FISCAL ANALYSIS

ASSUMPTION

§1.342 – Playground Construction

Officials from the **Department of Natural Resources (DNR)** assume per the 2018 master list of playgrounds Missouri State Parks (MSP) has 99 playgrounds. In estimate, without detailed survey of the system, 69 of the playgrounds have not had equipment replaced since pre-2010, however there is a good chance that they do meet requirements. Once playground equipment is replaced or identified, it is required to bring playground equipment into compliance with the 2010 ADA standards.

The high end - to bring all playgrounds into compliance w/o question: \$300k average cost per playground x 69 = \$20.7 M

The low end - to correct a couple of surfaces, provide accessible routes, and replace 10 playgrounds (in entirety) = \$3.9 M

Oversight is unsure how many of the parks will need such repairs, therefore, for the purpose of the fiscal note, Oversight will reflect range of zero (no repairs are needed) or unknown cost (repairs are needed) to general revenue.

Based on a brief review, **Oversight** notes that there are approximately 293 playgrounds in Missouri and estimates 194 (293 - 99) playgrounds maintained are maintained by local governments or private organizations.

Oversight notes that DNR estimates that if only one playground needs a surface correction, it would need to comply with the ADA 2010 rules for playground, and necessitate approximate cost of \$300,000, at the lower estimate. Therefore, Oversight will reflect range of zero (no repairs are needed) or unknown cost (repairs are needed) to local political subdivisions.

Officials from the **Office of Attorney General (AGO)** assume any potential litigation costs arising from this proposal can be absorbed with existing resources. The AGO may seek additional appropriations if the proposal results in a significant increase in litigation or investigation costs.

Oversight does not have any information to the contrary. Therefore, Oversight assumes the AGO will be able to perform any additional duties required by this proposal with current staff and resources and will reflect no fiscal impact to the AGO for fiscal note purposes.

Officials from the **University of Central Missouri (UCM)** assume no fiscal impact, unless UCM has plans for adding playgrounds. The ADA compliance requirements according to the proposed language would only apply to playgrounds built after the effective date of the legislation and therefore would not affect previously constructed playgrounds.

Oversight assumes local political subdivisions who currently have or will have playground equipment and will be required to comply with 2010 ADA standards for playground equipment could be impacted by this proposal. Therefore, Oversight will show a \$0 or unknown cost to colleges and university funds and local government for this proposal.

Officials from the **Office of Administration, Department of Elementary and Secondary Education, Department of Social Services, Office of the State Courts Administrator, Office of the State Public Defender, City of Kansas City, University of Missouri System and Northwest Missouri State University** each assume the proposal will have no fiscal impact on their organization. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

In response to similar legislation, HB 1244 (2025), officials from the **Missouri Office of Prosecution Services** and the **City of O'Fallon** each assumed the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other local political subdivisions were requested to respond to this proposed legislation but did not. Upon the receipt of additional responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval to publish a new fiscal note. A general listing of political subdivisions included in our database is available upon request.
