FISCAL ANALYSIS

ASSUMPTION

§§537.039, 573.010, and 573.550 – Provisions Relating to Artificially Generated Material

Officials from the **Office of Attorney General (AGO)** assume any potential litigation costs arising from this proposal can be absorbed with existing resources. The AGO may seek additional appropriations if the proposal results in a significant increase in litigation or investigation costs.

Oversight does not have any information to the contrary. Therefore, Oversight assumes the AGO will be able to perform any additional duties required by this proposal with current staff and resources and will reflect no fiscal impact to the AGO for fiscal note purposes.

Officials from the **Office of the State Courts Administrator, Department of Elementary and Secondary Education, Department of Public Safety-Missouri Highway Patrol, Department of Social Services and Office of the State Public Defender** each assume the proposal will have no fiscal impact on their respective organizations.

In response to similar legislation, HB 2350 (2026), officials from the **Missouri Office of Prosecution Services** assumed the proposal will have no fiscal impact on their organization.

Oversight notes that the above-mentioned agencies have stated the proposal would not have a direct fiscal impact on their organization. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.

Oversight notes a violation of the provisions of this proposal results in a misdemeanor or felony charge which carries a fine in addition to any individual county/municipal fees and court costs. The fine revenue for the ticket goes to local school funds and court costs go to various state and local funds. Oversight assumes there will be some (less than \$250,000) amount of fine revenue from violations of the statute. For simplicity, Oversight will not reflect the increased revenue from fines and court costs to various state funds and local political subdivisions.
