31 that they are uniform throughout the state of Missouri and comply with the National Voter

23 government and with more than two hundred fifty thousand but fewer than three hundred fifty  
24 thousand inhabitants, the election authority shall provide for each polling place in its jurisdiction  
25 a number of ballots equal to one and one-third times the number of ballots cast in the voting  
26 district served by such polling place or at the polling place that served the voting district in the  
27 general election held four years prior. When determining the number of ballots to provide for  
28 each polling place, the election authority shall consider any factors that would affect the turnout  
29 at such polling place. The election authority shall keep a record of the exact number of ballots  
30 delivered to each polling place. For purposes of this subsection, the election authority shall not  
31 be required to count registered voters designated as inactive pursuant to section 115.193.
