FISCAL ANALYSIS

ASSUMPTION

§§334.870 & 334.880 – Respiratory Care Licenses Requirements

Officials from the **Department of Commerce and Insurance** assume the proposal will have no fiscal impact on their organization. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.

§§334.1950 – 334.1986 - Respiratory Care Interstate Compact

Officials from the **Department of Commerce and Insurance (DCI)** assume the legislation has not passed in the minimum number of required states. It is uncertain if the compact would be enacted in FY 27, FY 28 or FY 29. Once the compact is enacted the Board for Respiratory Care could be required to pay fees charged to member states including an annual assessment to cover costs of operations and activities of the compact commission. Similar legislation has not been passed in other states to assist with assumptions, nor can the department know the number of participants in such a compact within Missouri.

The department believes the costs of this bill can be absorbed within our current appropriations. However, should the cost exceed the anticipated amount, the department would request an increase to FTE and/or appropriations as appropriate through the budget process.

Oversight assumes any revenue generated from licensure fees will be immaterial and therefore will not be reflected in the fiscal note.

Officials from the DCI assume the cost of the proposal can be absorbed. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for this agency.
