dictates what topics may be taught in Missouri's K-12 schools, banning lessons on equity or true historical events. The bill prohibits the teaching of what is often mistakenly called "critical race theory". The bill bans any teaching that may be construed to make students or parents feel that "individuals, by virtue of their race, ethnicity, color or national origin, bear collective guilt and are inherently responsible for actions committed in the past by others."In a State where our teacher pay is ranked 50th in the Nation, this bill would only make it harder to teach. It will be another hindrance to the growing problem of trying to keep our teachers and attract more qualified people to teach. This bill will not improve our State's education system, it will take us further backwards. No employers or families will be attracted to come here and those who are able, will leave. This will be detrimental to our State's economy and to the overall intelligence of our citizens. Aside from the burden on teachers and our State, this bill would harm our students. "Critical race theory" is not actually taught in Missouri's K-12 schools. It has become a buzz word to mean any kind of equity education or teaching of true historical events. It is just a political strategy to get more voters to the polls. All students must be taught the truth, painful and uncomfortable as it may sometimes be. We can no longer base our history knowledge on a lie. We must trust students to be able to establish their own perspectives on history. Students and children cannot be manipulated into believing a false history by banning conversations in the classroom about anything that makes certain parents feel uncomfortable.Many of our schools are already not teaching the full history of America, yet racism and inequality still exists, so clearly this approach has not worked. We must learn from our history, or be doomed to repeat it. We will not repeat it.
