THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The Missouri Catholic Conference supports SB 10, as it would ensure that several valuable provisions would remain in place by repealing their respective expiration dates. Specifically, we support the removal of the expiration date for sections 135.621, 163.048, and 191.1720 of the Revised Statutes of Missouri. The first one would keep the diaper bank tax credit, allowing these organizations to continue helping families who lack access to items that are essential to the health and well-being of children, in accordance with their inherent God-given dignity. This is part of the efforts from both the Catholic Church and society at large to create a culture of life and compassion. The second provision would guarantee that fundamental fairness and safety for female athletes seeking to participate in interscholastic sports remains the norm in Missouri. Preventing biological males from competing against biological females protects the dignity of female athletes, respects justice and the common good, and ensures that our laws comport with a proper understanding of human nature. Finally, the third would ensure that minors continue to be protected from surgical procedures, life-altering cross-sex hormones, and puberty blocking drugs that, based on a false understanding of human nature, attempt to change their sex. Furthermore, we are concerned that minors are not capable of giving truly informed consent to dangerous treatment that could lead to irreversible consequences, such as infertility and lifelong dependence on costly hormone therapies with significant side effects. The Missouri Catholic Conference urges the committee to vote "DO PASS" on SB 10.

I urge the committee to oppose SB 10. Unfortunately, this bill passed its way through the senate. It sneaks in sunsets for items not related to taxes. How many different bills does the Missouri legislature need to produce where it removes the sunsets on statutes for youth gender affirming care and transgender athlete ban?! Each bill says "I have a prejudice against youth who are happy living their truth".

I am in opposition to this bill.[PARTICIPATION IN ATHLETIC COMPETITIONS DESIGNATED FOR THE OPPOSITE SEX (Section 163.048)This act repeals the August 28, 2027, expiration date of a prohibition against schools allowing students to compete in an athletic competition designated for the biological sex opposite that of the student.MISSOURI SAVE ADOLESCENTS FROM EXPERIMENTATION (SAFE) ACT (Section 191.1720)This act repeals the August 28, 2027, expiration date of the "Missouri Save Adolescents from Experimentation (SAFE) Act".]These two portions of the bill are not necessary. This is a divisive issue that does nothing but harm trans individuals. Most Missourians are not affected by these laws. The way we speak about these issues is to say we're protecting women in sports, but we harm all women in sports. We harm trans youth by denying them access to life saving care. We should focus on policies like investigating whether or not these claims are true. We should focus on policies that give people access to appropriate prenatal care, pregnancy, and post-pregnancy care; to preventative screening that reduces the incidence of cancer; to educate our youth the harms of drugs, alcohol, and smoking. These two portions of the bill only further hurt trans individuals and has the opposite intended effect of helping people. I urge you to vote against this bill.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Testimony in Opposition to SB 10 Dear Members of the Committee, I respectfully submit this testimony in strong opposition to Senate Bill 10, which seeks to make permanent the bans on gender-affirming care and the participation of trans athletes. This bill represents a harmful, discriminatory overreach into the lives of transgender Missourians, particularly our youth, and is a direct attack on their basic human rights, health, and well-being. Gender-affirming care, which includes access to puberty blockers, hormone replacement therapy, and, in some cases, surgeries, is a medically recognized and crucial component of care for transgender individuals. The decision to pursue such care is not made lightly and is always made with the support of medical professionals, including mental health experts, endocrinologists, and pediatricians, who take a comprehensive approach to the health of transgender patients. Denying access to gender-affirming care is not only a violation of individual rights but also a form of medical neglect, as it directly impacts the mental and physical health of transgender individuals. Studies have shown that when transgender individuals have access to appropriate care, they experience improved mental health, reduced rates of suicide, and greater overall well-being. Additionally, SB 10's provisions targeting the participation of transgender athletes in school sports fail to consider the complexities of gender identity and the importance of inclusion. Sports should be a space where all children, regardless of their gender identity, have the opportunity to develop skills, build relationships, and participate in activities that promote both physical and mental health. Transgender athletes are not a threat to fairness in sports. Rather, they are seeking the same opportunities that cisgender athletes enjoy. Transgender girls, in particular, should not be excluded from playing sports simply because of their gender identity. These bans send a harmful message that transgender people, particularly transgender youth, do not deserve to be treated with the same respect and dignity as their peers. By passing SB 10, Missouri would be sending a dangerous and damaging message to transgender individuals that their lives, identities, and rights do not matter. We cannot afford to legislate hate and exclusion. We should be working to create a state that embraces diversity, inclusion, and compassion for all its citizens, including transgender Missourians. I urge the committee to reject SB 10 and instead work to protect the rights, dignity, and well-being of transgender people in Missouri. This bill represents a step backward for the progress we have made toward equality and human rights. Let us stand together in support of all Missourians, regardless of gender identity. Thank you for your time and consideration.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The Freedom Principle MO opposes this bill, and we encourage your committee to block it and prevent it from being considered. SB 10 is first and foremost unconstitutional. It violates Article III, Section 23 of the Missouri Constitution. The bill intends to eliminate the expiration date of certain tax credits, but these tax credits cover multiple subject areas such as:• Construction• Child Care•
 Motion Pictures• Agriculture• Economic Development• Teacher Retirement
 Funding• Criminal Justice• Healthcare• Many other areas SB 10 also calls for eliminating the sunset dates for the SAFE Act and the Protect Women in Sports Act. These two sections are not tax credits, violating the title of the bill. We also oppose this bill because of the potential financial impact on the state budget. According to the Fiscal Notes associated with this bill, the financial impact on the state is unknown and in some of the Fiscal Note’s comments, the Department of Revenue cannot determine how many people have taken advantage of these tax credits. This potentially leaves the state vulnerable and will have a direct impact on Missouri’s budget. Furthermore, some of the proposed tax credits are expired or expiring in 2025 and we have not heard a large demand from the public for extending these tax credits, making us believe extending these tax credits is not necessary. We believe the state legislature has a fiduciary responsibility to investigate these tax credits to determine their effectiveness before offering a blanket extension. This bill reeks of special interest carve-outs for political purposes and we believe the Government Efficiency Committee should KILL this bill.

Hi, my name is Cammie Storm and I am once again submitting testimony because you cannot stop obsessing over people's genitalia. Once again we are watching you waste taxpayer money to go against the medical community so you can spew hate and control over the transgender community. You could get us better roads, schools, and so many other things to help all Missourians, but you're so obsessed with children's genitalia that you seemingly cannot get anything else done. Maybe you should listen to the medical community and stop fantasizing about what is or what you feel should be between children legs.

I strongly oppose SB 10 (specifically Sec. 163.048 and 191.1720) for the untold damage it would do to trans and non-binary children such as my 17 year old. Laws preventing trans kids from participation in sports and denying them medical care are unkind and unjust. They have not benefited children and should be allowed to expire as planned. SB 10 would extend the damage of such laws past the planned expiration date of August 28, 2027. Please vote against SB 10.

SB 10 originally was set up to repeal the sunset dates on design-build project management regulations. Those those officials who continually seek to target trans Missourians have now tacked on the means to repeal the sunset for gender-affirming health care and trans athlete bans. Earlier this year, more than 100 people showed up in Jefferson City and several hundred more testified online to oppose other attempts to repeal these sunsets (HB 113 and HB 35). I need this committee to listen to the people and vote no on SB10.

I oppose SB 10 because I believe each item in this bill should be voted on separately. Yes, it includes important measures, such as removing the sunset provisions on the SAFE Act (supporting parental rights) and protecting women's sports by eliminating male participation, it also locks in COSTLY tax credits and reimbursement programs with no end date. Therefore, I oppose this bill.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I'm a licensed clinical psychologist in KC. I have 3,800 direct clinical hours working with adult trans clients. They all knew from a young age who they were and not being able to socially and/or medically transition during adolescence stunted their growth. It's hard enough navigating adolescence, let alone doing it when you have to conform to society's conception of gender. It often leads to depression during adolescence and maladaptive coping as a way to survive. Come adulthood, dysphoria does not disappear. It amplifies at some point at which point an individual has to spend thousands of dollars to become the person they always were. It's a painful expensive process that could have easily been avoided. Less than 1% of trans people ever de-transition and even still it's not because they no longer identify as trans but just have obtained what they want from hormones or feel pressure from society and their social environment to conform to their standards, your standards. You are not saving children. Let's just call that for what it is: a euphemism to justify your discrimination. This law actually increases the risk of depression and suicide among trans youth. I write hundreds of letters for gender affirming surgeries and not a single one has been for someone getting surgery under age 18. But again, you know this despite propropagandizing sterilization of youth to voters. If this law passes, it will hurt Missourians for generations to come. May you be fortunate enough to never have a politician or non-medical stranger tell you what you can't do medically for yourself or your family.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Good afternoon committee members, My name is Emilia Stauffer. I am a resident of Springfield, MO. This testimony is in opposition to SB 10 as it currently reads specifically in regards to the SAFE Act (Section 191.1720) and Participation in Athletic Competitions Designated for the Opposite Sex (Section 163.048) which would remove the sunset clause in both laws. I sit here before you as a person of transgender experience. I first came out at age 14 under duress. I was consequently taken to a psychologist who convinced me that detransition was the only answer which rather than giving me a "normal" life resulted in many years of active addiction, an HIV+ diagnosis, and many years of social isolation. The one person who brought me hope growing up in my small town was a fifth grade teacher who successfully advocated for me to be able to continue to interact with my female friends when the boys and the girls were separated for a period of time due to behavior issues. Though I didn't have a word for my gender at the time, she saw me and chose clemency rather than doubly punishing me. Unfortunately, she was the only one for the years that I had left in that school system who showed such understanding. The other teachers who chose to bully me and the students who chose to hurt me led to that moment at age 14 where I had no choice but to come out or die. Fast forward, the world is sinking into darkness for people like me again. You all have the chance to show clemency in order to keep your children and other people's children from experiencing the same trauma as me and the same hopeless results as me by making sure that they have access to life changing sports participation and life saving medical care. Vote no to removing these expiration dates from these laws.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Written Testimony in Opposition to SB10 Dear Committee Members, I am writing to express my strong opposition to SB10, a bill that seeks to ban gender-affirming care for transgender minors. As a parent of a transgender child, I have seen firsthand the life-saving impact that gender-affirming care has on young people. This bill is not only harmful but is also an overreach into the private medical decisions made by families in consultation with doctors and mental health professionals. Medical Consensus and the Necessity of Care Leading medical organizations—including the American Academy of Pediatrics, the American Medical Association, and the American Psychological Association—overwhelmingly support access to gender-affirming care for transgender youth. Gender dysphoria is a recognized medical condition, and its treatment follows well-established, evidence-based guidelines developed by experts in pediatric and adolescent healthcare. Prohibiting access to care would contradict decades of research and best practices in medicine. The Harmful Impact of Denying Care Studies show that transgender youth who receive gender-affirming care experience lower rates of depression, anxiety, and suicide. In contrast, those who are denied care are at a significantly higher risk of self-harm and emotional distress. By restricting access to medically necessary treatments, SB10 would put vulnerable youth at an increased risk of harm, stripping them of the support they need to thrive. Parental Rights and Medical Decision-Making SB10 takes away the rights of parents to make informed medical decisions for their children in consultation with healthcare providers. No government should interfere with personal healthcare choices that are best left to families and medical experts. Families like mine should not have to live in fear that the care our children need will be criminalized. Economic and Social Consequences Beyond the direct harm to transgender youth, SB10 could have broader negative effects on our state. Restricting healthcare access could lead to medical professionals and businesses leaving the state, deterring talented individuals and economic opportunities. Other states that have pursued similar legislation have faced legal challenges, corporate boycotts, and negative economic consequences. Conclusion SB10 is not about protecting children—it is about stripping away their rights to receive the medical care they need. I urge you to listen to medical professionals, families, and transgender individuals who will be directly affected by this legislation. Instead of banning life-saving care, I encourage lawmakers to focus on policies that truly support the health and well-being of all children in our state. I respectfully urge you to oppose SB10 and stand for the rights of families to make the best medical decisions for their children. Sincerely, Erin Poggi

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I respectfully submit this testimony opposing Missouri Senate Bill 10 (SB 10), which seeks to remove the sunset provisions from various statutes, notably those restricting gender-affirming care for minors and limiting transgender athletes' participation in sports. The original enactment of these restrictions included sunset clauses set to expire in 2027, reflecting a legislative compromise that allowed for reevaluation based on future insights and societal developments. By eliminating these sunsets, SB 10 would make these bans permanent, disregarding the agreed-upon timeframe and undermining the legislative process. Permanently enacting these restrictions poses significant harm to transgender youth in Missouri. Denying access to gender-affirming care and inclusive athletic opportunities has been shown to negatively impact the mental health and well-being of transgender individuals. Making these bans indefinite exacerbates these harms and sends a message of exclusion to vulnerable populations. Furthermore, removing the sunset provisions reneges on the original legislative agreement, which intended for these policies to be temporary pending further evaluation. Such action diminishes trust in the legislative process and dismisses the importance of periodic policy review. In conclusion, I urge lawmakers to oppose SB 10 to prevent the permanent imposition of these harmful restrictions and to honor the initial commitment to reassess these policies within the agreed-upon timeframe.

The relentless attack on trans Missourians and their families amounts to a witch hunt. Trans people make up less than 1% of the population, yet they have been scapegoated as a boogeyman for politicians, leaving children and families in a precarious position. People should be allowed to make educated decisions for healthcare for their children with the support of their medical doctors. Trans athletes do not physically benefit from their assigned sex at birth because they are receiving hormone blockers. There is no scientific basis for this type of discrimination, and I strongly oppose any bill that would attempt to remove the right of parents to decide for their kids the best option for their mental health and well being. This is government overreach, and I oppose this bill.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am writing to strongly oppose this bill due to its removal of the sunsets of the bans on gender affirming healthcare for minors and transgender athletes participating in sports. I understand why it might feel to a person that gender affirming healthcare for minors or transgender athletes pose a risk to our youth. I strongly disagree with that, but through personal experience, I definitely understand the concern. I think science has demonstrated that gender affirming care, be that medical or social, is actually lifesaving, but I also understand that science evolves as we learn more. Currently there are bans (that I oppose) in place to prevent gender affirming healthcare and sports participation for transgender youth, but these bans are set to sunset in a few years. When we get close to that time, it makes sense to reevaluate the situation with a few more years of knowledge under our belts, rather than this current rush to make permanent something that the people impacted have told you many times over is harmful to them. The state needs to stop attacking transgender people, especially youth, who are more vulnerable.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am in opposition to this bill specifically regarding repealing the sunset dates for "PARTICIPATION IN ATHLETIC COMPETITIONS DESIGNATED FOR THE OPPOSITE SEX (Section 163.048)" and "MISSOURI SAVE ADOLESCENTS FROM EXPERIMENTATION (SAFE) ACT (Section 191.1720)." The main argument that I personally see in defense of Section 163.048 is that "biological males" will dominate girl's sports. There is no statistical evidence to support this in either youth or adult sports. Transgender youth should be able to participate in sports that align with their identity because sports are an important part of many people's lives. They provide exercise, build community, and provide youth with a sense of accomplishment. Youth that participate in sports can learn to work cooperatively as a team with people who are different from them. The issue with Section 191.1720 is that there is that it is blatantly ignorant of what transitioning consists of for children and in denial of several aspects of science. Treating children is a very long-term conversation between the family, the child, and teams of medical professionals. Those medical professionals evaluate things like insistence, persistence, and consistence, which are the metrics used to understand if a child or adolescent may be experiencing gender dysphoria. There are many other policies in place that put roadblocks before stages of medical transition, which often come years after social transitioning and/or the child becoming an adult. However, that is a choice between parents, medical professionals, and youth based on what they believe is the most appropriate form of care, and not the choice of politicians who have no expertise in this area. Allowing this legislation to stay in place means that children who have any sort of documentation on experiencing gender dysphoria are actively being refused necessary treatments. In particular, some children are being refused puberty blockers for precocious puberty because of questioning their gender identity being noted on their medical documents, because prescribing puberty blockers would be considered "aiding their transition." Precocious puberty has many effects on a child's physical and mental health, some of which can last their entire lifetime. To refuse to treat this condition just because a child has also expressed uncertainty about gender identity is heinous and cruel. The majority of recipients of gender-affirming care as minors are cisgender, particularly cisgender male adolescents. If the politicians who insist on banning gender-affirming care for minors truly believed that it was experimental or dangerous, gender-affirming care would be banned for all minors. Yet, legislators insist on denying transgender youth and their families the dignity and autonomy that their cisgender peers are afforded.

I oppose making the temporary ban on gender affirming care for minors permanent. I also oppose making the sports rules that don't allow kids to participate with their correct gender identity permanent. The gender affirming care ban has already proven harmful. Families have left Missouri over this, and the people who were postponing puberty in order to make the best medical and emotional decision were left without options. The sports issue has also harmed Missouri. Because of these two bans, we have gone on the list of states that do not deserve the business of progressive entities, and state that aren't safe for LGBTQ people. It's a shameful thing for my state to be on these lists.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am writing to express my opposition to the repeals of 2027 expiration dates for PARTICIPATION IN ATHLETIC COMPETITIONS DESIGNATED FOR THE OPPOSITE SEX (Section 163.048) and MISSOURI SAVE ADOLESCENTS FROM EXPERIMENTATION (SAFE) ACT (Section 191.1720). Both of these policies harm transgender and gender non-conforming youth in Missouri and never should have been enacted in the first place. Repealing their expiration dates will make Missouri an even more hostile environment for trans youth and their families. The ability to participate in sports is recognized as an important activity for youth to experience team building, build social connections, and build positive physical and mental health habits that can last into adulthood. Denying trans youth the opportunity to participate in athletics teams that match their gender puts them in an impossible position; the result is effectively a ban on their participation in athletics. There is no reputable research that has shown a systematic "advantage" of trans athletes over cisgender athletes, especially among pre-pubescent athletes. Nor is there one case of an athlete transitioning in order to succeed in sport. In my view as a researcher and as a former high school athlete, success in the highest levels of any sport is never a matter of complete biological "fairness." For example, gold-medal swimmer Michael Phelps has several biological characteristics that make his body optimal for swimming compared to the the average person (source: <https://www.biography.com/athletes/michael-phelp-perfect-body-swimming>). In addition, Phelps started competitive club swimming at an early age - money and access to training facilities are also key determinates of success in high-level sport. Framing the exclusion of trans athletes in sport as an issue of "fairness" is a strawman argument. Rather, exclusion of trans athletes is gender-based discrimination. The so-called "SAFE" act is another dishonest framing of an important issue that impacts quality-of-life for transgender and nonbinary youth in Missouri. Gender-affirming care for minors is not "experimental" as the law claims. Puberty blockers have been used since the 1970s to treat precocious (early) puberty in cisgender youth, and since the 1980s to treat gender dysphoria in adolescents. Protocols for hormone replacement therapy (HRT) to treat gender dysphoria in adolescents were established in the 1990s (source: <https://pubmed.ncbi.nlm.nih.gov/36446328/>). Research studies consistently find that puberty blockers, when used to treat gender dysphoria, effectively reduce the odds of clinical depression, suicidal ideation, and suicide attempts among trans and nonbinary youth. Hormone replacement therapy, when appropriate and administered at the direction of a physician, is also associated with decreased suicidality and mental health issues. Bans on gender-affirming care for youth have already had detrimental effects in Missouri, with many families choosing to leave the state in order to access necessary medical care for their children. The Missouri state government should leave decisions regarding any medical care, gender-affirming or not, between youth, their families, and their doctors.

STOP LEGISLATING AGAINST TRANS PEOPLE! This bill seeks to make the bans on gender-affirming care and participation of trans athletes permanent. As a teacher, trans children are already under incredible amounts of stress and depression and feelings of worthlessness and not belonging. In spite of this, they find the courage to show up as their authentic selves. When they are able to express their preferred gender identities, they have a chance at finding peace and acceptance. Bills like this, that has a whole government telling you that the person you are is wrong, adds an insurmountable weight to their shoulders, to their existence. Suicide rates are high among trans youth. This bill pushes them closer to suicide. Trans children **DO NOT CAUSE HARM**. They are humans trying to fit into their bodies. They are people. They are children. They deserve our protection and respect. They deserve to play sports on their gender-affirming team. Focus on protecting children, not forcing harm on some of our most vulnerable Missourians. I am not trans, but I whole-heartedly support trans people and their right to a dignified existence. I implore you to kill this bill.

I urge you to vote NO on SB 10 (Hough), specifically the provisions that would make the bans on gender-affirming healthcare for trans youth and their participation in school sports permanent, stripping away critical protections and opportunities from young people across our state. The current law has sunset provisions to allow for further study and real input from impacted families, like mine. Removing these provisions is an extreme move that disregards my belief that medical decisions are each of our individual right and freedom to make with our families and the medical experts who support our care. We know that all youth, especially transgender youth, deserve the opportunity to play the sports they love, and experience the valuable lessons of being on a team with their peers, including teamwork, discipline, success, and failure. Failing to support transgender student athletes only perpetuates a culture of bias, and instigates an issue that doesn't exist. The lie that transgender youth are taking opportunities away from other youths, when in fact, they are also just boys and girls wanting to play sports and have fun. Transgender women are WOMEN. It's simple, and by excluding trans women from sports, you are indicating that they are a hypothetical threat, and ignoring the current documented harm against transgender women and girls. This has real impacts on the lives of human beings. I believe in fairness and freedom. And I voted for you to represent and uphold those freedoms, not cause undo harm to already marginalized kids. Locking in these bans without insisting on continued research and public input is irresponsible. Do the right thing and stand against this overreach — vote NO on this bill.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I am writing in opposition to SB 10. Omnibus bills such as this one are bad for Missourians and here is why: By bundling together such a wide range of issues, from tax credits to social policies and healthcare funding, the bill clearly prevents thorough debate on each individual item. Legislators and Missouri citizens do not have the opportunity to fully understand the implications of each repealed sunset date or the extension of specific programs. I am wondering, however, if this is the reason. Many issues in this bill are DEEPLY UNPOPULAR with voters in Missouri. This bill clearly is being used to push through these deeply unpopular measures by attaching them to more widely supported components. The permanent repeal of the SAFE Act's sunset date might be more easily achieved within a larger bill that includes popular tax credit extensions. This is unfair and not in service to the citizens of Missouri. Permanently repealing sunset dates for numerous tax credits without a clear plan for regular evaluation has the real potential to inflict a financial burden on our state. Without periodic review, there is no guarantee that taxpayer money is being used efficiently. Including highly contentious social issues like transgender athletes and the SAFE Act alongside tax credits and healthcare funding forces legislators into difficult votes and shields them from the transparency that they need to be providing to their constituents. But again, that likely is the very purpose of such bills. Let's be concerned about transparency. This bill is harmful and needs to be broken up. Vote on these issues according to their topic or as single issues. Citizens of Missouri deserve for each of these to be debated thoroughly. They deserve transparency to see how their elected officials have voted on each of these measures. That is what is good for Missouri.

SB 10 (Hough) started out as 12-page bill removing tax sunsets but came out of the Senate as a 108-page omnibus removing sunsets on many statutes, including those on the gender affirming care ban. Research shows that gender affirming care and the presence of supportive adults in the lives of transgender young people reduces the likelihood of suicidal thoughts or attempts. If these sunsets are removed, these bans will become permanent and continue the harms against these young people. The message to our Missouri youth should be one of loving support, not fighting what we do not understand. It is also worthy to note that this sunset was agreed whenever a legislator cast a vote for the bills that led to them, and now they are going back on their collective word with less than half of the agreed upon timeframe passed.

Gender-affirming care is supported by leading medical organizations as essential, life-saving treatment, and denying access to such care increases risks of mental health crises, discrimination, and systemic marginalization. Similarly, bans on transgender athletes perpetuate exclusion and deny young people the right to participate in sports, which provide essential benefits for physical and emotional well-being. This bill is an overreach that disregards the principle of legislative accountability and denies future lawmakers the ability to assess and revise policies in response to new information. It is imperative that SB 10 be rejected to prevent the permanent entrenchment of laws that harm vulnerable individuals and strip away opportunities for necessary policy reassessment.

there is no reason for this, other than to discriminate against people, which is wrong. They should be allowed to live and thrive in their environment without all this hassle. This is one step closer to trying to eliminate everything that helps them live and be their authentic self. They are causing no harm and are not deserving of this type of thing happening to them.

This initiative, as currently written is the most amazing amalgamation of junk that was not able to be placed into individual bills. This bill needs to not move from committee as the breadth and scope of this initiative is so outrageous that there's no reason to throw all of these disparate items together in one (1) bill. Instead of using this dumpster fire of a bill as a way to hide your disingenuous attempts to remove previously affirmed sunset clauses, take the time to wite a clear, transparent piece or pieces of legislation.

I urge lawmakers to reject Senate Bill 10 due to its reckless financial impact and poor structure. While I support the SAFE Act and maintaining fairness in women's sports, these provisions should not be tied to permanent tax credits and reimbursements that could cost taxpayers over \$61 million annually. This bundling hides fiscal irresponsibility behind good policies, and Missouri deserves better. Please vote no and address these issues separately with a focus on fiscal responsibility.

I urge you to vote NO on SB 10 (Hough), specifically the provisions that would make the bans on gender-affirming healthcare for trans youth and their participation in school sports permanent, stripping away critical protections and opportunities from young people across our state. The current law has sunset provisions to allow for further study and real input from impacted families, like mine. Removing these provisions is an extreme move that disregards my belief that medical decisions are each of our individual right and freedom to make with our families and the medical experts who support our care. We know that all youth, especially transgender youth, deserve the opportunity to play the sports they love, and experience the valuable lessons of being on a team with their peers, including teamwork, discipline, success, and failure. Failing to support transgender student athletes only perpetuates a culture of bias, and instigates an issue that doesn't exist. The lie that transgender youth are taking opportunities away from other youths, when in fact, they are also just boys and girls wanting to play sports and have fun. Transgender women are WOMEN. It's simple, and by excluding trans women from sports, you are indicating that they are a hypothetical threat, and ignoring the current documented harm against transgender women and girls. This has real impacts on the lives of human beings. I believe in fairness and freedom. And I voted for you to represent and uphold those freedoms, not cause undo harm to already marginalized kids. Locking in these bans without insisting on continued research and public input is irresponsible. Do the right thing and stand against this overreach — vote NO on this bill.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Two years ago, the Missouri legislature passed SB 49, which effectively ended gender-affirming care for minors in Missouri. This occurred despite opposing testimony from dozens of medical professionals, family members, and trans individuals themselves. SB 49 did have a grandfather clause allowing transgender youth to continue treatments which had already begun. This bill aims to end the exception for those individuals, and also to extend the law to permanently ban this medical care. My daughter, who for 14 years we regarded as my son, has found a joy and happiness through her treatments which never could have happened without access to psychological counseling, testosterone blockers and hormone therapy. She lives her life with body and mind in harmony, a stark contrast to the years she endured before letting us know who she really was. Gone is her self-loathing, gone are the anti-depressants, all because she is allowed access to the treatments she needs to feel like who she is. This should be the reality of any transgender person who needs it. Instead, this bill would renew and extend the misery of young people denied access to care approved by doctors and parents. I cannot imagine the gut-wrenching pain my daughter would endure if she were required to stop her treatment. No person should be required to endure this. These treatments are responsibly and carefully administered. It takes a long time just to get approved for treatment, because the process is cautious. Parental rights and personal freedom have been frequent buzzwords in the Missouri legislature. Parental rights and personal freedom are exactly what is being denied by this bill. Transgender people are real. They are a small minority, but they need to be allowed to live their lives as best they can, free from government interference in very personal health care decisions. Please allow young trans people to experience the joy and affirmation of feeling right in their own bodies. Vote no on this bill.

Missouri does not need to ban gender affirming care for trans Missourians and it does not need to ban participation by trans Missourians. Trans Missourians are Missourians. They are people that deserve medical care that the medical community has deemed appropriate. The government should not control the lives of citizens. People, including trans people, should not be denied appropriate medical treatment and it is not the place of the government to regulate who can participate in sports.

SB 10, sponsored by Senator Hough, will hold a hearing in your committee on Tuesday, April 1st. I oppose this bill, and I encourage you to defeat this bill in committee. SB 10 is first and foremost unconstitutional. It violates Article III, Section 23 of the Missouri Constitution. The bill intends to eliminate the expiration date of certain tax credits, but these tax credits cover multiple subject areas such as: Construction Child Care Motion Pictures Agriculture Economic Development Teacher Retirement Funding Criminal Justice Healthcare Higher Ethanol Many of these tax credits haven't been subjected to a state audit in almost 20 years or not at all. We don't know if the taxpayers are getting good value from most of these credits. From 2017-2021, there were over \$2.9B in tax credits redeemed. Does anyone know if the state got its moneys worth? Another reason I oppose this bill because of the potential financial impact on the state budget. According to the Fiscal Notes associated with this bill, the financial impact on the state is unknown and in some of the Fiscal Note's comments, the Department of Revenue cannot determine how many people have taken advantage of these tax credits. This potentially leaves the state vulnerable and will have a direct impact on Missouri's budget. Furthermore, some of the proposed tax credits are expired or expiring in 2025 and we have not heard a large demand from the public for extending these tax credits, making us believe extending these tax credits is not necessary. Another issue is the FRA provisions in this bill. For example, Medicaid blows a big hole in our budget. With the federal government reviewing every program, we don't know how the FRA may change. The state legislature as well as the state auditor have a fiduciary responsibility to investigate these tax credits to determine their effectiveness. This bill reeks of special interest carve-outs for political purposes and that's why the Government Efficiency Committee should KILL this bill.

The government should not be denying best-practice health care to anyone. With SB 10, politicians are denying best-practice health care to transgender young people, who already face increased risk to their mental health — not because they're transgender, but because of widespread discrimination against trans folks. Jefferson City lawmakers are once again inserting themselves into private health care decisions, dividing Missourians and trying to score political points at the expense of young people.

Please oppose SB 10. This bill threatens the fundamental rights and dignity of our neighbors, coworkers, friends and loved ones. Researchers across scientific fields confirm that transgender and non-binary individuals exist (Rosenfeld, 2017; Sun, 2019). I am a white, cis gender, married female and I support the ability of all people to choose their own health care how they see fit. I am concerned about the safety and well being of my friends and neighbors in the queer community. This bill will do real harm not only to these individuals, but also to the advancement of our society as Missouri businesses will not attract the best talent if we are exclusionary and deny individuals a right to exist.

In the middle of this mega bill, is the SAFE act. (Section 191.1720) which repeals the August 28, 2027, expiration date. This date was voted on and agreed to by previous legislators. To go against this now only proves that the legislators never intended to give parents and kids access to medical care they are currently receiving. This will end current medical treatment, or leave parents to drive many hours and making kids miss days of school just to get the treatment they could get close to home. For those unsure about the care- why do you feel that you know better than professionals, parents and kids what medical path they should take? How would you feel if your politician came to your medicine closet and told you- nope you can't take this anymore? Please vote no on this mega bill.

Please vote to **OPPOSE** SB 10 if it lists repealing the expiration dates of the following two items: **PARTICIPATION IN ATHLETIC COMPETITIONS DESIGNATED FOR THE OPPOSITE SEX** (Section 163.048) and **MISSOURI SAVE ADOLESCENTS FROM EXPERIMENTATION (SAFE) ACT** (Section 191.1720). These two items are meant to hide in the rest of this bill in order to get them passed without opposition. I oppose these laws and don't want the harm to trans kids to be made permanent in Missouri law. As far as school athletic competitions, trans kids just want to play sports like any other kid. Passing SB 10 will forever maintain a mountain out of a molehill for a situation long overseen by the MSHSAA. School sports are not in any danger from transgender students. The "SAFE ACT" isn't safe for trans kids so it shouldn't be permanent Missouri law. It doesn't protect Missouri's transgender minors but harms them and their families by interfering with their life saving private medical decisions while also dehumanizing and devaluing them. This is government at its worst, which the passage of SB 10 will forever maintain. Our transgender friends, family and neighbors seek only life, liberty, and happiness – as do we all. State laws and anti-trans lawmakers have no business interfering in the lives of transgender minors or adults, period. These laws are shameful and unnecessary for Missouri's transgender children and their families and **SHOULD** expire. Please **OPPOSE** SB 10.

Anyone who supports removing sunset clauses early is a liar. I may be a woman, and therefore unworthy of ordination, but I was taught that lying was against the Ten Commandments - those same Ten Commandments that some of you want posted in publicly governed public schools, in violation of the First Amendment. Don't you remember agreeing to these sunsets when you passed these hateful bills to begin with? Now, less than half of the agreed upon timeframe has passed and you want to go back on your collective word, eliminate the sunsets on the gender affirming care ban and the transgender athlete ban and make these bans will become permanent. These bans do and would continue to harm young people, who are at greater risk of suicide and self harm when they are not able to access the care and self-expression they need. Shame on you, who call yourselves Christians. As a mother, as a priest in the Episcopal Church, I was proud to march with my child at Trans Day of Visibility yesterday. I want them to be safe, to be healthy, to be loved, just as they are - made in the image of God.

Hello, I ask that you vote no on this bill due to the amendment that extend the ban on gender-affirming care. The government has no business interfering in healthcare decisions that are made between a patient and their doctor. Gender-affirming healthcare is potentially lifesaving care and very necessary.
