

HB 2939 -- STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM

SPONSOR: Riggs

This bill requires the Statewide Transportation Improvement Program (STIP) to specify the county in which each project is to be performed and include itemized expenditures and expenses for each project.

After any project included in the STIP is completed, the Department of Transportation must submit an itemized expenditure report to each county with a project located within its jurisdiction.

By January 1st each year, beginning in 2027, the Department must make a report to the General Assembly detailing the Department's expenditures for projects in the STIP, and the report must include an itemization of such expenditures by county.
