FISCAL ANALYSIS

ASSUMPTION

§§376.1000, 376.1012 & 376.1017 - Multiple Employer Self-Insured Health Plans

In response to a previous version, officials from the **Department of Commerce and Insurance (DCI)** assumed this proposed substitute amends existing law related to multiple employer self-insured health plans. It would extend eligibility for participating in such a plan to two or more self-employed individuals, each with at least one common-law employee, and their dependents. It requires MEWAs to file annual statements and risk-based capital reports. Finally, it also revises the required surplus account amount for multiple employer self-insured health plans to be either \$600,000 or an amount equal to two times the authorized control level risk-based capital. In addition to the MEWA provisions, this proposal includes two additional provisions related to health insurance.

§376.1240 - Self-administered Hormonal Contraceptives

In response to a previous version, officials from the **Department of Commerce and Insurance (DCI)** assumed this proposal would put a sunset date of December 31, 2026, on current law that requires self-administered contraceptives be dispensed in a 90 or 180 day supply. It would require health carriers who currently provide coverage for self-administered contraceptives to provide such coverage for a year's supply of contraceptives dispensed at one time, beginning January 1, 2027. Since this requirement would only apply to carriers who already provide coverage for self-administered contraceptives and relate to how the products are dispensed, it would not be considered a new mandate.

DCI assumed the costs of this section of the bill can be absorbed within current appropriations. However, should the cost be more than anticipated, the department would request an increase to FTE and/or appropriations as appropriate through the budget process.

Officials from the DCI assumed the department can absorb the cost relating to the proposal. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for this agency.

Although, in response to the previous version, the **City of Kansas City** assumed no fiscal impact to this proposal, in response to similar legislation, HB 2370 (2026), officials from City of Kansas City assumed this section of the proposal could have a negative fiscal impact in an indeterminate amount.

Oversight assumes this section requires health benefit plans issued or renewed on or after January 1, 2027, that provide coverage for self-administered hormonal contraceptives, as defined in the act, to cover a supply of the contraceptives which is intended to last up to ninety days, or

up to 180 days for a generic self-administered hormonal contraceptive. **Oversight** will reflect a \$0 to Unknown cost to Local Political Subdivisions.

In response to a previous version, officials from the **Department of Social Services (DSS)** assumed his amendment applies to Chapter 376, it addresses prescription drugs which are carved out of managed care and covered under the MO HealthNet Fee-For-Service Program. As a result, this legislation would have no fiscal impact on managed care operations or rates.

Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for this agency.

Responses regarding the proposed legislation as a whole

Officials from the **Department of Health and Senior Services, Missouri Consolidated Health Care Plan, and Oversight Division** each assume the proposal will have no fiscal impact on their respective organizations.

In response to a previous version, officials from the **Missouri Department of Conservation** assumed the proposal would have no fiscal impact on their organization.

Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Officials from the **Department of Public Safety - Missouri Highway Patrol** defer to the Missouri Department of Transportation for the potential fiscal impact of this proposal.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other cities were requested to respond to this proposed legislation but did not. Upon the receipt of additional responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval to publish a new fiscal note. A general listing of political subdivisions included in our database is available upon request.
