care of the needs of each individual. Y'all have actual problems Missourians face that you could be writing bills for instead of this attack on women, uterus-havers, and children on an issue that we already set forth an amendment to enshrine our rights about. Do your jobs, because we are already working on voting you corrupt power hungry tyrants out.

Imposing the views of older white men on childbearing-age people is unconscionable, especially because it serves to take away a person's bodily autonomy. Nobody is outlawing Viagra, which is a gender confirming drug. No one is banning IVF, because for some reason, the right wants more white babies. As a teenager, I had an unwanted, unplanned pregnancy and an abortion at 9 weeks. This was not a decision I made lightly. But I knew that I would be unable to give a child the care, love, and stability it would need from me. I don't regret doing it. I wish I hadn't had to, but I would do it again in the same circumstances. Stop regulating women's bodies! It's none of your business what we do.

The voters voted for a woman's right to be in control of her own healthcare decisions, because she is the only one familiar with her particular circumstances and needs. It is not the proper place of Missouri legislators to arrogant those decisions to the state, which does not know the circumstances of every Missouri woman. Rewriting Amendment 3 in this instance is a violation of the outcome of the voters' choice and is not in the purview of the legislature.

First, the state should not be involved in the reproductive choices of its citizens. It is intrusive and wrong. Women are the primary caregivers and their decisions must control their reproductive lives. I know women who chose abortion for a number of different reasons, e.g., date rape, fatal fetal abnormalities, economic insecurity. In each case the decisions were well thought out and not take lightly. The people most directly involved know best and our current law provides reasonable restrictions on abortion. Second, I am adamantly opposed to any legislative action that undermines the will of the people. We had a fair election on the topic of abortion in Missouri, everyone had a chance to make their case and Amendment 3 passed. Respect the will of the people!

HJR 73 is another attempt, proposed by a man, to control women's access to contraceptive care and choices, as well as an attempt to override the will of the people. Accept the will of the voters and move on to something useful. The proposed legislation includes exceptions for rape or sexual assault with the requirement that women face repetitive trauma - first, in the act of sexual violence against their person; second, during an invasive medical and forensic exam; and third, through re-living of the trauma through the required reporting to law enforcement. The National Sexual Violence Resource Center reports one in five, or 20%, of all women in the U.S. have experienced some form of sexual violence in their lifetimes. According to the National Crime Victimization Survey from 2023, less than half of rapes and sexual assaults are reported to law enforcement. HJR 73 would cause additional trauma to sexual violence victims while also failing to address instances of sexual violence against children who may not understand what was done to them. How does an eleven year old child know to report rape? What happens when the rapist is a family member or authority figure? This legislation fails to recognize the complexities and trauma of sexual violence and how the reporting experience is dehumanizing, especially when female victims have no choice but to report, and be interrogated about, their rapes, to a workforce that is predominantly comprised of men. Missourians voted to protect access to abortion, and we, the people, understand that every woman's situation is individual, complicated, and should not be subjected to input from elected lawmakers. Health and reproductive care decisions belong between a woman and her healthcare provider.

To the Members of the Missouri House of Representatives, I am submitting my testimony to express my strong opposition to HJR 73. This amendment poses significant risks not only to individual rights but also to the health and well-being of our community. First and foremost, the people of Missouri have already spoken on this issue. Voters have expressed their desire for access to abortion services, reflecting the will of the community. This proposed bill invalidates that voice and disregards the democratic process. It undermines the trust placed in our representatives to uphold the values and needs of the constituents they serve. Additionally, access to safe and legal abortion is a fundamental aspect of reproductive health care. It allows individuals to make informed decisions about their own bodies and futures. Restricting this access disproportionately impacts those who are already marginalized—low-income individuals, people of color, and those living in rural areas—who may lack the resources to seek care elsewhere. Moreover, restricting or banning abortion does not eliminate the need for it. History has shown us that when safe and legal options are restricted, individuals will seek out unsafe alternatives, leading to dangerous health consequences. We cannot turn back the clock on progress made in women's health and autonomy. I, myself, have had to have an abortion procedure for a child I very much wanted and loved. And while my fetus no longer had a heartbeat, the procedure was necessary for my health. There isn't a day I'm not sad about my first pregnancy. Making these choices is never easy and our conservative "representatives" disregarding our voice in this matter is disgusting. We must consider the emotional and psychological toll of forced pregnancies. Carrying an unplanned pregnancy to term can lead to significant mental health challenges for many individuals. Each person's circumstances are unique, and they should have the right to make decisions that are best for their lives. Additionally, this could hinder medical professionals' ability to provide necessary care. Doctors and healthcare providers must be able to act in the best interest of their patients, and this amendment would create an environment of fear and uncertainty that ultimately harms everyone involved. In closing, I urge you to oppose HJR 73. The people of Missouri have already spoken. Your job is to ensure our will is carried out. Thank you for your time and consideration.

Protect women's lives and rights and reject this measure. As a woman, as well as a healthcare worker - women deserve the right to bodily autonomy. We deserve the right as human beings to have any medical procedure performed as deemed necessary between ourselves and our medical team. In emergent care of trauma patients (such as a MVC), the focus is always on the life of the mother before the fetal age of viability, which is around 20-22 weeks. This is backed by decades of science and medical practice and goes without question in medical professionals who are educated in these specialties. Let women and their skilled, specialized medical team decide what needs to happen to their bodies. The decisions are never as simple as one thinks. This measure has already been decided by the citizens and should be respected as such!

Please vote to **OPPOSE** HJR 73, in any form. Missourians passed Amendment 3 in 2024 to add abortion rights to the Missouri Constitution. HJR 73 seeks to restrict the abortion rights of women that Amendment 3 protects. Amendment 3 also protects reproductive health care decisions made between women and their doctors without criminalizing them for having an abortion or providing one. Why a woman wants an abortion is private and is not the business of Missouri lawmakers, period. Missouri, unfortunately, already has a law prohibiting gender affirming care for minors. HJR 73 ignores the fact that Missouri citizens have already spoken to preserve their right to abortion care in the Missouri Constitution via Amendment 3 and it shamelessly seeks to trample on those voices. As a lifelong, voting Missourian who voted for Amendment 3, I don't want the abortion restrictions, abortion criminality, or transgender care bans proposed in HJR 54, enshrined into the Missouri Constitution. Please **OPPOSE** HJR 73, in any form.

I strongly oppose HJR 73, which seeks to amend Missouri's constitution in ways that undermine reproductive rights. In 2024, Missourians voted overwhelmingly for the Reproductive Freedom Amendment, which allowed abortion access up to fetal viability. This bill directly contradicts that democratic decision by imposing severe restrictions that dismiss the will of the people. The bill's requirements, such as mandatory reporting to law enforcement within 48 hours, place an undue burden on victims of violence and undermine their autonomy. Furthermore, this bill attempts to undermine medical protections established by the Reproductive Freedom Amendment, weakening the rights of medical professionals to provide necessary care. The addition of language concerning gender transition surgeries and treatments feels like a strategic move to distract from the core issue and further polarize an already contentious debate. I urge the committee to reject HJR 73 and respect the will of Missouri voters who support reproductive freedom.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

An abortion saved my life as a 23 year old in 1999. Since then, I became a mother of two nearly grown children, was ordained in the United Church of Christ, and I currently serve as the Development Director for an organization that provides economic stability through employment and training to the people of Northern Haiti while producing a product that saves the lives of starving children. I can do all of this ONLY because of the medical care I received at St Joseph Hospital in 1999 when an ectopic pregnancy threatened my future. The voters have clearly spoken. Abortion IS healthcare. And scripture is clear in Genesis that Adam receives life upon the breath God breathes into him. The maternal health statistics show that women are dying in states with restricted access to abortion. Maternal outcomes are significantly poorer. Protect the women and the will of the voters.

In November, 2024, the abortion issue was on the ballot and voted on by the people of Missouri. Why would members of the Missouri legislature elected by citizens of Missouri completely ignore the voice of the people????!!!! I cannot and will not support those that I voted into office to represent me if they completely ignore my legal vote. Women's rights need to be protected.

- 1,538,659 Missourians voted YES on Amendment 3– you were elected to defend those rights.-
Missourians value privacy and oppose political interference in private decision making, especially
about pregnancy and abortion. Reproductive freedom is a Missouri value. - This is not a partisan
issue– Republicans, Democrats, and Independents from across the state collected signatures, signed
the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without
politicians interfering. The Republican supermajority has run this gambit time and again. Stop acting
on your own selfish agenda and simply enact the laws as the people have voted! And is not the
Republican Party allegedly the party of limited government and non-interference with the individual?
Or is that only when it suits your interests?

As a physician I witness my patients struggle with choices about their family. There is no single best answer on the choice between family planning (timing of having children) and pursuing educational goals. It is a personal choice based on values, religion and life circumstances. Making the best choice means having all the choices available. The full range of choice includes contraception or abortion services. The state cannot make this choice so it must be left to the individual's personal choice. The voters of Missouri spoke out that they want the full range of choices and adopted Amendment 3. I call on this Legislature to respect the voters and defeat HJR 73.

I adamantly oppose Bill HJR 73 and am disappointed our representatives in Jefferson City would reject the will of our constituents. This Bill recently passed with a MAJORITY of support to reinstate legal access for all to safe abortions. Were such restrictions in place when I found myself with an unintended pregnancy at 17 in 1988, I would never have been able to graduate high school, attend college--let alone peruse a Master's degree. Such a draconian law, like HJR 73, would have prohibited me from returning to MO to raise a family and be a financially stable, responsible tax paying, law abiding citizen. Please do NOT support HJR 73 against the will of the people and future neglected children.

Members of Congress, please listen to your constituents! We have voted for the right to have abortions as healthcare. Passing any form of legislation that makes abortion illegal, in any way, will have negative consequences on those who need abortion procedures as life-saving measures—you keep thinking this will not happen; believe me when I say it will. You have only to look at examples in neighboring states. Doctors will be afraid and hesitant because of the law, and women will suffer. Stop this.

My name is Unique Watson. I am a constituent and active voter from Kansas City, MO. On Nov 5th I voted to allow abortion until fetal viability. HJR73 undermines that vote and the vote of all of the Missourians who also voted to allow abortion until fetal viability. I am a woman and advocate for all other women. Abortion access is a medical necessity for the mental health and physical safety of all women. Please, do not undermine the peoples' vote. I oppose HJR73.

I will show up again and agin until this group of politicians understand and honor the fact that we, all 1,538,659 of us Missourians voted YES on Amendment 3. IT PASSED! We value our privacy to make our own decisions, especially our medical decisions. As for you politicians, we said clearly we get to decide what is best for ourselves. Not you. I STRONGLY OPPOSE HJR 73 - this is not health care. This is obtusely ignoring the will of the people to slide through your own personal agenda. Stop. It is time to kill this bill. This is not a partisan issue– Republicans, Democrats, and Independents from across the state collected signatures, signed the petition, and voted YES on Amendment 3 to establish Missourians' right to abortion, without politicians interfering.

I am writing in opposition to the Constitutional amendment HJR 73 which prohibits most abortions and also prohibits public funds from being used to pay for abortions as it will repeal Article I, Section 36 of the Missouri Constitution known as the "Right to Reproductive Freedom Initiative" which was known previously as Amendment 3. Despite the bill's text, this amendment's only purpose is to undo the will of the people who voted yes for Amendment 3 and will remove a woman's right to complete reproductive freedom in Missouri and should not be approved.

I am opposed to this bill because it overturns what a majority of voters just supported in November. This will hurt women and girls and takes away our ability to bodily autonomy. This also hurts women who want to become mothers. Only allowing abortion in cases of medical emergency and rape or incest is too restrictive. What constitutes a medical emergency? I am 16 weeks pregnant with my first baby right now. I very much want this baby and to have more babies. If something goes wrong in this pregnancy and my pregnancy becomes no longer viable, how close to death do I have to get before it's a medical emergency? In some cases if my doctor can't induce labor for a non-viable pregnancy after 12 weeks I may lose the ability to have more children in the future. Or I may suffer mental and emotional trauma by being forced to carry a non-viable pregnancy to term knowing for weeks that my baby won't live. Don't do this to women! Let our reproductive decisions be between us and our doctors.

I oppose the overturning of Amendment three. I resent how (republican) lawmakers are trying to overturn something that the overwhelming majority of Missourians agreed was right for us. I am a veteran who served for our democracy to remain in tact. I have no interest in the government or police having ANYTHING to do with private decisions between a woman and her doctor. The majority of us are sick and tired of sore losers trying to pull one over on us. Your constituents voted and you know what we want. Of you value your positions, pay attention to your constituents. Personal religious convictions have no place in government unless we start taxing the churches. You have the right to your religious views, and I have the right to maintain a different outlook. This is disgraceful and disrespectful.

Just a few years ago, I was the mother of a ten-year-old rape victim. I was also a Catholic and would not choose an abortion for myself personally. But I have been to Child Safe with my children, and I have sat in Children's Mercy's Child Sexual Assault ward, awaiting the results of a rape kit and a pregnancy test. My daughter was 85 pounds and going into fifth grade. I sat for what felt like forever, pondering what I would do if she was pregnant. The idea that, if she were pregnant, I could save her the pain, the heartache, the stigma, and the physical dangers of a pregnancy at her age so simply through a medical procedure, made me able to breathe for the first time in the days since I had found out her own father was a rapist. I know you like to claim that in cases of rape and incest, abortions will still be allowed, sometimes. Not always—I'm not sure what this bill will claim. But these exceptions puts the burden of proof on women who are in an emergency, panicked state. Will they have to file a police report? What if they're scared to? No woman, regardless of her reason, should be denied her right to choose abortion. Those who don't believe in them simply can choose not to have one—it's that easy. Let women decide this for themselves. In fact, we already have. Legally, last year. The people have spoken already. Or have you forgotten?

Missouri voters made it clear that reproductive health care, including abortion as is medically defined, is a right. I oppose any attempt to undermine or reverse that decision. If the legislature wants to reduce the number of abortions, they can start by requiring age-appropriate comprehensive sex education for both boys and girls and ensure that low-cost contraception is available to all women capable of child-bearing.

The conservative position on this is an oddly evangelical one, which sits poorly with the doctrine of separation of church and state, yet even more oddly, it sits poorly within their own doctrine. All versions of the christian bible clearly state that life begins at first breath, not at fertilization. It is the height of ridiculousness that we should follow the ideas of people who can't even follow their own doctrine. There should be no laws, acts, or amendments passed in this state, much less this country, that are not grounded in reason and necessity. This tirade against bodily autonomy is grounded in neither and will only contribute to Missouri's economic issues.

Faith and Service: A Moral Reckoning on Missouri's Abortion Policies“Love the Lord your God... This is the first and greatest commandment. ...Love your neighbor as yourself. All the Law... hang on these two commandments.” — Matthew 22:37-40As a rural Black woman, my faith is my core and wholly centered around these Red Letter commandments- I take them seriously. I am currently serving my second term as the Vice Chair of the Missouri Democratic Party, and this service is how I put my faith into action. Like many in my community, I am deeply uncomfortable with the idea of elective abortion. Faith demands that I take a different path—one that centers my discomfort around truly loving my neighbor. That is why I have also served on the board of my local pregnancy resource center and have donated to them for over a decade. My faith calls me to focus on meeting the needs of Missouri's pregnant women, to protect life.Love God. Love your neighbor. It's the beginning and end of my faith.Let's be clear: no one ever desires an abortion. The issue is complex. There are medical complications that necessitate abortion. There are failures of violence—rape, incest, and abuse, and there are systemic economic hardships that lead to abortion. Like faith itself, every abortion decision is deeply personal. Missouri Republicans have decided otherwise. For Missouri Republicans, abortion is a government decision, their choice. For decades, they have entertained new, cruel abortion restrictions every legislative session, culminating in Missouri becoming the first state to implement a complete abortion ban after the Supreme Court overturned Roe v. Wade.Archbishop Desmond Tutu once said, “There comes a point where we need to stop just pulling people out of the river. We need to go upstream and find out why they're falling in.” Like many Red States, Missouri has spent decades passing one abortion restriction after another. But these bans didn't pull anyone out of the water. Missouri's laws made elective abortion more inconvenient; they never actually stopped it. The ban was a legal sleight of hand that forced women to drive to Kansas City, Kansas, instead of Kansas City, Missouri, or to East St. Louis instead of St. Louis. Two years after Dobbs, the number of abortions nationwide surpassed one million for the first time in history. Abortion bans don't stop abortions.It's time to go upstream and do the real work. Why are women falling in the river? Thanks to the actions of these 'pro-life' legislators, Missouri is one of the most dangerous places on earth to be pregnant:?

Half of Missouri's rural hospitals have closed, leaving many rural pregnant women hours away from obstetric care.? Missouri's maternal death rates rival those of developing nations like Sudan and Somalia.? Women face a 1.5-hour average wait time to access Missouri's expanded maternal benefits, which often prevents them from getting the services they need.?

Missouri's Republican-led Legislature made it nearly impossible for pregnant women to sue employers for wrongful termination.? Missouri workers have no paid maternity leave.If Missouri Republicans truly valued life, they would support pro-pregnancy laws that address how hard life is for Missouri families. These are the policies they would champion if 'saving babies' were the real goal. Instead, they have used this issue to fill campaign coffers, stage political theater, and rally their

base. They've proposed databases to track pregnant women, sought to criminalize crossing state borders for abortion care, and pushed for even harsher bans. It's almost like they're not serious.

An abortion saved my identical twin grandson. If my daughter in law did not have an abortion of the twin who was dying. The other twin would have dyed as well. So she had an abortion to save one of her sons. Therefore an abortion saved my grandson.

I'm here to say this ban is an attack on basic human rights. I'm sick of watching men try to control women's bodies. You don't get to force people into parenthood. You don't get to hijack their futures for your politics. Abortion is health care. It's not your decision to make.

This bill seems like nothing more than the direct attempt to directly override the will of the people and provide for government overreach in areas which only extremely weird people would think even remotely necessary.

The people of Missouri voted to make abortion legal as necessary healthcare. It is wrong to try to undermine the people's will by trying to reverse it.

I wish to submit testimony that, even though I would prefer to live in a state that doesn't allow abortions in any form, I would be willing to support this resolution if the exceptions were removed. ONLY if the exceptions were removed. Thank you.

I can support this if it becomes a truly pro-life bill, but cannot while it carves out the constitutional protected murder of some babies. Remove this exception and I'll run all over the state helping this pass just like I did last fall fighting A3.

Honestly I think It's a separation of church and state issue. Going to hell scenarios are the prevalent pictures that anti abortion folks like to expound. Murder, taking a life. I find the belief that a woman does not deserve the right to choose what and how to determine their destiny is bonkers. Where does that leave non believers? There are so many " light foot " religious people that get drunk on Friday, prays on Sunday and hates the neighbors Monday through Thursday? Hypocrites abound. If you need religion to get through the slog of life then by all means use it. The voters passed the measure after tons of money and effort were poured into this debate from both sides. Imagine if we put those funds into raising our children well, providing them with a good education and food in their stomachs on a regular basis? Think of how much money is being wasted on this stuff. The right wings idea of a perfect society is to marginalize the unfortunate and blame them by imagining that they're responsible for our failures. Why would we possibly want millions of more hungry mouths to feed? So we can call ourselves good Christians? It's a bridge too far.
