

HB 1764 -- SPECIAL ROAD DISTRICTS

SPONSOR: McGirl

Currently, certain special road districts are restricted to expend not more than one-fourth the district's revenue within the corporate limits of any city within the district.

This bill removes the restriction, but authorizes the Special Road District Board to limit an expenditure to the percentage equal to the road mileage within a city within the special road district divided by the total road miles of the special road district.

The bill allows the governing body of incorporated cities in Jackson County to exclude all property in the city from any special road district by ordinance. The exclusion of the property will apply beginning on January first of the year following the ordinance's approval. The special road district must not collect property tax from the excluded city and will have no obligation to expend revenues in the city.

This bill is similar to HB 47 (2025).
