

HB 2746 -- THE DEPARTMENT OF REVENUE TAX MAPPING

SPONSOR: Williams

Currently, the Department of Revenue (DOR) provides a mapping feature on its website that displays sales and use tax information of all political subdivisions in Missouri.

Beginning July 1, 2027, DOR must prominently display links on the homepage of its website which direct the public to color-coded, interactive maps featuring data about sales and use taxes and to color-coded, interactive maps featuring data about property taxes in all political subdivisions in the State that have taxing authority.

All political subdivisions will provide DOR with data relating to property taxes by January 1, 2027. The DOR must also use the most recent publication of the Missouri State Auditor's report on property tax rates to update and maintain the property tax levy data each year.

This bill is similar to HB 411 (2025).
