

HB 1736 -- COUNTY SALES TAXES FOR PARK PURPOSES (Wellenkamp)

COMMITTEE OF ORIGIN: Standing Committee on Conservation and Natural Resources

This bill allows sales taxes collected by a county for the purpose of funding a metropolitan park or recreation district to be used by the county for storm water management projects that are confined to the acquisition of land for the building of a park or greenway, or the deployment and augmentation of natural infrastructure or features, that would otherwise add to the benefits of the park to the community.

This bill is similar to HCS HB 1271 (2025).
