

HB 2623 -- REPEALING THE DEATH PENALTY

SPONSOR: Thomas

Currently, the punishment for first degree murder or other class A felonies is either the death penalty or life imprisonment without eligibility for parole. This bill eliminates the punishment of the death penalty. Any person previously sentenced to death who has not yet been executed will not have his or her sentence modified unless otherwise allowed by law.

This bill is similar to HB 994 (2025).
