

HB 2740 -- RARE PEDIATRIC DISEASE RESEARCH

SPONSOR: Steinmeyer

This bill requires the University of Missouri system to establish a governance board composed of eight members as specified in the bill, that includes one member from the House of Representatives appointed by the Speaker of House and one member of the Senate appointed by the President Pro Tem of the Senate. The governance board is required to submit an annual report by December 31st to the General Assembly detailing the following:

- (1) Research projects related to radiotheranostics in the treatment of rare pediatric disease that have been initiated and completed;
- (2) Key outcomes achieved;
- (3) Funds expended and leveraged; and
- (4) Any legislative recommendations.

This provision expires on June 30, 2030.
