## **FISCAL ANALYSIS**

### **ASSUMPTION**

#### **§37.1300 – Creation of the “Missouri GIS Advisory Council”**

Officials from the **Office of Administration – Information Technology Services Division (OA-ITSD)** assume that the impact of this legislation would be minimal and could be absorbed with existing staff and resources.

**Oversight** notes that the above-mentioned agency has stated the cost of the proposal could be absorbed within current appropriations. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.

Officials from the **Missouri National Guard (MONG)** state that a codified council may result in additional statutory requirements/due outs that may result in increased FTE time/effort spent on required council business. Adding future statutory or data requirements/responsibilities to the Department could lead to increased staffing requirements. It is possible that a codified council will result in additional direct or indirect costs through increased travel.

A codified council charged with this duty would most likely result in increased geospatial data development across the state, potentially reducing reliance on third party contracted data/imagery for Missouri National Guard sites.

Actual cost increase or avoidance will depend on the scope and direction the council would take.

**Oversight** assumes that this proposal establishes the Missouri GIS Advisory Council. Oversight does not anticipate a direct impact to the MONG. Oversight assumes any impact to the MONG would require additional action.

Officials from the **Department of Economic Development, Department of Elementary and Secondary Education, Department of Health and Senior Services, Department of Natural Resources, Department of Revenue, Department of Public Safety – Office of the Director, Department of Social Services, Missouri Department of Agriculture, Missouri Department of Conservation, Missouri Department of Transportation, University of Missouri System, Missouri House of Representatives, and Missouri Senate** each assume the proposal will have no fiscal impact on their respective organizations.

**Oversight** notes that the above-mentioned agencies have stated the proposal would not have a direct fiscal impact on their organization. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.
