

HB 2589 -- FRONT LICENSE PLATE REQUIREMENT

SPONSOR: Jones (12)

Currently, most motor vehicles require license plates on the front and rear of the vehicle.

This bill removes the front license plate requirement for most motor vehicles, excluding non-school buses, trucks, tractors, truck tractors, and truck-tractors licensed in excess of 12,000 pounds.

This bill is the same as HB 2425 (2026).
